

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The first less complete edition contains, besides other various readings, 6 verses in p. 50 against cardinal Mazarine, on account of which the cardinal caused a plot to be laid against him. Consult *Patin, lettres à Spon*, II. 174. *Menagiana*, III. 232 sq. In the enlarged and corrected edition, *Par.*, Joly, 1656. 8°. these 6 verses are

exchanged for 13 others in praise of Mazarine. This 2nd edition appeared under Quillet's name.

- 18405 QUINAULT, Ph. Théâtre. *Suivant la copie de Paris (Amst., Wolfgang), 1663. 12°. 2 voll.*

This neat edition, which is sought after, contains only the author's 12 first pieces, and neither his *Operas* nor the *Mère coquette*. His 14 *Operas* are to be found in the 3 first vols. of the *Recueil des opera. Suiv. la copie de Par. (Amst., Wolfgang), 1684 and 90. 12°.*

- 18405 — théâtre. Par. 1739 or 78. 12°. 5 vols. with plates.

The most complete editions, but not sought after.

QUINCY, see QUATREMÈRE.

- 18406 QUINCY, Charl. Sevín Marquis de. *Histoire militaire du*

Sought after by French military men, and not easy to be met with.

- 18407 QUINONES, J. de. *Explicacion de unas monedas de oro de emperadores Romanos, que se han hallado en el puerto de Guadarama.* Madr. 1620. 4°.

4 leaves of preliminary matter, 93 leaves, and 1 leaf with the colophon. Very scarce.

No more has yet appeared.

- 18412 — *poesias.* Madr. impr. real, 1802. 8°.

- 18413 QUINTILIANUS, Marcus Fabius. *Institutionum oratoriarum libri XII.* (edente J. Ant. Campano). Romæ, in via papæ prope S. Marcum (per Ph. de Lignamine), 3 Aug. 1470. fol.

The first edition, as is evident from this, that Andr. Aleriensis in the dedication of the following edition makes mention of it. That not U. Han but Ph. Lignamine was the printer, can hardly any longer be doubted according to Audifredi *Cat. edd. Rom.* p. 46, 47. 111–117, and *Dibdin Bibl.*

Spec. II. 305 sq. 281 leaves with 35 lines, without signatures, catchwords, and pagination. At the beginning are a letter of Campanus to the cardinal Fr. Piccolomini and the list of chapters in 4 leaves. Leaf 5^a begins the text of Quintilian without any further superscription, and the 1st line is, *Flagitasti quotidiano conuitio ut libros quos ad.* The Greek words are printed with Greek types, of which, as well as of the Latin types, Dibdin has given a facsimile, l. c. II. 307.

A copy on vellum is in the duke of Marlborough's library at Blenheim, see Dibdin's *Bibliomania*, p. 424, and Beloe's *Anecdotes*, IV. 236. An edition of 1468 by U. Han is a non-entity.

- 18414 — institutionum oratoriar. libri XII. (edente J. Andrea episc. Aleriensis). Romæ, Cr. Sweynheym et Arn. Pannartz, (1470). fol.

The second edition, not less scarce, of which only 275 copies were printed. 238 leaves with 38 lines, without signatures, catchwords, and pagination. The first 4 leaves contain the editor's dedication of 1470 to Paul II., Campanus's letter from the preceding edition and the list of chapters. Leaf 5^a begins the text, and the 1st line is, *M. Fabius Quintilianus Victorio Marcello Salutem.* The book ends in leaf 238^b with 8 verses, *Aspiciis illustris* etc. without any date, which must be taken from the dedication.

- 18415 — institutionum oratoriar. libri XII. ab Omnibono Leonicensi emendati. (Ven.), N. Jenson, 21 Maji 1471. fol.

A fine edition, but less scarce than the two preceding. 212 leaves (the last blank) with 39 lines, without signatures, catchwords, and pagination. The first 2 leaves (which are also sometimes at the end) contain a *tabula Quintilianæ*, or list of chapters. Leaf 3 is blank on the *folio recto*, and contains on the reverse a letter of Leonicensis to Moses de Bufarelis. Leaf 4^a begins the text without any farther superscription. Leaf 211^b is the colophon and leaf 212 is blank. The Greek passages are omitted, and an entire line is wanting in the 1st page of the 6th chapter of the 6th book. A copy on vellum, (two copies according to Dibdin's *Decam.* II. 373.) is in the Royal library at Paris. Mr. Hibbert of Clapham near London, now possesses a second; 491 fr. Gaignat; 500 fr. Vallière; 1515 fr. M'Carthy.

- 18416 — declamationes tres. Domit. Calderinus emendavit. Romæ, J.

Schurener de Bopardia, die penult. m. Oct. 1475. small fol.

The *editio princeps* of the *Declamationes* and extremely scarce, of which however only the *Gladiator*, *Sepulchrum incantatum* and *Gemini languentes* are to be found herein. 24 leaves with 35 lines, without signatures, catchwords, and pagination. Leaf 1^b is Calderinus's letter to Anellus Archamonus, leaf 2^a begins the text, (the 1st line is, *Incipit Gladiator*) and leaf 24^b is the colophon.

- 18417 — institutiones oratoriar. diligenter emendatæ. Medioli, Ant. Zarothus, 5 id. Jun. 1476. fol.

Scarce and tolerably fine. Spaces are left for the Greek words. 206 leaves with 41 lines and the signatures *a-s*, *g*, *o* and *R*. Leaf 1^a (signature *a i*) line 1 is *M. FABIVS QVINTILLIANVS VICTORIO MARCELLO. S.*

- 18418 — oratoriar. institutionum libri XII. (cum epist. Omniboni Leonicensi). Without place or date.

199 printed leaves, with 39 lines and the signatures *a-D*. It begins with 2 leaves of list of chapters. Then follows in leaf 3^b the same letter of Leonicensis, which is in the edition of 1471, and the 1st line is, *Euerendissimo in christo patri: ac domino meo observadissimo do.* But the passage in which the printer Jenson is mentioned is omitted here. The text commences in leaf 4^a, and the 1st line is, *M. CELSVS FABIVS QVINTILLIANVS TRIPHONI BI.* This edition is merely a reprint of Jenson's of 1471, even with the same error of omission in l. VI. c. 6.; but the Greek words are here inserted. It was decidedly printed at Venice (as is evident from the paper mark of the scales) and, as I think, by J. de Colonia about 1477.

- 18419 — declamationes (XIX.) exactissime recognitæ. Ven., Lucas Venetus, 4. non. Augusti 1481. fol.

The *editio princeps* of these 19 declamationes, and superintended by J. Grasolarius. 122 leaves with 35 lines and the signatures *a-f*. Leaf 1^a begins with the editor's letter to Gr. de Priotis, the text follows in leaf 2^a. Leaf 122^a is the colophon, and on the reverse a *register*.

- 18420 — declamationes (XIX.) exactissime recognitæ. Ven., Lucas Venetus, nonis Junii, 1482. fol.

Merely a repetition of the preceding. 88 leaves (the 1st blank) with 38 lines, and the signatures, *a-o*. Leaf 2^a is the same letter of Grasolarius, leaf 3^a begins the text, and the 1st line is, *M. FABII*

QVINTILIANI ELOQVENTISSIMI. The text ends in leaf 87^b, and leaf 88^a is the colophon and a *register*.—An edition of the *Institut. orat. cum comm. Rph. Regii. Ven., Lucas Ven., nonis Jun.* 1482. fol. (Panz. III. 182, 619.) is very suspicious.

18421 — declamationes. Ejusdem oratoriar. institutionum libri XII. (recogniti per And. Ponticum). Tarvisii, Dion. Bononiensis ac Peregrinus, 22 Oct. 1482. fol.

190 leaves with 40 lines and signatures. Leaf 1^a line 1 is, M. FABII QVINTILIANVS ELOQVENTISSIMI DECLAMATIONES. The declamations end in leaf 53^a with the word FINIS, and at end of the *Institut.* leaf 190^b, are the colophon and a *register*. The *Declamatt.* are sometimes found by themselves, (as at Dresden) and then they appear to be an undated edition, and they are thus quoted in Panzer IV. 182, 1031, and in the Bipont *notis. litt.* p. XXVIII. and XXX.

18422 — declamationes. Without place, Ln. de Basilea, without date. fol.

There is a copy of this edition according to Denis's *Suppl.* II. 647, in the Imperial library at Vienna. Since then no second copy has as yet been known.—*Institut. oratoriar. cum annot. Rph. Regii. Mediol.* 1491. fol. (Panz. III. 66.) is not sufficiently accredited.

18423 — Quintilianus cum commento (institut. oratoriar. cum Rph. Regii annotatt. in earundem depravationes.) Ven., Locatellus, 16 cal. Sextil. MCCCCLXCIII. (instead of 1493). fol.

206 unnumbered leaves (the last blank) with signatures. The first 2 leaves, (the title and list of chapters) are without signatures, and are not reckoned in the *register*. Regius's unfinished notes, which had previously appeared by themselves, *Ven. Octav. Scoetus*, 1491, are more occupied with criticisms than with explanations.

18424 — declamationes CXXXVI. Parmæ, Ang. Ugoletus, 5 non. Jul. 1494. fol.

The first edition which contains 136 (properly 137) declamations; superintended from a MS. by Thaddeus Ugoletus. 96 leaves, with the signatures a-o.

18425 — institutiones cum commento Lr. Vallensis, Pomponii (Læti) ac Sulpitii. Ven., Peregrin. de Pasqualibus, 18 Aug. 1494. fol.

248 leaves (the last blank) with the signatures a-k. The notes of Vallensis and Lætus only go as far as the 1st and 2nd books; from the 3rd book onward, there are only those of Rph. Regius (not of Sulpicius, of whom there is nothing at all in this edition). The text is altered according to Regius's conjectures.

18426 — institutt. oratoriar. cum Rph. Regii annotatt. Ven., J. de Tridino, 1496. fol.

Also, without place, 12 Maji, 1506. fol. An edition of the *Institut. Roma*, 1496. fol. is very doubtful.

18427 — Quintilianus (institut. orat.) without place, (*Lugd.*) 7 cal. Jul. 1510. 8°.

4 leaves of preliminary matter, and 373 unnumbered leaves, with the signatures a-ss. Superintended by Gf. Torinus, and printed in Italics. There is in the title a red lily. The text contains nothing new. It has been sometimes taken for a Juntine, erroneously, as there is no Juntine of 1510.

18428 — oratoriar. institutionum (sic). Una cum annotatt. Rph. Regii in depravationes ejusd. Et tabula per alphabetum noviter addita. Ven., G. de Rusconibus, 14 Aug. 1512. fol.

4 leaves of preliminary matter and 199 numbered leaves. A more correct reprint of the edition of 1493.

18429 — M. F. Quintilianus (institut. orat.) Ven., Aldus et And. socer, m. Aug. 1514. small 4°.

4 leaves of preliminary matter, (the 4th blank) and 230 numbered leaves. 3 copies on blue paper are known; one in the Royal library at Paris, the 2nd in the possession of the marquis Fagnani of Milan, and the 3rd was sold at Cotte's sale for 100 fr. It was superintended by And. Naugerius, but has little of its own.

18430 — M. F. Quintilianus (institut. orat.) Flor., Ph. Junta, m. Oct. 1515. 8°.

4 leaves of preliminary matter, 269 numbered leaves, and 1 leaf with the lily. More scarce than the Aldine, yet but of little intrinsic importance.

18431 — oratoriar. institutionum libri XII. una cum annotatt. Rph. Regii, G. Merula et Jod. Badii Ascensii in depravationes earundem. Et tabula per alphabeti seriem: tam in contextu quam in scholiis

adnotandorum aucta et recognita per eundem Ascensium, qui ad codicem, quem Lr. Vallensis possedisse et emendasse convincitur, sexcentos locos restituit. Par., in ædd. Ascens., id. Jan. 1516. fol.

8 leaves of preliminary matter, and 256 numbered leaves. Spalding greatly praises Badius's notes. The *Declamatt.* are not in this edition. Repeated, Par., *le Preux*, 1527. fol.

18432 — oratoriar. institutiones. Without place, (*Lugd.*), 19 Nov. 1518. 8°.

This reprint of the above edition of 1510, is neither fine nor correct.

18433 — oratoriar. institutionum libri XII. una cum XIX. declamatt. ad horrendæ vetustatis exemplar repositis. Par., Badius Ascensius, 1519. fol.

6 leaves of preliminary matter and 159 numbered leaves. It varies greatly from Ascensius's edition of 1516, and is without notes. The MS. that is mentioned, contained only the *Declamatt.*

18434 — oratoriar. institutt. libri XII. Una cum XIX. sive ejusd. sive alterius declamatt. ad horrendæ vetustatis exemplar repositis et nunc iterum in Gallia impressis. Par., in ædd. Ascens., 1520. 4°.

10 leaves of preliminary matter, 212 and 88 numbered leaves. Probably only a reprint of the preceding.

18435 — oratoriar. institutt. libri XII. una cum XIX. declamatt. ad horrendæ vetustatis exemplar repositis. Col., Cervicornus et Fuchs, 1521. fol.

6 leaves of preliminary matter, and 159 numbered leaves. With a preface by Gf. Hittorp. Likewise a reprint of Ascensius's edition of 1519.

18441 — institutionum oratoriar. libri XII. ad fidem vetustissimi exemplaris recens jam recogniti. Ejusd. declamationum liber. Bas., Bebel, 1529. fol.

Superintended by J. Sichard, who did not collate carefully enough a codex sent to him from Poland, and made use of it with too little preparation and too confusedly.

18442 — institutiones cum notis Pt. Mosellani et Rph. Regii. Acc. declamatt. Par., Ascensius, 1531. fol.

18443 — institutiones oratoriar. ac declamatt. ex codicum vett. collatione recognitæ. Quibus addi possunt commentarii et Pt. Mosellani annotatt. Par., Ascensius, 1533. fol.

Earlier editions, *ib.*, *id.*, 1531, 34 and 35. 8°. are quoted. Repeated, *ib.*, *id.*, 1540, 44, 49 and 55. 8°. *ib.*, *Ant. Gryph.*, 1575 and 85. 8°.

18446 — institutt. oratoriar. et declamatt., omnia ad vett. codicum fidem recognita et restituta. Par.,

pro hered. Ascensii (*excud. Tiletanus*), 1536. fol.

J. L. Tiletanus asserts that he has made use of MSS. and has added conjectures. Pt. Mosellanus's notes are included. The following is probably only another title, *Par., Jac. Kerver, 1536. fol. Repeated, Par., Roigny, 1541. fol.*

18447 — oratoriar. institutionum libri XII. restituti pene in universum sibi, op. et industria Jo. Camerarii, J. Sichardi aliorumque doctissimor. Adjecta est præcipuor. locor. libri I. et II. ejusd. Camerarii expositio. Cum castigatt. Gu. Philandri. Col., J. Gymnicus, 1536, or 41, or 55. 8°.

With Gybertus Longolius's preface. Reprinted with the same title, *Bas., Bths. Lasius, 1541. 8°.*

18448 — institutionum oratoriar. libri XII. ad fidem vetustissimor. codd. recogniti ac restituti. Ejusd. declamationum liber. Additæ sunt Pt. Mosellani et Jo. Camerarii annotatt. Acc. commentarius Ant. Pini. *Par., Vasconius, 1538. fol.*

4 leaves of preliminary matter, 224, 34 and 33 numbered leaves. With a preface of Vasconius, in which he asserts that he has made use of very old MSS. Repeated and enlarged, *ib. id. 1542. fol.*

18449 — institutionum oratoriar. libri XII. ad fid. vetustissimor. codicum recogniti ac restituti. Ad-dita Pt. Gallandii argumenta (item Quintil. declamatt.) *Par., Chevallon, 1538. fol.*

8 leaves of preliminary matter, and 128 numbered leaves. Then 50 leaves, *Declamatt.*, with a separate title. Galland divided Quintilian into small sections, and sometimes corrected the text, *veterum exemplarium fide*, as he says.

18450 — oratoriar. institutionum libri XII. castigati ad fid. optimor. exemplarium, insignitaque lectionis distinctione et additis in marginem (*sic*) adnotationibus percommode illustrati. (Acc. declamatt.) *Par., Fr. Gryphius, 1539. 4°.*

4 leaves of preliminary matter, 228 numbered leaves (*Instituti.*) and LXVI. (*Declam.*). It appears to contain Galland's text. Repeated, *ib., id., 1543. 4°.*

18451 — oratoriar. institutionum libri XII. castigati ad fidem optimor. exemplarium, insignitaque lectionis distinctione et additis in marginem adnotationibus percommode illustrati. *Par., Sim. Colinaeus, 1541. 4°.* 4 and 250 leaves. Declamatt. diligenter recognitæ. *ib., id., 1542. 4°.* 84 leaves.—2 parts in 1 vol.

According to Sallengre, *Mém. de littérat.* I. 173, this edition is very correct, and has been unreasonably neglected by later editors.

18452 — de institutione oratoria ad Marcellum Victorium libri XII. *Par., Mch. Vasconius, 1542. 4°.*

4 leaves of preliminary matter, and 300 numbered leaves.

18453 — institutionum oratoriar. libri XII. (cum ind.) *Par., Rb. Stephanus, 4 non. Mart. 1542. 4°.*

Colinaeus's text of 1541, with the addition of some various readings in the margin.

18454 — oratoriar. institutionum libri XII., op. Jo. Camerarii, J. Sichardi aliorumque viror. restituti et illustrati; acc. Gu. Philandri castigatt. et declamationum liber cum scholiis et argumentis. *Bas., Rb. Winter, 1543. 4°.*

Concerning the disputed edition, *Par., Gu. Morellius et Jac. Bogardus, 1548. 4°.* which according to some is said to have appeared in 1528, and according to others never to have existed at all, consult *Archimbaud Recueil nouveau de pièces fugitives.* T. I. (*nouvell. litt.*) p. 85 sq.

18455 — institutionum oratoriar. libri XII. summa diligentia ad fid. vetustissimor. codd. recogniti et restituti. Acc. Camerarii cæterorumque doctor. viror. explicatt. et annotatt., cum castigatt. Gu. Philandri suo loco adjunctis. *Antw., J. Loet, 1548. 8°.*

18456 — de institutione oratoria libri XII. ad fid. vetustissimor. codd. correcti et emendati, argumentaque Pt. Gallandii longe quam antea castigatioribus et plenioribus elucidati. Ejusd. Quintiliani declamationum (XIX.) liber. L. Annæi

Senecæ declamationum liber unus, cum Rdf. Agricolæ commentariis. Pt. Mosellani annotatt. in VII. libros priores. Jo. Camerarii in primum et secundum. Commentarius Ant. Pini in tertium. Par., Vasconianus (other copies *Audoenus Parvus*), 1549. fol.

18457 — oratoriar. institutionum libri XII., Jo. Camerarii, J. Sichardi aliorumque op. ac studio jam olim partim ex melior. codd. collatione restituti sibi, partim annotationib. illustrati. In quibus nunc præter Gu. Philandri castigatt. innumera menda sublata sunt multorumque locor. emendatior lectio constituta est, stud. Jac. Hertelii. Cum indice rer. et verbor. Bas., N. Bryling., 1561. 8°. — Declamationum liber. ib., id., 1557. 8°.

A new revision of the text after the conjectures of previous editors. Repeated, Bas., ex off. Bryling., 1579 (the *Declamationes*, 1578). 8°. Previously, ib., id., 1548 and 55. 8°.

18458 — declamationes CXXXVI. Pt. Erodii studio castigatæ. Par., Fed. Morellus, 1563. 4°.

A new recension from conjecture, yet the earlier readings are noted in the margin, where also some conjectures are given, which he did not venture to introduce into the text. The explanations are chiefly obtained from the Roman law.

18459 — de institutione oratoria libri XII. ad fid. vetustissimor. codd. recogniti ac restituti argumentisque Pt. Gallandii elucidati. Additæ sunt Pt. Mosellani et Jo. Camerarii annotatt. Acced. commentarius Ant. Pini. Ejusd. Quintiliani declamationes, quibus addidimus Persualdi Belingenii annotatt. Ven., Hi. Scotus, 1567. fol.

Previously, less complete, Ven., Scotus, 1546. fol.

18460 — institutionum oratoriar. libri XII. summa diligentia ad fid. vetustissimor. codd. recogniti ac restituti. Cum rerum verborumque ind. Declamationum liber ejusd. (*Genev.*), exc. Jac. Stoer, 1580. 8°.

The *Declamatt.* have a separate title of 1579. Also, (*ib.*), id., 1591. 8°.

17461 — declamationes, quæ ex 388 supersunt, 145, ex veteri exemplari restitutæ. Calpurnii Flacci excerptæ X. Rhetorum minorum LI. nunc prim. editæ. Dialogus de oratoribus a. de causis corruptæ eloquentiæ, ex bibl. Pt. Pithœi. Lutet., Patisson, 1580. 8°.

In this important, but not entirely correct edition, 9 declamations appeared for the first time. Renouard possesses a copy on vellum.—*Hdlb.*, *Hi. Commelinus*, 1594. 8°. 16 leaves of preliminary matter, 458 pages and 11 leaves, various readings and notes, is a verbal reprint.

18462 — institutionum oratoriar. libri XII. summa diligentia ad fid. vetustissimor. codd. recogniti ac restituti. Acc. declamatt., quæ tam ex Pt. Pithœi quam alior. bibliothecis et editionibus colligi poterunt. Index quoque in institutionum libros. Excud. Jac. Stoer, 1604. 8°.

Often repeated.

18463 — institutionum oratoriar. libri XII. summa diligentia ad fid. vetustissimor. codd. recogniti ac restituti. Acced. declamationes. Cum Turnebi, Camerarii, Parei, Gronovii et alior. notis. Cum ind. locupletissimo. LB. et Rot., Hack, 1665. 8°. 2 voll.

One of the rarest editions of this series, and greatly sought after. Little is done to the *Institut.*, but Gronovius has given a new recension of the *Declamatt.*

18464 — declamationes cum ejusdem, ut nonnullis visum, dialogo de causis corruptæ eloquentiæ. Quæ omnia notis illustrantur. Ox., th. Sheld., 1692. 8°.

Previously, Ox., th. Sheld., 1675. 8°.—*Declamatt. Palav.* 1689. 12°. Ven. 1689 or 1727. 12°.

18465 — de institutione oratoria libri XII. Cum duplici ind. Ex tribus codd. MSS. et octo impressis emendavit atque lectt. variantes adjec. Edmund. Gibson. Acced. emendationum specimen et tribunus Marianus declamatio, nunc prim. ex cod. MS. edita. Ox., th.

Sheld. 1693. 4°. Also on large paper.

According to the index there ought to be, 1 leaf *emendanda*, 8 leaves *emendati*, and 4 leaves *tribunus Marianus declamatio*. Fine and prized. A new recension, but the various readings are incompletely and negligently given. The reprints, *London*, E. P., 1714. 8°. (which was wrongly doubted by Hamberger) and *ib.*, *Nicholson*, 1716. 8°. are enlarged with Turnebus's notes.

18466 — de institutione oratoria libri XII. et ejusd. declamatt. Omnia innumeris locis emendata ex rec. U. Obrechtii. Arg., Dulsecker 1698. 4°. 2 voll. Also on writing paper.

Obrechtus made use of a good Strasburg MS., but he inserted his corrections too boldly into the text, and was prevented by death from giving the grounds of his alterations. These notes were to have formed a 3rd vol.

18467 — institutionum oratoriar. libri XII. ad us. scholar. accommodati, recisus, quæ minus necessaria visa sunt, et brevibus notis illustrati a C. Rollin. Par., Estienne, 1715. 12.

Repeated, *ib.* 1734, 41, 54, 74, and 1809. 12°. 2 voll. *Ed. nova, cura Thph. Cp. Harles. Altenb., Richter*, 1773. 8°. (1 d. 8 gr.)

18468 — de institutione oratoria libri XII. Declamationes XIX. majores, et quæ ex 388 supersunt, CXLV. minores, et Calpurnii Flacci declamatt. Cum notis et animadv. viror. doctor., curante Pt. Burmanno. LB., Vivie, 1720. 4°. 2 parts in 3 vols. Also on large paper.

A new recension from MSS. and the earlier editions, with the complete exegetical apparatus of the previous editors. But Burmann neither had knowledge of ancient rhetoric, nor has he completely imparted the various readings. Thereto belong, *Pt. Burmanni Epistola ad Cl. Capperonnerium de nova ejus Quintiliani de institutione oratoria editione. Leida, Luochtmans*, 1726. 4°. Also on large paper.

18469 — de oratoria institutione libri XII. Totum textum recognov., emendav., selectas varior. interpretum notas recensuit, explanav., castigavit; novas adjunxit Cl. Cap-

peronnerius. Par., Constelier, 1725. fol. Also on large paper.

Capperonnerius possessed a good knowledge of ancient rhetoric, and has afforded much that is good in the explanations; on the other hand he made almost no use at all of the Paris MSS. and he is deficient in a critical and radical knowledge of the language. His and Burmann's edition ought to be had together.

18470 — de institutione oratoria libri XII. recogniti et emendati per Pt. Burmannum, cum H. Dodwelli annalibus Quintilianeis et ind. locupletissimo. Acc. dialogus de oratoribus incerti auctoris (studio Vulpiorum fratrum). Patav., Cominus, 1736. 8°. 2 voll.

Correct and neat. A copy on blue paper 2l. 12s. 6d. Pinelli, and 24 fr. M'Carthy.

18471 — de institutione oratoria libri XII. collatione codicis Gothani et Jensonianæ editionis aliorumque libror. illustrati a J. Mthi. Gesnero. Acc. præfatio et indd. copiosissimi. Gött., Vandenhoeck, 1738. 4°. Scarce on large paper.

Gesner has afforded much in elucidation, but little in criticism.

18472^a — opera ad optimas edit. collata. Biponti, 1784. 8°. 4 voll. (2 d. 6 gr.)

18472^b — de institut. orat. libri XII., recens. Fr. G. Pottier. Par. 1812. 12°. 3 voll. Pottier commentaire sur le I. livre de l'institut. or. de Quint. *ib.* 1813. 12°.

18473 — de institutione oratoria libri XII. Ad codicum vett. fidem recensuit et annotatione explanav. G. L. Spalding. T. I–III. Lps., Crusius, 1798–1808. T. IV. (cura Ph. Buttmanni). Lps., Vogel, 1816. 8°. 4 voll. (9 d. 16 gr., on vellum paper 15 d.)

A 5th vol. with the indices and additional notes is still wanting. It is a pity that the excellent Spalding commenced his edition with so insufficient an apparatus.

18474 — de institutione oratoria libri XII. Juxta edit. Gotting. J. Mthi. Gesneri. Accedunt præfatio et indd. copiosissimi. Ox., typ. Clarend. 1806. 8°. 2 voll. (1 l.)

18475 — de institutione oratoria libri XII., curante J. Ingram. Ox. 1809. 8°. (10s. 6d.)

18476 — de institutione oratoria libri XII. ex edit. Gesneri. Edinb. 1810. 12°. 2 voll.

18477 — de institutione oratoria libri XII., ex rec. Spaldingii ad us. scholar. accommodati. Subjectæ sunt notæ exegeticæ partim Spaldingii ad compendium conlatæ, partim novæ, in fine additi indd. Curante Gf. A. Bd. Wolff. Lps., Vogel, 1816–21. 8. 2 voll. (2 d. 4 gr.)

— dial. de causis corr. eloq. s. TACITUS.

18478 — instituições rhetoricas de Quintilliano, accommodadas aos que se applicão ao estudo de eloquencia por Pedro José da Fonseca, e trad. do latim em portuguez por João Rozado de Villa Lobo e Vasconcellos. Lisb. 1794–1800. 8°. 2 voll. (720 rees.)

18479 — instituciones oratorias, traducidas y anotadas, segun la edicion de Rollin. Madr., Ranz, 180 . . 8°.

It had probably already appeared before 1800.

18480 — L'institutioni oratorie, trad. da Oratio Toscanella. Ven., Giolito, 1566, or 67, or 68, or 84. 4°.

These different editions are only new titles of one and the same impression. A new translation by Garilli, *Vercelli*, 1780, is of little value.

18481 — le api del povero, declamazione di Quintiliano, trasportata nell' idioma ital. con varie osservazioni da Bd. Pasqualigo. Ven., Orlandini, 1734. fol.

18482 — de l'institution de l'orateur avec les notes hist. et littéraires, par M. M. D. P. (Mch. de Pure.) Par., Bienfait, 1663. 4°. 2 parts in 1 vol.

18483 — de l'institution de l'orateur, trad. par (N.) Gedoy. Par., Dupuis, 1718. 4°. Also, Par., Nyon, 1572. 12°. 4 voll. Par., Bailly, 1769–70. 12°. 4 voll. Ed. IV. re-

vue, corrigée et augm. des passages omis par le traducteur, d'après un mémoire manuscrit de (J. Agst.) Capperonnier (par Félicissime Adry). Par., Barbou, 1803. 12°. 4 voll. (15 fr., on fine paper 24 fr.) Avec le texte lat. Par., Volland, 1810. 8°. 6 voll. (25 fr., only 12 copies on vellum paper at 72 fr.) Lyon, 1812. 8°. 6 voll.

Gedoy's translation is very careful and elegant, but nevertheless he has often not attained the meaning.

18484 — les grandes declamations, nouvellem. trad. en franç. par du Teil. Par., Loyson, 1658. 4°.

18485 — Lehrbuch der schönen Wissenschaften in Prosa, aus dem Lat. von H. Ph. Cr. Henke. Helmst., Kühnlin, 1775–77. 8°. 3 voll. (1 d. 12 gr.) — Die rednerische Stylbildung nach antiken Grundsätzen od. das 10e Buch von Quintilian's Lehrgebäude der Redekunst, aus dem röm. Steffens (mit lat. Text). Zelle, Schulze, 1766. 8°.

18486 — institutes of eloquence, transl. into Engl., with notes critical and explanatory by W. Guthrie. Lond. 1756 or 1805. 8°. 2 vols. (16s.) — Institutes of the orator, translated from the original Latin, according to the Paris edition of Rollin, and illustrated with notes by J. Patsall. Lond., Law, 1774. 8°. 2 vols. (12s.) — Declamations, translated from the Oxford edition (by Warr). Lond., Taylor, 1686. 8°.

18487 — mowy sadowe mnieyane M. F. Kwintyliana z lacinskiego przez X. Sirucia. Wilna, 1771. 8°. 2 voll. (8 Polish fl.)

18488 — Pt. Mosellani in Quinctiliani rhetoricas institutt. annotationes. Bas., Ad. Petri, 1527. 8°.

or Lugd., Sb. Gryphius, 1535 or 41. 8°. — Gu. Philandri castigatt. atque annotatt. in XII. libros institutt. Quintiliani. Bas., Bm. Westhemer, 1536. 8°. — In Fab. Under the name of Jonas Philologus, J. Gonthier of Andernac is concealed, according to Barbier, *Dict. des anon.* III. 532. — Detailed notices respecting Quintilian are to be found in *Flores España sagrada*, T. 53. p. 55–112, where also it is for instance proved on new grounds, p. 82–85, that he was not the author of the dialogue *De causis corr. eloq.*

18489 QUINTUS Calaber s. Smyr-

neus. *Derelictorum ab Homero libri XIV. (Tryphiodori excidium Trojæ, et Coluthi raptus Helenæ, gr.)* Without place or date (*Ven., Aldus*, 1505). 8°.

Very scarce, and the *editio princeps* of all the 3 poems, but from a very corrupt MS. Altogether 172 unnumbered leaves with the signatures *a-gg*, namely, 152 leaves, Quintus; 12 leaves, Tryphiodorus; and 8 leaves, Coluthus. 3 copies on vellum are known: one in the Laurentian library (*Bandini Codd. gr.* II. 103), the 2nd in the library of the king of England, and the 3rd in lord Spencer's (from M'Carthy's sale at 500 fr.). This last, which is greatly cut, according to Dibdin, *Decam.* III. 173, is quite a different impression in typographical arrangement from the paper copies, although there is as much in every page of this as of those.

18490 — *prætermissor. ab Homero libri XIV. (Tryphiodori excidium Trojæ, et Coluthi raptus Helenæ, gr., cum præf. J. Th. Freigii).* Bas., Henricpetri, 1569. 8°.

8 leaves of preliminary matter (the 7th and 8th blank), 341 pages, and 1 leaf with the colophon. An incorrect reprint of the Aldine.

18491 — *Cointi Smyrnæi Ilii excidii libri II. Reditus Græcorum, capta Troja, liber unus. Expositi olim in schola Ilfeldensi et editi nunc studio, industria et labore Lr. Rhodomanni (gr. lat.)* Lps., Vögelin, (1577). 4°.

137 pages with the signatures *Oo-Ggg*. This work is in fact a piece from *Neandri Opus aureum*, T. II. but separate copies are also sometimes to be met with. It consists of the 12th to 14th books with some corrections, and with Mch. Neander's Latin translation.

18492 — *Quinti Calabri paraleipomena i. e. derelicta ab Homero, XIV. libris comprehensa. Latine olim reddita et correctæ a Lr. Rhodomanno. Nunc accessit epitome gemina, tum Homeri et Cointi tum universa (sic) historię Trojanæ. Itemque Dionis Chrysostomi oratio de Ilio non capto. Auctore et interprete eodem. (Omnia gr. lat.)* Hanov., typis Wechel., 1604. 8°.

16 leaves of preliminary matter; 709 pages, Greek text and translation; 38 leaves, index, *emendatt. et notæ*; 283 pages,

Tempora and *Dio Chrysost.*; and 1 leaf with the printer's symbol. A new recension, in which however Rhodomannus did not make use of the Aldine. In the text itself almost all the typographical errors of the Basle edition only are corrected, the appended emendations are therefore the more important. The printing is nevertheless very incorrect. Concerning Rhodomann's two editions see *Langii vita Rhodom.* p. 283 sq. and 375 sq. He was unworthily handled by Dausquejus and Pauw, see *ib.* p. 224.—Thereto is to be joined, *In Q. Calabri s. Coisinti Smyrni paralipomenon libros XIV. Cl. Dausqueji adnotamenta. Item in Tryphodorum et Coluthum. Ff., in offic. Aurbriana, 1614. 8°. 8 leaves of preliminary matter, and 309 pages.*

18493 — *Troja expugnata s. supplementum Homeri. . . auctore Quinto Calabro græce, interprete Lr. Rhodomanno, cum Cl. Dausqueji adnotamentis etc. Ff. 1614. 8°.*

Only a new title to the preceding edition, with the addition of Dausquejus's notes.

18494 — *prætermissor. ab Homero libri XIV. græce, cum vers. lat. et integris emendatt. Lr. Rhodomanni, et adnotatt. selectis Cl. Dausqueji, curante J. Corn. de Pauw, qui suas etiam emendatt. addidit. LB., Abcoude, 1734. 8°.*

Neat, and sought after for the series *cum notis variorum*, but cursorily and carelessly superintended. Rhodomann's text is repeated with all its faults, and with only a few corrections from the Aldine. Scaliger's, Sylburgius's, and Falkenburgius's unprinted notes are also imperfectly made use of, and the editor's own criticisms are extremely arbitrary, and frequently unhappy. The faults of this edition are severely censured in *Jac. Ph. d'Orville Vannus critica in inanes Pannonis paleas. Amst. 1737. 8°. p. 346 sq. 572 sq.*

18495 — *posthomerico. libri XIV. gr. Nunc prim. ad libror. MSS. fidem et viror. doctor. conjecturas recens., restituit et supplavit Th. Ch. Tychsen. Access. observatt. Ch. Glø. Heynii. T. I. Arg., typogr. societ. Bipont., 1807. 8°. (3 d. 8 gr.) Also on vellum paper.*

This vol. only contains the text, a 2nd vol. (notes) has not appeared.

- 18503 — specimen variae literaturæ, quæ in urbe Brixia ejusque ditione paulo post typographiæ incunabula florebat, scilicet vergente ad finem sec. XV. usque ad medietatem sec. XVI. Brix., Rizzardi, 1739. large 4°. 2 parts in 1 vol.

Unfinished. The spirit of a Mazzuchelli or of a Tiraboschi did not rest on this author, and his eternal meddling disposition never suffered him to arrive at any completion. But rich materials, for instance the Vatican, were at his command, and consequently his raw collection affords valuable single notices. In this and the following work the impression of the original prefaces of the first editions of the classics is particularly valuable.

- 18504 — (*anon.*) Pauli II. Pont. Max. vita, ex cod. biblioth. Angelicæ biblioth. desumpta, præmissis ipsius vindiciis adversus Platinam aliosque obtrectatores. Romæ, Ant. de Rubeis, 1740. large 4°.

Interesting on account of the appendix of the typographical productions which appeared at Rome, during the government of Paul II.

- 18505 — liber de optimor. scriptor. editionibus, quæ Romæ primum prodierunt post typographiæ inventum, cum adnotatt. et diatriba præliminari J. G. Schelhornii. Lindauigiæ, 1761. 4°. (1 d. 12 gr.)

A separate impression of the appendix of the preceding work with valuable additions.

- 18506 — decas I—X. epistolarum (latinar.) (*Brix.* 1742–54). large 4°. 10 voll.

Complete copies are scarce.

- 18512 RABELAIS, Fr. Chroniques du grant et puissant geant Gargantua. Nouvellement imprim. à Lyon, 1533. oblong 8°. Gothic letter.

23 numbered leaves, and 1 unnumbered leaf. The Dresden copy of this hitherto unknown edition of the 1st book has no title-leaf, and the above title is only taken from the colophon. It is the earliest edition yet known, although perhaps it is not the oldest of all. The remaining separate editions of this 1st book are: *La vie inestimable du grand Gargantua, pere de Pantagruel, composée par l'abstracteur de quinte-essence, liere plein de Pantagruelisme.* Lyon, Fr. Juste, 1535. 16°. *La plaisante et joyeuse histoire du grand géant Gargantua.* Lyon, Dolet, 1542. 12°. with woodcuts. *La vie très-horrible du grand Gargantua.* Lyon, Fr. Juste, 1542. 16°. *Grands annales ou chroniques très-véritables des gestes merveillex du grand Gargantua et Pantagruel son fils.* Without place, 1542. 8°. This edition contains the 1st and 2nd books. *La plaisante et joyeuse histoyre du grant geant Gargantua.* Prochainement revus, et de beaucoup augmentés par l'Auteur mesme. Valence, Ch. la Ville, 1547. 12°. with bad woodcuts, 245 pages; there is an *édit. contrefaite* of this last, under the same title and with the same date, likewise of 245 pages in 12°.

with somewhat better woodcuts, which was probably printed at Geneva in the 17th century, and is to be distinguished by having in the 7th line of the title *Auheur* instead of *Auheur*.

- 18513 — Pantagruel. Jesus Maria. Les horribles et espouventables faictz et prouesses du tresrenôme Pantagruel, Roy des Dipsodes, Filz du grât geant Gargantua, Cōpose nouvellement par maistre Alcofrybas Nasier. Augmète i Corrige fraichement, par maistre Jehan Lunel. Lyon, Fr. Juste, 1533. oblong 8°. Gothic letter.

95 numbered leaves, and 7 unnumbered. The first known edition of the 2nd book, already reprinted in 1534 according to Brunet. The remaining separate editions of this 2nd book are, *Pantagruel, roy des Dipsodes, restitué à son naturel, avec ses faictz et prouesses épouvantables, composé par M. Alcofribas*. Lyon, Fr. Juste, 1542. 16°. *Pantagruel, roi des Dipsodes, restitué à son naturel; plus les merveilleuses navigations du disciple de Pantagruel, dict Panurge*. Lyon, Dolet, 1542. 16°. with woodcuts. The edition, mentioned by Brunet, without place or date. 8°. Gothic letter, with the title, *Pantagruel. Les horribles et épouvantables faictz et prouesses du très renommé Pantagruel, roy des Dipsodes*, is probably nothing else than a separate copy of the 2nd book after the combined edition of the 1st and 2nd books, without place, 1542. 8°. (see preceding number). *Second liure de Pātāgruel*. Valence, Cl. la Ville, 1547. 12°. 303 pages. Of this last there is an *édit. contrefaite* in 12°. under the same title and with the same date, probably printed at Geneva in the 17th century, which is to be distinguished by its having 320 pages. *Les faictz et dictz heroiques du bon Pantagruel*. Lyon, par Loys qui ne se meurt point, 1556. 16°.

- 18514 — le tiers livre des faictz et dictz héroiques du bon Pantagruel. Toulouse, Jac. Fournier, 1546. 16°.

The earliest known edition of the 3rd book, although probably not the first. The remaining single editions of it are, *Par*. 1546... Lyon, Pierre de Thours, 1547. 16°. (with the same title as above). *Tiers liure des faictz et dictz heroiques du noble Pantagruel*. Valence, Cl. la Ville, 1547. 12°. with woodcuts, 172 pages. Of this last there is an *édit. contrefaite* in 12°. under the same title, and with the same date, probably printed at Geneva in the

17th century, which may be distinguished by its having 349 pages, and also by its containing a 4th book not mentioned in the title, and not to be found in the genuine edition. *Le tiers liure des faictz et dictz heroiques du bon Pantagruel, composé par Fr. Rabelais, revu par l'auteur*. Par., Fexendat, 1552. 8°. *Le tiers liure des faictz et dictz du bon Pantagruel, par Fr. Rabelais, revu par l'auteur sur la censure antique*. Lyon, J. Chabin, 1552. 24°.

- 18515 — le quart livre des faictz et dictz heroiques du noble Pantagruel. Lyon, without the printer's name, 1548. 12°. with woodcuts.

48 unnumbered leaves. The earliest edition of the 4th book as yet known, which however, as well as the edition, *Valence*, 1548. 12°. only contains a part of it. It is complete in the following single editions: *Le quart liure des faictz héroiques et dictz du bon Pantagruel*. Lyon, Aleman, 1552. 8°. *Le quart liure etc.* Par., Fexendat, 1552. 8°. *Le quatriesme liure etc.* ib., id., 1552. 16°. *Le quart liure etc.* without place, 1553. 8°.

- 18516 — le cinquieme et dernier livre des faictz et dictz du bon Pantagruel, without place, 1564. 16°.

The editions, without place, 1565. 8°. Lyon, J. Martin, 1565. 16°. and enlarged, ib., id., 1567. 16°. have also the same title. The first 16 chapters of this 5th book, which are known to be not by Rabelais at all, had already appeared in 1562 under the title, *L'Isle sonnante*.

These original editions of all the 5 books are extremely seldom found together.

- 18517 — œuvres de M. Fr. Rabelais, contenant la vie, faictz et dictz héroiques de Gargantua et de son filz Pantagruel, avec la prognostication Pantagrueline. Without place, 1556. 16°.

Containing the first 4 books. The first combined edition of them had already appeared in 1553. There is an earlier and separate edition of the *Pantagrueline prognostication*, Lyon, Fr. Juste, 1535. 16°.

- 18518 — œuvres. Lyon, J. Martin, 1566 or 84. 16°.

This edition contains all the 5 books.

- 18519 — œuvres. Lyon, Estiart, 1596. 16°.

- 18520 — œuvres. Dernière édit. corrigée. Anvers, Fuet, 1605. 12°.

- 18521 — œuvres de Fr. Rabelais. Imprimées suyuant la première édi-

tion censurée en l'année 1552. Without place, 1626. 8°.

- 18522 — les œuvres de M. Fr. Rabelais. Augmentées de la vie de l'auteur et de quelques remarques sur sa vie et sur l'histoire, avec l'explication de tous les mots difficiles. Without place, 1663. 12°. 2 voll.

With the symbol of a sphere. The 1st vol. has 12 leaves of preliminary matter, 488 pages, and 5 leaves table. The 2nd, 1 leaf title, p. 489-946, and 4 leaves table. This neat edition is attributed to the Elsevir, and is greatly sought after; but it is incorrect, and the short and insignificant notes are full of proofs of great ignorance.

- 18523 — œuvres (the same title). Without place, 1666. 12°. 2 voll.

A less fine reprint of the preceding, whose collation also applies to it. It has also the symbol of a sphere, but it appears not to belong to the Elsevir press, as is commonly said, but to Blaeu's. In some copies the title of the 1st book is printed in red.

- 18524 — œuvres (the same title). Without place, 1675. 12°. 2 voll.

The collation is the same as in the two preceding, of which this edition is a reprint. It has likewise the symbol of the sphere, but is very indifferently printed, and probably at Geneva.

- 18525 — œuvres de maître Fr. Rabelais. Nouvelle édit., où l'on a ajoutée des remarques historiques et critiques sur tout l'ouvrage etc. (par Jac. le Duchat et Bn. de la Monnoye). Amst., Bordesius, 1711. 8°. 6 parts in 5 vols. with plates.

A correct and tolerably fine edition in which Duchat has corrected the text from a careful collation of the earlier impressions. Copies on large paper are scarce and dear. The reprint, *Amst., Bordesius, 1715*. 8°. 6 parts in 5 vols. with plates, is not so fine.

- 18526 — œuvres, avec des remarq. hist. et crit. de Mr. le Duchat. Nouv. édit. augmentée de quelques remarques nouvelles (par Gueulette et Jamet l'aîné). (Par., Prault), 1732. 8°. 6 parts in 5 vols. with plates. Also on large paper.

Even to be preferred to the preceding on account of the new notes that are added.

- 18527 — œuvres, avec des remarques hist. et crit. de Mr. le Duchat. Nouv. édit. avec les figures de Bn. Picart, augmentée de nouvelles remarques de Mr. le Duchat, de celles de l'édition anglaise de Rabelais, de ses lettres et de plusieurs autres pièces. Amst., Bernard, 1741. 4°. 3 voll.

Less correct than the edition of 1711, but enlarged with many notes, and finely printed. The plates are also very fine. Copies on large paper are dear and greatly sought after. The important notes of Pt. le Motteux, which are to be found herein, first appeared with the English translation of Rabelais, the last 2 vols. of which he superintended, and they were next given with a French translation in the *Biblioth. britannique*, I. 129 sq. II. 237 sq. III. 127 sq. IV. 80 sq. Of the impression of the same in the above 4°. edition of 1741, some copies were struck off by themselves for the translator, for which he caused some cancels with corrections and additions, and this separate title to be printed, *Remarques de Pt. le Motteux sur Rabelais. Traduites librement de l'anglais par C(éar) D(e) M(issy), et accomp. de diverses observations du traducteur. Edit. revue, corr. et augm. Lond. 1740*. 4°. 150 pages. These copies Motteux sent as presents to his friends; see *Bibl. britann.* XVII. 410 sq. where additions to these copies are printed.

- 18528 — le Rabelais moderne ou les œuvres de Fr. Rabelais mises à la portée de la plupart des lecteurs (par Fr. Mar. de Marsy). Amst. (Par.), Bernard, 1752. 12°. 6 parts in 8 vols.

Of this modernised edition only copies on Dutch paper are prized.

- 18529 — œuvres choisies. Geneve, Barillot, 1752. 12. 3 voll.

This abridgment also appeared, *ib.* 1782. 12°. 4 voll.

- 18530 — œuvres. Lond. et Par., Bastien, 1783. 8°. 2 voll. Also on Dutch paper, and in 4°.

The Dresden copy has this date, Brunet and others state it, *Lond.* 1782.

- 18531 — œuvres suivies de remarques publiées en anglais par Mr. le Motteux et trad. en franç. par C. D. M. Nouv. édit. Par., Bastien, an 6 (1798). 8°. 3 vols. with 76 plates.

Eight different sorts of copies of this

edition were struck off; viz. 3 sorts in 8°. 2 in 4°. and 3 in fol.

- 18532 — *œuvres de Rabelais*. Par., Desoer, 1820. 18°. 3 voll. (18 fr., on vellum paper 24 fr., on fine vellum paper 36 fr.)

This edition has neat woodcuts and notes by M. de l'Aubnay. Six copies were also struck off (at 72 fr. each), in which each sheet is of a different colour.

- 18533 — *les songes drolatiques de Pantagruel, où sont contenues plusieurs figures de l'invention de maître Fr. Rabelais, et dernière œuvre d'icelui, pour la récréation des bons esprits*. Par., Rich. Breton, 1565. 8°.

This small and very seldom perfect book contains, besides the title and dedication, 120 caricatures engraved on wood, which are printed on both sides of the leaves, and have no text. Rabelais's works merely gave occasion to them; he himself had no part therein. The Paris bookseller Saliot intended in 1797 to have superintended a new edition from these original designs, of which however only 60 plates were prepared, which never came into the market.

- 18534 — *affentheurlich Naupengeheurliche Geschichtklitterung, Von Thaten vnd Rahten von kurtzen langen weilen Vollem beschreiten Helden vnd Herren Grandgusier, Gargantua vnd Pantagruel* Etwan von M. Fr. Rabelais Französisch entworfen: Nun aber vberschrecklich lustig inn einen Teutschen Model vergossen, vnd vngefärllich obenhin, wie man den Grindigen lauset, inn vnser Muter Lallen vber oder drunder gesetzt. Auch zu diesem Truck wieder auff den Ampos gebrogt vnd dermassen Pantagruelisch verposset, verschmidt vnd verdängelt, dass nichts ohn ein Eisen Nisi dran mangelt: durch Huldreich Elloposcleron. Gedruckt zur Grenesing im Gänsserich, 1552. 8°. with woodcuts.

The first known edition of this comic version of J. Fischart, very scarce, but only including the first book of the French original. Concerning this work of Fischart, see *Jördens Les. deutscher Dichter u. Pros.* I. 519 sq. *Deutsches Museum* 1778, II. 543 sq. *Gothaisches Magazin der*

Without place, 1575. 8°. with woodcuts.*

At first 8 leaves of preliminary matter, then the text on unnumbered leaves, with the signatures *A-ee*. This edition is the earlier one completely remodelled, and quite different in language.

- 18536 — *affentheurlich Naupengeheurliche Geschichtklitterung. Von Thaten vnd Rhaten der vor kurtzen langen vnd weilen Vollenwolbeschreiten Helden vnd Herren. Grandguschier Gorgellantua vnd dess Eiteldurstlichen Durchdurstlechtigen Fürsten Pantagruel von Durstwelten* Etwan von M. Durch Huldreich Elloposcleron. Gedruckt zur Grenflug im Gänsserich, 1594. 8°. with woodcuts.

288 numbered leaves. The following

editions are also quoted; without place, 1577, 1582, 1590, 1596, 1600, and 1605; all in 8°. with woodcuts.

- 18537 — (the same title.) *Granflug im Gänssereich*, 1608 or 1617. 8°. with woodcuts.

Also 1620 and 1631. 8°.

- 18538 — *Gargantua u. Pantagruel umgearbeitet nach Rabelais u. Fischart von Dr. Eckstein* (Ch. Lävlin. F. Sander). Hmb. Hoffmann, 1785–87. 8°. 3 voll. (2 d. 14 gr.)

It cannot be said to have been successful. The following announcement was not followed up: *Ankündigung u. Probe einer neuen Ausgabe von D. J. Fischarts Uebersetzung des 1n Buchs von Rabelais Gargantua (von H. Gf. von Bretschneider)*. Nrb. 1775. 8°. There is a specimen of a German modification of the *Gargantua, Pantagruel* etc. by M. Fr. Rabelais, in the style of the 19th century, in *Sächs. Provinzialbl.* 1804. B. I. p. 201 sq. B. II. p. 100 sq.

- 18539 — the works of Rabelais, translated into English with notes by Th. Urchard, le Motteux and Ozell. Lond. 1807. 8°. 4 vols. with plates.

The same translation previously, *Lond.* 1708. 8°. 2 vols. Also, *ib.* 1694, or 1738, or 1750. 12°. 5 vols. with plates. *

Previously, *Par., de Serrey*, 1651. 8°. Also in the 4°. edition of 1741 of his romance.

- 18542 RABELLINI tabella.

In the year 1817 the Dresden librarians were applied to from several quarters for a book of the above title. It was to be found neither among the printed books nor among the MSS.; but the inquiries returned so often and so urgently, that at last I was curious to learn something further about it, although nothing satisfactory might be expected. The memoranda of inquiry, which must have had a common source, all described the book thus: *Die goldne Tabella Rabellina*. "It treats of stones, herbs, roots, medicine, &c. *Jena in Sachsen*, 1535–1572. On the title is to be found a raven with a ring in its beak. There are also various characters in the book with some representations of

VOL. IV.

herbs." In vain I searched all the literary resources at my command, to discover something about the book or its author. With respect to the latter, I conjectured it to be Fr. Mt. Ravellin, teacher of the Italian and French languages at Heidelberg, by whom there was an *Ars memoriae*, *Ff.*, 1617. 8°. But this also came to nothing. I had already become tired of the matter, when at last one of the anxious inquirers announced with joy that he had found what he sought for in the possession of a Dresden citizen. This latter person favoured me with a sight of it, and I therefore give in this place an account of the book, which indeed, as it appears, may very well be dispensed with by the generality of readers, but will not be unwelcome to my brother librarians, who may have been wearied with similar inquiries.

The title is, *Trinum perfectum magia alba et nigra*. *Das sind Vier Bücher darinnen die wahre Magische, Astrologische, Geometrische und Chymische (sic) Weisheit, Gute und Böse Geister zu Citiren, und solche zu allen Gehorsam zu bringen aus den (sic) VI. und VII. Buch Moiss und Tabella Rabellina. Mit Keis. Majest gnad und freyheit in sechs jaren nit nach zu trucken*. 1534. In small 4°. or rather a somewhat broad 8°. 48 leaves (including the title-plate and the unprinted leaf before *Liber III.*), without signatures, catchwords, and pagination, on brownish-grey paper, and most certainly not printed before 1750, with three portraits and many ciphers and seals, all of which appear to be done with the hand (not cut in wood). As to the rest, the book is from beginning to end the merest nonsense, and full of the most absurd errors in orthography, language, and typography.

The 1st leaf is a title-plate; on the reverse of the 2nd or title-leaf is simply, *Spiritus Omnipotens Qui Viget Illa Facit* (in 2 lines). Leaf 3^a is a preface of 11 lines, subscribed, *W—den 8 Mörts (sic)* 1534. In leaf 3^b follows, *Dei Apocalypsis Magia Lieber (sic) Primus Rabellinus Beschwörner-Höllen-Zwang, das ist Methodus Infallibitis, oder Unfehlbare Weise Die VII. Gross-Fürsten und andere zu allen Diensten zu bringen. Aus den VI. u. VII. Buch Moiss Romæ In Vaticano Ad Arcanum Pontificatus unter Alexander VII. Po. gedruckt M.D.XXXIV.* (A silly lie! Alexander VII. was only born in 1599, and in 1534 there was no Alexander but Clement VII. who died in this year, and was succeeded by Paul III.) Leaf 20^b follows, *Liber Secundus Tabellæ Rabellina (sic) Geister Commando, id est Magia alba et nigra Citatio Generalis auf alle Geister Rome In Vaticano ad Arca-*

nu M Pontificatus Gedrockt im jare 1534. Traducta a D. Rabbi Rabellino (M.) Leaf 29^a, *Liber tertius Chimia Magia Naturalis et Alchimia Von dem Gebenedeyeten Magischen Stein Rabellini etc.* Leaf 35^a, *Liber quartus Magia Naturalis Astrologica et Geometria (SS) Angelico Tobiana S. S.* The entire book ends in leaf 48^b with the words *Deo Gratias A†M†E†N.*

18543 RABENER, Gli. W. *Sämmtliche Schriften mit dem Leben des Vfs. von Ch. Fel. Weisse.* Lpz., Dyk, 1777. 8°. 6 voll. (2 d. 16 gr., on Dutch paper, 3 d. 12 gr.)

The 1st edition of his *Sammlung satyr. Schr.* appeared, Lpz. 1751-55. 8°. 4 vols. His satires translated into Dutch, *Amst.* 1765. 8°. 4 vols.

18545 RACCOLTA d'autori, che trattano del moto dell' acque. Ed. II. Fir., 1765-74. 4°. 9 vols. with plates.—Nuova raccolta d'autori, che trattano del moto dell' acque. Parma, 1766-69. 4°. 8 vols. with plates.

The 1st edition, Fir. 1723. 4°. 3 vols. of the first greatly prized collection, is indeed more correct, but far less complete. Of a 4th enlarged edition, *Bol.* 1821. sq. 4°. 6 vols. have as yet appeared. The other collection, superintended by Ximenes, is less prized.

18546 RACCOLTA di lettere (1023) sulla pittura, scultura ed architettura, scritte da più celebri professori dal sec. XV. al XVII. (public. da Gi. Bottari). Roma, 1754-73. 4°. 7 voll.

18547 — *recueil de lettres sur la peinture, la sculpture et l'architecture, écrites par les plus grands maitres depuis le XV. jusqu'au XVIII. siècle; publié à Rome par Bottari, trad. et augm. de beaucoup de lettres qui ne se trouvent pas dans son recueil, par. L. J. Jay.* Par., 1817. 8°.

18548 RACCOLTA d'opuscoli scientifici e filologici (per Angiolo Calogerà). Ven., 1728-57. 12°. 51 vols. the last of which is a general index.

—Nuova raccolta d'opuscoli scientifici e filologici. Ven., 1755-84. 12°. 41 vols. with plates.

A collection of small treatises, but in part very interesting, in all sciences. Complete copies are scarce. Calogerà began the *nuova raccolta*, and after his death Fortunato Mandelli continued it on from the 16th vol. From the 17th vol. onwards, each treatise has a separate pagination, by which citation from it is rendered difficult.

18564 RACHEL, Jo. Nach dem Originale verbesserte u. mit einem neuen Vorberichte begleitete teutsche satyrische Gedichte (herausg.

von J. Jac. Wippel). Berl., 1743. 8°.

The newest edition. Of these 10 satires, the first 6 only appeared at first, *Ff.* 1664. 8°. and then 4 new ones, *ib.* 1668. 8°. The following edition is still of value: *Jo. Rachelii neu verbesserte teutsche X satyr. Gedichte. Deme beigegefüget (J.) Laurembergii Schertzgedichte, sammt einem Anhang etlicher niedersächs. deutscher Verse. Bremen, Wessel, 1707. 12°.* The 5 undated editions in 8°. which appeared under the announcement, *Freyburg im Hopfensacke* (that is, Berlin) are very incorrect. The last two satires, (*Jungfernanatomie* and *Jungferntod*) were denied to be his in an essay in the *Hamburg. vermisch. Biblioth.* III. p. 98 sq. There is a separate edition of them without the author's name, *Wohlausgeführte Jungfernanatomie, Stralsom, 1688. 12°.* in which the author subscribes himself in p. 11, with the initials F.S.

18565 RACINE, J. Œuvres. Sui- vant la copie imprimée à Paris, 1678. 12°. 2 voll.

This neat Dutch edition, and greatly sought after for the Elzevir collection, is attributed by Brunet to the Amsterdam printer, Abr. Wolfgangk. Each piece has a separate title and plate, which is included in the pagination. The 1st vol. contains 6 leaves of preliminary matter, 69 pages, *Thébaïde*; 70 pages, *Alexandre*; 71 pages, *Andromaque*; 82 pages, *Britannicus*; 67 pages, *les plaideurs*. The 2nd vol. has besides a title-plate and a printed title 70 pages, *Bérénice*; 83 pages *Bajazet*; 72 pages, *Mithridate*; 82 pages, *Iphigénie*; 72 pages, *Phèdre*. To which should be joined the two pieces, printed separately at the same press, *Esther*, 1689. 12°. 70 pages, and *Athalie*, 1691. 12°. 8 leaves and 68 pages.

There is a reprint of 1682 in 2 vols. 12°. with the same plates, not less fine, and proceeding from the same press: at the same time it is at a lower price. The edition, *Par.*, (Holland) 1697. 12°. 2 vols. with plates, is more complete, but is however less sought after.

18566 — œuvres, par Coste. Lond., Tonson, 1723. 4°. 2 vols. with plates.

Respectable, but little sought after.

18567 — œuvres. Nouv. édit. augmentée de diverses pièces, de remarques (par d'Olivet, Desfontaines, Racine fils etc.), et de figures grav. par Tanjé. Amst., Bernard, 1743. 12°. 3 vols. with plates.

A neat edition and sought after, of which, *Amst. Arkateë*, 1750. 12°. 3 vols. with plates, is only a new title. The repetition, *Amst. et Lps.* 1763. 12°. 3 vols. is of less value.

18568 — œuvres. Par., 1760. large 4°. 3 vols. with plates.

There are only 2 copies on Dutch paper. The plates are by Deseve, and not without merit.

18569 — œuvres, avec des commentaires par Luneau de Bois-jermain. Par., Cellot, 1768. 8°. 7 vols. with plates by Gravelot. Also on Dutch paper.

Although Luneau's commentary, prepared in conjunction with that of Blin de Saintmore, which appeared also by itself, *Par.* 1768. 3 voll. 12°. is very indifferent, yet has this edition hitherto maintained its price, because it is still one of the finest of this size. But the repetition of it, *Par., Pougin*, 1796. 8°. 7 vols. with plates, is so badly printed, that even the copies on vellum paper are not sought after.

18570 — œuvres. Edition imprimée pour l'éducation du Dauphin. Par., Didot aîné, 1783. large 4°. 3 vols. on vellum paper.

This fine edition, of which only 200 copies were struck off, is one of Didot's rarer 4°. impressions.

18571 — œuvres. Edit. impr. pour l'éducation du Dauphin. Par., Didot aîné, 1784. 8°. 3 vols. on vellum paper.

This particularly fine edition also (only 350 copies), is not frequently to be met with. Eight copies were struck off on vellum, (one in the Royal library at Paris, and 601 fr. d'Hangard; 360 fr. St. Cérant.) The *Œuvres diverses* are not to be found in it.

18572 — œuvres. Edit. impr. pour l'éducation du Dauphin. Par., Didot aîné, 1784. 18°. 5 vols. on vellum paper.

The impression contained 450 copies.

18573 — œuvres. Par., Deterville, 1796. large 8°. 4 vols. on vellum paper, with plates by le Barbier.

There are also copies on large vellum paper, and a single one on vellum, with the original designs, which was sold in 1817 for about 1300 fr.—The edition, *Lond. l'Homme*, 1799. 12°. 3 vols. is very indifferent.

18574 — œuvres. Par., P. Didot aîné, an 9. (1801-5). large fol. 3 vols.

This edition, which is one of the most complete specimens of a splendid typographical production, contains 57 plates, engraved by the first Paris artists, from designs by Gérard, Girodet, Chaudet, Taunay, Moitte and Serangely. The impression consisted only of 250 copies, 100 of which have the plates *avant la lettre*. The subscription price was 1200 fr. and for a copy with plates *avant la lettre* 1800 fr.; and this price has since then risen a third. One single copy was struck off on vellum, to which the original designs are added, and that went to England.

18575 — œuvres. Edit. stéréot. Par., P. Didot aîné, an 7. (1800). 12°. 5 vols. with plates. Also on vellum paper.

Renouard has a copy on vellum, *Par., Herhan*, 1803. 18°. 5 vols. also on vellum paper in 12°. is a good small edition.

18576 — œuvres avec des variantes, publiées par Petitot. Par., Herhan, 1807. 8°. 4 vols. with plates, (25 fr., on vellum paper, 40 fr.)

The 1st impression of this stereotyped edition is tolerably fine, and copies with the plates of Moreau published by Renouard are sought after. Also *Par.* 1813. 8°. 5 vols.

18577 — œuvres complètes, avec les commentaires de Laharpe (édition dirigée par Germ. Garnier, qui y a joint ses notes et ses observations). Par., Agasse, 1807. 8°. 7 voll. (35 fr.)

Laharpe's commentary, a posthumous work, is far more prized than that of Geoffroy in the following article, but too much space is wasted in examining Luneau's notes. The edition is printed on bad paper, on which account the copies on vellum paper, of which there are only 25, are greatly sought after. In 1816 this edition was again published, with a new title and 13 new plates added, which are but indifferent although from designs by Moreau (these may be had separately at Renouard's for 12 fr., and for 30 fr. *avant la lettre*), but they must not be confounded with those which originally appeared in this edition. These last had already served for an edition, *Par.* 1811. 8°. 4 vols.

18578 — œuvres, avec des commentaires par Jul. L. Geoffroy. Par., le

RAC

Normant, 1808. 8°. 7 vols. with plates, (48 fr., on vellum paper 90 fr.)

The commentary is tedious and prolix, but not without merit. The edition and plates might have been finer.

18579 — théâtre complet de J. Racine. Parme, Bodoni, 1813. large fol. 3 vols. on vellum paper.

A splendid edition, but greatly fallen in price.

18580 — œuvres. Par., P. Didot, 1813. 8°. 5 voll. (22 fr. 50 c.)

Also on fine paper (37 fr. 50 c.) and on vellum paper, (75 fr.)

18581 — théâtre complet de J. Racine, orné de 57 gravures d'après les compositions de Girodet, Gérard, Chaudet, Prud'hon etc. Par., P. Didot, 1816. 8°. 3 voll. (72 fr., on vellum paper with plates *avant la lettre* 144 fr.)

The merit of the plates of this edition does not correspond with that of the designs. The plates are also to be had separately for 57 fr.

18582 — œuvres complètes, avec les notes de tous les commentateurs. Edit. publiée par L. Aimé Martin. Par., Lefèvre, 1821. 8°. 6 vols. with 13 plates. (54 fr.)

18583 — Atalia, tragedia, traduzida em vulgar, com o Francez ao lado, por Candido Lusitano (that is, Fr. José Freire). Lisbon, 1783. 8°. (400 rees.) Previously ib., 1762. 8°. Britanico, tragedia, traduc. al. español, por S. Yguren. Madr., 1752. 8°. Tragedie (cioè la Fedra e l'Andromaca) trad. da St. Petronj. Par., Didot, 1813. 12°. L'Ifigenia recata in versi ital. da Ant. Buttura. Par., 1815. 16°.

18584 RACINE, L. Œuvres. Amst., Rey, 1750. 12°. 6 parts in 4 vols.

A companion to the edition of J. Racine of 1743. Previously, Par., 1747. 12°. 6 vols.

18585 — œuvres. Par., le Normant, 1808. 8°. 6 voll. (18 fr., on vellum paper, 40 fr.)

RAD

1537

This edition is far more complete than the preceding, and the translation of *Paradise Lost* is contained in it.

18586 — la religion, poème.—La grâce, poème. Par. 1742. large 8°. 2 parts in 1 vol.

The author's name is not in all the copies of this fine edition.

Containing 2 title-plates and 300 views, 2 of which are in every instance on each leaf. This edition without any text contains the first impressions of these uncommonly neat and spirited plates. Sometimes a collection of 93 views by Van Liender, likewise well engraved, is added as a 3rd part to this work.

These 4 vols. are sought after on account of the plates. The impressions of the same are also still good enough in the new edition, *Monaci*, 1704. fol. 4 vols.

- 18595 RADES y Andrada, Fr. de. Chronica de las tres ordenes y cauallerias de Santiago, Calatrava y Alcantara. Toledo, J. de Ayala, 1572. small fol.

An edition, without place or date, 4°, in which the dedication is dated from Venice in 1630, is equally complete. But the edi- tion with the title, *Le cacce delle fiere armate e disarmate. Brescia*, 1621. 8°. is less complete. This last is reprinted with the same title, *Ven.* 1785. 8°. with plates.

18626 RAMUSIO, Gi. Bt. Navigationi et viaggi, raccolti da Gi. Bt. Ramusio. T. I. Ven., Giunti, 1563 or 88. T. II. ib., iid., 1583. T. III. ib., iid., 1565. fol. 3 vols. with woodcuts.

These editions, according to the French and Italian bibliographers, are the best, especially when the *Cesare de Fredrici viaggio nell' India orientale* (leaves 386-430) is added to them from the edition of the 3rd part of 1606. As the parts followed each other slowly, the editions of them therefore appeared in very different years. The series of the editions, not yet entirely made out (all of them printed by the Giunti at Venice in folio), is as follows: Vol. I. 1550 (*Bandini Annal. Junt. I. 22*). Ed. II. 1554. Ed. III. 1563. Ed. IV. 1588 (4 unnumbered leaves of preliminary matter, 34 numbered leaves *indice*, and 394 numbered leaves of text). Ed. V. 1613 (the same collation and 3 copper-plate maps in addition). — Vol. II. 1559 (there is probably an earlier edition), 1564, 1574, 1583 (18 numbered leaves of preliminary matter, 10 unnumbered leaves *indice*, 256 and 90 numbered leaves of text). — Vol. III. 1556. (6 numbered leaves of preliminary matter, 34 numbered leaves *indice*, 453 numbered leaves of text, and 1 map engraved on wood, and numbered 455 and 456), 1565, 1606 (6 unnumbered leaves of preliminary matter, 36 numbered leaves *indice*, and 430 numbered leaves of text). — See also

These 6 vols. belong to a complete edition.

Vertue's heads are uncommonly scarce and greatly sought after. They contain 64 leaves of plates, 12 pages of text, and at the end 1 leaf with a list of the plates. Sometimes they are distributed through the work, and then there are only 5 vols. In England there is added to this work, *Acta regia being the account which Rapin de Th. published of the history of England. Lond.*, without date, (1733) fol., also *Fr. Sandiford's genealogical history of the kings and queens of England. Lond. 1707. fol.* Such a copy in 7 vols. also illustrated with many other plates, is set down in Longman's catalogue of 1816 at 140l. There are also copies on large paper, and on fine writing paper.

More recent editions of this translation are; *Lond. 1757-59. 8°. 21 vols.* with plates, (the continuation occupies 9 vols.) and *ib. 1784. fol. 4 vols.* with plates, (6l. 6s.) One of these he kept for himself, the second he left with the printer, and the third he sent to Geneva to serve the compositor instead of a MS. from which the Geneva edition was printed. The assertion (in Grimm's *Correspondence*, *Partie*, III. T. IV. p. 85) that almost a third of the work was Diderot's performance, is at least very bold.

18704 RECHTSSTREIT zwischen tod vnnd Menschen. Without place or date (*Bamberg, Pfister*, about 1461.) small fol. Gothic letter, with 5 woodcuts.

Concerning this very scarce production, see *Heineken Nachrr.* II. 21. *Meusel hist. litt. bibliogr. Magasin*, V. 25. VII. 22. *Literar. Magaz. für Katholiken*, B. I. St. 6. (*Coburg*, 1795. 8°.) p. 652 sq. *Sprenger Buchdruckergesch. von Bamberg*, p. 27. *Panzers Deutsche Annal. Suppl.* p. 20. Heineken called this small work, which has no distinct title, *Allegorie*

auf den Tod, more recently the above title has been given to it. Properly it is an admonition to Christians on their lamentations at the death of their friends in the same judicial manner as in other similar writings of that period, for instance, the *Belial* of Jacobus de Thieramo. It is divided into 34 chapters, the first 32 of which contain *Des clagers* and *Des todes wider red*, in chapter 33, *Spricht got auss das urteil des kriges zwischē dem tod end dem clager* (the particular contents of which are), *Ir habt peid wol gewochten. Den twingt leid zu clage. Diesen muet die affterreidung des clagers die weiszheit zu sagen. Darumb clager hab ers. tot zige*, and in chapter 34, *Pitt der clager fur seiner frauen sele*.

The entire book contains altogether 24 leaves (the 1st of which is blank, and the 4th also, on the *folio recto*, and only contain a large woodcut on the reverse), with 28 lines in a full page, without signatures, catchwords, and pagination. The text begins without any farther superscription in leaf 2^a, and the first line is, (*G*)*rjmigen abtŭger aller leut. schedlicher echt vñ*. The work ends also without any subscription in leaf 24^b, and the last or 25th line is, *mit innkiet* (sic) *sprechen amen*. There are 5 woodcuts therein of the size of the entire page, which are in leaves 1^b, 4^b, 10^r, 18^a, and 22^b. The types are completely the same as those of Boner's fables of 1461, but less worn, and the printing is consequently to be set down in no case as later than 1461. Only 2 copies are known, one of which is at Wolfenbŭttel (bound up with Boner, and thus sometime at Paris), and the other in the library of Nagler, the postmaster general at Berlin.

18705 — an dem buchlein ist beschriben ein krig wān einer dem sein libes weib gestorben ist schildtet den todt So verantwo't sich der todt also seczt der clager ein capitel vnd der todt das ander bisz an das ende der capitel sind. xxxiiij. dor inñ man hubsches sines getichthes behendikait wol vindet Der clager hebt an vber den todt zu clagen Das erst capitel. Without place or date (*Bamberg, Pfister*, about 1462). small fol. Gothic letter.

The second edition of the preceding work, with different orthography, and only rarely with some small alteration of single words (for instance, the end of the 1st chapter runs thus in the preceding editions, *Vnd aller meniglich sei stetiglichen ge-*

schrie vber euch. ernstlichē weter geschrei. mit gewūden henden: in this edition it is, *Vnd allermaniglich sei stetiglichen geschrien vber euch ernstlichen woffen geschrei mit gebūden hēden*). In other respects nothing important is altered or added, excepting the above-given superscription. The types are also the same.

As yet only the defective copy at Wolfenbŭttel, which only contains 18 leaves, is known. The collation with the preceding edition shews however that a complete copy ought to contain 22 leaves (not 23). (In the Wolfenbŭttel copy leaves 4, 10, 18 and 22 are wanting.) With 28 lines, without signatures, catchwords, and pagination, and without the woodcuts of the preceding edition. The above superscription occupies the first 7 lines of leaf 1^a, the text follows immediately underneath, and the 8th line is, *Rimiger abtŭger aller leut schedlicher echter*. The last or 28th line of leaf 21^b is, *Rechter Richter erhor mich*. Consult *Meusels Magaz.* VII. 25. *Literar. Magaz. für Katholik.* l. c. p. 667. *Sprenger*, l. c. p. 34. *Panzer*, l. c. p. 21.

18706 — Hie nach volgend ettliche zūmole kluoger vnd subciler rede wissend Wie einer was genant der ackerman von böhem dem gar ein schöne liebe frowe sin gemahel gestorben was Beschiltet den dot vnd wie der dot im wider antwurt vnd setzēt also ie ein cappittel vmb das ander der cappittel sind. xxxij. vnd vahet der Ackerman an Also zuclagen. Without place (probably *Esslingen, Cr. Fyner*), 1474. 4°. with woodcuts.

The third edition of the same work of which Mr. Heller of Bamberg possesses a copy. Described in the *Beiträgen zur Kunst- u. Lit. Gesch.* 1 u. 2 Hef. Nr. 1822. 8°. p. CXXI sq. 24 leaves, with 28 lines in a full page, without signatures, catchwords, and pagination, but with 3 woodcuts. It ends in leaf 24^b, line 21, with *Amen*, and underneath is *lxxiiij*. The work is changed in this edition with many alterations into the dialect of the upper Rhine.

That the piece is a German original may almost be conjectured from the quotation in the 30th chapter: *Vnd (vmb?) keiser kurl Marggraff wilhelm. Ditterich vñ pern den starckē pappē* (in the 2nd edition, *Poppen*) *end vmb den hurnē senfrid habē wir nicht so vil mue gehabt*. The book certainly speaks of Bohemia, where the complainant was a farmer, and the riddle of death in the 4th chapter speaks of the

town of Sæc (that is, Sætz, not Sacy, as is conjectured in the above-mentioned *Beitrügen*, p. CXXIV.) The name of the complainant, which is concealed in the large red initials of the last chapter, is Johannes, his deceased wife is in the same place called Margaretha. (Who does not recollect Hans and Margaretha in Luther's *Traufomdar*?) Judging from the numbers and instances of *assonance*, it is probable that the piece had been previously written in verse, and is here resolved into prose. Death also actually says in the 2nd chapter, *Dein clag ist ein reim. douen wir pruffen du wollest durch donz end reimes willen. deinē syn nicht entweichen.*

Farben erleuchtet. Choix de coquillages et de crustacés peints d'après nature, gravés en taille-douce et illuminés de leurs vraies couleurs*. Copenh. 1758. large fol. with illuminated plates.

First a title-plate (the portrait of the king of Denmark), printed in *blue* in the common copies, but in *red* in those which were made presents of by the king, a German and French title; 1 leaf; privilegium; 4 leaves, German and French dedication to king Frederic V.; 1 leaf, advertisement; XIV. pages, list of conchyliological works; 22 pages preliminary introduction; LXXXVII pages, explanations of the plates, and 12 finely illuminated plates. The introduction is by J. And. Cramer, the text by (Ch. Gli. Kratzenstein, Pt. Ascanius, and Lr. Spengler. An earlier text, composed by a Danish literary person, was suppressed by the royal command, and replaced by the above. Copies in which it also is found (as in the Dresden copy) are of the greatest rarity. This suppressed text consists of 2 engraved titles, which are usually wanting (one in German, *Sammlung von Muscheln, Schnecken* etc. and the other in French, *Recueil de coquillages, de limaçons* etc.), a German printed title (of the same tenor as that to the genuine text) a half-title, 1 leaf privilegium, 1 leaf of dedication engraved, and 28 and LIII. pages of explanation.

Regenfuss had already engraved 12 plates for a 2nd vol., and O. F. Müller had undertaken the task of composing the text. Nothing of it has however appeared. Consult *Schröter's Journal für die Liebhaber des Steinreichs*, V. 115 sq. and his *neue Litt. und Beiträge*, I. 119.—The Dresden copy, in which also the vignettes are printed in red, was bought for 40 dollars.

18761 REGIONMONTANUS, J. Calendarium latinum in annum 1475-1513. Without place or date (Nrb., ex offic. J. Regiomontani, about 1473). 4°. with woodcuts.

This extremely scarce 1st edition of this calendar consists of 32 leaves. Leaf 1^a is blank, leaf 1^b is the first cyclical table for January, for the purpose of finding the new and full moon from 1475 to 1513, and to each month there is such a table. The 12 months follow in leaves 2-13, and in leaf 13^b is a *tabula regionum*. In leaves 14-18 are the solar and lunar eclipses from 1475 to 1530. Leaves 19-30 are of various contents, *de aureo numero*, *de cyclo solaris* etc. In leaf 30^b, quite at the bottom in small capitals is, *Ductu Joannis de Monteregio*. Leaves 31 and 32 contain representations of 4 astronomical instruments engraved on wood.

18762 — der deutsche Calender. — At the end, Also ist begriffen kürzlich diss kalenders nutz vnd tuglichait nach meinem slechtē tewtsche vnd chlainem vermügen.

Magister Johann von kunsperck. (Nrb., J. Regiomontanus, about 1473). 4°.

The extremely scarce 1st edition of this German calendar, which is entirely printed with tables engraved on wood, and indeed on both sides. 31 leaves with 35, 36, and 37 lines. Each page is enclosed with 4 lines. The internal arrangement is the same as in the preceding article. Leaf 1^a is blank, in leaf 1^b is the first cyclical table, in leaves 2-13 the 12 months, in leaf 13^b a table of the altitude of the pole, in leaves 14-18 the solar and lunar eclipses from 1475 to 1530, in leaves 19-28, *von der guldin xal* etc. (at the end of the 28th leaf is the above colophon.) After which follow the representations of 4 astronomical instruments, and the *tableau de saignée*.

18763 — der deutsche Calender. — At the end, Also ist begriffen kürzlich diss kalenders nutz vnd tuglichait nach meinē slechten tewtsche vnd chlainem vermügen. M. Johan von kungsperg. (Nrb., J. Regiomontanus, about 1473). 4°.

The 2nd edition of the German calendar, printed with movable types, and likewise very scarce. 30 leaves, to which the collation of the preceding article applies. In leaf 28^b is the above colophon. Leaves 29 and 30 contain the representations of the same 4 astronomical instruments, but the *tableau de saignée* is wanting. This edition, accurately described by Panzer in the *Deutsch. Ann.* I. 77, and in the *Nürnb. Buchdruckergesch.*, p. 165, is quite erroneously stated in Dibdin's *Bibl. Spenc.* IV. 465, as still unknown.

18764 — calendarium. Ven., Bn. Pictor, Pt. Loslein et Erh. Ratdolt, 1476. fol. 32 leaves with 30 lines.

A reprint of No. 18761. A copy on vellum, according to Hirsching's *Beschr. deutscher Bibl.* II. 70, is in the Town library at Augsburg. Also in Italian, *ib.*, *id.*, 1476. fol. 30 leaves with 37 lines.

18765 — ephemerides ab a. 1475 ad a. 1506. without date (Nrb., J. Regiomontanus), 1474. 4°.

220 leaves. It begins without further title in leaf 1^a with a preface, *Vsum ephemeridis cuiuslibet breuiter exponemus*. The calendar of each year fills 13 leaves. On the reverse of the last leaf there is in small capitals in 5 lines, *Explicium hoc opus anno Christi domini MCCCCLXXIII. ductu Joannis de Monteregio*. Copies are

sometimes found which do not contain all the years, and consequently not the colophon. But they are of the same printing. These ephemerides were certainly sold in Regiomontanus's time for 12 *Goldgulden*; see Strobel's *neue Beitr.*, I. 184. The later editions are of no value.

18766 — dialogus inter Viennensem et Cracoviensem (adversus Gerardum Cremonensem). Without place or date (*Nrb.*, *Regiomontanus*, about 1474). fol. with woodcuts.

9 leaves. Leaf 1^a begins without further title with the preface, and the 1st line is, VNIVERSIS BONARVM ARTIVM STVDI. Leaf 2^a begins the dialogue, which ends in leaf 9^b without any subscription.

18767 — tabula directionum. — Tabula magna primi mobilis. Without place or date (ib., id., about 1474). 4°.

18768 — hæc opera fient in oppido Nuremberga Germaniæ ductu Joannis de Monteregio. Without place or date (ib., id., 1473). 1 sheet in open folio.

This extremely scarce list of the works, both by others and by himself, which Regiomontanus intended to have prepared for printing at his press, occurs in *Schwarzii Docum.* III. 55. It is known that Regiomontanus set up a printing establishment of his own in 1471 or 1472 at Nuremberg (*Panser Nürnberg. Buchdr. Gesch.* p. 163 sq. his *Annal. typ.* II. 172 and 232. *Deutsche Ann.* I. 76 sq.), the productions of which are of the greatest rarity even in Germany. Besides Regiomontanus's own writings here mentioned, the following works also belong to his press: *Manilius*, without place or date, 4°. (see above, No. 12933.) *G. Peurbachii Theorica nova planetarum*, without place or date (1472). fol. 20 leaves. *Maph. Vegii Philalethes*, without place or date, 4°. 12 leaves with 30 lines. *Basilii M. liber ad juvenes*, without place or date, 4°. 10 leaves with 30 lines. There is a list of Regiomontanus's writings in Murr's *Journal*, XVII. 356 sq.

In this number of volumes 2 vols. of index from 1758 to 1792 are included. Each year forms a volume (yet the years 1784

Its present publisher is Baldwin. The *New annual register*, published by Rivington since 1780 (each year likewise forming 1 vol. in 8°. at 1l. 1s.), must not be confounded with it. Both works are still going on.

Fewer numbers of the 5th and 6th parts, or the pieces for the Italian theatre, were struck off, and consequently are often wanting. There are 2 copies on vellum paper, but one likewise only contains the first 4 vols. This earlier edition is preferred to the reprints, *Par.* 1810 or 20. 8°. 6 vols. with the same plates (36 fr., on vellum paper 72 fr.).

The initials are engraved on wood. The 1st leaf contains a woodcut divided into 4 compartments, and over it an explanation, printed in red. 18827 REIMMANN, Jac. F. Ver-

such einer Einleitung in die historiam literariam insgemein. Halle, Renger, 1708 or 21. Versuch einer Einleit. in die hist. lit. der Teutschen. Th. 1 and 2. ib., 1709. Th. 3. Hauptst. 1–4. ib., 1709–13. Anhang, oder: Die ersten Linien von der hist. lit. der Teutschen. ib., 1713. Versuch einer Einleit. in die hist. lit. antediluvianam. ib., 1709. Versuch einer Critique über Bayle's dictionnaire. ib., 1711. 8°. 7 vols. altogether.

What is here stated belongs to a complete copy of this work, which is becoming scarce. The *Anhang* is generally wanting. At the beginning of the 1st vol. there ought to be a general title, *Versuch einer Einleitung in die hist. lit. insgemein u. derer Teutschen insonderheit*. Halle, 1713. The new impression of 1721 of the 1st vol. is an entirely unaltered repetition, but the print is closer, and the pagination deviates from that of the 1st edition, to which alone the general index is suited. This general index, according to the signatures, ought to be found in the 4th section of the 3rd part, or in the 6th vol. With all the faults of that period, the work is interesting as being the first attempt of a detailed literary history of Germany, and on account of its numerous separate notices, which the author derived from books now no longer read. Lessing somewhere or other calls it a work which at least consists of very learned questions, even if the answers are not always very learned.

18828 — catalogus bibliothecæ theologicæ. Hildesæ, 1731. 8°. Accessiones uberioræ ad catalogum bibl. theol., edid. J. Gu. Reimmannus. Brunsv., 1747. 8°. Catalogus bibl. historico-literariæ. Hildes. 1739. (A new title, 1743.) 8°. 3 vols. altogether.

This catalogue, without having any peculiar bibliographical or critical worth, has nevertheless a certain historical value, at least the literary catalogue. (The MSS. specified at the end of the last mentioned catalogue were bought for the Wolfenbüttel library.) His theological collection was but of little value. His judgments are seldom extended beyond the views of his time, and are frequently injured by sportiveness and an affectation of wit, and his style is bad.—See also LAMBECTION, No. 11659. His *Eigne Lebensbeschreibung*. Brschw., 1745. 8°. is interesting.

18829 REIN, Jonas. Samlede Digte. Kbh., 1802. 8°. 2 vols.

18830 REINA, Placido. Notizie storiche della città di Messina. Messina, Brea, 1658-68. fol. 3 vols.

The 3rd vol. interrupted by the author's death ends in p. 160. In Latin, by J. Lr. Mosheim in *Grævii Thes. Antiq. et Hist. Ital.* T. IX.

18831 REINAGLE, P. . Sportsman's cabinet, or correct delineations of the various dogs used in the sports of the field, consisting in a series of engravings from original paintings, taken from life by P. . Reinagle, engraved by Scott. Lond. 1803. large 4°. 2 vols. with plates. (7l. 7s.)

18832 REINECCIUS, Reinerus. Syntagma de familiis, quæ in monarchiis tribus prioribus rerum potitæ sunt. Bas., ex off. Henricpetrina, 1574-80. fol. 4 voll.

18833 — historia Julia seu syntagma heroicum. Helmst., Lucius, 1594-97. fol. 3 voll.

A large library ought to have both works. Both relate to the same object, it is true, but the second work ought not so much to be considered a second edition of the first work as a new performance by itself. It contains much that is not in the first, and much differently arranged. Both are scarce, but owing to the progress that has since been made in historical investigation, they have lost the greatest part of their value, which however they still seem to maintain in France, as Brunet values the 2nd work at from 60 to 80 fr.

Care must be taken in the 2nd work that the genealogical tables be found at the end of each vol. At the end of the 1st vol. there ought to be 97 pages, genealogical tables, 10 leaves, index, and 2 leaves errata. At the end of the 2nd 59 pages, genealogical tables, and 10 leaves, index and errata. And at the end of the 3rd 70 pages, genealogical tables, and 10 leaves, index.

18834 REINEKE der Fuchs. 1. Low Saxon. Reynke de vos.—At the end: Anno dñi mccccxcviii. lübeck. In 4°. Gothic letter with woodcuts.

The extremely scarce first edition of the low Saxon production, of which only the Wolfenbüttel copy is known. 242 (not

241) numbered leaves with the signatures *a-s* and *A-B*, and with 22 lines in a full page. The initials are engraved in wood. Leaf 1^a is the above title, and over it a crown. Leaf 1^b is a large woodcut representing the author writing, and underneath are the two following lines:

*O vulpis adulacio. nu in der werlde blycket
Sic hoim ē racio. ghelek dē vosse gheschicket.*

H. von Alkmar's preface follows in leaf 2^a, and line 1 is, *Eyne vorrede ouer dyt boek*. In leaf 2^b, lines 12-18, the well known remarkable passage is found, *ICK Hinrek van alckmer. scholemester vñ tuchtilerer des eddelen dogentliken vorstē vñ heren. Hertogen van lotryngen. vmmē bede wyslen mynes gnedighen heren. hebbe dyt yeghenwerdyge boek vth walscher vñ fransösescher sprake ghesocht vñ omms ghesaht in dudesche sprake*. In leaf 3^a line 3 follows: *Wo dyt boek wert ghedeleit in iiii part. De ander vorrede*. In leaf 6^a follows: *Hyr beghynt dat erste boek van reynken deme vosse vñ van allen deren*. Underneath a representation of the lion with an explanation in 4 lines. In leaf 6^b is the super-scription of the 1st chapter in 4 lines, and underneath a woodcut. The poem itself begins in leaf 7^a, and the 1st line is, *Id gheschah vp eynen*. The 2nd book begins in leaf 129^b, the 3rd in leaf 162^b, and the 4th in leaf 206^b. The poem ends in the 10th line of leaf 241^b, underneath is an admonition in prose in 7 lines, that the adjoined glosses need not be read, since they are usually passed over (so wise an admonition can scarcely be attributed to any one else but the printer.) There is then also in the same page a notice in what page each book begins, the first 4 lines of which only are in this page, and the remaining 7 in leaf 242^a. The 8th line of leaf 242^a is the abovementioned colophon under which are 4 coats of arms engraved on wood and a death's head. The 3rd and 4th coats of arms appear to be the insignia of the unknown printer. Was it St. Arnd?

My only reason for introducing here the low Saxon *Reineke*, was with the object of inserting what came next to hand, not because I participated in the opinion of those who would maintain that this work is an original in any sense of the word. That the low Saxon poem is a modification of a French poem, that it is more recent than the Latin, French, Dutch, high German *Reineke* (of Heinrich der Glichere) and probably than the English *Reineke* also, and that its greater notoriety in some degree perhaps arose from the poverty of the old low Saxon literature, can hardly be denied without prejudice. The great confusion which still prevails in the statements of the different high and low German editions,

determined me to separate the different languages without regard to the connection of the various works, and only to cite that which is completely established, or at least less uncertain. I am here more concerned with certainty than completeness.

170 leaves (the last blank) with 28 lines, and the intermixed signatures A–T, sometimes small and sometimes large. The signature x–D is wanting. The woodcuts are different from those of the edition of 1549. The printer has not mentioned himself.

- 18836 — Reyneke de Voss. Rost., L. Dietz, 1522. 4°.

This edition, of which however I know of no copy, is said to have been superintended by N. Baumann; consult *Panszer Deutsche Ann.* II. 122.

- 18837 — Reyneke de Voss. Rost., L. Dietz, 1539. 4°. with woodcuts.

This edition is described in the *Brem. und Verd. Bibl.* II. 281. Eschenburg and Adelung possessed it. The edition, Rost., L. Dietz, 1543. 4°. in the *Catal. Thott.* IV. 179.

- 18838 — Reynke Voss de olde, nyge gedruket, mit sidlickem vorstande vnd schonen figuren, erluchtet vnde vorbetert. (Rost.), L. Dietz, 1549. 4°. with woodcuts.

272 numbered leaves, and 8 unnumbered leaves of index. It is also quoted with the date of 1548, but the Dresden copy has actually the year 1549.

- 18839 — van Reyneken Vosse dem Olden, syner mennichuoldig lyst vnd behendicheyt etc. Ff. a. M., bey Cyriaco Jacobo, 20 März, 1550. 4°. with woodcuts.

In this edition the text bears scarcely any resemblance to that of the edition of 1498 (Wolfenbüttel.)

- 18840 — Reineke de Voss. Rost., 1553. 4°.

Gottsched possessed it, but it was never in the Dresden library as Hagen *Grundr.*, p. 423, states.

- 18841 — Reynike de Voss nyge ge-

This edition is said to be mutilated.

- 18842 — Reyneke Voss de olde, nye gedruket, mit sidlykem vorstande vnde schonen Figuren, erluchtet vnde vorbetert. Rost., St. Möllemann, 1592. 4°. with woodcuts.

273 numbered leaves. Far less fine than the Rostock edition of 1549, and both the language and the orthography are here greatly corrupted. (Also at Wolfenbüttel.)

- 18843 — Reynicke de Vosz dat isz ain schön und nütte gedichte, voll wyszheit, guter lehren, und lüstiger exempelen, mit schönen figuren upt nye wedder an dach gegeben. Hmb., Lange, 1604. 8°.

8 leaves of preliminary matter, 261 numbered leaves, and 1 unnumbered leaf. Is this edition only a new title to the preceding? (Also at Wolfenbüttel.)

- 18845 — de olde Reynike Voss, Feyn zyrliken vp nyge gedruket, mit sydlykem vorstande, vnd schönen Figuren, erluchtet vnd vorbetert. Hmb., Dosen, 1660. 8. with woodcuts.

8 leaves of preliminary matter, 261 numbered leaves and 1 unnumbered leaf.

- 18846 — Reineke Vos mit dem Koker. Wolfenb., Freytag, 1711. 4°.

1 title plate, 10 leaves of preliminary matter, and 380 pages. There is a copy at Wolfenbüttel on large writing paper in small folio. F. A. Hackmann was the editor, and the edition is a tolerably accurate impression of the text of 1498, which had been quite forgotten since Baumann's edition. The annexed *Koker* (*Köcher*) a collection of proverbs and morals in verse in alphabetical order, was indeed given by Hackmann as an ancient production, it is however probably a new work and perhaps his own, as the evidently modern, and sometimes incorrect language shews. An older original moreover is not to be found,

neither at Wolfenbüttel nor at Helmstadt nor elsewhere.

- 18847 — Reineke de Voss mit eener Verklaring der olden Sassischen Worde. Eutin, Struve, 1798. 8°. (18 gr.)

Gbr. Gf. Bredow was the editor.

- 18848 REINEKE der Fuchs. 2) *High German*. Reinicken Fuchs. Das ander teyl des buchs Schimpff vnd Ernst. Ff. a. M., Cyr. Jacobus, 1544. (other copies 1545). fol. Also, ib., Zephelius, 1556 or 62. fol.

The author of this insipid translation is said to have been Mch. Beuther. The editions of 1545 and 62 are at Wolfenbüttel. *Ff. a. M.* 1574 and 1587. 8°. (both in the possession of counsellor Meusebach of Berlin). *ib.* 1590, 1608 or 1617. 8°. are reprints of it. There is properly an earlier edition of the fable of the *Reineke* by Heinrich der Glischeere, and still unprinted; see Hagen's *Grundriss*, p. 422.

- 18849 — Reineke Fuchs . . . Auff das Neue mit allerhand jetziger Zeit üblichen Reim-Arten . . . ausgeziet: Mit etzlichen hundert Versen bereichert (*sic*), mit unterschiedlichen Sitten u. Lehr-Sätzen verbessert. Rost., Wilde, 1650. 8°. with bad woodcuts.

421 pages and 9 leaves. This new modification in rhyme appears to have been the work of some Zesianer. (Also at Wolfenbüttel.) Repeated, *ib.* 1662. 8°. (at Wolfenbüttel.) The editions, *ib.* 1672 and 80. 8°. appear to have originated only from misprints.

- 18850 — der listige Reineke Fuchs. Zuvor niemals also gedruckt. Without place or date, 8°. with woodcuts, 318 pages.

Another edition with the same title, without place or date, 8°. with woodcuts, 351 pages. A book for the people, and in prose, written about the beginning of the 18th century.

- 18851 — Reinicke der Fuchs, nach der Ausg. von 1498 ins Hochdeutsche übs. und mit einer Abhandl. von dem Urheber, wahrem Alter u. grossem Werthe dieses Gedichts versehen von J. Cp. Gottsched. Lpz. u. Amst., Breitkopf,

1752. large 4°. with plates, (3 d. 12 gr.)

Prized on account of the plates, although these are more true as to natural history than as to the nature of animals in fable. The original designs for these plates were produced in London in 1819, at the duke of Marlborough's sale under the title, *Everdingen's original spirited drawings for the history of Reynard the Fox*, and were bought by Mr. Hibbert of Clapham for 85l. 1s.

A real pattern. Previously, *Berl.*, 1803. 8°. — *Reineke Fuchs am Ende des philosoph. Jahrhunderts. Itzehoe*, 1797. 8°, only relates to the history of modern times.

- 18856 REINEKE der Fuchs. 3) *Latin*. Opus poeticum de admirabili fallacia et astutia vulpeculæ Reinikes, libros IV. nunc prim. ex idiomate germ. latinitate donatos complectens. Auctore Hartmanno Schoppero. Ff. a. M., Pt. Fabricius, 1567. small 8°. with woodcuts.

12 leaves of preliminary matter, (the 12th blank) 284 leaves and 1 leaf. The woodcuts are by Jost. Ammon and Virg. Solis.

- 18857 — — (the same title) Ff. a. M., Bassæus, 1574 (at the end 1575), 12°. with woodcuts.

10 leaves of preliminary matter, 506 pages and 10 leaves. Neater than the preceding edition.

10 leaves of preliminary matter, 496 pages and 10 leaves.

Ff., Bassæus, 1588.* 8°. with woodcuts, (at Wolfenbüttel) only contains the woodcuts of this translation with short Latin and German verses. That the Latin poets of the middle ages had taken notice of the *Reineke* fable before this, is proved by the *Penitentiaris lupi, vulpis et astini in Flacii varia doctor. et pior. viror. poemata* (Bas., 1557. 8°.) p. 199 sq., dated 1343.

- 18868^b — een seer genoeglyke en vermakelyke Historie van Reynaert de Vos. Amst., Pütte, 1736. 12°. with woodcuts.
There is an older Flemish poem of the Reineke, from whence the prose work was made, as the many rhymes which still remain (in the older impressions at least) clearly prove: consult *Van Wyn historische en letterkundige Avondonden* (Amst. 1800. 8°.) B. I. p. 275, and *Grüters Odina und Teutona* (Bresl. 1812. 8°.) B. I. p. 265 sq., where it is printed entire.

18876 — roman de Renard, production en vers du 13me siècle, publié par Méon. Par., 1823. 8°. 4 voll. (72 fr., on large vellum paper 150 fr.)

Of this edition, which is here merely quoted from the advertisement, only 400 copies were to be printed. It would put an end to all the controversies that have hitherto existed concerning the origin of this romance, if it were to contain the oldest documentary pieces. Le Grand d'Aussy had already in the *Notices et extraits*, V. 294. sq. instituted excellent inquiries concerning the old French romance of Renard; and has expressly treated, not only concerning that of Gielée, (see above No. 18869) but also concerning *Renard le bestourné* (p. 328) and *Renard contrefait*, (p. 330.)

18877 REINEKE der Fuchs. 8) *English*. Hyer begynneth thystorye of reynard the foxe (transl. from the Dutch by W. Caxton). Westmestre, Caxton, 6 Juyn, 1481. fol. Gothic letter.

83 leaves with the signatures a-l. The 1st leaf is blank. Leaf 2^a begins the *table of the historye of reynard the foxe*, and leaf 3^a the work itself with the above superscription. Leaf 1 5^b is the colophon, in which it is stated: *I haue not added ne mynished but haue folowed as nyghe as I can my coppye whiche was in dutche, and by me Willm Caxton translated in to this rude 1 symple Englyesh*. It is thought that it was translated from the Dutch edition of 1479. This 1st edition of the English translation is extremely scarce, and only 3 copies are known, (in the Royal library at London, in lord Spencer's library, and in

that of Magdalen college, Oxford.) Pynson's reprint is still more scarce, of which Mr. Douce's defective copy is the only one known. Dibdin's *Bibl. Spenc.* IV. 244 sq. where specimens of Caxton's translation are given.

18879 — the most delectable history of Reynard the Fox. Newly corrected and purged from all grossness in phrase and matter. As also augmented and enlarged with sundry excellent morals and expositions upon every several chapter. Lond., Ed. Brewster, 1681. 4°. Gothic letter with woodcuts, 56 leaves.—The shifts of Reynardine the son of Reynard the Fox, or a pleasant history of his life and death. Full of variety, and may fitly be applied to the later times. Now published for the reformation of mens manners. Lond., Ed. Brewster, 1684. 4°. Gothic letter, 4 leaves and 160 pages.

4 copies of the first 2 vols. and 2 copies

of the supplement on large vellum paper. The work is a pattern, how the history of a printing establishment may be usefully written, and is most advantageously distinguished by its great bibliographical accuracy. Several additions and corrections are to be found in different parts of his subsequent catalogue.

- 18935 — notice sur la vie et les ouvrages des trois Manuce. Par., Renouard, 1803. 8°.

One copy on vellum. It is merely a separate impression of one part of the 2nd vol. of the above work.

- 18936 — notice sur une nouv. édition de la traduction franç. de Longus par Amyot, et sur la découverte d'un fragment grec de cet ouvrage. Par. 1810. 8°. — Notizia sopra una nuova ediz. della traduzione franc. di Longo etc. trad. da Evasio Corio (Dm. Alb. Azuni). ib. 1810. 8°.

Two copies of each of these two works were struck off on vellum.

- 18937 — (anon.) l'impôt du timbre sur les catalogues de librairie, ruineux pour les libraires et onéreux au trésor public. Par., Renouard, 1816. 8°.

2 copies on vellum.

- 18938 — (anon.) catalogue de la bibliothèque d'un amateur, avec notes bibliographiques, critiques et littéraires. Par., Renouard, 1819. 8°. 4 voll. (33 fr., 60 copies on large vellum paper 80 fr.)

One of the most valuable French bibliographical works, and moreover an interesting document for posterity with a view to their acquaintance with the history of French bibliophily. Accuracy, multifarious knowledge and taste, render the study of it as instructive, as a cursory perusal is agreeable and entertaining. My detailed review of it is in the *Hermes*. V. 130 sq.

- 18939 — (anon.) note sur Lr. Coster à l'occasion d'un ancien livre imprimé dans les pays bas. (Par., *Crapelet*, 1818). 8°.

A separate impression of a part of his catalogue (II. 152-158), 2 copies of which were struck off on vellum.

- 18940 RENTERIA, Ibañex de la. *Fabulas en verso castellano*. Madr. 1797. 8°. 2 voll.

- 18941 RENUSSON, Ph. *Oeuvres*,

augmentées par Serieux. Par. 1780. fol.

Par. 1769. fol. is less prized.

- 18942 RENVERSEMENT de la morale chrestienne par les désordres du monachisme. Without place or date, 4°. with plates, 2 parts in 1 vol.

This satire, which appeared in Holland at the end of the 17th century, and to which the *Heros de la ligue* is a companion, contains, besides the title plate, 50 caricatures uncoloured, which are designed in a genuine comic spirit and are well executed, and a French and Dutch text. Tolerably sought after in France (36-48 fr.). A more recent edition with bad plates, probably printed in Switzerland, may be distinguished by the satirical verses, quatrains, under the plates of the original edition being omitted.

- 18943 REPERTOIRE des théâtres étrangers, traduits en franç. Par., Brissot-Thivars, 1822. 18°. 72 voll. (at 2 fr. each).

Containing, *Théâtre anglais*, 20 voll. *Th. allemand*, 20 voll. *Th. espagn.*, 12 voll. *Th. ital.*, 12 voll. *Théâtres divers*, 8 voll. — *Chefs-d'œuvre des théâtres étrangers trad. en franç.* Par., *Ladocet*, 1822. 8°. 20 voll. (at 6 fr.) is a similar collection. — *The Répertoires du th. franç.*, see under PETITOT.

- 18944 REPERTOIRE des artistes, ou recueil de différentes compositions d'architecture etc. par différents auteurs (donné par Jombert). Par. 1764. small fol. 2 vols. with 686 plates.

A very indifferent collection.

- 18945 REPERTORY (antiquarian), intended to illustrate and preserve valuable remains of old times (chiefly compiled by Grose and Astle). New edit. with great additions. Lond. 1807-9. 4°. 4 vols. with 238 plates (10l. 10s. on large paper 21l.). The 1st edition, Lond. 1780. 4°. 4 vols. is less complete.

- 18946 REPERTORY of arts and manufactures. Lond. 1794-1818. large 8°. 50 vols. Analytical index to the 16 vols. of the first series and to the first eight vols. of the second series. Lond. 1807. 8°. (10s. 6d.)

It is going on. In monthly parts at 3s.

- REPETICION, see LUCENA.

18947 **REPOSITORY** of arts, literature, commerce, *etc.* Lond., Ackermann, 14 vols. in 8°. with illuminated plates (17l. 12s.). General index (2s.).

This is the *first series*. Since then a *second series* has commenced, and is going on in monthly parts at 4s.

Concerning this work, whose real author was Pompeo Sarnelli, see *Rehfuus Briefe über Ital.* IV. 263.

18971 RESPUBLICÆ Elzevirianæ. In 16°.

This collection is differently specified by different persons, which is owing to the point of view from which it is considered. If it be confined to Elzevir impressions, many that are here cited must certainly be left out. Since, notwithstanding the preference for Elzevir productions, the collection is not sought after, as not possessing the finished neatness of their duodecimo impressions, it appears better to consider them with respect to their scientific, even if only historical, interest. In that case it must be strictly confined to those books which convey information of the different states, or at least form introductions to them, without regard to what press they proceeded from. Merely historical, or geographical works or books of travels cannot be admitted, nor any thing else that has appeared in a larger size than 16°. In order however not to make the article incomplete, we shall also give as a supplement what Brunet has admitted from books of a dissimilar kind. This extremely scarce Aldine consists of 12 leaves, which have the signatures *a*, *aii*, *aiii*, *aiiii*, *a* 5, and *a* 6. It has no title, but leaf 1^a commences with the above superscription. The above description, according to the Munich copy, has been imparted to me by D. Hain. At Askew's sale this work was sold for only 18s., but it now bears an uncommonly high price.

In quarterly parts at 6s. Commenced in October 1802. The real originator of it was Jeffrey, then professor at Edinburgh, afterwards at Glasgow, and it soon obtained such reputation, that 12,000 copies of several numbers, particularly Nos. 26 and 27, were sold, and Constable the publisher was able to give a premium of 12 guineas for a printed sheet. But Murray, the publisher of the Quarterly Review, emulated him, and has sometimes given 100 guineas for an article. The Quarterly is well known to be ministerial, and the Edinburgh on the side of the opposition. Of an earlier and now very scarce *Edinburgh review*, Edinb. 1755. 8°. only 2 numbers appeared.

A very good plan, but not entirely executed. Rive selected the miniatures from the MSS. of the duke of Vallière, whose librarian he was, but the explanatory text, which is the principal thing, he left unsupplied, and the representations which he has given are charged with want of fidelity and of taste. Only 80 copies were prepared, the subscription price of which was 25 louis d'or. A copy on vellum in the Royal library at Paris. Consult Vallière's *Catal. T. I. Suppl.* p. 78 sq. Dibdin's *Decameron*, T. I. p. XXII. sq.

19168 — histoire crit. de la pyramide de Cajus Sestius. Par., Didot, 1787. fol. with 7 plates.

It forms the 3rd vol. to Sante Bartoli's paintings (see SANTE), but it is to be had also by itself. On vellum 95 fr. Lamy.—Concerning Rive, who was well informed, but passionate, and not free from charlatanerie, see Dibdin's *Tour*, II. 381 sq. where is also his portrait.

19282 ROMAN du roi Artus. 1. *The great.* Roman fait et composé à la perpetuation des vertueux faits et gestes de plusieurs nobles et vaillants chevaliers, qui furent au temps du roi Artus compagnons de la table-ronde, spécialement à la louange de Lancelot du Lac. Rouen, J. le Bourgeois, 24 Nov. 1488.—

Cy fine le derrenier volume de la table røde faisant mencion des fais et proesses de mōseigneur lācelot du lac et dautres plusieurs nobles et vaillans hommes ses compaignons. compile et extraict precise-ment et au juste des vrayes his-toires faisantes de ce mencion, par tres notable homme et tres expt historien maistre Gaultier map. Par., J. du Pré, 16 Sept. 1488. fol. Gothic letter, 2 vols.

Both vols. are very seldom found together. In 2 columns with 48 lines. The 1st vol. contains the 1st and 2nd part of Lancelot du Lac, and has the signatures *a-L*, at the beginning 5 leaves of preliminary matter; the first of which is a woodcut, representing king Arthur with his knights at the table. The 2nd vol. contains the 3rd part of Lancelot du Lac, saint Greal, and the last part of the Round Table; has the signatures *A-KK*, and at the beginning 2 leaves of table of contents. The work consequently contains the fables of the Round Table. Concerning the sayings of king Arthur, see *Eichhorn Gesch. der Cultur*. Th. I. *Erläutt.* p. 40 sq.

- 19283 — (Jorge Ferreira da Vasconcellos) memorial das proezas da segunda tavola rotunda. Coimbra, Barreira, 1567. 4°.

Concerning an unprinted Italian translation of the Round Table, which is cited by the academy della Crusca from a MS. of 1335, see *Gamba Serie*, I. 439. Consult *Haym Bibliot. Ital.* (1803), III. 31 sq.

- 19284 — the lyf and acts of the king Arthur; of his nobles knyghtes of the round table... and inthende the dolorous deth of them all; which book was reduced into Englyssh by sir Thomas Malory, knyght: and by me devyded into 21 books, chapitred, and emprynted, and fynysshed in thabbey Westmestre the last day of Juyl the yere of our Lord 1485. Caxton me fieri fecit. In fol. Gothic letter.

This first edition is of the most extreme rarity. Only 2 copies are known in England. One, which is complete, is in the library of the earl of Jersey at Osterley; the other (in which 11 leaves were wanting, and have since been made good from the preceding by a skilful reprint of Whittaker's), was bought by lord Spencer at Lloyd's

sale at Wygfair for 300l. First 17 leaves of preliminary matter, then the text begins with the signatures *a t*, and goes as far as signature *es*. The colophon is on the *folio recto* of *es* 6.

- 19285 — — Westmestre, Wynkyn de Worde, XXV... Marche, 1498. fol. Gothic letter, with woodcuts.

The 2nd edition, of which the only copy that is known is the defective one bought by lord Spencer at the Roxburgh sale for 31l. 10s. First 8 leaves, table of contents; then the text, with the signatures *a-c*, *A-Y*, and *A-E*. A reprint of the preceding edition, the colophon of which is also repeated here as to its essential part.

- 19286 — — Lond., W. Copland, 1557. fol.

Brunet has this edition (see the note to No. 19290), but Brydges *Bibliographer*, I. 43, is not acquainted with it, and mentions the following edition instead, as the 3rd edition.

- 19287 — the storye of the kynge Artus. Lond., Jos. East, without date. fol. Gothic letter.

- 19288 — the most ancient and famous history of the renowned prince Arthur, king of Britaine. Newly refined and published. Lond., Jac. Bloome, 1634. small 4°.

Consult *Brydges's Bibliographer*, IV. 228 sq. There is probably no earlier edition than this. Another, *Lond., Copland*, without date. fol. is suspected by Brydges. There is a later edition of 1609.

- 19291 — the history of the valiant knight Arthur of little Britain, a

romance, translated by lord Berners. New edit. (by Utterson). Lond. 1814. 4°. with 25 plates (5 guineas, with illuminated plates 8 guineas).

Only 175 copies of this newest and best edition were struck off on ordinary paper, and 25 copies on large paper in small fol.

Translated and collected by R. R. (Rch. Robinson). Lond., J. Wolfe, 1583. 4°.

The 1st vol. (consult *Brydges's Bibliographer*, I. 109 sq.) is historical, and is a translation of J. Leland's *Assertio Arthuri quondam regis Angliæ*, which is reprinted in *Hearne's Collectanea*, vol. 5.—Concerning the 2nd vol., see *Brydges*, I. 125 sq.

The first MS. here described of the little Arthur, was of the 15th century, and is in Vallière's *Catal.* No. 4022. Concerning the *Romanes de Brut ou d'Artus de Bretagne* by Rt. Wace, consult *Hist. litt. de la France XIII.* 520 sq. The above article ARTHUR may be erased.

19302 ROMAN. Le romant des chevaliers de la Thrace. Par., Ges-selin, 1605. 8°. 100 pages.

extraits, T. V. p. 21 sq. Hist. litt. de France XIII. 524 sq.

- 19304 ROMAN de la rose. Le romant de la rose. Par., U. Gering, 1479. small fol. Gothic letter with woodcuts.

In 2 columns with signatures. The copy at Lyons is the only one known of this oldest edition.

- 19305 — LE rommant de la rose. Par., without the printer's name or the date (Vérard, about 1490). fol. Gothic letter, with woodcuts.

142 leaves in 2 columns, with 43 lines and signatures, without catchwords and pagination. A copy on vellum with 87 painted initials and woodcuts, is in the Royal library at Paris; a 2nd copy is in the British museum.

- 19306 — LE rommant de la rose. Par., without the printer's name or the date, (Vérard, about 1496). fol. Gothic letter, with woodcuts.

150 leaves in 2 columns, with 41 lines and signatures, without catchwords and pagination. There are 2 copies on vellum (one with 85 miniatures) in the Royal library at Paris, and M. Chardin of Paris possesses a 3rd copy.

- 19307 — le romant de la rose. Par., J. du Pré, without date, fol. Gothic letter, with woodcuts.

At the end of the 15th century. In 2 columns with the signatures *a-f*, and 41 lines. Mercier de S. Léger mentions a copy on vellum in his MS. notes to Duverrier.

- 19308 — le romant de la rose; (codicille et testament de maistre Jehan de Meun). Par., without the printer's name or the date, (Vérard), 4°. Gothic letter, 2 parts in 1 vol.

Well printed. The first part has 148 leaves besides the title, and the 2nd 42 with the signatures *a-g*.

- 19309 — le rommant de la rose nouvellement imprimé à Paris pour Jehan Petit.—At the end, Par., N. Desprez, without date, fol. Gothic letter, with woodcuts.

Less fine than the two preceding. In 2 columns with the signatures *a-x*, and 43 lines.

- 19310 — le rommant de la rose. Par., Mch. le Noir, 1509. 4°. Gothic letter, with woodcuts.

This edition is not fine. With the signatures *a-aa*. At the end is Le Noir's symbol on a separate leaf.

- 19311 — le romant de la rose. Par., J. Jannot, without date, 4°. Gothic letter.

- 19312 — le rommant de la rose. Par., Mch. le Noir, 12 April 1519. 4°. Gothic letter, with woodcuts.

With the signatures *a-EE*. As indifferent as the preceding. At the end there is also Le Noir's symbol. The editions hitherto mentioned give the text indeed only after the MSS. of the 15th century, in which the orthography and antiquated expressions are altered; they approach however nearer to the original text than the following.

- 19313 — cy est le Romât de la roze. Par., Galliot du Pré, (1526). fol. Gothic letter, with woodcuts.

4 leaves of preliminary matter, 139 numbered leaves, and 1 leaf with the printer's symbol, in 2 columns with 44 lines. This edition and all the rest of the 16th century contain the text according to Clem. Marot's corrections, which are so bold and so frequent that it might almost pass for a new work. Two copies on vellum are in the Royal library at Paris, (one with 95 miniatures, previously 420 fr. Gaignat; 450 fr. Vallière; 620 fr. M^cCarthy.) A 3rd copy was in the Harleian library, (III. 216.)

- 19314 — le rommant de la rose, nouvellement reueu et corrigé oultre les precedentes impressions. Par., par Pierre Vidoue pour Galliot du Pré, au moy de Mars 1529. 8°. with woodcuts.

A neat edition, printed in Roman characters, copies of which in good condition are scarce and greatly sought after; (90 fr. M^cCarthy). 8 leaves of preliminary matter, 403 numbered leaves, and 1 leaf with the printer's symbol.

- 19315 — cy est le rommant de la rose | ou tout l'art damour est enclose | hystoires et autoritez | et maintz beaulx propos visitez | qui a este nouvellement—corrige suffisamment | et cote bien a lanantaige | comon voit en chascune page. Par., Galliot du Pré (other copies, J. Petit), 1531. fol. Gothic letter with woodcuts.

Tolerably fine. 4 leaves of preliminary matter, 131 numbered leaves, and 1 leaf

with the printer's symbol. The woodcuts are the same as in the preceding edition.

19316 — le romant de la rose. Par., J. Longis, 1537. 8°. Gothic letter with woodcuts.

19317 — le romant de la rose. Par., Pierre Vidoue pour Gu. le Bret (other copies, J. Massé), 1538. 8°. Gothic letter, with woodcuts.

19318 — le romant de la rose, par Gu. de Lorris et J. de Meun dit Clopinel, révisé sur plusieurs éditions et sur quelques MSS., accompagné de plusieurs autres ouvrages, d'une préface historique, de notes et d'un glossaire (par Lenglet du Fresnoy). Par., Pissot, 1735. 12°. 3 voll.

Other copies, *Amst., Bernard*, 1735. 12°. 3 vols. Thereto belongs the scarce *Supplément au glossaire du roman de la rose* (par J. B. Lantier de Domerey). Dijon, 1737. 12°. This edition has fallen in price owing to that by Méon. The review of it in the *Biblioth. Raisonée*, XV. 379 sq. has something original.

19319 — le romant de la rose. Nouv. édit. avec des notes, un glossaire etc. Par., Fournier, an 7 (1798). large 8°. 5 vols. with plates. (45 fr.)

In this edition the errors of the preceding are augmented with fresh ones. 90 copies on large vellum paper, (90 fr.)

19320 — le roman de Rose par Gu. de Lorris et J. de Meung. Nouv. édit. revue et corrigée sur les meilleurs et plus anciens manuscrits, par Méon. Par., Didot, 1814. 8°. 4 vols. with plates on vellum paper, (40 fr.)

Also copies on large vellum paper, 5 on Dutch paper, 3 on rose-coloured paper, and 2 on vellum. The bad plates are those of the preceding edition. A finely printed edition, in which the text is set forth with great care in its original state. It were to be wished however, that the editor would have given something of his own for the explanation of the matter contained; but he has only added a glossary at the end of the 4th vol. In many copies there is appended an impression of Raynouard's review in the *Journal des sçavans*, printed in 8°.

19321 — cest le romant de la rose | Moralise cler et net | Translate de

rime en prose | Par vostre humble Molinet. Par., Ant. Vêrard, without date, (1511). fol. Gothic letter, with woodcuts.

4 leaves of preliminary matter, and 181 numbered leaves, in 2 columns with 42 lines. A copy on vellum with 140 illuminated woodcuts in the royal library at Paris, (previously 481 fr. Gaignat; 490 fr. Vallière, and 620 fr. M^cCarthy). J. Moulinet, the author of this translation in prose, died in 1507. Brunet has confounded this edition with the poetical original.

19322 — (the same title) Lyon, Gu. Balsarin, 1503. fol. Gothic letter with woodcuts.

153 numbered leaves in 2 columns. Well printed, and scarce in good condition.

19323 — — Par., veufue de Mch. le Noir, 1521. fol. with woodcuts.

126 leaves and 2 leaves table.

The first author of this moral allegorical poem was, as is well known, Gu. de Lorris, who died in 1260 or 62, after he had written the first 4150 verses. Jean de Meun (surnamed *Clopinel* from his lameness) who was born in 1279 or 80, continued and finished it in the first year of the 14th century. The entire poem contains more than 22,700 verses of 8 syllables. The chancellor Gerson wrote against it his *Tractatus contra romancium de rosa* (see his *Opp.* T. III. P. I. p. 297 sq.) Consult *Catal. Vallière* II. 252 sq. *Mélanges tir. d'une gr. Bibl.* IV. 9 sq. 51 sq. *Flügel Gesch. der kom. Litt.* II. 411 sq. *J. 19456 ROTHSCOLZ, F. *Icones bibliopolarum et typographorum.* Nrb. et Altorf. 1726–42. fol. 3 parts.

Complete copies are scarce. The first 2 parts contain 50 portraits each, but the 3rd only 30.

19457 — *thesaurus symbolor. ac em-*

blematum i. e. insignia bibliopolar. et typographor. ab incunabulis typographiæ ad nostra usque tempora. Nrb. et Altorf. 1730. fol.

This work has become very scarce, but is very incomplete, without selection, and at the same time very little to be depended upon, as the representations are often only made from bad copies. It contains 508 insignia in 50 sections. At the end is, *Partis primæ finis*, but a second part never appeared. The double index, mentioned in the title, was only added to it in 1765. The 64 leaves of preliminary matter are wanting in most copies. The editor's portrait ought also to be included.

19458 ROTROU, J. de. *Œuvres.* Par., Desoer, 1820–23. 8°. 5 voll. (35 fr., on vellum paper 70 fr.)

The first edition of his collected works. It is to be regretted that the prefaces and introductions of the original editions of the single pieces are omitted.

19459 ROUSSEAU, J. Bt. *Œuvres diverses.* Nouv. édit. revue et augm. Lond., Tonson et Watts, 1723. 4°. 2 voll. Also on large paper. In addition; Supplément, contenant les pièces, que l'auteur a rejetées de son édition. ib., id., 1723. 8°.

This edition, although respectable, is no longer sought after.

19460 — *œuvres.* Nouv. édit. revue, corrigée, augmentée (par l'abbé Seguy). Bruxell. (Par., Didot.) 1743. large 4°. 3 vols.

A fine edition, but not containing the author's offensive epigrams. The reprint (Par. 1743), 12°. 4 vols. is only sought after on large paper.

19461 — Lond. (Par.) 1757. 12°. 5 voll.

A neat edition, in which are to be found both the offensive epigrams and the notorious couplets (concerning them see, *Mémoires pour servir à l'hist. du célèbre Rousseau et des fameux couplets qui lui sont faussement attribués.* Bruxell. 1753. 12°.) The couplets are engraved in writing characters.

The editions, Par. an 4 (1795), 12°. 5 M 4

5 vols. and *ib.* 1796. 8°. 4 vols. with plates, are less prized. There are copies of both on vellum paper.

- 19462 — œuvres, précédées d'un essai histor. sur sa vie, et augmentées de notes et d'un choix de ses lettres (par Amar-Durivier). Par., Le-fèvre, 1820. 8°. 5 vols. with Rousseau's portrait (33 fr., on vellum paper 90 fr.).

The best edition. The offensive epigrams are indeed not to be found in it, but they were printed separately at the same time.

- 19463 — odes, cantates, épîtres et poésies diverses. Par., Didot, 1790. 4°. on vellum paper.

Only 250 copies of this fine edition were struck off. A copy on vellum was again offered for sale at 900 fr. at M'Carthy's sale.

- 19464 — — (the same title). Ed. stéréot. Par., Didot, an 7 (1799). 12°. 2 voll. Also on vellum paper.

- 19465 — œuvres choisies, odes, cantates, épîtres et poésies diverses, suivies de sa correspondance inédite avec l'abbé d'Olivet. Par., Didot, 1818. 8°. 2 voll. (9 fr., on fine paper 15 fr., on vellum paper 30 fr.)

A copy on vellum in the Royal library at Paris. An earlier edition of the *Œuvres choisies*, with the poet le Brun's notes, appeared, Par., Buisson, 1808. 8°.

- 19466 ROUSSEAU, J. Jac. Du contrat social ou principes du droit politique. Par., Didot, 1795. large 4°. on vellum paper.

Not greatly sought after. There are said to be only 4 copies on large paper in folio, also a copy on vellum in folio.

- 19467 — la botanique de J. Jac. Rousseau, ornée de 65 planches en couleurs, d'après les peintures de J. Redouté. Par., Garnery, 1805. large 4°. on vellum paper.

It appeared in 11 Nos. (200 fr., and 330 fr. in large fol.), and forms a sequel to the 4°. edition of his works in 1793.

- 19468 — œuvres complètes (publiées par du Peyrou). Genève, 1782–90. 4°. 17 vols. Also on large paper.

This edition was prepared from copies

which had been partly prepared for the press by the author himself, and contains considerable additions to several of his works. The neat plates by Moreau, which were originally intended for a Brussels edition in 12 vols. 4°. are sometimes added to it. At the same time there also appeared at Geneva an edition in 30 vols. 8°. (to which the Supplement, *Neuchâtel*, 1790. 8°. 5 vols. may be joined), and another in 33 vols. 12°. All of them have however been supplanted by the finer and more complete editions of most recent date.

- 19469 — œuvres. Lond. (Par., Ca-zin), 1781. 18°. 38 vols. with plates, by Moreau.

- 19470 — œuvres. (Kehl), impr. de la soc. litt. et typogr., 1783–89. large 18°. 34 vols.

A neat but very incorrect reprint of the Geneva edition.

- 19471 — œuvres, classées par ordre de matières, avec des notes (par Seb. Mercier et l'abbé Brizard). Par., Poinçot, 1788–93. 8°. 39 parts in 38 vols.

Also on vellum paper, and on large vellum paper in 4°. Although it is badly and incorrectly printed, yet it is worthy of notice on account of its substantial augmentations. To it, as well as to every other edition in 8°, may be joined, *Correspondance originale et inédite de Rousseau avec Mme Latour de Franqueville et M. du Peyrou*. Par. 1803. 8°. 2 voll.; and, *Lettres originales de Rousseau à Mad.*** (Marq. de Cregui), à Mad. de Luxembourg, à M. de Malesherbes etc. publ. par Charl. Pougens*. Par. 1798. large 18°.

- 19472 — œuvres. Par. 1793. large 18°. 37 vols. with plates.

- 19473 — œuvres. Par., Didot, 1793–1800. large 4°. 18 vols., on vellum paper, with plates.

Not greatly sought after, as it is not fine enough for a splendid work, and its size is inconvenient. Each vol. cost 60 fr., and with plates *avant la lettre* 72 fr., but it is now almost fallen to a quarter of the price. There are 4 or 6 copies on very large paper in folio.

- 19474 — œuvres. Bâle, Thourneisen, 1795. 8°. 34 vols.

This may serve as a cheap small edition. — *Œuvres choisies*. Lpa., Fleischer, 1818. 8°. 13 voll. (6 d. 16 gr.)

- 19475 — œuvres. Par., Bozériani (impr. de Didot), 1796–1801. large

18°. 25 vols. on vellum paper (240 fr.)

A tolerably neat edition, of which only 100 copies were struck off. There are 2 copies on somewhat larger and finer vellum paper, and 1 on vellum. This edition was long considered as one of the best, whereas it contains on the contrary a very bad text. The editor Fayolle altered it inconsiderately after MSS. in Rousseau's own handwriting, which were not of his last revision, and admitted much into it, which the author had afterwards decidedly himself altered. The *Emile* and the *Confessions* are the most disfigured in this way. The edition of the *Confessions*, *Lps.*, *Fleischer*, 1804. 8°. 4 voll. (3 d.) is printed from this bad text.

19476 — *œuvres*. Par., Didot, 1801. large 12°. 20 vols., on vellum paper (200 fr.)

Printed at the same time as the foregoing edition, only on larger paper. The character is too small for this size.

19477 — *œuvres*. Par., Belin, 1817. 8°. 8 voll. (56 fr.) Also on vellum paper.

This *édition compacte* in a small character contains the bad text of the preceding, but is enlarged with Rousseau's letters to Mad. Franqueville, du Peyrou, &c.

19478 — *œuvres*. Par., Didot, 1817. 8°. 18 vols. with 60 plates (90 fr., on vellum paper 180 fr.)

Fayolle's bad text: otherwise well printed, and with some augmentations.

19479 — *œuvres*. Par. 1818-19. 18°. 20 vols. with plates (45 fr.)

A reprint of the preceding number.

19480 — *œuvres complètes*. Par., veuve Perronneau, 1818-20. 12°. 22 vols. with plates.

Fayolle's text. The editor, de Musset, has added notes, which are too long and not always to be depended upon.

19481 — *œuvres, avec des notes historiques*. Par., Lefèvre, 1819-20. 8°. 22 vols. with plates (154 fr., on vellum paper 352 fr.)

The editor, Petitain, has purified the text from Fayolle's alterations. The Geneva text forms the basis, and it is here carefully revised afresh. The letters are arranged anew. The notes are interesting; and this well printed, and as yet best edition, also contains several augmentations peculiar to itself. The plates are also fine.

19482 — *sämmtliche Werke*, aus dem Franz. (von C. F. Cramer). Berl., Nauck, 1786-91. 8°. 10 voll. 6 d. 20 gr., on Dutch paper with plates 13 d. 14 gr.) 11r Bd. 1e Abtheil. Lpz., Fleischer, 1799. 8°. (16 gr.) — *Hinterlassene Werke* od. Briefwechsel mit Mad. Latour de Franqueville, übs. von N. Pt. Stampeel. Lpz., Schmidt, 1804-8. 8°. 3 voll. (3 d. 8 gr.) — *Briefe an Mad. von **** (Marquise de Crequi), Mad. de Luxembourg, Hrñ. von Malesherbes *etc.* Aus dem Franz. Königsb., Göbbels, 1799. 8°. (14 gr.) — *Bekenntnisse*, übs. von Adf. Freiherrn von Knigge. Berl., Unger, 1786-90. 8°. 4 voll. (3 d.) — *Vom gesellschaftl. Verträge*. Ff. a. M., Esslinger, 1800. 8°. (1 d.) *Ueber den Staatsbürgervertrag*, eine neu bearb. mit Anmerk. begleitete Uebersetzung von J. Schramm. Düsseldorf, Schreiner, 1800. 8°. (1 d.) — *Julie oder die neue Heloise*, übs. von J. Pt. le Pique. Ff. a. M., Hermann, 1801-2. large 12°. 6 parts in 4 vols. (5 d. 8 gr., with plates 6 d. 16 gr.)

Of foreign translations I notice the following only on account of its rarity: *Julia o la nueva Heloysa*, traduc. por J. Marchena. Tolosa, 1821. 12°. 4 vols. with plates.

19483 ROUSSEAU, Sm. *Flowers of Persian literature*, containing extracts from the most celebrated authors in prose and verse, with a translation into English. Lond. 1801. 4°. (18s.)

19502 ROXBURGH, W. *Plants of the coast of Coromandel*, published under the direction of Jos. Banks. Lond. 1795 sq. large fol. 3 vols. with illuminated plates.

This distinguished splendid work appeared in Nos. of 25 plates. Each vol. contains 4 Nos.; as yet only the first 2 Nos. of the 3rd vol. have appeared. The first 2 vols. cost 31l. 10s.

19503 ROXBURGHE. *Catalogue of the library of the late John duke of Roxburghe*, arranged by G. and W. Nicol. Lond., Bulmer, 1812. 8°.

It is well known what high prices were paid at this sale. Without forming a proportionate whole, this library contained 9353 articles, treasures of the first order, particularly in the classics of the old French romances and of old English literature,

not to mention its chief gem, Valdarfer's *Boccaccio*. There is detailed information respecting this sale in Dibdin's *Decameron*, III. 49 sq. The catalogue is as negligently and badly made, as all English sale-catalogues are, and it is only the collection itself which still imparts a certain interest to it. It is already scarce, and sells for from 2 to 3 guineas (particularly if the prices are printed in it), and from 5 to 6 guineas on large paper. How much higher and more intrinsic value would it have had, had it been drawn up by a Frenchman.

- 19504 ROY, Jac. le. *Notitia marchionatus sacri Rom. imperii h. e. urbis et agri Antwerpiensis*. Amst., Alb. Magnus, 1678. fol. with plates. Also on large paper.

The Royal library at Dresden has another copy besides on small paper, which however has this specification in the title, *Amst., typis Fr. Lamminga*, 1678. It entirely corresponds with the above copy, but has a dedication to Charles II. which is wanting in that.—To both the following index should be joined, *Index familiar., quarum mentio fit in notitia marchionatus S. R. I. Antw.*, 1715. fol.

- 19505 — *castella nobilium Brabantiae, cœnobiazque celebriora ad vivum delineata ærique incisa*. Antw., Thieullier, 1696. large fol.

Greatly sought after on account of the plates (among which are several by Perelle and Hollar). 11 printed leaves and 118 leaves (including the title-plate). A new title is, *Brabantia scenographia*. Amst. 1696, or 97, or 98. fol. There is a new impression of the same plates with a short Latin, French, and Dutch text, under the title, *Châteaux et maisons de campagne des gentilshommes du Brabant*. Leide, van der Aa, 1699. fol. or with the title, *Brabantia illustrata*. Amst. 1705. fol. If there really be an edition, *Antw.*, Thieullier, 1694. fol. it must be the most valuable on account of the first impressions.

- 19506 — *topographia historica gallo-brabantica*. Amst. 1692. fol. with plates.

Not often to be met with, and tolerably scarce.

- 19507 — *erection de toutes les terres, seigneuries et familles titrées du Brabant*. Leide, 1699. fol. or Amst. 1706. fol.

- 19508 ROY, Jul. D. le. *Les ruines des plus beaux monumens de la*

Grèce. Par. 1758. large fol. 2 parts in 1 vol. with plates.

This first edition contains the first impressions. But the edition, enlarged with additions and a new plate (*Par.* 1770). large fol. 2 parts in 1 vol. is more sought after.

19539 RUDBECK, Olavus. *Atlantica sive Manheim vera Japheti posterorum sedes ac patria*. P. I. Ups., H. Curio, without date (new title 1675 or 1679). — P. II. ib., id., 1689. — P. III. ib., typis et impensis authoris, 1698. small fol. 3 vols. and 1 vol. atlas in large fol.

Complete copies of these 3 vols. with the atlas are extremely scarce, an incomplete 4th vol. was destroyed by a fire at Upsal in May 1702, except ten copies at the most (according to Nyerup). At the same a large portion of the impression of the 3rd vol. was also burnt.

The atlas, which consists of maps and woodcuts, first appeared; it contains on 41 leaves 43 numbered woodcuts and 2 chronological tables. The 5th plate is wanting in all the copies, but the 25th

ought to be double (the first time with the addition, *fig. 92 A*, and the second with *fig. 92 B*). The atlas is very frequently wanting.

The 1st vol. of the text was published thrice in different years, as is noticed above. But all of them are only new titles to one and the same typographical production, although the title-pages of 1679 have the addition, *Editio II. multis in locis emendata et aucta*. In the copies of the last kind only 7 leaves have been added at the end. The collation is, 1 title-plate, 4 leaves of preliminary matter, 891 pages of text, and 7 leaves of testimonia, errata and notice *ad bibliopegos*. These last 7 leaves are often wanting. No other plates besides the title-plate belong to this 1st vol.

The 2nd vol. contains 1 title-plate, 8 leaves of preliminary matter, 38 pages of testimonia (in some copies these occupy 43 pages, though not containing any thing more, owing to their being printed in a larger character). In the 2 Wolfenbüttel copies there next follow 19 pages more of testimonia, not mentioned by other bibliographers, and superscribed *testimoniorum Pars III*. Then 672 pages of text (the last 2 incorrectly numbered 171 and 172), 36 pages of index to the 1st and 2nd vol., and 4 leaves of errata. 48 woodcuts on 24 leaves belong thereto beside, which have the number of the pages to which they belong (the pagination 350, 542 and 544 is repeated on them): but these often follow one another at the end of the volume.

The 3rd vol. contains 7 leaves of preliminary matter, 15 pages of testimonia, 762 pages of text, and an index of 55 unnumbered pages. The figures of this vol. are on 24 leaves without text, which are included in the pagination of the text (the pages 250, 252 and 253 being incorrectly numbered 150, 176 and 169). The other representations are printed in the text.

The most complete copies of the 4th vol., which is without a title and unfinished, go as far as p. 210. This is the copy that was bought at Aurivillius's sale for the University library at Upsal. The 3 remaining copies are (according to the kind communication of professor Schröder, amanuensis of the library at Upsal), that of the Royal library at Stockholm, that of the library of the academy of science at Stockholm, and that belonging to count de Brahe of Skokloster, near Upsal. A 5th copy, according to Molbeck's *Letters on Sweden*, I. 40, is in the University library at Lund, in Sweden, and was purchased for 1200 dollars of copper coin (about 70 d.). No printed copy of this vol. is yet known on the continent, but only copies in writing.

The work is written in Swedish, but the Latin translation (which in the 1st vol. is

said to be by And. von Nordenhjelm, and in the others by Pt. Salau) is placed by the side of it. A new edition, intended some time since, is now in preparation (*Björnslåhls Travels*, V. 515). Consult *Baumgarten Nachrr. von merkw. Büchern*, II. 322 sq. *Warmholts Biblioth. historica Sueo-Gothica*. Aufsätze*, p. 17. *Nyerup* in the works of the Scandinavian literary society, 1813, p. 436-477.

19540 — Campi Elysii liber primus, graminum, juncorum, cyperorum, frumentorum etc. figuras continens. Ups., And. Delen, 1702. fol. 224 pages and 130 woodcuts. Liber. II. nomina et figuras bulbosarum plantarum continens. ib. 1701. fol.

These 2 vols., which contain representations of plants engraved on wood, are only the commencement of a collection, which, as it is said, was to have contained 12 vols. They have become extraordinarily scarce owing to the fire above-mentioned, and the 1st vol. particularly, to such a degree that the entire impression was long supposed to have been destroyed. Count de Geer, of Löfsta in Sweden possesses a complete copy. In the University library at Upsal only 6 leaves of the 1st vol. are to be found (of which vol. according to the statement of the catalogue of that library, only 2 complete copies exist).

19541 — reliquæ Rudbeckianæ seu camporum Elysiorum libri primi quæ supersunt. Lond. 1789. fol.

460 leaves in 2 columns without signatures, catchwords and pagination. The first typographical production of Lubec. This compilation of universal history from different historical works, which however has somewhat of its own in later German histories, extending to the year 1473 and divided into 6 eras, is sometimes ascribed to Brochard (because his description of the Holy Land is inserted), and sometimes to J. de Columna. The first supposition is evidently erroneous, and the second is at least very uncertain, as it still requires a more accurate investigation, whether the *Mer des histoires* (see MEX) be really a translation of this *Rudimentum*. Consult *Fabric. Bibl. med. et inf. lat. ed. Mansi*, I. 404. *Seelen Selecta litt.* p. 558. *Catal. des livr. impr. sur vél.* V. 8. *Beckmann Litt. der Reisebeschreib.* II. 44 sq. The woodcuts and also a map of Palestine engraved on wood are remarkable, considering the place and time of its appearance. A copy on vellum is in the library at Rostock. This work contains at the same time the 1st edition of the *Martyrologium of Usuardus*, in which however the more modern saints are here added.

This 1st edition of the Italian translation is said to have appeared about the year 1487 according to Denis, *Suppl.* 654, and *Panser*, III. 497, 2793. But the first typographical production of this press is found to be since 1492. Molin in the preface to the preceding article doubts (too hastily) the existence of this edition.

19568^c — Ven., 7 cal. Jan. 1492. 4°.

Only mentioned by Molin, without any farther confirmation.

19568^d — libro dell' arte de marascalchi per conoscere la natura de

li caualli et medicarli nelle loro infirmità, et l' arte di domarli. Nouamente stampato. Ven., heredi di Gi. Padoano, 1554. 8°.

19568^f — libro dell' arte de mariscalchi etc. Ven. 1563. 8°.

The title is entirely the same as in the edition of 1554, of which it seems to be a reprint. Molin, who knew not of that edition, thought that this was printed from a MS.

The text begins in leaf 2^b, and ends in leaf 15^a with the line, *Augusto de Historia Ro. Libellus Finit*. The types are those of the Ammianus of 1474. The above three editions are usually found with the *Aurelius Victor* from the same press.

19573 — de historia Romana libellus. Romæ, Euchar. Silber, 23 Aug. 1491. small 4°.

10 leaves with the signatures *a* and *b*, and with 32 lines. Leaf 1^a begins with the abovementioned letter of Ang. Tiphernas to Bt. de Ursinis. Leaf 1^b begins the text. The colophon in 5 lines is in leaf 10^a. (*Wolfenbüttel*).

Edwardi Dei gracia regis Anglie et Francie ad illustrissimū principē Karolum ducem Burgundie super suspectione ordinis garterii etc. Without place or date. 4°.

This oration made by J. Russel, *Garter king at arms*, who was sent to Ghent in February 1469 to confer this order on Charles duke of Burgundy, is printed with Caxton's types, and probably soon after the occurrence, so that it appears to have been Caxton's first typographical production in England. It consists only of five pages and a half, each full page has 22 lines, and only one copy is known in England, which lord Spencer bought at the duke of Marlborough's sale in 1819 for 126l. Consult *Dibdin's Typographical antiquities*, I. 11-15 (where there is also a facsimile of the first page), and *Edes Althorp*. II. 320 sq.

19630 **RUTILIUS Lupus, P. P.** Rutilius et Aquila Romanus, antiquissimi auctores. Ven., Zoppinus, 1519. 8°.

The first edition, from a MS.—From a good MS. at Spire in the *Rhetorr. lat. ed. Beat. Rhenanus. Bas.* 1521. 4°. *Par., Ascens.*, 1528. 4°. is a reprint from this last. Again from a MS. with Georgius Trapez. *Ven., Ald.*, 1523. fol. The text in the edition of the Rhetoricians, *Par., Rb. Stephanus*, 1530 (other copies 1541). 4°. is very incorrect, and arbitrarily altered. This text has been repeated by subsequent editors.

19632 — de figuris sententiarum ac verbor. P. Rutilii Rufi rhetoris antiquissimi libri II. Aquilæ Romani liber I. Julii Rufiniani de iis, quæ ab Aquila prætermismissa erant, libellus. Et præterea ejusdem libri II. Omnia sic sunt restituta, et ut (*sic*) legi et intelligi magno studiosorum commodo possint. Arg., Wfg. Cephalæus, 1539. 8°.

127 pages and 4 leaves of index. Ruhnkenius in the preface to his edition of *Rutilius Lupus*, p. xxiii. incorrectly doubts the existence of this edition. The preface with the superscription, *Typographus lectori S.*, is no other than that which is prefixed to Rb. Stephens's edition, save only that instead of the words in *Germania*, in the Strasburg edition is *Spira*, instead of *mea sententia*, it is here given *eruditorum multorum sententia*, and somewhat further below, in the words *restituendum vobis curavimus*, the word *vobis* is omitted. The text almost every where agrees with that of Stephens, and is only beholden to that of Rhenanus in a few passages, without doubt because the Strasburg printer did not prepare his edition from a copy of Stephens's edition, but of Rhenanus's, in which all the passages had not been altered by a collation with the other. [For this valuable notice I am indebted to the kind communication of M. Bardili of Urach.]

19645 RUYSCH, F. Opera anatomico-medico-chirurgica. Amst. 1737. 4°. with plates.

Ruyseh's separate writings (to the number of 47), with separate title-pages of different years are collected together under this general title. The prefixed *elenchus* gives a list of them, yet the 47th piece, *Appendix necessaria indicis operum Ruysehii*, 1725 or 43, of 12 pages, which is often wanting, is not stated in this *elenchus*. The collection is usually bound in 2 or 3 or even 4 vols. Almost all of them have been often printed, and some with variations. For instance, the 10 pieces of the *Thesaurus anatomicus* in the 1st edition (1701–15) are in Latin and Dutch, whereas in the new impressions of 1724–39 they are only in Latin. There is only one general title, which is of the year 1737, although several of the writings were

first printed in 1744. The title-plate has the year 1720.

RUYSCH, H. *Theatrum animalium*, see JONSTON.

19646 RUZZANTE (Agnolo Bezolco, detto il). *Tre orationi in lingua rustica. Dialogo facetissimo et ridicolissimo. Due dialoghi in lingua rustica. Anconitana comedia. Fiorina comedia. Moschetta comedia. Piovana comedia. Rhodiana comedia. Vaccaria comedia. Ven., Bonadio, 1565. 8°.*

All these pieces have their distinct titles, but no general title. This edition is less complete than the following.

19647 — tutte le opere. (*Ven.*) 1584. 12°.

The most complete and correct edition, see *Marsand's Petrusca* II. 432.

19648 — tutte le opere. Vicenza, heredi di Perin, 1598. 8°.

As complete as the preceding, but not so correct. All three pieces had previously appeared separately between 1548 and 1556. They are remarkable for the circumstance, that every character introduced into them speaks a different Italian provincial dialect. Consult *Fernow Röm. Studien* III. 489 sq.

XII. videlicet ab a. 1101 ad nostra usque tempora habita aut tractata, ex autographis fideliter expressa. Lond., Churchill, 1704-17. fol. 17 voll.*

The very scarce original edition of this important collection, of which only 225 copies in all are said to have been printed. (*Uffenbach's Reisen*, II. 493.) This 1st edition properly contains only 17 vols., but the 18th, 19th, and 20th are usually added to it from the following edition in order to complete it.

19651 — — Lond. 1727-35. fol. 20 vols. Also on large paper.

This edition is said to be more correct than the preceding.

19652 — — Hagæ Com., Neaulme, 1745. fol. 20 parts in 10 vols. Also on large paper.

Less fine than the preceding, and at a lower price, but containing an index and other augmentations; a French translation is also given of those original documents which are written in English.

The first two editions, *Lisb., Rodrigues, 1634. 16°.*, and *Lisb., Craesbeeck, 1658. 4°.*, both of which are cited by the academy of Lisbon, are very different from each other: moreover they have not the *argumentos* of the new edition.

Cited by the academy of Lisbon. More complete than the 1st edition, *Lisb. 1595. 4°.* But his two comedies, *Vilhapandos* and *Estrangeiros*, which are wanting in the other earlier editions, are in the 1st edition, and are printed in the edition, *Lisb., Alvares, 1622. 4°.*

Also, *ib.*, *id.*, 1566. 8°. *ib.*, Gbr. Buon, 1569. 8°. This is not a translation of the above work, but of Raym. *Secundi de natura hominis dialogi s. viola animæ*. Lugd., Gryph., 1544. 8°, which also previously appeared, Col. 1499. 4°, and is not by Sabunde, but by Pt. Dorland.

19686 SACCENTI, Gi. Santi. Raccolta delle rime piacevoli. Cerreto (*Fir.*), 1789. 12°. 2 voll.

The best edition. *Cerreto (Livorno)*, 1781. 8°. 2 vols. is equally good, but not so fine. But the first edition, Roveredo, 1761. 8°. 2 vols. is very incorrect.

19687 SACCHETTI, Franco. Novelle. Fir. (*Napoli*), 1724. 8°. 2 voll.

There are two reprints of this edition with the same date, one of which is very incorrect. See their differences in *Borromeo Catalogo de' novellieri ital.* p. 47; and in *Gamba Serie*, I. 384. As to the rest, all three editions contain great mutilations.

This edition is probably only a new title to the preceding.

19696 — Proben aus Hans Sachsens Werken, zum Behuf einer neuen Ausg. derselben von F. Just. Bertuch. Weim. 1778. large 4°. (4 gr.)

This edition was never completed. It was designed to be in 8 vols. 4°.

The plates are numbered from 1 to 100, including three maps; there is besides at p. 184, the Theodosian map without a number.

versa. Without place or date. fol. Gothic letter.

23 leaves with 35 lines, without signatures, catchwords, and pagination. Leaf 1^a begins with this superscription, *In pñti codice cōtinētur duo singulares et pñtiles tractatus etc.* The work of Saliceto ends in leaf 7^b, that of Turrecremata in 11^a, that of Pius in 13^a. In leaf 14^a begins *Pñi secundi pñtificis maximi pro laude homeri prefatio*, with the piece belonging thereto, which does not contain a translation of the *Iliad*, but extracts from it in the form of a dialogue, and it ends in leaf 23^a. The last piece (that is from leaf 14 to 23) belongs to the same printing, but was met with by itself at M^cCarthy's sale (134 fr.). The printing certainly belongs to one of the oldest north Dutch printing establishments, and may be set down between 1467 and 1470. The types are entirely the same as those of the *Doctrinale*, which is attributed to Coster. It is evident, therefore, that this piece is a valuable document for the history of the oldest Dutch typography, and Renouard has actually made use of it, with much acuteness, to dispute the history of Coster's discovery. To me it appears not adapted to such a counter-proof, but on the contrary as evidencing in favour of the Dutch discovery. Consult *Renouard Catal.* II. 152-158. *Hermes*, B. 22. *König Verhandeling*, p. 166. *König Bydragen*, II. 143. *Dibdin Æd. Althorp*. II. 256, is quite superficial.

19928 SALLUSTIUS philosophus. De diis et mundo. Leo Allatius nunc primus e tenebris eruit et latine vertit. Romæ, Mascardus, 1638. 12^o.

The first edition and scarce, with it the Demophilus of 1638 is usually found (see above, No. 5932).

19929 — de diis et mundo. Leo Allatius nunc primus e tenebris eruit et lat. vertit. Juxta exemplar Romæ impressum. LB., J. Maire, 1639. 12^o.

Only a reprint of the preceding edition, and is more easy to be met with. With this also is usually found, *Demophilus etc. sententiæ*. LB. 1639. 12^o.

19930 — de diis et mundo. Leo Allatius nunc primus e tenebris eruit, et latine vertit. Juxta exemplar Romæ impressum. Cantabr., ex offic. J. Hayes, impensis J. Creed, 1670. 8^o. 46 pages.

Only an impression of the preceding, yet with the addition of notes by Th. Gale (p. 43-46). This scarce edition is in the Council library of Leipzig, and is repeated word for word in *Gale Opuscul. mythol. Cbr.* 1671. 8^o. or *Amst.* 1688. 8^o.

- 19935 SALLUSTIUS, Caj. Crispus. De bello Catilinario et de bello Jugurthino. (Ven.), Vindelinus de Spira, 1470. large 4°.

According to Dibdin 70 leaves, according to Brunet (probably including a blank leaf) 71 with 30 lines, without signatures, catchwords, and pagination. Leaf 1^a begins without further superscription with the *Catalina* and the 1st line is, (O)MNIS HOMINES. *Jugurtha* begins in leaf 24^a, and the 1st line is, (F)ALSO. QVERITUR. The work ends in leaf 70^a with the date, EXPLICIT. M.C.C.C.C.L.X.X.

and 6 verses, *Qui cupis ignotum Jugurtha noscere letum* etc., in which the printer is named, and it is at the same time stated, that only 400 copies of this edition were struck off. Leaf 70^b is blank. This edition is usually considered as the first, without, however, its being decided with any certainty whether this priority would most correctly be assigned to this or to the following edition. Cortius has made use of it. According to Dibdin's *Bibliomania*, p. 424, and Beloe's *Anecdotes*, IV. 67. there is a copy of it on vellum in the library at Blenheim.

- 19936 — de conjuratione Catilinæ et de bello Jugurthino. Without place or printer's name, 1470. large 4°.

55 leaves with 34 lines, without signatures, catchwords, and pagination. Leaf 1^a line 1 is, C. SALVSTII CRISPI DE CONIVRA. The *Catilina* ends in leaf 19^a with the word FINIS. *Jugurtha* begins in leaf 20^a without any superscription, and the 1st line is, (F)ALSO QVERITUR DE NATURA. The work ends in leaf 55^b with the subscription in 2 lines, LAVS. DEO. M. CCCC. LXX. This edition has also sometimes been attributed to Vindelinius de Spira, it is however more probable that it belongs to a Roman press. The Bipontine editors erroneously attributed the superintendence of it to Pomponius Lætus. According to Haverkamp, who made use of it, it is printed from a very good MS.

- 19937 — in Catilinam et in Jugurtham. Without place or date (*Roma, Adam Rot*), fol.

58 leaves with 34 lines, without signatures, catchwords, and pagination. Leaf 1^a begins with the *Catilina* without any superscription, and the 1st line is, (O)Mnis homines qui student esse prestare. The *Catilina* ends in leaf 20^a with the subscription, *In catilinam (sic) salustius finit*. *Jugurtha* begins in leaf 21^a, and ends in leaf 58^a:

In Jugurtham Salustius Finit Feliciter:
A... R...

Maittaire's reference of these letters to Adam Rot is censured as absurd by Dibdin, *Bibl. Spenc.* II. 331, and the existence of this printer is without hesitation denied. His contradiction he has recalled in the *Decameron*, II. 331 n., but has still to make up for his want of acuteness, as well as much besides.

- 19938 — de bello Catilinario et de bello Jugurthino. Sallustii vita. Ejusdem in Ciceronem iniectiones.

Ciceronis in Sallustium responsio seu inuectiua. (Ven.), Vindelinus de Spira, 1471. fol.

69 leaves, without signatures, catchwords, and pagination. Leaf 1^a begins with the *Catilina* without any superscription, and the 1st line is, (O) MNIS HOMINES. The *Catilina* ends in leaf 21^b with *reloc.* At the end of the *Jugurtha*, leaf 42^b is, EXPLICIT. M. CCCC. LXXI., and then 6 verses, *Qui cupis ignotum Jugurthe noscere letum* etc. Next follows Sallust's life and the two invectives on 6 leaves, at the end of which there is again MCCCCXXI. This is the 2nd edition of Vindelinus, considerably corrected, and probably from a different MS. It is very scarce, and, like the 1st edition, consisted only of 400 copies.

19939 — de Lucii Catilinæ conjuratione liber. De bello Jugurthæ contra populum Romanum liber. Without place or date (*Par., Gering, Crantz et Friburger*, about 1471). 4°.

105 leaves with 23 lines, without signatures, catchwords, and pagination. Leaf 1^a line 1 is, *Caii Crispi Salustii, nobilissimi civis* (in other copies, in which this 1st leaf is reprinted on account of some typographical errors, the 1st line runs thus, *Caii Crispi Salustii, de Lucii*). The *Catilina* ends in leaf 35°. The following or 36th leaf is blank. *Jugurtha* begins in leaf 37°, and the 1st line is, *Caii Crispi Salustii, de bello Ju.* The distich, *Qui cupis ignotum* etc. (as in the above editions) and 8 Latin verses, *Nunc parat arma virosque* etc. (which refer to the war of Louis XI with Charles duke of Burgundy, at that time going on) concludes the work in leaf 105^b. Gu. Fichetus was the editor. There are 2 copies on vellum, one in the Royal library at Paris (formerly belonging to the Sorbonne), and the other in the Bodleian.

19940 — De Lucii Catilinæ conjuratione liber. De bello Jugurthæ contra populum Romanum liber. Sallustii inuectiva in Tullium. Ciceronis inuectiva in Sallustium et quarta inuectiva in Catilinam. Without place or date (*Par., Cæsaris et Stol*, about 1473). 4°.

101 leaves with 24 lines, without signatures, catchwords, and pagination. The *Catilina* begins in leaf 1^a with a superscription in 3 lines, the 1st of which is, *Caii Crispi Salustii, de Lucii*. It ends in leaf 31^b with *Finis feliciter*, and 8 verses,

Se quisquam cupiat etc. *Jugurtha* begins in leaf 32°, and the 1st line is, *Caii Crispi Salustii, de bello Ju.* It ends in leaf 92^b with 8 verses, the last of which is, *Hoc prope divina perpolit arte libros*. The 3 invectives follow in leaf 93°, and the 1st line is, *Caii Crispi Salustii in. M.* The book ends in leaf 101^b with *Inuictuarum Finis*.

19941 — libri de bello Catilinario et Jugurthino. Salustii et Ciceronis inuectivæ mutæ et Ciceronis quarta inuectiva in Catilinam. Without place or date (*Par., Pt. Cæsaris*, about 1474). 4°.

With 26 lines, without signatures, catchwords, and pagination. This well-printed and very scarce edition begins with the prologue of the *Catilina*. The last 32 leaves contain the invectives with the following colophon in 2 lines, *Et in hoc finitur quarta inuectiva Marci Tullii Ciceronis in Lucii Catilinam*.

19942 — de conjuratione Catilinæ liber. De bello Jugurthino liber. Without place or date (*Arg., Mt. Flach*, about 1474). fol. Gothic letter.

60 leaves, with 34 lines in a full page, without signatures, catchwords, and pagination. Leaf 1^a line 1 is, *Caii Crispi Salustii, de Lucii Catil.* The *Catilina* ends in leaf 20^b. *Jugurtha* begins in leaf 21°, and ends in 60^b with the distich *de morte Jugurthæ*. The types are the same as those in the Persius, No. 16231 above. (Wolfenbüttel.)

19943 — de Catilinæ conjuratione et de bello Jugurthino. Medioli., Ant. Zarotus, 4 Aug. 1474. fol.

19944 — opera quam optime emendata. Ven., imp. J. de Colonix nec non J. Manthen, 23 Mart. 1474. small fol.

75 leaves with 32 lines, and catchwords, but without signatures. Leaf 1^a line 1 is, OMNIS HOMINES Qui. The *Catilina* ends in leaf 21^b with the word *reloc.* The *Jugurtha* begins in leaf 22^a without any superscription, and ends in leaf 63^b with FINIS, and a colophon of 5 lines. The life of Sallust and the usual invectives follow in leaves 64–75. This edition is scarce.

19945 — Catilinaris et de bello Jugurthino. Brixix, Eustacius Galus, 26 Aug. 1475. fol.

53 (not 108) leaves with 35 lines, without signatures, catchwords, and pagination.

The *Catiline* begins in leaf 1^b, and ends in 18^b. The *Jugurtha* begins in leaf 19^a, and ends in 53^a. Leaf 53^b is the colophon. This is one of the rarest editions of Sallust.

- 19946 — opera quam optime emendata. Valentiae, (*Alonsus Fernandez de Cordova et Lambertus Pulmart*), 13 Jul. 1475. 4°.

It begins with the *Catiline* without any superscription; the *Jugurtha* follows. After the colophon are to be found Sallust's life, and his invective, with those of Cicero and Catiline. There is a copy of this extremely rare edition at Blenheim.

- 19947 — opera. Mediol., Ph. Lavaninus, 5 cal. Dec. 1476. fol.

- 19948 — opera quam optime emendata. Mediol., Jac. Martianus, 22 cal. Dec. 1477. fol.

- 19949 — de Catilinæ conjuratione et bello Jugurthino. Invectivæ Ciceronis in Catilinam. Par., U. Gering, without date (about 1477). 4°.

This edition, which is little sought after, has indeed also the verses at the end, as in No. 19939, *Nunc parat arma*, etc. it is however of later date, and is distinguished by having signatures and Cicero's invectives, which are wanting in the earlier edition. The colophon stands before the invectives.

- 19950 — eadem opera. Par., Gering, without date. small 4°.

With signatures (as far as O 5). The last page has 25 lines. Of little value.

- 19951 — historia de conjuratione Catilinæ et de bello Jugurthino. Sallustii et Ciceronis invectivæ. (*Ven.*), Ph. Petrus, 22 Jun. 1478. fol.

52 leaves (the 1st blank) with 36 lines, and the signatures a-g. Very incorrectly printed.

The alterations of Lætus, pretendedly *ex fide vetustatis*, are too arbitrary, and often unhappy.

8 leaves of preliminary matter, 282 pages, and 13 leaves of index. At the end is, *Venetis, apud J. Garam*, 1588.

20005 — historiæ de conjuratione L. Catilinæ. De bello Jugurthino etc. Omnia hæc ad authentica exemplaria collata et variis lectionibus expolita. Una cum H. Glareani annotatt. et Cœlii Sec. Curionis

The text of the Plantine edition of 1579, with the notes which Ciacconius had left behind him, in which he has corrected and explained Sallust, particularly by a comparison with Tacitus, although often too boldly.—An earlier recension, which Ciacconius is said to have given of Sallust in 1544, I am not acquainted with.

20007 — opera cum fragmentis. Cp. Colerus omnia recensuit, emendavit et notis illustravit. Nrb., P. Kauffman, 1599. 8°.

Containing little of its own.

20008 — opera omnia que exstant. Helias Putschius ex fide vetustiss. cod. correxit et notas addidit: idem fragmenta centum locis auxit et interpolavit. Adjectæ Pt. Ciacconii notæ. Ex off. Plantin. Raphelengii, 1602. 8°.

12 leaves of preliminary matter, 299 pages, and 10 leaves of index. Carrio's text, corrected by Putschius from MSS. and the older editions. The fragments are augmented from Servius.

20009 — opera omnia quæ exstant, ex recognitione Jani Gruteri. Acc. castigatt., annotatt., notæ ac scholia Glareani, Popmæ, Aldi etc. Ff., e collegio Paltheniano, 1607. 8°.

A new and careful recension from 14 MSS. and old editions. Coler's notes, which are promised in the title, are not in the book itself.

20010 — historiæ C. Crispi Salustii de L. Sergii Catilinæ conjuratione, ac bello Jugurthino. Ingolstadii, ex typographeo Ad. Sartorii, 1607. 8°. 176 pages.

20011 — opera quæ exstant, cum fragmentis. Ex nova recensione

J. Ph. Parei. Ff. ad M., Vetter, 1617. 8°.

Also, *ib.* 1622. 8°.

20012 — Sallustii opera, et L. Cornelli Sisennæ historiarum fragmenta. Ausonius Popma recensuit et scholiis illustravit. Franck., J. Lamrinck, 1619. 8°.

20013 — Sallustius ex museo J. Is. Pontani. Amst., Jansson, 1627. 12°.

20014 — C. Sallustius Crispus cum veterum historicor. fragmentis (ed. M. Zuer. Boxhorn). LB., ex off. Elzevir., 1634. 12°.

There are three different impressions of this neat, scarce, and greatly sought after edition, with the above date. In all 3 the text occupies 310 pages; they are distinguished in the following manner: the 1st has 12 leaves of preliminary matter, and 19 leaves, florilegium and index. Before the dedication is a vignette engraved on wood with two birds, and before the *testimonia veterum* another with a buffalo's head. P. 216 is a vignette with a Medusa's head. The 2nd and 3rd impressions have only 8 leaves of preliminary matter, and 17 leaves, florilegium and index, without vignettes before the dedication and *testimonia*. Instead of which the 2nd impression has retained in p. 216, the large Medusa of the first impression, whereas the 3rd impression has a different *mark*, in the middle of which a very small head is to be found. The 3rd impression is the least fine, and probably appeared after 1650.

The edition, Amst., *ex off. Elzevir.*, 1658. 12°. is a less fine reprint of the edition of 1634.

20015 — C. Sallustius Crispus cum veterum historicor. fragmentis. Amst., ex offic. Janssoniana, 1641. 12°.

Also, *ib.*, *id.*, 1647. 12°. *ib.*, *id.*, 1684. 16°. Ven., *Pezzana*, 1711. 12°.

20016 — C. Sallustius Crispus primus in historia cum fragmentis veterum historicor. LB., Just. Livius, 1645. 12°.

20017 — opera quæ extant. Ex nova rec. J. Ph. Parei edebat cum animadv. et notis Dn. Pareus. Ff., a. M., Hüttner, 1649. 12°.

Also, *ib.* 1675. 12°.

20018 — opera quæ extant omnia: cum selectissimis varior. annota- VOL. IV.

tionibus, et accurata recensione Ant. Thysii. LB., Fr. Hack, 1649. 8°.

20019 — C. Sallustius Crispus a. bellum Catilinarium et Jugurthinum cum commentariis. Tironum ac juniorum captui accommodavit J. Min-El. Rott., Wagens, 1653. 8°.

Also, Rott. 1695. 12°. Lps. 1759. 8°. and with Wase's text, *Ultraj.* 1720. 12°.

20020 — — (as No. 20018). Ed. II. auctor et emendator. LB., Hack, 1654. 8°.

Repeated, *ib.* 1659. 8°.

20021 — opera quæ extant omnia, cum notis et accurata recensione. Par., Cramoisy, 1654. 16°.

It appears to have been superintended by a Jesuit (the symbol of the society is on the title), and is stated in p. 451 to be *Optimor. codicum fide purgata.* (Wolfenb.)

20022 — C. Sallustius Crispus cum veterum historicor. fragmentis. Recensitus a Rutgero Hermannide. Amst., Valckenier, 1661. 12°.

Also, Amst. 1666 or 75. 12°.

20023 — quæ extant. Ex rec. J. F. Gronovii cum varior. observationibus ab Ant. Thysio collectis. LB. et Rot., Hack, 1665. 8°.

20024 — quæ extant. In usum Delphini diligenter recensuit et notulas addidit Dn. Crispinus. Par., Leonard, 1674. 4°.

Also, Lond. 1697, 1715, 26, 35, 68, 76, or 84. 8°. Par., Barbou, 1726. 4°. Bassani, 1790. 4°.

20025 — opera omnia quæ exstant, cum commentariis integris et selectis varior. Acc. Jani Melleri Palmerii spicilegia in eundem auctorem. Cum ind. rerum et verbor. locupletissimo. LB., Hack, 1677. 8°.

This is almost entirely like the following edition, yet less sought after.

20026 — — (the same title). Amst., H. Boom, 1690. 8°.

One of the rarest editions *cum notis variorum*, and greatly sought after.

20027 — quæ extant, cum notis
5 P

varior. Acc. Julius Exsuperantius, Porcius Latro et fragmenta historicor. vett. cum notis Ausonii Popmæ. Recensuit, notas perpetuas et indices adjecit Jos. Wasse. Præmittitur Sallustii vita auctore J. Clerico. Cbr., typis acad., 1710. 4°. Also on large paper.

Gruter's edition of 1607 forms the basis, corrected from MSS. and the earlier editions. The earlier apparatus is industriously and carefully made use of, and the edition contains some very learned matter peculiar to itself. The copious index often supplies the place of a commentary.

20028 — quæ extant. (Cum ind. et variantibus lectt., edente Mch. Maittaire). Lond., Tonson et Watts, 1713. 12°.

20029 — quæ exstant, ex optimis codd. accuratissime castigata. Accedunt Jul. Exsuperantius, Porcius Latro et fragmenta veterum historicor. Patav., Jos. Cominus, 1722. 8°.

Superintended by Gaetano Volpi.

20030 — quæ extant. Item epistolæ de republica ordinanda, declamatio in Ciceronem et Pseudo-Ciceronis in Sallustium. Nec non Jul. Exsuperantius de bellis civilibus, ac Porcius Latro in Catilinam. Recensuit et adnotationibus illustravit Gli. Cortius. Acc. fragmenta veterum historicor. Constantinus Felicius Durantinus de conjuratione Catilinæ et index necessarius. Lps., Gleditsch, 1724. 4°.

A new and very valuable recension from MSS. and old editions with excellent explanations. Yet the editor has sometimes allowed himself too bold alterations, and in particular has almost everywhere expelled the verb substantive. This edition should be added to Havercamp's. There are copies on paper somewhat larger and finer, which are very scarce and greatly sought after. Reprinted, Ven. Paschalius, 1737. 4°, also on large paper.

20031 — opera quæ extant. Ad usum scholar. universitatis Paris. (ed. J. Heuzet.) Par. 1729. 12°.

With short and appropriate notes. Often repeated, for example, Par., Brocus, 1767. 8°.

20032 — belli Catilinarii et Jugurthini historiæ. With a free English translation, by J. Clarke. Lond., Bettesworth, 1734. 8°.

The last time, Lond. 1799. 8°.

20033 — belli Catilinarii et Jugurthini historiæ. Edimburgi, Gu. Ged, aurifaber Edinensis, non typis mobilibus, sed tabellis seu laminis fuis excudebat, 1739. 16°.

Stereotyped, and the first attempt of this kind in Great Britain, but not fine. The following is a new impression from these plates, or a new title to the earlier production, *ib.*, *id.*, 1744. 16°. Consult *Biographical memoirs of W. Ged.* Lond., 1781. 8°.

20034 — quæ exstant. Cum notis integris atque selectis varior. Accedunt Jul. Exsuperantius et Porcius Latro, ut et fragmenta historicorum, cum notis integris varior. Cura Sigeberti Havercampi. Cum indd. copiosissimis. Amst. et Hag. Com., Changuion *etc.* 1742. 4°. 2 voll. Also on large paper.

Wasse's text with the addition of various readings from 12 MSS. and from the Roman edition of 1470, and with the entire notes of the earlier editors; except that nothing is introduced from Corte's edition. The editor has given nothing of his own.

20035 — quæ extant. Lond., J. Brindley, 1744. 16°.

20036 — opera (ex rec. St. And. Philippe). Lutet. Par., David, 1744. (new title, *ib.*, Barbou, 1754). 12°.

Also, Par., Barbou, 1761 and 74. 12°.

20037 — quæ extant. Amst., Wetstein, 1747. 12°.

20038 — belli Catilinarii et Jugurthini historiæ. Glasg., Rb. Urie, 1749. 12°.

Corte's text, corrected in the punctuation.

20039 — quæ supersunt omnia. Ex rec. Gli. Corte. Glasg., Rb. et And. Foulis, 1749 or 51 or 77. 8°.

20040 — belli Catilinarii et Jugurthini historiæ. Edinb., Hamilton et Balfour, 1755. 12°.

Neat and very correct, although not without any typographical errors, as is always stated; Renouard has discovered three. Very scarce on large paper in 8°.

20041 — C. Crispus Sallustius et L. Annæus Florus. Birminghamiæ, J. Baskerville, 1773. large 4°. *Also ib. id.*, 1774. 12°.

20042 — quæ exstant, cum varietate lect. curav. J. Jac. Hottinger. Turici, Orell, 1778. 8°. (20 gr.)

20043 — opera omnia excusa ad editionem Cortii cum editionibus Havercampi et Gabrielis Antonii collatam (ed. H. Homer). Lond., Payne, 1789. 8°. On vellum paper. An uncommonly fine and correct edition. Very scarce on large paper.

20044 — Sallustius. Accedunt recensio novissimæ versionis hispanicæ, examen variarum lectionum, interpretatio locorum, index latinis. (Edid. W. Abr. Teller.) Berol., Unger, 1790. 8°. (16 gr., on writing paper, 3 d., on vellum paper 6 d.)

This edition gives most honourable proof of the taste, acuteness, and learning of the editor, but is printed so incorrectly, that whole lines are wanting. Chiefly after Corte, but here and there after the Brescian edition of 1495.

20045 — opera. Par., Renouard, 1796. 18°. 3 voll. (12 fr., on Dutch paper, 24 fr.)

Neat and correct, two copies on vellum.

There is a copy on vellum.

20049 — opera, exceptis fragmentis, omnia edid. et illustrav. H. Kun-

hardt. Lubec., Bohn, 1799-1810 (new title, Lps., Barth, 1812). 8°. 2 parts in 1 vol. (1 d. 8 gr.)

20050 — Sallustius. Mediol., e typographeo Mussiano, 1813. fol. 2 voll.

Only 50 copies of this edition, which is far from being fine enough for a work of splendour, were struck off (45 d.)

20051 — opera quæ exstant præter fragmenta omnia. Textum recognovit et illustrav. Gu. Lange. Hal., Hemmerde, 1815. 8°. (18 gr.)

28 leaves (the last blank) with 25 lines, and the signatures *a-e*. In leaf 1^a is the above title in 2 lines. The text begins in leaf 2^a, and the 1st line is, *C. Crispi Salustij liber de con.* It ends in the 22nd line of leaf 27^b with *Finis*. It appears to be a German typographical production of the 15th century, but the larger types in the column-titles are similar to those of R. Paffroet. (Wolfenbüttel.)

20058 — Catilina. Thdr. Graswinckelius commentario illustravit. LB., Is. Commelinus, 1642. 12°.

This translation of the infant Don Gabriel Antonio, in which however, Fr. Perez Bayer, his tutor, had great part, is uncommonly finely printed, and was only given away in presents, but is notwithstanding to be met with frequently enough. There are explanations and readings from MSS. of the Escorial appended, which Teller made use of in his edition of 1790; a treatise by Bayer *Del alfabeto y lingua de los Fenices y de sus colonias* is also annexed, of which there were also some copies by themselves, see ALFABETO.

It appears that, besides the copies intended for the infant, the paper of which was perfectly white and of equal beauty, there were also a considerable number of inferior copies struck off. In these last, which are little sought after, the paper is blueish and very different, and the plates and maps are visibly of a later and inferior impression. They were not fairly circulated in trade until after the prince's death, and in purchasing a copy, care must be taken to obtain one that is genuine.

20137 SALTHERNIUS, Dn. Bibliothecæ Dn. Salthenii libri rariores et rarissimi. Regiom., Hartung, 1751. 8°.

This collection, which the Polish prince Jablonowski bought entire, is nearly the last evidence of that mania for rarities, which had spread itself from Holland into Germany in the first half of the last century. The catalogue, which is now very

scarce, is worth preserving, as other catalogues in their statements of rarities often refer to this alone. And it really is entertaining to see how little was required by the honest collector at Königsberg to ascribe rarity to the most worthless and common books. Often has he no other proof of such scarceness, except that the book does not occur in the (little) *Jücher*, or in Mencke's and Gundling's catalogues! It is neither unnecessary nor too severe to notice these absurdities, which have been so prejudicial to the funds of libraries. What treasures might not our German libraries have possessed, if at a time when the markets were still full and the prices moderate, they had purchased with understanding! But what the earlier and better instructed English and French suffered to remain in the Dutch warehouses with contempt, at that time we brought home with delight, and now our book-shelves bend under the weight of worthless and scarce articles forsooth, which neither afford pleasure to those who inspect them, nor inform those who are desirous of knowledge. A person ought to be a librarian, in order to feel how often he would be tempted on an examination of old library accounts with reference to that unhappy period of rarity to exclaim, *O mihi disjectos referat si Jupiter nummos.*

A work still prized. Some copies end with leaf 255 (wrongly numbered 257), others have a 256th leaf, which contains on the *folio recto* errata, the register, and the following colophon, *Romæ, apud eundem Hippol. Salvianum, m. Oct. 1557*. In other copies the colophon is dated, *mense Januario, 1558*. All the three kinds of copies however are of one and the same

printing. There are also separate impressions of the 99 plates of this work without any text on 82 leaves in small folio, with a title of 1554, and an Italian advertisement by Ant. Lafreri, dated the 20th of March, 1559.

The work, even on large paper, is not very scarce (*Dibdin Decam. II. 484*), but a copy on large paper from de Thou's library was sold at Edwards's sale for 31l. 10s. on account of the binding.

20151 SALVIATI, Jac. Cronica dall' anno 1398-1411. Fir., Cambiagi, 1784. 8°.

Also, *Napoli, Raillard, 1712. 4°. 2 voll.* Both editions are cited by the academy della Crusca. In the edition of 1712 a sheet with the signature *Nn* is sometimes wanting at the end of the 1st book after p. 280, which contains the 9th novel of the 1st day in different Italian dialects.

20153 — delle orazioni nuovamente raccolti libro primo. Fir., Giunti, 1575. 4°.

No more of this collection appeared. These orations were previously published separately, see *Gamba, I. 391 sq.* His *Orazione funebre delle lodi di Pier Vettori*. Fir., Giunti, 1585. 4° is not in this edition, nor those on Alfonso and Louis d'Este (1587).

This cited edition is scarce.

20156 — il granchio e la spina commedie, e un dialogo dell' amicizia, del medesimo autore. Fir., Cosimo Giunti, 1606. 8°.

The *intermedj* of Bn. da Nerli, which are in the preceding edition, are wanting here in the 1st comedy. The *Spina* appeared previously, *Ferrara, 1592. 8°*, and the *Dialogo*, *Fir. 1564. 8°*.

20157 — opere. Mil. 1802-10. 8°. 5 vols., with Salvati's portrait (*Classici Ital.*)

- 20158 SALVINI, Ant. Mar. Discorsi accademici sopra alcuni dubbj proposti nell' accademia degli Apatisti. Fir., Gius. Manni, 1695-1735. 4°. 3 voll.

- 20159 — prose toscane. (T.I.) Fir., Guiducci, 1715. T. II. Fir., Manni, 1735. 4°. 2 voll.

There is a far inferior reprint of the 1st vol. with the same date, which may be distinguished by its having in p. 297 line 23, *e il genio*, instead of *e sì il genio*, as it is in the genuine and correct edition.

- 20160 — prose sacre. Fir., Tartini e Franchi, 1716. 4°.—Ediz. corredata di aggiunte. Mil., Silvestri, 1820. 16°.

- 10163 SAMBUCUS, J. Icones veterum aliquot ac recentium medicorum philosophorumque elegioliis suis editæ, opera J. Sambuci. Antw., Cp., Plantinus, 1574. fol.

2 leaves of preliminary matter, and 67 numbered engraved portraits with a distich under each. Nos. 49, 52, 57, and 60, are left blank. The impressions are slovenly. Sambucus himself in the preface does not vouch for the authenticity of all the portraits, but those of his contemporaries may well be considered as authentic.

- 20164 — veterum aliquot ac recentium medicorum philosophorumque icones; ex bibliotheca J. Sambuci; cum ejusd. ad singulas elogiis. Præmissio hac editione vitæ singulorum et scriptorum indiculo; additis sub

finem diversorum de eisdem encomiis. Ex officina Plantiniana Raphelengii, 1603. fol.

6 unnumbered leaves of preliminary matter besides the title-plate of the preceding edition, the middle part of which however is left blank, 67 numbered portraits with the same disticha, and 5 unnumbered leaves of encomia at the end. The portraits are not only the same plates, but also of the same impressions, the preliminary and supplementary matter alone being new. Nos. 49, 52, 57, and 60, are blank also here.

- 20165 — Veterum aliquot ac recentium medicorum philosophorumque icones; ex biblioth. J. Sambuci. Cum ejusdem ad singulas elogiis. Amst., ex off. Gu. Janssonii, 1612. fol.

67 tables of plates besides the title-plate. The additions of the preceding edition are omitted, and the engravings are indeed from the same plates, but are new impressions. Neither are the 4 vacant tables here filled up, and this 3rd edition exactly resembles the first.—Also with a Dutch title, *LXI verscheyden schoone Comportments seer nut en dienstigh voor Beeldtsnyders, Schilders etc. Amst., W. Janssoon*, 1613. fol.

- 20166 — emblemata, cum aliquot numis antiqui operis. Antw., Plantinus, 1564. 8°. with woodcuts. Altera editio cum emendatione et auctario copioso ipsius auctoris. ib., id., 1566. 8°. with woodcuts. The above work is completely new, of which Denis de Sainte furnished the first 3 vols. (1715-25). The subsequent volumes are by Thiroux, Hodin, Duclou, Brice, du Plessis, Henri, Taschereau, Leveau, and Prevost. Three vols. are still wanting; two for the province of Tours, and one for the provinces of Besançon, Vienne, and Utrecht.

20173 SANCHEZ, Th. Disputa-

tionum de sancto matrimonii sacramento tomi tres. Antw., Mt. Nuntius, 1607. fol.

A scarce and esteemed edition of a work, which on account of its entering often into an indecent detail, still has its admirers. The 1st edition appears to be, *T. I. Genua*, 1602. fol. *T. II. III. Ven.* 1606. fol. Repeated, *Antw.* 1614, 26, and 52. fol. *Ven.* 1625, 1693, 1712, and 26. fol. *Lugd.* 1637, 67, and 69. fol. 20232 SANDER, Ant. Flandria illustrata. Col., Corn. ab Egmond, 1641-44. large fol. 2 vols. with plates.

The real printer and publisher was J. Blaeu of Amsterdam, and Blaeu himself states in the second preface to his *Theatrum urbium Belgicæ*, that a 3rd vol. was to have appeared. This original edition is preferred to the modern one, *Hag. Com.* 1730. fol. 3 vols. (also on large paper), on account of its better impressions.

20233 — chorographia sacra Brabantiae. Brux. 1659. large fol. 2 vols.

The original edition of a work prized for its accuracy, the 2nd vol. of which is so scarce, that only 5 or 6 copies are known. There is a copy of it in the Royal library at Paris. This 2nd vol. is made up of separate pieces, which appeared at Brussels 1659-63, and at Antwerp, 1664-69. The entire impression of it is said to have been long suppressed, and to have been wholly destroyed in the bombardment of Brussels in 1695, so that only those copies which had been given as presents by the author escaped. Longman set down a copy of both vols. in his catalogue of 1816 at 52l. 10s. The new edition, *Hag. Com.*, van Loon, 1726, 27. fol. 3 vols. with plates, contains augmentations, but it is not dear.

Besides the many errors and deficiencies of this new edition, which are in part censured in the *Gütt. gel. Anz.* 1772. p. 779 and 812, there is also omitted much valuable information for the history of German artists; on account of which the 1st edition is quite indispensable.

20301 SANSON, N. Tables de la géographie ancienne et moderne. Par., 1644 and 45. large fol. 63 leaves.

A copy on vellum in the Royal library at Paris (formerly Tersan's). This is probably the same atlas of which there is a copy on silk in the Nostitzian library at Prague, according to *Hirschings Besch.*

berühmt. Bibl. III. 430. Concerning Sanson's atlases, see *Woltersdorf Repertor. der Land- u. Seekarten*, I. 105.

- 20302 — *L'Europe représentée selon le rapport que toutes ses parties ont avec les cieux, entre elles et avec l'histoire.* Without place or date. 4°.

2 title-plates, 30 leaves of text, and 12 maps. A copy on vellum in the Royal library at Paris, a 2nd 78 fr. M'Carthy.— See also *SANCTO Paulo*.

- 20303 *SANSOVINO*, Fr. *Le cento novelle scelte da più nobili scrittori della lingua volgare.* Ven., Fr. Sansovino, 1561. 8°.

The first and scarce edition of an esteemed work. A pretended edition of 1560 does not exist.

- 20304 — — *di nuovo ampliate, riformate, rivedute e corrette.* Ven. 1562. 8°.

This edition is not less scarce than the preceding, from which it differs in 29 or 30 novels. The 8th novel of the 4th day of the preceding edition is wanting in this.

- 20305 — — *Edizione terza.* Ven., Fr. Rampazetto, 1563. 8°.

Finer and more complete than the two preceding, and likewise pretty scarce. (*Wolfenbüttel*).

- 20306 — — Ven. 1566. 4°. with woodcuts.

Although not the best edition, as it is generally given out to be by the French bibliographers, yet it is sought after on account of its neat woodcuts.

- 20307 — *cento novelle scelte da più nobili scrittori della lingua volgare, con l'aggiunta di cento altre novelle antiche.* Ven., heredi di Sessa, 1571. 4°. with woodcuts.

This edition is valuable on account of the addition of the *Cento novelle antiche* (see above, *NOVELLE*), which make 8 sheets with the signatures, *a-h*. (*Wolfenbüttel*).—The editions, Ven. 1598, 99, 1603, and 1610. 4°. are little prized, although furnished with the same appendage, because the 30th novel of the 8°. edition is omitted.

- 20308 — *satire di diversi, raccolte da Fr. Sansovino.* Ven., Sansovino, 1560. 4°.

Also, Ven., *Bevilacqua*, 1573. 8°.

- 20312 *SANTANDER*, C. de la Serna. *Dictionnaire bibliographique choisi du 15 siècle, ou description des éditions les plus rares du 15 siècle, précédé d'un essai sur l'origine de l'imprimerie, avec la notice des imprimeurs qui ont exercé cet art avant 1500.* Brux., Tarte, 1805–7. large 8°. 3 voll.

A very useful book, and one that ought to be bound up with Panzer, as it frequently completes that work, particularly with respect to the old Spanish and Flemish typographical productions, and contains good descriptions of the most important typographical productions of the 15th century. The notices concerning the origin and extension of the art of printing, as also concerning all the printers of the 15th century, which the 1st vol. contains, cannot be found so well brought together in any other work.

- 20313 — *catalogue des livres de la bibliothèque de M. C. de la Serna Santander.* Brux., an XL (1803). 8°. 4 voll. Supplément. ib., eod., 8°.

This catalogue, made by the professor himself, is very valuable both on account of the richness of the collection (particularly in Spanish literature), and also on account of its great accuracy and of the bibliographical importance of the appended notes. The library was sold by auction at Paris in 1809. The 5th vol. is important on account of the treatise on the paper marks of the 15th century (with representations of them annexed), and also on account of the treatise on the antiquity of signatures and numbering of leaves.

- 20314 *SANTE Bartoli*, Pt. *Gli an-*

tichi sepolchri, ovvero mausolei Romani ed Etruschi trovate in Roma. Roma, Ant. de Rossi, 1697. fol. with 110 plates.

Roma, 1727. fol. is less prized, and, ib. 1768. fol. is very indifferent.

A more complete edition, but less fine in the paintings, of which only 100 copies were struck off (at 1200 fr. each). The 3rd part has the title, *Histoire crit. de la pyramide de C. Cestius, par l'abbé Rive*. ib. 1787. There are also 6 copies of the work on Dutch paper, and 15 on vellum (2421 fr. Brienne, 1600 fr. McCarthy and again offered for sale at 2500 fr., 1951. 2s. Paris, not illuminated 1500 fr. St. Cérant, the 3rd part alone, 95 fr. Lamy). — See also BELLORE, CIACCONIUS, HAVERCAMP numophyl., MUSEUM Odescalcum.

The first typographical production at St. Albans and very scarce. 181 printed leaves with 24 lines and the signatures *a-s*. A pretended edition, Cbr. 1478, appears to be only a confusion with the date of composition. Sold at Willett's sale for 79l. 16s.

The text of this work, sought after on account of its fine plates, is only in the first 2 vols. by Saurin, in the 3rd and 4th by Roques, in the 5th and 6th by Beausobre. The quality of the copies, which is stated on the under part of the title of each vol., is of four kinds, an ordinary, royal, super-royal, and imperial paper. Those on super-royal paper are said to contain the best impressions of the plates, which, however, is only true of some copies. In most of the copies the 1st vol. is of the year 1728.

The 212 plates of this work, which were done from designs by Ger. Hoet, Houbraeken, and Bn. Picart, and are mostly very fine, were engraved in 1705-20, and previously appeared in separate collections, which consequently contain the best impressions and are greatly sought after. The oldest collection has the title, *Tafereelen der heilige Geschiedenissen van het oude en nieuwe Testament*. Amst. 1706. fol. With the same title (except that it has *voornamste* instead of *heilige*), Amst., *Halma*, 1718. fol., and *Gravenhage*, *Hondt*, 1728. fol. With the title, *Les figures de la bible*. Amst., *Picart*, 1720. fol. There is also an edition with a short Dutch text of 1728. large fol. 3 vols.

A chronological nomenclature of ancient and modern authors, with short biographical, and sometimes bibliographical, notices. But the real value of this highly prized work, the first parts of which are already becoming scarce, consists in its numerous references. A new work on this plan with more typographical frugality and a stricter selection of references, would be very valuable. These 7 vols. of a greatly sought after and neat edition are seldom found together. It is joined to the Elzevir series. Of some of the vols. there are also earlier Dutch impressions, which are also sought after. For instance, *Le Virgile travesty* (livre 1 et 2). Suiv. la copie impr. à Paris. (Leide, Elzevir), 1648. 12°. 170 pages. Suiv. la cop. impr. à Par. 1651. 12°, the 1st and 2nd book of 170 pages, and the 3rd, 4th and 5th, with the date 1650, of 72, 91 and 94 pages. 20485 — *œuvres.* Nouv. édit. revue, corrigée et augm. Amst., Wetstein, 1752. 12°. 7 vols. with plates.

The preceding edition has better impressions of the plates, but this latter edition is otherwise to be preferred in every respect, and is as yet the best edition of his works.

20486 — œuvres. Par., Bastien, 1786. 8°. 7 voll.

It has sometimes been erroneously maintained that the *Masarinade* was wanting in this edition; it is nevertheless at the end of the 1st vol.

20487 — le roman comique. Par., Didot, an 4 (1796). 8°. 3 vols. with plates by le Barbier (15 fr.)

The calendar appears to be translated from upper Saxon, but is of value in the low Saxon dialect from its having German expressions for terms of art, for example, *Ummering*, the periphery of the circle, *Porring*, the circle. An earlier edition has this title; *Eyn nyge kalender. recht holdende. Vn eyn nutte. kunstlick. gans ghenüchlick bock etc.* Lübeck, *Hans Arndes*, 1519. 4. (Both at Wolfenbüttel.)

All the copies still in the warehouse were destroyed by a fire at Hanover in 1809, consequently the 5th vol. in particular, which many libraries had not got at the time, is scarce, and incomplete copies can no longer be completed. The accuracy of the work, and how far it can be depended upon, have of late years often been doubted.

This work, still prized on account of its neat plates, contains 750 plates, and besides them a title-plate prefixed to the 1st vol., and Scheuchzer's and Pfeffel's portraits. It was formerly supposed that this German edition contained the first impressions; but as those of the following Latin edition are equally fine, it is more probable that the plates were added to both editions without distinction.

Scarce, yet but of little use in reality, although too unfairly judged in (*Jenisch*) *comm. de fatis linguar. Orientall. Vienna*, 1780. fol. p. CXXX. Consult *Lessing sur Gesch. u. Litt. I. 83 sq. Schnurrer Nachricht von den Lehrern der hebr. Lit. zu Tübing. p. 212 sq. Bruns in Paulus Memorabilien*. The original of this family-register, composed in the Turkish language, of which Schickard has edited only a small and a less important part, is to be found in the Ducal library at Wolfenbüttel (MS. Blankenb. 144.) It forms a roll on paper $23\frac{3}{4}$ Leipsic ells long and $\frac{1}{2}$ an ell wide, and was obtained as booty by Veit Marchtaler, citizen of Ulm, 14 Dec. 1593, at the storming of the Hungarian fortress Filek, and was sold by his son of the same name in the year 1652, to duke Augustus, for 60 dollars.

Belletius, 1615. fol. 63 pages, and a 3rd index to the principal work. 20729 SCRIPTORES rei rusticæ (Cato, Varro, Columella et Palladius). Ven., N. Jenson, 1472. fol.

298 leaves, without signatures, catchwords, and pagination. The first edition, and fine, but not very scarce. First 20 leaves of preliminary matter, which begin

on the reverse of the 1st leaf with a letter, *Georgii (Merula) Alexandrini ad Pt. Priolum*. Leaves 21-43 are Cato and the list of chapters to Varro; 44-86 Varro; 87-90 list of chapters to Columella; 91-238 Columella; 239-298 Palladius. Each of these authors has a separate colophon, but the principal colophon of the entire book is in leaf 298^a. The reverse of this last leaf is blank.—A pretended earlier edition, *Ven.* 1470, is a nonentity.

20730 — *de re rustica libri. Regii, Bm. Brusculus alias Bottonus, nonis Junii* 1482. fol.

The 2nd edition, which evidently is a reprint of the preceding, although Schneider asserts that he found in it some readings peculiar to itself. 298 leaves with 40 lines, and signatures, without catchwords and pagination. First 14 leaves of preliminary matter, which begin on the reverse of the 1st leaf with the same letter of G. Merula. Leaves 15-18 Merula's letter to Justinian and list of chapters to Cato; 19-41 Cato; 42-84 Varro; 85-88 list of chapters to Columella; 89-235 Columella; 236 and 237 Merula's letter to Dm. Georgius; 238-297 Palladius; and 298 the register.

20732 — — (the same title). *Regii, Dion. Bertochus, 14 cal. Oct. 1496. fol.*

20733 — — *Regii, impensis Fr. Mazali, 20 Nov. 1499. fol.*

20734 — *libri de re rustica Catonis, Varronis, Columellæ, Palladii. De duobus diebus generibus etc. Ven., Aldus et And. socer, m. Majo 1514. small 4°.*

34 leaves of preliminary matter (on the 9th is a 2nd title, and the 34th is blank), and 308 numbered leaves. There are copies on blue paper. A new recension by Jucundus Veronensis from MSS. and conjecture. One of the less scarce Aldines.

20735 — *libri de re rustica a N. Angelio nuper recogniti et typis excusi, cum indice et expositione om-*

nium dictionum. Flor., Ph. Junta, 1515. small 4°.

20 and 339 leaves. Angelius appears to have corrected the text more from conjecture than from MSS. The edition is scarce, without being at a high price.

20736 — — (the same title). *Flor., hered. Ph. Junta, 28 Sept. 1521. small 4°.*

20, 218, and 125 leaves. This edition contains some augmentations.

20737 — *libri de re rustica Catonis, Varronis, Columellæ, Palladii. De duobus diebus generibus etc. Ven., her. Aldi et And. soceri, m. Dec. 1533. 4°.*

54 leaves of preliminary matter, 295 numbered leaves, and 1 leaf with the anchor. The text is the same as in the edition of 1514, with the exception of some alterations, which are borrowed from the Juntine edition of 1521.

20738 — *libri de re rustica Catonis, Varronis, Columellæ, Palladii. Bas., J. Hervagius, m. Julio 1532. small 4°.*

A reprint of the Aldine, and tolerably scarce.

Repeated, *ib., id.*, 1548, 49. 8°. 5 parts. The chief value of these editions arises from what Victorius has done to them.

20742 — — *Par., Rb. Stephanus, 1543. 8°. 5 parts in 1 vol.*

A fine and scarce reprint of the preceding edition.

20743 — *scriptores rei rusticæ veteres latini, cum editt. prope omnibus et MSS. pluribus collati. Adjectæ notæ viror. clarissimor. in-*

tegræ et lexicon rei rusticæ, curante J. Mthi. Gesnero. Lps., Fritsch, 1735. 4°. 2 voll.

A new recension, in which however Gesner has too often followed Victorius. Less is done in it for Columella than for the other authors. A copy on large strong paper in the Royal library at Dresden.

20744 — scriptores rei rusticæ veteres latini, Cato, Varro, Columella, Palladius, quibus nunc accedit Vegetius de mulomedicina et Gargilii Martialis fragmentum. Cum edit. prope omnibus et MSS. pluribus collati. Adjectæ notæ viror. clarissimor. integræ et lexicon rei rust., curante J. Mthi. Gesnero. Lps., Fritsch, 1773-74. 4°. 2 voll. (7 d.)

J. A. Ernesti superintended this new edition. There are copies on writing paper. Its text was repeated, *Manheim*, 1781. 8°. 5 vols. (1 d. 19 gr.), and *Bip.* 1787. 8°. 3 vols. (2 d. 10 gr.)

20745 — rei rusticæ scriptores latini veteres. Ex libror. scriptor. atque editor. fide et viror. doctor. conjecturis correxit atque interpretum omnium collectis et excerptis commentariis suisque illustravit J. Glo. Schneider. Lps., Fritsch, 1793-96. 8°. 4 parts in 6 or 7 vols. (12 d. 12 gr.)

This excellent edition has nevertheless not entirely made Gesner's to be dispensed with.

20746 — rustici latini volgarizzati (col testo latino), cioè: Catone, Varrone e Columella dell' agricoltura, con note, traduzione di Gi. Girol. Pagani.—Virgilio delle georgiche libri IV. traduz. di Fr. Soave. Ven. 1792-99. 8°. 18 voll.

20767 **SCUDERY**, G. de. Alaric ou Rome vaincue. Brux., Courbé, 1656. 12°. with plates.

This edition of a poem rendered ridiculous by Boileau (*Sat. II. 77 sq. Art. poet. I. 49 sq.*), printed with the Elzevir types, is the finest, and is still sought after in France. In some copies is to be found, *Jouste la copie à Paris*. The 1st edition appeared, *Par. 1654. fol.* with plates. The pretended edition, *Leide, J. Sambix* (but probably *Rouen*), which appeared in 1654 in 12°. is very bad. *Par. 1659. 12°.* with plates, and *Haye, 1685. 12°.* with plates, are better.

20768 — *Almahide ou l'esclave reyne. Par. 1661-63. 8°. 8 voll.*

20769 **SCUDERY**, Magdelaine de. Clélie, histoire romaine. *Par. 1654-61. 8°. 10 voll.*

20770 — *Artamène ou le grand Cyrus. Par. 1650. 8°. 10 voll.*

See also **ISMAHIM**. Boileau did not handle this composing lady's prolix romance (*Art. poet. III. 100 and 115*, and in the *Héros de roman*) more gallantly than the work of her brother above-mentioned. His critique does not appear to have remained unnoticed by her, as she left behind in MS. a revision of *Artamène*, which is now in Renouard's possession, see his *Catal. III. 202*. A key to the *Clélie* is printed in *Sommaire Dictionnaire des prétieuses. Par. 1661. 8°.*

20775 SEBA, Alb. *Locupletissimi rerum naturalium thesauri accurata descriptio et iconibus expressio, per universam physices historiam. Description exacte des principales curiosités naturelles du cabinet d'Albert Seba*. Amst. 1734-65. large fol. 4 vols. with plates.

Although interesting and very well got up, yet falling in price. Only copies with the old illumination are scarce and sought after; those newly illuminated at Paris, which cost 1800 fr. produce scarcely a third of this price at sales. There are also copies in which besides the Latin text there is a Dutch instead of a French translation. The text, which was superintended by Gaubius, Mueschenbroek, and Massuet, is less prized than the plates, the number of which in the 1st vol. (besides a title-plate and a portrait) is 111, in the 2nd 114, in the 3rd 116, and in the 4th 108. The French translation is partly by L. de Jaucourt.

20776 SEBER, Wfg. *Index vocabulor. Homer.* Ox., typ. Clarend., 1780. large 8°. Appendix. ib. 1782. large 8°. (10s., on large paper 14s.)

It is generally annexed to the edition of Homer, Ox. 1780. large 8°. 4 parts in 2 vols. The first edition of Seber's index, which is tolerably scarce, appeared in *bibliopolio Comelianiano*, 1604. 4°. Also, Amst. 1649. 4°. The principal fault of this otherwise very careful work is the too little regard for the particles.

20778 SECTANUS, Quintus. (Lud. SERGARDUS.) *Satyrae numero auctae, mendis purgatae, et singulae locupletiores. Editio novissima. Accedunt argumenta ac indices rerum, verbor. et nominum, nec non commentaria ex notis anonymi concinnante P. Antoniano (Emman. Martini)*. Amst., apud Elsevirios (*Neapoli*), 1700. large 8°. 2 voll.

The large size has occasioned, that copies have sometimes been stated as being on large paper, of which there are none. The edition appears to have been interrupted, as of the 19 satires to be found in *Col.* 1698. 8°, it only contains 8. The 1st edition was, without place (*Neap.*) apud *Triphonem*, 1696. small 8°, and contains 16 satires.

20779 — Lud. Sergardii, *antehac Quinti Sectani, satyrae, argumentis, scholiis, enarrationibus tribus voluminibus dispertitae, quibus accedit quartum cum orationibus, dissertationibus, prolusionibus etc.* Lucrae, 1783. 8°. 4 voll.

Concerning this most complete edition, consult *Giornale di Pisa* T. 54. p. 114.

20780 — le satire di Settano ridotte in versi volgari (sciolti). Spira, 1698. 12°.

This edition contains only 6 satires.

20781 — le satire di Quinto Settano tradotte da Sesto Settinnio. Palermo, Dm. Cortese, 1707. 8°.

This edition contains 18 satires.

20782 — satire di Settano, tradotte in terza rima dallo stesso autore, ricavate dal manoscritto autografo. In Zurigo, 1760. 8°.

20783 — satire di Q. Settano, con aggiunte e annotazioni. Londra (*Livorno, Masi*), 1786. 12°.

Also, Amst. (Fir.) 1783. 12°.

20784 SECTANUS, Lucius, Quinti filius. De tota græcorum hujus ætatis literatura sermones IV. Accessere ad eorum defensionem quintus et sextus. Hag. Com., Pt. de Hondt, 1752. 8°.

The best edition. The original edition of the first 4 discourses appeared, *Hagæ Vulpie* (in Italy), 1738. 8°. This work attracted much notice at Florence, because it contained a satire on the most celebrated literary characters of that place and of Pisa, and J. Lami was especially offended at it. A multitude of writings consequently appeared in opposition to it, of which the poems, *i Pifferi di Montagna* (by Gius. Mar. Meccati), (*Leida e Londra*, without date. 8°.), and *Il Fariseo moderno* were the bitterest. A *Sermo quintus* consequently appeared in answer, *Corythi*, without date. 8°. The Jesuit Pompeius Venturi was long considered as the author of the satires themselves; but it is now certain that they were the work of the Jesuit Julius Cæsar Cordara. The author of the notes concealed under the name of Philocardius was the Jesuit H. Lagomarsini: consult *Jos. Mar. Parthenius De vita et studiis Lagomarsini*. Ven. 1801. 8°. p. 73 sq. 223 sq.

20785 SECUNDUS, J. Nicolajus. Opera quæ reperiri potuerunt omnia. Curante atque edente Pt. Scriverio. LB., typis Jac. Marci, 1619. 8°.

301 and 71 pages besides the preliminary matter. Concerning some remarkable copies of this first edition by Scriverius, consult *Millin Mag. encycl.* 1795. V. 393 sq. The 1st edition of Secundus entire is of the year 1539.

20786 — opera. Accurate recognita ex museo Pt. Scriverii. LB., Fr. Hegerus, 1631. 12°. 384 pages.

LB., *Wynngaerden*, 1641. 12°. differs only in having a strip of paper with a new date pasted on the title-plate.

20787 — opera omnia emendatius et cum notis adhuc ineditis Pt. Burmanni Secundi denuo edita, cura Pt. Bosscha. LB., Luchtmans, 1822. 8°. 2 voll.

The most complete and the best edition. —See also AMENITATES.

20788 SEDAINE, Mch. Œuvres choisies. Par., Didot, 1813. 18°. 3 voll.

20789 SEDULIUS, Cælius. In librum evangeliorum. Without place

or date (*Ultraj.*, *Ketelaer et Leempt*, about 1473). fol. Gothic letter.

The first edition and very scarce. 36 leaves with 30 lines in a full page, without signatures, catchwords, and pagination. In leaf 1a is this superscription, *In notis prius et filii et spūs scī incipit sedulig in librū evangelio4*. The last line of leaf 36b is, *Explicit sedulius in librū evangelio4*.

20790 — carmen paschale (ed. Pt. Eisenberger). Lps., Thanner, 1499. 4°. Gothic letter. — Exhortatorium ad Christianos. ib., id., 1499. 4°. Gothic letter.

This edition, which was formerly considered as the first, is made from a MS. of the *Marienbibl.* at Halle.

20791 — carmen paschale. Prudentii poemata (cura Jani Parrhasii). Mediol., Gu. le Signerre, without date, 1501. 8°.

116 leaves. A scarce edition; two copies on vellum are known: one in the library at Wolfenbüttel, the other in lord Spencer's possession (previously count Melzi's? consult Dibdin's *Decam.* III. 211).

20792 — paschale quod Sedulius carmen dedit discipulis, doctor legat et monachus. Spiræ, Cr. Hist., 1501. 4°. Gothic letter.

With the signatures A-J.

20793 — mirabilium divinatorum libri IV. (edid. Jo. Vadianus.) Viennæ Pannoniæ, Philovallis et Singrenius, 1511. 4°.

42 leaves. A scarce edition, which appears to be a reprint of the text in the *Posta christiani*. Ven., Aldus, 1502. 4°.

20794 — carmen paschale cum commento Antonii Nebrissensis. Cæsar-Augustæ, G. Coci, 6 non. Sept. 1515. 4°.

A very scarce edition. The commentary to be found herein had already appeared in the edition, *Lugd.*, *Mareschal et Chausard*, 1512. 4°. and was repeated, *Bas.* 1541. 8°.

20804 SEGHELYN. Die Historie van Seghelyn van Iherusalem. Antw., Claes van den Wouwere, 1564. fol. Gothic letter.

The edition, Antw., H. Peterssen, without date, fol. Gothic letter, is older.

20805 SEGHEZZI, Ant. Fed. Opere volgari e latine. Aggiuntevi alcune rime di Niccolò, suo fratello. Ven., Bassaglia, 1749. 8°.

A copy on vellum in 4°. in the Royal library at Paris (previously col. Pinelli, 200 fr. M^cCarthy).

20806 SEGNERI, P. Opere. Ven., Baglioni, 1712. 4°. 4 voll.

Also, *ib. id.*, 1728. 4°. 4 vols. *Parma, Monti*, 1714 (new title 1720), fol. 3 vols. is finer, but less correct. These devotional works are cited by the academy della Crusca, and are still prized in Italy. A new edition of the *Quaresimale* (previously, *Fir.* 1679. fol.), appeared, *Mil.* 1817. 8°. 2 vols.

20807 SEGNI, Bn. Storie Fiorentine, dall' anno 1527 al 1555, colla vita di N. Capponi, descritta dal medesimo Segni. Augusta, Mertz, 1723. fol. with 2 portraits. Also on large paper.

There are 3 sorts of copies of this good edition, which was superintended by Fr. Settimani. In the genuine and rarest copies in p. 304 a heinous crime of Pt. L. Farnese is mentioned in the middle of the text. This is omitted in the others, and the vacant space is filled up with dots, but the passage, printed in a separate cancel, is pasted over. In the common copies the hiatus only is to be found without the cancel. The story, which follows after the words *da spendere l'anno*, begins thus, *Non era tenuta in quel secolo*, and ends with the words, *con gran pompa del mondo*. Another principal castrated passage is in p. 225. Consult *Schelhornii apologia pro Vergerio*, p. 37.

20808 — storie Fiorentine dall' anno 1527 al 1555, colla vita di N. Capponi. Aggiuntavi la tragedia dell' Edipo. Palermo, Rupetti, 1778. 4°. 2 voll.

20811 — Zayde, histoire espagnole, avec un traité de l'origine des romans, par Huet. Suiv. la copie impr. à Paris (*Holland, Elzevier*), 1671. 12°.

It is now ascertained that this romance was properly by Mde. de la Fayette. This

edition only is sought after, as being printed by Elzevir, although it is not the best. Previously, *Par.* 1670. 8°. 2 vols.

20812 — *œuvres diverses.* *Par.* 1755. 12°. 2 voll.

20813 SEGUIER, J. Fr. *Plantæ Veronenses, seu stirpium, quæ in agro Veronensi reperiuntur, methodica synopsis.* Veronæ, 1745–54. 8°. 3 vols. with plates.

An esteemed work, seldom found with the supplement.

20815 SEIDEL, Mt. F. *Icones et elogia viror. aliquot præstantium, qui Marchiam olim juverunt ac illustrarunt.* Without place, 1671. fol. with 100 plates.

Previously, without place, 1670. fol. with 75 plates. These portraits are bad even to caricature, and the new edition with (German) explanations by G. Gf. Küster, *Berl.* 1751. fol. with 100 plates, is still sometimes bought only on account of the text.

20820 SELIGMANN, J. Mch. *Die Nahrungsgefäße in den Blättern der Bäume nach ihrer unterschiedlichen Austheilung u. Zusammenfügung.* Nrb., Fleischmann, 1748. large fol.

A work interrupted by the author's death, copies of which were legally attached on account of a lawsuit between the heirs, and have in consequence become scarce. It contains 8 pages of text, 2 tables of plates uncoloured, and 29 in red. But the Göttingen copy contains 33 tables printed in red, and besides these *Tab. I.** and *Tab. II.** both which contain larger representations uncoloured. The red table II. is also double, but the representations in both tables are not one and the same; and it appears as if the publisher had decided one table to be faulty, and had given the other in its stead. All the representations are very pale and indistinct. Consult *Beckmann's Beitr.* IV. 225 sq.

20821 — *Sammlung verschiedner ausländischer u. seltner Vögel.* Nrb. 1749–76. fol. 9 vols. with illuminated plates.

Vols. I. and II. contain 102 illuminated plates; III. and IV., 119; V. and VI., 105; VII. and VIII., 100; and vol. IX., 46. There are copies on Dutch paper. The work however is only an unfaithful copy of the splendid work by Edwards and Catesby. With a French text, *Recueil de divers oiseaux étrangers (trad. par G. L. Huth).* Nrb. 1768–74. fol. 7 parts with the same plates. Also copies on Dutch paper.

20841 SENECA, Luc. Ann. Philosophus. Opera. Neap., Mthi. Moravus, 1475. fol.

The first edition of his entire works and greatly sought after, in which also the *liber declamationum* of the rhetorician is also to be found. It consists of 2 parts of 144 and 108 leaves (according to Brunet, 112 according to Dibdin), with 46 lines, without signatures, catchwords, and numbering of leaves. The first part begins in leaf 1^a with the superscription, *Incipit Lucii Annaei Senecae Cordubensis liber de moribus*. In leaf 144^a after the words, *Explicit prouerbis Senecae*, 3 distichs follow by Gabr. Carchanus, *Jam pene abstulerai*, and the colophon, in which the hundreds are omitted in the date (*M. lxxiiii*). On the reverse is a register in 4 columns. In other copies this last leaf is reprinted in such a manner that the colophon stands before the verses of Carchanus on the *folio recto*, and on the reverse besides the register there is a list of the works contained in this edition. The 2nd part contains only his letters, and begins with the correspondence of St. Paul and Seneca, and a list of the remaining letters which begin in leaf 5^a. These 4 leaves of preliminary matter do not appear to be in all the copies, hence the difference of 108 leaves according to Brunet, and 112 according to Dibdin. On the reverse of the last leaf but one is the last line, *Explicit liber epistolarum Senecae*. On the *folio recto* of the last leaf is the register of this 2nd part.

20842 — Philosophus. Opera. Tarvisii, per Bn. de Colonia, 1478. fol. Gothic letter.

215 leaves (the first blank), with 53 lines, and the signatures *a-bb*. This edition is merely a reprint of the preceding. It begins in leaf 2^a, *Incipit Lucii Annaei Senecae cordubensis liber de moribus*.

20843 — Seneca moralis (opera). Ven., Bernardinus de Cremona et Sim. de Luere, 5 Oct. 1490. fol.

3 leaves of preliminary matter, 147 and 65 numbered leaves. This edition also seems to be only a reprint of the preceding, and has the same contents.

20844 — Seneca omnia opera. Ven., Bernardinus de Coris, 1492. fol.

2 leaves of preliminary matter, and 208

numbered leaves, with 62 lines. The date is on the reverse of the title, and consequently where this is wanting, the edition appears to be undated. The preceding editions form its basis, but the *Quaestiones naturales* appeared in this edition for the first time (according to Denis).

20845 — *lucubrationes omnes additis etiam nonnullis*, Erasmi Rot. cura repurgatae. Basil., Froben, 1515. fol.

635 pages and 11 leaves of index. A new recension from 2 MSS. not particularly good, and from conjecture. The supposititious writings are separated from the genuine, and the *Apocolocyntosis*, which had previously only appeared by itself, is inserted.

20846 — opera per Erasmus Rot. ex fide veterum codicum emendata. Adjecta sunt ejusdem scholia nonnulla. Basil., Froben, 1529. fol.

8 leaves of preliminary matter, 690 pages, and 9 leaves of index. A new revision of the text.

20847 — opera per Erasmus Rot. ex fide vett. codicum emendata. Adjecta sunt scholia Erasmi et Beati Rhenani. Bas., J. Hervagius, 1537. fol.

20848 — opera per Erasmus Rot. ex fide vett. codicum emendata. Adjecta sunt scholia Erasmi, Beati Rhenani, Rdf. Agricolaë, Fernandi Pinciani. Index rerum et verborum. Bas., without the printer's name (*J. Hervag.*) and date. fol.

20849 — opera, quæ exstant, omnia. Cælii Sec. Curionis cura castigata et in novum prorsus faciem mutata. Index rerum et verbor. Bas., Hervag., 1557. fol.

Various readings and conjectures are added in the margin.

20850 — L. Annaeus Seneca a M. Ant. Mureto correctus et notis illustratus. Romæ, ap. Bm. Grassium, 1585. fol.

This edition is very scarce even in Italy, and Ruhnkenius could not obtain it for his new edition of Muretus's works. Muretus made use of MSS., but was sometimes too bold in his alterations. Repeated, *Par.*, Cavellat (other copies Dupuy's), 1587. fol. (also on large paper). *Par.* 1598. fol. (also on large paper).

- 20851 — opera quæ extant omnia, ed. Dion. Gothofredo. Bas., Epi- scopius, 1590. 8°. 2 voll.
 20852 — L. Annæus Seneca a M. Ant. Mureto correctus et notis illustratus. Accesserunt seorsim animadversiones, Jani Gruteri opera. (Heidelb.), ex typogr. Hi. Commelini, 1594. fol.

With the use of Heidelberg MSS.

- 20853 — Philosophus. Senecæ philosophi opera quæ extant omnia, a Justo Lipsio emendata et scholiis illustrata. Antw., ex off. Plantin., 1605. fol.

A new recension after MSS. and old editions. Yet is this edition, as well as *Antw.* 1615 and 32. fol. less prized, and that of 1652 (see below) preferred.

- 20854 — Senecæ philosophi et rhetoris quæ extant opera, cum commentariis et notis variorum. Lut. Par., Feburier, 1627. fol.

Prized on account of the completeness of the commentary. Previously, *ib.* 1607, 13, and 19. fol.

- 20855 — opera omnia quæ extant, ad vet. exemplariorum fidem a J. Dalechampio castigata, a Thdr. de Juges recognita. Cum omnium selectioribus commentariis hactenus editis. Excudeb. Alex. Pernetus, 1628. fol.

- 20856 — opera omnia, ex Justo Lipsii emendatione. Amst., Gu. Cæsius (Blæu), 1628. 12°.

The edition of 1634 is not so neat.

- 20857 — opera omnia, ex Justo Lipsii editione. Par., Vitray, 1637. 12°. 3 voll.

A neat edition.

- 20858 — Senecæ philosophi et rhetoris quæ extant, ex rec. And. Schotti. LB., ex off. Elzevir., 1640. 12°. 3 voll.

A fine edition, good copies of which are greatly sought after and are not common. The printed titles of the 2nd and 3rd vols. are of 1639. No vol. of notes by Gronovius belongs to this edition, but such a vol. of the date of 1649 or 1658 is frequently added to it, as it is the finest of the 3 Elzevir editions of Seneca.

- 20859 — Senecæ philosophi opera

omnia ex ultima Justo Lipsii et J. F. Gronovii emendatione. Et Senecæ rhetoris quæ extant, ex And. Schotti recensione. LB., apud Elzevirios, 1649. 12°.

The 4th vol., of which there are copies on fine paper, has the title, *J. F. Gronovii ad Senecas notæ*. This edition is somewhat less fine than the preceding in the printing, but the text is better, and it contains a new recension by Gronovius.

- 20860 — Annæi Senecæ opera, quæ extant, omnia: a Justo Lipsio emendata et scholiis illustrata. Editio quarta atque ab ultima Lipsii manu, aucta Liberti Fromondi scholiis ad quæstiones naturales et ludum de morte Claudii Cæsaris, quibus in hac edit. accedunt ejusdem Liberti Fromondi ad quæstiones naturales excursus novi. Antw., ex offic. Plantin., 1652. fol.

The best and the most sought after of the editions superintended by Lipsius, of which there are copies on large paper.

- 20861 — Senecæ philosophi opera omnia, Senecæ rhetoris quæ extant. Amst., apud Elzevirios, 1659. 12°. 3 voll. J. F. Gronovii ad Senecas notæ. *ib.*, ap. eosd., 1658. 12°.

This edition is of inferior value to the two earlier Elzevir impressions.

- 20862 — L. Annæi Senecæ opera, quæ extant, integris Justo Lipsii, J. F. Gronovii et selectis varior. commentariis illustrata. Acced. Liberti Fromondi notæ et emendatt. T. I. II. Amst., Dn. Elsevirius, 1672. M. Annæi Senecæ rhetoris opera, quæ extant, integris N. Fabri, And. Schotti, J. F. Gronovii et selectis varior. commentariis illustrata et indice aucta. Acced. J. Schultingii notæ et emendatt. Tomus III. *ib.*, *id.*, 1672. 8°. 3 voll.

The 1st vol. has 1 title-plate, 1 printed title, 22 leaves of preliminary matter, and 869 pages. The 2nd, 2 leaves of preliminary matter, 998 pages, and 43 leaves of index. The 3rd, 12 leaves of preliminary matter, 750 and 316 pages, and 14 leaves of index. This neat edition contains the last and most complete edition of Seneca by Gronovius, and is at the same time one of the rarest, and the most

sought after of the editions *cum notis variorum*. There are copies with the year 1673.

- 20863 — Philosophus. Senecæ philosophi opera omnia. Accessit a viris doctis ad Senecam annotatorum delectus. Lips., Th. Fritsch, 1702. 8°. 2 voll.

The text is that of the preceding edition. Incorrectly repeated, *Lps.*, Weidmann, 1770. 8°.

- 20864 — Senecæ philosophi opera ad optimas editt. collata, præmissa notitia literaria. Biponti, 1782. 8°. 4 voll.—Senecæ rhetoris opera ad opt. editt. collata. ib. 1783. 8°.

- 20865 — Senecæ philosophi opera omnia quæ supersunt. Recognovit et illustravit F. E. Ruhkopf. Lips., Weidmann, 1797–1811. 8°. 5 voll. (7 d. 16 gr., on writing paper 10 d., on Dutch paper 15 d. 8 gr.)

Unfinished. The editor ought to have made better use of Wolfenbüttel, which was near at hand.

- 20866 — Senecæ philosophi opera ad optimas editt. collata. Argentor., 1809. 8°. 5 voll.

The letters have been treated by Schweighäuser with especial care, and furnished with critical notes. They occupy 2 vols. of this new edition. But the remaining works in the 3 other vols. have also been critically corrected and provided with short annotations.—A critical edition of the entire works, which Ign. Aurel. Fessler intended in 1797 to have published at W. Korn's establishment, and for which he had made use of several Italian MSS., and also of those in the Wolfenbüttel library, has not appeared.

- 20867 — Senecæ opuscula quædam. Without place or date. (*Col.*, U. Zell, about 1470). 4°. Gothic letter.

29 leaves with 27 lines, without signatures, catchwords, and pagination. Leaf 1–8, *De remediis fortuitior.*; leaf 9^a, *De quatuor virtutibus*; leaf 14^b, *De moribus*; leaf 18^b, *Æchmias, Demadis, et Demosthenis orationes, epistola Bernardi Sylvestris super gubernatione rei famil. etc.* The book ends with 11 Latin verses by Architrenius in praise of the city of Paris.

- 20868 — Senecæ opuscula quædam. Without place or date (about 1472). 4°. Gothic letter.

Different from the preceding edition, of

which nevertheless this article, the contents of which are completely the same, appears to be only a reprint. 30 leaves, with 28 lines in a full page, and the signatures *a–d*. Leaf 1^a line 1 is, (h) *Uno librum composuit Seneca nobis*. The preliminary notice fills the first 7 lines: the 8th line is, *Incipit liber Senecæ (sic) de remediis fortuitior.* This piece ends in the 15th line of leaf 9^a; and the piece, *De quatuor virtutibus*, follows in the same page, and ends in leaf 14^b. Leaf 15^a begins the book, *De moribus*; leaf 19^a, *Epitaphium Senecæ*, with the before-mentioned 4 orations; leaf 22^a, the *Epistola Bn. Sylvestris*; and leaf 25^a the other small pieces. In leaf 30^b (which last page has 18 lines in all) are the verses of Architrenius. (Wolfenbüttel.)

- 20869 — eadem opuscula. Without place or date. 4°. Gothic letter.

38 leaves with 24 lines. The contents are the same as in the two preceding editions.

- 20870 — Senecæ opuscula quædam. (*Romæ*), Bm. Guldinbeck. Without date (about 1475). 4°. Gothic letter.

14 leaves with 35 lines, without signatures, catchwords, and numbering of leaves. It contains, *De moribus, Proverbia, De remediis fortuitior.*

- 20871 — selecta Senecæ philosophi opera, lat. et gallice, interprete P. F. X. D(enis). Par., Barbou, 1761 or 90. 12°.

- 20872 — libri II. de clementia, J. Calvini commentariis illustrati. Par., L. Cyaneus, 1532. 4°.

The first edition of this commentary, and scarce. It is reprinted in *Calvini Opp. T. VIII.* (ed. *Amst.*). Can Renouard's observation, *Le premier ouvrage littéraire de l'incrément Calvin fut un commentaire du traité de Sénèque sur la clémence*, be chronologically true?

- 20873 — liber quare bonis viris multa mala accidunt, cum sit providentia. Commentario et adnotationibus illustratus. Præmittuntur tria Latini Latini epigrammata. Romæ, 1802. 8°.

- 20874 — Philosophus. Naturalium quæstionum libri XII. Mth. Fortunati in eosdem libros annotationes. Index rerum notatu dig-

narum. Ven., Aldus et And. Asulanus, m. Febr. 1522. 4°.

6 leaves of preliminary matter, 130 numbered, and 6 unnumbered leaves. One of the rarer Aldines. A new recension from MSS.

20875 — epistolæ ad Lucillum. Without place or date. fol.

A very old edition of the letters, and probably the first; from the printing establishment with the singular *R.* 210 leaves with 35 lines, without signatures, catchwords, and pagination. Leaf 1^a line 1 is, *Lucii Annei Senecæ Cordubensis ad Lucillum epi*— Leaf 210^a ends after the 10th line with an *Epitaphium Senecæ* in 6 verses (*cura labor meritum* etc.). The correspondence between St. Paul and Seneca is already to be found in this edition. (This is also printed from a Nuremberg MS. in *Sinceræ neuen Nachrr. von lauter allen Büchern. Ff. u. Lps. 1748. p. 269–272.*) There was a copy on vellum in Rothelin's library, p. 287.

20876 — epistolæ ad Lucillum. Par., without the printer's name (*Cesaris et Stol*), 1475. 4°.

211 leaves with 25 lines, without signatures, catchwords, and numbering of the leaves. The first 4 leaves contain a table of contents, and the text begins in leaf 5^a (the 1st line is, *LVTII ANNEI SENECÆ CORDV*), and ends in leaf 206^b with the colophon and date. Five leaves follow with Seneca's life, his correspondence with St. Paul, and his epitaphium.

The pretended edition, *Par.* 1470. 4° (Panzer, II. 272), is nothing else but a copy of the edition above described, in which the V in the date has been fraudulently erased, see Dibdin's *Bibl. Spenc.* II. 343.

20877 — epistolarum ad Lucillum libri XXV. Romæ, Arn. Pannartz, 1 Febr. 1475. large 4°.

167 leaves with 36 lines, without signatures, catchwords, and numbering of the leaves. The size in its exterior certainly resembles a small folio, but according to the water marks it is really only a 4°. The first 8 leaves contain the correspondence with St. Paul with a prologue of St. Jerome, *Senecæ epitaphium*, and a table of contents of each letter, which are here divided into 25 books. The text begins in leaf 9^a, and the 1st line is, *Lucii Annei* (sic) *Senecæ ad Lucillum*: (sic) *Epistola liber*. It ends in the 14th line of leaf 166^b, and is followed by the word *FINIS* and a colophon in 10 lines. The 167th and last leaf, which is sometimes wanting, contains

on the folio recto a register in 4 columns, and is blank on the reverse. (Wolfenbüttel.)

20878 — epistolarum Opus de viuendi ratione præclarè auro et iaspide preciosius. Itæ Uita Senecæ ab Hermāno Buscio recenter digesta. Without place or date. 4°. Gothic letter.

1 leaf with the title, 62 numbered and 6 unnumbered leaves, with the signatures *A–M.* (Wolfenbüttel.)

20879 — Lucii Annæi Senecæ in morte Claudii Cæsaris ludus nuper repertus. Without place or date (1513). 4°.

Probably the 1st edition. 12 leaves, with the signatures *a–c*, without catchwords and numbering of the leaves. The above title is set down in 7 lines. In leaf 2^a follows a letter, dated Rome, 4 non. Aug. 1513, from C. Sylvanus Germanicus to Albertus Pius Carpensis, with a small poem by Mariangelus Accursius to Sylvanus. The text begins in leaf 3^b, and ends in the 2nd line of 12^b, after which follows a notice to the reader in 7 lines. The edition was printed in Italy. (Wolfenbüttel.)

20880 — ludus in mortem Cl. Cæsaris, a Fr. Eug. Guasco illustratus. Vercellis, 1787. 4°.

20881 — de remediis fortuitorum. Without place or date. (*Lozan., J. de Westphalia*). 4°. Gothic letter.

52 leaves (the last blank), with the signatures *a–d*. At the end are Archirenius's 11 verses in praise of Paris.—An edition of 1473 in the *Dialogi decem*, see above, No. 6039.

20882 — philosophus. De quatuor virtutibus. Without place or date. 4°. Gothic letter.

In the Hunterian museum at Glasgow there is a copy with the fraudulent MS. colophon, *A. D. Mccclxiii Per Johannē fust civē Magistres et petrū Gornshaym*. Underneath is an imitation of these printers' coats of arms. The copy probably came, thus falsified, from Holland into England, and was printed with the types of Cæsaris and Stol. Dibdin's *Decem.* III. 320.

20883 — de quatuor virtutibus cardinalibus. De remediis fortuitorum. Without place or date. 4°.

A very old typographical production in Roman characters, without signatures,

catchwords, and pagination, with 22 lines. —The real author of this piece was Martinus Braccarenensis s. Dumiensis, under whose name it was not only printed, *Bas.* 1545. 8°. and often, but is also extant in a Wolfenbüttel codex at the commencement of the 13th century (33, 13. MS. 4°).

20884 — Seneca de forma et honestate vitæ et remediis fortuitorum. Without place or date (*Strasb.*, about 1472). fol.

edition made, being superintended by Gi. Bottari. Concerning another MS., consult *Morelli Codici Volgari Naniani* p. 118. Repeated, *Palermo*, 1819. 8°. *Ven.*, Picotti, 1820. 8°.

20904 — lettere, recate in italiano da Annib. Caro. *Ven.*, Palese, 1802. 4°.

A good edition of this valued translation. Those copies are greatly sought after in which, T. VI. p. 92, the passage concerning the exciting of the passions by means of a mirror is to be found in French, which the publishers did not dare to introduce into the ordinary copies, and there it is only inserted in Latin.—Also, *Par.*, Smits, an 3 (1795). 8°. 6 vols., and *Tours*, an 3 (1795). 8°. 8 parts in 7 vols. - 20939 — *tragediæ cum notis J. F. Gronovii auctis ex chirographo ejus et variis aliorum (cura Jac. Gronovii). Amst., Boom, 1682. 8°.*

The best of these 3 editions, *cum notis variorum*, and tolerably sought after. Gronovius had already corrected the text in the preceding edition from a good Florence MS.

- 20940 — *Senecæ et alior. tragediæ serio emendatæ. Editio prioribus longe correctior. Ox., th. Sheld., 1679. 12°.*

In this very unsatisfactory and common edition, which is nevertheless sought after by collectors, 2 MSS. were made use of (one of them only after the collation of another person), and also the editions of 1492 and 1514. The following work ought to be included, *J. Csp. Schröderi notar. et animadvv. ad Senecæ tragedias vindiciæ a distortionibus alicujus ex editoribus actor. Lips. (Gl. Cortii). Delphis, Beman, 1730. 4°. 24 pages.* Duker answered his attack upon him in his preface to Thucydides.

This edition, on account of its metrical apparatus, should be bound up with Baden's edition, which is still indispensable; and together with both these Schröder's edition ought also to be had on account of its exegetical apparatus.

- 20945 — *tragediæ. Recensuit Torckill Baden. Lps., Fleischer, 1821. 8°. 2 voll.*

Only the more important various readings from 17 MSS. are specified. The 1st vol. had previously appeared, *Havn.* 1819. 8°.

These are the most extremely scarce original editions of the separate books yet

known. Brunet saw a copy of the 3rd and 4th books after the edition of 1540 on blue paper, one of the same sort, containing both books, is specified in the *Thesaurus Bibliothecarum*, I. 353, and one containing the 4th book alone, is in the Royal library at Dresden.

Et idcirco per ipressionē multiplicatus. sub hoc currente Anno domini M. cccc. lxx. (*Col. Arn. Terhoernen*, 1470). 4°. Gothic letter.

12 leaves with 27 lines, without signatures and catchwords, but with numbering of the leaves, which for the first time appeared herein, and this typographical production is consequently of historical interest. The numbering is placed in the middle of the outer margin.

The copies are of two kinds. In some the reverse of the 2nd leaf is blank (and in these the statement of the place of printing and of the printer is wanting), in the others there is on the reverse a preface of 27 lines, in which that statement is thus expressed: *In civitate coloniēsi per discretū viꝝ Arnoldū terhoernē*. The copies of the last sort are costly, because the work is at the same time remarkable as the first dated typographical production of Terhoernen.

This work, equally interesting and useful, appeared in 24 Nos. at 30 fr., and on vellum paper at 60 fr., 7 Nos. of which contain the text, and 17 the plates (to the number of 325).

21026 SERVETUS, Mch. (anon.) Christianismi restitutio, hoc est, totius ecclesiæ ad sua limina vocatio, in integrum restituta cognitione Dei, fidei Christi, justificationis nostræ, regenerationis baptismi, et cœnæ domini manducationis, restituito denique nobis regno cœlesti, Babylonis impiæ captivitate soluta, et Antichristo cum suis penitus destructo. Without place, 1553. 8°.

734 pages and 1 leaf of errata, with signatures, catchwords, and column titles: On the reverse of the title is a table of contents, then follows on the 3rd page (which contains 28 lines without the catchword) a *proœmium*. The 1st page of the text contains 30 lines, and each full page 35 lines. P. 734, which contains 21 lines, ends the book:

M. S. V.

1553.

Then follows a leaf of errata in 15 lines. Only 2 copies of this original edition are known with certainty; one in the Imperial library at Vienna, and the other, attacked with mildew, was sold at Vallière's sale for 4120 livr., and previously at Gaignat's for 3810, and at de Boze's for 3000; R. Mead of London possessed it before de Boze.

21027 — — Without place or date. 4°. 2 vols.

This edition, of which there is only one copy (425 livr. Paris de Meyzieu, 1700 livr. Vallière), is a reprint of the preceding, superintended by R. Mead. It was not however finished, and only contains 252 printed pages, which contain p. 3-293 of the original; p. 253-1056 are added to it in writing. Consult *Nouvelle Bibliothèque*, 1740. Octob. p. 153 sq.

21028 — (anon.) Christianismi restitutio, hoc est, totius ecclesiæ ad sua limina vocatio, in integrum restituta cognitione Dei, fidei Christi, justificationis nostræ, regenerationis baptismi, et cœnæ domini manducationis, restituito denique nobis regno cœlesti, Babylonis impiæ captivitate soluta, et Antichristo cum

suis penitus destructo. Without place, 1553. 8°.

This reprint, which appeared at Nuremberg by Rau in 1790, and which agrees page for page with the original, was superintended by M. de Murr. Consult concerning it *Allg. Litt. Zeit.* 1722. IV. 355. The new date is placed at the end, but so small, that it might be taken for a final dash.

It is well known that this scarce work is also remarkable on account of one of the earliest mentions of the circulation of the blood. It is to be found in p. 169, and the passage is also printed in C. E. Jordan's *Hist. d'un voyage litt. Haye*, 1735. 8°. p. 170; and in Debure's *Bibliogr. Théol.* p. 421 sq. Concerning the work itself more detailed information may be found in *Arigny's Mémoires*, T. II. p. 75 sq. and in the preface, in Debure and other places, Vallière's *Catal.* T. I. p. 289 sq., by abbé Rive in *Duten's Origine des decouvertes*. Ed. IV. T. II. *Par.* 1812. 8°. p. 370 sq., by Gräffer in the *Wiener Conversationsblatt*, 1819, p. 86 sq.

21029 — de trinitatis erroribus libri septem. Per Michaellem Serveto, alias Reves ab Aragonia Hispanum. Without place, 1531. 8°. — Dialogorum de trinitate libri duo. De justitia regni Christi capitula quatuor. Per Michaellem Serveto, alias Reves, ab Aragonia Hispanum. Without place, 1532. 8°.

The two works, likewise very scarce in the original, belong to each other. The 1st has 119 numbered leaves and 1 leaf of errata; the 2nd, which is the more scarce, 48 unnumbered leaves. Both are printed in Italia, and, as it seems, appeared at Haguenau by J. Secerius. This original is distinguished from the following reprint by the circumstance, that in the first line of the title of the first piece the word *Trinitatis* (*Trini*) and in the title of the second, the word *Dialogorum* (*Dialogo*) are both divided with two oblique parallel strokes, whereas the reprint in both instances has a single horizontal stroke (*Trini*- and *Dialogo*-). Although Debure ascribes to the reprint a double stroke (=), this must either be a mistake, or there must be a third impression besides, which is not probable.—The genuine edition, 240 livr. d'Estrées, 400 livr. de Boze, 605 livr. Gaignat, 700 livr. Vallière, 101. 15s. Paris, 215 fr. M'Carthy.

21030 — (the same title and date). 8°.

So faithfully reprinted, page for page and

line for line, that the collation of the original will also serve for the reprint. The types (likewise Italics) are somewhat better and larger than in the original, according to Dehure. The more recent origin of this impression would not however escape a practised eye, in general at the first glance, respecting which it is certain that it was prepared by the preacher Serpilius at Regensburg about 1730-35. The information, which is to be found in *Sohelhorn's Anleitung für Bibliothekare*, I. 359 sq., notwithstanding all that has been said against it (ib. II. 196), is well grounded.—It is most easily distinguished from the original by the misprint CHHRSTUM in the book *De trinitatis erroribus*, leaf 83^b line 17.

- 21031 — van de Dolinghen in de Drievuldigheyd, seven boecken, in Latyn beschreven door Michiel Servetus, ende nu overgheset in onse Nederlandsche tale door R. T. Hier syn noch by ghevoegt eenige andere kleyne tractaetjens van den selven Auteur. Without place, 1620. 4°. Gothic letter.

The author of this scarce translation, yet but little sought after, was Reinerus Vitellius.

- 21032 SERVIUS Honoratus, Maurus. Commentarii in carmina Virgilii. Ven., Christophorus (Valdarfer), Ratisponensis, 1471. fol.

The first edition of this date, if two different impressions can really be assumed, as it is more probable that the differences of the copies only relate to single leaves. 347 leaves (according to Panzer and Brunet, 345 according to Dibdin), with 40 lines, without signatures, catchwords, and numbering of the leaves. The life of Virgil forms the commencement in leaf 1^a, and the 1st line is, IRGILIVS. MARO. PARENTI. The commentary on the eclogues begins in leaf 8^a, and ends in 35^a with the line, FINIS. BVCOLICORVM. The commentary on the Georgics follows in leaf 36^a, and ends in 101^b with the line, FINIS. GEORGICORVM. The Æneid begins in leaf 102^a, and ends in 345^b (according to Dibdin.) Immediately after the end of the commentary 8 verses follow on the same page, *In commune bonum mandasti plurima formis* etc., under which stands the year .M. CCCC. LXXI. In this colophon Carbo is mentioned as corrector of the press. Vacant spaces are left for the Greek passages.

- 21033 — — Ven., Cp. Valdarfer, 1471. fol.

The second sort of copies of the preced-

ing edition, which have 10 other verses at the end (*Si quis in Italia bene pressa volumina quarit* etc.), in which the superintendence is attributed to St. Guarinus, who made use of copies corrected by his father Guarinus.

- 21034 — commentarius in bucolica, georgica et Æneidem Virgilii. Without place or date (about 1470). fol.

This very scarce edition is from the printing establishment distinguished by the singular R, and is commonly ascribed to Mentelinus of Strasburg(?), 180 leaves in 2 columns with 56 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a line 1 is, *Mauri Serui Honorati grāmatici: omē.* The last line of the 1st column of the 158th leaf is, *homerus. Amen.* An index of 22 leaves, which also ends with the word *Amen*, ends the work. The Greek words are printed in Latin characters.

- 21035 — in bucolica, georgica et Æneidem Virgilii explanatio, et de natura syllabar. Flor., Bn. et Dm. Cenninius, nonis Octobribus, 1472. fol.

185 leaves with 43 lines, without signatures, catchwords, and pagination, and with vacant spaces for the Greek words. Leaf 1^a line 1 is, (BVCOLICA VT FERVNT DICTA SVNT ACV. The Bucolios end in leaf 20^b with a colophon of 7 id. Nov. 1471, the Georgice in 55^b with a colophon of 5 id. Jan. 1471. The Æneid contains 130 leaves, and is followed by the small piece *De natura syllabarum*, of which this edition is the first. It is besides at a high price, and remarkable as one of the first Florentine typographical productions.

- 21036 — in tria Virgilii opera expositio. Romæ, U. Han. Without date (about 1473). fol.

321 leaves with 41 lines, without signatures, catchwords, and numbering of the leaves. The Greek passages are throughout printed in Greek characters. This fine and scarce edition begins in leaf 1^a with a superscription in 3 lines and in small capitals. The first line of the text itself is, (BVCOLICA VT FERVNT INDE. The end of the Æneid is in leaf 320^a and the 6 verses as a colophon, *Anser Tarpeji custos Jovis* etc.

- 21037 — commentarii in Virgilium. Without place or printer's name (*Mediol., Ant. Zarotus*), cal. Dec. 1475. fol.

317 leaves without signatures and num-

bering of the leaves, but with catchwords, which are underneath the last line, sometimes at the right hand, and sometimes in the middle. This edition appears to be a faithful reprint of Valdarfer's edition of 1471, but it has not the Greek passages.—A new edition of Servius corrected from Wokenbüttel MSS. is being printed, superintended by D. Alb. Lion of Göttingen. The remaining editions, in which the text of Virgil is to be found, see under VIRGILIUS.

- 21038 — libellus de ultimis syllabis et centimetrum. Callii, Rb. de Fano et Bernardin. de Bergamo, 15 Oct. 1476. 4°.

A very scarce edition, and the second typographical production of Cagli, a town in the dukedom of Urbino. (The first book printed there was *J. Ant. Campani funebri oratio pro Bl. Sphortia, cal. Mart. 1476. 4°.*) This edition, superintended by Lr. Abstemius, is without signatures, catchwords, and pagination, and the colophon consists of 6 verses, *Servius hæc fecit etc.* The last page is a register. Both works had appeared previously with *Beda De schemate ac tropo. Mediol., Zarotus, 1473. 4°.*

- 21039 — centimetrum ex vetustissimis exemplaribus correctum (cura Lr. van Santen). LB., 1788. 8°.

Corrected from a Leyden MS. and the editor's own conjectures.

21064 SEVIGNE, Marie de Rabutin, marquise de. Lettres. Nouv. édit. mise en ordre pour la première fois, augmentée de lettres inédites, et enrichie de notes et dissertations, par Grouvelle. Par., Bossange, 1806. 8°. 8 vols. with 2

portraits (48 fr., on fine paper 54 fr., on vellum paper 92 fr.).

The first better edition of this correspondence, and which on account of its notes has an advantage over the following superior edition. Twenty portraits of the most celebrated persons mentioned in the letters are added to some copies. An impression appeared at the same time in 11 vols. in 8°. (36 fr.) The stereotyped edition, *Par.* 1811. 18°. 12°. is equally complete with respect to the letters.

Perrin superintended the first authentic editions of this correspondence, *Par.* 1734-37. 12°. 6 vols.; and, 1754. 12°. 8 vols.

21065 — lettres de Mad. de Sévigné, de sa famille et de ses amis. Nouv. édit. (publiée par M. de Monmerqué, avec une notice par M. Saint-Surin). *Par.*, Blaise, de l'impr. de Didot l'aîné, 1818. 8°. 10 vols. with plates (100 fr., on vellum paper 200 fr.).

The best and most complete edition, and finer than the preceding. It contains 8 portraits, 13 views, and 10 fac-similes. A No. containing 20 plates appeared besides, which can be added as one is disposed. There should be added, *Lettres inédites de Mad. de Sévigné. Par.*, Klostermann, 1814. 8°. This edition is no longer sought after. The following are only new titles: *Aureliana* (also *Geneva* or *Col. Allobr.*), Chouet, 1621. fol.

21069 — opera, gr. et lat. *Pyrrhoniæ institutionum libri III.* cum H. Stephani versione et notis. *Contra mathematicos libri VI.* *Contra philosophos libri V.* cum versione Gentiani Herveti. Græca ex MSS. codd. castigavit, versiones emendavit supplevitque, et toti operi notas addidit J. Alb. Fabricius. *Lps.*, Gleditsch, 1718. fol.

The best edition, revised from 3 MSS. There are also copies on writing paper.

21070 — opera quæ supersunt, ex recensione Fabricii. Curavit et commentariis illustravit J. G. Mund. Vol. I. P. I. Hal., Ruff, 1796. small 4°. (18 gr.)

Containing only the text of the *Hypotyposes* corrected in some places, and unfinished. A new editor cannot perform any thing satisfactory without using the Florence MSS., which hitherto have not been made use of.

The *Disputationes antiseptice*, which were erroneously ascribed to Sextus, are in Greek, with J. North's Latin translation in *Fabricii Bibl. gr. (ed. vet.)* XII. 617 sq.

21071 — adversus mathematicos opus, lat. interprete Gentiano Herveto. *Pyrrhoniæ hypotyposeon libri III.* interprete H. Stephano. *Par.*, Mt. Juvenis, 1569. fol.

21073 — les hipotiposes ou institutions pirroniennes, trad. du grec avec des notes (par Huart). Without place (*Amst.*), 1725. 12°.

21074 — Sextus Empiricus oder der Scepticismus der Griechen. Aus dem Griech. mit Anmerk. u. Abhandlungen herausgegeben von J. Gli. Buhle. B. I. Lemgo, Meyer, 1801. 8°. (1 d. 4 gr.)

Unfinished, and containing only a translation of the *Hypotyposes*. A translation of the first 14 chapters of the 1st book of the same work by Niehammer is in *Fülleborn's Beitr. zur Gesch. der Philos.* 118 St.—C. F. Ad. Beieri *Observatt. nonnulla in Sextum Empir.*, in *Friedemann et Seebode Miscellanea critica* I. 96-105. That Casp. Barlaeus was thinking of an edition of Sextus about 1653 is evident from *Brantii Epp. claror. viror. Amst.*, 1715. 8°. p. 114, and from *Pt. Cunai Epp. LB.* 1732. 8°. p. 277.

The finest edition. There are copies of the edition, *Lond.* 1727. 8°. 3 vols. on large paper.—In German, *Lps.* 1776. 8°. 3 vols. (4 d.)

21082 SHAKSPEARE, J. Grammar of the Hindustani language. *Lond.*, Cox, 1813. 4°. (1l. 18.)

21083 — dictionary Hindustani and English. *Lond.*, Black, 1817. 4°. (5l. 15s. 6.)

Both works, particularly the latter, which for the most part is an abridgment of Taylor (see below), are greatly prized. Concerning the grammar, consult *Wiener Literaturzeit.* 1816. p. 1470.

21084 — Muntakhabat-i-hindi, or selections in Hindustani, with a verbal translation and grammatical analysis of some part. *Lond.* 1817-18. 4°. 2 vols. (2l. 2s.)

21085 SHAKSPEARE, W. Comedies, histories and tragedies. Published according to the true originall copies. *Lond.*, Jaggard and Blount, 1623. fol.

The first edition, very scarce, and greatly sought after, the copies of which in good condition can be counted. It should be collated very accurately, as defective copies have sometimes been completed with leaves from later editions. Those copies, which are known to be in the best condition, are 13 inches tall and 8½ broad. The portrait and title-plate should be genuine, and neither taken from another edition, nor reprinted subsequently. Before the title should be a leaf of verses by Ben. Johnson to the reader, not merely pasted on this leaf, as is the case in several copies, but originally printed thereon (*Dibdin's Ædes Althorp.* I. 195). If they are only pasted, a suspicion arises that they are borrowed from

the 2nd edition (the mark of distinction see in *Diddin's Library companion*, p. 810). As to the rest, one copy is known which has the year 1622 in the genuine title (*Library companion*, p. 814).

The original selling price of the book was 1*l.*, but it has risen prodigiously in more recent times. Cracherode bought his very fine copy (now in the British museum) for only 8*l.* 18*s.* 6*d.*, and a complete copy was sold in 1787, at Wright's sale, for only 10*l.*, and at Monro's for only 13*l.* But, since the duke of Roxburghe in 1790 gave 35*l.* 14*s.* for his copy, the price has risen, as the following sales shew: 1807, Reed, 38*l.*; 1812, Roxburghe, 100*l.*; 1818, Saunders (the finest copy that is known, and now Th. Grenville's property), 121*l.* 16*s.*; 1822, Kemble, 112*l.* 7*s.* Of existing English collectors Hibbert gave 70 guineas for his, and Wilbraham 49*l.* 7*s.* Thorpe offered a copy for 65*l.*

Copies more or less defective and completed afterwards at Garrick's sale (for 34*l.* 2*s.* 6*d.*, bought by him for 1*l.* 16*s.*); Steevens's (22*l.*); Knight's (29*l.* 18*s.* 6*d.*); Perry's (28*l.* 10*s.*); Stanley's (37*l.* 16*s.*) Heber bought his copy for 10*l.* 10*s.* Arch offered one for 45 guineas, Longman for 25*l.* Triphook for 10*l.* (it wanted the title and the first 3 leaves.)

Arch offered all the first 4 editions together for 84*l.*, Pickering for 95*l.*, and Longman for 105*l.*

As to the rest, a reprint faithfully resembling this edition appeared in 1808 in fol. (5*l.* 5*s.*)

21086 — comedies, histories and tragedies. Published according to the true originall copies. The second impression. Lond., Th. Cotes for Rb. Allot, 1632. fol.

Finer printed than the first edition, but far inferior to it not only in scarcity, but as has been most recently proved, in correctness and accuracy, 15*l.* Roxburghe. Thus offered by the following booksellers: 18*l.* 18*s.*, Baynes; 15*l.* 15*s.*, Lowndes; 10*l.* 10*s.*, Thorpe; 9*l.* 9*s.*, Longman; 8*l.* 8*s.*, Payne; 5*l.* 5*s.*, Arch. In the British museum is the copy that formerly belonged to Charles I., bought at Steeven's sale for 18*l.* 18*s.* (previously Mead, 2*l.* 12*s.* 6*d.*; Aaskew, 5*l.* 10*s.*)

21087 — — Ed. III. Lond., for P. C., 1664. fol.

The rarest edition after the first (owing to the fire of London as is supposed), and probably almost as scarce. It is enlarged with the seven pretended or rather supposititious pieces of Shakspeare's, but otherwise of no peculiar literary worth; on the contrary, it is even more faulty than the

preceding edition. There are copies with a title-leaf of 1663, which also contains a portrait of Shakspeare. The titles of 1664 are without any portrait. With the title of 1663, 25*l.* Thorpe; with the usual title, 35*l.* Roxburghe; 12*l.* 12*s.* Lowndes.

21088 — — Ed. IV. Lond., Her-ringman, 1685. fol.

Neither particularly scarce, nor of any peculiar intrinsic value. Set down in Lackington's catalogue of 1790 at only 8*s.*, now offered for 6*l.* 6*s.* by Thorpe. The common price is from 3*l.* 13*s.* 6*d.* to 5*l.* 5*s.*

21089 — Works. Revis'd and corrected with an account of the life and writings of the author by N. Rowe. Lond., Tonson, 1709. 8°.

7 vols. with plates.

The faulty edition of 1685 forms the basis. The text is indeed here and there corrected without any collation of the original edition, and without any persevering industry, but not without knowledge and talent; and this edition has besides the merit of being the first to make Shakspeare again generally known. There are copies on large paper (1*l.* 2*s.* Reed, 1807). Repeated, Lond. 1714. 12°. 8 vols.

21090 — plays published by Alex. Pope. Lond., Tonson, 1723. 4°. 6 vols.

This edition was superintended with more spirit and acuteness than industry and accuracy, and Pope's alterations are often too arbitrary. His use of the older editions was too negligent; but the future editors learned from him in what way the text ought to be corrected. Repeated, *ib.* 1728. 12°. 10 vols.

21091 — plays, by L. Theobald. Lond. 1733. 8°. 7 vols. with plates.

Theobald collated the older editions with greater industry, and corrected the text for the most part happily from this collation and from his own conjectures (which however were sometimes too bold), but not so often as might have been expected. Even Johnson thought his short, yet solid, notes worth retaining.—Repeated, *ib.* 1740, or 62, or 73. 12°. 8 vols.

21092 — works, by Th. Hanmer. Ox., at the theatre, 1744—46. large 4°. 6 vols. with plates.

The acute criticism and attention to metre of this editor, in spite of Warburton's censure, must be acknowledged, although he sometimes handled the text too arbitrarily. Notwithstanding the respectable external appearance of this edition, it is still at a low price in England, and its plates are of

little value.—Repeated, Ox. 1771. large 4°. 6 vols. (4l. 4s.)

- 21093 — works. The genuine text (collated with all the former editions, and then corrected and emended) is here settled, with a comment and notes. By Pope and Warburton. Lond., Knapton, 1747. 8°. 8 voll.

Pope's text forms the basis. Warburton's commentary gives proof of learning, but is hasty, his explanations are often forced and erroneous, and his conjectures frequently very improbable. Against his method of handling Shakspeare are directed, *J. Upton's Crit. observations on Shakspeare*. Lond. 1746 or 48. 8°, and (*Edward's*) *Canons of criticism and glossary*. Lond. 1748. 8°. Ed. VII. ib. 1765. 8°.

- 21094 — works, by Sm. Johnson. Lond. 1765. 8°. 8 voll.

Had Johnson really followed in this edition the principles which he laid down in his solid preface, it would have been a very excellent edition. But he soon lost his inclination for labour, sought to free himself from it as soon as possible, and the disheartening consciousness of this want of industry then robbed him of the last effort which such an undertaking required. His happy conception, his unerring tact, and the acute straightforwardness of his observations are here only occasionally displayed. *W. Kenrick's Review of J.'s new edit. of Sh.* Lond. 1765. 8°. contains a crude animadversion.

- 21095 — twenty of the plays of Shakspeare, being the whole number printed in quarto during his lifetime or before the restoration. By G. Steevens. Lond. 1766. 8°. 4 vols.

A real *Codex diplomatico-criticus* for Shakspeare. Previous editors had collated as well and as much as they could or they chose, and the reader remained in uncertainty whether they could not or should not have done more. A faithful impression of the original was the best way to make the public a judge thereof, and to bring the duty of editors home to them. Twenty plays are contained in this edition; the 16, which are wanting here, remained unprinted until the folio edition of 1623. Shakspeare's sonnets after the edition of 1609 are appended.

- 21096 — comedies, histories and tragedies, faithfully republished by

Ed. Capell. Lond., Leach (1768). 8°. 10 vols.

Capell collated the older editions with great accuracy, and frequently corrected the text according to them, but he did not proceed beyond verbal criticism.

- 21097 — plays as they are now performed at the theatres Royal in London, regulated from the prompt books of each house. With notes critical and illustrative. Lond., J. Bell, 1773. 8°. 9 vols.

This edition contains the plays in the manner they were performed at the Drury Lane and Covent Garden theatres. They met with such approbation, that the impression of 8000 copies was sold off in a short time. The 9th vol. contains Shakspeare's life and poems.

- 21098 — plays. With the corrections and illustrations of various commentators, to which are added notes by Sm. Johnson and G. Steevens. Lond. 1773. 8°. 10 vols.

A new but greatly corrected impression of Johnson's edition, which received herein for the first time both critical and exegetical treasures from Steevens.

- 21099 — plays. With the corrections and illustrations of various commentators, to which are added notes by Sm. Johnson and G. Steevens. Ed. II. revised and augmented. Lond. 1778. 8°. 10 vols.—In addition, Supplement to the edition of Sh. plays, published in 1778 by Johnson and Steevens, containing additional observations by several of the former commentators, to which are subjoined the genuine poems of the same author, and seven plays, that have been ascribed to him. (By Edmond Malone). Lond. 1780. 8°. 2 vols.

This edition also proves, by its numerous corrections and augmentations, the unwearied persevering spirit of investigation of its originator.

- 21100 — (the title as in the preceding.) Ed. III. revised and augmented by the editor of Dodsley's collection of old plays (Isaac Reed). Lond. 1785. 8°. 10 vols.

This edition, on account of its many less happy alterations and omissions, has not

caused the preceding to be dispensed with, and it is also less fine in its external appearance.

- 21101 — dramatic writings, with the notes of all the various commentators. Lond., Bell, 1785-87. large 18°. 76 parts in 20 vols.

The text is that of Johnson and Steevens according to the edition of 1778. Two plates are annexed to each play. A copy of this neat edition on large paper was sold at Steevens's sale for 17l. 17s. Longman offered another for 15l. There is a copy on vellum of the play, *Much ado about nothing*, of this edition, (2l. 2s. Longman.)

- 21102 — dramatic works, with explanatory notes, and a copious index to the remarkable passages and words, by Sm. Ayscough. Lond. 1790. large 8°. 3 vols.

A tolerably neat edition, printed with very small characters in double columns. Repeated, *ib.* 1807. 8°. 3 vols. (3l. 12s.)

- 21103 — plays and poems, with corrections, illustrations *etc.* by various commentators, and essays and notes by Edmond Malone. Lond. 1790. 8°. 11 vols. with plates.

Particularly important in an exegetical point of view. Malone took especial pains to clear up the time of the first appearance of each play. There are copies on fine paper.

- 21104 — dramatic works, revised by G. Steevens. Lond., printed by Bulmer, 1791-1804. large fol. 18 parts in 9 vols. on vellum paper with plates.

An edition of dazzling splendour, which alderman John Boydell undertook at an immense and irreparable expense (consult *Nemnich's Nouvelle Reise*, p. 149). It cost 42l. with the 95 plates of text. But besides these 100 plates of the largest size belong to these 9 vols., which form 2 vols., and alone cost 63l. Some copies of the first No. only were struck off on very large paper, equal in size to the large plates. The price has more recently fallen in some degree (94l. 10s. for all 11 vols.).

- 21105 — plays, with the corrections and illustrations of various commentators. To which are added notes by Sm. Johnson and G. Steevens. Ed. IV. revised and augmented (with a glossarial index) by the editor of Doddsley's collection of

old plays. Lond., Longman, 1793. large 8°. 15 vols. with plates.

Steevens and Reed superintended this edition, on which the greatest possible industry was employed, and in which what was unsatisfactory in the edition of 1785 was supplied by these editors in conjunction certainly; still it is usually only called *Steevens's edition*, because he reserved the revision of the text exclusively to himself. There are 25 copies on large paper, which have been sold for 29l. nay even for 39l. 12s. Concerning lord Spencer's illustrated copy, see *Dibdin's Aedes Althorp*. I. 206 sq.

- 21106 — works, with a glossary. Lond. 1797. 8°. 7 vols. Also on large paper.

- 21107 — plays. Lond. 1800. small 8°. 12 vols. with plates.

- 21108 — plays *etc.* (as in No. 21105.) Ed. V. revised by Isaac Reed. Lond. 1803. 8°. 21 vols. with plates. Also on large paper.

This edition contains the richest and most complete apparatus about Shakspeare, and is enlarged with the notes Steevens left behind him in MS. A new and fine impression appeared, Lond. 1813. 8°. 21 vols. (12l. 12s., on large paper 18l. 18s.)

- 21109 — plays accurately printed from the text of Johnson and Steevens. Lond., Bensley, 1803. large 8°. 8 vols. with woodcuts (4l. 4s.).

A fine edition of the mere text, of which there are copies on very large paper (8l. 8s.) Vanpraet's 2nd *Catalogue des livres impr. sur vélin*, II. 186, indicates a copy on vellum in 20 vols., of another London edition, 1803-5. 8°. with woodcuts, and a selection of notes.

- 21110 — plays, printed from the text of Steevens, with a selection of useful notes, and a life of Sh. by Alex. Chalmers, and plates from Henry Fuseli's designs. Lond. 1805. large 8°. 9 vols. (9l., on large paper 10l.)

The same edition also appeared in 9 vols. small 8°. (on fine paper with plates 5l. 8s., on ordinary paper without plates 3l. 12s.)

- 21111 — plays, with notes of various commentators, edited by Manley Wood. Lond. 1806. 12°. 14 vols. with plates (6l. 6s., on large paper 12l. 12s.).

- 21112 — plays from the text of John-

son and Steevens. Lond. 1807. large 4°. 6 vols. (15l. 15s.)

With plates by Heath.

21113 — plays. Lond., Ballantyne, 1807. 8°. 12 vols. (6l. 6s., on large paper 10l. 16s.)

With neat vignettes. Only the copies on large paper are fine. As the previous project of 5 introductory volumes was again given up, the title-mark of the 1st vol. is throughout *Vol. II.*—The stereotyped edition by Wilson, Lond. 1811 or 14. 12°. 12 vols. is furnished with 37 woodcuts after Thurston's designs.

21114 — the family Shakspeare, by Th. Bowdler. Ed. II. Lond. 1822. 18°. 10 vols. (3l. 3s.)

In this edition all the more free and offensive passages are omitted. Previously, Lond. 1818. 18°. 9 vols.

21115 — plays and poems, with corrections of various commentators, by Edmond Malone, edited by Jam. Boswell. Lond. 1821. 8°. 21 vols. with plates (12l. 12s.) Also on large paper.

A new and greatly enlarged repetition of Malone's edition of 1790, in which the MSS. papers which he left behind him have been made use of. It ought to be bound up with Steevens's and Reed's edition of 1803 or 1813, so greatly are opinions in England divided respecting them.

21116 — plays, accurately printed from the text of the corrected copies left by Steevens and Malone, edited by Alex. Chalmers. Lond. 1823. 8°. 8 vols. (3l. 12s.)

The following smaller editions may be noticed: Lond., Sharpe, 1803 or 10. 24°. 9 vols. *ib.*, Walker, 1811. 18°. 8 vols. with plates (2l.). *ib.*, Whittingham, 1815. 18°. 7 vols. (1l. 8s.) *ib.*, *id.*, 1821. 18°. 9 vols. with woodcuts (1l. 11s.). The smallest edition is, Lond., Whittingham, 1823. 12°. (1l. 1s.) It is extremely neatly printed in the diamond type, and scarcely an inch thick.—In the following articles I shall notice the oldest edition of the single genuine plays, according to the chronological order of their appearance.

21117 — King Richard II. Lond., Val. Simmes, 1597. 4°.

31 leaves. The first edition, extremely scarce, which however only contains the play in a shorter form, as it was de-

signed for acting. The duke of Devonshire purchased the only known copy, which was discovered in 1824, for 200l. (Consult *Literary Gazette* 1825, No. 50, p. 197 sq.) A verbal reprint, *Lond., Payne and Foss*, 1825. 8°.

about 1500, with the signatures *a-s*. It is the same piece, a German translation of which is quoted above, under ENNDT-KRIST, No. 6729. The original is in Latin. It appeared previously in the work, *Traité de l'avènement de l'Antichrist et des 15 signes précédens le jugement et des joyes du Paradis*. Par., Vêrard, 1492. fol. Gothic letter.

21213 SILIUS Italicus. Punicorum libri XVII. Romæ, Sweynheym et Pannartz, 1471. fol.

The first edition, very scarce, and fine, only 275 copies of which were printed; 189 printed leaves in all with 38 lines, without signatures, catchwords, and pagination. First comes *Silius Italicus* on 161 leaves, and leaf 1^a line 1 is, *Silius Italicus Punicorum*. Leaf 161^b is the colophon. Then follow the Eclogues of Calphurnius in leaf 162^a, the 1st line of which is, *C. Calphurnii Carmē bucolicū incipit feliciter*. Calphurnius occupies 15 leaves. The *Opera et dies* of Hesiod, after the metrical Latin version of N. de Valle, end the book on 13 leaves, and begin in leaf 176^b with 18 verses of de Valle to Pius II. The 1st line is in leaf 177^a, *Hesiodi Poeta epya xai nuepai*, and the last or 19th line of 189^b is FINIS.

Calpurnius and Hesiod are also sometimes to be met with separate, but they certainly belong to a complete copy of this edition; it is rather incorrect, and sometimes entire verses are wanting.

21214 — Punicorum libri XVII. Romæ (G. Lauer), 6 cal. Mai. 1471. large 4°.

181 leaves (180 according to Dibdin) with 34 lines, without signatures, catchwords, and pagination. The types are the same as those of Lauer's *editio princeps* of Curtius, see above, No. 5524. Leaf 1^a line 1 is, *RDIOR ARMA: Qui*. This 1st page has 28 lines. On the reverse of the last leaf is the colophon, which closes with the line *Mai. Rome*. This edition is less fine than the preceding, but is more scarce, printed from a better codex, and consequently may be considered as an *editio princeps* as well as that. It was superintended by Pomp. Lætus.

The existence of an edition, *Romæ*, 1474. fol. rests indeed on the sole testimony of Drakenborth, who professes to have seen it; as yet it has no where been found. Still less has another pretended Roman edition of 1480, fol. been found, which in any case is a confusion with the Milan edition of 1481.

21215 — Punicorum libri XVII. Parmæ (*And. Portilia* ?), 16 Nov. 1481. fol.

172 leaves (the 1st blank), with the signatures *a-x* (*a* and *x* have 10 leaves, the rest 8), and 36 lines. Leaf 2^a (signature *aii*) line 1 is, *SILII ITALICI PV. NICORVM*. A life of the poet forms the conclusion on the *folio recto* of the last leaf. The text is for the most part that of 1471.

21216 — Punicorum libri XVII. 5 U 4

Mediol., Ant. Zarotus, 7 id. Nov. 1481. fol.

Superintended and corrected by Pt. Justinus Philadelphus, consequently it has some readings of its own, and good ones. It is more scarce than the preceding, and ends with the words, *Lector benevole vale perpetuo*.

21217 — Punicorum libri XVII. cum Pt. Marsi interpretatione. Ven., Bt. de Tortis, 6 Maji 1483. fol.

178 leaves with signatures, without catchwords and pagination. Leaf 1^b begins with the superscription, *Petri Marsi interpretatio in Syllium Italicum ad ill. principem Virginium Vrsinum*. The 1st edition with this commentary.

21218 — Syllius Italicus. Cum commentariis Pt. Marsi. Ven., Bonetus Locatellus, 15 cal. Jun. 1492. fol.

166 leaves with the signatures *a-u*, without catchwords and pagination. The last leaf contains the printer's symbol. A repetition of the preceding, as is also, Ven. (without the printer's name), 12 cal. Oct. 1493. fol.

21219 — Silius Italicus cum argumentis Hm. Buschii. Lps., Mt. Herbipolensis, 1504. 4°.

21220 — Silius Italicus. Par., pro Radulpho Laliseau, 12 Dec. 1508. 4°.

Not noticed in Panzer. Mentioned by Ruperti. Without notes.

21221 — Sillii italici libri XVII. cum huberrimis Pt. Marsi commentariis ad amussim emuncti. Par., N. de Pratis, XI. cal. Maji 1512. fol.

4 unnumbered leaves, and 174 numbered. Some of the copies have Ponsset le Preux's mark and name, and some Fr. Regnault's. This edition is said to be more correct than the Venetian edition by Marsus.

21222 — opus de secundo bello Punico (cura Damiani Benessæ). Lugd., Bm. Trott, m. Jan. 1514. 8°.

Scarce, and of critical value.

21223 — opus de bello Punico secundo summa cura Ambr. Nicandri castigatum, restitutis multis carminibus, quæ in aliis desyderan-

tur. Flor., Ph. Junta, m. Mart. 1515. 8°.

208 numbered leaves. The text of this edition is disfigured by too bold alterations.

21224 — Punicor. libri XVII. cum argumentis Hm. Buschii et scholiis in margine adjectis. Bas., Th. Wolf, 4 id. Nov. 1522. 8°.

4 unnumbered and 234 numbered leaves. Repeated, Par., Colinaus, 1531. 8°. Bas., H. Petri, 1543. 8°.

21225 — de bello Punico secundo XVII. libri nuper diligentissime castigati. Ven., Aldus et And. Asulanus, m. Jul. 1524. 8°.

210 leaves, and 2 leaves, colophon and anchor. One of the rarer, but not of the better Aldines. The Juntine text forms the basis, but in Lib. VIII. v. 145-215, 81 verses, not before printed, are added (probably out of *Jac. Constantii Collectaneorum hecatost. Fani*, 1508. 4°.), the genuineness of which nevertheless is still uncertain.

21226 — de bello Punico libri XVII. Lugd., Seb. Gryphius, 1547 or 51. 12°.

A reprint of the Aldine, as is also the edition, Antw., Ph. Nutius, 1566. 12°.

21227 — de secundo bello Punico: in quo ad codicis Modiani fidem versus spurii ejecti sunt ac legitimi substituti; notæ uberiores sub crepundianor. Silianor. titulo adjectæ opera Dn. Heinsii. LB., Raphelengius, 1600. 24°.

A new recension, but not quite satisfactory. The first 5 books only are fully handled, the rest but cursorily. The *Crepundia Siliana* was reprinted by itself, Cbr., Daniel, 1646. 12°.

21228 — in Silii Italici Punica s. de bello Punico secundo libros XVII. Cl. Dausquejus (cum textu). Par., Douceur, 1615. 4°.

The date is altered into 1618 in the titles of most of the copies. Learned, but without arrangement or selection, and unjust towards Heinsius.

21229 — de bello Pun. secundo libri XVII. Cp. Cellarius recensuit et notis et tabulis geogr. ac gemino indice illustravit. Lps., Fritsch, 1695. small 8°.

21230 — Punicor. libri XVII. cum

excerptis ex Fr. Modii novantiquis lectt. et Csp. Barthii adversariis, tum Dn. Heinsii crepundiis Silianis et postumis notis N. Heinsii nunc prim. editis. Curante Arn. Drakenborch, cujus etiam annotatt. passim additæ sunt. Traj. ad Rh., van de Water, 1717. 4°. with plates.

A new and careful recension from Oxford MSS. and old editions, with materials carefully collected together. The annotations are less satisfactory. The edition is greatly sought after, and copies on large paper are very scarce.

21231 — Silius Italicus de bello Punico. Pisauri, 1765. 8°.

21232 — Punicorum libri XVII. e rec. Arn. Drakenborchii. Curavit et glossarium latinitatis adjecit J. Pt. Schmid. Mitav., Hinz, 1775. 8°. (2 d. 12 gr.) Also on writing paper.

21233 — de bello Punico secundo poema, ad fidem vett. monumentor. castigatum, fragmento auctum. Curante J. Bt. Lefebvre de Villebrune. Par. 1781. 12°.

21234 — seconde guerre Punique, poëme de Silius Ital., corrigé sur 4 MSS. et sur la précieuse édition de Pomponius donnée en 1471; complétée par un long fragment trouvé dans la bibliothèque du roi, et trad. par Lefebvre de Villebrune (*avec le texte latin*). Par. 1781. 12°. 3 voll.

The two editions belong to each other. The critical notes of the first are not in the second, which on the other hand contains a *nomenclature histor. et géogr.*, which is not in the first. The editor has corrected much from his good materials, which however he has neither exhausted, nor made use of in a way sufficiently to be relied upon; but he has also almost spoiled as much by his temerity and haste. The pretended new discovery, which he has inserted in lib. XVI. v. 28-61, is 34 verses from Petrarch's Africa, which he claimed for Silius without any foundation.

21235 — Punicor. libri XVII. ad opt. edit. collati. Bip. 1784. 8°. (18 gr.)

Drakenborch's text, with Lefebvre's various readings.

21236 — Punicor. libri XVII. varietate lectionis et commentario perpetuo illustrav. J. Ch. Gli. Ernesti. Acced. index uberrimus. Lps., Weidmann, 1791-92. 8°. 2 voll. (2 d. 20 gr., on writing paper 4 d.)

Drakenborch's text with a few alterations, without the use of any new materials. It has the more exegetical merit.

21237 — Punicor. libri XVII. (edente Heber). Lond., Bulmer, 1792. 12°. 2 voll. On vellum paper.

Drakenborch's text, with some alterations after Lefebvre's. Neatly printed.

21238 — Punicor. libri XVII. varietate lectionis et perpetua adnotatione illustrati a G. Alex. Ruperti. Gött., Dieterich, 1795-98. 8°. 2 voll. (3 d. 12 gr.)

Drakenborch's text, with some alterations by Ruperti, and a careful selection of the best part of the critical materials that have as yet appeared, and a good exegetical apparatus of the editor's own.

21239 — the second Punick war between Hannibal and the Romanes: The whole 17 books, Englished from the Latine of Silius Italicus. By Th. Ross. Lond., Roycroft, 1661. fol. Also on large paper.

A subsequently printed half-title, 10 leaves, preface, 4 leaves, table of contents, 680 pages, text, and 7 leaves, index. The original edition, extremely scarce, which was suppressed by order of the chancellor before its entire completion, and was almost completely annihilated. The 6 or 8 copies that escaped are without a title. After a faulty copy of one of these the work appeared, *Suivant la copie impr. à Paris (Amst., Dn. Elsevier)*, 1680. 4°. In order to obtain admittance into France for this

edition, which is scarcely of any value, several copies received the title, *Histoire de la religion des Juifs, par Rabbi Moses Levi. Amst., P. de la Faille, 1680. 4°*. The Latin translation made by Noel Aubert de Versé, from this faulty edition, *Amst. 1681. 4°* is likewise of no value.

- 21266 SIMONETA, J. *Rerum gestarum Fr. Sphortis Mediolanensium ducis libri XXXI. Mediol., Ant. Zarotus, 10 cal. Febr., without date (1480). fol.*

290 leaves with 42 lines and signatures. The first edition, usually set down in the year 1479, because it ends with a letter of Philiphus, dated 6 id. Jun. 1479. But as the colophon is dated 10 cal. Febr. it must be later than the letter of Philiphus, and consequently of 1480. A copy on vellum in the Royal library at Paris (previously 1500 fr. Soubise, 1401 fr. M'Carthy).

- 21267 — — *Mediol., Ant. Zarotus, 9 cal. Oct. 1486. fol.*

4 leaves of preliminary matter, 187 numbered leaves, and one leaf with the anchor. This edition was printed from an incomplete MS., wherein a chapter of the proemium is wanting, which was for the first time printed in Greek in *Iriarte's Catal. codd. MSS. gr. Matrit.* p. 181 sq. It had already been given in Latin in the following translation, which was made from a complete MS.

4 leaves of preliminary matter (the 4th blank) and 172 leaves, which in the numbering reach to 178, because 85-88, 135 and 136, are skipped over by mistake. A copy on large paper 139 fr. M'Carthy. This edition only contains a bad Greek version of the Latin translation of G. de Moerbeka, and not the original text of Simplicius, which is to be found in a Turin MS. See *Empedoclis Fragmenta* ed. 21291 SINCLAIR, G. Hortus gramineus Woburnensis. Lond. 1816. fol.

This costly work was got up at the expense of the duke of Bedford, the proprietor of the garden, and was only given away in presents. It contains specimens of the grasses upon leaves; and underneath are printed specifications of the name and general characteristics of each grass; on the reverse is a more detailed description. Between each of these leaves two blank leaves are to be found in order to prevent rubbing, of which the reverse of that which adjoins the plants next following, is covered over with silver paper. The author is the duke of Bedford's gardener. Consult *Dibdin's atlas Althorp*. I. 189. A 2nd edition with the representations engraved on copperplate appeared, Lond. 1825 (il. 10s., with illuminated plates 2l. 2s.)

21293 SINGER, Sm. Weller. Researches into the history of playing cards, with illustrations of the origin of printing and engraving on wood. Lond., Bensley, 1816. large 4°. with plates and woodcuts (4l. 4s.).

Only 250 copies were printed by subscription. The author is against the Dutch discovery of the art of printing, as Ottley (see above) is in favour of it.

21294 — (anon.) Some account of the book printed at Oxford, under the title of *Expositio sancti Ieronimi in Simbolo Apostolorum*. Lond. 1812. 8°.

Only a few copies were printed. The author had defended therein the correctness of the pretended date of printing (1468) of that work, which he even now himself considers as a mere typographical error, instead of 1478. Consult *Dibdin's Bibl. Spenc.* IV. 351 n.

21295 SINNER, J. Rdf. Catalogus codd. MSS. bibliothecæ Bernensis, annotationibus criticis illustratus.

Bernæ, 1760–62. 8°. 3 vols. with plates.

Carefully done, and particularly interesting for the old French literature. An index of 116 pages ought to be found in the 3rd vol. which has also been published by itself under the title, *Bibliotheca Bern. codicum MSS. syllabus*. Bernæ, 1773. 8°. 21299 SIPTABINA Pisano. Itinerario Asyaticcho. Ven., Helisabetta de Ruschoni, 1526. 8°. with woodcuts.

104 leaves, with the signatures a–n, and a woodcut at the end. In this very scarce poem in *terse rime* the author has sought to imitate Dante, and equals him, if not in poetical merit, yet at least in obscurity. Set down by Molini at 80 poeoli.

Fir. 1682. 4°. 15 parts in 18, 21, or 22 vols.

Of this work, which should be bound up with the preceding, parts 13-15 are the scarcest. There belong to it, *Gi. Bt. Biragio Mercurio veridico ovvero annali universali d'Europa. Ven.* 1648. 4°. and *Bollo di Vitt. Siri nel Mercurio veridico di Birago. Modena*, 1653. 4°. According to a statement at the end of the 8th vol. of the *Memorie*, a 16th vol. was already prepared, which however has remained unprinted. — Only a part of this work is translated in *Mercurus, contin. l'hist. génér. de l'Europe depuis 1640-43, trad. par. Requier. Par.* 1756-59. 3 vols. in 4°. or 18 vols. in 12°.

Both works are very seldom found together complete, but they are now much less sought after than they were formerly. There are copies of most of the vols. on large paper, but not of all. What the older bibliographers have said respecting the rarity of the so called uncastrated editions in lib. XIII. of which the words are, *si quis virginem matrem vitiasset*, is unfounded. On the contrary, the few editions with the alteration, *si quis originem aut matrem vitiasset*, are demonstratively the rarer; consult *Schelhorn's Ergötzlichkeiten*, II. 427, 449.

This collection of 7245 vols., and 133 MSS., was bought in 1766 at 15000 florins for the public library of Nuremberg. The catalogue is compiled so as to be very little depended upon, and the notes, composed in barbarous Latin, are extremely insignificant. But the library itself contained with a number of very important and valuable works, a still greater quantity also of confused rarities and curiosities.

21386 SOLINUS, Cajus Jul. De situ orbis terrarum et memorabilibus, quæ mundi ambitu continentur, liber. Ven., N. Jenson, 1473. 4°.

The first dated edition. 66 leaves with 33 lines, without signatures, catchwords, and pagination. Leaf 1^a begins with a list

of chapters, the 1st line of which is, IVLII SOLINI DE SITV ET ME. The 3rd leaf is blank. The text begins in leaf 4^a, and the 1st line is, IVLII SOLINI DE SITV ORBIS TERRA. Leaf 66^b is the colophon in 5 lines. The size has sometimes been wrongly stated as folio. There are 3 copies on vellum, one in the library of the king of England (formerly belonging to consul Smith), the 2nd in lord Spencer's (previously 850 fr. Soubise), and the 3rd in the Canons' library at Padua. The text of this edition is greatly celebrated by Salmasius. It is divided into 70 chapters.

21387 — rerum memorabilium collectaneæ (*sic*). Without place or date (*Romæ, S. Schurener de Bopardia*, about 1473). large 8°.

120 leaves with 26 lines, without signatures, catchwords, and pagination. Leaf 1^a begins with Solinus's dedication to Aventinus, and the 1st line is, CAI. Iulii. Solini rerū memorabilium col. Then follows a list of the 50 chapters into which this edition is divided, and the work itself begins in leaf 5^a with the following line, *De origine et temporibus urbis*. The edition is very scarce, but contains a far more faulty text than Jenson's.

21388 — rerum memorabilium collectanea, edente Bonino Mombrizio. Without place or date (*Mediol.*, about 1474). 4°.

122 leaves with 26 lines, without signatures, catchwords, and pagination. The book begins in leaf 1^a with some verses by the editor Mombrizio, in which he calls the book, *Primitiæ nostri laboris*. As he had already edited the *Liber sumularum* of Paulus Venetus at Milan in 1474, Solinus could not have been superintended by him after that. The *Proœmium* of Solinus and the list of chapters follow after these verses. This preliminary matter forms altogether the first 6 leaves. The text begins in leaf 7^a, and ends in leaf 122^a with the word FINIS. The printer (neither Lavagna nor Valdarfer) has not yet been discovered.

21389 — polyhistor sive de situ orbis ac mundi mirabilibus liber, curante Gu. Tardivo. Without place or date (*Par., Cesaris et Stol*, about 1475). 4°.

108 leaves with 25 lines, without signatures, catchwords, and pagination. Leaf 1^b begins with 2 poems to the editor Tardif, which are followed by 3 leaves of table of contents. The text begins in leaf 5^a, and the 1st line is, CAII IVLII SOLINI AD AD. The book ends in leaf 108^b, and the last

line is, *Situ orbis ac mūdī mirabilibus liber finit*. This edition, which by some is set down as early as 1472, contains good readings peculiar to itself.

The existence of a pretended edition, *Brixiae, Boninus de Boninis*, 1480. (*Panzer*, I. 244) is very suspicious.

- 21390 — rerum memorabilium collectaneæ (*sic*). Parmæ, And. Portilia, 13 cal. Jan. 1480. small 4°.

102 leaves (the 1st blank) with 27 lines in a full page, and the signatures *a-n*. Leaf 2a line 1 is, *CAI Iulii Solini rerū memorabilium*. The proæmium and 2 leaves of table of contents follow. The text begins in leaf 5a (signature *b 1*). The colophon is in leaf 102a (Wolfenbüttel).

A pretended edition, *Parmæ*, 1483. 4°. (*Panzer*, II. 356.) is uncertain. And the edition, *Ven.*, 10 Mart. 1490. 4°. (*Panzer*, III. 292) certainly rests only on a copy of the edition of 1498, in which the VIII is scratched out of the date.

- 21391 — de memorabilibus (*sic*) mundi. Ven., Thdr. de Ragazonibus de Asula, 23 Aug. 1491. 4°.

52 leaves with 37 lines, and the signatures *a-g*. Consult *Opuscoli di autori Sicil.* XX. 285. Divided into 63 chapters. The *Mirabilia Romæ* follow in leaf f8a.

- 21392 — de memorabilibus (*sic*) mundi. Ven., without the printer's name, 13 Jan. 1493. 4°.

44 leaves with 40 lines, and the signatures *a-f* (Wolfenbüttel).

- 21392 — de mirabilibus mundi. Brixiae, Jac. Britannicus, 20 Nov. 1498. fol.

6 leaves of preliminary matter (the 6th blank), and 34 numbered leaves. Divided into 68 chapters. Superintended by Bartolinus Atriensis, who asserts that he has corrected the text, and who has prefixed an index.

- 21394 — de memorabilibus (*sic*) mundi. Ven., without the printer's name, 10 Mart. 1498. fol.

46 leaves with 40 lines, and the signatures *a-f*. Divided into 63 chapters, but without the *Memorabilia Romæ* of the edition of 1491. An edition, without place, 1498. 4°. in *Panzer*, IV. 467.

- 21395 — polyhistor sive de mirabilibus mundi opus a Ph. Beroaldo emendatum. Bonon., Bd. Hectoris, 1500. 4°.

78 leaves (the last blank), with the signatures *A-L*, and 27 lines. Divided into

70 chapters. Camers judges unfavourably of Beroaldus's corrections of the text, in which he does not appear to have made use of any MSS.

- 21396 — Solinus de Memorabilibus (*sic*) Mundi diligenter annotatus et indicio alphabetico prenotatus. Par., accuratior Ascensiana, 4 id. Jul. 1503. 4°.

4 leaves of preliminary matter, and 44 numbered leaves. First is a letter of Badius Ascensius to J. de Falce, dated *id. Jul.* 1503 (Wolfenbüttel). *Par.*, *Lambert*, 1503. 4°. only differs in the statement of the firm. Repeated, *Par.*, *Ascensius*, 1512. 4°, and *Spira*, *impensis C. H. (Cr. Hist.)*, 1512. 4°. (Wolfenbüttel). *ib.*, *impensis C. H.*, 1515. 4°. Gothic letter, 4 leaves of preliminary matter, and 44 numbered leaves. *Par.* (*Dion. Roce*), without date. 4°.—All these editions have 65 chapters.

- 21397 — C. Iulius Solinus de situ orbis terrarum et de singulis mirabilibus quæ in mundo habentur. Ubi Sequester de fluminibus montibus lacubus et gentibus. Prouinciarum totius orbis nomina ad nostra tempora redacta. Pisauri, Hi. Soncinus, ult. Jan. 1512. fol.

6 leaves of preliminary matter, 34 numbered and 8 unnumbered leaves. Superintended by Alexander Gaboardus Turcellanus, and divided into 68 chapters. Printed after a *Venetum exemplar*, but compared with 4 *Exemplaria antiquiss.*, whose various readings are specified at the end. Subsequently with *Pomp. Mela. Ven.*, *Aldus*, 1518. 8°, and *Flor.*, *Junia*, 1519 or 1526. 8°.

- 21398 — J. Camertis in C. Jul. Solini *πολυστομα* enarrationes (cum textu). Additus ejusd. Camertis index. Viennæ Austr., J. Singrenius, 1520. fol.

8 leaves of preliminary matter, 336 pages, 1 unnumbered leaf, 1 leaf with the printer's symbol, and 15 unnumbered leaves of index. A new and careful recension, less from MSS. than from his own conjectures, and celebrated by Salmasius himself. Divided into 70 chapters.

- 21399 — polyhistor seu rerum orbis memorabilium collectanea. Adjectus præterea est index. Col., Euchar. Cervicornus et Hero Fuchs, m. Dec. 1520. 4°.

92 numbered leaves, and 12 unnum-

bered, index. Merely the text (in 70 chapters), without mention of the editor.—Afterwards with P. Mela. *Ven., Pagani-nus*, 1521. 12°.

- 21400 — polyhistor, adjecto ad libri calcem indice copiosissimo. *Par., Sim. Colinæus*, 1533. 8°.

Divided into 60 chapters.—Afterwards with Mela. *Par., Ch. Wechel*, 1536. 8°.

- 21401 — polyhistor. *Lugd., Sb. Gryphius*, 1537. 8°.

- 21402 — polyhistor seu rerum orbis memorabilium collectanea, partim ad vetustissimorum exemplarium fidem restituta, partim scholiis illustrata. Auctoris vita per J. Camertem accurate collecta. Accessit his index omnium capitum ordine digestorum. *Lugd., ap. her. Sim. Vincentii*, m. Sept. 1539. 8°.

This appears to be a repetition of the edition by Olivarius (with Mela. *Par.* 1536. 8°.)

- 21403 — polyhistor, rerum toto orbe memorabilium thesaurus locupletissimus. Huic Pomp. Melæ de situ orbis libros tres, denuo jam recognitos, adjunximus. His accesserunt præter priora scholia et tabulas geographicas Pt. quoque Olivarii annotationes. Cum gemino indice. *Bas., Mch. Isingrin*, 1543. fol.

10 leaves of preliminary matter, 230 pages, and 1 leaf with the printer's symbol. With maps engraved on wood and printed in the text, and one separate and unnumbered, which belongs between p. 144 and 145. The Solinus is a reprint of Camer's edition of 1520, and, as there, divided into 70 chapters.—Already, *Bas., Mch. Isingrin et H. Petri*, 1538. fol.

- 21404 — polyhistor, ex antiquis Burdegalsensium Dominicanorum codicibus ita restitutus, ut nunc primum natus et editus videri possit. Index locupletissimus in tres divisus, in quibus multa monuit de varia scriptura Elias Vinetus. Pictavii, Enguilb. Marnef, m. Majo 1554. 4°.

4 leaves of preliminary matter, 144 pages, and 16 leaves of index. Without any division of chapters. A new and clever recension.

- 21405 — commentaria in Solini polyhistora et Lucii Flori de Romanorum

rebus gestis libros, ac tabulam Cebetis, J. Camerte autore. Præterea Pomp. Melæ de situ orbis libri III. cum commentariis Jo. Vadiani, præmissa ejusd. rudimentaria de geographia catechesi. Item alia ex Jo. Vadiani lucubrationibus opuscula. *Bas., H. Petri*, m. Aug. 1557. fol.

With the text of these 3 authors; the text of Cebes however is only in a Latin translation. Solinus is divided into 70 chapters. J. Herold superintended the edition. 24 leaves of preliminary matter and 478 pages; then Mela, 16 leaves of preliminary matter and 297 pages. There are no maps in this edition. In p. 337 etc. the scholia of some unknown literary person to chapters 1-7 of Solinus are added besides.

- 21406 — polyhistor a Mt. Ant. Delrio emendatus. *Antw., Cp. Plantinus*, 1572. 8°.

A new recension from MSS., yet often without specifying the ground for alteration. The editor was as unjust towards Camer as Salmasius subsequently was towards himself.

His text is repeated with *Dionysius (Afer. Par.)*, *H. Steph.*, 1577. 4°.

- 21407 — polyhistor. *Edid. G. Draudius*. *Ff.* 1603. 4°.

An edition rather seldom to be met with. The text is here divided into 65 chapters.

Salmasius gave a new recension in his *Pliniana exercitationes*, 1629 (see above, No. 20124). He divided the text according to the old list of chapters into 56 chapters.

- 21408 — collectanea rerum memorabilium sive polyhistor, a nonnullis rerum toto orbe memorabilium thesaurus nuncupatus, cum indice. Editus studio And. Reyheri. *Gotthæ, Reyher*, 1665. 8°.

Camer's text. Divided into 70 chapters, and 1000 smaller subdivisions, with a useful index. The printing is not very correct.

- 21409 — compendium rerum memoratu dignar. et scitu jucundarum. *Lips., Klosius*, 1708. 8°.

A repetition of the preceding edition, with the omission of Solinus's name.

- 21410 — polyhistor. *Ex edit. Cl. Salmasii accurante And. Goezio*. *Lps., Bauer*, 1777. 8°. (1 d.)

21429 SOLVYNS, Bths. Les Hindous, ou description de leurs mœurs, coutumes, cérémonies etc. dessinés d'après nature dans le Bengale, et représentés en 292 planches. Avec le texte en anglais et en français. Par. 1808-12. large fol. 4 voll. (1728 fr., with retouched coloured plates 2600 fr.)

However moderate the execution of the coloured printed plates may be, yet they are distinguished by a rare fidelity and truth of representation. The edition in 4°. has not been finished. The author had before published a similar work at Calcutta; *A catalogue of 250 coloured etchings descriptive of the manners, customs, character, dress, and religious ceremonies of the Hindoos, by Bths. Solvyns. Calcutta, Mirror press, 1799. fol. 2 vols.* This edition is very scarce, as all but 6 copies are said to have been spoiled. The following is an abridgement of it; *The costume of Hindostan, elucidated by 60 coloured engravings, with descriptions by Bths. Solvyns. Lond. 1804. large 4°.*

- 21451 **SOPHOCLIS** tragædiæ (*sic*)

septem cum commentariis. Ven., Aldus, m. Aug. 1502. 8°.

196 unnumbered leaves (the blank leaves to be found in the context, and that with the anchor being included). The first edition, scarce, and greatly prized on account of its good and pure text. The scholia, announced in the title, are wanting, and did not appear from Aldus's press. There are copies in which the preface on the reverse of the title is wanting. Lord Spencer has a defective copy on vellum.

21452 — *tragediæ septem cum interpretationibus vetustis et valde utilis* (curante Ant. Francino), Flor., her. Ph. Juntæ, 6 cal. Nov. 1522. 4°.

4 leaves of preliminary matter, and 194 numbered leaves. The first edition with the scholia. Still more scarce than the preceding, and not yet sufficiently characterized. According to the preface of the Juntine edition of 1547. MSS. appear to have been made use of in it. At any rate it contains a pure text, and peculiarities in the scholia, in which it often differs from the Roman edition of 1518.

21453 — *tragediæ septem* (gr.) Par., Sim. Colinaeus, 1528. 8°.

A tolerably scarce reprint of the Aldine with some readings of its own. Without the scholia.

21454 — *tragediæ VII. cum commentariis interpretationum argumenti Thebaidos fabularum Sophoclia*, authore Jo. Camerario, jam recens natis atque æditis. Haganoæ, ex offic. Seceriana, 3 id. Mart. 1534. 8°.

Without the scholia. Camerarius's notes have a separate title.

21455 — *tragediæ VII. cum interpretationibus vetustis et valde utilis*. Ff., Pt. Brubach, 1544. 8°.

2 leaves of preliminary matter, 193 numbered leaves, and 1 leaf with the printer's symbol. With the scholia. A reprint of the Juntine of 1522, yet with some alterations by the editor. In *Œdip. Col.* leaf 129 (signature R) 4 pages are transposed by a mistake of the printer's.

21456 — *tragediæ VII. cum interpretatt. vetustis et valde utilis*. Flor., ap. Junctam, 1547. 4°.

4 leaves of preliminary matter, 192 numbered leaves, 1 unnumbered leaf, and 1 leaf with the lily. With the scholia, and a preface by Bn. Juncta. Superintended by

Pt. Victorius, and corrected, especially in the two *Œdipi* and the *Trachinææ*, from MSS.

21457 — *tragediæ VII. (gr.) Ff.*, Pt. Brubach, m. Mart. 1550. 8°.

427 pages, and 1 leaf with the printer's symbol. Without the scholia, and a reprint of the edition of 1544. The same may be said of the editions, *Ff.*, Pt. Brubach, 1567. 8°. 427 pages. *Witt.*, *Mih. Welack*, 1585. 8°. 427 pages.

21458 — *τραγῳδίαι. Δημητρίου του Τρικλινίου περι μετρων οἷς ἐχρησάτο Σοφοκλῆς, περι σχημάτων, σχολία*. Par., Adr. Turnebus, 1552. small 4°. 4 leaves of preliminary matter, and 400 pages.—Demetrii Triclinii in Sophocl. commentarii. ib., id., 1553 (at the end 1552). small 4°. 2 parts in 1 vol.

A fine and scarce edition, good copies of which, when they contain the scholia, are greatly sought after. It was made from a codex arbitrarily interpolated by Demetr. Triclinius, which was in the possession of Emarus Ranconet, and contains a quantity of bad readings and ignorant alterations, particularly in the choruses. And yet the subsequent editors down to Brunck almost entirely retained this corrupted text. The scholia of Triclinius differ from those of the earlier editions.

21459 — *tragediæ VII. cum interpretationibus vetustis et valde utilis*. Ff., without the printer's name, 1555. 4°.

2 leaves of preliminary matter, and 193 numbered leaves. Although it accords, page for page, with the edition of 1544, yet it is really a new impression. The scholia are included.

21460 — *tragediæ VII. Una cum omnibus græcis scholiis et cum latinis Jo. Camerarii. Annotationes H. Stephani in Sophoclem et Euripidem, seorsum excusæ, simul prodeunt. (Oliva, H. Stephani)*, 1568. 4°.

4 leaves of preliminary matter, 461 pages, Greek text, 242 pages, notes. Turnebus's text, with some alterations. The old scholia and those of Triclinius are here combined. Thereto belong, *H. Stephani annotationes in Sophoclem et Euripidem (Oliva Steph.)* Elmaley has shewn that in these *Annotationes* he made use of no MSS. but only earlier editions.

21461 — *tragediæ VII. (gr.) In*

quibus præter multa menda sublata, carminum omnium ratio hactenus obscurior, nunc apertior proditur, opera Gu. Canteri. Antw., Cp. Plantinus, 1579 (at the end 1580). 16°.

A neat, correct, and scarce edition. Canter's critique, chiefly metrical, gained credit particularly as to the new arrangement of the plays.

21462 — *tragœdiæ VII. (gr.)* In quibus præter multa menda sublata, carminum omnium ratio apertior proditur, opera Gu. Canteri. LB., Fr. Rapheleng., 1593. 12°.

427 pages, and 8 unnumbered leaves (*notæ Canteri et sententiæ Sophocl.*) A repetition of the preceding edition.

21463 — *tragœdiæ VII. (gr. lat.)* Ex adverso respondet latina interpretatio, in qua verbum verbo reddidit Vitus Winsemius. Carminum ratio ex Gu. Cantero diligenter observata; additis ejus in totum Sophoclem notis. Heidelb., Hi. Commelinus, 1597. 8°.

701 pages, without scholia. Canter's text, whose notes, mentioned in the title, are not to be found therein.

21464 — *tragœdiæ VII. Una cum omnibus græcis scholiis, et latina Viti Winsemii interpretatione. Quibus accesserunt Jo. Camerarii, nec non H. Stephani annotatt. Una cum indice sententiar. Sophoclear.* Excud. P. Stephanus, 1603. 4°.

4 leaves of preliminary matter, 794 pages, and 13 unnumbered leaves, text; 51 pages, *notæ Stephani*; 202 pages, *notæ Camerarii*; 3 leaves, *index sententiarum*. A slovenly and not quite correct repetition of the edition of 1568, with the addition of the Latin translation of Winsemius and the notes of H. Stephens, which had before appeared by themselves.

21465 — *tragœdiæ Sophoclis quotquot extant, græco-latinae.* Ingolst., Ad. Sartorius, 1608. 8°. 945 pages.

21466 — *tragœdiæ VII. (gr. lat.) una cum omnibus græcis scholiis ad calcem adnexis.* Cbr., J. Field, 1665 (new title 1669 or 1673). 8°. — *Σχολια παλαια των πανυ δοκιμων, μετα και των του Τρικλωνιου εις Σο-*

φωκλεους επτα τραγωδιας. Cbr., J. Field, αχξη, (1668). 8°. 2 parts in 1 vol.

Stephens's text. A neat and convenient small edition.

21467 — *tragœdiæ VII. Cum versione lat. et selectis quibusdam variis lectionibus.* Lond., Tonson et Watts, 1722. large 12°. 2 voll.

Stephens's text, without scholia. This edition has been erroneously attributed to Maittaire. Repeated, Lond., Tonson et Watts, 1747. large 12°. 2 vols.

21468 — *tragœdiæ, quæ extant, septem; cum versione latina. Additæ sunt lectiones variantes et notæ Th. Johnson in IV. tragœdias.* Glasg., Foulis, 1745. small 8°. 2 voll.

Stephens's text, without scholia. This smaller edition, although neat, is very incorrectly printed.

21469 — *tragœdiæ, quæ extant, septem. Additæ sunt lectiones variantes et notæ Th. Johnson in IV. tragg.* Glasg., Foulis, 1745. small 4°.

Of the same form as the preceding, but far more correct, and without the Latin translation. A copy on large paper, 41 fr. 95 c. M'Carthy.

21470 — *tragœdiæ VII. Nova versione donatæ, scholiis veteribus notisque perpetuis et variis lectionibus illustratæ. Opera Th. Johnson.* Lond. et Etonæ, Innys, 1746. 8°. 3 voll.

Each vol. has also a separate title, namely, T. I. *Ajax et Electra* (at first, Ox. 1705. 8°.). T. II. *Antig., Trachin., Œdip. Col.* (at first, Ox. 1708. 8°.). T. III. *Œdip. Tyr. et Philoct.* In England the 1st and 2nd vol. of the separate very correct editions of 1705 and 1708 are sought after, and to these is added the 3rd vol. (which did not appear earlier) of the edition of 1746.—The edition, Lond., Pote, 1758. 8°. 2 voll. in which Palairer took part, is less correct. The following, on the contrary, was very carefully superintended (by J. Tweedie), Etonæ, Pote, 1775. 8°. 2 voll. Repeated, *ib.* 1788 or 1799. 8°. 2 voll.

21471 — *tragœdiæ VII. cum interpretatione latina et scholiis vett. ac novis. Editionem curavit J. Capperonnier. Eo defuncto edidit, notas, præfationem et indicem ad-*

jecit J. Fr. Vauvilliers. Par., Pissot, 1781. 4°. 2 voll. Also on large paper.

A reprint of Johnson's edition in the text, translation, and scholia, with little apparatus of its own, and that of no great importance. MSS. were not made use of. Finely printed, and scarce on large paper.

21472 — *tragoediae*, gr. Etonæ, 1786. 4°.

This edition, superintended by Harwood, and very scarce in Germany, is furnished with various readings from the editions of Aldus and Turnebus, short notes and a very complete index by Morell. The various readings of Brunck's edition were also added to it in 1788.

21473 — *quæ exstant omnia, cum veterum grammaticorum scholiis. Superstites tragoedias VII. ad optimorum exemplarium fidem recensuit, versione et notis illustravit, deperditorum fragmenta collegit* Rch. Fr. Ph. Brunck. Arg., Treuttel, 1786. large 4°. 2 voll.

A new recension, in which Brunck used the Aldine text as the basis, and corrected it after 8 MSS. and by conjecture. He has the merit of having purified the text of Sophocles from the interpolations of Triclinius, and of having restored it to its original genuineness; but sometimes his alterations are too bold, and even metrically wrong. The Latin translation is new, and the scholia are accurately printed from the Roman edition of 1518. The edition is fine, and very correctly printed. There are two copies on vellum, one in the Royal library at Paris, and the other in Renouard's possession.

21474 — *tragoediae VII. ad optimorum exemplarium fidem emendatæ, cum versione et notis, ex editione* Rch. Fr. Ph. Brunck. Arg., Treuttel, 1786–89. 8°. 4 voll. Also on large paper.

The first 2 vols., which appeared some months before the preceding edition, contain the text, translation, and notes; the 3rd the scholia, and the 4th the index.

21475 — *tragoediae VII. (gr.) Exhibet* J. M. Suerius Duplan. Par. 1787. 12°. 2 voll.

Merely an impression of the usual old text, without any farther apparatus.

21476 — *tragoediae VII. cum scholiis vett., versione lat. et notis. Accedunt deperditorum dramatum frag-*

menta. Ex editione Rch. Fr. Ph. Brunck. Arg., (without the printer's name), 1788. large 8°. 3 vols.

This edition, only 250 copies of which were printed, contains a new revision of the text and of the scholia, omitting the more recent scholia and those of Triclinius, and also the index.

21477 — *tragoediae (gr.) in usum scholar. ad exemplar Brunckianum expressæ. Hal., orphanotropheum, 1790. 8°. — Ed. II. emendator. ib. 1813. 8°. (1 d., on Dutch paper 2 d.)*

It does not greatly deviate from the text of Triclinius. Repeated, *ib.* 1809, 10. 8°. 3 vols. (1. 7s., on large paper 1l. 15s.) The two vols. of text, (16s., on large paper 1l.), and the vol. of scholia (11s., on large paper 15s.) are also sold separately.

21479 — *tragoediae VII. ac deperditorum fragmenta. Emendav., varietatem lectionis, scholia notasque tum aliorum tum suas adjecit* C. Glo. A. Erfurdt. Lps., Fleischer, 1802–25. large 8°. 7 voll. (18 d. 8 gr.)

A new recension, partly from MSS., but somewhat hastily and unequally executed. The single vols. are also sold under separate titles: T. I. *Trachin.* 1802; T. II. *Electra*, 1803; T. III. *Philoctetes*, 1805; T. IV. *Antig.* 1806; T. V. *Ædip. rex*, 1809; T. VI. *Ajax*, 1811; T. VII. *Ædip. Col.* 1825. 2 vols. are still to be expected.

21480 — *tragoediae VII. ex rec. Brunckii cum Brunckianis selectis paucisque suis notis edid. Lr. Sahl. Havn., Proft, 1802. 8°. 2 parts in 1 vol. (1 d. 16 gr.)*

An uncommonly neat pocket edition.

21484 — *tragoediae. Ad optimor. libror. fidem iterum recensuit et brevibus notis instruxit C. Glo. A. Erfurdt. Lps., Fleischer, 1809-25. small 8°. 7 voll. (7 d.)*

The single vols. are also sold under separate titles: T. I. *Antigone*, 1809; T. II. *Oedip. rex*, 1811; T. III. *Ajax*, 1817; T. IV. *Electra*, 1819; T. V. *Trachin.* 1822; T. VI. *Philoct.* 1824; T. VII. *Oedip. Col.* 1825.

21485 — *tragoediae ad optimor. libror. fidem emendatae, cum brevi notatione emendationum, cura Gf. H. Schäfer. Lps., Tauchnitz, 1810. 12°. 2 voll. (1 d. 8 gr.)*

SPECULE des pecheurs, see **CAS-TEL**.

21576 **SPECULUM** humanæ salvationis. 1. *In Latin*. Without place or date. fol. with woodcuts.

This work, which contains representations from the Old and New Testament, sometimes also from profane history (two on each leaf) with short explanations, is not only distinguished for its artist-like execution beyond all other works of that period with woodcuts, but is also particularly important on account of its Dutch origin, now placed beyond all doubt, for the history of the art of wood-engraving and of printing. Concerning this work, consult *Celsii Hist. biblioth. Stockholm.* p. 208 sq. *And. Sam. Gerner Progr. de speculo hum. salv.*, in his *Exercitatt. scholast. varii argumenti*. Only 4 editions belong to the original Dutch printing establishment, which according to the most recent inquiries thus followed each other: the first edition with a Dutch text, the first with a Latin; the second edition with a Dutch text (and contemporaneous with it) the second with a Latin. The woodcuts in all these editions are impressions from the same blocks. The earlier supposition of movable wooden types in a part of the leaves of the two oldest editions has now been corrected to the opinion that those more crude types were composed of a softer metal, either lead or tin. This typographical production is therefore justly inserted in the series of the oldest documents for the history of the art of printing properly so called.

According to Koning's accurate inquiries, the Latin edition, which Heineken and the other earlier bibliographers considered to be the first, is to be considered as the second. The edition now admitted to be the first consists of 63 leaves in 5 layers, only printed on one side, the first 5 of

which contain the prologue. This edition is distinguished from the second by being entirely printed with metal types. It is far more scarce than the other, and the following copies of it only are known: in the Town-house at Haarlem (without the prologue), in the Royal libraries at Paris and Hanover (only 44 leaves), and in the library of M. van Hulthem in Holland. Whether the copies at Vienna and Stuttgart are of this edition, is uncertain. Consult *Heineken Idée*, p. 449. *Koning Verhandelng*, 135 sq. (p. 73 of the French translation).

21577 — — Without place or date. fol. with woodcuts.

The second edition, with a Latin text, heretofore considered as the first. Entirely like the preceding in number of leaves, interior arrangement, and types, but distinguishable by having 20 leaves of the text (viz. 6, 7, 9–16, 18, 19, 21, 22, 26, 27, 31, 32, 51, 60.) engraved on wood, and also by having many of the abbreviations of the first edition set down at full length. The latter circumstance, as also that several of the orthographical errors of the 1st edition are corrected herein, prove that this edition is really later than the other. Koning explains the introduction of the wood-blocks by the theft committed in Koster's establishment between the 1st and 2nd editions. As to the rest more copies of this edition are known than of the other (and this also might be stated as a reason that it appeared subsequently). The following copies are known to me: in the Royal library at Paris, in the library of the Sorbonne, in the Royal library at Berlin, in the libraries of M. van Rendorp of Amsterdam (defective), of M. van Westreenen of the Hague (defective), of lord Pembroke in England, of lord Spencer (bought at Willett's sale for 315l.), of Renouard of Paris, and of Mr. Hibbert of Clapham near London (previously 1000 livr. Boze, 1600 livr. Gaignat, 1320 fr. M'Carthy). Consult *Heineken Idée*, p. 442 sq. *Koning Verhandelng*, 134 sq. (in the French translation 73 sq.) *Dibdin's Bibl. Spenc.* VII. 186.

21578 — 2. *In Dutch*. *Spegel onser behoudenis*. Without place or date. fol. with woodcuts.

Ottley and Koning have proved against Heineken and others, that this Dutch edition is earlier than the Latin, which is in the clearest manner evident from this circumstance, that the lines with which the woodcuts are encircled, appear entire and uninjured in the Dutch edition, whereas in the Latin edition they are damaged and have breaks. The text of this first Dutch

edition was already printed with metal types, and certainly after the woodcuts. On the whole there are 62 leaves in 5 layers, printed only on one side, 4 of which contain the prologue and table of contents, and 58 the text with the woodcuts. The 1st leaf is blank on the *folio recto*, and the prologue begins on the reverse, and fills the first 3 leaves: the table of contents follows on the 4th leaf. The work itself begins on the 5th leaf with a woodcut, and underneath it a Dutch explanation: but besides this there is also on the outer margin of each woodcut a short Latin inscription. The text under the 1st woodcut (leaf 5) begins,

Lucifers val

*Ier begint die spiegel der.
menschliker behoudenis. O
ec machi daer in sien dat hi.*

Of this edition only two defective copies at Haarlem are known with certainty (in the Town-house and in the Public Library); the painter, J. van Campen, formerly possessed a 3rd copy, which was complete, and this is said to have been bought by Peter I. and to have gone to St. Petersburg.

Consult *Heineken Idée génér.* 450 sq. *Koning Verhandelng*, 128 sq. (in the French translation 68 sq.) *Meermanns Orig. typ.* 117 sq.

21579 — — Without place or date. fol. with woodcuts.

The 2nd Dutch edition, entirely agreeing with the preceding in its interior arrangement, but printed in a new type and somewhat larger, but in other respects perfectly similar to that in which the two Latin editions of the *Speculum* are printed. The lines are more even than in the first edition, and the orthography is altered and corrected in many places. 62 leaves in 5 layers, printed only on one side, 4 of which contain the prologue and list of chapters, and 58 the text with the woodcuts. Leaf 1^a is blank. The prologue begins in leaf 1^b, the 1st line of which is, *Dit is die ploghe vand' speghel onser behoudenis*. It occupies the first 3 leaves, and has 34 lines in each page. The list of chapters follows in leaf 4 in 32 lines, the first of which is, *Dit is die tafel vanden capitelen*. The work itself begins in leaf 5 in the same manner as in the 1st edition; but the text under the 1st woodcut in this edition commences thus:

Lucifers val

*Ier beghint dat speghel der.
menscheliker behoudenis. O
ec mach hi daer in sien dat hi.*

The text ends in leaf 60 with the line, *Psalmg MXLV Act iij Matheg XXI.*

The last 2 leaves contain woodcuts. The 49th and 60th leaves are printed in a smaller character than the rest.

The following copies of this edition are known: in the libraries at Horn in Holland and at Geneva (both defective), of M. Enschede of Haarlem, of lord Spencer (previously, Crevenna 310 fl., and Willett 223l.), and of lord Pembroke, and the copies that formerly belonged to Meermann, Limborch of the Hague, and Rendorp of Amsterdam. Consult *Meermann's Orig. typ.* 120 sq. *Heineken Idée gñer.* 455 sq. *Koning Verhandelng.* 130 sq. (in the French translation 70 sq.). *Dibdin Bibl. Spenc.* IV. 551 sq. (where lord Spencer's copy is erroneously stated as of the 1st edition).

21580 — Culenburch, by my iohan veldener, 1483. 4°. with woodcuts.

150 leaves, with the signatures *a-t*. It begins with a woodcut of the crucifixion, underneath which is Veldener's symbol. Then follow the prologue and list of chapters. The woodcuts are from the same plates which had served for the two preceding editions, and only cut in two in the middle (which is groundlessly doubted by Dibdin, *Bibl. Spenc.* VII. 186). The copies are of two sorts; some of 150 leaves (which are enlarged with 12 new woodcuts and 3 chapters of text), with the colophon, *Dit boeck is volmaect in die goede stede van culenburch etc.*, some without this augmentation, and with the colophon, *De Spiegel onser behoudnisse: van Culemburch by my Johan Veldener etc.*

21581 — 3. German. Speculum humanæ salvationis. Ein spiegel menschlicher behalttnuss (Latin and German). Without place or date. (*Augsb., Gth. Zainer*, about 1472). fol.

269 leaves with 192 woodcuts, without signatures, catchwords, and pagination. The *Spec. hum. salv.* is here blended with the *Spec. S. Mariæ* in such a manner, that after a chapter of the one a chapter of the other constantly follows. The work begins in leaf 1^r, *Incipit prohemium libri sequentis*, and the 1st chapter of the *Spec. hum. salv.* commences in leaf 9^b. The book ends on the reverse of the last leaf with the line, *vir bñdicts puto quasi minimo monacho*. The probable editor and author of the German translation was the monk John of St. Ulrich and Afra at Augsburg. Consult *Braun Notitia*, I. 37. *Pansaer's Deutsche Ann.* I. 6 sq. *Dibdin's Bibl. Spenc.* IV. 9 sq. *Heineken Idée*, p. 464. The same woodcuts are also to be found in the *Menschenspiegel*. *Augsb., Ant. Sorg*, 1476. fol. 161 leaves.

21582^a — — Das ist der spiegel der menschen behalttnis mit den ewangelien vnd mit epistelen nach der zyt des iares. Without place or date. fol. with woodcuts.

226 numbered leaves and 7 unnumbered, the index, without signatures and catchwords. This edition agrees in the main with the preceding, yet it possesses some additions peculiar to itself.

21582^b — — Without place or date. fol. with woodcuts.

229 numbered leaves in 2 columns. It probably belongs to the last 10 years of the 15th century.

21583 — — Hie vahet an ein spiegel menschlicher behalttnuss, in dem geoffnet wirt d' val des mēschen vñ die mass des wid' pringēs. Without place or date. (*Augsb., Ant. Sorg*). fol. with woodcuts.

130 unnumbered leaves. It ends in the 10th line of the reverse of the last leaf with the words, *geyst ist ewigklichen gesegnot Amen*.

21584 — — Das ist der spiegel der menschen behalttnis mit den ewangelien vnd mit episteln nach der Zyt des jars. Without place or date. (*Speyer, Pt. Drach*). fol. with woodcuts.

228 numbered leaves in 2 columns. At the end is, *Deo gratias*.

21585 — — Spiegel menschlicher Behalttnisse. Bas., Bh. Richel, 1476. fol. with woodcuts.

4 and 230 unnumbered leaves in 2 columns, without signatures, catchwords, and pagination. It completely agrees with the edition of 1489.

21586 — — Dis ist der Spiegel menschlicher behalttnus mit den ewangelien vnd Epistelen durch daz ganz Jar. Augsb., Pt. Berger, 1489. fol.

A new and independent edition of the *Spec. hum. salv.* 8 unnumbered leaves and 329 numbered, in 2 columns, with 274 woodcuts. — Also, *Reutling., Mch. Greif*, 1492. fol. *Augsb., Hans Schönsperger*, 1492 or 1500. fol. — Concerning the other German translations, consult *Hagen's Grundriss*, 455.

21587 — — Spegel der mynschliken

Behaltuisse. Without place or date. fol. with woodcuts.

A faithful low Saxon translation of the upper Saxon edition. 460 leaves with 138 woodcuts. The gospels and epistles are also contained herein.

Concerning the French translation of this work, consult the article JULIEN above, No. 11002, whereto is to be joined a reference to Vanpraet's first *Catal. des livres impr. sur vélin*, T. I. p. 46 sq.

Brienne possessed an impression of the woodcuts of the *Speculum* in 33 leaves in fol. without text, signatures, and pagination. On every leaf (with the exception of the last) there are 4 figures, which in the execution mostly resemble those of the French translation. The MS. text, added thereto, is composed partly in Latin and partly in German. The work was bound up with a MS. written in 1344, *Compilatio librorum historiarum totius biblie*, and was sold for 700 fr.

21596 SPENCE, Jos. Polymetis, or an inquiry concerning the agreement between the works of the Roman poets and the remains of the

ancient artists. Lond. 1747. fol. with 41 plates.

The first edition, and the most sought after in England, where it produces from 6 to 7 guineas. Also, Lond. 1755. fol. and *ib.* 1774. fol. In German by Jos. Burkard and Ant. Hofstätter, *Wien*, 1774-76. 8°. 2 vols. (1 d. 16 gr.) There is also an abridgment by N. Tindal, *Lond.* 1765. 8°. Spence's object (according to Lessing's opinion) was to explain the Roman poets from the works of ancient art, and the works of ancient art from the Roman poets. In this he has often happily succeeded; but he failed in this point, that he made every accident a designed purpose, and incorrectly attributed to the poet in every trifling point an allusion to this statue or that picture. Through this tasteless whim, his book, otherwise really useful, has become disgusting and prejudicial to the explanation of the ancient poets.

There are differences in the copies. In the title of many copies the publisher is called *Künraht*, in others *Künrath*; in some copies a page of errata is appended, which is wanting in others; the *præfatio* is printed in some in larger characters than in others, etc.

21613 — B. D. S. opera postuma (cura Jarrig Jellis). Without place, 1677. 4°. 2 parts in 1 vol. Also on large paper.

Under these two deceitful titles a more

correct impression of the *Tractatus theologico-politicus* is concealed. A French translation of the same work (by St. Glain) appeared under the titles, *La clef du sanctuaire. Leyden, 1678. 12°. The first 3 stanzas only are contained in the *Valorose prove degli arcibravi Paladini*. Fir. 1597. 4°. Separately also, *Trevigi, Zanotti*, 1601. 4°. *Ven. - 21652 — stanze del poeta Sciarra Fiorentino sopra la rabbia di Maccone. Testo di lingua recato a buona lezione da Jac. Morelli. Bassano, Remondini, 1806. 8°.

Of this neat edition, carefully collated with the earlier texts, there are 3 copies on vellum, which the Royal library at Paris, Poggiali, and lord Spencer possess.

- 21653 — stanze del poeta Sciarra Fiorentino sopra la rabbia di Maccone. Testo di lingua recato a buona lezione dall' abb. Jac. Morelli. Costantinopoli, 1550 (*Par., Didot*, 1809).—Il lamento di Cecco da Varlungo da Fr. Baldovini. L'anno secolare della morte di Cecco. (*Par., Didot*, 1809). 8°. 2 parts in 1 vol.

Of this mere reprint of Morelli's text, which the Paris bookseller Renouard prepared, only 12 copies were struck off, all on vellum. The re-impression of Baldovini was done, quite superfluously, after the richly furnished Florence edition of 1755.

Also on large paper.—A complete collection of state-trials and proceedings for high-treason and other crimes and misdemeanors, from the earliest period to the year 1783, compiled by T. B. Howell, and continued from the year 1783 by Th. Jones Howell. Lond. . . . large 8°.

Each vol. of Howell's collection cost 1l. 11s. 6d. The 22d vol. (1816) is the first of the continuation, and goes as far as 1794. The earlier series up to vol. 21 carries the work to the same period, which the folio edition by Hargrave embraces; but it is more complete than the latter.—*Cobbett's Collection of state-trials*. Lond. 1806-10. 8°. 8 vols. (121. 12s.)

STATELLA, see *AMICO*.

- 21657 STATIUS, Publ. Papinius. 1. *Opera*. Thebais et Achilleis. Without place or date. fol.

This edition, somewhat clumsily printed with a rather crude and unusual Roman type (in which the *i* without a dot and the *Q* are characteristic), is of the greatest rarity, although the text does not give proof of peculiar accuracy. 175 leaves, without signatures, catchwords, and numbering of the leaves, with 37 lines in the *Thebais*, and 36 in the *Achilleis*. Leaf 1^a begins without any particular superscription with a notice respecting the poet, and with prefatory observations on the *Achilleis*. These observations are furnished with printed marginal notes which could not have been extant before 1477, from which an accidental determination as to the age of this typographical production may be deduced. After this preliminary matter on 8 leaves follows a blank leaf, and then 11 leaves of similar observations on the *Thebais*. The *Thebais* begins in leaf 20^a after an introduction of 12 verses, *Raternas acies, alternaq; regna profanis*. This poem ends in leaf 157^b; *Occidet & meriti post me referentur honores*. Then follow 2 blank leaves. The *Achilleis*, which fills 16 leaves, begins in leaf 160^a thus, *Agnanimū eacidz, formidatāq; tonantī*, and ends in leaf 175^b with the verse, *Et meminī meminisse iuvat scil cetera mator*. This description is ac-

according to lord Spencer's copy in *Dibdin's Bibl. Spencer.*, II. 366 sq.

Brunet takes the description of what was formerly Vallière's copy (*Cat. Vallière*, II. 109.) as the basis, and numbers 175 leaves, in which he does not reckon the 3 blank leaves. At the same time both the descriptions certainly apply to one and the same edition, only with this difference, that in Vallière's copy the 8 leaves of observations to the *Achilleis* are not bound up at the beginning of the entire vol., but immediately before the *Achilleis*.

- 21658 — Thebais et Achilleis. Without place or date (about 1470). fol.

This edition is older than the preceding. 105 leaves with 36 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1b begins with 12 verses, and the *Thebais* begins in leaf 2a with this superscription:

P. PAPINII. STATIL. SVRCVLI. THEBAI
DOS LIBER PRIMVS INCIPIT;

It ends in leaf 139a with the line, *Deo gratias*. The *Achilleis*, which fills 26 leaves, begins in leaf 140a after the 12 verses prefixed, and ends in leaf 165a; *Aura silet. puppis currans ad litora uenit*. This edition (described in *Dibdin's Bibl. Spenc.* II. 368.) appears to have been printed from a different MS. than the preceding.

- 21659 — Thebaidos libri XII, cum interpretatione Placidi Lactantii. Achilleidos libri II cum recollectis traditis a Fr. Maturantio (s. Mataracio). Sylvarum libri V cum commentario Domitii Calderini. Without place or date. fol.

The subscription, *Romæ, calendis sextilibus* 1475, refers not to the printing, as Orlandi, Maittaire, and others thought, but to the composition of the commentary by Calderinus. The edition itself was only printed about 1480 according to Crevenna, but more probably, according to Brunet, about 1490. The *Thebais* has the signatures a-g, the *Achilleis* and the *Sylvæ* the signatures A-L.

- 21660 — Thebais, cum Placidi Lactantii interpretatione. Achilleis cum recollectis Fr. Mataracii. Sylvæ cum commentario Domitii Calderini. Domitii commentarius in Sappho Ovidii etc. Ven., Octav. Scotus, 4 non. Dec. 1483. fol.

230 unnumbered leaves (the 1st blank), with the signatures A-T and a-n. The first general impression of his entire

works, but which appears to have nothing peculiar in the text. The *Sylvæ* at least are printed after the Roman edition of 1475.

- 21661 — opera. Mediol., Ant. Zarus, 1486. fol.

Mentioned by *Panser*, II. 53, from Saxe.

- 21662 — opera cum iisdem commentariis. Ven., Jac. de Paganinis, 24 Dec. 1490. fol.

A reprint of the edition of 1483, with the signatures a-q and A-N.

Quoted from the catalogue of Ant. Zatta (*Ven.* 1791. 8°. p. 269.)

- 21664 — sylvæ cum Domitii commentariis. Thebais cum Lactantii commentariis. Achilleis cum Maturantii commentariis. Ven., Bm. de Zanis, 15 Mart. 1494. fol.

A reprint of the earlier Venetian edition, yet with corrections by Avancius. Consult *Meusel's Litt. bibliogr. Magasin* III. 168.

- 21665 — sylvæ cum Domitii commentariis et Avancii sui emendationibus. Thebais cum Lactantii commentariis. Achilleis cum Mataratii commentariis. Domitii aliarum annotationes. Ven., J. Pt. de Quarenghi, 15 Jan. 1498. fol.

- 21666 — sylvarum libri V. Thebaidos libri XII. Achilleidos II. Ven., Aldus, m. Aug. 1502. 8°.

295 unnumbered leaves, 255 of which contain *Statius*, and 40 an appendix, *Orthographia et flexus dictionum græcarum*. Besides the colophon of the month of August at the end of the *Achilleis* (leaf 255a), is to be found in leaf 235a a second colophon of the month of November at the end of the *Thebais*. There is a copy on vellum in the British museum (formerly consul Smith's and the king of England's). A physician at Verona possessed a second in 1772. In this edition the corrections of Avancius (who seems to have superintended it), together with several others, are received into the text. In the *Sylvæ* no MSS. have been made use of; but this appears to have been the case in the *Thebais*.

- 21667 — sylvæ cum Domitii commentariis etc. (as in No. 21665.) Ven., Pt. de Quarenghi, 9 Aug. 1508. fol.

- 21668 — sylvarum libri V. Achil-

leidos libri XII. Thebaidos libri II. Orthographia et flexus dictionum græcarum omnium apud Statium cum accentib. et generib. ex variis utriusque linguæ authoribus. Ven., Aldus et And. Asulanus, m. Jan. 1519. 8°.

294 numbered leaves, and 2 leaves, colophon and anchor. A new revision of the text of 1502, but somewhat hastily, and sometimes unhappily done; also without the use of MSS.

21669 — sylvarum libri V. Thebaidos libri XII. Achilleidos libri II. Par., Sim. Colinaeus, 1530. 8°.

263 numbered and 36 unnumbered leaves (*Orthographia et flexus dictionum*.) A reprint of the Aldine.

21670 — sylvarum libri V. Thebaidos libri XII. Achilleidos libri II. Orthographia et flexus dictionum græcarum omnium apud Statium. Bas., H. Petrus, m. Mart. 1531. 8°.

306 numbered and 2 unnumbered leaves. A reprint of the Aldine.

21671 — (the same title). Bas., H. Petrus, m. Aug. 1541. 8°.

8 leaves of preliminary matter (the 8th blank), 606 pages, and 1 leaf with the colophon. A reprint of the Aldine.

21672 — sylvar. libri V. Achill. libri XII. Thebaid. libri II. Lugd., Seb. Gryphius, 1547. 12°. Also, ib., hered. Seb. Gryphii, 1559. 12°.

21673 — opera quæ extant. J. Bernartius ad libros vett. recensuit et scholiis illustravit. Antw., ex off. Plantin., 1595. 8°. J. Bernartii commentarius ad Statium. ib., ex off. Plant., 1599. 8°.

The text of the 2nd Aldine, with circumspect alterations from MSS. But Bernart's commentary, which is frequently wanting in the copies, is neither very important, nor free from the reproach of plagiarism.

21674 — (the title as in No. 21672.) Without place (*Lugd.*), Ant. Candidus, 1598. 12°.

Bernart's text.

21675 — opera quæ extant. Placidi Lactantii in Thebaida et Achilleida commentarius. Ex biblioth. Fr. Pithœi. Collatis MSS. veteribus.

que exemplaribus recensuit, partim nunc primum edidit Fr. Tiliobroga. Adjectis variarum lectionum observationibus indiceque uberrimo. Par., Hadr. Perier, 1600. 4°. Also on large paper.

4 leaves of preliminary matter, 115 and 536 pages, text, 6 leaves, index; 116 pages, *Commentarius Domitii*, and 1 leaf, errata and printer's symbol. In the title of some copies is to be found Lindenbrog, the editor's real name, instead of Tiliobroga; and Antwerp or Geneva instead of Paris. Only the Venetian edition of 1494 was made use of in the *Sylva*, and 3 MSS. in the *Thebais*, and Lactantius's commentary on the *Achilleis* is here printed for the first time from a MS. Lindenbrog has only made a few alterations in the text.

21676 — opera ex rec. et cum scholiis J. Bernartii. Genevæ, 1605. 16°.

21677 — opera quæ extant. J. Bernartius ad libros vett. recensuit et scholiis illustravit. Antw., Mt. Nucius, 1607. 8°.

510 pages, text, and 191 pages, scholia.

21678 — opera, quæ extant, omnia, ad fidem antiquissimor. per Galliam, Angliam et Italiam codicum diligenter correctæ, et argumentis, quæ commentarii loco esse possunt, illustrata. Ex bibliotheca J. Jac. Grasseri. Arg., Laz. Zetzner, 1609. 12°. 575 pages. Also, Antw., Csp. Bellerus, 1613. 12°.

Without any notes. Grasserus seems to have made use of MSS. only in the *Thebais*. His construction of the text is not without ability.

21679 — opera. Janus Csp. Gevartius recensuit et Papinianarum lectionum libris V. illustravit. LB., Jac. Marcus, 1616. 8°.

Aldus's text, happily corrected from MSS. and conjecture, forms the basis. In his *Elect.*, Par. 1619. 4°. Gevartius has handled afresh much that is touched upon here.

21680 — opera, cum observatt. ac cum commentariis tam veterum quam recentiorum interpretum. Emericus Cruceus recensuit et novo commentario Statii sylvas illustravit. Cum indicibus locupletissimis. Par., Th. Blaise, 1618. 4°.

4 leaves of preliminary matter, 741 pages

(*Thebais* and *Achilleis*), 588 pages (*Sylva*), 6 leaves, index and errata, and 112 pages, commentary on the *Sylva*. The text of Gevartius even to the repetition of evident misprints. Cruceus's own commentary is without critical ability, and contains much that is irrelevant and unimportant; yet the occasional simple conception of what is right cannot be denied to belong to it, and the edition has the merit of containing the other old commentaries tolerably complete.

21681 — opera. Amst., Jansson, 1624 or 30. 24°.

This edition, supposed to be superintended by Dn. Heinsius, contains the text of Gevartius, but sometimes corrected from MSS.

21682 — opera ex rec. et cum notis J. F. Gronovii. Amst., L. Elzevir, 1653. 24°.

The text of the preceding, somewhat hastily corrected certainly, yet with great acuteness, and from good materials.

21683 — opera cum notis Fr. Guyeti, J. Peyraredi et aliorum, opera Mch. de Marolles, cum ejusd. interpretatione gallica. Par., Seb. Huré, 1658. 8°. 3 voll.

Nothing but the learned notes of Peyraredi and Guyet makes this edition of any value.

21684 — quæ exstant. Csp. Barthius recensuit et animadversionibus locupletissimis illustravit: inspersis ad Thebaida et Achilleida commentariis ac glossis veterum, hactenus bonam partem ineditis, et scholiaste Lutatio multis locis corruptis castigato. Ad auctoritatem et opem manuscriptorum exemplarium. Cum quatuor indicibus. Cygnæ, ex off. Melch. Göpneri, 1664. 4°. 3 parts in 4 vols.

The 3rd part may be divided into 2 vols. at p. 945. Ch. Daum superintended this edition after Barth's death. Gronovius's text, altered in a few places, with a commentary full of unarranged learning and reading, and not of sufficient real benefit for the explanation of the poet. The printing and paper are rather unsightly.

21685 — sylvarum libri V. Thebaidos libri XII. Achilleidos libri II. notis selectissimis in sylvarum libros Domitii, Morelli, Bernartii, Gevartii, Crucei, Barthii, J. F. Gronovii diatribe. In Thebaidos

præterea Placidi Lactantii, Bernartii etc. Quibus in Achilleidos accedunt Maturantii, Britannici. Accuratissime illustrati a J. Veenhusen. LB., ex off. Hackiana, 1671. 8°.

This edition is one of the rarest and best of the series, *cum notis variorum*. It has nothing of its own, and Gronovius's text is repeated even with the misprints.

21686 — opera. Interpretatione et notis illustravit Cl. Beraldus, in usum Delphini. Par., Roulland, 1685. 4°. 2 voll.

One of the worst editions in *usum Delphini*, in intrinsic value, yet the rarest of this series next to *Ciceronis Opp. philos.*, sold in France as high as 580 fr., and in England as 39l. The cause of this scarcity, which Dibdin without any proof ascribes to a fire, was perhaps a deficiency in the demand, in consequence of which a great part of the impression might have been sold for waste paper. The 1st vol. (*Thebais*) contains 15 leaves of preliminary matter, 715 pages, and 1 leaf, errata; the 2nd (the remaining works), 1 title-leaf, 488 pages, text, 243 pages, index, and 1 leaf, errata.

21687 — opera, ex rec. J. F. Gronovii. Manhemii, 1782. 8°. 2 voll. (20 gr.)

21688 — opera ad opt. edit. collata. Bip. 1785. 8°. (18 gr.)

21689 — carmina. Edidit Fd. Hand. T. I. Sylvæ. Lps., Goeschen, 1817. 8°. (2 d. 12 gr.)

A new recension from MSS. and old editions, with a very rich exegetical apparatus. Reviewed by Gf. Hermann in the *Leips. Lit. Zeit.* 1817. Nos. 267 and 268. That he only obtained a very faulty collation of the Breslau MS., is proved in a Breslau programma of 1818.

21690 — carmina ex antiquis libris correctâ et criticis annotat. illustrata. T. I. Lond. 1817. 8°. (12s., on fine paper 15s.)

Announced in 4 vols., and containing a selection from the notes of the earlier editors (and of Hand's).

21691 — 2. *Sylvæ*. Without place or date. 4°.

40 leaves (the last blank), with 35 lines, and the signatures A-H, which however appear to have been arbitrarily printed afterwards. It begins;

P. PAPINII STATII SYRVCULI SILVA
RVM LIBER PRIMVS
PROOEMIUM AD STELLAM.

The last line is, *P. Papinii Statii Sylvas Liber Vltimus*. Described in *Fossi*, II. 616, and Crevenna's 2nd catalogue, T. III. P. I. p. 159. This description accords so closely with the impression in the *Catullus* of 1472, that those copies might have been taken for parts of this *Catullus*, if 5 other lines had not followed the lines above-quoted in these latter copies.

The *Sylvas* are also printed with the following editions of *Catullus*; (*Ven.*), *Vindelin. de Spira*, 1472. large 4°. *Parma*, *Corallus*, 2 cal. Sept. 1473. large 4°. *Ven.*, *J. de Colonia*, 1475. fol. *Vincent.*, *J. Renensis*, 1481. fol. As they are also sometimes to be met with by themselves, care must be taken not to quote them as distinct undated editions of Statius.

- 21692 — *ἐπιμνησθῆναι*. Hoc volumine Domitius inseruit. Sylvarum Statii Papinii libros quinq; a se emendatos; Commentarios: quos in Sylvas composuit. Commentarios in Sappho Ovidii quos edidit. Propertii loca obscuriora a se elucubrata. Particulam ex tertio libro suarum observationum: ubi nonnulla explicata sunt: quæ ad linguæ latinæ rationem magnopere pertinent: totum opus quanti laboris fuerit ex rebus quas in eo reperies: facile cognoscas. Romæ, Arn. Pannartz, idib. Sextilibus 1475. small fol.

Leaf 1^b begins with the above title in 11 lines. In leaves 2^a-4^a follows a letter of Domitius (Calderinus) to Agst. Mafeus; in leaf 4^b is a poem by the same. The *Sylvas* begin in leaf 5^a, and the 1st line is, *EX EMENDATIONE ET INTERPRE.* They end in leaf 138^b with *Papinii vita*. Leaf 139 is blank. In leaf 140^a follows the commentary to Ovid's *Sappho*, and the 1st line is, *AD FRANCISCVM ARAGONIVM*. It ends in leaf 153^a, in which page the *elucubratio in quadam Propertii loca* also commences. Leaf 163^b contains the end of this and the beginning of *Domitii epilogus et postscriptus de observationibus*. Leaf 170^b is the printer's colophon, and 171^a is the register. 171 leaves in the whole (not 169 or 170), with an unequal number of lines (35 in the verses), without signatures, and numbering of the leaves. The Venetian edition of 1472 forms the basis, yet with many corrections, partly from MSS. and partly from conjecture.—The *Commentarii in sylvas Statii* (without the poet's text), with the other writings of Calderinus to be found in the above edition, appeared

VOL. IV.

separately, *Bristæ, H. de Colonia*, 8 Jun. 1476. 4°. Gothic letter.

- 21693 — *Sylvas*. Flor., ap. S. Jacobum de Ripoli, 1480. small fol.

A very scarce edition, superintended by Ben. Fontius (*Fossi*, T. III. præf. p. XV.), 60 leaves (the last blank) with 35 lines, and the signatures a-g. It begins in leaf 1^b, *PAPINII STATII NEAPOLITANI SYLVARVM (sic) LIBER. PRIMVS. AD. STELLAM*. The text of the *Sylvas* begins in leaf 2^a. It has been sometimes erroneously stated as an Italian translation.

- 21694 — *sylvarum libri V*. Without place or date (*Par.*, about 1498). 4°.

- 21695 — *sylvarum libri V. ad archetypum Aldi Manutii quam emendatissime impressi*. Viennæ, Hi. Vietor, 1515. 4°.

With the signatures A-M.

- 21696 — *sylvarum libri V. a Domitio Calderino enarrati et a J. Vacceo recogniti*. Par., J. Gourmont, 1518. 4°.

- 21697 — *sylvarum libri V. et duo Achilleidos, cum notis marginalibus Th. Stephens. Chr., Th. Buck*, 1651. 8°.

A very scarce edition even in England, and said to be not without critical merit.

- 21698 — *sylvarum libri V. ex vetustis exemplaribus recensuit et notas atque emendationes adjecit Jer. Marklandus*. Lond., Bowyer, 1728. large 4°.

A new and excellent recension from old editions and from conjecture; MSS. were not at the editor's command. It has been shown by Hand, with a full acknowledgment of the merit of this British critic, who ranks next to Bentley in genius and learning, that he has been unjustly accused of being too arbitrary. There are copies on very large paper which are very scarce (171 fr. M^cCarthy).

- 21699 — 3. *Thebais*. Thebaidos libri XII ex rec. Bonini Mombratii. Without place or date (*Mediol.*, about 1478). large 4°.—Placidi Lactantii interpretatio in XII libros Thebaidos Statii. Without place or date (*Mediol.*, about 1478). large 4°.

147 leaves, with the signatures a-t, and 34 lines in a full page. Leaf 1^b begins

with 32 Latin verses by Mombrilius to Bm. Chalcus, and the *Thebais* itself commences in leaf 2^a. At the end are 4 verses by Mombrilius to Chalcus, which are super-scribed, *Bon. Mombr. M. D. Barth. Calco. S. D.*, and end, *Quam q; sis nostri Baritholomae memor.*—The commentary of Lactantius has the signatures *a-l*, and 34 lines in a full page; it begins in leaf 1^a with 12 verses by Mombrilius to the reader, and ends on the reverse of the last leaf with the word *finis*. Both vols. are very seldom found together.—The *Thebais cum commentario*, Ven. 1480. fol., quoted by Panzer, III. 160 from Maillaire, is not elsewhere confirmed.

21700 — *Thebais* (curante Aikin). Warringtoniæ, Gu. Eyres, 1778. 12°. 2 voll. (7s. 6d.).

This neat edition is cited by Dibdin and Moss as an edition of his entire works: it is very scarce in Germany.

21701 — *Thebais cum appositis italico carmine interpretat. ac notis*. Mediol. 1782. large 8°. 2 vols.

Concerning a MS. of the *Thebais*, see *Astin's Beitr.* VII. 242.

21702 — *Achilleis*. Without place or date (*Ven.*), Nicolao Trono principe Venetiis, 1472. 4°.

24 leaves with 24 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a begins with the line *PAPINII STATII SVRSVLI ACHILLEIS*. There is no break between the two books of this poem. In leaf 24^a is the last line, *Aura scil&. puppis currens ad littora venit*; on the reverse is a colophon in 7 lines in small capitals. The types have a resemblance to those of J. de Colonia.

21703 — *Achilleis*. Ferrariæ, Andr. Gallus, 1472. 4°.

Extremely scarce, and still doubted by Dibdin, *Bibl. Spenc.* II. 369, yet described by him in *Ed. Althorp.* II. 321 sq. 22 leaves with 27 lines, without signatures, catchwords, and pagination. Leaf 1^a begins with the line, *PVBLII PAPINII STATII ACHILLEIDOS*. Leaf 22^b ends with 4 verses, *Impressi Andreas hoc opus etc.*, the two last lines of which are,

Numine: perfectus cum liber iste fuit:
M. CCCC. LXXII.

21704 — *Achilleis*. Parmæ, St. Corallus, 10 cal. April. 1473. 4°.

Consult *Panzer*, II. 350. Doubted by Dibdin, *Bibl. Spenc.* II. 369 (perhaps too hastily); for it could not have been confounded with the *Sylva* printed by Corallus with *Catullus* in 1473, as this is dated 2 cal. Sept.

21705 — *Achilleis cum commentariis J. Britannici*. Brix., J. Britannicus, 21 Maji 1485. fol.

4 leaves, with the signature *a* (the 1st blank), and 24 leaves, with the signatures *a-d*. A copy on vellum in the Royal library at Paris (previously 480 fr. M^cCarthy).

21706 — *Achilleidos libri II.* Par., Alex. Aliate, 1497. 4°.

21707 — *Achilleis, industria J. Lætii*. Erphordiæ, 1510. 4°.

This edition is mentioned in *Bibl. Petav. et Mansart. Hays*, 1722. 8°. p. 279.

21708 — *Achilleidos libri duo, item vita authoris a Pt. Crinito descripta*. Arg., ex ædib. Schurerianis, m. Junio 1515. 4°. ib., id., m. Febr. 1517. 4°.

21709 — *Achilleidos libri duo ad archetypon Aldi Manutii accurate impressi* (cura Rd. Agricolæ). Viennæ, Hi. Vietor, m. Majo 1515. 4°.

An edition of the *Achilleis* by J. Mitford was promised in the *Classical Journal* in 1812.

21710 — 5. *Versiones*. La Tebaide ridotta da Erasmo di Valvasone in ottava rima. Ven., Franceschi, 1570. 4°. Tebaide tradotta in verso scioltto da Giacinto Nini. Roma, 1630. 8°. Tebaide (trad.) di Selvaggio Porpora (Corn. Benti-voglio). Roma, Salvioni, 1729. large 4°.

The *Thebais* after Bentivoglio's translation is also in the *Corpus poetar. latior.* Mediol. T. 1, 2. *Selvo trad. da un pastore Arcade* (Fr. Mar. Biacca). ib. T. 3. *Achilleide trad. da un accademico Quirino* (Orazio Bianchi). ib. T. 4.

21711 — *L'Achilléide trad. par P. Carneau*. Chartres, Peigné, 1624. 12°. Œuvres en latin et en franç. par (Mch.) de Marolles. Par., Huré, 1658. 8°. 3 voll. *L'Achilleide*, traduction en vers par M. D. M. A. D. V. (Mch. de Marolles). Par., Langlois, 1678. 4°. La Thébaide, traduction nouvelle par M. P. L. Cornilliole. Par. 1783. 12°. 3 voll. *L'Achilléide et les Sylves*, trad. par le même. raïne, 1802. 12°. 2 voll. Œuvres de Stace, trad. par Cormilille. Nouv. éd. Par. 1820. 12°. 5 voll. L'Achilleide, imitation en vers du poëme de Stace, par Cournand. Par., Buisson, an 8 (1800). 12°. Les Sylves, traduites d'après les corrections de J. Markland, avec le texte et des notes, par M. S. Delatour. Par., an XI (1803). 8°. (6 fr.) Hypsipyle, épisode extrait de la Thébaïde de Stace, suivi de l'épithalame de Stella et de Violantilla du même poëte, trad. par L. Charpentier de Longchamps. Par. 1807. 8°.

Corneille also gave a poetical translation of the first two books of the *Thebais*, from which *Ménage* quotes a page consisting of 36 verses. As yet however no copy has been discovered, and it must be assumed that Corneille suppressed it himself: see *Barbier Examen crit. des dictionn. histor.* T. I. p. 219.

21712 — Auswahl einiger Sylven des Statius in gebundner u. ungebundner Uebersetzung (von G. A. von Breitenbach). Lpz. 1817. 8°. (7 gr.)

21713 — an essay upon Statius, or five books of the Thebais of Statius translated into English verse by Th. Stephens, Lond., Royston, 1648. 8°. Achilleis translated into English in five books, to each of which are subjoined annotations by Rb. Howard. Lond. 1660. 8°. The Thebaid translated into English verse, with notes and observations (by W. Lillington Lewis). Oxf. 1767 or 73. 8°. 2 vols. (10s. 6d.)

21714 — Triodon of Dryling van Heldendichten, als 6 Boecken P. Pap. Statii van de Thebaensche, 5 van de Nederlandsche Oorlogen en 3 Gesangen van P. Mauritz Daden, door Lamb. van Bos. Amst. 1647. 12°.

21715 — 6. *Illustrantia*. J. Mlch. Lochmann pr. quo pauca ad defendendum et emendandum Statium præfatur. Coburgi, 1774. 4°. J. Barclaji Comment. in Statii The-

baidos libros IV. Pontimussi, 1601. 8°. In Statii sylvas Fed. Morelli commentationes et conjectanea. Lutet., Cl. Morellus, 1602. 4°. J. Cp. Dommerichii pr. ad Statii Achilleida ex membranais bibliothecæ suæ anecdota. Wolfenb. 1758. 4°. J. Gli. Bidermanni pr. de virga medica ad Thebaid. L. II. v. 11. Freybergæ, 1750. 4°. F. A. Menke Obs. crit. in Statii Achilleida et alios passim scriptores. Gött., Vandenhoeck, 1814. 4°. (6 gr.)

21716 — J. F. Gronovii in Statii sylvar. libros V. diatribe. Nova editio ab ipso auctore correctæ, interpolata, aucta. Accedunt Emerici Crucei antidiatribe, Gronovii elenchus antidiatribes, et Crucei muscarius. Edid. et annotatt. adjec. Fd. Hand. Lps., G. Fleischer, 1812. 8°. 2 voll. (5 d.)

Gronovii Diatr. first appeared, *Hag. Com.* 1627. 8°. *Crucei Antidiatr.*, Par. 1639. 12°. *Gronovii Elenchus*, Par. 1640. 8°. and *Crucei Muscarius*, Par. 1640. 8°. Gronovius's *Diatrise* is here printed from a copy corrected and enlarged by the author himself.

21717 STATIUS, Achilles. *Inlustrium virorum, ut exstant in urbe, expressi vultus (cum præf. Achill. Statii)*. Romæ, formis Ant. Lafrerii, 1569. fol.

Containing 52 good plates by Agst. Venetus. A new impression, *Patau.* 1648. fol.

21718 STATO presente degli antichi monumenti Siciliani (da And. Pignonati). Without place, 1767. fol. with plates.

21719 STATUE. Delle antiche statue Greche e Romane, che nell' antisala della libreria di S. Marco e in altri luoghi pubblici di Venezia si trovano (da Ant. Mar., Girolamo, ed Alessandro Zanetti). Ven. 1740-43. large fol. 2 voll.

Well executed certainly as a work of art, but archeologically inaccurate, and not to be depended upon. In most of the statues the reparation of single parts and members is not given. Yet the work is tolerably scarce, and in Venice itself has risen to

20 zechins, since the plates were bought in England, where a new impression has been prepared under the title, *Ancient statues, Greek and Roman*. Lond. 1800. fol. Consult *Thiersch Reise nach Italien* I. 129.

21720 *STATUTA antiqua urbis (Romæ)*. Without place or date (*Romæ, U. Han.* about 1470). fol.

165 printed leaves, without signatures, catchwords, and pagination. The first edition and extremely scarce, divided into 4 books. Dibdin, *Bibl. Spenc.* VII. 113, is inclined to set down the printing of it as early as 1467. Consult also *Hirsching's Besch. sehenswürrd. Bibl. B. 3. Abth. 1. S. 475*. Later editions are, *Romæ*, 1519 or 80. fol. *ib.* 1590. 4°. *ib.* 1597, 1611 and 1636. fol.

21721 *STATUTA communis Brixie*. Brix., Th. Ferrandus, 3 cal. Jul. 1473. fol.

310 leaves (not 306). A very scarce edition, and prized as one of the oldest typographical productions of Brescia (the oldest is the *Virgil* of April 21, 1473).

21722 *STATUTA provincialia Ernesti*. In nova Plzna (*Pilsen in Bohemia*), 1476. 4°.

60 leaves, without signatures, catchwords, and pagination. The only known copy is in the library of the university of Prague. Consult *Ungar Neue Beytrr. zur Gesch. der Buchdr. Kunst in Böhmen* p. 12 sq. *Abhandll. einer Privatgesellschaft in Böhmen* V. 230.

21723 *STATUTA provincialia Moguntina nova*. Without place or date (*Reutlingæ*), small fol. Gothic letter.

50 leaves with 41 lines in a full page, without signatures, catchwords, and pagination. *Panser*, II. 138, 91, conjectures that it was printed by Gutenberg, and Oberlin also, in the *Annales de la vie de Gutenberg*, p. 39, attributes it to him. The Göttingen reviewer (*Langer*) of this latter work (*Gött. gel. Anseig.* 1802. p. 156.) justly contradicts it, as the types are by no means those of the *Catholicon*, but indisputably the Reutling types represented in *Braun*, T. 1. tab. 6. No. 5. The paper has no paper-mark, but a water-mark, according to which the size is folio and not quarto. Leaf 1^a line 1 is, *aTien-dät eniuersē plati clerici ac xpīfideles religiosi necnō se*. The last or 27th line of leaf 50b is, *lesimo quadringentesimo quinquagesimo primo*. (At Wolfenbüttel). A later edition, without place or date, fol.

Gothic letter, 30 and 18 numbered leaves, with the signatures *a-g*, is of no value.

21724 *STATUTA urbis Mutinæ*. Mutinæ, Miscominus, 1488. fol.

198 leaves, with 45 lines and signatures. A copy on vellum in the Vatican.

STATUTA ord. Carthus., see *GUIGO*.

21725 *STAUFFENBERG*. Die gantz warlich legend von dem thüren vnd strengē ouenthürlichen ritter genandt her Peter diemringer geborē von stauffenberg auss der ortenowe. Without place or date (*Strb., Mt. Schott*, about 1482). fol. Gothic letter, with 18 woodcuts.

14 leaves. The first edition of this poem, and extremely scarce; the author of it was probably Hartmann von Owe. Leaf 1^a is blank, and 1^b is a coat of arms engraved on wood. Leaf 2^a is the above title in 9 lines: the poem itself begins in the 10th line of this page, *Wer hat bescheidenheit also vil. dass er ouenthüren will*. It ends in the 15th line of leaf 14^a, *then amen offenbor*. (at Wolfenbüttel, in which copy however the 6th leaf is wanting).—Of the subsequent modernized editions, v. d. Hagen cites in the *Grundriss*, p. 91, *Strb., Jobin*, 1588. 8°. *ib.* 1589. 8°. *Magdeb., Francke*, without date. 8°.

Strasb., Bh. Jobins Erben, 1598. 8°. with woodcuts.

At Wolfenbüttel there is a copy, defective at the end.—Also, *Strb., Carolus*, without date. 8°.

21728 *STAUNTON, G.* Authentic account of Lord Macartney's em-

bassy from the King of Great Britain to the Emperor of China, in the years 1792-94. Lond. 1797. large 4°. 2 vols. with an atlas in folio of 44 plates (4l. 4s.). Also on large paper.

The first edition, and the most sought after. Lond. 1798. 4°. 2 vols. with an atlas in fol. (4l. 4s.) is less prized. A cheap edition is, Lond. 1797. 8°. 3 vols. with plates (1l. 7s.).—In French by J. Castéra. *Par. an 12* (1804). 8°. 5 vols. with an atlas in 4°. In German by J. Ch. 21734 STENDER, Gthd. F. Lettisch-deutsches u. deutsch - lett. Lexicon. Mitau, 1789. 8°. 2 voll. (1 d. 16 gr.) Lettische Grammatik. 2. Aufl. Mitau, 1783. 8°.

21735 STEPHANONIUS, Pt. Gemmæ antiquitatis sculptæ, a Pt. Stephanonio collectæ et declarationibus illustratæ. Romæ, 1627. 4°.

51 plates without text, with superscriptions only. The designs are not bad, and the book is very scarce. Count Blinow bought the Dresden copy at the second Sellisch sale (*Leipzig*, 1738.) for 14 d. 3 gr.

21736 STEPHANUS (Byzantinus) de urbibus (gr.) Ven., Aldus, m. Jan. 1502. fol.

80 unnumbered leaves. The first edition and tolerably scarce. A copy with MS. notes by Palmerius de Grentemesnil in the Royal library at Dresden.

21737 — de urbibus (græcæ). Flor., her. Ph. Juntæ, 1521. fol.

69 leaves, and 1 leaf with the lily.

21738 — de urbibus (gr.) Gu. Xylandri labore a mendis repurgatus, duobusque inventariis (uno autorum, altero rerum et verborum) auctus. Bas., Oporinus, 1568. fol.

A new recension of the text without the use of MSS.

21739 — de urbibus (gr. et lat.), quem primus Th. de Pinedo Latii jure donabat et observationibus illustrabat. His additæ præter ejusdem Stephani fragmentum collationes Jac. Gronovii cum codice Perusino, una cum gemino rerum et verborum indice ad Stephanum, et

Th. de Pinedo observationes. Amst., Jac. de Jonge, 1678 (new title 1725). fol. Also on large paper.

No MSS. were made use of further than Gronovius's collations, which are printed at the end. Pinedo's labour has very little merit in a critical point of view, and in an exegetical only the merit of industry. In this edition the fragment is admitted, which had previously appeared in 1669 and 1674 (see further below).

21740 — gentilia per epitomen, antehac de urbibus inscripta. Quæ ex MSS. codd. Palatinis ab Cl. Salmasio quondam collatis et MS. Vossiano restituit, supplevit ac latina versione et integro commentario illustravit Abr. Berkelius. Accedunt collectæ ab Jac. Gronovio variae lectt. ex codice MS. Perusino et admixtæ ejusdem notæ. LB., Dan. a Gaesbeeck, 1688. fol. Also on large paper.

This edition should be had with the preceding, the apparatus of which renders it indispensable, although it does not possess much that is peculiar to itself or good.

21741 — (the same title). LB., Haaring, 1694. fol. Also on large paper.

Certainly only a new title to the preceding edition, yet after p. 772 there are added 2 leaves of annotations, and a justification of Gronovius.

21742 — fragmentum de urbibus, depromptum ex membranæ peranti-qui codicis bibliothecæ Seguerianæ, gr. et lat., cura, interpretatione et notis Sm. Tennulii. Amst., Pt. le Grand, 1669. 4°.

21743 — genuina Stephani Byz. de urbibus et populis fragmenta. Abr. Berkelius lat. interpretationem et animadv. adjecit. Accedit Hannonis periplus et Ptolemæi Evergetæ monumentum Adulitanum. LB., Gaesbeeck, 1674. 8°.

This fragment, which is also admitted into the editions of 1678 and 1688, is a remnant of the entire work of Stephanus, of which the text still extant is only an abridgment. It is repeated in a corrected form in Montfaucon's *Catal. bibl. Coislin.* (Par. 1715. fol.), p. 281 sq. The following article is only a separate edition of a single portion of this fragment.

21744 — fragmentum de Dodone, græce cum triplici latina versione et academicis exercitatt. Jac. Gronovii. LB., Gaesbeeck, 1681. 4°.

Reprinted with augmentation of Gronovius's notes, and the addition of J. Trigrand's observations in *Gronovii Thesaur. antiq. gr.* VII. 269 sq.

21745 — Lucæ Holstenii notæ et castigatt. postumæ in Stephani Byz. *ἔθνικα*, editæ a Thdr. Ryekio. Qui Scymni Chii fragmenta hactenus non edita, item dissertationem de primis Italiæ colonis et Ænææ adventu et alia nonnulla addidit. LB., Jac. Hackius, 1684. fol.

There is no copy on large paper of this necessary appendage to the editions of 1678 and 1688. *Ultraj.* 1691. fol. and *LB.* 1692. fol. are only new titles.

21746 — J. F. Burscheri pr. quo in Stephani Byz. de Gaza narrationem inquirat. Lps. 1764. 4°. Jul. Bh. Ballenstedt pr. sistens J. Alb. Fabricii et alior. notas in Stephani ethnica. Helmst. 1774. 4°. (enlarged in Fabricii *Bibl. gr. Harl.* IV. 632 sq.)

The annotations of Sm. Bochart and Palmerius (rejected by Gronovius), see in *Bocharti Opp.* T. I. *LB.* 1692. fol. p. 791 sq. J. Gavel's notes in the *Miscell. obs. nov.* IV. 219 sq. V. 437 sq. Heringa's notes, *ibid.* T. 7-9. There are various readings to the 10th book from an important Breslau MS. in *Fr. Passow Symbola orit. e codd. MSS. Vratislaviens. deprompta.* Vratisl. 1820. 4°. p. 6 sq. *Ejusd. variae lectt. e cod. Stephani Byz. Rhedigeriano.* ib. 1824. 4°.

21772 STOBÆI, J. Collectiones sententiarum (gr., ed. Victor Trincavellus). Ven., Bm. Zanettus, m. Febr. 1535 (in the title 1536). 4°.

314 unnumbered leaves, the last of which is blank on the *folio recto*, and contains a large woodcut on the reverse. The first edition of the *Sermones*, and scarce, but rather faulty.

21773 — sententiæ ex thesauris Græcorum delectæ et in sermones sive locos communes digestæ (gr. lat.), a Cr. Gesnero in lat. sermonem traductæ (acc. Cyri Theodori dialogus de exilio amicitia, opusculum Platoni ascriptum de justo, aliud eidem ascriptum, an virtus doceri possit, lat.); Tig., Cp. Froshover, 1543. fol.

12 leaves of preliminary matter (the 12th blank), 536 numbered leaves and 21 unnumbered. The text of Trincavellus forms the basis, and is only corrected by a collation of the authors from whom *excerpta* are given by Stobæus.

21774 — the same title (accedunt eadem). In hac secunda editione, præter innumerolos locos ex vetustissimis codd. MSS. emendatos, maximum quoque passim sententiar. auctarium et integros sermones aliquot adscripsimus etc. Bas., J. Oporinus, m. Aug. 1549. fol.

10 leaves of preliminary matter, 630 pages, and 16 leaves of index. This edition is corrected and completed from a MS. of Diego Hurtado Mendoza's. A pretended edition, Tig. 1550. fol. is suspicious.

21775 — the same title (accedunt eadem). In hac tertia edit. et

menda quædam sustulimus, et elenchum authorum, qui, quoties ac ubi citentur, addidimus. Tig., Cp. Froshover, m. Aug. 1559. fol.

12 leaves of preliminary matter, 632 pages, and 15 leaves of index. A list only of the authors, from whom Stobæus made his *excerpta*, is here added.

- 21776 — eclogarum libri II., quorum prior physicas, posterior ethicas complectitur; nunc prim. græce editi; interprete Gu. Cantero. Una et G. Gemisti Plethonis de rebus Peloponnes. orationes II. (gr. lat.), eodem Gu. Cantero interprete. Accessit et alter ejusd. Plethonis libellus græcus de virtutibus (gr.). Ex biblioth. J. Sambuci. Antw., Cp. Plantinus, 1575. fol.

6 leaves of preliminary matter, 236 pages, and 1 leaf colophon and privilegium. The first edition of the eclogues, a different work from the *Sermones*. It was made from a rather faulty MS. of Sambucus, and corrected from a MS. of cardinal Sirletus.

- 21777 — loci communes sacri et profani sententiar. omnis generis ex authoribus græcis congear. per J. Stobæum et veteres in Græcia monachos Antonium et Maximum (gr. lat.): a Cr. Gesnero latinitate donati et nunc prim. in unum volumen græcis ac latinis e regione positis conjuncti. Adjecti sunt indices locor. communium duo. Ff., And. Wechel, 1581. fol.

10 leaves of preliminary matter, 962 pages, and 3 leaves index.

- 21778 — sententiæ ex thesauris græcorum delectæ et in sermones sive locos communes digestæ (gr. lat.), a Cr. Gesnero in lat. sermonem traductæ. Lugd., P. Frellon, 1608. fol.

12 leaves of preliminary matter and 15 leaves of index. A reprint of the preceding edition.

- 21779 — sententiæ ex thesauris græcorum delectæ. Cyri Theodori dialogus de amicitia exilio. Opusculum Platoni adscriptum, de justo. Aliud ejusdem, an virtus doceri possit. Huic editioni accesserunt

ejusdem J. Stobæi eclogarum physicarum et ethicarum libri II. Item loci communes sententiar., collecti per Antonium et Maximum monachos, atque ad Stobæi locos relati. (Gr. et lat.) Aureliæ Allobr., pro Fr. Fabro, 1609. fol. 3 parts in 1 vol.

The *Sermones* in this edition are probably only a new title to the preceding edition. But the eclogues are merely a reprint of Canter's edition of 1575. This edition is sought after, as it is the only one which contains both the works of Stobæus together.

- 21780 STOBÆUS, J. Eclogar. physicar. et ethicar. libri II. (gr. lat.) Ad codd. MSS. fidem suppleti et castigati, annotatione et versione lat. instructi ab Arn. Hm. L. Heeren. Gött., Vandenhoeck, 1792-1801. 8°. 2 parts in 4 vols. (4 d. 6 gr., on writing paper 5 d. 12 gr.)

A new recension after 7 MSS.

- 21781 — sermones (gr.). E MSS. codd. emendatos et auctos edidit N. Schow. Pars I. Sermo 1-27. Lps., Weidmann, 1797. 8°. (2 d. 12 gr.)

As Schow's entire apparatus for this edition, which had been begun to be printed since 1792, was destroyed in the fire of Copenhagen in 1794, it has consequently been confined to this single vol. A new recension from MSS.

- 21782 — florilegium. Ad manuscriptor. fidem emendavit et supplevit Th. Gaisford. Oxonii, 1822. 8°. 4 vols. (2l. 8s., on large paper 10l.)

316 and 78 pages.

21785 — dicta poetarum, quæ apud J. Stobæum exstant, emendata et lat. carmine reddita ab Hug. Grotio. Acc. Plutarchi et Basilii M. de usu græcor. poetar. libelli. Par., Buon., 1623. 4°.

18 leaves of preliminary matter, 200 and 564 pages. A new recension of these passages from Paris MSS. and from conjecture. Sought after and scarce.

21786 — nobiles aliquot et ad vitam recte instituendam conducentes sententiæ, ex Stobæo a Varino Camerte versæ et in locos communes redactæ (lat.) Col., J. Gymnicus, 1530. 8°.

21805 **STRABO** *de situ orbis* (gr.). Ven., Aldus et And. socer, m. Nov. 1516. fol.

14 leaves of preliminary matter, 366 pages (the last of which is erroneously numbered 348), and 1 leaf with the colophon and anchor. The first edition, but printed from a very faulty MS., and disfigured by misprints. Bd. Thyrrænus superintended the printing. Renouard has a copy on large paper.

21806 — *de situ orbis libri XVII. Græce et lat. simul jam editi: olim quidem a Guarino Veronense et Gr. Tifernate in latinum conversi, ac deinde Cr. Heresbachii opera recogniti, nunc vero ab innumeris mendis repurgati*. Bas., H. Petri, m. Aug. 1549. fol.

16 leaves of preliminary matter (the 4th blank), and 797 pages. An impression of the Aldine text with merely the correction of evident misprints by M. Hopper. The Latin translation was corrected by J. Hartung.

21807 — *rerum geographicar. libri XVII* (gr. lat.), a Gu. Xylandro recogniti ac mendis sublatis sibi restituti. *Iidem ab eodem Xylandro in sermonem lat. transcripti. Adjectæ sunt ejus annotatiunculæ*. Bas., Henricpetri, 1571. fol.

With maps engraved on wood and printed in the text. The Greek text is corrected here and there, but without MSS. and somewhat cursorily, and a new Latin translation is added, which also appeared in the same year separately and without the Greek text (see below).

21808 — *rerum geographicar. libri XVII*. (gr. lat.) Is. Casaubonus recensuit, summoque studio et diligentia, ope etiam veterum codicum, emendavit ac commentariis illustravit. Accessit et tabula, orbis totius descriptionem complectens. *Adjecta est etiam Gu. Xylandri versio, cum indicibus*. (Genev.), Eustath. Vignon, 1587. fol.

4 leaves of preliminary matter, and a map engraved on copper, and 602 pages. Then the commentary (with a separate title), 4 leaves of preliminary matter, and 223 pages. A new recension from 4 MSS. and conjecture, with good explanations. But Xylander's translation remains unaltered.

21809 — rerum geographicar. libri XVII. (gr. lat.) Is. Casaubonus recensuit, summoque studio et diligentia, ope etiam veterum codicum, emendavit ac commentariis illustravit, et secundis curis cumulate exornavit. Adjuncta est etiam Gu. Xylandri latina versio. Acc. Fed. Morelli observatiunculæ. Lut. Par., typis regiis, 1620. fol. Also on large paper.

6 leaves of preliminary matter, 843 pages, and 56 leaves of index. Then the commentary, 2 leaves of preliminary matter, 282 pages, and 4 leaves. The preceding edition amended and enlarged, and still sought after on account of its correctness and beauty.

21810 — rerum geographicar. libri XVII. (gr. lat.) Accedunt huic editioni, ad Casaubonianam III. (II.) expressæ, notæ integræ variorum. Subjiciuntur chrestomathiæ, gr. et lat. (Curante Thdr. Jansson. ab Almelooven.) Amst., Wolters, 1707. fol. 2 vols. Also on large paper.

A tolerably careful collection of the apparatus hitherto obtained, but without any thing of its own. Yet this edition is greatly sought after on account of its convenience and neatness, especially as the edition by Siebenkees is not yet finished.

21811 — rerum geographicar. libri XVII. ad fidem mstor. emendati, cum lat. Xylandri interpretatione recognita, adnotatt. et indd. (cura Oudard de Brequigny.) T. I. Par. 1763. 4°.

Nothing beyond this 1st vol. which contains the first 3 books, has appeared. The text is printed verbally after a Paris MS. even with its evident errors.

21812 — rerum geographicar. libri XVII. Græca ad optimos codd. MSS. recensuit, varietate lectionis adnotationibusque illustravit, Xylandri versionem emendavit J. Ph. Siebenkees. Lps., Weidmann, 1796–1818. 8°. 7 vols. (on writing paper 23 d. 6 gr., on Dutch paper 35 d. 20 gr.)

This edition, after the death of Siebenkees, was continued onward from the 2nd vol. by C. H. Tzschucke, and after his death from the 7th volume by F. Trg.

Friedemann. The first 6 vols. contain the text, translation, and various readings; the 7th vol. is the first of the commentary, which contains a complete collection of the previous apparatus, and something new of its own besides, and is done by Friedemann with such judicious care and copious learning, that his continuation, which has only been too long interrupted, is greatly to be desired. A *lexicon Strabonianum* will afterwards conclude the work.

21813 — rerum geographicar. libri XVII. (gr. lat.), cum variorum, præcipue Casauboni, animadvv., juxta editionem Amstelodamensem. Codicum MSS. collationem, annotatt. et tabulas geogr. adjecit Th. Falconer. Ox., typ. Clarend. 1807. fol. 2 vols. (5l., on large paper 8l.)

A reprint of Almelooven's edition, with the addition of new various readings and notes by Tyrwhitt, Toup, and Falconer. Fine, but incorrect and so unsatisfactory, that it never even contented the English themselves, and (according to *Moss's Classical bibliogr.* II. 622) has even been sold for waste paper in its own country. The *Classical Journal*, VII. 132 sq. 445 sq. contains a reply to the unfavourable notice of it that appeared in the *Edinburgh Review*.

21814 — γεωγραφικῶν βιβλία ἑπτα καὶ δέκα, ἐκδιδοῦντος καὶ διορθοῦντος Α. Κορραῖ. Par., Eberhart, ῥωμ (1815–19). 8°. 4 vols. (52 fr.) Also on large paper.

A new and good recension. The notes and the index occupy the 4th vol.

21815 — geographia, gr. Ed. stereotypa. Lps., Tauchnitz, 1819. 12°. 3 voll. (2 d. 6 gr.)

21816 — Iberia seu rerum geogr. liber III. Græcis diligenter emendatis, rerum argumentis præmissis indiceque græcitatis adjecto juvenum usibus accommodavit Cp. Gli. Groskurd. Strals., Löffler, 1819. 8°. (12 gr.) Ejusd. observatt. crit. in Strabonis Iberiam s. librum III. ib., id., 1819. 8°. (1 d. 6 gr.)

21817 — geographia, lat., interpretibus Guarino Veronense et Gregorio Tiphernate. Romæ, Cr. Schweinheim et Arn. Pannartz, without date (1469 or 1470). large fol.

240 leaves with 46 lines, without signatures, catchwords, and numbering of the

leaves. A letter of Andreas Alerensis, the editor, to pope Paul II. fills the first 2 leaves. The proemium of the work itself begins in leaf 3^d, and the last leaf contains a table of contents, with the colophon, *Aspicio illustris lector etc.* Of this first edition of this translation, the first 10 books of which were done by Guarinus and the remaining 7 by Gregorius, only 275 copies were printed.

21818 — eadem versio. (Ven.), Vindelinius de Spira, 1472. fol.

A reprint of the preceding edition. 217 leaves with 51 lines, without signatures, catchwords, and numbering of the leaves. It begins likewise with the letter to Paul II. and ends after the register with a colophon of 7 verses, the last of which is, *Impressor digitis uidelicet*.

21819 — eadem versio. Romæ, Schweinhelm et Pannartz, 12 Feb. 1473. fol.

235 leaves with 46 lines, without signatures, catchwords, and numbering of the leaves. Merely a reprint of the first Roman edition, yet the letter to Paul II. is wanting in it, and also the table of contents at the end.

21820 — eadem versio. (Tarvisii), J. Vercellensis, 7 cal. Sept. 1480. fol.

318 leaves with 39 lines, and the signatures a-Q.

21821 — eadem versio. (Ven.), J. Vercellensis, 24 Apr. 1494. fol.

21822 — eadem versio. Ven., Bm. de Zanis, 14 Jan. 1502. fol.

21824 — eadem versio. Par., le Fevre (other copies *Æg. Gourmont*), 10 cal. Febr. 1512. fol. Gothic letter.

21825 — geographicorum commentarii, olim, ut putatur, a Guarino Veron. et Gr. Tifernate latinitate donati, jam vero denuo a Cr. Heresbachio recogniti. Bas., Valent. Curio, m. Mart. 1523. fol.

21826 — geographicorum libri XVII. olim, ut putatur, a Guarino Veron. et Gr. Tifernate latinitate donati, jam denuo a Cr. Heresbachio recogniti ac plerisque locis de integro versi. Item epitomæ eorundem de geographia librorum, nunc prim.

de græco sermone in lat. conversæ, Hi. Gemusæo interprete. Bas., J. Vualderus, 1539. fol.

Concerning the different Greek abridgments of Strabo, see Siebenkees's edition, T. I. p. XXXIV. sq. The only printed one, which is here translated, appeared at first in Greek with *Arriani Periphus*, Bas. 1533. 4^o. and in Greek and Latin in *Hudson's Geograph. græc. minor.* vol. II. and in Almelooven's edition. Also in Latin (after Gemusæus's translation), in *Dm. Marii Nigri geographiæ commentariorum libri XI.* Bas., Henricpetri, 1557. fol.

21827 — de situ orbis libri XVII. ex versione Guarini Veron. et Gr. Tifernatis. Editio recognita a doctissimis viris et emendator. Lugd., Gbr. Coterius, 1559. 12^o. 2 voll.

The same translation also, *Amst.* 1652. 12^o. 2 vols.

21828 — rerum geographicarum commentarii latini facti Gu. Xylandro interprete. Acc. ejusd. annotatiunculæ. Bas., Henricpetri, 1571. fol.

With maps engraved on wood and printed in the text.

21829 — libro III. de la geografia de Estrabon, que comprehende un tratado sobre la España antigua. Traducido del latin por J. Lopez. Madr. 1787. 8^o.

21830 — geografia, dal greco tradotta in volgare italiano da Alfonso Buonacciuoli. Vol. I. Ven., Seneze, 1562. Vol. II. Ferrara, Seneze, 1565. 4^o. 2 voll.

A prized and scarce translation.

21831 — géographie, trad. du grec en franç. (par de la Porte du Theil, Coray et Letronne, avec des notes et une introduction par Gosselin). Par., impr. nationale, 1805-19. large 4^o. 5 vols. with plates (150 fr.). Also on very large paper.

Not only a translation, but also a learned and critically important edition. A 6th and last vol. is to contain dissertations, notes, and index.

21832 — allgemeine Erdbeschreibung, übs. von Abr. Jac. Penzel. Lemgo, Meyer, 1775-77. 8^o. 4 vols. with maps (4 d. 12 gr.) — Iberien

(oder 38 Buch) übs. von Cp. Gli. Groskurd. Strals., Löffler, 1819. 8°. (12 gr.)

A part of Penzel's translation, the notes and the map of the ancient world, are by Gli. Sm. Forbiger.

21833 — Th. Tyrwhitt conjecturæ in Strabonem, cur. Thph. Cp. Harles. Erl., Palm, 1788. 8°. (6 gr.)

Previously, Ox. 1783. 8°.—*Pt. Chuvrier note inedita in Strabonem, in the Classical Journal*, T. 31.

21834 STRADA, Famian. De bello belgico decades duæ. Rom., Hm. Scheus, 1640–47. fol. 2 vols. with plates.

The best edition of an often printed, but very prejudiced and partial work, which is greatly sought after on account of the fine plates by J. W. Baur, Jona Wiele, and Collignon, single engravings of which have sometimes been sold for several louis d'or. The 1st vol. has 11 plates. (p. 180, 188, 230, 240, 248, 262, 277, 288, 336, 346, 358), and the 2nd 19, beside the title-plate. (p. 56, 89, 116, 147, 168, 193, 231, 235, 238, 247, 250, 268, 296, 306, 327, 367, 377, 444, 477). The 3rd and last vol. is said to have remained unprinted owing to the Spanish court. The other editions (the latest is, *Ratisb. et Vienna. Bader*, 1754. fol. 2 vols. with portraits) are not sought after.

21835 — prolusiones academicæ. Ox. 1745. 8°.

Previously, Romæ, 1617. 4°. *Mediol.* 1626. 12°.

21836 STRADANUS, J. Equile Joannis Austriaci, Caroli V. fil., in quo omnis generis equorum ex variis orbis partibus insignis delectus. Ad vivum delineati a J. Stradano et a Ph. Gallæo editi. Without place or date. oblong fol.

This first edition contains 41 engravings in 4 series (the 1st has 17 plates, and the other 3 have 8 each). A 2nd edition, of which there are copies on very large paper, may be distinguished by having the engravings numbered.—There is also a reprint with re-engravings by Mark Sadeler, without place or date, oblong fol.

21837 — venationes ferarum, avium, piscium, pugnae bestiarum, depictæ a J. Stradano: editæ a Ph. Gallæo, carmine illustratæ a Corn. Kiliano

Dufflæo. Without place or date. oblong fol.

1 title-plate and 104 leaves of plates.

21838 STRAHLENBERG, Ph. J. von. Das nord- u. östliche Theil von Europa u. Asien, in so weit solches das ganze russ. Reich mit Siberien u. der grossen Tartarey in sich begreift. Stockh. 1730. 4°.

With a large map, which is wanting in many copies. A very important work with respect to languages. The French translation, *Amst.* 1757. 12°. 2 vols. is not prized.

21839 STRAPAROLA, Gi. Fr. Le piacevoli notti. Ven., Comin da Trino, 1550–53. 8°. 2 voll.

The first edition, both vols. of which are seldom found together.

21840 — le piacevoli notte. San-Luca, San Bartholomeo, 1551–54. 8°. 2 vols.

This edition also is scarce. The Dresden library has a copy of the 1st vol. with this statement in the title, *A San Luca al segno del Diamante*, 1551. 8°. with woodcuts (309 leaves and 5 leaves of index), which appears to be a later reprint.

21841 — — Ven., Comin da Trino, 1557. 8°. 2 voll.

The edition the most sought after.

21842 — — Ven., Comin da Trino, 1562. 8°. 2 voll.

The editions, *Ven.* 1560, 1569, 1570, 1578, 1580, and 1590. 8°. are also sought after. But the later editions, *Ven., Vecchi*, 1599. 4°. with woodcuts, and *Ven., Zanetti*, 1608. 8°. with woodcuts, are mutilated.

21843 — les facecieuses nuicts du seigneur Straparole (trad. par J. Louveau et Pt. de Larivey, avec une préface de Bn. de la Monnoye). Without place (*Par.*), 1726. 12°. 2 voll.

The best edition of this translation, of which there are copies on vellum in 6 vols. (326 fr. Boissot, 244 fr. Vallière, 222 fr. d'Ourches, 255 fr. McCarthy, 201 fr. Lair). *Amst.* 1725. 12°. 3 vols. is less fine. Previously, *Par., Gaulther*, 1573. 12°. *Par., Angelet*, 1585. 12°. *Lyon, Rigaud*, 1595. 12°. *ib.* 1611. 16°.—*Die Mährchen des Straparola, aus dem Ital. mit Anmerk. von F. W. Val. Schmidt. Berl.* 1817. 8°. (1 d. 16 gr.)

STRAUSS, see STRUYS.

- 21845 STRITTER, J. Ghf. *Memoriæ populorum olim ad Danubium, Pontum Euxinum, Paludem Mæotidem, Caucasum, Mare Caspium, et inde magis ad septentrionem incolentium, e scriptoribus historiæ Byzant. erutæ ac digestæ.* Petrop. 1771-79. 4°. 4 parts in 6 vols.

The last vol. ends with copious indices, which are sometimes wanting.

- 21846 STROBEL, G. Thdr. *Vermischte Beitr. zur Gesch. der Litt.* Nrb., Bauer, 1775. 8°. (6 gr.) *Miscellaneen literar. Inhalts. ib.* 1778-82. 8°. 6 parts (3 d.) *Beitr. zur Litt., besonders des 16 Jahr.* Nrb., Monath, 1784-87. 8°. 4 pieces in 2 vols. (1 d. 12 gr.) *Neue Beitr. zur Litt., besonders des 16 Jahrh.* Nrb., u. Altd., Monath, 1790-94. 8°. 10 pieces in 5 vols. (5 d.)

These collections, principally relating to the history of the reformation, to great industry and learning add the fault of containing too much that is trivial and unimportant, and the compiler is also satisfied with setting down single facts without leading the way to more comprehensive inquiries and greater results.

- 21847 STROMBECK, F. C. von. *Deutscher Fürstenspiegel aus dem 16 Jahrh.* Brschw., Vieweg, 1824. 4°.

The only copy on vellum (concerning which consult my Notice, I. 59) is in the library of the editor, counsellor von Strombeck of Wolfenbüttel.

STROZZI, Pierro, see STANZE.

the Imperial library at Vienna. *Par., Sim. Colinaus*, 1530. 8°. and, without place or date (*Bas., Westheimer*, 1535-40). 8°. (with the Aldine anchor in the title) are only reprints of this collection which does not contain all the poems. The poems wanting herein, are printed in *Mittarelli Bibl. MSS.*, see *Mich. Venet.* I. 1081 sq. and other complete and differently arranged MSS. are to be found in several libraries, for instance at Dresden (*C 105 c.*)

- 21849 STRUCHTMEYER, J. Cp. *Theologia mythica s. de origine Tartari et Elysii libri V., de allegoriis etc.* Hag. Com. 1753. 8°.

- 21850 — rudimenta linguæ græcæ, ad systema analogiæ a Tib. Hemsterhusio primum inventæ effinxit et passim emendav. Ever. Scheidius. Zutph. 1784. 8°.

This book contains the secret of the Dutch schools; see LENNEP and VALCKENAEER.

- 21851 STRUTT, Jos. *Horda Angelycynnan, or a complete view of the manners, customs, arms, habits etc. of the inhabitants of England from the arrival of the Saxons to the reign of Henry VIII.* Lond. 1774-76. large 4°. 3 vols. with 157 plates (4l. 14s. 6d.).

A scarce work. (Boulard's) French translation of a part of the work under the title, *l'Angleterre ancienne.* *Par.* 1790. 4°. 2 vols. with plates, is not prized.

- 21852 — the chronicle of England, or an history, civil, military, and ecclesiastical, of the ancient Britons and Saxons. Lond. 1777-78. large 4°. 2 parts in 1 vol. with 42 plates (1l. 10s.).

Scarce, and considered as Strutt's best work. Also copies on large paper.

- 21853 — the regal and ecclesiastical antiquities of England from Edward the confessor to Henry VIII. Lond. 1793. large 4°. with 72 plates (3l. 3s.).

This new edition (previously, *Lond.* 1777. 4°.) is enlarged with a supplement of 12 plates, which is also sold separately.

- 21854 — complete view of the dress and habits of the people of England, from the establishment of the Saxons in Britain to the present

time. Lond., Edwards, 1796-99. large 4°. 2 vols. with 143 plates.

Also with illuminated plates.

21855 — the sports and pastimes of the people of England, including the rural and domestic recreations, may-games, mummeries *etc.* from the earliest period to the present time. Lond., Bensley, 1801. large 4°. with 60 plates.

Reprinted, Lond. 1810. 4°. (3l. 3s., with illuminated plates 5l. 5s.)

21856 — biographical dictionary, containing an historical account of all the engravers. Lond. 1785-86. large 4°. 2 vols. with 20 plates (2l. 2s.).

Strutt's works have certainly no great value as works of art, and frequently also are not to be depended upon in a historical point of view; but they have the merit of usefully collecting scattered materials, and of preserving by engravings much that has since perished.

21857 STRUVE, Burc. Ghelf. Bibliotheca historica, aucta a Ch. Gli. Budero, nunc vero a J. G. Meuselio digesta, amplificata et emendata. Lps., Weidmann, 1782-1804. 8°. 11 vols. in 22 parts (23 d. 16 gr., on writing paper 31 d.).

This uncommonly careful re-production of a work which appeared for the last time, *Jenæ*, 1740. 8°. has unfortunately remained unfinished, and ends with the French history. Only 2 vols. (12 lire) appeared of a reprint, *Ficini, Bolzani*, 1780. 8°, enlarged with the books that had appeared in Italy.

21858 — bibliotheca historię literarię selecta, olim titulo *introductionis in notitiam rei literarię et usum bibliothecarum* insignita. Post variorum emendationes et addita-menta opus formavit J. F. Jugler. Jen., Cuno, 1754-63. 8°. 3 voll. (6 d.) Supplementa et emendatt. ad bibliothecam hist. lit., edid. H. F. Köcher. Fasc. I. (et unicus). ib. 1785. 8°. (21 gr.)

The last edition of this work in its earlier form appeared, *Cura J. Ch. Fischeri*. Ff. 1754. 8°. It contains indeed much that Jugler has not, but is edited in a far more desultory manner.

— see also *SCRIPTORES rerum Germanicarum*.

21859 STRUYSS, J. Janssen. Drie aanmerkelyke en seer rampspoedige Reyssen door Italien, Griekenlandt, Lyflandt, Moscovien, Tartaryen, Meden, Persien, Oost-Indien, Japan *etc.* Amst. 1676. 4°. with plates.

21862 STRYKOWSKI, Mthi. Kronika Polska, Litewska, Zmodzka *etc.* w Krolewcu (*Königsberg*), 1582. fol.

Extremely scarce, and greatly sought after in Poland, because the author asserts that he has made use of a great many of the older chronicles.

21863 STUART (Jam.), and N. REVETT. Antiquities of Athens. Lond. 1761, 87, 94, and 1816. large fol. 4 vols. with 384 plates (25l. 4s.).

A complete work of engravings, and the best on this subject; yet the plates of the last 2 vols. are not so well executed as those of the first. Jos. Woods was the anonymous editor of the last vol. The 3rd vol. may be had separately for 6l. 13s., and the 4th for 7l. 7s. See also *ANTIQUITIES* above.

A new and enlarged edition is being published in London by Priestley since 1825. It is to form 4 vols. in fol. (in 40 Nos. at 6s.), and is to cost only 12l.

21864 — les antiquités d'Athènes, mesurées et dessinées par J. Stuart et N. Revett, trad. de l'anglais par M. L. F. F. et publiées par London. Par. 1808-15. fol. 3 vols. with 150 plates.

21865 STUART, Mt. Romeinsche Geschiedenissen. Utr. et Amst. 1792-1810. 8°. 30 vols. with plates (113 fl.).

21867 — — Centuria I. New ed. Lond. 1766. fol. Centuria II., to which is added the itinerary of Richard of Cirencester. Lond. 1776. fol. with plates and maps.

This edition of an important work is considerably enlarged, and far preferable to the preceding edition. Besides the title-plates and a map of Britain under the Romans, the 1st vol. contains 101 plates, and the 2nd 103.

21868 — Stone-Henge, a temple restor'd to the British Druids. Lond. 1740. fol. with plates.

21869 — Abury, a temple of the Druids, with some others described. Lond. 1743. fol. with plates.

21870 — medallic history of M. Aur. Valerius Carausius, emperor in Britain. Lond. 1757-59. 4°. 2 vols. with 32 plates.

Continued up to 1609 by some unknown person.

21882 SUECIA antiqua et hodierna. Holmiæ, without date (1693-1714). oblong fol., 3 parts in 2 or 3 vols.

The 1st part contains 150 plates, the 6 A

2nd 77, and the 3rd 126. The work was undertaken at the king's expense by count Erich of Dahlberg, and at first it was only given away in presents. Subsequently however copies with a title of 1722 came into the market. The very well designed, and for the most part also well engraved plates, exhibit towns, harbours, castles, interesting views, and different antiquities of Sweden, but also contain several representations and plans of buildings which were only projected, and never actually executed. Only sheets A-O, or p. 1-132 (in folio) of a Latin descriptive text by Pt. Lagerlöfs were printed, but never published, and are in consequence extremely scarce. The engravings are not so scarce. Consult J. P. *Calteau Voyage en Allemagne et en Suède*. T. III. *Par.* 1810. 8°. p. 156-158.

21884 SUTONIUS Tranquillus, Cajus. De XII. Cæsarum vitis libri XII. Romæ, in pinea regione via Papæ (per J. Ph. de Lignamine), mense Sextili 1470. fol.

The costly and very scarce editio princeps of Suetonius, which formerly was erroneously attributed to the press of U. Han (and still by Bandini in the *Cat. codd. lat.* II. 712.), 126 leaves (128 according to Fossi) with 35 lines, without signatures, catchwords, and pagination. It begins in leaf 1^a with a letter of J. Ant. Campanus, the editor, to Fr. Piccolomineus, which is followed by a table of the contents of the books. The text begins in leaf 2^a, and the 1st line is, (A)Nnum agens Cæsar sextūdecimū Patrē. On the reverse of the last leaf is the colophon in 4 lines. The Greek passages are in this edition.

21885 — de XII. Cæsaribus. Romæ, Cr. Schweinheim et Arn. Pannartz, 1470. fol.

This 2nd edition, also very scarce, was printed from a different MS. from that of the preceding edition, and superintended by J. Andr. Aleriensis. 107 leaves with 38 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^b begins with a letter of the editor to Paul II. The table of contents follows in leaf 2^b. The text begins in leaf 3^a, and the 1st line is, C. Suetonii Tranquilli de duodecim. In leaf 107^a are the usual 8 final verses, *Aspicis illustris lector etc.*, and underneath

the date, M. cccc. lxx. That this edition is really the 2nd, is proved from the date of the dedication, *pontificatus tui anno VII*, instead of which, in the preceding edition, it is *anno sexto*. In some copies the printed initials are ornamented, for which empty spaces have been left in others; they were however added subsequently, and probably by some other printer, as they do not appear in any other production of this press.

21886 — de vita XII. Cæsarum libri XII. Ven., N. Jenson, 1471. large 4°.

A very fine edition, in which the text is divided into chapters, but empty spaces are left for the Greek passages. 162 leaves with 32 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a begins with 5 verses of Ausonius, and in the 7th line the text commences, and ends in leaf 162^b with 4 verses, *Hos ego nicoleos gallus cognomine ienson*, and the date, M. cccc. lxxi. The marquis Trivulzio of Milan possesses a copy on vellum.

21887 — de vitis XII. Cæsarum libri XII. Romæ, Cr. Schweinheim et Arn. Pannartz, 17 Sept. 1472. fol.

This edition is said to be a reprint of Schweinheim's edition of 1470. The preface of Andr. Aleriensis is however omitted here. 106 leaves. Leaf 1^a begins with the verses of Ausonius, and the text commences in leaf 2^a. In leaf 106^a are the verses, *Aspicis illustris lector etc.*, and the date.

21888 — de vita XII. Cæsarum. Without place or date (*Ferraria*, 1472?). 4°.

Line for line a reprint of Jenson's edition of 1471. 32 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a begins with AVSONII VERSVS. After the text follows *tetrasticha de cæsaribus post Tranquillū, and duo testimonia de Suetonio*, and a leaf, the folio recto of which is blank, and on its reverse is a register. Consult respecting it *Neuestes aus der anmuth. Gelehrsamkeit*, I. 579—Suetonius appeared at Milan in 1475 among the *Scriptt. hist. Aug.*

21889 — de vita XII. Cæsarum libri XII. Without place or the printer's name, 1480. fol.

108 leaves, with 39 lines in a full page, and the signatures a-p. Leaf 1^a line 1 is, AVSONII VERSVS. It ends in leaf 108^b thus, (FINIS) (M. cccc. lxxx.), underneath which is the register. The edition appears to have nothing peculiar to itself.

21890 — de vita XII. Cæsarum libri XII. Mediol., Ant. Zarotus, 16 Nov. 1480. fol.

125 leaves. Leaf 1^a begins with a life of Suetonius by Domitius Calderinus.

21891 — de vita XII. Cæsarum libri XII. Bonon., Plato de Benedictis, 7 cal. Mart. 1488. fol. Gothic letter.

44 lines, with the signatures *a-g*. Superintended by Simon Pasqualis. Ph. Beroaldus's life of Suetonius is added, but his commentary is not to be found here.

21892 — Suetonius cum commento (Ant. Sabellici). Ven., Bt. de Tortis, 15 Febr. 1490. fol.

The first edition with this commentary, which has some critical matter.

21893 — Suetonius cum eodem commento. Mediol., Ulder. Scinzenzeller, 19 Nov. 1491. fol.

A repetition of the preceding edition, as is also, Ven., Damian. de Gorgonsola, 29 Mart. 1493. fol.

21894 — Suetonius cum commentario Ph. Beroaldi. Bonon., Bd. Hector, nonis April. 1493. fol.

Leaf 1^a without further title begins with this superscription, *Commentationes conditæ a Ph. Beroaldo in Suetonium Tranquillum*. 6 leaves of preliminary matter, then the numbered leaves, II-XVIII. and 8-326, and 1 leaf, the register. The first edition with this commentary. Burmann does not deny all critical merit to Beroaldus. Mediol., Pachel, 1494. fol. is a reprint of this edition.

21895 — Suetonius Tranquillus cum Ph. Beroaldi et M. Ant. Sabellici commentariis. Ven., Sim. Bevilacqua, 1496. fol.

353 leaves, with the signatures *aa* and *a-S*. The following are reprints of this edition with both commentaries, Ven., Bm. de Zanis, 28 Jul. 1500. fol. 352 leaves. Ven., J. Rubeus, 8 Jan. 1506. fol. with woodcuts, 4 leaves of preliminary matter, and 358 numbered leaves. Ven., Ph. Pincius, 1510. fol.

21896 — de vita XII. Cæsarum. Lugd., without the printer's name (*Balthasar*), 3 Oct. 1508. 8°.

176 numbered leaves. Superintended by Cæsp. Argilensis, and dedicated to the celebrated collector J. Grolier. It appears to have something of its own.

21897 — de duodecim Cæ. vitis dili-

gentiori studio a mendis prope omnibus per Guidonem Morillonum nuperrime vindicatus. Dispersis in marginibus annotatiunculis. Par., Æg. Gourmont, Dion. Roce et Ponsset le Preux, 1509. 8°.

8 leaves of preliminary matter, and 204 leaves. Morillon corrected the text from a *vetus exemplar* of the library of St. Victor. The edition swarms with misprints.

21898 — de vita XII. Cæsarum. Flor., Ph. Junta, 1510. 8°. 179 leaves.

With a preface of Marianus Tuocius, who asserts that he has corrected the text: but according to Burmann it is only a reprint of the Lyons edition of 1508.

21899 — commentationes conditæ a Ph. Beroaldo adjecta paraphrasi. M. Ant. Sabellici interpretatione in Suetonium Tranq. (cum textu Suetonii). Par., J. Philippus, 1512. fol.

21901 — de vita XII. Cæsarum libri XII. Arg., Mthi. Schurerius, m. Mart. 1515. 4°.

32 leaves of preliminary matter (one blank), and 320 numbered leaves. Superintended by J. Bt. Egnatius, and to be distinguished from the edition of the *Script. hist. Aug.* of this year. Good

copies are scarce.—Then followed Erasmus's revision of the text in the *Script. hist. Aug. Bas., Froben*, 1518. fol.

60 leaves of preliminary matter (the 3rd blank), and 320 leaves. A repetition of the edition of 1516, with addition of the notes of Erasmus. A copy on vellum 325 livr. Vallière, a 2nd in the Royal library at Paris. A pretended edition of 1519 is a confusion of this work with Aldus's *Script. hist. Aug.* of that year.

- 21905 — Cæsares. Par., St. Aufray, idibus Martiis 1522. 8°.

- 21906 — Suetonius cum annotatt. Erasmi et Egnatii. Par., Sim. Colinaeus, 6 cal. Aug. 1527. 8°.

This, as well as the preceding edition, appears to contain Erasmus's text.

- 21911 — Cæsarum XII. libri a mendis

ad interpretum sententiam et vestustor. exemplarium fidem repurgati. Autore F. M. Gallo. Bas., H. Petrus, m. Aug. 1537. 8°.

This edition has not yet been accurately enough observed.

- 21912 — XII. Cæsares, summa viror. multor. doctissimor. diligentia recogniti. Lugd., St. Doletus, 1541. 8°.

Scarce and very correct, with scholia by Erasmus and L. Raynerius. The text is printed after Gryphius's editions, but it appears to contain something of its own.

- 21913 — Cæsarum XII. libri, jam denuo bonor. exemplarium et commentarior. ope emendati, cum M. Ant. Sabellici commentariis. Item J. Bt. Egnatii scholia in Suetonium. Atque etiam Erasmi Rot. annotationes. Bas., H. Petri, m. Mart. 1542. 8°.

H. Gemusæus was the editor. The same notes are in the edition, *Antw.*, J. Loen, 1548. 8°.

- 21914 — XII. Cæsares. Ex vetusto exemplari emendatiores multis locis. Par., Rb. Stephanus, 15 cal. Dec. 1543. 8°.

- 21917 — XII. Cæsares, cum Ph. Beroldi, Marcique item Ant. Sabellici commentariis, et Bt. Egnatii aliorumque doctor. viror. annotatt. Lugd., J. Frellon, 1548. fol.

40 leaves of preliminary matter, 761 pages, and 1 leaf with the *privilegium*. A neat edition, but containing nothing new.—The edition, *Bas.* 1560. 8°. is recom-

mended by short but valuable critical and exegetical notes of Glareanus.

- 21918 — Cæsares et libri II. de illustribus grammaticis et claris rhetoribus, op. et studio Thdr. Pulmani emendati cum ejusd. annotatt. et lect. variet. Acc. J. Bt. Egnatii, H. Glareani et Erasmi annotatt. in Suetonium. Antw., Plantinus, 1574. 8°.

A scarce and correct edition, furnished with various readings from MSS. by Pulmann. Repeated, *ib.*, *id.*, 1578. 8°.; to which is to be added, *Læv. Torrentii in Suetonii Cæsares commentarii.* *ib.*, *id.*, 1578. 8°.

- 21919 — XII. Cæsares et in eos Læv. Torrentii commentarius auctor et emendator. Antw., ex off. Plantin., without date (1591). 4°.

5 leaves of preliminary matter, then the text, with p. 7-407, and 11 leaves of index. The commentary of Torrentius is indeed very learned, but it also contains much that is well known, and which does not belong to the subject.

- 21920 — de XII. Cæsaribus libri VIII. Is. Casaubonus recensuit et animadversionum libros adjecit. Adjuncti sunt et Suetonii libelli de illustribus grammaticis et de claris rhetoribus. (*Genevæ*), ap. Jac. Chouet, 1595. 4°.

20 leaves of preliminary matter, 191 and 32 pages, 13 leaves of index, 315 pages, *animadv.*, and 6 leaves of index. The first edition of Casaubon, more recommended by its learned exegetical apparatus, than by any critical peculiarity. It is however somewhat cursorily executed.

- 21921 — XII. Cæsares et de illustribus grammaticis et claris rhetoribus libelli II. Additæ notæ, quibus scripturæ ratio redditur et varietas lectionum indicatur. LB., ex off. Plantin., 1596. 8°.

400 pages, and 8 leaves, index. The editor, designated by the initials S. P., was Pt. Scriverius. Casaubon's text, with a selection of the best critical and exegetical apparatus of Pulmann's edition. Little of its own is to be found in it.

- 21922 — de XII. Cæsaribus libri VIII. Ejusd. de illustribus grammaticis et de claris rhetoribus. Is. Casaubonus ex fide vetustissimor. libror. recensuit et libros ad-

jecit animadversionum. Editio altera ab auctore emendata et aucta. Seorsim adjecti sunt doctor. viror. in eundem Suetonium commentarii aut aliæ lucubratt. Par., Hi. Drouart, 1610. fol.

The text has 12 leaves of preliminary matter, 231 pages, and 12 leaves of index. Then follow, *Ad Suetonii XII. Cæsares, gram. et rhetores, commentarii Ph. Beroaldi* etc., with a separate title of 1610, which contain 4 leaves of preliminary matter, 1754 pages, and 35 leaves of errata and index. *Suetonii liber IIX. s. tres imp. Vespasiani interpretati et emendati a Thdr. Marcilio*, 1 leaf, 122 pages, and 5 leaves, index, *privilegium*, and *Epistola Marcilii*, ends the work. The 2nd and most complete original edition by Casaubon, also valuable on account of the tolerably complete critical and exegetical apparatus collected together from other sources.

- 21923 — C. Suetonius Tranquillus. Par., e typ. regia, 1644. 12°.

Neat and scarce.—With learned notes by M. Zuer. Boxhorn, *LB.* 1632, 45, and 61. 12°. The last time, *Traj. ad Rh., Poolsom*, 1715. 12°.

- 21924 — Suetonius. Accedit e selectis multor. observationibus commentarius, exhibente J. Schildio. LB., Fr. Hack, 1647. 8°.

This belongs to the better editions, *cum notis variorum*. Repeated, *LB.* 1652, 56, 62, and 67. 8°.

- 21925 — cum Is. Casauboni animadvv. et dissertatt. politicis J. H. Bœcleri, itemque uberrimo indice. Arg., Mülbius, 1647. 4°.

Repeated, *Arg., Stædel*, 1688. 4°.

- 21926 — Suetonius ex rec. J. G. Grævii, cum ejusd. animadvv. ut et commentario integro Læv. Torrentii et Is. Casauboni. His accedunt notæ Thdr. Marcilii et Fr. Guyeti, nec non index Mthi. Berneggeri. *Traj. ad Rh.*, a Zyll, 1672. 4°.

A new recension after MSS. and old editions. Copies on large paper are scarce and dear (92 fr. de Cotte), otherwise this edition does not stand at a high price, although it is more correct than the 2nd edition of 1691.

- 21927 — opera quæ extant. C. Patinus notis et numismatibus illustravit suisque sumptibus edidit. 6 A 3

Bas., without the printer's name, 1675. 4°.

With coins printed in the text. Repeated, *Bas.* 1706. 4°.

21928 — opera, cum notis brevibus et selectis ad usum lectionum. Ox., th. Sheld., 1676 or 90. 8°.

21929 — opera omnia, quæ extant, interpretatione et notis illustrav. Agst. Babelonius, ad usum Delphini. Par., Pralard, 1684. 4°.

One of the inferior editions of this series, but scarce. Reprinted, *Lond.* 1718. 8°, and *Bassani*, 1787. 4°. 2 vols.

21930 — opera, et in illa commentarius Sm. Pitisci et varior. notæ. Traj. ad Rh., Fr. Halma, 1690. 8°. 2 vols. with plates.

The best edition of the series *cum notis variorum*.

21931 — Suetonius ex rec. J. G. Grævii, cum ejusd. animadvv. ut et commentario integro Læv. Torrentii et Is. Casauboni etc. Ed. II. auctior. Traj. ad Rh. 1691. 4°.

An enlarged, but less correct repetition of the edition of 1672. There are copies on large paper.

21932 — vitæ XII. Cæsarum et quæ ex illustribus grammaticis ac claris rhetoribus supersunt. Adjectis emendationibus Jac. Gronovii. LB., J. du Vivie, 1698. 16°.

Of critical value.

21933 — Suetonius ex rec. J. G. Grævii cum ejusd. animadvv. ut et commentario integro Torrentii, Casauboni, Thdr. Marcilii, et cum notis ac numismatibus, quibus illustratus est a C. Patino. Accedunt notæ selectiores aliorum. Ed. III. auctior et emendator. Traj. ad Rh., Schouten, 1703. 4°.

Only a new title and a new dedication to the edition of 1691. Yet Patin's notes are added as a separate appendage. *Traj. ad Rh.* 1708. 4°. is also only a new title to this edition.

21934 — Suetonius expurgatus ab obscenitate et varie illustratus (a Pt. Jos. de Grainville). Rothomagi, Boullanger, 1707. 12°.

The notes are said to be valuable.

21935 — opera, et in illa commenta-

rius Sm. Pitisci, in quo antiquitates Romanæ explicantur. Ed. II. Leovard., Fr. Halma, 1714-15. 4°. 2 voll.

The activity of this editor, which concerns only the historical and antiquarian explanation of things, is not so destitute of merit as Burmann and others would represent it, and the edition stands at a fair price. There are copies on large paper, and on very large paper; the latter are very scarce and costly (330 fr. M^cCarthy).

21936 — in Suetonii de XII. Cæsaribus libros VIII. commentarii, per Pt. Almeida (cum textu). Hag. Com., Moetjens, 1727. 4°.

The offensive passages are omitted, the notes of no importance, and the edition, being moreover inaccurately printed, is little prized.

21937 — Suetonius, cum notis integris et selectis varior. Curante Pt. Burmanno, qui et suas adnotatt. adjecit. Amst., ap. Janssonio-Waesbergios, 1736. 4°. 2 voll. Also on large paper.

Grævius's text forms the basis, sometimes corrected from ancient MSS. and old editions, and accompanied with a good selection of the notes of others, and with learned observations of the editor's own. Yet must Pitiscus's edition be had with it.

21938 — Suetonius ex rec. Fr. Oudendorpii, qui variantes lectt. suasque animadvv. adjecit, intermixtis J. G. Grævii et Jac. Gronovii, nec non ineditis C. Andr. Dukeri, adnotationibus. LB., Luchtmans, 1751. 8°.

An edition greatly recommended by its new critical and exegetical apparatus. The texts of Grævius and Gronovius form the basis, but corrected from MSS. made use of anew, from old editions, and from conjecture. A reprint of the text appeared, *Edinb.* 1761. 8°. LB. 1767. 12°.

21939 — Suetonius c. animadvv. J. A. Ernesti. Lps. 1775. 8°. Also on writing paper.

More incorrect than the edition, *Lps.* 1748. 8°. (of which there are copies on fine paper), and not carefully enough superintended.

21940 — Suetonius ad opt. edit. collatus. Præmittitur notitia lite-

raria. Accedit index. Biponti, 1783. 8°.

Repeated, *Arg.* 1808. 8°. (1 d. 18 gr.)

- 21941 — opera, textu ad codd. MSS. recognito cum J. A. Ernesti animadvv. nova cura auctis et Is. Casauboni commentario. Edidit F. A. Wolf. Lps., Fritsch, 1802. 8°. 4 voll. (6 d.)

Ernesti's text forms the basis, but it is sometimes corrected. Notes by Ruhnkinius are added to it. There are 6 copies on vellum paper.

- 21942 — opera, textu ad præstantiss. edit. recognito, continuo commentario illustravit, clavem Suetonianam adjecit Detl. C. W. Baumgarten-Crusius. Lps., Fleischer, 1816-18. 8°. 3 voll. (9 d.)

The *Clavis* fills the entire 3rd vol. — *Opera in us. scholar. illustravit Detl. C. W. Baumgarten-Crusius. Lps., Fleischer, 1820. 8°. 2 voll. (1 d. 12 gr.)*

- 21943 — vitæ XII. imperatorum. Erläutert von J. H. Bremi. 2. umgearb. Ausg. Zür., Ziegler, 1820. 8°. (2 d. 6 gr.)

Previously, *ib.* 1800. 8°.

- 21944 — imp. Tit. Fl. Vespasianus ex Suetonii libro VIII. cum interpretatione et emendatione Thdr. Marcilii. Par., Pautonnier, 1603. 8°.

- 21945 — de grammaticis et rhetoribus clarissimis libellus. Without place or date (*Ven., Jenson*, about 1471). 4°.

16 leaves (the last blank) with 24 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a line 1 is, SÜETONII TRANQVILLI DE. It ends in leaf 15^b with the line, cibo. FINIS. AMEN.

- 21946 — de grammaticis et rhetoribus. Without place or date (*Romæ, J. Gensberg*, about 1474). 8°.

16 leaves (the last blank) with 26 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a begins with a letter of J. Aloys. Tuscanus, which is wanting in the preceding edition, and the 1st line is, Reuerendissimo domino domino Johani. Leaf 1^b begins the piece *De grammaticis*, which ends with *Finis. Laus Deo*. Then follows, after 2 blank pages, the piece

De rhetoribus, without any separate superscription, at the end of which is, *Laus Deo*.

These two pieces appeared for the first time afterwards with *Modestus de re militari. Ven., Bm. Cremonensis, 1474. 4°.*

- 21947 — de grammaticis et rhetoribus claris liber. Flor., ap. S. Jac. de Ripoli, 1478. 4°.

21974 SUICERUS, J. Csp. The-saurus ecclesiasticus e patribus græcis ordine alphabetico exhibens quæcunque, phrases, ritus, dogmata, hæreses etc. Ed. II. emendatior et auctior. Amst., Wetstenii, 1728. (new title, Traj. ad Rh. 1746). fol. 2 voll.

The 1st edition, Amst. 1682. fol. 2 vols. is less complete.

21975 SUIDÆ lexicon, gr., edente Demetr. Chalcondyla. Mediolani, impensa et dexteritate Dem. Chalcondyli, J. Bissoli et Bd. Mangii, 15 Nov. 1499. fol.

The first edition and fine, but by no means scarce. Chalcondylas superintended it after several MSS. but he has sometimes interpolated the text. 510 unnumbered leaves with 45 lines, and the signatures *a-a*, *aaa-λλλ*, *A-Ω* and *AA-ZZ*. It begins, without a separate title, in leaf 1a, with a *διαλογος Στεφανου του Μελανος*, which is followed in leaf 1b with 2 Latin epigrams by Ant. Motta, in leaf 2a with a Latin letter by J. Mar. Catanæus, and in leaf 2b with a Greek preface by Chalcondylas. The text begins in leaf 3 a. The colophon is on the reverse of the last leaf but one, and 2 Latin poems by J. Salandus end the work on the *folio recto* of the last leaf.

21976 — Suidas (gr.) Ven., Aldus et And. socer, m. Febr. 1514. fol.

391 unnumbered leaves in 2 columns. Probably prepared from another MS.; many of the *lacunæ* of the preceding edition are filled up, but many of the readings are not so good.

21977 — Σουίδα (gr.) Bas., Hi. Froben. et N. Episcopius, m. Aug. 1544. fol.

396 leaves in 2 columns. A reprint of the preceding, but with some alterations of the editor, who is unknown.

21978 — Suidas (gr. lat.) Nunc primum integer latinitate donatus et ex collatione multor. MSS. codd. infinitis mendis purgatus, op. et studio Æm. Porti. Col. Allobr., Pt. et Jac. Chouet, 1619 (new title, 1630). fol. 2 voll.

Notwithstanding the assertion of the title

neither MSS. nor the Milan edition have been once made use of, and the edition is moreover very incorrectly printed.—Hadr. Junius (see his letters, *Dordr.* 1652. 12°. p. 75 and 224) was employed about the middle of the 16th century on a new and corrected edition of Suidas, none of which however appeared.

- 21979 — lexicon, gr. et lat. Textum græcum cum MSS. codd. collatum a quamplurimis mendis purgavit notisque perpetuis illustravit, versionem lat. Æm. Porti correxit indicesque auctorum et rerum adjecit Ludolf. Kusterus. Cbr., typis acad. 1705. fol. 3 vols. Also on large paper.

Edited with a good apparatus and with great learning and acuteness, but at the same time with equal boldness. It is particularly astonishing, for instance, that he should without farther ceremony have entirely omitted whatever appeared to him as subsequent interpolations. Consult *Classical Journal*, III. 268. The preceding edition must in consequence be had along with his. The following controversial writings relate to Kuster's edition: (*Jac. Gronovii*) *Recensio brevis mutilationum, quæ patitur Suidas in editione nupera Cantabr. L.B. 1715.* 8°. (*Lud. Kusteri*) *Diatrise Antigronoviana, in qua editio Suidæ Cantabrigiensis defenditur.* Ed. II. *emendator et auctor.* Amst., Petzold, 1712. 8°.

- 21980 — Suidæ et Phavorini glossæ sacræ, gr. Cum spicilegio glossar. sacrar. Hesychii et Etymologici M. Congessit, emendav. et notis illustrav. J. Ch. Gli. Ernesti. Lps., Weidmann, 1786. 8°. (18 gr.)

- 21981 — Suidæ historica cæteraque omnia, quæ ad cognitionem rerum spectant, solis verbor. explicationibus prætermisiss. Opera ac stud. Hi. Wolfii in lat. serm. conversa. Bas., Oporin. et Hervag., without date, (1564). fol.

A 2nd edition of this translation enlarged and corrected, *Bas., ex offic. Hervagiana*, 1581. fol.

- 21982 — J. Toup emendatt. in Suidam et Hesychium et alios lexicographos græcos. Ox., typ. Clarend. 1790. 8°. 4 voll. (11. 48.)

Edited by R. Porson, from whom the notes to be found in T. IV. p. 431 etc. originated. Previously, *Lond.* 1760–75. 8°.

4 voll., and under the title, *J. Toup Opuscula critica.* Ed. II. *emendator (cura F. H. Starcke).* Lps. 1780–81. 8°. 2 voll.

- 21983 — Th. Reinesii observatt. in Suidam. Enotavit, digessit, notisque suis adpersis edid. Ch. Gf. Müller. Lps., Vogel, 1819. 8°. (2 d.) Ch. Gf. Müller progr. de Suida observatt. Th. Reinesii ornato. Lps. 1796. 8°. J. Schweighäuseri emendatt. et observatt. in Suidam. Fasc. I. II. Arg. 1789. 8°. F. L. Abresch notatorum MSS. ad Suidam collectanea, in Act. lit. societ. Rheno-Traj. - 21984 SUISETH, Rich. Opus aureum calculationum, quod inscribitur calculator, ex recognitione J. Tollentini Veronensis. Papiæ, Fr. Gyrardengus, 4 Jan. 1498. fol. Gothic letter.

The first edition. In 2 columns with the signatures *a-n*. Also, *Ven., Locatellus*, 1505. fol. *Ven., hered. Octav. Scotti*, 1520. fol.

- 21985 SULLY, Maxim. de Bethune, duc de. Mémoires des sages et royales oeconomies d'estat, domestiques, politiques et militaires de Henry le Grand. Amstelredam, Aletinosgraphe de Clearetimelee et Graphexechon de Pistariste, without date, (1638). fol. 2 vols. Also on large paper.

The first edition of Sully's memoirs, and very scarce. It was printed at the castle at Sully by a printer brought from Angers, and it has been called the edition *aus V. V. vertis*, in consequence of the 3 green *VV* to be found in the title. Although it is very incomplete (for it only extends from 1570 to 1610) yet is it still sometimes sought after, because it contains the work in its original form, and previous to the subsequent alterations. The continuation (from 1610 to 1628) was edited by J. le Laboureur, *Par., Courbé*, 1662. fol. 2 parts.

SUL

21988 — mémoires. Lond. (Par.) 1745. 12°. 8 voll.

To it is added, *Supplément aux mémoires de Sully, contenant des observations sur les remarques jointes aux dits mémoires (par Petit de Montempois)*. Amst. 1762 or 78. 12°. In these observations the remarks of the abbé de l'Ecluse in favour of the Jesuits are refuted.

21989 — mémoires. Par., Bastien, 1788. 8°. 6 vols. Repeated, Par. 1814. 8°. 6 vols. Also on vellum paper.

In this edition, which is in other respects but indifferent, the observations of Montempois are made use of.—Also, *Par., Coste*, 1816. 8°. 6 voll. (36 fr.) *ib.* 1822. 8°. 6 voll. (36 fr.) There are 25 copies of this last edition on vellum paper.

des notes par Charl. Monnard. Par. 1816. 8°. 68 pages.

An earlier French translation by Marolles in 1658 is extremely flat.

21995 Sulpicius Severus. Quæ extant opera, a Victorino Gisellino ex editionum et vetustor. exemplarium collatione emendata ejusdemque notis illustrata. Antw., Cp. Plantinus, 1574. 8°.

The first and very meritorious edition of his entire works.

21996 — opera omnia quæ extant, ex optimis edit. accurate recognita. LB., ex offic. Elzeviriana, 1635. 12°.

The first and finest Elzevir impression of this author, of which there are copies of two kinds. The one has the title, *Historia sacra*, contains only this work, and ends with p. 306; the other bears the title of *Opera*, contains his other works in addition, and has 352 pages, (the 10 last unnumbered leaves being reckoned.) This last sort is more sought after than the other.

21997 — opera omnia quæ extant. LB., ex off. Elzeviriana, 1643. 12°.

There are also 2 sorts of copies of this edition, which is printed in smaller characters. The one has the above title engraved, and contains 329 numbered and 4 unnumbered leaves; the other has the printed title, *Historia sacra*, goes only as far as p. 212, and does not contain his other writings.

21998 — opera omnia cum lectissimis commentariis accurate G. Hornio. Ed. III. auctior et emendatior. Amst., LB. et Rot., ap. Elzevir. et Hack, 1665. 8°.

Previously, *LB.* 1647 and 1654. 8°. Chiefly Giselin's text. The selection of notes is not very happy, and Horn's own notes are of little importance.

21999 — opera omnia quæ extant. LB., ex off. Elzevir. 1656. 12°.

A less fine repetition of the edition of 1643.

22000 — opera omnia, germanæ et antiquæ restituta lectioni, mendis typorum purgatissima, historicis et christianis notatiunculis illustrata et capitibus distincta. Par., Mch. Bobin, 1656. 12°.

Superintended by H. Mercier.

22001 — opera omnia cum notis J. Vorstii. Berol. 1668. 12°.

With the use of a Berlin MS., and good notes relating to language. Repeated, *Lps.*, *Fritsch*, 1703. 8°.

22002 — quæ extant opera omnia, in duos tomos distributa, quorum prior continet antehac edita cum notis J. Vorstii; alter epistolas antea cum reliquis operibus nondum editas, ex rec. et cum notis J. Clerici (curante Ch. Schöttgen). *Lps.*, *Fritsch*, 1709. 8°.

An edition industriously superintended, which is at the same time, up to the present day, the only complete edition of his entire works.

22003 — opera ad MSS. codd. emendata, notisque, observationibus et dissertationibus illustrata stud. et labore Hi. de Prato. Veronæ, Carattoni, 1741-54. large 4°. 2 voll.

A new and careful recension from MSS. and old editions with good explanations. A 3rd vol. which was to contain the letters and the remaining explanations to the 2nd vol. did not appear. Sulpicius's entire works appeared for the last time in *Gallandi bibl. PP. T. VIII. p. 355-432*.

22004 — sacræ historiæ a mundi exordio ad sua usque tempora deductæ libri II. nunc prim. in lucem editi. Item aliæ quædam historicæ appendices, lectu dignissimæ (edente Mthi. Flacio). Bas., Oporinus, 1556. 8°. 192 pages.

The first edition and extremely rare, prepared from a very old and good Hildesheim MS. and valuable on account of the liturgical appendix. The *Index rerum et verborum*, announced in the title, is wanting in all the copies.

22005 — historia sacra. Dorotheus de prophetis discipulis domini, curante Jac. Fabro. Par., Guillard, 1560. 16°.

Repeated, *Col.*, *J. Gymnicus*, 1573. 12°.

22006 — historiæ sacræ libri II. In eosdem C. Sigonii commentarius. Bonon. 1581. 8°.

With excellent historical explanations. Reprinted in *Sigonii opp. T. IV. Part. II. p. 3-210*.

22007 — historia sacra (curante J. Drusio). Franeqv., Radæus, 1594. 8°.

22008 — historia sacra. Edente et emendante J. Drusio cum commentario libro sive notis ejusdem. Arnhem., J. Janssonius, 1607. 8°.

172 pages of text, (which are of the same printing as the preceding edition) and 280 pages of notes. A very scarce edition, and not even made use of by Prato, the latest editor.

22009 — bibliotheca historiæ sacræ Vet. Test. s. exercitatt. historicæ in sacram scripturam et Josephum per modum commentarii in historiam sacram Sulpicii Severi. Autore Ch. Schotano. Franeq., Wellens, 1661-64. fol. 2 voll.

The text of Sulpicius is here overloaded with a useless mass of annotations. The notes of J. Drusius give the greatest value to this edition.

22010 — traduzione della vita di S. Martino (da Ippolito Bevilacqua). Verona, Carattoni, 1751. 8°. I dialogi volgarizzati (dal madesimo). ib., Andreoni, 1752. 8°. Leben u. Thaten des h. 337 leaves in 2 columns with 50 lines, without signatures, catchwords, and numbering of the leaves. First an index of 5 leaves, then 3 leaves of dedication. The text begins in leaf 9^a. The colophon is in 336^b, and 337^a is a register.

22062 — Without place, J. Wurster de Kampidona, 1474. fol.

348 leaves in 2 columns with 49 lines, without signatures, catchwords, and numbering of the leaves. The 2nd edition, of which the place of printing has sometimes been considered to be Mantua, sometimes Modena, sometimes Milan, and sometimes Bologna. It is in favour of the last place, that the editor Mth. Moretus is styled in the colophon, *Bononiæ legens*. And as Wurster belonged to the travelling printers, this statement is not too bold, although no other Bolognese typographical production by him is known.

22063 — liber pandectarum (medicinæ). Lugd., Mth. Huss et J. Faber, 27 Apr. 1478. fol.

Formerly erroneously considered as the first Lyons typographical production, see above, INNOCENTIUS, No. 10519.

22064 SYLVESTRE, Jos. de. El robo de Proserpina. Madr. 1731. 4°.

29 numbered leaves and 1 unnumbered leaf. With 12 fine woodcuts from designs by Luc. Cranach, containing portraits of the 12 apostles. St. Matthew is here beheaded with a guillotine; yet earlier representations dated 1510 of this instrument of death are known.—It next appeared under the title, *Der heil. 22070 — (the same title). Arg., J. Knoblauch, 1511. 4°.

56 leaves (the last blank) with the signatures *a-h* and *A-B*. Merely a reprint of the preceding. The pretended edition, *Arg.*, *Knoblauch*, without date. 4°. (consult *Neuer Lit. Of the 3 letters discovered in Juretus's edition of Carrio only 2 are here admitted. Lectius made use of 2 MSS.

22074 — epistolar. ad diversos libri X. Jac. Lectius secunda cura recensuit, notis, emendationibus, epistolis etiam auxit. Additæ item notæ Fr. Jureti. Sumpt. heredum Eust. Vignon, 1598. 8°.

pages. A new recension from a MS. and from a collection of various readings by Fr. Modius.

22078 — epistolar. ad diversos libri X. Ex nova recensione J. Ph. Parei. Accesserunt etiam electa Symmachiana. Cum indice. Neap. Neometum, Unckelius, 1617. 8°. 486 pages and 9 unnumbered leaves. — J. Ph. Parei calligraphia Symmachiana. ib., id., 1617. 8°. Ejusd. electa Symmachiana. ib., id., 1617. 8°. Ejusd. lexicon Symmachianum. ib., id., 1617. 8°.

The pieces here enumerated belong to a complete copy of this edition, one of which is rarely to be met with. Even the *Epistola* are frequently met with defective. (*Leips. Litt. Zeit.* 1806. *Intell. Bl.* n. 51. p. 806. 1807. *Int. Bl.* n. 9. p. 131.) They ought, for instance, to contain p. 3-5. *epistol. Parei ad Jac. Gothofredum* p. 6-12 *elogia Symmachiana*, p. 13-486 the text of Symmachus. The 9 leaves at the end contain errata, *Symmachii Vita per Jac. The pretended augmentation with new letters is an untruth. Not the slightest thing has been done in this new impression beyond the correction of the misprints of the preceding edition. It does not contain the *Lexicon* and the *Calligraphia*.

22080 — — (Exactly the preceding title). Ff., Bayer, 1651. 8°. Electa Symm. ib., id., 1651. 8°.

Really a fresh impression, yet only a repetition of the preceding edition.

135 leaves with 32 lines in a full page, without signatures, catchwords, and pagination. Leaf 1^a line 1 is, (i) *N nomine dñi Amen Incipit ordo observatus*. The first synod ends in leaf 33^a with the seal of the notary, J. Moler, engraved on wood. The 2nd synod begins in leaf 33^b and ends in 113^b. There follows in leaf 114^a, *Tractatus de periculis contingentibus circa sacramentum Eucaristie*. The work is concluded in leaf 118^a by bishop Godfrey's German constitution of 1447, which ends in leaf 135^b, where the last or 15th line is, *tage Anno etc. xlviii*. It is well known that this book (a copy of which is at Wolfenbüttel) was quite erroneously supposed to have been printed 1452 or 53. In modern Greek.—Buttmann (see *Ideeler über die Bedeutung der Sternnamen*, p. 329) derives the name from Hitopadeesa (see above, BIDPAI, No. 2401). But it certainly were more probable to conjecture, that the name of Syntipas was corrupted from Sendabad or Sendelbar (an Indian romance, to which the fables of Syntipas bear a great resemblance, consult *Sacy* in the *Notices et extraits*, T. A typographical production honourable to Germany, a splendid edition of which was prepared on hot-pressed English vellum paper, with gold and coloured marginal lines after the manner of an oriental MS. (the price from 20 to 50 dollars.) The Royal library at Dresden possesses a copy on vellum with the same ornaments, which was a present from the publisher.

This finely printed and accurate catalogue, and indispensable for the knowledge of Hungarian literature, was only given away in presents and is consequently scarce. The two following works belong thereto.

la révolution franç., ouvrage orné de 222 gravures, avec des discours. Par., Auber, 1791-1804. large fol. 3 vols. on vellum paper (678 fr.).

A complete copy contains, according to Brunet, 3 title-plates, 9 *discours*, and 9 *planches préliminaires*, 144 *tableaux avec les discours historiques*, 66 *Portraits*, les 5 *constitutions*, le *concordat*, *proclamation sur la paix*, *vœux sur le consulat à vie*, le *sénatus-consulte organique de la constitution* (le *couronnement* in some copies) and the *Table*. There are copies *avant la lettre*. The text of the first 80 plates appeared at first in a very revolutionary spirit, which was however subsequently replaced by another text composed in a milder tone. The first text contains 380 pages, the subsequent one 384. Both should be had together.

A new impression with 160 plates and 65 portraits, and an abbreviated text, appeared, *Par.* 1817. large fol. 2 vols. (400 fr.) but it only has faint impressions.

22131 TABLEAUX historiques des campagnes d'Italie. Par., Herhan et Didot, 1806. large fol. On vellum paper (250 fr.).

A work well got up, and greatly sought after. 138 pages of text with 22 plates, Napoleon's portrait and 1 map; then, *Campagne d'Allemagne en 1805*, 63 pages with a double plan of the battle of Austerlitz, *Supplément aux campagnes d'Italie et d'Allemagne*, 24 pages with 4 plates. This supplement is sometimes wanting. The plates are engraved by Duplessis-Bertaux from C. Vernet's designs. There are copies *avant la lettre*, and also some with characters in gold.

- 22134 TACITUS, C. Corn. *Anna-
lium et historiar. libri superstites,
de situ, moribus et populis Germa-
niæ libellus et dialogus de orato-
ribus claris*. Without place or date
(*Ven., Vindel. de Spira*, 1470). fol.

The first edition which only contains the last 6 books of the *Annals*, the first 5 of the history, but the life of Agricola not at all. The passage in the colophon, *pressit Spira premeus, artis gloria prima sua*, has led the earlier bibliographers to consider this edition as the first typographical production of J. de Spira, and to set it down in the year 1468. But not to mention that the printing more reminds one of the performances of Vindelinnus than of John, and that not a word is said of Tacitus in the colophon of the *Augustinus De civitate Dei* of 1470, in which the typographical productions of J. de Spira, who was then already dead, are mentioned; John has himself expressly stated in his colophon to *Ciceronis Epp. famil.* (1469), that this work of Cicero was his *labor primus*. It is therefore evident that the Tacitus was the first distinct typographical production of his surviving brother Vindelinnus.

176 leaves (the 161st blank) with 36 lines, without signatures and numbering of the leaves, but with catchwords on the reverse of each leaf. In leaf 35^b is the catchword *Vetus ille*, although the following page commences with *Copia erat*: yet there is no lacuna. The work begins in leaf 1^a without farther superscription with the line, *Am Valerium Asiaticū bis consulem: fuisse*. The *Annals* end in leaf 151^a with the line, *navium magnitudine potio-
rem*. The *Germania* begins in leaf 152^a, and ends in 160^b with the word *FINIS*. Leaf 161 is blank, and leaves 162-176 are filled with the *Dialogus de oratoribus*, which ends on the folio recto of the last leaf. The following 4 verses form the termination, *Cæsareos mores scribit Cornelius etc.*

- 22135 — opera. Without place or date (*Mediol.*), about 1475). fol.

In this valuable edition, superintended by Fr. Puteolanus, not only is the life of Agricola added, but the text is also corrected partly from a MS. and partly from conjecture. 187 leaves (160 and 176 are

blank), with the signatures *a-B*, and 37 lines. Leaf 1^a line 1 is, *Franciscus Puteo-
lanus Jacobo Antiquario ducali Secretario*. *Sal.* The signatures begin with *a 1* on the 2nd leaf. The work ends on the folio recto of the last leaf with *FINIS*.

- 22136 — *historiæ Augustæ (et reli-
qua opera)*. *Ven.*, Ph. Pincius, 22 Mart. 1497. fol.

A reprint of the preceding. An edition, *Ven.* 1494 fol. is doubtful.

- 22137 — *fragmenta accurate recog-
nita ac nova censura castigata (per
J. Rivium)*. *Ven.*, J. Rubeus, 20 Jul. 1512. fol.

A repetition of the preceding with the correction of the typographical errors, and some not very happy alterations from conjecture.

- 22138 — *libri quinque noviter in-
venti atque cum reliquis ejus ope-
ribus editi (a Ph. Beroaldo)*. *Romæ*, St. Guillereti, cal. Mart. 1515. fol.

A scarce and costly edition, and the first that contains the first 5 books of the *Annals*. But the rest of the works are printed from the recension of Puteolanus. 242 leaves, with the signatures *A-QQ* and *A*. The first 73 leaves only are numbered. The colophon is in leaf 232^a, and after it follows the life of Agricola in 10 separate leaves.

- 22139 — *quæ extant ab And. Alciato edita*. *Mediol.*, in offic. Minutiana, 1517. 4°.

Concerning this almost equally scarce edition, see *Bibliographie de France*, 1820, p. 336-348, where however the date is incorrectly given as 1516.

- 22140 — *historia Augusta actionum diurnalium: additis quinque libris noviter inventis. And. Alciati in eundem annotationes. De situ, moribus et populis Germaniæ libellus, eodem Tacito autore. Ejusd. dialogus, an sui seculi oratores antiquioribus et quare concedant. Agricolæ vita per eundem*. *Bas.*, J. Frobenius, m. Aug. 1519. fol.

A reprint of Beroaldus's edition, but the *Germania* is corrected by Beat. Rhenanus from a MS.

- 22141 — *ab eccassu (sic). Divi Augusti historiarum libri quinque nuper inventi atque cum reliquis ejus*

operibus maxima diligentia excusi (cura Ant. Francini). Flor., her. Ph. Juntæ, 22 Maji, 1527. 8°. 364 leaves.

Beroaldus's text with some alterations by Francinus. The last 10 lines of the *Dialogus de orat.* which ought to be on the reverse of the last leaf, were forgotten, and are wanting in all the copies.

22142 — annalium ab excessu Augusti sive historiæ Augustæ libri XVI. qui supersunt, partim haud oscitanter perfecti, partim nempe posteriores, ad exemplar MStum recogniti per Beat. Rhenanum. Libellus de Germanor. populis. *Dialogus de oratoribus*, denique de vita Julii Agricolæ non solum emaculatus prodeunt, sed et explicatius, adjunctis in hanc rem scholiis. Bas., in offic. Frobeniana, 1533. fol.

A new recension from an Offen MS. and from conjecture. The less fine and less accurate edition, *Bas. in offic. Frobeniana*, 1544. fol. is merely a repetition.

22143 — C. Tacitus exacta cura recognitus et emendatus. Copiosus index rerum, locor. et personar., de quibus in his libris agitur. Varia lectio, in calce operis impressa. Ven., her. Aldi et And. Asulanus, m. Nov. 1534. 4°.

12 leaves of preliminary matter, and 260 numbered leaves. Merely a repetition of Rhenanus's text.

22144 — historiæ et annalium libri qui exstant, Just. Lipsii studio emendati et illustrati. Ejusd. Taciti liber de moribus Germ., Agricolæ vita, dialogus de oratoribus. Antw., Cp. Plantinus, 1574. 8°.

The 1st edition of the new recension by Lipsius. The 2nd, *Antw.* 1581. 8°. The 3rd, *LB.* 1585. 8°.

22145 — opera quæ exstant. Just. Lipsius quartum recensuit idemque notas ad oram addidit, rerum indices. *LB.*, Fr. Raphelengius, 1588. 8°. Lipsii ad annales Taciti liber commentarius. Antw., Cp. Plantinus, 1581. 8°. Lipsii ad Tacitum curæ secundæ. *LB.*, Rapheleng., 1588. 8°.

politicam et aulicam rationem præcipue spectantes. Quibus adjecta sunt reliqua Taciti opera. Romæ, Bn. Grassius, 1589. fol.

The text of Tacitus is likewise added, but the commentary is of no value whatever. Repeated, *Ff., And. Wecheli heredes*, 1592. fol.

22147 — opera quæ exstant. Apud Hi. Commelinum, 1595. 32°.

22148 — opera quæ exstant. Ad exemplar quod Just. Lipsius quintum recensuit. Seorsim excusi commentarii ejusd. Lipsii. Gu. Barclayus præmetia quædam ex vita Agricolæ libavit. Par., Gesselin, 1599. 8°.

W. Barclay was the editor. At the end there ought to be with a separate title, *Josias Merceri ad novam Taciti editionem aliquot notæ.* Par., Orry, 1599. 8°. 24 numbered leaves. Repeated, *Par., Gesselin*, 1606. 4°.

22149 — opera quæ exstant. Justus Lipsius postremum recensuit. Ad-diti commentarii meliores plenioresque, cum curis secundis. Accessit Vellejus Paterculus cum ejusd. Lipsii auctoribus notis. Antw., ex off. Plantin., 1600. 4°.

The last edition which appeared in Lipsius's life time. Ernesti's statement of a folio impression of it is erroneous.

22150 — opera quæ exstant. Justus Lipsius postremum recensuit. Ad-diti commentarii aucti emendatique ab ultima manu. Accessit C. Vellejus Paterculus cum ejusd. Lipsii auctoribus notis. Antw., ex off. Plantin., 1607. fol.

8 leaves of preliminary matter, 547 pages text, 16 leaves index and printer's symbol, 36 pages *disruptio notarum Merandulani codicis*, 84 pages and 7 leaves *Velleius* (with a separate title). This edition, which appeared after the death of Lipsius, contains his labours on Tacitus in the most complete and accurate form. The following are only repetitions, *Antw., ex off. Plant.*, 1627, 48, and 68. fol.

22151 — opera quæ exstant. Juxta veterrimos manuscriptos emendata notisque auctoribus illustrata per Curtium Pichenam. Ff., ap. Cl. Marnium, 1607. 4°.

513 pages of text and 291 of notes.
6 B 4

Pichena had corrected the text from Florentine MSS. in his notes, which at first appeared without the text at Florence, and then at *Hanov.* 1604. 8°. The notes are here printed together with a text framed from them. *Aurel. Allobr.* 1619. 8°. is an impression of this text by itself.

- 22152 — opera quæ exstant, ex recognitione Jani Gruteri. Accedunt seorsim ad eundem emendd. castig. observatt. notæ viror. doctissimor. Ff., e collegio Palthe-niano, 1607. 8°.

Gruter first divided the text into chapters.

- 22153 — Taciti et Velleji Paterculi scripta quæ exstant. Recognita, emaculata, additque commentarii copiosissimi et notæ non antea editæ. Par., Pt. Chevalier, 1608. fol.

This convenient collective edition of the apparatus up to this period was superintended by C. Auburtus. 12 leaves of preliminary matter, 276 and 708 pages of Tacitus, 78 leaves of index, and 151 pages containing Velleius (with a separate title).

- 22154 — opera latina, cum vers. germ. Jac. Micylli. Ff., Hoffmann, 1612. 8°.

- 22155 — opera quæ extant. Subjecti varior. lectionum et rerum indices. Without place, Sm. Crispinus, 1614. 12°.

- 22156 — novæ cogitationes in libros annalium Taciti qui extant, auctore L. Dorleans (cum textu). Par., Th. Blasius, 1622. fol.

The remaining works are also added, but without any commentary. The notes are not only explanatory, but also critical, and not altogether undeserving of regard.

- 22157 — Tacitus, ex Justi Lipsii accuratissima editione. LB., ex off. Elzevir., 1634. 12°.

10 leaves of preliminary matter (with the title-plate), 786 pages, and 15 leaves of index. It may be divided into 2 vols. at p. 433. The earlier edition, *LB. ex off. Elsev.* 1621. 16°. is badly printed.

- 22158 — opera, ex Justi Lipsii editione cum notis et emendatt. Hug. Grotii. LB., ex off. Elzevir., 1640. 12°. 2 voll.

8 leaves of preliminary matter (with the

title-plate), 746 leaves, and 8 leaves of index. After p. 400 a table of pedigrees ought to be found inserted, *Stemata Augusta domus*; and also a printed title for the history. To this edition may be added, *H. Savilius in Taciti historiam, Agricola vitam et commentarius de militia Romana.* Amst., L. Elzevirius, 1649. 12°.

The finest Elzevir edition of Tacitus, and the most sought after, which (especially with Savile's commentary) stands at a high price, as Grotius's participation also confers important value on it. *Amst., L. Elzevir*, 1649, 65, or 78. 24°. also contain the text according to this edition.

- 22159 — Tacitus et in eum M. Z. Boxhornii observatt. Amst., ex off. Jansson., 1643. 12°.

- 22160 — Tacitus. Amst., J. Blaeu, 1649. 12°.

- 22161 — Tacitus. Amst., J. Janssionius, 1650. 12°.

- 22162 — Tacitus, accurante Mthi. Berneggero. Arg., Dolhopf, 1664. 8°.

Previously, *Arg.* 1638. 8°. Pichena's text with some alterations from conjecture, with annotations by J. Freinsheim, and with a good index.

- 22163 — opera quæ exstant, varior. commentariis illustrata. J. F. Gronovius recensuit et suas notas passim adjecit. Acc. Jac. Gronovii excerpta ex variis lectt. MS. Oxoniensis. Amst., Dn. Elzevir, 1673. 8°.

The 2nd vol. bears the date of 1672. A fine but not very correct edition, containing Bernegger's text with some alterations from conjecture.

- 22164 — opera. Interpretatione perpetua et notis illustravit Julianus Pichon, in usum Delphini. Par., Thiboust, 1682-87. 4°. 4 vols.

One of the rarer but at the same time inferior editions of this series. It stands at a fair price, but its reprint, *Ven., Feltrin*, 1707, 8. 4°. 4 vols. is at a lower one.

- 22165 — opera quæ exstant, varior. commentariis illustrata. J. F. Gronovius recensuit et suas notas passim adjecit. Amst., Blaeu, 1685. 8°. 2 vols.

Less fine and less correct than the edition of 1673, of which it is a repetition.

- 22166 — opera quæ exstant, ex rec.

et cum animadvv. Thdr. Ryckii. LB., Hack, 1687. 12°. 2 vols.

Gronovius's text with some corrections from MSS. and from conjecture. An esteemed edition, and tolerably dear on large paper.

22167 — Tacitus cum optimis exemplaribus collatus. Amst., sumtib. societatis, 1701. 32°.

22168 — opera, notis grammatico-philologico-criticis illustrata ad modum J. Min-Ellii a Ch. Hauffio. Lps., Gleditsch, 1714. small 8°. 2 vols.

Enlarged with the readings of a Wolfenbüttel MS. The notes are of no importance.

22169 — opera quæ exstant, integris et selectis commentariis variorum illustrata. Ex rec. et cum notis Jac. Gronovii. Traj. Bat., Poolsum et Visch, 1721. 4°. 2 voll.

Furnished with a new collation of the Florentine MSS. from which it is occasionally corrected. In other respects this edition contains little more than the editions of 1673 and 1685. Copies on large paper are not known.

22170 — opera quæ exstant ex rec. et cum animadvv. Thdr. Ryckii (cura Griersoni). Dublinii, Grierson, 1730. 8°. 3 voll.

A reprint of Ryck's edition, in which his notes are placed immediately underneath the text. The superintendent was a learned lady, Mrs. Grierson. The edition is tolerably scarce, especially on large paper (173 fr. M'Carthy).

22173 — opera quæ supersunt. Ex edit. Jac. Gronovii fideliter expressa. Glasg., Foulis, 1753. 12°. 4 voll.

This neat edition is one of the more rare productions of the press of Foulis.

22174 — opera omnia. Ad edit. optimam Thdr. Ryckii accurate ex-

pressa. Lond., Brindley, 1754. 12°. 4 voll.

One of the rarer editions of Brindley's series. Also, *ib.*, *id.*, 1760. 18°. 4 vols.

22175 — quæ exstant opera. Recensuit J. Lallemand. Par., Desaint et Saillant, 1760. 12°. 3 voll.

Ernesti's text of 1752 corrected from a Paris MS. The reprint, *Par.*, Barbou, 1793. 12°. 3 vols. (15 fr.) is not so fine.

22176 — opera. Recognovit, emendavit, supplementis explevit, notis, dissertationibus, tabulis geographicis illustravit Gbr. Brotier. Par., Delatour, 1771. 4°. 4 voll.

With 2 maps in the 1st and 4th vols. A new recension from MSS. and old editions, not sufficiently acknowledged by German philologists. There are copies on large paper in small fol. and of these there are two which contain a dedication to the president Lamoignon. These large paper copies are greatly sought after (1043 fr. M'Carthy, 36l. 15s. duke of Marlborough). The supplementary parts to complete Tacitus, collected together by Brotier with peculiar diligence, were printed separately under the title, *Gbr. Brotier Supplementa libror. 7-10 annalium Taciti, primum recusa. Praga, Gerle, 1774. 8°.*

22177 — opera. Iterum recensuit, notas integras Justi Lipsii, J. F. Gronovii, N. Heinsii et suas addidit J. A. Ernesti. Lps., Weidmann, 1772. 8°. 2 voll. (3 d. 16 gr.)

A new recension from MSS. and old editions, but rather hastily edited and incorrectly printed.

22178 — opera, denuo recognovit, emendavit, supplementis, notis et dissertationibus illustravit Gbr. Brotier. Par., Delatour, 1776. 12°. 7 voll. Also on fine paper.

Enlarged with several new treatises, a supplement to the *Dialogus de oratoribus*, and a fragment of the 91st book of Livy.

Brotier's text with a good index. Well printed and very correct.

22181 — opera (ex rec. G. Ch. Crollii.) Ed. II. auctior et emendatior (curante F. Ch. Exter.) Biponti, 1792. 8°. 4 voll. (3 d. 9 gr.)

Previously, *ib.* 1779-80. 8°. 4 voll.

22182 — opera. Recognovit, emendavit, supplementis explevit, notis, dissertationibus, tabulis geographicis illustravit Gbr. Brotier. Edinb. 1796. 4°. 4 voll. (5l. 10s.)

This edition, inferior to the Paris edition in beauty, contains the apparatus of both Brotier's editions combined in one. An impression in 4 vols. 8°. (3l. 3s.) appeared at the same time.

22183 — opera ex rec. J. A. Ernesti. Denuo curavit Jer. Jac. Oberlinus. Lps., Weidmann, 1801. 8°. 2 voll. (5 d., on writing paper 7 d. 12 gr., on Dutch paper 12 d.)

F. A. Wolf superintended this edition from the beginning up to the *Annals*, II. 24. Reprinted, *Os.* 1813. 8°. 4 vols. (2l. 8s.) *Aug. Taurin., Pomba*, 1820-21. 8°. 5 voll.

22184 — opera. Vol. I. *Annales ad optimor. exemplarium fidem recensiti* a G. Alex. Ruperti. Gött., Dieterich, 1804. 8°. (1 d. 8 gr., on writing paper 2 d.) *Commentarius perpetuus.* *ib.* 1805. 8°. (2 d., on writing paper 3 d.)

No more has appeared.

22185 — opera. Recognovit, emendavit, supplementis explevit, notis, dissertationibus illustravit Gbr. Brotier. Editio nova et auctior. Lond., Valpy, 1812. 8°. 5 voll. (4l. 4s., on large paper 6l. 6s.)

A fine impression of Brotier's text with the apparatus of both his editions, indexed notes by Porson, and a selection from the notes of other commentators.

22186 — opera, juxta accuratissimam D. Lallemand editionem. Lugd. 1817. 12°.

22187 — opera omnia ex ed. Oberliniana, cum notis et interpretatione in usum Delphini, variis lectt., notis varior., Justi Lipsii excursibus, recensu codicum et editionum et indice locupletiss. accurate recensita. Lond., Valpy, 1821. 8°.

This foolish compilation occupies several

volumes. In addition, *Taciti Annalium supplementa, fragmentum libri XCI. Livii etc. ed. Gbr. Brotier. Lond.* 1821. 8°. (16s., on large paper 1l. 12s.)

22190 — opera, cum indice rerum. Ad optimor. libror. fidem adcuravit C. H. Weisse. Lps., Tauchnitz, 1825. 8°. 2 voll. (1 d.)

22191 — annalium libri IV. priores et in hos observatt. C. Paschalii. Par., ap. Rb. Colombellum in Aldina bibliotheca, 1581. fol.

4 leaves of preliminary matter, 248 pages, and 10 leaves of index.

22192 — annales. Parmæ, in ædibus Palatinis, typis Bodonianis, 1795. fol. 3 voll. on vellum paper.

Of this empty show-edition, which is not sought after, only 30 copies are said to have been printed according to the printer's announcement. From the same *form* he at the same time made 2 editions in 4°. one on royal paper, and the other on imperial. There is also an edition of the *Annals*, *Parmæ*, 1797. 8°. 2 voll.

22193 — observations littéraires, critiques, politiques, militaires, géographiques etc. sur les histoires de Tacite, avec le texte latin corrigé, par Edme Ferlet. Par. et Strb., Lévraut, an 9 (1801). 8°. 2 vols. with maps (12 fr., on vellum paper 24 fr.).

An edition of the text of the history with a good commentary, which however is but little known.

22194 — *Agricolæ vita cum notis A. Buchneri primum editis*, cura G. Schubarti. Lps., Hübner, 1683. 8°.

22196 — *Germania. Without place*

or date (*Nrb.*, *Cresner*, about 1473). fol. Gothic letter.

11 leaves with 33 lines, without signatures, catchwords, and numbering of the leaves. It begins in leaf 1^a with the line, *Cai. Cornelij Taciti. Equitis Ro. Germania incipit.* It ends in leaf 11^a in the 16th line with, *Laus deo clementissimo.* This edition appears, according to Passow, to originate from a good MS.

22197 — *Germania.* Without place or date (*Romæ, Gensberg*, about 1474). 4°.

16 leaves with 28 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a line 1 is, *CAL. CORNELII. TACITI. EQVITIS.* It ends in leaf 16^a with the line *Deo Gratias.* Dibdin is inclined, in *Bibl. Spenc.* VII. 187, to consider Schurener de Bopardia as the printer, although he admits that the printing is precisely the same as that in *Calderinus in Martialem. Romæ, Gensberg*, 1474. 4°.

22198 — de situ, moribus et populis Germaniæ aureus libellus. Lps., Wfg. Monacensis, 1502 (1502). 4°. Gothic letter.

Other bibliographers set this edition down less correctly in the year 1511, from the date being somewhat indistinctly expressed.

22199 — de situ Germaniæ et incolarum moribus libellus. Viennæ Pannoniæ, Singrenius, m. Jan. 1515. 4°. — And. Althameri commentaria Germaniæ in Taciti libellum de situ, morib. et populis Germaniæ (cum textu.) *Nrb.*, Petrejus, 1536. 4°. Ambergæ, 1609. 8°. — In Taciti Germaniam commentaria, auctore Jod. An edition cited by the academy della Crusca, but very faulty. The repetitions, *Fir., Landini*, 1641. fol. *Ven., Storti*, 1658. 4°. *ib., Pessana*, 1677. 4°. are not much better. The edition, superintended by Gi. Ant. and Gaetano Volpi, *Padova, Comino*, 1755. 4°. 2 vols. (of which there is one copy on blue paper, and one on large paper), is better, although not free from errors. On the contrary, the following

editions are very carefully superintended (by Raf. Pastore) and furnished with augmentations, *Bassano, Remondini*, 1790 or 1803. 4°. 3 vols. particularly that of 1803. *Mil.* 1799. 8°. 9 vols. (27 lire) is a common reprint of it. All these editions contain also the Latin text. The very neat edition, superintended by G. Conti, *Par, Quillau*, 1760. 12°. 2 vols. that by G. Biagioli, *Par., Fayolle*, an 12 (1804) 12°. 3 vols. and that which appeared at *Mil.* 1820. 12°. in 4 vols. contain only the Italian.

The text is printed after Brotier's edition with short Latin critical notes. Italian explanatory notes follow at the end of each vol. with a geographical index and one of names in the 7th vol. The translation is faithful and concise, without doing violence to the Italian language.

22207 — annali, trad. da L. Vittotio Savioli. Parma, Bodoni, 1804. large 4°. — Le istorie tradotte in lingua ital. da Gius. Sanseverino, de' Signori di S. Marcellinara. Napoli, 1819. 8°. — La vita di Agricola messa in volgare da Gi. Mar.

22209 — traduction complète des ouvrages de Tacite, avec des notes histor. et crit., par de la Bletterie et J. H. Dotteville. Par. 1799. 8°. 7 voll.

The impression in 7 vols. 12°. is on very bad paper. The editions, Par. 1774-79-80, and, *ib.* 1788. 12°. 7 vols. are better. The history only was translated by Dotteville, his other writings by Bletterie. This translation is not so much prized as the following.

22210 — œuvres complètes, traduction nouvelle par Dureau de Lammalle. Nouv. éd. avec le texte. Par., Michaud, 1817. 8°. 6 voll. (36 fr., 72 fr.)

The most prized French edition, and the best, although not the finest. At first, without the Latin text, Par., Barrois, 1790. 8°. 3 vols. (15 fr.), and then, Par. 1808. 8°. 5 vols. (30 fr.) This latter edition is the finest.

- 22279 — *l'Amadigi, colla vita dell' autore e varie illustrazioni dell' opere* (da Pt. Ant. Serassi). Bergamo, Lancellotti, 1755. 12°. 4 voll.
The best edition, and superintended with much accuracy.
- 22280 — *il Floridante poema*. Mantova, Osanna, 1587. 4°.

piosa finora uscita colla vita nuovamente descritta da Pt. Ant. Serassi. Bergamo, Lancellotti, 1749. 12°. 2 voll.

The best and most complete edition. Herein is also to be found his *Ragionamento della poesia* (previously Ven. 1562. 4°.)

22287 — lettere, accresciute, corrette e illustrate. Con la vita dell' autore scritta da Ant. Fed. Seghezzi. Padova, Comino, 1733-51. 8°. 3 voll.

The best and most prized edition, the 3rd vol. of which is seldom met with. There are also copies on blue paper. The earlier editions (at first, Ven. 1549. 8°.) are less complete.

22288 TASSO, Torquato. Opere, colle controversie sopra la Gerusalemme liberata. Fir., Tartini e Franchi, 1724. fol. 6 voll.

Gi. Bottari superintended this very correct edition, which is cited by the academy della Crusca. It is almost more prized than even the following edition.

22289 — opere con le controversie sopra la Gerus. liberata, e con le annotazioni intere di varj autori, notabilmente in questa impressione accresciute. Ven., Monti, 1735-42. 4°. 12 voll.

This edition was begun by Gius. Mauro, that is, Bonif. Collina; but the 1st vol. only, (Ven. 1722. 4°.) and the first 15 sheets of the 2nd vol. were then printed. In 1735 this 1st vol. received a new title, (the title-plate and the dedication to prince Eugenius being removed) and the edition was continued without interruption by Ant. Fed. Seghezzi. It is considerably more complete than the Florence edition, (particularly in the letters and smaller poems,) without being at a high price. There are copies on large paper.

22290 — opere. Mil. 1804-5. 8°. 4 voll. (*Classici Ital.*)

Containing only the *Gerusalemme*, *Discorsi e lettere*, *Aminta* and *Poesie amorose*. A copy on vellum in the Royal library at Paris.

22291 — opere, colle controversie sulla Gerusalemme, poste in miglior ordine, ricorrette sull' edizione Fiorentina ed illustrate da Gi. Rosini. Pisa, Capurro, 1821 sq. 8°. 7 vols. as yet.

22292 — il Goffredo, nuovamente

dato in luce. Ven., Cavalcalupo, 1580. 4°.

This 1st edition, superintended by Celio Malaspina without Tasso's knowledge of it, contains only 16 cantos, and is incorrect and full of *lacunæ*. The 4th canto had already appeared by itself in 1579 in the 2nd part of the *Scelta di rime di diversi eccellenti poeti* (Genova, 12°.)

22293 — Gerusalemme liberata, tratta da fedelissima copia ed ultimamente emendata di mano dell' autore. Aggiunti a ciascun canto gli argomenti di Orazio Ariosto. Casalmaggiore, Canacci e Viotti, 1581. 4°.

This 2nd edition, superintended by Ang. Ingegneri also without Tasso's knowledge, contains 20 cantos, but is likewise not without *lacunæ*. A neater reprint is, *Parma*, Viotti, 1581. 12°. but an incorrect one, *Lione*, Roussin, 1581. 16°.

22294 — il Goffredo, nuovamente corretto e ristampato. Con gli argomenti ed allegorie a ciascun canto d'incerti autori. Ven., Perchacino, 1581. 4°.

Malaspina's 2nd edition, more complete than that by Ingegneri, and tolerably correct.

22295 — Gerusalemme liberata, tratta dal vero originale, con aggiunta di quanto manca nell' altre edizioni, e con l'allegoria dello stesso autore. Ferrara, Baldini, 1581. 4°.

The first regular edition, prepared by Febo Bonna under Tasso's inspection, yet not quite correct. Its dedication is dated June 24. It went off so rapidly that after 26 days it had to be printed afresh.

22296 — (the same title). Ferrara, Rossi, 1581. 4°.

The dedication of the 20th of July. This 2nd edition by Bonna is more correct than the preceding, and may be considered as the first good edition of the poem.

22297 — la Gierusalemme liberata ovvero il Goffredo, di nuovo ricorretto e secondo le proprie copie dell' autore ridotto a compimento tale, che non vi si può altro più desiderare. Parma, Viotti, 1581. 4°.

With valuable annotations and explanations by Bonna Angeli at the end of each canto. This very complete and correct edition has been the model of all that have followed.

22298 — il Goffredo nuovam. corretto e ristampato. Ven., Perchacino, 1582. 4°.

Malaspina's 3rd edition, with the addition of important various readings and of several stanzas, not printed before.

22299 — Gierusalemme liberata, ridotta alla sua vera lezione secondo il proprio originale dell' autore. Con aggiunte di molte stanze, che dall' autore sono state rifiutate e mutate a suoi luoghi. Mantova, Osana, 1584. 4°.

Scipio of Gonzaga took great part in this excellent edition, which Serassi declares to be the best of all.

22300 — la Gerusal. liberata con le figure di Bn. Castello e le annotazioni di Scip. Gentili e di Giul. Guastavini. Genova, Bartoli, 1590. 4°.

Prized on account of the plates by Agst. Caracci and Giac. Franco, and the annotations. The plates to cantos 6, 7, 8, 10, 12, 16, 17, 19 and 20 are by Caracci. In some copies the plate of the 4th canto is the same as that of the 5th, and these copies are in consequence at a lower price.

22301 — la Gerusalemme con gli argomenti di Gi. Vinc. Imperiale, figurata da Bn. Castello. Genova, Pavoni, 1604. 12°.

The very neat plates of this somewhat incorrect edition are different from those in the edition of 1590. A copy on blue paper 15s. Pinelli. Repeated, *ib. id.* 1615. 12°.

22302 — il Goffredo ovvero la Gerus. liber. Roma, Ruffinelli, 1607. 24°.

With neat plates by Ant. Tempesta. Repeated *Roma*, 1621 or 57. 24°. with the same plates.

22303 — la Gerusalemme, figurata da Bn. Castello. Genova, Pavoni, 1617. fol. with plates.

The annotations are the same as those in the edition of 1590; but the plates are different and not so fine.

22304 — il Goffredo ovvero la Gierus. liber. col commento del Beni. Padova, Crivellari, 1625. 4°.

This edition was interrupted by Beni's death, it goes only as far as the 5th canto, and is of such rarity that Serassi thought he possessed the only copy. The commentary to the first 10 cantos had previously appeared in the edition, *Padova, Bolsetta*, 1616. 4°.

22305 — il Goffredo ovvero la Gerusal. liber. Par., stamperia reale, 1644. large fol.

A splendid edition, yet not sought after. Besides the bare text, it has only a title-plate and vignettes designed by Stella and engraved by Rousselet. There are copies in which the plate by Castello, either from the edition of 1590 or from Ant. Tempesta's, is added.

22306 — il Goffredo con gli argomenti del Horatio Ariosto: aggiuntovi i cinque canti del Camillo Camilli. Amst., Combi e la Nou (Elzeviri). 1652. 24°. 2 voll.

A fine edition and more scarce than the following. Camilli's completion of the poem at first appeared in the edition of the *Gerusalemme*, Ven., Franceschi, 1583. 4°.

22307 — il Goffredo ovvero Gerusal. lib. Amst., Dn. Elsevier, 1678. 24°. 2 voll.

A neat edition with 12 plates by Seb. le Clerc.

22308 — la Gierusal. liber. con le figure di Bn. Castelli, le annotaz. di Scip. Gentili e di Giul. Guastavini. Aggiuntovi la vita dell' autore scritta da Gi. Bt. Manso, e la tavola delle rime, con altre aggiunte e correzioni. Lond., Tonson e Watts, 1724. large 4°. 2 vols. with plates.

A fine and valuable edition, though not bearing a high price, superintended by N. Fr. Haym. The text is that of the edition of 1590, and collated with other editions. The plates are also accurate re-engravings from those of the edition of 1590.

22309 — la Gerus. liber. di Tasso con la vita del medesimo, allegoria del poema, argomenti incisi ne' rami del Tempesta, ed indice di tutti i nomi proprj, e materie principali contenute nell' opera, e con le annotazioni di Scip. Gentili e di Giul. Guastavini. Urbino, Mainardi, 1735. fol. with plates.

A fine and very showy, yet not dear, edition. The text is corrected from the best editions, and adapted to the modern orthography. *Roma, Mainardi*, 1758. fol. is only a new title to this edition.

22310 — la Gierus. liber. con gli argomenti e le figure intagliate in rame da Gi. Bt. Piazzetta. Ven.,

Albrizzi, 1745. large fol. with plates.

This fine edition was also more prized formerly than it is now. The plates (to the number of 20) are very spirited. There are copies on Dutch paper.—A reprint of the same date may be distinguished by the plates having no references, but instead thereof the passages themselves to which they belong.

22311 — il Goffredo ovvero Gerus. liber. Nuova ediz. arricchita di figure in rame e d'annotaz., colla vita dell' autore. Ven., Groppo, 1760. fol. 2 vols. with plates.

A fine and correct edition, which besides the usual plates, has also very indifferent re-engravings of those of Castelli of 1617, and also a great many new ones by Pierant. Novelli. The annotations are by Gentili and Guastavini. Repeated, *ib.* 1762. fol. 2 vols.

22312 — la Gerus. liber. Par., Delalain, 1771. large 8°. 2 vols. with plates.

A neat edition of only the text with excellent plates, designed by Gravelot, and engraved by Enriquez. There are copies also on Dutch paper, and on large paper in 4°.

22313 — la Gerus. liber. Nuova ediz. stampata d'ordine di Monsieur. Par., Didot, 1784–86. large 4°. 2 vols. with 41 plates.

Of this very fine edition with plates after Cochin, by Tilliard and others, only 200 copies were struck off. There are 2 copies on vellum, (900 fr. M^cCarthy, again offered for sale at 1800 fr.) In the same year Didot prepared a very fine reprint in 2 vols. in large 4°. on vellum paper with the same plates: this came into the market.

22314 — la Gerus. liber. Parma, Bodoni, 1794. fol. 2 voll. (220 fr.)

Only 130 copies are pretended to have been printed, three *ottave* in a page. To which may be added, *Pt. Ant. Serassi Ragionamento sopra la controversia del Tasso e dell' Ariosto*. Parma, Bodoni, 1794. fol. 12 leaves, (only 75 copies were printed).

22315 — la Gerus. liber. Parma, Bodoni, 1794. fol. 3 vols. on vellum paper (170 fr.)

Pretended to consist only of 90 copies, 2 *ottave* in a page.

22316 — la Gerus. liber. Parma, Bodoni, 1794. large 4°. 2 voll. (60 fr., small fol. 80 fr.)

22317 — la Gerus. liber. Parma, Bodoni, 1807. large 4°. 2 vols.

There is a copy on vellum of this edition.

22318 — la Gerus. liber. Pisa, 1807. fol. 2 voll. (8 zecchini.)

Of this edition, superintended by Rosini, only 250 copies were struck off, and one on vellum. Prefixed to the 1st vol. is Tasso's portrait by Morghen.

22319 — ἡ Ἱερουσαλὴμ ἐλευθερωμένη, ποιημὰ ἡρώικον, Μεταφρασθεὶς ἐκ τῆς Ἱταλικῆς ἐποποιίας εἰς τὴν ἀπλὴν ἐλληνικὴν διαλεκτὸν παρὰ τοῦ Δημητρίου Γουζέλη. Ἐν Ἐνεσίαις, Θεόδωρος. Ἰωαννῖνος, 1807. 8°. with plates.

22320 — Jérusalem délivrée, traduction nouvelle (par le Brun). Par., Bossange, 1803. 8°. 2 vols. with 1 portrait and 20 plates (24 fr.). Also on vellum paper.

Repeated *Par., Bossange*, 1811. 12°. 2 vols., some copies of which were struck off on vellum paper in folio, and 2 copies on vellum in folio.

22321 — Jérusalem délivrée, trad. en vers franç. par Baour-Lormian. Par., Didot, 1819. 8°. 3 vols. with plates, (21 fr., on vellum paper 42 fr.)

Also on large vellum paper, with plates *avant la lettre* 25 copies (100 fr.) Ed. II. *revue et corr.* Par., Didot, 1821. 8°. 2 voll. (12 fr.)

22322 — Gottfried. Oder erlösetes Jerusalem. Deutsch (von Dietr. von dem Werder.) Corrected Ff. a. M., Presse, 1651. 4°. with plates. Previously *ib.* 1621. 4°. with plates. — Befreites Jerusalem, übs. von J. D. Gries. 3 Aufl. Jena, Frommann, 1819. 8°. 2 voll. (3 d. 12 gr., on vellum paper 5 d. 16 gr.)

22323 — Jerusalem delivered, transl. by J. Hoole. Lond. 1803. 4°. 2 vols. with plates. At the same time also in 8°. 2 vols. with plates. Lond. 1811. 8°. with plates.—Jerusalem delivered, done into Engl. by Edw. Fairfax (edit. by Sm. Weller Singer.) Lond., Bensley, 1817. 8°. with woodcuts, (11. 5s., on large paper 3l. 3s.) At first Lond. 1600. fol.—Jerusalem delivered, with notes and illustrations,

- transl. by J. H. Hunt. Lond. 1819. 8°. 2 vols. with woodcuts (11. 10s.)
 — Jerusalem delivered, transl. into Engl. Spenserian verse by J. H. Wiffen. Lond. 1825. 8°. 2 voll.
 22324 — di Gerusalemme conquistata libri 24. Roma, Facciotti, 1593. 4°. The first edition of this modification of the preceding poem.

- 22325 — di Gerusalemme conquistata libri 24. Par., Angelieri, MDLXV (1595). 12°.

This scarce edition was forbidden by a decree of parliament, 1 Sept. 1595, because Tasso in the 75th and 76th stanzas of the 20th canto, in describing the then unquiet state of France, defended the popes' right to dispose of kingdoms according to their pleasure. Consult *Mélanges tir. d'une gr. bibl.* XI. 278. XIII. 353.

- 22326 — il Rinaldo. Ven., Senese, 1562. 4°.

The first edition. The editions, *Ven., Franceschi*, 1570. 4°. *Mantova, Osanna*, 1581. 4°. are also printed.

- 22327 — Rinaldo innamorato, di nuovo riveduto e corretto. Ven., Aldo, 1583. 12°.

Lelio Gavardo was the editor. This edition was also added to the 2nd part of the *Rime* of Tasso, printed by Aldus in the same year.—Translated into English by Hoole, *Lond.* 1792. 8°.

- 22328 — Aminta favola boscareccia. Ven., (Aldo), 1581. 8°.

4 leaves of preliminary matter, 70 pages and 1 blank leaf. The first edition and very scarce. Also in the 1st vol. of the *Rime* of Tasso printed by Aldus in the same year. Of this latter impression in 74 pages, separate copies are sometimes met with, which have given rise to the statement of an undated edition of 1580.

- 22329 — Aminta favola boscareccia, di nuovo corretta et di bellissime et vaghe figure adornata. Ven., Aldo, 1590. with woodcuts.

4 leaves and 80 pages. N. Manassi was the editor.

- 22330 — Aminta. Par., Cramoisy, 1654 (other copies 1656). 4°.

A fine and correct edition, but not sought after.

- 22331 — Aminta, con le annotaz. d'Egidio Menagio. Par., Courbé, 1655. 4°. with plates.

Prized on account of its beauty, and of Menagio's annotations. Reprinted, *Ven., Pasquali*, 1736 or 50. 8°.

- 22332 — Aminta. Leida, Gi. Elzevier, 1656. 12°.

A very pleasing edition, in which also the *Amor fuggitivo* and the *Conclusioni amoroze* are to be found.

- 22333 — Aminta. Amst., Elzevier, 1678. 32°.

A neat edition with 7 plates by Seb. le Clerc. The first impressions are unnumbered.

- 22334 — l'Aminta, favola boscareccia, e l'Alceo favola pescatoria di Ant. Ongaro. Padova, Comino, 1722. 8°.

This uncommonly correct edition was superintended by Gi. Ant. Volpi. A copy on vellum 48 Dutch fl. Crevanna, 300 fr. M'Carthy.

- 22335 — Aminta. Par., Didot, 1781. 8°.

Of this edition there were only struck off 50 copies on *pap. d'Annonay* and 12 on vellum.

- 22336 — Aminta favola boscareccia ora per la prima volta alla sua vera lezione ridotta. Crisopoli (Parma), Bodoni, 1789. 4°.

One of the finest of Bodoni's typographical productions, 50 copies of which were struck off on strong paper, as many on vellum paper, and 2 on vellum, (402 fr. M'Carthy.) This edition, superintended by Pt. Ant. Serassi after Tasso's original MS. contains a very pure text. Bodoni prepared under the same date a less fine reprint in 1792, which may be distinguished, by having *ora* instead of *or* in the last verse of the 18th page.

- 22337 — Aminta favola boscareccia ora alla sua vera lezione ridotta. Crisopoli (Parma), Bodoni, 1793. fol.

On ordinary and on fine paper, 15 copies on vellum paper, and one on vellum.

- 22338 — — (the same title) Crisopoli (Parma,) Bodoni, 1796. large 8°.

There are 100 copies of this edition on vellum paper, and 2 on vellum. Bodoni also prepared at the same time an edition in small 4°. of which there are also copies on vellum paper and on vellum.—All these editions of Bodoni nevertheless stand at a low price on account of their useless multiplication.

22339 — *Aminta*. Lond., Dulau, 1800. 8°.

Very fine. The entire impression consisted of 250 copies on vellum paper. Ln. Nardini was the editor.

22340 — *Aminta colle stanze del Poliziano*. Pisa, 1806. fol. Also on vellum paper.

22341 — *l'Aminte, pastorale, imitée en vers franç. et accompagnée de notes*, par Baour-Lormian. Par. 1813. large 18°. with plates (4 fr., on vellum paper 12 fr.) Amynt metrisch übs. v. F. Gli. Walter. Berl. 1794. 8°. (8 gr.) *Amint. a. d. Ital.* von E. Schaul. Carlsruhe, 1809 or 17. 8°. (16 gr.) *Amyntas* transl. by Leigh Hunt. Lond. 1820. 12°. (7s. 6d.)

22342 — *rime*. P. I. e II. Ven., Aldo, 1583. 12°. 2 voll. Aggiunta alle rime e prose. *ib.*, *id.*, 1585. 12°.

Aldus first published a part I. *Ven.* 1581. 8°. which is very scarce, but was not continued. Afterwards appeared P. I. e II. *ib.*, *id.*, 1582. 12°. which edition is very incorrect. The above is the best by Aldus.

22343 — *rime*. P. I.—VI. Ferrara e Ven., Vassalini, 1585-87. 12°. 4 voll.

Gi. Bt. Licino superintended this edition.

22344 — *rime*. P. I.—IX. Ven., Deuchino, 1621. 12°.

Superintended by C. Fiamma, who however allowed himself great liberties.

22345 — *raccolta di varie poesie, ricavate da suoi manoscritti inediti*. (Roma), Nicoli, 1789. 8°.

22346 — *versi inediti*. Parma, Bondoni, 1812. 8°.

22348 — *lettere familiari, libro I. e II.* (edite da Gi. Bt. Licino). Bergamo, Ventura, 1588. 4°. *Lettere non più stampate* (ed. da Giul. Segni). Bol., Cocchi, 1616. 4°. *Lettere familiari non più stampate* (da Ant. Constantini). Praga, Leopoldi, 1617 or 30. 4°. *Lettere e versi, che si pubblicano la prima*

volta (da Gius. Bernardoni). Mil., Bernardoni, 1821. 8°. 48 pages. *Lettere ed altre prose raccolte da Pt. Mazzucchelli*. Mil., Pogliani. 1822. 8°. VII. and 248 pages.

The bibliographical notices respecting Tasso's writings, and the various editions and translations of them, are collected the most completely in my book, *Tasso's leben u. Charakteristik nach Ginguéné dargestellt*. Lps., Brockhaus, 1819. 8°. (1 d. 8 gr.)

22349 TASSONI, Aless. La Secchia, poema eroicomico in ottava rima di Androvinci Melisone (Aless. Tassoni), con li argomenti di Alber. Baris. Par., du Bray, 1622. 12°.

The 1st edition of this comic epic poem, and scarce.

22350 — *la secchia rapita*, poema eroicomico, e 'l primo canto dell' Oceano del Tassone, ristampato. Ronciglione (Roma), Brugiotti, 1624. 12°.

In the title of this 2nd edition there appears for the first time the word *rapita*, and the real name of the author. It is by no means a mere reprint, but has matter of its own.

22351 — *la secchia rapita con le dichiarazioni di Gasp. Salviani, accresciute ed ammendate dal abate Marchioni*. Osford, teatro Sceldoniano, 1737. 8°. 2 parts in 1 vol.

(Holland)* 1692. *Utrecht*, 1712, and *Haye*, 1715 or 1718, all in 3 vols. 12°. are almost prized as much. *Par.* 1715. 12°. 6 parts in 3 vols. is less prized; and *Amst. This collection, which is but indifferently engraved, ought to contain 245 plates. The 1st edition is preferred on account of the better impressions. With a French title, *Brux.* 1666. fol. and with one in Dutch, *Antw.* 1673. fol. The work at first appeared in separate pieces, *Antw.*, *Abr. Teniers*, 1658. fol. 233 leaves. Also, *Ant.*, *Verdussen*, without date (1684). fol.—In the edition of 1660 a second engraving, by F. van Eteen, of Caracci's death of Christ is usually found, and then the entire number of engravings is 246. This double plate is wanting in the subsequent editions, in which it is replaced by a perspective view of a part of the Vienna gallery. There are only new impressions of the same plates, in *Le grand cabinet de tableaux de l'archiduc Léopold Guillaume*. Amst. 1755. fol.—Consult also *Beckmann's Litt. der Reisebeschr.* I. 643.

22416 TERENCEIANUS (Maurus)

de literis, syllabis et metris Horatii. Mediol., Uld. Scinzenzeler, prid. non. Febr. 1497. 4°.

The first edition and very scarce. 42 leaves, with the signatures a-g, and 39 lines. Dibdin's description in the *Bibl. Spenc.* III. 113, leads one to conjecture that this edition also contains *Fortunianus De carminibus Horatii*, *Vellus Longus De orthographia*, *Adamantius De orthographia*, *Catholica Probi*, and *Corn. Frontonis elegantia*.

22417 — de literis, syllabis, pedibus et metris Horatii. Ven., J. de Cereto de Tridino, 10 Jun. 1503. 4°.

22422 TERENCE Afer, Publ. Comœdiæ. Without place or date (*Arg., J. Mentelin*, about 1470). fol. Gothic letter.

Of no Latin classic did so many undated editions appear in the 15th century as of Terence. Although several of them are evidently later than the dated ones that are placed after, yet for the sake of an easier survey of them, I prefer stating all these undated editions before the others, especially as the probable time of the appearance of several cannot be found out.

The above is certainly one of the first editions, if not the very first. According to a contemporaneous note of a former possessor of the copy discovered by See-miller (now in lord Spencer's possession, consult *Panzer Ann. typ.* I. 74 IV. 224,

and *Bibl. Spenc.* IV. 404 sq.), it is certain that it was printed at the latest in 1470, and certainly by Adf. Rusch von Ingulien, Mentelin's son-in-law. 100 leaves with 32 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1a, lines 1-3 are,

Publij Terentij Affri poete comici comediarū liber incipit feliciter.

Epitaphium terentij.

The *Andria* ends in leaf 17a, the *Eunuchus* in 35b, the *Heautontimor.* in 52a, the *Adelphi* in 68b, the *Hecyra* in 82a, and the *Phormio* in 100b. In this last page is the colophon,

Publij Terentij Affri Poete

Comici Comediarium liber Finit.

The last page has only 21 lines. The printing is the same as in Mentelin's *Valerius Maximus* and *Virgil*. The text is printed in a continuous form like prose. (A copy at Wolfenbüttel). An edition of *Donatus in Terentium* by Mentelinus, see above, No. 6333.

22423 — comœdiæ. Without place or date (*Col., U. Zell*, about 1472). fol. Gothic letter.

A very scarce edition. 100 leaves with 34 and 35 lines, without signatures, catchwords, and pagination. Leaf 1a is blank, the 1st line of 1b is, *Terentij vita excerpta de dictis d. F. Petraræ*. The text of the *Andria* begins in 3b, and the 1st line is, *Simo senex. Sosia servus*. The *Eunuchus* begins in 19a, the *Heautontimor.* in 37a, the *Adelphi* in 53b, the *Phormio* in 71a, the *Hecyra* in 88b; leaf 100b (which page has 16 lines) ends with a notice of 3 lines, *Ex Eusebio de temporibus*. In this edition the verses are divided, but not always correctly. It agrees page for page and line for line with the undated edition described below under No. 22431, which is a reprint of the edition which appeared in 1471 by J. de Colonia at Venice. The printing bears a resemblance indeed to the Mentz Bibles of 1462 and 1472, and the edition has in consequence sometimes been attributed to Schöffer's press, but it bears a still greater resemblance to R. de Licio's *Opus quadragesimale*, *Col., U. Zell*, 1473. fol.

22424 — comœdiæ. Without place or date (*Par., Gering, Crantz et Friburger*, about 1471 or 72). fol.

Printed with the types with which these printers printed *Florus*, *Phalaris*, and *Salust.* 86 leaves with 32 lines, without signatures, catchwords, and numbering of the leaves, and without any division into verses. Leaf 1a line 1 is, *Publij Terentij afri poete comici Andria incipit feliciter*. The *Phor-*

mio ends in leaf 86, and the last line is, *Comædia R_p liber Finis Feliciter.*

- 22425 — comediae. Without place or date (*Brixia*, about 1471). 4°.

A very scarce edition, of which lord Spencer's copy, which wants the first 2 leaves, is the only one known. 126 or 127 leaves, with 26 lines, without signatures, catchwords, and numbering of the leaves, and without any division into verses. The *Hecyra* ends on the *folio recto* of the last leaf with the following colophon in 4 lines, TERRENTII. AFRI. COMICI. POETE. ECHIRA. FELICITER. EXPLICIT. AMEN. The printing is very irregular and crude, and has a resemblance to that of the *Deo-gracias* edition of Boccaccio, on which account also it is not certain that it does belong to a Brescia press.

- 22426 — comediae. Without place or date (*Neap.*, *Sixt. Riessinger*, 1471). 4°.

A very scarce edition, of which only lord Spencer's copy, and the defective one in the library of Stuttgart are known. 134 leaves with 22 lines (yet the last 4 pages have 23 and 24), without signatures, catchwords, and numbering of the leaves, and without any division into verses. Leaf 1^b begins with a life of Terence in 24 lines. Then follow the argument to the *Andria*, and the epitaph of Terence in 2^b. The last line of leaf 134^b is, *Plaudite Caliopius recensui. Finis Terentii Africani.*

- 22427 — comediae. Without place or date (*Romæ*, *U. Han*, 1472-73). fol.

A very scarce edition. 90 leaves with 33 lines, without signatures, catchwords, and numbering of the leaves, and without any division into verses. Leaf 1^a begins with a life of Terence (*Terentius apher genere*) and the argument to the *Andria*, and the last line of leaf 90^a is, *Caliopius recensui. Finis Terentii Africani.* In the copy in the Royal library at Paris leaf 56^b ends with *illas*, leaf 57 is blank, and 58^a begins with *ibo*, without any thing appearing to be wanting. In Dibdin's *Tour*, II. 291, this edition is considered as the 2nd (that by Mentelin as the 1st).

- 22428 — comediae. Without place or date (*Romæ*, *J. Ph. de Lignamine*). large 4°.

106 leaves (the 1st blank), without signatures, catchwords, and numbering of the leaves, and without any division into verses. Leaf 106^b ends with a *register*.

- 22429 — comediae. Without place

or date (*Romæ*, *Bm. Guldinbeck*, about 1475). fol.

70 leaves (the first and last blank), without signatures, catchwords, and numbering of the leaves. At the end is a *register*.

- 22430 — comediae. Without place or date (*Romæ*, *G. Lauer*). large 4°.

104 leaves, without signatures, catchwords, and numbering of the leaves. Superintended by Ang. Sabinus, and corrected from ancient MSS. At the end is the colophon in 3 lines, *Terentii Aphri Carthagenensis Comedia sexta et ultima per Angelū Sabinū Poe. lau. limatio facta finit feliciter.*

- 22431 — comediae. Without place or date (*Ven.*, *J. de Colonia*, about 1472). fol.

A reprint of the edition, *Ven.*, *J. de Colonia*, 1471. 100 leaves with 34 lines, without signatures, catchwords, and numbering of the leaves, but with a division into verses. *ij* and *v* are throughout the book in Gothic characters. Leaf 1^a line 1 is, *Terentii bita excerpta de dictis d. F. Petrarce.* The text begins in leaf 3^a: leaf 100^b ends with a notice respecting Terence, *Ex Eusebio de temporibus.*

- 22432 — comediae. Without place or date (*Ven.*, about 1476). large 4°.

Superintended by Ant. Moretus. 125 leaves, without signatures, catchwords, and numbering of the leaves, with a division into verses. Leaf 1^a begins with the 2 lines,

LIBER TERENTII AFRI COMICI
INCIPIT FOELICITER.

The text of the *Andria* begins in leaf 1^b. At the end of the *Hecyra* is, *Antonius Moretus academicus emendavit.* A life of Terence occupies the last 2 leaves (*excerpta ex dictis D. F. Petrarce*), and at the end is the colophon in 2 lines in small capitals; *Terentii Aphri comici poetæ Hecyra feliciter finit.* The edition is very incorrectly printed.

- 22433 — comediae. Without place (*Romæ*), *J. Hugo de Gengenbach* (about 1482). fol.

107 leaves with 32 lines, without signatures, catchwords, and without any division into verses. It begins with the superscription, *Terentius apher Carthagenensis. ex libris per alios correctis, et ex variis antiquis codicibus perspectis per A. Sabinum poetam lau. emendatio factus.* At the end is the colophon, *Terentii Aphri poetæ comici comedia finiunt feliciter per Johannem*

Hugonis de Gengenbach. DY BENE VER-
TANT. A register follows the colophon.
Brunet, who has made known this edition
for the first time from the copy in the
Royal library at Paris, is inclined to set it
down about 1474, in which year Sabinus
published his *Paradosa in Juvenalem* at
Rome. But no typographical production
of Gengenbach's is known of prior to 1482,
and this edition is perhaps only a reprint of
Lauer's (see No. 22430).

22434 — comœdiæ. Without place
or date (about 1478). fol. Gothic
letter.

A very scarce edition. 167 leaves with
19 lines, without signatures, catchwords,
and numbering of the leaves, and without
any division into verses. Leaf 1^a begins
with the superscription, *Publij Terentij
Affri poste comici commendarius (sic) liber
Incipit folioiter*. Underneath is the epi-
taph of Terence and the argument, and
the prologue of the *Andria* is on the re-
verse. The text of the *Andria* begins in
leaf 2^a, and ends in 28^a. The last 2 lines
of leaf 167^a are,

*Publij Terentij Affri Poste Comici
Comediarum liber finit.*

The type is entirely the same as that in
Aretini Calphurnia et Gurgulio. In
monast. Sorteni, 1478. fol. (see above, No.
979). *Braun*, I. 83, quite erroneously at-
tributes this typographical production to
Valdarfer of Milan. From an ocular in-
spection of the work of Aretinus at Wol-
fenbüttel, I am convinced that the words
in *monast. Sorteni*, which are also extant
in MSS., relate not to the place of printing,
but of composition (as Mercier de S. Léger
very justly conjectured); that it is evi-
dently a German production, and probably
belongs to Cologne, as the paper-mark is
the anchor, No. 51, in Santander. In the
library at Blenheim in England is a copy
of this Terence, in which a modern chest
has added in printing at the end, the year
M.CCCC.LXIX.

22435 — comœdiæ. Without place
or date (about 1475). small fol.

With 34 lines, without catchwords and
numbering of the leaves, but with the sig-
natures A-M, without any division into
verses. In Gaignat's catalogue it is erro-
neously stated to be a typographical pro-
duction by Vindelinius de Spira or Zarotus,
and is set down in 1470. First come 2
leaves with a life of Terence, and the re-
verse of the last leaf contains the register.

22436 — comœdiæ. Without place
or date (*Par.*, *Gering*, about 1478).
fol.

Printed with the same fine round type as
VOL. IV.

the Virgil by Gering in 1478. With the
signatures a ij-15 and 30 lines, without
any division into verses. The edition be-
gins with a life of Terence.

22437 — comœdiæ. Without place
or date (*Par.*, *Gering*, about 1478).
fol.

With 28 lines and signatures. The type
is the same as in the preceding edition.

22438 — comœdiæ. *Par.*, in vico S.
Jacobi sub signo folliis viridis (*Stoll
et Cesaris*, 1476-80). fol.

With 25 lines, without signatures, catch-
words, and numbering of the leaves, and
without any division into verses.

22439 — Therencius poeta cum co-
mento donati grammatici. Without
place or date. 4°. Gothic letter.

With the signatures A-Z and a-s. At
the end is *Finis*.

22440 — comœdiæ. Ven., Joannes
Agrippinæ Colonie decus impres-
sit, 1471. fol.

The first dated edition (since the pre-
tended first, *Mediol.*, *Ant. Zarotus*, 13
Mart. 1470. fol. rests only on the copy of
the edition, *Mediol.*, *Zarotus*, 13 *Mart.*
M. CCCC. LXXXI., in lord Pembroke's li-
brary, in which the final xi. has been
fraudulently erased. 100 leaves with 34
lines, without signatures, catchwords, and
numbering of the leaves, but with a divi-
sion into verses. A life of Terence occu-
pies leaf 1 and leaf 2^a, leaf 2^b is blank.
Leaf 3^a is the epitaph of Terence, the ar-
gument and the prologue of the *Andria*,
the text of which play begins in 3^b. Leaf
100^b is the colophon, and the last line is,
Finis felix.

22441 — comœdiæ. Romæ, Cr.
Sweynheym et Arn. Pannartz, 6
Oct. 1472. fol.

71 leaves with 38 lines, without signa-
tures, catchwords, and numbering of the
leaves, and without any division into
verses. Leaf 1^a begins with a short notice
of Terence, and the first line is, *Terentius
Apher genere: Civiis*. The text of the
Andria begins in the middle of leaf 2^a.
The 6 verses, *Aspicis illustris lector* etc.
close 71^b, and the last line is, M. CCCC. LXXII.
die. vi. Octobris. This edition was printed
directly from a good MS. The edition of
Donatus specified in No. 6334 belongs
to it.

22442 — comœdiæ. Ven. (*Vindel. de
Spira*), 3 non. Maj. 1473. fol.

This date stands under the letter of
Raph. Regius, which is prefixed, and begins
6 D

the book in leaf 1^b. The *Hecyra* ends with the line, *Finit*. Then follows in a separate leaf an epigram of Cippicus in 10 verses. Without signatures, catchwords, and numbering of the leaves, but with a division into verses. The Donatus by Vindelinus de Spira (see above, No. 6335) appears to belong to this edition.

- 22443 — comœdiæ. Without place (*Mediol.*, *Valdarfer*), pridie nonas Augusti 1474. fol.

104 leaves with 33 lines, without signatures, catchwords, and numbering of the leaves, but with a division into verses. In some copies signatures have been subsequently printed. Leaf 1 and 2^a contain the life of Terence. Leaf 3^a begins with the lines,

ANDRIA.

PUBLII TERENTII AFRI.
POETÆ COMICI.

The last line of leaf 104^b is, M. CCCC. LXX. IIII. PRIDIE NONAS AVGVSTI. A copy on vellum in the imperial library at Vienna. This edition is printed from a different MS. from that of the Venetian edition of 1471.

- 22444 — comœdiæ. In Sancto Ursio, J. de Reno, die ult. Aprilis 1475. fol.

104 leaves with 35 lines, without catchwords and numbering of the leaves, but with the signatures *a-n ij*, and with a division into verses. The signatures are far below the text, and were only printed subsequently. First are 2 leaves, *Terentii vita ex Donati commentariis excerpta*.

- 22445 — comœdiæ. Without place, 12 cal. Aug. 1475. small fol.

97 leaves (the defective Florence copy of 94 leaves is completed with 3 written leaves) with 34 lines, and with a division into verses. The first 2 leaves contain *Terentii vita ex Donati commentariis excerpta*. Leaf 3^a begins the text, and the 1st line is, PVBLLII TERENTII AFRI POETE.

- 22446 — comœdiæ cum commentariis Donati et Calphurnii. Ven., Jac. Gallicus, 8 cal. Sept. 1476. fol.

The first edition with these commentaries. Very incorrectly printed.

- 22447 — comœdiæ. *Mediol.*, *Za.* (*Ant. Zarotus*), 7 cal. Mart. 1476. fol.

- 22448 — comœdiæ. *Mediol.*, *Za.*

- (*Ant. Zarotus*), 22 Mart. 1477. fol.

Also, *ib.*, *id.*, 13 Mart. 1481. fol.

- 22449 — comœdiæ cum Donati interpretis commentario juxta fidele Calphurnianæ castigationis exemplar. Tarvisii, Hm. Levilapis, 14 cal. Oct. 1477. fol.

180 leaves (the first and last blank), with the signatures *A-L* and *a-l*.

- 22450 — comœdiæ. Neap. (*Fr. de Dino*), 14 Aug. 1478. fol.

A very scarce edition, the text of which bears the most resemblance to that of the edition by U. Han (see above, No. 22427). 85 leaves with 32 lines, without signatures, catchwords, and numbering of the leaves, and without any division into verses. It begins with a short life of Terence; in leaf 85^a is the colophon and a *register*, as in Han's edition. This edition has sometimes been erroneously attributed to the press of Moravus.

- 22451 — comœdiæ. Taurini, J. Fabri, 1478. fol.

Also, *ib.*, *id.*, 23 Jun. 1483. fol.

- 22452 — comœdiæ. *Mediol.*, Dm. de Vespalote et Jac. de Marliano, 9 Sept. 1478. fol.

104 leaves with signatures.

- 22453 — comœdiæ cum commentariis Donati et J. Calphurnii. Ven., N. Girardengus, 15 Dec. 1479. fol.

178 leaves (the first blank) with signatures. The last leaf contains a *register*.

- 22454 — comœdiæ cum comment. Æl. Donati. Ven., And. de Asula et Bm. de Alexandria, 1480. fol.

Also, *ib.*, *id.*, 1483. fol. Gothic letter.

- 22455 — comœdiæ. Parmæ, Genexius del Cerro, pridie cal. Aug. 1481. fol.

Very scarce. With the signatures *a-l*. Leaf 1^a begins with the notice respecting Terence from Petrarch. This edition appears to be only a reprint of an earlier text.

- 22456 — comœdiæ cum Æl. Donati interpretatione. Tarvisii, P. Ferrari, 5 Jul. 1481. fol.

Donatus is also in the editions, *Ven.*, *Lichtenstein*, 1483. fol. *Ven.*, *Dion. et Peregrin. Bonon.* 1485. fol. *Ven.*, *Bm. de Coris*, 1488 or 89. fol. and several more.

- 22457 — comœdiæ. Romæ, without the printer's name (*Euchar. Silber*), m. Mart. 1482. small 4°.

22458 — comœdiæ cum Æl. Donati interpretatione in sex comœdiis et J. Calphurnii in Heautontimorumenon. Ven., without the printer's name, 6 Mart. 1482. fol.

Also with the same commentaries, *Ven., Bt. de Tortis*, 1483. fol. *ib.*, *Bevilaqua*, 1485 or 95. fol. *ib.*, *And. de Pallascichis*, 1487. fol. and often.

22459 — comœdiæ cum Guidonis Juvenalis familiarissima interpretatione. Lugd., J. Trechsel, 4 cal. Sept. 1493. 4°. with woodcuts.

This edition is the first that is furnished with woodcuts. Good copies are not often to be met with, and the woodcuts are not without expression nor without merit in the grouping (see the facsimiles in Dibdin's *Bibl. Spenc.* IV. 562 sq.) Juvenal's commentary first appeared in the edition, *Par.* 1492. fol. and often afterwards. With that of Ascensius, *Lugd., Baland*, 1506 or 1507. 4°.

22460 — Terentius cum duobus commentis, videlicet Donato et Guidone (Juvenale). Ven., Sim. Bevilaqua, 10 cal. Mart. 1494. fol.

Also with the same commentaries, *Ven., Sim. de Luere*, 3 non. Jul. 1497. fol., and *Ven., Soardis*, 1499. fol.

22461 — Terentius cum directorio vocabulorum, sententiarum, artis comicæ, glossa interlineari, commentis, Donato, Guidone, Ascensio. Arg., J. Grüninger, cal. Nov. 1496. fol. with woodcuts.

This edition is more remarkable on account of its numerous woodcuts, than on account of its text, which appears to be only a repetition of an earlier Milan edition. It stood at a high price only during the short period in which the English sought after ancient woodcut impressions *à tout prix*, and has since then become cheap again. In the mean time it, as well as the Horace of the same printer (see above, No. 10136), is remarkable as a self-evident proof in what manner that period strove to appropriate classic antiquity to itself. It contains 6 and 176 rather confusedly numbered leaves.

A repetition of the same with the same woodcuts, but less sought after, appeared, *ib.*, *id.*, 3 id. Febr. 1499. fol. *ib.*, *id.*, 15 cal. Apr. 1503. fol.

22462 — comœdiæ una cum Pt. Marsi et P. Malleoli adnotationibus et marginariis exornationibus. Arg.,

J. Prüss, 4 cal. Febr. 1503. 4°. with woodcuts.

22463 — Terentius cum quinque commentis: videlicet Donati, Guidonis, Calphurnii, Ascensii et Servii. Ven., Laz. de Soardis, 14 Jun. 1504. fol.

Also, *ib.*, *id.*, 23 Febr. 1512. fol. *ib.*, *id.*, 3 Oct. 1515. fol. *Ven., G. de Rusconibus*, 1518. fol.

22464 — Terentius in sua metra restitutus. Flor., Ph. de Giunta, 6 id. Aug. 1505. 8°.

12 leaves of preliminary matter and 119 numbered leaves. A copy on vellum in the Royal library at Paris (previously 4L. 48. Paris, 401 fr. McCarthy). A second copy on vellum went to England from Meerman's sale.

22465 — Terentianæ comœdiæ in sua metra iterum restitutæ et recognitæ quam accuratissime. Flor., Ph. Giunta, 6 id. Jul. 1509. 8°.

A tolerably scarce edition. A repetition of the same appeared, *Mog., J. Schiffer*, 1522. 8°.

22467 — Terenentianæ (sic) comœdiæ in sua metra iterum restitutæ et recognitæ quam accuratissime. Flor., Ph. Junta, m. Febr. 1517. 8°.

12 leaves of preliminary matter, and 119 numbered leaves.

22468 — Terentius. Ven., Aldus et And. socer, m. Nov. 1517. 8°.

Superintended by Fr. Asulanus, although (according to *Fr. Floridi Op. Bas.* 1540. fol. p. 9.) the preface, in which Terence is elevated at the expense of Plautus, is said not to be by Asulanus, but by Andr. Naugerius. The first Aldine and very scarce. 16 leaves of preliminary matter, 146 numbered leaves, and 2 unnumbered (the colophon and anchor). A copy on large writing paper is known.—There is a faithful undated reprint of this edition, page for page, which Renouard attributes to the press of Gr. de Gregoris at Venice.

22469 — Terentius. Ven., Aldus et Andr. socer, m. Jun. 1521. 8°.

Merely a repetition of the preceding edition. 16 leaves of preliminary matter, 146 numbered leaves, and 1 leaf with the colophon. A copy on vellum in the imperial library at Vienna, a second in Mr. Dent's at London. Renouard possesses a copy on large paper.

22470 — Terentius noviter impressus. (*Lugduni*), 1523. 8°.

A scarce copy of the preceding edition, but not so well printed.

22471 — comœdiæ cum Donati et Calphurnii commentariis ac Ph. Melanchthonis scholiis. Mog., J. Schöffer, 9 cal. Aug. 1528. 4°.

22472 — comœdiæ sex, tum ex Donati commentariis, tum ex optimor., præsertim veterum, exemplarium collatione, diligentius, quam unquam antehac, emendatæ. Ælii Donati in easdem commentarii, ex vet. cod. MS., græcis etiam repositis, accurate castigati. Calphurnii in tertiam comœdiam interpretatio. Par., Rb. Stephanus, 6 non. Jul. 1529. fol.

8 leaves of preliminary matter, 182 numbered leaves, and 22 unnumbered, index and errata. This edition is particularly important on account of the criticism here bestowed on Donatus for the first time. The repetition of the same, *ib.*, *id.*, 1536. fol. is enlarged with the apparatus of the Basle edition of 1532 (see No. 22475).

22473 — comœdiæ VI. cum commentariis Adr. Barlandi. Lovanii, Rutg. Rescius, 12 cal. Nov. 1530. 4°.

22474 — Terentius. In singulas scenas argumenta, fere ex Æl. Donati commentariis transcripta. Versuum genera per D. Erasmus. Ed. IV. Par., Rb. Stephanus, 1534. 8°.

Previously, *ib.*, *id.*, 1531. 8°. Repeated, *ib.*, *id.*, 1536. 8°. and often.

22475 — comœdiæ, una cum scholiis ex Donati, Asperi et Cornuti commentariis excerptis, multo, quam antehac unquam prodierunt, emendatiores. Indicata sunt diligentius carminum genera, et in his incidentes difficultates, correctæ quæ-

dam et Consulum nomina, idque stud. et op. Des. Erasmi, non sine præsidio vett. exemplarium. Ad hæc accessit index accuratus. Bas., in offic. Froben., 1532. fol.

A new recension, chiefly with respect to the metre. 10 leaves of preliminary matter, 389 pages, and 9 unnumbered leaves. Repeated, *Bas.*, *Hi. Frobenius*, 1538. fol. 14 leaves of preliminary matter, 389 pages, and 5 unnumbered leaves.

22476 — comœdiæ VI. post Melanchth. et Erasmus per J. Rivium ad exemplaria vetustissima recognitæ. Lugd., Seb. Gryph., 1540. 8°.

22477 — Terentius. Par., Rb. Stephanus, 1540. 24°.

This edition has somewhat peculiar to itself.

22478 — comœdiæ VI. ab Ant. Goveano integritati suæ restitutæ. Lugd., Seb. Gryphus, 1541. 4°.

10 leaves of preliminary matter, 293 pages, and one leaf with the printer's symbol. Repeated after this recension, which is not without merit, *Par.*, *Richard*, 1556. 4°.

22479 — comœdiæ VI. tum ex Donati commentariis tum ex optimorum, præsertim veterum, exemplarium collatione, diligentius quam unquam antehac, emendatæ. Donati aliorumque veterum commentarii *etc.* Par., Rb. Stephanus, 1541 (at the end, 4 id. Jan. 1542). 4°.

This edition appears to be only a repetition of Stephens's of 1538, but is prized in France.

22480 — Andria, adjectis accentibus et brevissimis argumentis ex Donato. Par., Fr. Stephanus, 1541. Eunuchus, adjectis *etc.* *ib.*, Colinaeus, 1542. Phormio. *ib.*, *iid.*, 1542. 4°. 6 parts in 1 vol.

This neat and correct edition is tolerably scarce.

22481 — Terentius. Par., Sim. Colinaeus, 1541. 12°.

22482 — comœdiæ, multo, quam antea, diligentius emendatæ. Ven., P. Manutius, m. Majo, 1541. 8°.

16 leaves of preliminary matter, 144 numbered leaves, and 2 unnumbered (the colophon and anchor). There is a copy on vellum, wanting the preliminary matter, in which the date is altered in writing into MDXXI. Three copies also on large paper are known (in the Royal library at Dresden, count Méjan's, and lord Spencer's).

22483 — comœdiæ VI. cum interpretatt. Donati, Juvenalis, Servii ac Ascensii, nec non Calphurnii. Insuper et scholia ex Donati, Asperi et Cornuti commentariis decerpta, ac etiam et Ph. Melanthonis argumenta. Ven., Venturin. de Roffinellis, 1543 (at the end 8 Mai, 1539). fol. with woodcuts.

This edition contains a very complete collection of the apparatus up to that period.

Antesignani commentatio. *Primum exemplar* commentariolum est ex omni interpretationum genere: in quo affixi sunt ad singula vocabula hyperdisyllaba accentus, appositæque ad singulos versus dimensiones, et argumenta, variæ insuper annotatt. et castigatt. *Secundum exemplar*, præter singula contenta in primo, omnium fere commentarios, expositt. annotationesque complectitur. *Tertium exemplar* ex omnium interpretum commentariis compendiosam expositionem omneque primi exemplaris argumentum, gallicam præterea translationem ad verbum in tres priores comœdias, tum etiam hujus auctoris peculiare annotationes plenioresque interpretationes continet, Editio primi exemplaris. Lugd., Mthi. Bonhomme, 1560. 4°. (14 leaves of preliminary matter and 383 pages.) — Editio secundi exempl. ib., id., 1560. 4°. (22 leaves of preliminary matter and 850 pages.) — Editio tertiæ exempl. ib., id., 1560. 4°. (10 leaves of preliminary matter and 532 pages). 3 voll.

The 3 vols. of this edition, the contents of which are given in the title, and are not without merit in a metrical point of view, are very seldom found together.

22495 — comœdiæ, ex vetustissimis libris et versuum ratione a Gbr. Faerno emendatæ. In eas emendationum libri VI., de versibus comicis liber I., fragmentum Eupraphii interpretis in easd. fabulas. Flor., ap. Juntas, 1565. 8°.

A new recension from several excel-

lent MSS., and giving proof of great critical acuteness. Pt. Victorius superintended the completion of this edition after the death of Faernus. The *emendatt.*, which form a separate part of 251 pages with a title-leaf, and at the end a leaf with the lily, are sometimes wanting in the copies, and are sometimes found with the new impression of the text, *Flor. ap. Juntas*, 1572. 8°.

22496 — Terentius a M. Ant. Mureto locis prope innumerabilibus emendatus et argumentis in singulas fabulas illustratus. Annotationes Mureti. Variæ lectt. sive emendatt. e veteribus exemplaribus Thdr. Pulmanni. Antw., Plantinus, 1565. 16°.

A neat edition, and greatly sought after in good condition. The editions, *ib.* 1566 and 67. 16°. are probably only new titles. Repeated, *ib.*, *ed.*, 1580. 8°.

22497 — comœdiæ VI., infinitis fere locis emendatæ, una cum Vinc. Cordati commentariis in Andriam, summaris vero et annotatt. methodicis rei ac styli in reliquas. *Ven.*, ex biblioth. Aldina, 1570. 8°.

249 numbered and 3 unnumbered leaves (the last blank). The edition is scarce, but of no great value.

22498 — Terentius a M. Ant. Mureto emendatus et annotationibus etc. illustratus. Access. Ant. Goveani annotatt. etc. Par., Marnef et Cavellat, 1572. 12°.

22499 — comœdiæ sex accurata castigatione explicationibus eruditissimis illustratæ. Cum notatione variantis lectionis, ex edit. Gbr. Faerni et M. Ant. Mureti. Nunc primum singulari diligentia editæ op. et stud. Mthi. Bergii. Access. et annotatt. Jo. Camerarii, J. Rivii, G. Fabricii et Fr. Fabricii in easd. comœdias. Lips., typ. Voegelin, 1574. 8°.

Of all the editors of Terence down to Hare, Berg was nearly the only one who knew how to value the critical merit of Faernus; and his edition, now become very scarce, is one of the best of this author.

22500 — Terentius a M. Ant. Mureto emendatus. Ejusdem Mureti

argumenta et scholia in singulas comœdias. Ven., Aldus, 1575. 8°.

24 leaves and 45 pages, and one blank leaf; then 352 pages of text, 94 pages of scholia, and 1 blank leaf. This last Aldine edition but one, of the recension by Muretus, is the best and the most carefully done, and the new scholia added to the edition of 1570 are here inserted in their proper places. Ven., *ex officio Aldina*, 1588. 8°. is not sought after.

22501 — comœdiæ, ex vetustissimis libris et versuum ratione a Gbr. Faerno emendatæ, op. et stud. Pt. Victorii editæ. Ejusd. Faerni emendationum libri VI. seorsim excusi sunt. (*Heidelb., ex off. Commelin.*), 1587. 8°.

272 and 271 pages. A reprint of No. 22495.

22502 — Terentius a M. Ant. Mureto emendatus et argumentis ac scholiis illustratus. Cum doctissimorum virorum annotatt. et indice vocum antiquar. Antw., *ex off. Plantin*, 1591. 12°.

22503 — comœdiæ post omnes cum veterum tum recentior. emendatt. de novo castigatæ et notis illustratæ a Cp. Colero. Ff., Wechel, 1594. 12°.

22504 — comœdiæ VI. et in eas Donati commentaria. F. Lindenbruchius collatis MSS. veteribusque exemplaribus recensuit, auxit et observationibus illustravit, adjecto indice uberrimo. Par., Hadr. Perier, 1602. 4°.

12 leaves of preliminary matter (the 12th blank), 654 pages of text, 1 leaf of errata; then Gbr. Faerni emendatt. (with a separate title) 117 pages: this last is sometimes wanting. A new and valuable recension (especially of Donatus) from ancient MSS. Eugraphius has also here been considerably augmented from 2 MSS. Ff., *Hering*, 1623. 4°. is a less fine reprint.

22505 — comœdiæ commentario illustratæ a J. Weitzio. Lips., Apel, 1610. 8°.

The notes are chiefly of grammatical import.

22506 — comœdiæ VI. cum vetustiss. codd. MSS. Archipalatinae bibliothecæ collatæ, notis illustratæ,

tæ, addito indice. Labore atque industria J. Ph. Parei. Acc. seorsim virorum doctor. notæ criticæ. Neap. Nemetum, Fischer, 1619. 4°.

18 leaves of preliminary matter, 238 pages text, 160 pages index, 171 pages notæ criticæ, 42 pages G. Fabricii castigatt., 6 leaves ad lectorem and index. The notes are by J. Rivius, Gbr. Faernus, Muretus, and G. Fabricius.

22507 — comœdiæ VI. ex rec. Heinsiana. LB., *ex off. Elzevir.*, 1635. 12°.

24 leaves of preliminary matter, 304 pages of text, and 8 pages of index. There is a less valued reprint of this very neat and greatly sought after edition, with the same date, which may be distinguished from the vignette over the dedication being a buffalo's head in the original edition, and an old man's head in the reprint. The misprint in the original edition, p. 104 being wrongly numbered 108, which has hitherto been the distinguishing mark, does not apply to all the copies according to Renouard, *Catal.* III. 315, this error having been corrected whilst the work was going through the press. Also, *Amst., Elzevir*, 1661 or 65. 12°.

22508 — comœdiæ. Par., e typogr. regia, 1642. fol.

A fine edition, but no longer sought after.

22509 — VI. comœdiæ cum annotatt. J. H. Boecleri. Acc. commentarii Fr. Guyeti nunquam antehac editi. Arg., Bockenhoffer, 1657. 8°.

This edition is called in the *Catal. bibl. Brunck.* p. 99, *édition d'un mérite inappréciable*. Guyet was a very acute critic, but often too bold. Boeclerus himself made use of 3 MSS.

22510 — comœdiæ VI. post optimas edit. emendatæ, accurate Corn. Schrevelio, cum interpr. gall. et animadvv. M(ch.) de M(arolles). Acc. et notæ breves J. P(eyraredé). Lut., Lamy, 1659. 8°. 2 voll.

22511 — comœdiæ VI. post optimas edit. emendatæ. Acc. Donati commentarius integer cum selectiss. varior. notis, indices. Accurante Corn. Schrevelio. LB., Hack, 1662. 8°.

Previously, *ib., id.*, 1644, 51, or 57. 8°.

22512 — Terentius. Diligenter recensuit et notulas addidit Tanaq. Faber. Salmurii, Pean, 1671. 12°.

22513 — comœdiæ VI., interpretatione et notis illustravit N. Camus in us. Delphini. Par., Leonard, 1675. 4°.

Not one of the superior editions of this series. Repeated, *Lond.* 1688, 1700, 1709, 18, 20, 23, 31, 39, 40, 49, 69, 76, or 1816. 8°. (10s. 6d.)

22514 — comœdiæ VI. His accedunt integræ notæ Donati, Eugraphii, Faerni, Boecleri, Farnabii, Mer. Casauboni, Tanaq. Fabri, cum indice locupletissimo. Amst. et LB., Wolfgang et Hack, 1686. 8°.

The best edition for the series *cum notis variorum*. The following is usually added to it, *J. F. Gronovii notæ in Terentium. Ox., th. Sheld.*, 1750. 8°.

22515 — comœdiæ, ad optimor. exemplarium fidem recensitæ. Access. variæ lectt., quæ in libris MSS. et eruditor. commentariis notata digniores occurrunt (curante J. Leng.) Cbr., typis acad., 1701. large 4°.

2 leaves of preliminary matter and 520 pages. A new formation of the text from MSS. and ancient editions, with especial regard to the metre. *Cbr.* 1701 and 23. 8°. are mentioned as reprints.

22516 — comœdiæ (ed. Mch. Maittaire). *Lond.*, Tonson, 1713. 12°.

Also on large paper. Also, *ib.*, *id.*, 1729. 12°. and often.

22517 — comœdiæ ad exemplar Faernianum summa fide recensitæ. Acced. Faerni emendatt. integræ, nec non Donati quædam, cum indice locupletissimo. Recensuit notisque auxit et dissertationem de metris comicis adjecit Fr. Hare. *Lond.*, Tonson et Watts, 1724. 4°. Also on large paper.

The editor used the hitherto neglected text of Faernus for the basis of his edition, made use of the collations of various MSS. and ancient editions, and appended a selection of the best notes of the previous editors. He paid particular attention to the metre, but excited thereby Bentley's violent contradiction. There is also mentioned, *Editio altera auctior et emendatior. Lond., Tonson et Watts,*

1725. 4°. which probably only rests on a new title, with some small addition.

22518 — comœdiæ, Phædri fabulæ Æsopiæ, Publ. Syri et alior. veterum sententiæ, ex rec. et cum notis Rch. Bentleji. Cbr., Crownfield, 1726. 4°.

This edition is inferior in completeness to the subsequent one of 1727.

22519 — comœdiæ VI. ad fidem XII. amplius MSS. codicum et pluscularum optimæ notæ editionum recensitæ et commentario perpetuo illustratæ. Accedunt interpretes vetustiores, Donatus, Eugraphius, Calphurnius, F. Lindenbruchii observatt. emendatius quam in superioribus edit. exhibentur. Accedunt indices locupletissimi. Curavit Arn. H. Westerhovius. Hag. Com., Gosse, 1726. 4°. 2 voll.

An edition certainly much sought after, but still unsatisfactory. Westerhovius made use of many MSS. and the best editions, without however doing any thing for the criticism of the text, or contributing any thing of his own for its elucidation. His merit is almost wholly confined to an industrious collection of the apparatus up to that period, and yet he has taken nothing from Hare and Bentley.

There are copies on large paper, which are as scarce and dear as they are fine. They are commonly bound in 3 vols. and ornamented with spirited etchings by Picart.

22520 — comœdiæ. Recensuit notasque suas et Gbr. Faerni addidit Rch. Bentlejus. Editio altera, denovo recensita, ac indice amplissimo rerum ac verbor. aucta. Amst., Wetstein et Smith, 1727. 4°. — Phædri fabular. Æsopiar. libri V. Publ. Syri et alior. veterum sententiæ. Recens. et notas addidit Rch. Bentlejus. *ib.*, *iid.*, 1727. 4°. Also on large paper.

A new recension from several British MSS., often very bold, but everywhere giving proof of profound knowledge and brilliant acuteness. Hare's metrical criticism is here violently attacked. This edition is more complete and more sought after than the Cambridge one of 1727. Consult *F. Volg. Reisii pr. Burmannum de Bentleji doctrina metror. Terentianor. judicare non potuisse. Lips.* 1787. 4°. *Gf.*

Hermanni pr. de Rch. Bentlejo ejusque editione Terentii. Lips. 1819. 4°. (also with Bentleji epistol. ed. Fridemann. Lips. 1825. 8°. p. 74 sq.)

- 22521 — comœdiæ VI., cum interpretatione Donati et Calphurnii et commentario perpetuo. Curavit Arn. H. Westerhovius. Hag. Com., van der Kloot, 1732. 8°. 2 voll.

The critical notes are omitted in this useful small edition. Thereto may be joined, *Arn. H. Westerhovii vindicia Terentiana, quibus malevolæ criticor. triga respondetur. Goudæ, 1734. 8°.*

- 22522 — comœdiæ (lat.) nunc primum italicis versibus redditæ cum personar. figuris æri accurate incisis ex MS. cod. biblioth. Vaticanæ. Urbini, Mainardus, 1736. fol.

This respectable edition, superintended by cardinal Albani, contains besides the Latin text according to the recension of Heinsius (without any of the notes), the translation of N. Fortiguerra, and is only interesting to foreigners by the addition of the representations of the masks. In the dedication copy, which is in the Royal library at Dresden, the address of the dedication is entirely printed in gold, but it is not on large paper, for which reason I doubt Brunet's statement of their being large paper copies.

- 22523 — comœdiæ VI. Ex edit. Westerhoviana recensita ad fidem XII. amplius MSS. codicum et pluscular. optimæ notæ editionum. Glasg., Foulis, 1742. 8°.

A neat impression of the text of Westerhovius. As the book has a pretty large margin, it is frequently stated as being on large paper. But there are only 40 copies on really large paper, which a printed notice in the title (*in hanc chartam maximam quadraginta exemplaria solummodo sunt excusa*) points out to be such, and which are very scarce (96 fr. M'Carthy).

- 22524 — comœdiæ VI. Lond., Brindley, 1744. 16°.

- 22525 — comœdiæ (edente J. Hawkey). Dublinii, typ. acad. 1745. 8°.

Very scarce on large paper. Fine and correct, with an appendix of the most important various readings.

- 22526 — comœdiæ ad optimor. exemplarium fidem recensitæ. Acces-

serunt variæ lectt. Lond., Knapton et Sandby, 1751. large 8°. 2 voll.

With representations of the masks. At the same time also appeared an impression in 2 vols. in small 8°.

- 22527 — comœdiæ VI., ad optimor. exemplarium fidem recensitæ. Access. variæ lectt. e libris MSS. et eruditor. commentariis depromptæ (curante St. Philippe). Lut. Par., le Loup et Merigot, 1753. 12°. 2 vols. with plates.

Of this edition there are also copies on large paper, and 6 on vellum (300 fr. Goustard, 220 fr. Lollée, 70 fr. Lamy, 153 fr. d'Ourches, 120 fr. St. Cérans, 131 fr. Lair.)

- 22528 — comœdiæ, ad fidem optimar. edit. expressæ. Edinb., Balfour et Neill, 1758. 8°. Also on large paper.

Westerhovius's text with a partial reception of Bentley's corrections. Very correct.

- 22529 — comœdiæ, ex rec. Dn. Heinsii collata ad antiquissimos MSS. codd. biblioth. Vaticanæ, cum variantibus lectt., larvis et personis depromptis ex eisdem codd., et italica versione (N. Fortiguerra), recensuit notasque addidit C. Cocquelines. Romæ, 1767. large fol. 2 vols. with plates.

As completely without value as the Virgil by the same editor (in France only 18 to 20 fr.). He has indeed made use of 7 MSS., but only superficially and in single passages, and has had the text printed only according to Heinsius. The notes only contain matters of general notoriety, and the representations of the masks, as well as the Italian translation, are to be found already in the above edition of 1736.

- 22530 — comœdiæ. Birmingham., Baskerville, 1772. 4°.

The paper is too ordinary for a show edition.—Also, *ib., id.*, 1772. small 8°.

- 22531 — comœdiæ VI. ex rec. Lindenbrogii, cum ejusdem MSSorum lectionibus et observationibus, atque Donati, Eugraphii et Calphurnii commentariis integris. His access. Bentleji ac Faerni lectt. ac

conjecturæ omnes, sed in compendium redactæ, item Westerhovii in scholiastas lectt. ac conjecturæ, quibus et suas adpersit J. C. Zeunius. Adjecto indice in Donatum et Terentium. Lips., Georgi, 1774 (new title, *Regiom.*, Hartung, 1787). 8°. 2 voll. (3 d. 4 gr.)

A reprint, enlarged with *Ruhnkenii dictata*, and a selection from the annotations of Farnaby, Bothe, and others, appeared, Lond., Priestley, 1820. 8°. 2 vols. (2l. 2s.)—*Comædiæ, cum notis Minellii, cura et stud. Rodrig. de Oviedo. Matrini*, 1775. 8°.

22532 — comædiæ VI. novissime recognitæ cum selecta varietate lectionum et perpetuis annotatione. Accedit index latinitatis cum interpretatione. Bip., 1779. 8°. 2 voll.

Very carelessly superintended by G. Ch. Croll and F. Ch. Exter. A new edition, Bip. 1786. 8°. 2 voll. (1 d. 10 gr.)

22533 — comædiæ. Ex rec. Lindenbrogii, cum lectt. variantibus et notis selectissimis varior. accuravit J. G. Lenz. Jenæ, Cröker, 1785. 8°. 2 voll. (1 d. 8 gr.)

22534 — comædiæ VI. secundum edit. Westerhovianam cum notis veterum scholiastar., Westerhovii et alior. selectis, op. et stud. Gudmundi Magnæi, qui et multa de suo adjecit. Acc. index verbor. et phrasium. Havn., Gyldebrand, 1788. 8°. 2 voll. (3 d., on writing paper 3 d. 20 gr.)

The editor's own notes are scarcely equal to those of Minellius.

22535 — comædiæ, recensuit notasque suas et Gbr. Faerni addidit Rch. Bentley. Ed. II. repetita ac indice aucta (a F. Wfg. Reiz.) Lips., Schwickert, 1791. 8°. (2 d. 6 gr.)

22536 — comædiæ VI. ad fidem optimor. editt. recensitæ (a Rch. Fr. Ph. Brunck.) Bas., Decker, 1797. large 4°.

Not fine enough for a show edition, nor much sought after. There are 3 copies on vellum (111. in London in 1817, 1200 fr. Treuttel and Würtz in 1804.)

22537 — comædiæ, in usum elegan-

tior. hominum edidit F. H. Bothe. Berol., Unger, 1806. 8°. (1 d. 16 gr., on vellum paper 2 d. 12 gr., on Swiss paper 3 d. 8 gr.)

6 MSS. have been made use of in this edition. Bothe gave a new recension of Terence in 1822 in the 4th vol. of his *Poet. scenic. Latin.*

22538 — comædiæ. Rot., Looy, 1806. 12°. (1 fl. 16 st.)

Also on large paper in 8°. (3 fl.)

22539 — comædiæ. Jac. Bruns. Hal., Renger, 1811. 8°. 2 voll. (2 d. 8 gr., on writing paper 2 d. 16 gr.)

Bruns had only a defective copy of Ruhnkenius's *Dictata*. J. Gurlitt had its emendation in view in the programme, *Ruhnkenii annotationis in Terentium emendatius edenda specimen*. Hamb. 1817. 4°. They appeared entire under the title, *D. Ruhnkenii in Ter. comædiæ dictata, cura L. Schopeni*. Bonnæ, Weber, 1825. 8°. (1 d. 4 gr.)

22540 — comædiæ VI. Adnotationem perpetuam adjecerunt Bj. F. Schmieder et F. Schmieder. Ed. II. auctior. Hal., Hemmerde, 1819. 8°. (1 d. 12 gr.)

22547 — comedie nuovamente di latino in volgare tradotte. Ven., Vidale, 1533. 8°.

The first edition of this translation, of which G. Bd. da Borgofrancho appears to have been only the editor, and not the author. The last and best edition is, *Ven., figlio di Aldo*, 1546. 8°.

22548 — comedie tradotte nuovamente in lingua toscana (da Cp. Rosario). Roma, Zannetti, 1613. 12°. — Commedie tradotte in verso sciolto da Luisa Bergalli. Ven., Zani, 1733. 8°. — Commedie tradotte in versi sciolti italiani (da N. Fortiguerra). Urbino, Mainardi,

22549 — *Therence en frâcois Prose et Rime avecques le latin*. Par., Ant. Vêrard, without date (about 1500). fol. Gothic letter, with woodcuts.

385 numbered leaves in 2 columns with 50 lines. The first edition of this translation, of which there is a copy on vellum in the Royal library at Paris.

There were two old French translations of Terence, one made in 1466 by Gu. Rippe, secretary to Louis XI. and the other by Gilles Cybille, of neither of which is any thing accurately known. One of them is probably the above, of which these editions are known: *Par., Bossuet*, 1534. fol. Gothic letter, with woodcuts. *Par., Kerver*, 1538. fol. with woodcuts. *Par., J. Petit* (other copies, *Bossuet*), 1539. fol. Gothic letter, with woodcuts, 389 numbered leaves.

22550 — *comédies trad. en franç.* (par J. Bourlier), avec le texte latin. Anvers, Waesberge, 1566. 8°. Par. 1567. 12°. — *Les six comédies*, en lat. et en franç. Par., Doart (other copies, *Clopieau*), 1572. 12°. Par., Libert, 1614. 12°. — *Comédies*, trad. en prose par Ant. de Muret, avec le latin à côté. Par., Coulombel, 1583. 12°. — *Comédies trad. en franç. et rendues trêshonnêtes en y changeant fort peu de chose*, par le Sr. de St. Aubin (le Maistre de Sacy). Par. 1647, 58, 59, 62, 69, or 1700. 12°. — *Trois comédies nouvellem. traduites* (l'Eunuque, le fâcheux à soi-même et l'Hécyre) avec le lat. à côté (par de Martignac). Par. 1670, or 78, or 86. 12°.

22551 — comédies trad. en franç. avec des remarques par Mme Dacier. Rott., Fritsch, 1717. 12°. 3 vols. with plates by Picart.

Of this edition, the most sought after in France, there are copies on large paper, which are very scarce. At first, *Par., Thierry*, 1688. small 8°. 3 vols. Also, *Amst., Ollier*, 1691. 12°. 3 vols. *Amst., Fritsch*, 1706. 12°. 3 vols. *Amst., Wetstein*, 1724 or 47. 12°. 3 vols. with plates. *Amst. et Leips., Merkus*, 1767. 12°. 3 vols. *Par., Barbou*, 1768. 12°. 3 vols. with plates.

22552 — comédies, trad. nouvellem. avec le texte latin à côté et des notes par le Monnier. Par., Jombert, 1771. 8°. 3 vols. with plates.

Also on strong and on Dutch paper. The most esteemed translation. There is also an edition in 3 vols. in small 8°. for the use of youth, freed from the offensive passages.

TERTRE, see DUTERTRE.

22563 TERTULLIANUS, Q. Septimius Florens. Opera, per Beat. Rhenanum e tenebris eruta atque a situ vindicata, adjectis singular. libror. argumentis et alicubi conjecturis (cum indice Cr. Pellicani). Bas., J. Frobenius, m. Jul. 1521. fol.

The first collective edition of his works, prepared from 2 rather faulty MSS. Repeated, *ib.*, *id.*, 1528. fol. and, corrected anew from a 3rd MS., *ib.*, *id.*, 1539. fol. The reprint, *Par.* 1545. fol., is enlarged with some pieces of Tertullian never before printed.—His *Apologeticus* had been previously appended to several editions of Lactantius.

22564 — scripta, et plura quam ante, et diligentius ad complures veteres recognita codices, non omissis Beati Rhenani annotationibus (edente Sigiam. Gelenio). Bas., Hi. Frobenius et N. Episcopus, 1550. fol.

A new recension, for which a British MS. has been consulted, and with the addition of a commentary by Fr. Zephyrinus on the *Apologeticus*. Bas., *ex off. Froben.*, 1562. fol. and *Par.*, *And. Wechel*, 1566. 8°. 2 vols., are reprints.

22565 — opera quæ hactenus reperiri potuerunt omnia. Jam postremum ad exemplaria MSS. collatione facta recognita, aliquot etiam libris auctiora, cum Jac. Pamelii argumentis et adnotationibus. Antw. 1579. fol.

A new and very industrious recension from new MSS. with the introduction of a division into chapters. Repeated, *Par.* 1583. fol. *Antw.*, *Plantinus*, 1584. fol. and enriched with the corrections of Latinus and the commentary of Mercerus on the treatise *De pallio*, *Par.*, *Sonnus*, 1598. fol. Also, *ap. Commelin.*, 1609. fol.

22566 — opera Tertulliani et Arnobii, cum veterum exemplarium tum recentiorum collatione restituta, locis scripturæ aucta et illustrata com-

mentariis, stud. et labore Ren. Lr. de la Barre. *Par.*, *Julianus*, 1580. fol.

Recommended by the exegetical apparatus up to that period being diligently collected together.

22567 — quæ adhuc reperiri potuerunt omnia. Ex edit. Jac. Pamelii. Quibus additæ sunt annotatt. Beati Rhenani, itemque castigatt. ac notæ Fr. Junii. *Franek. Radæus*, 1597. fol.

With new critical apparatus from a Fulda MS. Junius's own criticisms are not the most happy.

22568 — opera, argumentis, explicationibus et notis illustrata, auctore J. L. de la Cerda. *Par.*, *Sonnus*, 1624-30. fol. 2 voll.

The 1st vol. of this edition, only exegetically furnished, and not even thus with importance, is commonly found in the 2nd impression, *Par.* 1641. fol.

22569 — opera ad vetustissimor. exemplarium fidem sedulo emendata, diligentia N. Rigaltii cum ejusd. annotatt. et varior. commentariis. Ph. Priorius argumenta et notas adjecit et dissertationem concinnavit. Accedunt Novatiani tractatus cum notis. Item accessit carmen de Jona et Ninive. *Lut. Par.*, le Petit, 1675. fol. or, *ib.*, *Dezallier*, 1685. fol. Also on large paper.

Rigaltius has here introduced a new era for the formation of the text. Perceiving the interpolations of the MSS. of Tertullian, he thought he ought to restore the text not only from the ancient unfalsified codex of Agobardus, but according to the analogy furnished by the author himself. His edition appeared, *Par.*, *Dupuis*, 1634. fol. and enlarged with notes and a glossary, *ib.*, *id.*, 1641. fol. Le Prieur retained his text and all the other apparatus, enriched with a very industrious collection of the notes up to that period, and with his own, which are less important. His edition at first appeared, *Par.*, *societ. typogr.*, 1664. fol. (also on large paper). Both the above are correct and have the poem, *De Jona et Ninive*, and are as yet to be considered as the most complete, the finest, and the most correct.

22570 — opera etc. (as in No. 22569). Acc. Sigeb. Havercampii comm. in apologeticum et J. Lr. Moshemii

disquisitio de vera ætate apologetici a Tertulliano conscripti. Ven., Girardi, 1744. fol.

An impression of the preceding edition with the addition of Havercamp's notes and Mosheim's disquisition, but very incorrectly printed.

- 22571 — opera, recensuit J. Sal. Semler. Hal., Hendel, 1770-73. 8°. 6 voll. (3 d. 6 gr.)

The text of the 1st edition by Rhenanus (amongst the papers of the edition by Pamelius, which were subsequently discovered) forms the basis, corrected from conjecture, and the various readings then extant. It is a pity that Semler had not a complete apparatus at hand for this otherwise convenient small edition. Ch. Gf. Schütz superintended from the 4th to the 6th part. The *Index latinitatis Tertullianæ* in the 6th vol., is an important and peculiar addition.

- 22572 — opera omnia (ed. Fr. Oberthür). Wirceburgi, Stahel, 1780-81. 8°. 2 voll. (2 d. 12 gr.)

Semler's text, corrected from Pamelius and from conjecture, forms the basis.

- 22573 — liber de pallio, cum notis Fr. Junii. LB., ex off. Plant., #595. 4°.

- 22574 — liber de pallio. Cl. Salmasius recensuit, explicavit, notis illustravit. Accedit vera ad vivum ejusdem (Salmasii) effigies. LB., J. Maire, 1656. 8°.

The portrait is sometimes wanting. The first edition appeared, *Par.*, Drouart, 1622. 8°. It occasioned the following controversial writings, *Ant. Kerkoetii (Dion. Petavii) animadversor. liber ad Salmasii notas in Tertull. de pallio. Rhedoniæ, 1622. 8°. Fr. Franci (Cl. Salmasii) Confutatio animadversor. Kerkoetii. Middelburgi, 1623. 8°. Ant. Ant. Kerkoetii Mastigophorus tertius. ib. 1623. 8°.*

- 22575 — apologeticus. Des. Heraldus emendavit, commentario illustravit et duos digressionum libros adjecit. M. Minucci Felici Octavio. Des. Heraldus emendavit et notas addidit. Par., Perier, 1613. 4°.

- 22576 — apologeticus, ad codd. MSS.

et edit. vett. recognitus, castigatus, emendatus, ut et perpetuo commentario studio Sigeb. Havercampi. LB., Severinus, 1718. 8°.

A new recension from 2 new MSS. and 2 collections of various readings, with an excellent commentary. There are copies on fine paper. To this may be joined, *J. Lr. Mosheimii disquisitio de vera ætate apologetici a Tertull. conscripti. LB., 1720. 8°.* But this tract, reprinted in his *Dissertat. ad hist. eccl. T. I. p. 1 sq.*, does not necessarily belong to the above edition.

22587 TESTAMENTUM novum. 1. *Polyglottum. Novum Test. juxta editionem Polyglot. edidit Brianus Waltonus. Lond., Smith et Walford, 1698. fol.*

Only a new title to the 5th vol. of Walton's Polyglot of 1657. See the earlier worthless Polyglot edition of the New Test. by Hunter in No. 2104 above.

22588 — — 2. *Græcum. Novum instrumentum omne, diligenter ab Erasmo Rot. recognitum et emendatum, una cum annotationibus. Bas., J. Frobenius, m. Febr. 1516. fol.*

The 1st of the 5 editions by Erasmus, and at the same time the first Greek edition of the whole New Test. (since the Complutensian, dated in 1514, was only published in 1520). Its rarity is not so great as was formerly thought. 14 leaves of preliminary matter, 324 and 672 pages (a misprint instead of 676), and 2 leaves, the last of which, often wanting, contains the register and the colophon. The statement of a copy of this edition on vellum is a confusion of it with the following edition.

The critical value of this edition, which was very hastily superintended, is only very limited. Erasmus formed his text indeed from several MSS., but the most of them were rather modern, and not only he himself, but also his assistants Gerbel, Capito, and Ecolampadius, allowed themselves many alterations of the text from

conjecture (and sometimes very bold conjecture) and in favour of the Vulgate.

The first printed Greek pieces of the New Test. are the hymns of Mary and Zachariah, (St. Luke i.) in the Greek psalter of 1486, and the first 6 chapters of St. John's Gospel in the *Carmina* of Gregory Nazianzen. Ven., Aldus, 1504. 8°. The Complutensian text, formed from 6 or 8 modern MSS. and likewise not without regard to the Vulgate, is not more to be depended upon than that of Erasmus. The text of Erasmus indeed forms the basis of the Aldine edition of 1518 (see above, No. 2205), but it is corrected in some passages from MSS.

- 22589 — novum testamentum omne, multo quam antehac diligentius ab Erasmo Rot. recognitum, emendatum ac translatum. Bas., J. Frobenius, 1519. fol.

A new and industrious revision of the text, which is here corrected in more than 330 places. It is now decided that Luther made his translation from this edition, see *Panzer Gesch. d. kathol. Bibelübers.* p. 29. There are 3 copies of it on vellum: one in the library at Basle, a second in the library of the cathedral at York, and the third (wanting the annotations), bought by Sir Mark Masterman Sykes of Weigel at Leipzig for 200 dollars, and sold at his sale for 120l., and now in some private collection in England.

- 22590 — novum testamentum omne, tertio jam ac diligentius ab Erasmo Rot. recognitum. Bas., J. Frobenius, 1522. fol. — Annotatt. in N. T. ib., id., 1522. fol. 2 parts in 1 vol.

In this edition the passage, 1 Joh. v. 7, is for the first time introduced from the Codex Montfortianus. 118 other passages in it are altered after the Aldine edition and MSS.

- 22591 — novum testamentum ex Erasmi Rot. recognitione jam quartum damus, adjecta vulgata translatione etc. Bas., J. Frobenius, m. Mart. 1527. fol. — Des. Erasmi in N. T. annotatt. ib., id., 1527. fol. 2 parts in 1 vol.

In this edition Erasmus altered 106 passages after the Complutensian text. In other respects the text of the 3rd edition is retained. The version of the Vulgate is added.

- 22592 — novum testamentum jam quintum accuratissima cura recognitum a Des. Erasmo cum annotatt. VOL. IV.

ejusdem locupletatis. Bas., Hi. Frobenius et N. Episcopius, m. Mart. 1535. fol.

The 5th and the last edition that was superintended by Erasmus himself, the text of which deviates from the preceding edition in only 4 places. But the *Annotatt.* are worked up certainly anew and in a milder tone. After his death an unaltered reprint of the same appeared, Bas., H. Frobenius et N. Episcopius, 1541 (at the end 1542). fol. This 5th edition is also reprinted in the edition of Erasmus's works by Rhenanus (*Bas.* 1539. fol. T. VI.), and by le Clerc (*LB.* 1705. fol. T. VI.). The last mentioned impression of 1705 was also published with a separate title by itself.

- 22593 — novum test. græce (cum præf. N. Gerbelii). Hagenoæ, Th. Anshelmus, m. Mart. 1521. 4°.

This edition had formerly attributed to it a merit totally undeserved. But it is only an incorrect impression of the text of Erasmus's 2nd edition with some very unnecessary alterations from the Aldine and from Erasmus's 1st edition, consequently, 1 Joh. v. 7, is wanting in it. That this was not the edition which formed the basis of Luther's translation, is evident from the note above to No. 22589.

- 22594 — ἡ καινὴ διαθήκη. Ἐν Λευκεσίῳ τῶν Παρησιῶν, παρὰ Σιμωνί τῷ Κολιναίῳ ἀφ' ἧδ' (Par., Sim. Colinaeus, 1534). 8°.

This fine and very correct edition sometimes follows the Complutensian edition, and sometimes the 4th of Erasmus, but altered in above 750 passages on the authority of several unknown MSS. in a peculiar manner, and manifestly out of regard to the Vulgate. It belongs to the most important editions of the New Test., is tolerably scarce, certainly every day more sought after by experienced collectors, and is constantly rising in price.

- 22595 — τῆς καινῆς διαθήκης ἀπάρτα. Novum testamentum græce. Ven., Sabio, 1538. 12°. 2 voll.

A scarce reprint of one of the texts of Erasmus.

- 22596 — nov. test. gr. et lat., cura et diligentia Erasmi Rot. jam denuo et collatum et postrema manu castigatum. Accesserunt lectionum varietates ex diversis exemplarib. vetustiss. collectæ. Par., Bogardus (other copies, Roigny), excud. Guillard, 1543. 8°.

Merely a reprint of the Basle edition of 6 E

1541 or 42, with alterations of the text from the foregoing edition by Colinaeus, and with various readings from Erasmus's first 4 editions. This edition has nothing of its own.

22597 — nov. test. (gr.) Bas., Hi. Frobenius et N. Episcop., 1545. 4°. A copy on green paper in the library at Wolfenbüttel.

22598 — nov. test. (gr.) Ex bibliotheca regia. Par., Rb. Stephanus, 1546. 12°.

528 and 361 pages, and 1 leaf with the colophon. A neat edition, the preface of which (as well as of the following edition) commences with the words *O mirificam*. At the end ought to be a list of errata. The Complutensian text, corrected from Erasmus's 5th edition, forms the basis. Traces of the use of the Paris MSS. are only to be found in 37 passages. The edition is more sought after than it deserves.

22599 — nov. test. (gr.) Ex bibl. regia. Par., Rb. Stephanus, 1549. 12°.

The observation, that this edition was entirely free from typographical errors, has been already sufficiently refuted by Olearius, who pointed out 14 mistakes of the compositor (the first is *pulres* in the 1st page of the preface, instead of *plures*, which did not occur in the first edition, as DeBure and others maintain). According to Michaelis this edition deviates in 67 passages from the preceding. This edition is of all Stephens's editions the most sought after by collectors.

22600 — novum J. C. testamentum (gr.) Ex bibl. regia. Lut., Rb. Stephanus, 1550. fol.

This edition, in spite of the caprice of ignorant collectors (it stands only at half the price of the preceding editions), is nevertheless the finest as well as the most important edition by Stephens. The text (except in the Apocalypse, where the Complutensian text prevails), is made up anew after Erasmus's 5th edition, and the various readings of 15 MSS. (although very carelessly collated) are noted down in the margin. A great part of these readings were subsequently interwoven into Beza's text, and it thereby acquired a great influence on the present *textus receptus*. This edition is consequently of the greatest importance to the history of the text of subsequent editions, and it ought not to be wanting in any collection of consequence.

22601 — novum J. C. testamentum (gr. lat.) cum duplici interpreta-

tionem, Erasmi et veteris interpretis. (Genevæ), Rb. Stephanus, 1551. 8°.

Only altered from Stephens's 1st edition in 2 places, but remarkable as being the 1st edition, in which the division into verses is to be met with. This originated with H. Stephens, who is said to have executed it during a ride from Paris to Lyons.

22602 — nov. testamentum. Cujus græco textui respondent interpretationes duæ, una vetus, altera nova Thdr. Bezæ. Ejusd. Bezæ annotatt. Excud. H. Stephanus, 1565. fol.

A new critical introduction into the text of the various readings collected by H. Stephens from more than 30 MSS., wherein notwithstanding the text of Stephens's 3rd edition is only altered in 50 places.

22603 — testam. novum. Est autem interpretatio syriaca N. T. hebræis typis descripta. Eadem latino sermone reddita, autore Imm. Tremellio. Excud. H. Stephanus, 1569. fol.

Besides the Syriac text printed from a Heidelberg MS. (but chaldaicised), this edition contains the Greek original with Beza's Latin translation. A copy on large paper, 2l. 12s. 6d. Pinelli. Lugd., 1571. fol., is only a new title.

22604 — nov. testam. Cujus græco contextui respondent interpretationes duæ, una vetus, altera nova Thdr. Bezæ, diligenter ab eo recognitæ. Ejusd. Bezæ annotatt. (Genevæ), H. Stephanus, 1582. fol.

A new recension of the text after the *Codices Cantabrigiensis* and *Claromontanus*. The editions, (Genev.), 1589 (other copies 1588), or (ib.) 1598, are new ones from the same apparatus. Cbr., Daniel, 1642. fol. is a neat reprint.

22605 — nov. testam. (gr.) cum notis Jos. Scaligeri in locos aliquot difficiliores. Col. Allobr., Pt. de la Rouiere, 1519. 4°.

Genev. or Col. Allobr., Rouiere, 1620. 4°. are only new titles. The text is only a reprint of that contained in the Antwerp Polyglott.

22606 — nov. test. (gr.) ex regiis aliisque optimis editionibus cum cura expressum. LB., ex off. Elzevir., 1624. 12°.

6 leaves of preliminary matter and 863 pages of text. There are copies with a title

printed in red and black, and with *Lugduni* as the place of printing, whilst the others have only a title printed in black, and *Lugduni Batavor.* as the place of printing. The first Elzevir edition, fine, correct, and scarce. A new recension of the text, in which Stephens's text forms the basis, altered after Beza and some other older editions. This mixture resting on late sources only, and worthless in a critical point of view, did not deserve to be considered as the *textus receptus*, so long as it was.

- 22607 — (the same title). Sedani, J. Jannon, 1628 (at the end 1629). 32°.

A neat reprint of the Elzevir text, greatly sought after, and remarkable on account of its uncommonly small character (*Sédanais*).

- 22608 — (the same title). LB., ex off. Elzevir., 1633. 12°.

8 leaves of preliminary matter, 861 pages of text, and 34 unnumbered leaves. The finest edition of the Elzevir New Test. and the most sought after. The remaining Elzevir editions, LB. 1641. 24°, Amst. 1656, 62, 70, and 78. 24°, are not sought after, although that of 1678 is neat and scarce. The edition, Amst., Gu. Blaeu, 1633. 16° is fine.

- 22609 — nov. testam. gr. Adjectæ sunt ad calcem variæ lectt. Par., typ. regia, 1642. large fol.

A respectable edition, but not sought after; it is only a reprint of Stephens's folio edition of 1550.

- 22610 — nov. testam. Editio nova, in qua diligentius, quam unquam antea, variantes lectt. tam ex MSS. quam impressis codicibus collectæ et parallela scripturæ loca annotata sunt, stud. et lab. St. Curcellæi. Amst., ex off. Elzevir., 1658. 12°.

Elzevir's text, but with the addition of a tolerably rich critical apparatus from earlier editions and MSS. Repeated, Amst., Dn. Elzevir, 1675. 12°. *ib.*, Blaeu, 1685 and 99. 12°.

- 22611 — novi test. libri omnes (gr.) Accesserunt parallela scripturæ loca nec non variantes lectt. ex plus 100 MSS. codd. et antiquis versionibus collectæ (cura et stud. J. Fell.) Ox., th. Sheld., 1675. 8°.

Elzevir's text, with a very rich collection of various readings, partly from the apparatus of Walton and Curcellæus, and partly

from 18 MSS. not before collated. There are copies on strong paper (15 fr. M^cCarthy).

- 22612 — nov. testam. una cum scholiis græcis, op. ac studio J. Gregorii. Ox., th. Sheld., 1703. fol.

Finished by H. Aldrich after Gregory's death. And. Rinman and J. E. Grabe had also part in it. A careless reprint of the text and various readings of the preceding edition. The scholia, added from the Greek fathers, are useless, and may be dispensed with. There are copies on large paper.

- 22613 — nov. testam. (gr.) Cum lectt. variantibus et in easdem notis. Stud. et labore J. Millii. Ox., th. Sheld., 1707. fol.

A new walk in New Testament criticism. Stephen's text forms indeed the basis, and the apparatus of more than 30,000 various readings, is in a great measure insignificant; but the MSS. which are made use of are accurately described and appreciated, by which means a firm foundation was for the first time obtained. Wetstein has omitted too much of what Mill's edition contained, to dispense entirely with it. There are copies on large paper.

- 22614 — nov. testam. gr. cum lectt. variantibus et in easdem notis. Stud. et labore J. Millii. Collectionem Millianam recensuit, meliore ordine disposuit novisque accessionibus locupletavit Ludolfus Kusterus. Amst. et Lps., Gleditsch, 1710. fol.

The following are only new titles; *Rot., Fritsch et Böhm*, 1710. fol. *Lips., Gleditsch*, 1725. fol. *Amst., Wetstein*, 1746. fol. There are copies of the editions of 1710 and 1723 on large paper. A reprint of the preceding edition with the addition of various readings from 12 other MSS. Yet this edition does not contain the entire apparatus collected by Mill.

- 22615 — nov. test. gr. Post Curcellæi et Oxoniensium labores accedit tantus locor. parall. numerus, quarum nulla adhuc profert editio, Variantes præterea ex MS. Vindobonensi ac crisis perpetua, qua singulas variantes examinat G. D. T. M. D. (Ger. de Mastricht). Amst., Wetstein, 1711. 8°.

The Elzevir text of 1633, with an unsuccessful selection of Mill's various readings, and the readings of a Vienna MS. Repeated, 6 E 2

ib., *id.*, 1735. 8°. Concerning Bentley's edition, projected since 1716, but which remained unaccomplished (probably for his reputation), see *Michaelis Einleit. ins N. T.* (1788) I. 828 sq. *Rathlef Gesch. der jetsleb. Gelehrten* I. 157 sq.

22616 — nov. testam. gr., ita adornatum, ut textus probatar. editt. medullam, margo probatium lectionum in suas classes distributar. *etc.* exhibeat, inserviente J. Alb. Bengelio. Tub., Cotta, 1734. 4°. 2 parts in 1 voll.

Bengelius added the various readings of 15 MSS. that had not been made use of, distinguished himself by his critical acumen, penetrated into the intrinsic importance of MSS. and readings, and justly reduced them to 5 classes. Wetstein has judged him too severely and too unfavourably. Thereto are to be added; *J. Alb. Bengelii apparatus crit. ad N. T. Ed. II. Tüb., Cotta, 1763. 4°. (3 d. 8 gr.)* *Cp. A. Bode Pseudocritica Millio-Bengeliana. Hal., Curt, 1767-69. 8°. 2 voll. (2 d. 8 gr.)*

22617 — nov. testam. gr. editionis receptæ cum lectt. variantibus codicum MSS. Op. et stud. J. Jac. Wetstenii. Amst., Dommer, 1751-52. fol. 2 voll.

An impression of the Elzevir text (which Wetstein was obliged to follow by his superiors), with a severe judgment of the same in the notes, and with the addition of a rich critical apparatus, in part derived from new sources. But he was often too bold in his conjectures and too hasty in his judgments. *J. Jac. Wetstenii prolegg. in N. T. notas adjec. J. Sal. Semler. Hal. 1764. 8°. (1 d. 4 gr.)* *Ejusd. libelli ad crisin et interpretat. N. T., ed. J. Sal. Semler. Hal. 1766. 8°. (18 gr.)*

22618 — nov. test. Juxta exemplar Millianum. Ox., typ. Clarend., typis Baskervillii, 1763. 4°.

This very correct edition has no peculiar merit in other respects than its neatness.

22619 — nov. test. duodecim tomis distinctum, gr. et lat. Textum denuo recensuit, varias lectt. nunquam antea vulgatas ex C. codd. MSS. adjecit Ch. F. Matthæi. Rigæ, Hartknoch, 1783-88. 8°. 12 voll. (12 d.)

There are also copies on Dutch paper. The editor wildly opposed the system of families of MSS. of the New Testament, introduced by Griesbach, but has certainly

the merit of having collated several Moscow MSS. which had not hitherto been made use of; but as to the criticism of the New Test. he has but a very subordinate merit owing to the prejudice with which he builds entirely on un glossed and Moscow MSS. so that he almost only gives a Byzantine text.

22620 — Nov. testam. gr. e codice MS. Alexandrino descriptum a C. Gf. Woide. Lond., Nichols, 1786. large fol. (2l. 10s. 6d.)

A fine and uncommonly faithful fac-simile of the Alexandrine MS. 10 copies were struck off on vellum in 4°. 6 of which contain the entire work with the notes and various readings (440 fr. M^cCarthy, 26l. 5s. Grafton), but 4 have only the Greek text. The duke of Devonshire possesses the only copy on vellum in folio. The prologomena with additions and an entirely complete collation of the MS. is printed in *C. Gf. Woidii Notitia codicis Alexandrini cum variis ejus lectt. omnibus. Excudendam curav. notasque adjec. Gf. Lbr. Spohn. Lps. 1788. 8°. (1 d. 12 gr.)*

The following vol. belongs to Woide's edition besides; *Appendix ad editionem N. T. gr. e cod. Alex. descripti a C. Gf. Woide, in qua continentur fragmenta N. T. juxta interpretationem dialecti superioris Egypti, quæ Thebaïdica vel Sahidica appellatur, e codd. Oron. maxima ex parte desumpta, cum diss. de versione biblicor. Egyptiaca, quibus subjicitur codicis Vaticani collatio (ed. H. Ford). Ox., typ. Clarend., 1799. fol. (2l. 2s.)*

22621 — nov. test. ad codicem Vindob. græce expressum. Varietatem lectionis addidit Fr. C. Alter. Vindob., Trattner, 1786-87. 8°. 2 voll. (4 d. 16 gr.)

An accurate impression of a not particularly good MS. of the 12th or 13th century, with important *excerpts* from 21 other Greek MSS. in the Vienna library.

22622 — codex Thdr. Bezzæ Cantabrigiensis evangelia et apostolor. acta complectens, quadratis literis græco-latinis. Edidit, codicis historiam præfixit notasque adjecit Th. Kipling. Cbr., e prelo acad. 1790. large fol. 2 voll. (3l. 3s.)

A neat and faithful fac-simile of the celebrated *Codex Cantabrigiensis*, which is set down in the 6th-8th century. Only 250 copies of this edition were struck off, and some on very large paper.

22623 — nov. testam. gr. Textum ad

fidem codicum, versionum et patrum recensuit et lectionis varietatem adiecit J. Jac. Griesbach. Ed. II. emendatior multoque locupletior. Hal., Curt, 1796-1806. 8°. 2 voll. (5 d. 6 gr.)

The most careful and complete investigation of the critical apparatus hitherto collected, a collation of MSS. not before used, and a criticism, as acute as it is circumspect, distinguish this new recension of the text in the highest degree. The 1st edition appeared, *Hal.* 1775-77. 8°. 2 vols. In the above 2nd edition Griesbach has executed his entire work afresh with the aid of new materials. *Ox.* 1809. 8°. 2 vols., and *Lond.* 1818. 8°. 2 vols. (2l. 2s.) are neat reprints. An enlarged 3rd edition of the 1st vol. by D. Schulz, *Berol. Laus.* 1827. 8°. (3 d. 12 gr.)

22624 — nov. testam. gr. Ex rec. J. Jac. Griesbachii cum selecta lectionum varietate. Lps., Göschen, 1803-7. small fol. 4 vols. with 4 title-plates on pressed vellum paper (60 d.)

A splendid edition, deserving this name with reference to the paper and printing, but not on account of its spiral types, which are unlike Greek. The text is that of the preceding 2nd edition. At the same time also a small reprint of this splendid edition was prepared, *Lps. Göschen*, 1805. (a new and unaltered edition, 1825). 8°. 2 vols. (1 d. 4 gr.)

22625 — nov. testam. gr. Ad. codd. MSS. iterum recensuit et criticis animadvers. edidit Ch. F. de Matthæi. T. I. Witt. 1803. T. II. Hof, 1804. T. III. Ronneburg, 1806. 8°. 3 voll. (6 d. 12 gr.)

This edition only gives a selection of the most important readings with critical animadversions, but Matthæi has made use of fresh MSS and this edition must consequently be had with his earlier one.

22626 — nov. testam. gr. perpetua annotatione illustratum a J. Bj. Koppe. Gött., Dietrichs, 8°. Vol. III. Acta apost. ed. Heinrichs. 1809-12. 2 voll. (2 d. 16 gr.) Vol. IV. Ep. ad Rom. ed. Ammon. Ed. 3. 1824. (1 d. 16 gr.) Vol. V. Ep. I. ad Corinth. P. I. ed. Pott. 1826. (1 d. 16 gr.) Vol. VI. Epp. ad Gal. Ephes. et Thessal. ed.

Tychsen. Ed. 3. 1823. (1 d. 8 gr.) Vol. VII. Epp. ad Timoth. Tit. Philem. Philipp. et Coloss. ed. Heinrichs. 1798-1826. 2 voll. (1 d. 12 gr.) Vol. VIII. Ep. ad Hebr. ed. Heinrichs. Ed. 2. 1822. (2 d.) Vol. IX. Epp. cathol. ed. Pott. Ed. 3. 1816. 2 voll. (2 d. 2 gr.) Vol. X. Apocalyps. ed. Heinrichs. 1818-21. 2 voll. (2 d. 20 gr.)

So much of this edition, which is suited to be added to the editions *Cum notis variorum*, had appeared up to the end of 1826. Vol. I. and II. have not yet been published. The text of this edition is a revision of that by Bengelius.

22627 — nov. testam. gr. Recognovit atque insignioris lectionum varietatis et argumentor. notationes subjunxit G. Ch. Knappius. Ed. III. Hal., orphanotroph. 1824. 8°. 2 voll. (1 d., on white printing paper 1 d. 12 gr.)

It had previously appeared in 1797 and 1813. A new revision of Griesbach's text, with particular regard to the position or order of the words.

22628 — nov. testam. gr. ad edit. J. Jac. Griesbachii, cum notis varior. edid. E. Valpy. Lond., Valpy, 1816. 8°. 3 voll. (2l. 12s. 6., on large paper 4l.)

22629 — nov. testam. gr. secundum edit. probatiss. expressum, nova versione lat. illustratum, indice brevi præcipue diversitatis lectionum et interpretatt. instructum ed. H. A. Schott. Ed. III. Lps., Märker, 1825. 8°. (2 d.)

A good and carefully superintended small edition.

22630 — 3. *Ægyptiacum*. Nov. Test. *Ægyptium*, vulgo *Copticum*. Ex MSS. Bodleianis descripsit, cum Vaticanis et Parisiensibus contulit et in lat. sermonem convertit D. Wilkins. Ox., th. Sheld. 1716. 4°. (1l. 1s.)

There are copies on large strong paper (180 fr. de Cotte, 50 fr. Caillard.) Farther citations see in Marsh's Annotations to Michaelis's *Introduction to the New Test.* T. I. 186. Consult also (Ford's) *Appendix to Woide's New Test.* No. 22620 above.

22631 — 4. *Æthiopicum*. Testam. 6 E 3

nov. cum epistola Pauli ad Hebræos etc. Quæ omnia Pt. (Comosi) Ethiops imprimi curavit. Romæ, Valer. Doricus et L. fratres Brixiani, 1548. 4°.

8 leaves of preliminary matter and 176 numbered leaves. Two copies on vellum are known (112 livr. Gaignat). The impression in Walton's *Polyglott* is so little to be depended upon, that this edition still remains indispensable.

22632 — 5. *Anglicum*. The newe testament, dyligently corrected and compared with the Greke by W. Tindale. Antw., Mt. Emperour, 1533. 8°.

Very scarce. Of the 1st edition, without place, 1526. 12°. only one copy, at Bristol, is known, which was sold in 1760 for 14½ guineas, and in 1776 for 20.

22633 — the newe testament translated in Englishe by W. Tyndale. Antw., Emperour, 1534. 8°.

There is a copy on vellum of this equally scarce edition in the British Museum. There is also an edition of 1536. 8°.

22634 — the new testament both in Latin and English after the vulgare text, transl. by Myles Coverdale. Par., Rich. Grafton, 1538. 8°.

Sold at the duke of Marlborough's sale in 1819 for 5l. 2s. 6d. There is a translation by Th. Mathew of the same year in 4°. in Gothic letter with woodcuts.

22635 — The new testamēt in Englyshe trāslated after the texte of Master Erasmus Roterodame. (Lond.), Rich. Grafton and Ed. Whytchurch, 1539. 8°. Gothic letter.

A copy of this edition in very good condition is at Wolfenbüttel.

22636 — nov. testam. et psalmi, anglice. Impressum characteribus tachygraphicis stud. Jerem. Rich. Lond., without date (about 1700). 32°.

22637 — the new testam. tranal. from the Latin in the year 1380 by J. Wiclif. Edited by H. Hervey Barber. Lond. 1810. 4°. (1l. 18., on large paper 1l. 11s. 6.)

A fine vellum *codex* of this translation, containing the Old and New Testament, is at Wolfenbüttel.

22638 — 6. *Arabicum*. Nov. testam. arabice, ex bibl. Leidensi, edente Th. Erpenio. Leidæ, in typogr. Erpeniana, 1616. 4°.

A faithful and unfaifalised impression of a MS. written in Upper Egypt in 1342.

22639 — testam. nov., item decalogus e capite XX. Exodi, arab. (Lond., sumtib. societatis de propaganda cognitione Christi), 1727. 4°.

The title of this scarce edition, almost the whole of which was sent into the East, is altogether in Arabic. The text is taken from Walton's *Polyglott*, but altered by Sal. Negri, according to the Greek, and corrected in the expressions. According to Brunet, Oxford was the real place of printing.

22640 — nov. testam., arab. Calcutta, 1816. 8°. 604 pages.

This new and very successful translation originated with Tabat, a converted Arabian, now called Nathanael. Another Arabic translation, commenced by H. Martyn, and finished by Th. Thomason, appeared at London in 1813, at the cost of the Bible Society. See also EVANGELIA.

22641 — 7. *Armenum*. Test. nov. armen., ed. Usan. Amst. 1668. 8°.

22642 — nov. testam. armen., opera Lucæ Nurigianidis. Amst. 1698. 12°.

This edition is finely printed and very correct. A copy on blue paper, 45 fr. M'Carthy. Also, Ven. 1720 or 1816. 8°. Lond. 1818. 8°.

22643 — 8. *Bascum*. Jesus Christ Gure Jaunaren Testamentu Berria. Rochellan, Pt. Hautin, 1571. 8°.

Very scarce. The translator was J. de Licarrague de Briscous.

22644 — 9. *Bengalicum*. Nov. test. bengal., interprete Gu. Carey. Serampore, 1801. large 8°. 808 pages.

22645 — 10. *Bohemicum*. Without place, (*Pilsen in Bohemia*), 1475. fol. Gothic letter.

209 leaves in 2 columns, without signatures, catchwords and numbering of the leaves. The first Bohemian biblical typographical production and extremely scarce, only 2 copies of which are known (in the Imperial library at Vienna, and in the library at Prague). The indistinctly expressed date on the folio recto is a matter of dispute; some read it (with little probability) as 1471, others as 1477, but most,

20 leaves, table (with the superscription, *Cy commence la table du nouveau testament*), and 283 leaves of text in 2 columns of 29 lines. Without signatures and numbering of the leaves. The work ends on the reverse of the last leaf with the colophon, *Cy finist lapocalipse et samblaement le nouveau testament etc.*

- 22658 — le même, ensemble la declaration dicelluy faite et composee par Julian Macho et Pt. Farget. Lyon, Bm. Buyer, without date, small fol. Gothic letter.

The superscriptions and colophon are nearly the same as in the preceding. The number of leaves is the same.—The oldest French New Test. in the Dresden library is le Fevre's translation after the edition of *Basle*, without the printer's name, 1525. 8°. - 22659 — le N. T. trad sur la vulgate (par le Maistre de Sacy, Arnauld, Nicole etc.) Mons, Migeot (Amst., Elzevir), 1667. 12°. 2 voll.

Particularly good copies are sought after for the Elzevir series. The edition, *Mons, Migeot (Brus., Fricx)*, 1697. 12°. 2 vols., is prized for its plates.

- 22660 — le même, en latin et en franç., trad. par le Maistre de Sacy. Par., Saugrain, impr. de Didot, 1791-1801. 8°. 5 vols. with 112 plates.

The plates are by Moreau the younger. The edition is unfinished, and contains the historical books only. There are copies on large paper, and on large vellum paper in 8°, and in 4°. on large paper, and on large vellum paper with plates *avant la lettre*,

with a dedication to the National Assembly, which is said to be found in only 18 copies. The 5th vol. is wanting in most copies.

- 22661 — 19. *Germanicum*. Das Neue Testament. Deutschn. Vuittemberg, without date (1522). fol.

The first edition of Luther's translation of the New Test., which appeared in September 1522, and is in consequence called the September edition. Melch. Lotther was the printer. It contains 220 leaves in all; viz. 4 unnumbered leaves of preliminary matter, 107 numbered, 6 unnumbered, preface before the epistle to the Romans, 77 numbered (as far as the epistle of St. Jude), and 26 unnumbered (the Revelation). In the Revelation there are 20 woodcuts after designs of Luc. Cranach, which appeared herein for the first time, and have been often repeated. Their invention does not however belong to Cranach, since similar representations were already to be found in Koberger's German Bible of 1483. At the end of the Revelation are eight corrections, with the superscription *Correctur*, by which this edition may with the most certainty be distinguished from the following, in which they are wanting. The gloss to 1 Cor. xii. 4 is different in many copies — Reprints of this edition, not of the following, are, *Strb.*, *Hans Schott*, without date (1522 or 23). 8°. and, *Augsp.*, *Schönsperger*, 1523. fol. with woodcuts by Scheufelin, and with the types of the *Theuerdank*. A copy of the latter on vellum is in the council library at Leipsic.

- 22662 — Das neue Testament. Deutschn. Vuittemberg, Melch. Lotther, 1522. fol.

This edition, having appeared in the December of this year, is called the Dec. edition. It contains 4 unnumbered leaves, 100 numbered, 6 unnumbered, and 94 numbered, consequently 200 leaves in all, and is throughout a new working up of the preceding edition, from which it differs only in the most trifling matter, in the mention of the printer's name and of the year in the colophon. The *Correctur* at the end of the preceding edition is also wanting in the present edition. Some misprints are common to both. The woodcuts are also the same, yet the dragon in chap. xi. of the Revelation, and the Babylonian whore in chap. xvii. in this edition have only a single instead of the triple crown in the preceding.

- 22663 — das naw Testament nach lawt der Christlichē Kirchen bewertē text, corrigirt, vn widerumb zurecht gebracht (durch Hi. Em-

ser.) Dresd., Wfg. Stöckel. 1527. fol. with woodcuts.

4 leaves of preliminary matter, and 196 numbered leaves. The tolerably scarce original edition of this translation, which was directed against Luther. Of the woodcuts, those to be found in the Revelation (excepting the two in leaf 177), are impressions of the same engravings after Cranach, which had been used in the two preceding editions. The 2nd edition appeared, *Lps.* Val. Schumann, 1528. fol. with woodcuts. The woodcuts of this 2nd edition are not after Cranach.

- 22664 — das new Testäment, deutsch, widerumb fleissig corrigiert. Augsp., H. Stainer, 1535. 8°.

Of this edition there are several copies on vellum, not fine, in the libraries at Dresden, Wolfenbüttel, and elsewhere. Offered for sale in England in 1806 for 10 guineas.

This scarce edition has been attributed by some to Chouet of Geneva, on account of the symbol in the title, (an anchor with a dolphin); by others to the Elzevir press, on account of the neatness of its printing. The translation is by Maximus Calliopoli. Corrected by Seraphim a monk of Mity-

lene, *Lond. Bj. Mottaus*, 1703. 12°. (*ib.*) 1705. 12°. and afresh by Anastasius Michaelis, 1710. 12°.

This edition, as well as that of *Par., Barbou*, 1767 or 85. 12°. (there are 4 copies of this latter on vellum, 129 fr. M^cCarthy.) is sought after on account of its neatness.

22680 — test. nov. nunc demum e cod. Alexandrino lat. redditum, interprete Lp. Sebastiani. Lond., Schulze, 1817. 8°. Also on large paper.

The translator, a Roman Catholic missionary, had scarcely finished his task when he threw it aside and sold it for waste paper, at a loss of more than 200l. because he was afraid that he had sacrificed too much to good Latinity, and had too much departed from the simplicity of the original.

Each vol. has a Russian as well as a Dutch title. Of the copies with the Russian text only 2 are known, (there are several with the Dutch text alone,) one in the Royal library at Paris, and the other in the library at Wolfenbüttel. A third, which was in the library at Moscow was destroyed when the town was burnt. Consult *Dibdin's Tour*, II. 258-260.

22693 — 38. *Syriacum*. Liber SS. evangelii de Jesu Christo domino et deo nostro etc. (N. T. Syr., edente J. Alb. Widmanstadio.) Viennæ, Mch. Cymberrmannus, 1555. 4°. 356 leaves.

The first edition of this Syriac New Test. fine, but not scarce; prepared from 2 MSS. The dedications to the archdukes Ferdinand and Charles, mentioned in Nos. 5 and 7 of the table of contents contained in leaf 2^b, are wanting in all the copies that are known. The two last epistles of John, the 2nd of Peter, that of Jude and the Revelation are not in this edition, because they did not belong to the old Syriac translation.

Although the copies are often bound up differently, yet they may be collated with certainty according to the following specification. 27 unnumbered leaves of preliminary matter (title, privilegium, dedication, errata, and preface to St. Matthew), 129 numbered (the text of the 4 gospels), 11 unnumbered (woodcut and postscript to the 4 gospels, dedication to Maximilian, errata, title, and table of contents to the epistles of Paul), LXXX numbered (text of Paul's epistles), 2 leaves (woodcut and title to the acts of the Apostles), 38 numbered (text of the Acts of the Apostles), 2 leaves (woodcut and title to the catholic epistles), 28 unnumbered (*Tabula Evangel. lectt.* letter to Giengerus, congratulatory poems and colophon), 28 unnumbered, *Elementa Syr. lingue*, which has the date of 1556 at the end, and is sometimes wanting.

In some copies the first 4 Syriac lines of the title are printed in red, in others in black, without any farther difference seeming to be in them. But there are also copies with a new title, *Viennæ, Mch. Zymmerman*, 1562. The year 1556, under which this edition is sometimes cited, refers only to the date of the *Elementa*, which are appended.

The best edition as yet, and particularly valuable on account of its lexicon. The first edition, *ib.*, *ib.*, 1709. 4°. appears to differ from the 2nd only in the title.

The new edition, *ib.* 1647. fol. is indeed on larger paper, but is less sought after.

22706 TEUFEL. We have seen above, under DAMERVAL and DIABLE, how the lively Frenchman disdains not what is most wicked, if it can afford a matter of sport. The German is more grave, although he has expressed himself at different times in quite a different manner. For a number of years it has been the fashion to teach and recommend the duties of life in romances, which, according to the refinement and courteousness of the manners of our day, only speak of men, women, and maidens, and so forth, *as they ought to be*. Our ancestors reversed matters for a similar object, painted the Devil on the wall (to make use of the proverb) in his proper character, and sought directly, through a rude and coarse representation of the opposite, to lead persons to what was better. Thus originated a method of handling single objects of practical morals adapted to the fashion of the age, and which we conceive not undeserving of the trouble of being here pointed out in as complete a bibliographical manner as possible, were it only that in our opinion they afford the liveliest and truest traits for a future history of life and manners. The addition of WB. indicates that the piece which is wanting in the Dresden library is at Wolfenbüttel.

The latter half of the 16th century, as we see from the preceding articles, assumed only a theological form for its philosophy of life. A century later things had taken a different form. Politics had stepped into the place of theology, and the influence of the *Siecle de Louis XIV.* was visible even in German literature. Now morals must recommend themselves in a political garb: nevertheless this was an innocent pedantry not extending itself beyond the title-leaf. The animadversion therefore of the errors of the times was and continued to be as strong and unbending as they had been in the earlier theological garb; in this style probably even the preparatory steps to a German national literature were again attained, the commencement of which had been made by the then almost forgotten literature of the reformation in the first half of the 16th century, and by the historico-geographical literature of the second half of it, which have not yet been recognised and exalted by any German literary historian proportionably to their entire value. A bibliographical notice of endeavours, which, if not decidedly political, yet at least shew great acquaintance with the economy of life, may consequently, I trust, be annexed in this place.

A valuable repertorium of the histories of that period, which ought not to be wanting in any well-arranged library. Dudith's translation of the 12th oration (according to Harduin) is added.

A new title, Par. 1619. 8°. This edition, besides the 14 previously printed orations, contains 2 new ones (the 6th and 26th in Harduin), the first of which had

been published, Par. 1604. 8°. by F. Morellus, erroneously under the name of Synesius (see above, No. 22098), and also a Greek version by Petavius of the 12th oration published by Remus in Dudith's Latin translation.

22734 — oratt. aliquot non editæ, gr. cum interpr. Pt. Pantini et viri eruditi notis. LB., J. Patius, 1614. 8°.

Consult *Freytagii Analecta*, p. 967 sq. Beaugendre, in *Hildeberti Turan. opp.* p. 1173, has incorrectly printed this poem under the name of the latter, which is animadverted upon by Lessing in the *Collectan. sur Lit.*

I. 375 sq. and 384. Beaugendre's impression is in other respects more correct than the earlier editions, and has 2 verses more at the end, in which Tibaldus is mentioned as the author.

22751 THEOCRITUS. Idyllia XVIII. (priora) et Hesiodi opera et dies, gr. Without place or date (*Mediol.* about 1481). small fol.

46 leaves with the signatures A to Z, and 30 lines, without catchwords and numbering of the leaves, with superscriptions printed in red. According to the horizontal water marks the size is properly a quarto. Leaf 1^a begins with the superscription, ΘΕΟΚΡΙΤΟΥ ΘΡΥΠΙΚΗ Η ΩΔΗ ΕΙΔΥΛΛΙΩΝ. A. These first 18 Idyls of Theocritus occupy 31 leaves, and end in leaf 31^b (signature Δ 8) with the line, Τελεος του θεοκριτου. Hesiod begins in leaf 32^a (signature E 1), and the 1st line is, ΗΓΙΟΔΟΥ ΤΟΥ ΑΚΚΡΑΙΟΥ ΕΡΓΑ. Hesiod occupies 15 leaves, and ends in the 10th line of leaf 46^a.

The most discordant opinions exist as to the place and probable time of printing of this edition. Since Valckenaer conjectured in 1773 that it appeared at Milan in 1493, because the copy in the University library of Leyden is bound up with the Milan Isocrates of that year, this conjecture has been repeated by Morelli (*Catal. Pinelli*, II. 302); Santander (*III.* 397); Harles, in *Fabricii Bibl. gr. ed. nov.* I. 596. *III.* 779; Beloe, *Anecdotes*, III. 193; and Jacobs in his edition of Theocritus (1824), vol. I. pref. p. XIII. sq. in some cases as an undoubted certainty. Bandini, in the *Catal. codd. gr. bibl. Laur.* III. 424, following Maittaire, maintains that it is a typographical production of Ph. Giunta's at Florence about 1497, but he revokes this opinion himself in the *Annal. typogr. Juniarum*. Dibdin, in the *Bibl. Spenc.* II. 43, 438 sq. has, as usual, no opinion of his own, although he had the very edition before his eyes, and all other materials in aid of a farther comparison at hand, and has only introduced fresh confusion into the previous accounts which he has not removed either in the *Library Companion*, p. 620, or in the 4th edition of his *Introduction to the Classics*, II. 482. Panzer, IV. 361, first drew attention to Fossi's *Biblioth. Magliab.* II. 650, whom subsequent bibliographers have in this very point unjustifiably neglected.

And yet Fossi has discussed the matter with the most acuteness. He refutes Maittaire's and Bandini's opinion, that this work is a Juntine production; proves that the types are also totally dissimilar to those of the Isocrates of 1493 (which Geel, the libra-

rian, had also asserted in the *Biblioth. crit. nova*, II. 310, from his own inspection of the Leyden copy); points out a copy, bound up with the Milan Greek Psalter of 1481 (concerning this copy see also Renouard *Annales des Alde*, Ed. II. T. I. p. 11), and lastly, as an eyewitness, he declares the types to be the same as those which occur in the Milan impression of Lascaris's Greek grammar in 1480. Unfortunately the librarian, Geel, who went over Fossi's inquiries most thoroughly, had no opportunity of comparing the Lascaris and the Psalter with the Theocritus (which has also been my own case), and therefore found himself obliged to confine his own investigation to a comparison with the Florence Homer of 1488, the types of which, although smaller, he found to be very like those of the undated Theocritus. He doubted greatly, perhaps for this very reason, of the Milan origin of this important *editio princeps* of Theocritus.

Being publicly invited by my honoured friend and colleague to a conference on this subject, I cannot certainly impart any more sure information respecting it, for want of a personal inspection of this typographical production. In the meantime the following notices respecting the oldest Greek printing may possibly contribute to the decision of this controverted question.

It is well known that the first Greek types (only engraved on wood) appeared in Cicero's offices by Faust and Schöffer in 1465, and in the Lactantius at Subbiaco of the same year. The first *cast* Greek types appear to be those in the Roman Quintilian of 1470 (from the press of P. de Lignamine). The Venetian printers were the next that used them, but, like the Roman, in single passages only. The first typographical production, entirely Greek, appeared at Milan in 1476, and was Lascaris's Greek grammar (see above, No. 11732). A certain Dion. Paraviusius is mentioned in it as the printer. After the year above mentioned Bonus Accursius undertook this printing establishment, and edited with the same types the Lascaris of 1480, the Psalter of 1481, the undated Æsop (in which he is expressly mentioned as the printer), Craston's Greek lexicon, which according to the contemporaneous testimony in the *Bibl. Smithiana*, P. II. p. XXII. and in Beloe's *Anecdotes*, III. 187, must have appeared at the latest in 1478, and an abridgment of Craston, likewise undated. Accursius may have died somewhere about the beginning of the year 1480, and then his Greek types went to Florence, where they were made use of for the Homer of 1488. As to the rest his establishment had also different

kinds of types. Those of the Psalter of 1481, for instance, are larger and thicker than those of the Craston, which last almost entirely agree with the types of the Homer of 1488.

These very old Milan types were used at Florence until about the end of the 15th century, when they probably were worn out and past use. Subsequently the Giunti employed at the same place the more pleasing Greek types, with which Zacharias Calliergus had printed at Venice since 1499, until at last they themselves established a type-foundry.

After the Greek printing establishment of Bonus Accursius had been bought from Milan, a new one was erected there sometime about 1493, which printed Isocrates in 1493, Suidas in 1499, and, without mention of the date, *Chalcondylæ erotemata*, and a new abridgment of Craston's lexicon (see above, No. 5451). These types are so entirely different from those of the earlier Milan printing establishment, that no other proof is needed beyond a bare inspection of them.

Now Fossi and Geel find the Theocritus in question to be utterly unlike the Isocrates of 1493, Bandini recalls his former opinion of its similarity to the oldest Juntime Greek type, and Geel recognises again in the Theocritus the types of the Homer of 1488, only *larger*, so that there is every probability that the Theocritus has the types of the Psalter of 1481, which belonged to the *older* Milan printing establishment (*before* its removal to Florence), and should at least be set down before the year 1488, and is consequently the undoubted *editio princeps* of Theocritus. Some stress might perhaps also be laid on the circumstance of a copy being known to be bound up with the Psalter of 1481, and the more so on this account, that so heterogeneous a union of sacred and profane may be considered to declare in favour of a pretty near contemporaneity.

But costly and scarce as this edition is, it is only an impression, neither carefully done nor correct, of a single MS. According to Dibdin's *Tour*, II. 315, there is a copy of it on large paper in the Royal library at Paris, with a subsequently printed title, bearing the date of 1523 or 1524.

22752 — Theocriti eclogæ triginta. Genus Theocriti et de inuentione bucolicorum. Catonis Romani sententiæ paræneticæ distichi. Sententiæ septem sapientum. De Inuidia. Theognidis Megarensis Siculi sententiæ elegiacæ. Sententiæ monostichi per capita ex variis poetis.

Aurea carmina Pythagoræ. Phocylidæ poema admonitorium. Carmina Sibyllæ Erythrææ de Christo Jesu domino nro. Differētia uocis. Hesiodi Theogonia. Ejusdem scutum Herculis. Ejusdem georgicon libri duo (græce.) Ven., Ald. Manutius, m. Febr. 1495. fol.

140 unnumbered leaves, with 30 lines, and signatures. There are copies of this greatly sought after and very scarce edition, in which p. 77-80 and 85-100, or the layers Z F and Θ G are reprinted. The reprinted leaves, which contain important corrections, are recognised by having on the reverse of the last leaf of signature Θ G a poem on the death of Adonis, whereas this page in the former copies remains blank. The earlier copies before the reprint are the more scarce, and they possess an intrinsic worth compared with the reprint, inasmuch as they contain some good readings, which in the latter have been incorrectly altered. As to the rest, Aldus formed the text from several MSS. rather arbitrarily in part, and often with neglect of the Doric dialect, and for the first time published 30 Idyls.

22753 — Θεοκρίτου βουκολικά. Theocriti opera omnia (gr.) Flor., Ph. Junta, 10 Jan. 1515. 8°.

76 leaves. This scarce edition appears to have been so often confounded with the subsequent Junta edition of 1540, as to require a particularly accurate collation. It certainly seems to contain a new and valuable recension of the text from MSS. and especially to possess the merit of a careful restoration of the Doric form. The copy furnished with MS. corrections by Mch. (not Scipio) Carteromaco (*Bandini Annal. Junt.* II. 72.) is now in the possession of Renouard (consult his *Calal.* II. 174. *Annales des Aldes*, Ed. II. T. III. p. 218, 372). Ph. Pandolfinus is mentioned as the superintendent of this edition.

22754 — εἰδύλλια ἐξ καὶ τριακοντα. Του αὐτου ἐπιγραμματα ἑνεα καὶ δεκα. Του αὐτου πελεκυς καὶ πτερυγιον. Σχολια τα εἰς αὐτα ἐνρισκομενα, ἐκ διαφορων ἀντιγραφων εἰς ἐν συλλεχθεντα. Romæ, Zach. Calliergus, 1516. 8°. — Σχολια τα ἐνρισκομενα εἰς τα Θεοκρίτου εἰδύλλια, ἐκ διαφορων ἀντιγραφων ἐπιμελως εἰς κοινὴν ὠφελειαν συλλεχθεντα παρα Ζαχαριου Καλλιεργου του Κρητος. ib., id., 15 Jan. 1516. 8°. 2 voll.

The 1st vol. contains 88 leaves with the signatures α-μ, the 2nd (which begins in 6 F 2

leaf 1^o with the above superscription without any separate title) 116 leaves with 25 lines, and the signatures A-ee. The text of Aldus, but frequently corrected (probably from MSS.), forms the basis. Its frequent agreement with the Juntine edition, seems only to shew that the same materials were made use of which had been employed in that edition. But Calliergus acquired an entirely new merit by the collection and publication of the ancient scholia, of which this edition is the first. It is scarce, and greatly sought after. At Dresden there is only the 2nd vol., that of the scholia.

22755 — εἰδυλλία τουτέστι μικρά ποιήματα (gr.) Lovanii, Theodorici. Martinus, m. Jan. (at the end *m. Febr.*) 1520. 4^o.

56 unnumbered leaves with the signatures a-o. This scarce edition chiefly agrees with the Aldine, but also contains something valuable of its own.

22756 — εἰδυλλία, τουτ' ἐστι μικρά ποιήματα ἐξ καὶ τριακοντα. Του αὐτου ἐπιγράμματα ἑννεα καὶ δεκα. Του αὐτου πελεκυς καὶ πτερνυγιον. Hagenoæ, J. Secerius, 1530. 8^o. — Idyllia XXXVI. lat. carmine reddita, Hel. Eobano Hesso interprete. ib., id., m. Nov. 1530 (at the end, *m. Febr.* 1531). 8^o. 2 voll.

Superintended by Jo. Camerarius, and corrected occasionally from conjecture. Only the 2nd vol., the translation by Hesso, is met with at Dresden; this has been reprinted, *Par.*, Bogardus, 1546. 12^o. without the Greek text.

22757 — Idyllia XXXVI. Ejusd. epigrammata XIX. Ejusd. bipennis et ala (gr.) Ven., Bm. de Zannettis, 1539. 8^o.—Commentaria vetera in Theocr. eclogas, ex diversis exemplaribus collecta a Zach. Calliergo (gr.) ib., id., 1539. 8^o. 2 voll.

The text is an incorrect reprint of the edition superintended by Albanus Torinus, *Bas.*, And. Cratander, 1530. 8^o. and the scholia are a reprint of the above edition by Calliergus.

22758 — idyllia h. e. parva poemata XXXVI. Ejusd. epigrammata XIX. Ejusd. Bipennis et Ala. Flor., Bd. Junta, 1540. 8^o.

77 numbered leaves, and 1 leaf with the colophon and lily. Concerning this second Juntine edition, which is likewise tolerably

scarce, see No. 22753, above. Professor Jacobs, in p. XXVI of his preface, erroneously doubted its existence, since there is not the slightest uncertainty of the existence of two Juntine editions of Theocritus, of 1515 and 1540.

22759 — idyllia, h. e. parva poemata XXXVI. Ejusd. epigrammata XIX. Ejusd. Bipennis et Ala. Præter hæc et latina versio carmine reddita per Hel. Eob. Hessum et Jo. Camerarii scholia. (*Ff.*, *Pt. Brubach*), 1545. 8^o.

194 numbered, and 2 unnumbered leaves of Greek text, and then the Latin translation with a separate title. The 2nd edition by Camerarius. Repeated, with the same title, *ib.*, *id.*, 1553. 8^o. This last edition is really a fresh print, and not merely a new title, although agreeing line for line with the preceding.

22760 — idyllia, gr. Eadem lat. carmine expressa ab Eob. Hesso. *Par.*, Gu. Morelius, 1550. 4^o.

A fine edition, containing the Greek text in 92 pages, and the Latin translation in 20.—The Greek text by itself previously, *Par.*, Ch. Wechel, 1543. 4^o.

22761 — idyllia XXXVI. Epigrammata XIX. Bipennis et Ala (gr.) *Par.*, Gu. Morellus, 1561. 4^o.

A fine edition.

22762 — Theocriti aliorumque poetarum idyllia. Ejusd. epigrammata. Simmiæ Rhodii ovum, alæ, securis, fistula. Dosiadis ara. Omnia cum interpretatione latina. In Virgilianas et Nas.(onianas) imitationes Theocriti observationes H. Stephani. Excud., H. Stephanus, 1579. 12^o.

8 leaves of preliminary matter, 447, 63, and 128 pages. A new recension, grounded on a collation of the Aldine and Juntine editions, and that by Calliergus, on conjecture, and sometimes on a single MS.; it is equally acute and valuable, although often also very arbitrary. The editor had previously given Theocritus in 1566 in his *Poet. græc. princip.* p. 183-266.

22763 — eidyllia h. e. parva poemata XXXVI. Pindari Argonautica. (Græce.) Cum expositione grammatica de ore Mch. Neandri excerpta (edente Gerandro). Lips., Jac. Apel, 1596. 8^o.

The explanation is intended only for learners.

22764 — *idyllia et epigrammata cum MSS. Palat. collata. Moschi, Bionis, Simmii opera quæ exstant (gr. lat.) E typogr. Hi. Commelini, 1596. 8°. 8 leaves of preliminary matter, and 319 pages. Jos. Scaligeri emendationes ad Theocriti, Moschi et Bionis idyllia. ib. 1596. 8°. 30 pages. Is. Casauboni Theocriticar. lectionum libellus. Ed. altera uberior et melior. ib. 1596. 8°. 150 pages.*

These three pieces belong to a complete copy, but are seldom found together. It is not known who superintended this scarce edition, which has not been sufficiently examined with respect to its peculiar matter (see No. 22766, below). I conjecture that it might have been F. Sylburgius, who died that same year.

22765 — *idyllia et epigrammata etc. (the title as in the preceding). E typogr. Hi. Commelini, 1603. 8°. 8 leaves of preliminary matter, and 319 pages. Dn. Heinsii emendatt. et notæ in Theocr. idyllia. In bibliopolio Commelianiano, 1603. 8°. 4 leaves, 152 pages, and 2 leaves. Jos. Scaligeri emendatt. etc. ib. 1596. 8°. 30 pages. Is. Casauboni Theocr. lectt. libell. etc. ib. 1596. 8°. 150 pages. Σχολια εύρισκομενα εις τα Θεοκριτου ειδυλλια (gr.) Ex offic. Commelin. 1601. 8°. 8 leaves, and 260 columns.*

Reliance may be placed on the above statement of the contents of this edition, which hitherto has always been inaccurately described in a bibliographical point of view. The text of Theocritus is an unaltered though really new impression of the preceding edition, and Heinsius had no part in it. Scaliger's and Casaubon's notes were added from the old impression, but that the Greek scholia, superintended by Abr. Schultetus after Calliergus's edition, belong to this, as a necessary constituent part, is evident from the preface to Heinsius's notes, although they are not mentioned in the following general title, which is added separately to the Dresden copy. It runs thus: Θεοκριτου ειδυλλια και επιγραμματα. Μοσχου, Βιονος, Σιμμιον τα σωζομενα. Omnia cum interpretatione latina. Acced. notæ et emendatt. Scaligeri, Casauboni, Heinsii in Theocritum. In bibliopolio Commelin. 1603.

As to the rest, the edition according to the complaint of Heinsius is very incorrect,

and it is said on that account, as he relates, to have been suppressed by the publisher a year afterwards (*Fabricii Bibl. gr. Harl. III. 788*). This last point is to be doubted. Since on the one hand it is not so very scarce, as a book suppressed the year after its appearance by the publisher himself would have been; and on the other the Dresden copy in its original binding, and probably then first purchased from the bookseller's shop, is marked with the year 1616.

22766 — Theocriti, Moschi, Bionis, Simmii, quæ extant: cum græcis in Theocritum scholiis et indice copioso. Omnia studio et opera Dn. Heinsii. Acc. Jos. Scaligeri, Is. Casauboni et ejusd. Dn. Heinsii notæ et lectt. Ex bibliopolio Commeliniano, 1604. 4°.

14 leaves of preliminary matter, and 432 pages. Professor Jacobs considers this a repetition of Commelinus's text of 1596, which is made up of Calliergus's and Stephens's, and has nothing of its own beyond the restoration of the Doricisms, but that Heinsius in his notes had Stephens's text before him.

22767 — τα εύρισκομενα, συν τοις των παλαιων σχολιοις (gr.) 'Οξων., εκ θεωτρον, εχου' (1676). 8°.

4 leaves, and 216 pages. This edition is a neat impression of the text of the preceding, and was superintended by J. Fell.

22768 — quæ extant (gr. lat.) cum græcis scholiis (edente Rich. West.) Ox., th. Sheld., 1699. 8°.

4 leaves of preliminary matter, 1 plate, 294 pages, and 19 leaves, supplement and index. The last 19 leaves are sometimes wanting. But there are also copies of the same year, in the title of which the edition stated to be *cum græcis scholiis, notis et indicibus*, and there are also Scaliger's, Casaubon's, and Heinsius's notes appended in 142 pages. This edition is sought after for the series *cum notis variorum*, without having any peculiar matter of its own.

22769 — quæ extant (gr. lat.) cum græcis scholiis. Lond., Innys et Manby, 1729. 8°.

A repetition of the preceding edition, as is Lond. 1743. 8°. *ib.*, Richardson, 1759. 8°.

22770 — quæ extant, gr., ex edit. Dn. Heinsii expressa. Glasg., Foulis, 1746. 4°.

At the same place and in the same year 6 F 3

there also appeared a Greek and Latin edition in 8°.

- 22771 — Theocriti, Moschi et Bionis idyllia, gr. et lat., poetis ex latinis illustrata, notulis quibusdam interjectis op. et studio Th. Martin. Lond., Hitch, 1760. large 8°.

There are copies on very large paper. The intrinsic importance of this edition appears to be very trifling.

- 22772 — reliquæ utroque sermone, cum scholiis græcis et commentariis integris H. Stephani, Jos. Scaligeri et Is. Casauboni. Curavit hanc editionem, græca ad optimos codd. emendavit, libros tres animadversionum indicesque verbor. Theocriteor. addidit J. Jac. Reiske. Viennæ et Lips., Jahn, 1765-66. 4°. 2 voll. (4 d. 8 gr.)

There are copies on finer paper. A new, but somewhat too bold, and sometimes perhaps also a somewhat too hasty recension of the text from MSS., ancient editions, and conjecture. It is still of importance for the history of the text, which up to that time had been so neglected, and professor Jacobs in p. LXXXII. of his preface has for the first time appreciated it with equal acknowledgment of its value and freedom from prejudice. The very complete index was executed by J. C. Gf. Hessler.

- 22773 — quæ supersunt, cum scholiis græcis auctoribus, emendationibus et animadversionibus in scholia editoris et J. Toupîi, glossis selectis ineditis, indicibus amplissimis. Præmittitur editoris dissertatio de bucolicis græcorum, vita Theocriti a Josua Barnesio scripta, cum nonnullis aliis auctariis. Accedunt editoris et variorum notæ perpetuæ, epistola J. Toupîi de Syracusiis, ejusd. addenda in Theocritum, nec non collationes XV. codicum. Edidit Th. Warton. Ox., typ. Clarend., 1770. large 4°. 2 vols.

This edition is greatly sought after, especially when J. Toup's supplement, *Cura posteriores sive appendicula notarum atque emendati. in Theocritum Oronii nuperime publicatum.* Lond., Nourse, 1772. large 4°. (45 pages, and 1 leaf index), is to be found therein. At the same time it is by no means satisfactory, as Warton did not make sufficient use either of the collations and MSS.

that were at his command, or of the older editions. The text is merely printed after Heinsius, and Warton has no other merit than that of having made known a part of the fine apparatus that was at his command. He was also deficient in a more profound knowledge of the Greek language, and his edition has no peculiar merit except in the exegetical department.

- 22774 — Theocriti, Bionis et Moschi, quæ supersunt, Dosiadæ Rhodii ara, Callimachi hymni et epigrammata, gr. (ex rec. Rich. Fr. Ph. Brunckii). Arg., Heitz, 1772. 4°. On Dutch paper.

There is only one single copy of this separate 4° impression from Brunck's *Analecta*, which he caused to be struck off as a present for Larcher in return for the collation of the Paris MSS. obtained from him; it was disposed of at Larcher's sale for 200 fr.

- 22775 — decem eidyllia, latinis pleaque numeris a C. A. Wetstenio reddita. In usum auditorum cum notis edidit ejusdemque Adoniazusas uberioribus adnotationibus instruxit L. Csp. Valckenaer. LB., le Mair, 1773. 8°.

Ed. II. LB., Honkoop, 1810. 8°. (3 fl. 18 st.) Also on Dutch paper. A new and distinguished recension and elucidation of idyls 1-4, 6, 7, 9, 11, 15, 18, and 20.—MS. collations and the old editions have been made use of, and a commentary is added, which contains a treasure of Greek grammatical learning.

- 22776 — selecta quædam Theocriti idyllia. Recens., varior. notas adjecit, suasque animadvv., partim anglie scriptas immiscuit Th. Edwards. Cbr., typis acad., 1779. large 8°. (58.)

Also on large paper. Idyls 1, 4, 6, 8, 9, and 10 are herein contained.

- 22777 — reliquæ, gr. et lat. ex rec. et cum animadvv. Thph. Cp. Harles. Lips., Weidmann, 1780. 8°. (1 d. 20 gr.)

Very scarce on Dutch paper. The most essential apparatus of this edition is the collation of an Augsburg MS.

- 22778 — Teocrito, Mosco, Bione, Simmia greco-latini, con la buccolica di Virgilio latino-greca volgarizzati e forniti d'annotazioni da Eritisco Pileneo (Jos. Maria Pag-

nini.) Parma, stamp. reale, 1780. 4°. 2 voll.

There are also copies on large paper, and copies with the imprint in the title, *Parigi, Tulliard*. This edition is not without exegetical merit, and has also something critical of its own.

22779 — Theocriti, Bionis et Moschi carmina bucolica, gr. et lat. Latino carmine pleraque reddita ab Eob. Hesso, nonnulla a G. E. Higtio subjecit, græca ex edd. primis, codd. et aliunde emendavit variisque lectt. instruxit L. Csp. Valckenaer. LB., Honkoop, 1781, 8°.

Previously, *ib.* 1779. 8°. *Ed. II. ib.*, *Honkoop*, 1810. 8°. (4 fl. 18 st., also on Dutch paper). A new and excellent revision from MSS. and ancient editions. The short notes are only critical.

22780 — idyllia (gr.) cum scholiis selectis scholar. in usum edidit F. And. Stroth. Gothæ, Ettinger, 1782. 8°. *Ed. III. cura F. Jacobs.* *ib.* 1808. 8°. (16 gr.)

22781 — idylles et autres poésies de Théocrite, trad. en français, avec le texte grec, des notes critiques, la version latine et un discours préliminaire, par J. Bt. Gail. Par., Baudelot, an 4 (1796). 4°. 2 vols. with 10 plates (30 fr., on large paper 36 fr.).

Also, *Par.* 1792. large 8°. The French translation only, *Par.* 1796. 18°. 2 vols. (a copy of which on vellum is in the Royal library at Paris).

22782 — carmina. Rec. et annot. instruxit J. Ch. Gu. Dahl. Lips., Kleefeld, 1804. 8°. (1 d. 16 gr.)

A new revision of the text, not without merit certainly, but yet not very accurate; it chiefly agrees with Valckenaer's text.

22783 — quæ supersunt, ex rec. L. Csp. Valckenarii emendatius edita curante Gf. H. Schäfero. Lips., Tauchnitz, 1810. fol. on vellum paper (16 d.).

A splendid edition, and at the same time a new revision of the text.

22784 — Theocriti, Bionis et Moschi carmina, græce, cum commentariis integris Valckenarii, Brunckii, Toupii. (Curante L. F. Heindorfio).

Berol., schola realis, 1810. 8°. 2 voll. (4 d., on writing paper 5 d. 12 gr.)

22785 — reliquiae, gr. et lat. Textum recognovit et cum animadvv. Harlesii, Schreberi, aliorum excerptis suisque edidit Thph. Kiessling. Acc. argumenta græca, scholia, ep. Jac. Morellii ad Harlesium et indices. Lips., Weidmann, 1819. 8°. (3 d. 16 gr.)

Also on writing paper (4 d. 12 gr.), and on vellum paper (6 d. 16 gr.). Concerning Briggs's edition of 1821, see above, *POETÆ*, No. 17541.

22786 — Theocriti, Bionis et Moschi quæ supersunt, græce, cum scholiis græcis. Textum ad optimas edd. et ad codd. MSS. fidem exprimi curavit, carminum argumenta indicavit, varias lectt. conjecturasque viror. doctor. subjunxit, indices locupletissimos adjecit J. A. Jacobs. T. I. Hal., Orphanotroph., 1824. 8°. (3 d.)

22787 — Theocriti, Bionis et Moschi carmina, edid. A. Meineke. Accedit brevis annotatio critica. Lips., Teubner, 1825. small 8°. (10 gr., on fine paper 16 gr.)

The edition of Theocritus in Gaisford's *Poet. minor. Gr. T. II. Ox.* 1816. 8°. is important on account of its critical apparatus from MSS. The Greek scholia are to be found in the 4th vol. of this collection (1820).

22788 — epithalamium Helenæ ex rec. Valckenarii. Animadversionibus illustravit et disputationem de carminibus veterum nuptialibus præmisit C. Gu. Siebdrat. Lips., Fleischer, 1796. 8°. (12 gr.)—Idyllia IV. (16, 17, 19, 21, græce.) In usum studiosæ juventutis edita. Helmst., Müller, 1668. 4°. 8 leaves.—Idyllium primum annotationibus Frederici Jamotii illustratum (cum textu gr.) Par., Mt. Juvenis, 1552. 4°.

22789 — bucolicum s. potius Æpolicum carmen a Philetico (carmine heroico) traductum atque ab Ascensio elucidatum. Par. (*J. Petü*), 6 F 4

22795 THEODORETUS. Opera omnia in quatuor tomos distributa, quorum plurima græce, quædam etiam latine nunc primum prodeunt. Græce cum MSS. exemplaribus collata, latinæ versiones ad græcorum normam exactæ sive recognitæ, cura et stud. Jac. Sirmondi. Lut. Par., Sonnius et Bechet, 1642. fol. 4 voll. Auctarium a. operum Tomus V. gr. et lat. nunc primum in lucem editus, cura et stud. J. Garnerii. Lut. Par., Martin et Boudot, 1684. fol. 5 vols. altogether.

The Auctarium, which is often wanting, also appeared under the title, *J. Garnerii Opera posthuma*. Francofoli, 1685. fol.

22796 — opera omnia ex rec. Sirmondi denuo edidit, græca e codd. locupletavit, versionem lat. recognovit et varr. lectt. adjecit J. L. Schulze (et J. A. Nösselt), cum auctario. Hal., Orphanotroph., 1768–74. 8°. 5 parts in 10 vols. (16 d.)

The separate impression of the glossary already to be found in the above edition, which appeared under the title, *Glossarium Theodoreum ad usus exegeticos et criticos separatim edidit C. L. Bauer*. Hal. 1775. 8°. has something peculiar of its own.

22798 THEODOSII Tripolitæ sphaericorum libri tres, nunquam antehac græce excusi. Iidem lat. redditi per J. Penam. Par., And. Wechel, 1558. 4°.

22799 — sphaericorum libri tres gr. et lat. (ed. Jos. Hunt.) Ox., th. Sheld., 1707. 8°.

87 and 94 pages. In this scarce edition the Latin translation by Penas is sometimes corrected.

22800 THEODULI ecloga. Ad codd. MSS. veteresque edit. recensuit et cum lectionis varietate itemque commentatione critica edid. J. G. Sm. Schwabe. Altenb., Richter, 1773. 8°. (5 gr.)

22801 THEOGNIDIS sententiæ elegiacæ, castigatæ ac scholiis illustratæ per Eliam Vinetum (gr. lat.) Par., Tiletanus, 1543. 4°.

4 leaves and 97 pages. The first separate edition, and extremely scarce. Theognis was first printed in the Aldine Theocritus of 1495.

22802 — sententiæ græco-latinae, cum indice duplici. Editio secunda, quæ seorsim præter græca Jo. Camerarii scholia peculiare quoque notas exhibet, quibus et passim illustratur textus et varia insuper lectio ut aliunde, sic inprimis e MSS. codd. bibl. Palatinæ atque Augustanæ commonstratur. Opera Wfg. Seberi. Lips. 1620. 8°.

A very important edition for the critical history of Theognis. The readings of the Augsburg MS. were contributed by D.

Höschel, and a part of the notes is by J. Weitz. Seber's previous edition, *Lips.* 1603. 8°. is very incorrectly printed.

- 22803 — *sententiæ morales, nova lat. versione, notis et emendationibus explanatæ et exornatæ, una cum variis lectt. op. Ant.* Blackwall. Lond. 1706. 8°.

An edition, not fine certainly, but of some importance, and tolerably scarce.

- 22804 — *elegi ex fide libror. MSS. recensiti et aucti, cum notis F. Sylburgii et Rch. Fr. Ph. Brunckii.* Edidit Imm. Bekker. *Lips.*, Weigel, 1815. 8°. (18 gr., on writing paper 1 d.)

A new recension from 3 MSS., and augmented with 159 verses.

- 22805 — *reliquiæ. Novo ordine disposuit, commentationem criticam et notas adjecit F. Thph. Welcker. Ff. a. M., Brönnner, 1826. 8°. (2 d.)*

As yet the most complete and most satisfactory edition. — *Abr. Kull Specimen novæ editionis sententiar. Theognidis. Götting. et Götthæ, Dietrich, 1766. 4°. (6 gr.) E. Epkema Observata in Theognidem, in the Acta lit. societ. Rheno-Traj. T. IV. p. 318 sq.—See also GNOMÆ.*

- 22806 THEONIS Rhetoris de modo declamandi libellus (gr.) Rom., Angelus Barbatus, 1520. 4°.

The first edition, but rather faulty, to which *Aphthonii progymnasmata, gr. id.*, 1520. 4°. belongs as an appendage.

- 22807 — *primæ apud rhetorem exercitationes, innumeris mendis Jo. Camerarii opera purgatæ et in sermonem lat. conversæ. Bas., Oporinus, m. Sept. 1541. 8°.*

- 22808 — *progymnasmata, accurate emendata ac recensita. Accedit interpretatio latina, ita in hac edit. emendata, ut sit nova. (Edente Dn. Heinsio.) LB., Elzevirii, 1626. 8°.*

To this edition, *Aphthonius, LB., Commelin*, 1626. 8°. belongs as an appendage. Renouard possesses Lederlin's apparatus for a new edition of Theon; see his *Catal.* II. 54.

- 22809 THEONIS Smyrnsi, Pla-

tonici, eorum, quæ in mathematicis ad Platonis lectionem utilia sunt, expositio. E bibliotheca Thuana. Opus nunc primum editum, latina versione ac notis illustratum ab Ism. Bullialdo. Lut. Par., Heuqueville, 1644. 4°.

This first, and as yet only edition, was prepared from 5 MSS.

THEON Alexandrinus, see ARATUS, EUCLIDES, PTOLEMÆUS, and HAGEN, No. 9177.

THEOPHANES, see BYZANTINA, No. 6. and NONNUS.

- 22810 THEOPHILE (Viaud). *Ses œuvres. Par., Sommaille, 1661. 12°. or ib., Pepingué, 1662. 12°.*

These are the two best and neatest editions of a collection of poems often printed, formerly severely decried on account of their licentiousness, but still not uninteresting on account of the great variety of metres that are employed.

- 22811 — *le parnasse satyrique. Without place, 1661. 12°. 321 pages.*

This edition, printed in Holland, is the neatest and the most sought after of this not less offensive collection of poems by various authors: it is however very incorrect. The reprints of it, without place, 1668. 12°, and, without place (*Geneva* ?), 1677. 12°. 320 pages, are not so fine.

THEOPHILI Alexandrini opera, in Gallandi *Bibl. patrum VII.* 603 sq.

- 22812 THEOPHILUS Antecessor. *Institutiones juris civ. in græcam linguam per Theophilum Antecess. olim traductæ ac explicatæ, nunc vero primum in lucem restitutæ ac recognitæ, cura et studio Viglii Zvichemi. Bas., Froben, 1534. fol.*

The first edition, prepared from 2 MSS., but not very correct. A somewhat more correct reprint appeared, *Par., Wechel, 1534. 8°.*

- 22813 — *institutiones juris civ. in græcam linguam traductæ ac explicatæ, cura et studio Viglii Zvichemi primum in lucem editæ, nunc denuo a Rutgero Rescio recognitæ, adjectis etiam aliquot Pt. Nannii annotatiunculis. Lovan., Rescius, 1536. 4°.*

Without the use of MSS. certainly, but

very industriously superintended, and very correct.

- 22814 — institutiones, Theophilo Antecessore græco interprete. Justiniani institutionum libri IV. Paratitla et notæ ad eundem Theophilum græcum latinumque. Græca titulor. de verbor. significatione et de regulis juris fragmenta hinc et inde collecta. Dion. Gothofredo autore. (Genev.), ap. Gu. Læmarium (other copies, ap. Eustath. Vignon), 1587. 4°.

Besides the Latin institutions, J. Curtius's Latin translation, which first appeared at Antwerp in 1536, is added. This edition is repeated, ap. Vignon, 1598. 4°. Lugd., Frellon, 1608. 4°. ap. J. Crispinum, 1610. 4°.

- 22815 — institutionum libri IV. C. Annib. Fabrotus ex tribus MSS. codd. biblioth. regię recensuit et scholiis græcis auxit. Idemque Jac. Curtii lat. interpr. emendavit et notas adjecit. Huic editioni access. græca titulor. de verbor. significatione et de regulis juris fragmenta, e regiis codd. MSS. eruta. Par., du Puis, 1638. 4°.

A 2nd edition appeared, Par., du Puis, 1657. 4°. This has not the Greek fragments, and contains fewer notes than the first edition. But both are very incorrectly printed. Also, Ven. 1738. 4°.

- 22816 — paraphrasis græca institutionum Cæsarearum, cum notis integris Nannii, Curtii, Gothofredi, Ernstii et Fabroti, ac selectis quamplurimor. eruditor. observationibus, cum editis tum ineditis. Lectionum varietates inseruit, novam versionem concinnavit, suasque animadvv. et *ἐνκρίσεις* addidit Gu. O. Reitz etc. Hag. Com., ap. Thollios, 1751. 4°. 2 voll.

The best and most complete edition.

- 22817 — Paraphrase der Institutionen Justinians. Aus dem Griech. übs. u. mit Anmerk. begleitet von C. Wüstemann. Berl., Mylius, 1823. 8°. 2 voll. (5 d.)

Only the 1st vol. of an earlier translation (by J. Cp. Finke), appeared, Göt. 1805. 8°. (1 d.) Ph. Bh. Degen Bemerk. über das

Zeitalter u. die Institutionenparaphr. des Theoph. Lüneb. 1808. 8°. (10 gr.)

- 22818 THEOPHILI Antiocheni ad Autolycum libri III. gr., ad fidem codd. MSS. denuo recogniti et castigati, versione lat. emendata notisque instructi a J. Cp. Wolfio. Hamb., Felginer, 1724. 8°.

Also with *Justinus Martyr. Hag. Com.* 1742. fol., and in *Galland's Bibl. PP.* II. 77 sq. In German by Gst. Cp. Hosmann. Hmb. 1729. 8°.

- 22819 THEOPHILI (Protospatharii) de hominis fabrica libri V. (gr.) Ex bibliotheca regia. Par., Gu. Morellus, 1555. 8°. 84 pages. Latine, Junio Paulo Crasso interprete. ib., id., 1556. 8°.

Greek and Latin. Printed again in *Fabricii bibl. gr.* XII. 783-911.

- 22820 — de urinis libellus. Th. Guidotius mendas sustulit, hiula supplevit, luxata restituit, de novo vertit et notas adjecit. Acc. ejusd. Theophili de excrementis tractatus, luce et Latio nunc prim. donatus. LB., Teering, 1703 (new title, *ib.*, *Wishof*, 1731). small 8°.

The first, but unsatisfactory edition appeared, Par., *Fed. Morellus*, 1608. 8°. Afterwards in the *Hippocrates Charterii*, Tom. VIII.

- THEOPHILI Presbyteri diversarum artium schedula, printed in Lessing's Beitr. zur Gesch. u. Lit. VI. 291-424. Consult my Handschriftenkunde I. 34 sq. Fiorillo kleine artist. Schrr. I. 197. Cicognara storia della scultura I. 331 sq.

- 22821 THEOPHRASTI opera, summo studio partim hinc inde conquisita, atque in unum veluti corpus redacta, partim a multis mendis doctor. viror. industria ac melior. exemplarium ope repurgata. Bas., Oporinus, 1541. fol.

The first separate edition of his entire works, but which, according to *Schneider in opp. Theophr.* T. II. p. 581, is merely a reprint of the first Aldine edition (with the Aristotle of 1495), even with all its errors. The corrections in the margin are only borrowed from Gaza's Latin translation. The copies have sometimes a

preface by Jo. Camerarius, and sometimes by H. Gemusæus, yet neither of the two seems to have had a further participation in the edition.—The edition of the works of Theophrastus, to be found with the Aristotle of 1552, was superintended by Camotius, who, according to Schneider (l. c. T. II. p. 581), has frequently altered the text.

22822 — opera pleraque antehac latine numquam, nunc græce et lat. simul edita. Interpretibus Dan. Furlano, Adr. Turnebo. Acc. liber de innato spiritu, Aristoteli attributus, et Dan. Furlani commentarii. Hanov., typis Wechel., 1605. fol.

4 leaves of preliminary matter, 397 pages, 3 leaves, index and errata. The Aldine text forms the basis, often altered by Furlanus, but not, as it appears, from MSS. This edition is of value in an exegetical point of view.

22823 — græce et lat. opera omnia. Dan. Heinsius textum græcum emendavit, hiulca supplevit, male concepta recensuit, interpretationem passim interpolavit. Cum indice. LB., Haestens, 1613. fol.

8 leaves of preliminary matter and 508 pages. A new but very hasty recension, and not to be depended upon, from a MS. and a collated copy of the Aldine. The printing is incorrect, and the edition of no critical importance. There are copies on large paper.

22824 — quæ supersunt opera et excerpta libror. (gr. lat.) Ad fidem libror. editor. et scriptor. emendavit, historiam et libros de caussis plantar. conjuncta opera H. F. Linkii, excerpta solus explicare conatus est J. Glo. Schneider. Lips., Vogel, 1814. 8°. 4 voll. (on printing paper 20 d., on writing paper 26 d. 16 gr., on vellum paper 36 d.)

22825 — χαρακτρες. Cum interpretatione lat. per Bilib. Pirckheymerum jam recens edita. Nrb., Petrejus, 1527. 8°.

The first edition of the Characters, taken from a MS., but only containing 13 chapters. The Latin translation only has been reprinted in *Pirckheymeri Opp.* p. 214 sq.

22826 — χαρακτρες, cum interpreta-

tione lat. Bas., And. Cratander, m. Sept. 1531. 8°.

A reprint of the preceding edition with some alterations in the text. The Latin translation is attributed to Ang. Politianus.—Camotius added 8 new characters in the Aristotle of 1552, the discovery of which in 1557 H. Stephens appropriates to himself in *Aristotelis scripta quædam*.

22827 — libellus Theophrasti continens notas atque descriptt. morum quorundam vitiosorum (gr.) conversus in lingu. lat. annotatt. illustratus a Lh. Lycio. Lips., J. Rhamba, 1561. 8°. 48 leaves.

Stephens's text of 1557, with a new translation by Lycius, and some notes of the editor's own.

22828 — de notis morum liber singularis (græce), cum Ang. Politiani lat. interpretatione a Fed. Morello recognita, et octo posterioribus notis, quæ antea desiderabantur, ab eodem in hac edit. adaucta. Lut., Fed. Morellus, 1583. 4°.

Stephens's text, sometimes altered from conjecture.

22829 — characteres ethici s. descriptiones morum, gr. Is. Casaubonus recensuit, in lat. serm. vertit et libro commentario illustravit. Cum duplici indice. Lugd., Fr. le Preux, 1593 (other copies 1592). 8°. 2 parts in 1 vol.

A new recension from MSS., and an excellent commentary. Five new characters are added in the 2nd edition, *Lugd., Harsy*, 1599. 8°. Repeated, *ib.* 1612. 8°.

22830 — characteres etc. (as above.) Editio ultima recognita, aucta et locupletata, atque paulo ante authoris obitum recognita. Lugd., Harsy, 1617. 8°.

The last edition superintended by Casaubon himself, and the most complete of all.

22831 — characteres ethici, gr. et lat. Cum notis et emendatt. Is. Casauboni et alior. Acc. Jac. Duportii prælectt. jam primum editæ. Græca cum vetustiss. MSS. collata recensuit et notas adjecit Pt. Needham. Cbr., typis acad., 1712. 8°.

A new, but often too hasty and bold re-

cension after 9 MSS., in which Casaubon's text forms the basis. But the edition is sought after on account of its complete exegetical apparatus. Copies on large paper are very scarce. *Glasg., Foulis*, 1743 or 58. 12°. are impressions of this text, with the Latin translation.

- 22832 — *characteres ethici gr. c. vers. lat. Is. Casauboni et notis J. Corn. de Pauw. Traj. ad Rh., Evelt*, 1737. 8°.

The text indeed is only a more correct and neat impression of Casaubon's text, but the critical notes that are added are of the greatest value.

- 22833 — *characteres morum cum nova vers. lat., ineditis A. Buchneri notis, supplementis item varr. lectt. MSS. et commentationibus suis edid. J. Cr. Schwarz. Coburgi*, 1739. 4°.

A new formation of the text after Casaubon, Needham, and the editor's own conjectures, but arbitrary and often little to be depended upon.

- 22834 — *characters, with a literal translation of the Greek into Latin, and with notes and observations in English. By Rich. Newton. Oxf., Clements*, 1754. 8°.

Only for schools.

- 22835 — *caratteri greco-toscani colle loro illustrazioni, varie lezioni e note (da Ln. del Riccio). Fir., Moëcke*, 1761-63. 12°. 4 voll.

This translation is prized in Italy for the purity of its language. Various readings from 7 Florence MSS. are added.

- 22836 — *characteres (gr.) Recensuit, animadvv. illustravit atque indicem verbor. adjecit J. F. Fischer. Acc. commentarius Is. Casauboni. Coburgi, Findeisen*, 1763. 8°. (1 d. 4 gr.)

Casaubon's text, here and there corrected from old editions and 2 MSS., with an uncommonly accurate specification of the various readings of previous editions and excellent critical notes.

- 22837 — *characterum ethicorum capita duo hactenus anecdota, quæ ex cod. MS. Vatic. græce edidit, lat. vertit, præfatione et adnott. illustravit J. Cp. Amadutius. Parmæ, e*

regio typogr., 1786. large 4°. with 1 portrait.

The first publication of the 29th and 30th characters, which however is very unsatisfactory in a critical point of view. There are also copies on vellum-paper and on large Italian paper. A later reprint prepared at the same press and with the same date is not so fine, and is easily distinguished.

- 22838 — *characteres ethici, gr. J. Wilkes recensuit. Lond., Nichols*, 1790. small 4°.

Merely an impression of Fischer's text, without notes, but very neat and correct. The 29th and 30th characters are included. It is said that this edition, and the *Catullus* of 1790, owe their existence to a wager whether it were possible to print a book without a mistake. Only 103 copies on paper, and 3 on vellum, of the *Theophrastus* were printed (one of the vellum copies sold at Sykes's sale for 7l. 2s. 6d.).

- 22839 — *characteres ethici, gr. lat. Parmæ, Bodoni*, 1794. 4°.

A fine edition, superintended by Pagnini, and containing all the 30 characters, of which there are also copies in large 4°, and on vellum paper in folio. It has however only Needham's text, and is of no essential consequence.

- 22840 — *characteres cum additamentis anecdotis, quæ e cod. MS. Palatino-Vaticano descripsit J. Ph. Siebenkees. Edid. et lectionis varietatem adjec. J. Ad. Goez. Nrb., Stein*, 1798. 8°. (12 gr.)

Important on account of the additions to the last 15 characters (which are also given in *Siebenkeesii Anecd. græc.* p. 105 sq.), although these additions, taken from a MS. of the 14th century, have been detected to be the work of a subsequent interpolator.

- 22841 — *characteres. Gr. ex libror. scriptor. copiis et fide interpolati et aucti virorumque doctor. conjecturis correcti. Editor J. Glo. Schneider. Jen., Frommann*, 1799. 8°. *Auctarium animadvv. ib.* 1799. 8°. *Auctarium alterum. ib.* 1800. 8°. (1 d.)

The same editor superintended a smaller edition for schools, *Jen., Frommann*, 1800. 8°. (16 gr.)

- 22842 — *les caractères, d'après un MS. du Vatican. Traduction nouv.*

avec le texte grec, des notes crit. et un discours sur la vie et les écrits de Théophr., par (Diamant) Coray. Par., an 7 (1799). 8°. (6 fr.)

There are 25 copies on vellum paper. The critical and exegetical notes are the peculiar value of this edition: for the text, which is chiefly Fischer's, little has been done.

22843 — *characteres*, gr. Quas emendatas atque dispositas illustravit Severin. N. J. Bloch. Pars I. Græca et crisis completens. Lips., Hammerich, 1814. 8°. (16 gr.)

22844 — *χαρακτῆρες ἑλληνιστὶ ἐκδοθέντες μετὰ συντομῶν κριτικῶν ἐπιστάσεων ὑπο Δημητρίου Νικολαοῦ Δαρβαρεως*. Ἐν Βιέννῃ, 1815. 8°.

A critical edition of the text, which is often altered from conjecture alone. The editor Darbaris had already translated the work into modern Greek 20 years previously.

22845 — *characteres* (gr.) Ad optinor. libror. fidem recensuit, de notationum ingenio atque auctore exposuit et perpetua adnotatione illustravit F. Ast. Lips., Weidmann, 1817. 8°. (1 d. 6 gr., on writing paper 1 d. 12 gr., on vellum paper 2 d.)

22846 — *characteres morales de Theophrasto*. Reflexiones filos. sobre las costumbres de nuestro siglo por Duclos. Trad. los primeros del griego y las segundas del francés al castellano por Ign. 22847 — *de historia plantarum libri X*. gr. et lat., in quibus textum græcum variis lectt., emendationibus, hiulcorum supplementis; latinam Gazæ versionem nova interpretatione, totum opus cum notis tum commentariis, item rarior. plantar. iconibus illustravit J. Bodæus a Stapel. Acc. Jul. Cæs. Scaligeri in eosd. libros animadvv. et Rb. Constantini annotatt. Amst., Laurentius, 1644. fol. with woodcuts.

1 title-plate, 9 leaves of preliminary matter, 1187 pages, and 44 leaves of index. The text of the edition by Heinsius forms the basis. Little has been done in this edition for the amendment of the text, but so much the more for its elucidation, as far as botanical knowledge then extended.

22848 — *de historia plantar. libri X*. (gr.) cum syllabo generum et specierum, glossario et notis. Curante J. Stackhouse. Ox., typ. Clarend., 1813. 8°. 2 voll. (1l. 6s.)

An interesting critique of this edition,

which is unsatisfactory both in a philological and botanical point of view, is in *Wiener Lit. Zeitung* 1816. p. 343 sq.

- 22849 — de plantar. historia libri X. et de causis plantar. libri VI. a Thdr. Gaza lat. redditi. Tarvisii, Bm. Confalonierus de Salodio, 20 Febr. 1483. fol.

156 leaves, with 41 lines, and signatures. The first edition of this critically important edition. Also, *Par.*, Gourmont, 1529. 8°. — *Dell' historia delle piante di Theophrasto libri tre*, trad. da Mch. Ang. Biondo. Ven., Biondo, 1549. 8°.

An allegorical poem of knight-errantry, executed by Melchior Pfingzing, but appointed and projected by the hero of the work himself, the subject matter of which is the adventures which the German emperor Maximilian I. had to undergo before he could succeed in the possession of the beautiful and wealthy Maria of Burgundy (see above, OORLOGHEN, No. 15128). It is not the poetical execution of the subject which gives any interest to the work (as it is flat and cold), but partly the chivalrous tendency of the poem, and partly the peculiar typography and embellishments in the first two editions, which alone are of value to collectors.

The above first edition contains 290 unnumbered leaves in all (one blank), with 24 lines, and the signatures *a-s*, *A-P*, and *A*. The last 8 lines contain an explanation of the allegory, or a key, which forms an indispensable constituent part of a complete copy, but which is often wanting. The 118 fine woodcuts, printed in the text, were designed by Hans Scheufelein, and executed by Jost von Negker (probably also by other masters mentioned in

Bartsch, VII. 236 and 241). The Nos. 13, 30, 39, 42, 48, 58, 69, and 70, at least are marked with Scheufelein's monogram. It might well perhaps nevertheless be a question, according to *Bartsch*, VII. 245 and 272, whether some of these representations were not engraved by Scheufelein himself, as indeed Bartsch himself, VII. 236. No. 13, specifies Scheufelein as an engraver on wood, from a contemporaneous document. Negker's monogram is to be found in the 70th woodcut of some, but only a few copies (which was unobserved by *Bartsch*, VII. 243). It is remarkable, that the copies in which it is found, are generally on paper only, and hence persons have been inclined to conclude, that the copies with Negker's monogram have the earliest impressions, and that the monogram was subsequently cut out of the plate, which point I leave undecided.

There are copies of this edition on vellum (more than 40 of them have been pointed out) and on paper, which, notwithstanding their numerous differences, are of one and the same edition, as in all the existing copies the *i* in the word *schickhet* underneath the 84th figure in line 2 is inverted. The differences (accurately specified in *Arctin's Beitr. sur Gesch. u. Lit. V. 69-83.*) concern nevertheless only orthography and some of the letters, for instance, *a 4 b*, line 16, *geweyn* and *gewynnen*, *g 2 a*, line 19, *Frawensymer* and *frawensümer*, *g 3 b*, line 24, *Zubeveysen* and *Zubeveysen*, *h 8 b*, line 3, *akeog* and *akeogen*. The faulty readings are usually found in the vellum copies, and are corrected even there in strips pasted over: the paper copies on the contrary have commonly the more correct reading, and these consequently might possibly have been struck off subsequently, and after a repeated revision.

There are also differences in the woodcuts. There are copies in which in Nos. 30 and 70, Scheufelein's monogram of ciphers with the shovel is to be found. In the two Dresden vellum copies, and in the vellum copy of M. Nagler, this monogram is only complete in No. 30, while in No. 70 there is merely the shovel. In two Dresden paper copies the monogram is wanting entirely in both woodcuts: in the third Dresden paper copy Negker's monogram is wanting in No. 30, but it is to be found in No. 70. In M. Nagler's paper copy there is in No. 30 a small tablet without a monogram, and in No. 70 is Scheufelein's monogram quite complete, and that of Negker's by the side of it.

The most recent inquiries respecting the printing of this book agree in the point, that certainly in the principal matter it was worked with movable fused types, but that the irregular letters, or those

jutting out above the lines and the *form*, and also the small and large flourishes, were engraved on wood. This piece of art at first appeared in the *Diurnale s. liber precum. AV.*, Schönsperger, 1514. small fol., which seems to have been only struck off in a few copies as a specimen for the emperor Maximilian. It is to be met with for the last time in the first edition of Ruxner's *Turnierbuche*, Simmern, 1530. fol.

There are also contemporary vellum copies very beautifully illuminated; they are however held in less estimation by collectors, who have a good notion of art, than those copies in which the skill of the engraver is not concealed by the colouring.

The following statements may serve as a guide to the successive sale-prices of this first edition. In England, Mead, 9l. 9s.; Askew, 21l.; Paris, 21l. 16s. 6d.; Towneley, 25l. 4s. In France, Boze, 240 livr.; Gaignat, 899 livr. 19 sous; Mariette (with the key in writing), 1010 livr. (the same copy, M^cCarthy, 515 fr.); Camus de Lismare, 500 livr. 1 sous; Firmin Didot, 825 fr. In Germany, Breitkopf, 127 d.; Ebner (without the key, about which however there was a law-suit), 300 fl. Paper-copies in Germany, Schwabe, 6 d.; Breitkopf, 10 d. 12 gr.; Panzer, 27 fl. 45 kr. (In Dresden alone there are 2 vellum and 3 paper-copies in the Royal public library, and a paper copy in the Royal cabinet of engravings. At Wolfenbüttel there are likewise 2 copies on vellum.)

22870 — (2nd edition.) Augsburg, durch den Eltern Hansen Schönsperger, 1519. fol. with woodcuts.

The text, the types, and the woodcuts of this edition are the same as in the preceding, only some alterations are introduced into the orthography, and into the flourishes. There are also signatures and numbering of the leaves, as in the first edition. No copies on vellum are known, but there are copies with differences, which originated in the re-impression of single leaves. Thus in *b 2 b*, line 24, instead of *genötig*, in others it is *gene-dig*; in *d 5 b*, line 2, instead of *mit speis*, in others it is *mit fleys*. (The Dresden copies are of the latter sort.) It is incorrect to reckon these differing copies as two separate editions. As to the rest, this second edition is inferior to the first in beauty (the woodcuts especially are much worn) and in price (about 8 d.), but still it is of some value on account of its containing the types and the text of the former. The subsequent editions are of value only in a complete series of editions of the *Theuerdank*.

22871 — (3rd edition). Augsb., H. Stainer, 21 Dec. 1537. fol. with woodcuts.

2 leaves of preliminary matter, 98 numbered leaves, and 4 unnumbered, with the key. The text and figures are the same as in the earlier editions, but the types are quite the ordinary ones. The woodcuts are so worn away as scarcely to be recognised.

22872 — (4th edition). Die Ehr vnd manliche Thaten, Geschichten vnnnd Gefährlichkeiten des Streitbaren Ritters, vnnnd Edlen Helden Teuerdanck. Ff., Ch. Egenolff, 1553. fol. with woodcuts.

4 leaves of preliminary matter, and 110 numbered leaves. The editor, Burcard Waldis, has introduced so many alterations into the text, that it has become almost quite a new poem, but not a better one. The woodcuts are quite different from those in the preceding editions.

22873 — (5th edition). Thewerdanck Des Edlen, Streitbaren Helden vnd Ritters, Ehr vnd mannlichen Thaten, Geschichten vnd Gefährlichkeiten. Ff. a. M., Ch. Egenolffs Erben, 1563. fol. with woodcuts.

4 leaves of preliminary matter and 110 numbered leaves. Merely a repetition of the preceding edition, if it be not rather barely a new title to the same. (Wolfenbüttel.)

22874 — (6th edition). Gedenckwürdige Historia: Des Edlen Streytbaren Helden vnd sieghafften Ritters Theuwrthancks manliche Thaten, vnd aussgestandene Gefährlichkeiten. Ff. a. M., Ch. Egenolffs Erben, 1589. fol. with woodcuts.

4 leaves of preliminary matter, and 124 numbered leaves. A reprint of the preceding edition. Some other writings concerning Maximilian are added as an appendix.

22875 — (7th edition). Gedenckwürdige Historia: Des Edlen Streytbaren Helden vnd sieghafften Ritters Theuwrthancks manliche Thaten, vnd aussgestandene Gefährlichkeiten. Ff. a. M., Ch. Egenolffs Erben, 1596. 8°. with woodcuts.

7 leaves of preliminary matter and 197 numbered leaves. A reprint of Waldis's text. Only altered here and there in the

orthography. Besides the woodcut in the title there are 16 woodcuts, which are bad, differing from those in all the other editions, and some of them not even adapted to the text. This edition is more scarce than Egenolff's folio editions.

22876 — (8th edition). Der Aller-Durchleuchtigste Ritter oder Die Rittermässige, hoch-theure, höchst-gefährliche u. Glorwürdigste Gross-Thaten, Abentheuer, Glücks-Wechselungen u. Siges-Zeichen des Heldens Maximiliani I. Ulm, Mth. Schultes, 1679. fol. with woodcuts.

An entirely new edition of the text. To the old woodcuts, which are those of the 4th edition, 6 others are here added, likewise old indeed in themselves, but with new explanations, and not to be found in the earlier editions. Maximilian's life from various historians is also added.

22877 — (9th edition). (The same title). Augsp., Mth. Schultes, without date. fol.

Entirely the same edition as the preceding. The distinction consists in a new title, and in the omission of the dedication by Schultes and Pfinsing, and of the entire signature X, which contains the 6 new woodcuts with their explanations. Also 117 woodcuts only are mentioned in the title.

R. Sbrulius made a Latin translation in hexameters. There is also said to be a Spanish translation. J. Franco translated it into French in 1528 under the title, *Les dangiers, rencontres et en partie les aventures du digne, trèsrenommé et valeureux chevalier chier Merciant*. It is to be found in the Royal library at Paris. There is a metrical German version of 1680 by J. Albr. Jorman in the public library at Hamburg: see *Neuer Lit. Ans.* 1806. p. 113 sq. None of these translations are printed.

22880 THEVENOT, Melchisedech.

Relation de divers voyages curieux, qui n'ont pas été publiés et qu'on a traduits ou tirés des originaux. P. I. Par., Langlois, 1663. ib., Cramoisy, 1666 or 72. ib., Moette, 1696. P. II. Par., Cramoisy, 1664 or ib., Moette, 1696. P. III. Par., Cramoisy, 1666, or 72, or ib., Moette, 1696. P. IV. Par., Cramoisy, 1672 or ib., Moette, 1696. fol. 4 parts in 2 vols.

A very important collection, complete copies of which however are seldom to be met with, and very difficult to be collated. There is only one single impression, which has often received new title-pages. Yet in the copies of 1696 several pieces out of print are printed afresh, and those pieces are also added, which the editor had collected towards a 5th part, which never appeared. It is consequently unimportant, of what year each part may be, provided that all the separate pieces, which belong to the work, be included. The following collation is according to Brunet and the copies at Dresden and Wolfenbittel. Consult *A. G. Camus Mémoire sur la collection des grands et petits voyages, et sur la collection de voyages de Melch. Thevenot. Par. an XI.* (1802). 4°.

P. I. Title leaf and 3 leaves, *Avis* (besides these 3 leaves, in the copies of 1672, there are 2 leaves with a dedication to the king, and in those of 1696, in which this dedication is wanting, there are 2 leaves, *Avertissement et Catalogue des relations*); 25 pages, *Description des pyramides*, with 1 plate of the two pyramids and 1 plate of the mummies; 30 pages, *Relation des Cosaques*; p. 31-52, *Relation de la Colchide*, with a map; 26 pages, *Informations della Georgia*; p. 17-40, *Navigazione de Jenkinson*; 12 pages, *Relation du Mogol*, with a map of the Indies; 80 pages, *Mémoires de Th. Rhoe*; 30 pages, *Voyages de Terri* (p. 7 and 8 are skipped over here in the numbering and in some copies the before-mentioned map of the Indies is substituted in their place); p. 1-9, *Extrait en grec du voyage de Comas*; p. 10 and 19-24, (11-18 are skipped over), *Description des animaux etc. des Indes*; p. 17-24, *Inscription,*

Abulfeda des climats Alhend, antiquités de Persépolis; 2 plates with Chaldaic characters and 1 map of Bassora; 33 pages, *Relation du royaume de Golconda etc.*; 56 pages, *Voyage de Bontekoe etc.* with a large map of Australia (p. 55 and 56 in some copies are numbered 51 and 52).

P. II. Title-leaf, and 5 leaves of preliminary matter, with the signatures *Øij-iiij*; 20 pages, *Remonstrance de Fr. Pelsart*; 60 pages, *roulier des Indes orient.* (In one of the Dresden copies this piece occurs twice over: once in 60 pages, but again also on 6 leaves, where this piece is in p. 1-9, and ending with the words, *avec toutes les précautions requises.* Next follows on the reverse of the 5th leaf, a *privilege du roy*, which also occupies half of the following page). 1 map and 4 representations of the coasts of Arabia engraved in wood; 128 pages, *Beaulieu mém. du voyages*; map of the coast of Serlione; 40 pages, account of the Philippine isles in Spanish, with 1 map; 16 pages, another account of the Philippines (this is sometimes wanting); 48 pages, *Relation de l'empire du Japon* (the plate, *Manière de faire la justice*, is reckoned as p. 45 and 46); a map of Pegu and Japan (frequently wanting); 4 pages, *Découverte de la terre d'Eso*; 30 pages, *Briefve relation de la Chine*, between p. 14 and 15 there ought to be 5 plates of natural history (in the copies of 1666 and 72 there are only 3).

P. III. Title-leaf; 4 leaves, *Avis sur le voy. vers le Grand-chan.*; p. 31-68, *Voyage des ambassadeurs de la comp. holland.* (with a separate title of 1666, which however is taken away from the copies of 1696); then 12 plates, which in the later copies have been brought into 4 leaves; 28 pages, *Route des Holland. à Péking*, first a map of this route, which however is sometimes also placed before the preceding piece; 216 pages, *Description de la Chine*, with 1 large map of China; 12 pages, *Rapport des directeurs de la comp. holland.*

P. IV. Title-leaf (in the copies of 1672 with an *Avis sur la suite* on 1 leaf, and 1 separate title to the *voyage de Buenos-Ayres*); 14 pages, *L'Inde*; 24 pages, *Voyage dans la rivière de la Plate*; 24 pages, *Viaggio del P. Grueber*; 23 pages, the same *voyage* in French; 24 pages, *Sinarum scientia polit. moral.*; 16 pages, *Histoire de la haute Ethiopie*, with 1 map of Ethiopia and 1 title of 1674, which is sometimes taken away; 4 pages, *Rémarq. sur la relat. d'Ethiopie*; 16 pages, *Relation de Lobo de l'empire des Abyssins*, with a small map of some of the harbours of the Red Sea, engraved on wood. This map is sometimes found on the same leaf with the above map of Ethiopia. There is also sometimes found in this place a map of some Abyssinian

places and a separate title of 1673, *Relation de Temp. des Abyssins*; 8 pages, *Découverte de quelques pays*; 4 pages, *Relation du voyage du Sayd*; *Histoire de l'empire Mexicain* in engravings, 46 pages, containing 63 tables and one title-leaf (either without a date and with Cramoisy's firm, or of 1696 with Moette's firm); and over and above, *Explication des figures*, p. 47-58. In some copies the last page is numbered 85 by a misprint; 40 pages, *Th. Gage's Relation du Mexique*.

At the end of this 4th part the following pieces ought also to be found, which are wanting in many copies, either entirely or in part: 4 pages, *Voyage d'Abel Tasman*; 12 pages, *Instructions sur les vents entre les pays-bas, et l'île de Java*; 16 pages, *Ambassade de S'charok*; 76 pages, *Synopsis chronol. monarch. Sinica*; 16 pages, *L'Asie de Barros*; 2 leaves, *Relation des chrétiens de S. Jean*; 18 pages, *Voyage de la Ter-cère*; 34 pages, *Elementa linguae Tartaricae*; p. 5-8, and 13-17 (the 17th leaf is often wanting), fragment of a Spanish addition on the Solomon isles; 12 pages, *appendix ad hist. Mogolum*; a fragment with the column title, *Asganii Sassonii*, p. 17-64 and 77-80 (it is often to be found only as far as p. 48, and is sometimes wanting altogether).

In the copies of 1696, which are the most commonly met with, the maps have commonly on the reverse genealogical tables in Arabic: inasmuch as the paper that was made use of for these maps, was that on which these tables, probably intended for a continuation of this work, had already been printed, consult *Notices et Extraits*, T. I. P. LVII. Two copies on large paper are known; one in the British Museum, and the other belonging to Mr. Grenville of London.

nerii. Duaci, Bths. Beller, 1597. 8°.

Repeated, *ib.*, *id.*, 1605. 8°. But the best edition is that by the same Colvener, *ib.*, *id.*, 1627. 8°. superintended after several other MSS. and corrected and augmented by a comparison of the *Speculum exemplorum*. A fine MS. on vellum of the 15th century is in the Royal library at Dresden.

22889 — dit is der bien boeck. Swolle, Pt. van Os, 1488. fol. Gothic letter.

4 leaves of preliminary matter, and 183 numbered leaves in 2 columns with signatures and 36 lines. A Dutch translation by some unknown person, and extremely scarce in Germany. The book also possesses a particular interest from the circumstance of its having in the title an impression of 2 plates from a *Biblia pauperum* xylographed in Holland, consult my *Ueberlieff*, I. 127. (Wolfenbüttel.)

Concerning Thomas's work, consult *Mélanges tirés d'une grande bibl.* IX. 54 sq. *Alphonsi doctrina clericalis* by Schmid, p. 98 not. A French translation of it was published in the 16th century.

3 leaves of preliminary matter and 215 pages. Blankard perceived in the text many entirely arbitrary alterations, and arranged the work anew.

22894 — κατα ἀλφαβητον ὀνοματων ἀρτικων ἐκλογαι (gr.) N. Blancardus emendavit, opus universum disposuit et καταλογον veterum scriptor. addidit. Animadvv. suas adjecit Lamb. Bos. Franeq., Strik, 1698. 8°.

The text is indeed printed from Blancard's, but in the notes there is inserted a treasure of corrections and explanations of it. Fr. Oudendorp took the greatest part in this edition.

22899 THOMSON, Jam. Works, with an account of his life and writings. Lond. 1762. large 4°. 2 vols. Also on large paper.

This edition, superintended by Patrick Murdoch, is still prized on account of its neatness and correctness.

22900 — poetical works. Glasgow, Foulis, 1784. fol. 2 parts in 1 vol.

Also on large paper. This edition is little sought after. The dramatic works are wanting.

22901 — works, to which is prefixed the life of the author, by Patrick Murdoch. Lond. 1788. large 8°. 3 vols. with plates.

22902 — works, with his last corrections and improvements. To which is prefixed the life of the author by Patrick Murdoch. Lond., Hamilton, 1802. 8°. 3 vols. with plates.

22903 — seasons. A new edit. revised by Mr. D***. Par., Stoupe, 1785. 12°. (2 livr. 10 s.)

The poem first appeared in single books. *Winter*. Lond. 1726. 8°. *Summer*. ib. 1727. 8°. *Spring*. ib. 1728. 8°. *Autumn*, first in the collected edition of the *Seasons*, Lond. 1730. 4°.

22904 — seasons, with notes by Percival Stockdale. Lond. 1793. very large 8°. with plates.

22905 — seasons, with a critical essay by Aikin. Lond. 1794. 4°. with plates.

22906 — seasons. Parma, Bodoni, 1794. large 4°.

There are 50 copies on vellum paper in folio. The duke of Abrantes possessed the only copy on vellum.

22907 — seasons, illustrated with engravings by Fr. Bartolozzi and P. W. Tomkins, from original pictures of W. Hamilton. Lond., Bensley, 1797. large fol. On vellum paper (8l. 8s.).

This edition, ornamented with very neat

vignettes and 4 large plates, is very fine, but it has too small a margin for the largeness of the size. A repetition with the same vignettes appeared, *Lond.* 1807. large 4°. (4l. 4s., with the 4 large plates 8l. 8s. On large paper 10l. 10s., and with illuminated plates 15l. 15s.)

22908 — seasons, with the life of the author and illustrative remarks on seasons by J. Evans. Lond., Bensley, 1802. small 8°. with plates.

F. von Rosenzweig.* Hamb., Perthes, 1825. 8°. (1 d. 20 gr.) *Die Freiheit, ein Lehrgedicht, übs. von C. Hanseman.* Brem., Heyse, 1818. 8°. (1 d. 8 gr.) *Sämmtl. Trauerspiele, aus d. Engl. mit einer Vorr. von Ghold Ephr. Lessing.* Lpz. 1756. 8°. (12 gr.)

Several copies of Rosenweig's translation of the *Seasons* were struck off on vellum: one of them is in the Royal library at Dresden.

22911 THOMSON, Th. *System of chemistry.* Ed. IV. Edinb. 1820.

These travels are chiefly interesting to the mineralogist.

22912 THORELLE. Eine hübsche historië von einem Ritter genannt herr Thorelle. Geborn uss dem Land Lombardia, wie er vom grossen Soldan gefangen wurd in den Zytten do Kaiser Friedrich regirt das gantze Römische Reich. Strasb., without date. 4°. with woodcuts.

22914 THORKELIN. De Danorum rebus gestis sec. III. et IV. poema danicum dialecto anglosaxonica. Ex bibl. Cottoniana musei britanici edidit, versione lat. et indd. auxit Grimus Johannis Thorkelin. Havn. 1815. 4°. (5 d. 8 gr.)

This edition of the original is not quite satisfactory. The following is a Danish translation, *Bjovulfs Drape. Et gothisk Høledigt fra forrige Aartusende af Angelsaxisk paa Danske Rüm, ved N. F. Sev. Grundtvig. Kiöbenh., Seidelin, 1820. 8°.* — See also EDDA.

22916 THOTT, O. de. Catalogus bibliothecæ Thottianæ. T. I. P. 1. 2. T. II. P. 1. 2. T. III. P. 1. 2. T. IV. T. V. P. 1-3. T. VI. T. VII. Havn. 1789-95. 8°. 7 parts in 12 vols.

A catalogue more important on account of the exceeding riches of this really prodigious private library, than for its bibliographical execution. The library consisted of 121,945 vols. of printed works and 4154 MSS. Consult concerning it the interesting accounts in (*Cramer's*) *Hauschronik. Hamb. 1822. 8°. p. 228*, and in the *Allg. litt. Ans. 1801. p. 614 and 765*. The old typographical productions (up to the year 1530) to the number of 6059 vols. and the MSS., became by the will of the owner the property of the Royal library at Copenhagen, and as the 7th part, which contains a catalogue of these two sections of the collection, is the most interesting, so is it at the same time the scarcest, as it was not sent to various places, like the other parts, for the sake of sale, and it is also extremely probable that a smaller impression of it was made. Also T. II. P. II. containing a catalogue of the collection of legal dissertations, is also often wanting. A complete copy of this catalogue, which was executed by several, and reduced into form by N. Elert and F. Eccard, is both a rarity and at the same time a most valuable possession for a bibliographical cabinet.

22917 THOU, Jac. Aug. de. *Historiarum libri 138, ab a. 1546 ad a. 1607, quibus adjuncti sunt N. Rigaltii de rebus Galliæ libri III. et sylloge scriptorum varii generis et argumenti ad Thuanum vel Thuanæam historiam pertinentium.* Lond. Buckley, 1733. fol. 7 voll.

The best, the most complete and the finest edition, of which there are copies on large paper, and 12 copies on very large paper (1225 fr. McCarthy.) The subscription price was 9 guineas. Of all the earlier editions, the first edition only of the first part, *Par., Patisson, 1604. fol.* is worth consideration. The cautious statesman had it printed at his own cost in order to obtain the judgment of his king and of the nearest states upon it (*Burmanni sylloge Epist. I. 379.*) From the circumstance of this specimen being printed for this object, and from no second part having followed, it is conceived that it never came into the market.

22918 — *histoire universelle de 1546-1607, trad. sur l'édition latine de Londres (par J. B. le Mascrier, Charl. le Beau, l'abbé Desfontaines etc.) (Par.) 1734. 4°. 16 voll.*

Also on large paper. This edition is preferred to that which appeared, *Haye, Scheurleer, 1740. 4°. 11 voll.* In German *Ff. 1621. fol. 2 voll.* An English transla-

tion of the first 26 books by Bn. Wilson, which appeared 1729, 30, has not been continued.

22919 THROSBY, J. Select views in Leicestershire, containing seats of the nobility and gentry, town, views and ruins, accompanied with description. Leicester, 1796. large 4°. 2 vols. History and antiquity of the ancient town of Leicester, ib. 1791. 4°. with plates (11. 18.)

22920 — history and antiquity of the town and county of Nottingham. Nottingh. 1795. 4°. with plates (11. 108.)

Of little value. Only 100 copies were printed. To which may be added, *Rb. Thoroton's history of Nottinghamshire, republished with large additions. Lond. 1797. 4°. 3 vols.*

THUANUS, see THOU.

22921 THUCYDIDES (gr.) Ven., Aldus, m. Majo, 1502. fol.

The first edition and scarce. 124 unnumbered leaves, 2 of which are blank; (one between the preliminary matter and the text, and the other at the end.) There are also copies on a somewhat stronger and larger paper than the ordinary paper. Aldus subsequently published the scholia with Gemistius Pletho, Ven. 1503. fol.

22922 — Thucydides cum commentariis antiquis et valde utilibus (gr.) Flor., Bn. Junta, 2 Nov. 1506 (1526). fol.

6 leaves of preliminary matter and 160 numbered leaves. This edition also is scarce. The Greek colophon proves that the statement of the date in several copies, *Millesimo quingentesimo sexto* (1506) is only owing to the word *vigesimo* (20) having fallen out, and therefore that there could be no mention of an edition of 1506. The scholia are printed in the margin at the sides.

22923 — Thucydides cum scholiis et antiquis et utilibus. Accessit præter ea diligentia Jo. Camerarii, in castigando tum textu, tum commentariis una cum annotationibus ejus. Bas., ex offic. Hervagiana, 1540. fol.

12 leaves of preliminary matter, 225 and 178 pages, and 1 leaf with the colophon. A new recension from a Basle MS. The

scholia also were corrected by Camerarius. There are copies which deviate from the others in some readings; see Duker's preface and *Allg. lit. Anzeiger*, 1796, p. 491. In the Royal library at Dresden, there is a copy furnished with Matthæi's collation of a Moscow codex.

22924 — de bello Peloponnesiaco libri VIII. (gr.) Iidem latine, ex interpret. Lr. Vallæ ab H. Stephano recognita. Excud. H. Stephanus, 1564. fol. Also on large paper.

8 leaves of preliminary matter, 297 pages (Greek text), 1 leaf, 216 pages (Latin translation) and 4 leaves of index. The Latin translation is sometimes wanting. This edition is finer than the following, but less important.

22925 — de bello Peloponnesiaco libri VIII. (gr.) Iidem latine, ex interpret. Lr. Vallæ ab H. Stephano recognita. In hac secunda editione quæ amplius quam in prima præstita fuerint, extrema ad lectorem epistola docebit. Excud. H. Stephanus, 1588. fol.

10 leaves of preliminary matter, 621 pages, 8 leaves, 73 pages of notes, and 3 leaves of index. A new recension of the text and scholia from MSS. and a revision of Valla's Latin translation according to the Greek original. Notes are also added to the 1st book and to the greater part of the 2nd.

22926 — *περι του Πελοποννησιακου πολεμου βιβλια οκτω*. Iidem lat. ex interpr. Lr. Vallæ ab H. Stephano recognita et ab Æmil. Porto passim expolita. Ff., hered. And. Wecheli, 1594. fol.

A not quite correct repetition of Stephens's text with new corrections of the Latin translation, and the addition of notes by Fr. Portus, which are wanting in the following editions.

22927 — de bello Peloponnesiaco libri VIII. (gr. cum scholiis græcis, variantibus lectt., versione lat. Æmil. Porti hinc inde emendata, et binis tabulis geogr. Ad calcem subnexa sunt epitome Thucydidis a G. Acacio Enenckel. et argumenta concionum a Jobo Veratio scripta, et H. Stephani parasceue ad lectionem scholiorum. Item prolixiores Stephani, Palmerii et Hudsoni an-

notatt. ac indices tres locupletissimi, op. et stud. J. Hudson.) Ox., th. Sheld., 1696. fol. with 2 maps. Also on large paper.

The text of Stephens's 2nd edition with a new revision of the Latin translation, executed by Valla and corrected by Portus, also with various readings from 3 MSS. and the earlier editions, which however were not collated with the attention they deserved. The large paper copies of this edition are pretty common and not very dear.

22928 — de bello Peloponnesiaco libri VIII. (gr. lat.) cum adnotatt. integris H. Stephani et J. Hudsoni. Recensuit et notas suas addidit Jos. Wasse. Editionem curavit suasque animadvv. adjecit C. And. Dukerus. Cum variis dissertatt., MStor. collationibus et indicibus novis locupletissimis. Amst., Wetstenii, 1731. fol. 2 vols. with 2 plates. Also on large paper.

A repetition of the preceding edition, corrected from MSS. and the older editions, and with a better arrangement of the various readings. This edition originated so accidentally, and was obliged to be so hastily superintended by the editor, who was not prepared for it, that it certainly is not satisfactory. At the same time it is fine, and of the greatest rarity on large paper, (has been sold in England as high as 36l. 15s.) The Royal library at Dresden possesses the dedication copy on large paper; lord Spencer possesses a second.

22929 — bellum Peloponnesiacum (gr. et lat.) Ex edit. Jos. Wasse et C. And. Dukeri. Glasg., Foulis, 1759. small 8°. 8 voll.

A neat and correct impression of the text of the preceding edition.

22930 — de bello Peloponn. libri VIII. græce ad edit. Dukeri expressi (edente Fr. C. Alter.) Viennæ, Trattner, 1785. 8°. 2 voll.

With the various readings of a MS. in the imperial library at Vienna.

22931 — de bello Pelop. libri VIII. gr. lat. Ad edit. Wassii et Dukeri accurate expressi cum varietate lectionis et annotationibus. Biponti, 1788-89. 8°. 6 voll. (1 d. 16 gr.)

Even on common paper, one of the rarer editions of the Bipont series, but on Dutch paper the scarcest next to Plato.

The text and various readings according to Duker, with the addition of some annotations from Heilmann's translation and from other quarters.

22932 — de bello Pelop. libri VIII. (gr. lat.) ad edit. Dukeri cum omnibus auctariis recus. Acc. variæ lectt. duor. codicum, animadvv. J. Cp. Gottleberi. Cœptum opus perfecit, suas notas adjecit, indicem Dukeri et glossarium Gottleberi auxit C. L. Bauer. Vol. I. Lips., Schwickert, 1790. Vol. II. curante Ch. Dn. Beck. ib., id., 1804. 4°. 2 voll. (22 d. 12 gr.) Also on writing paper.

A new but very cautious recension of the text after an Augsburg and a Moscow MS. The scholia are handled somewhat more freely. The chief merit of this edition is exegetical. A 3rd vol. with an index is still wanting, which perhaps will never appear as the entire impression has now been purchased in England.

22933 — Thucydides, gr. lat. Accedunt indices, ex edit. Wassii et Dukeri (curante Pt. Elmsley.) Edinb., e prelo acad. 1804. 8°. 6 voll. Also on large paper.

With some of Elmsley's corrections, (consult Wolf's *Literar. Analekten*, I. 481.) Not so fine as the Glasgow edition of 1759 but better.

22934 — περί του Πελοπ. πολέμου βιβλία ὀκτώ μεταφρασθέντα, σχολιασθέντα τε καὶ ἐκδοθέντα τυποῖς παρὰ Νεοφυττου Δουκα. Ἐν Βιεννῇ, 1805-6. 8°. 10 vols. with plates.

With a commentary in ancient Greek and a translation in modern Greek. The 10th vol. contains an index.

22935 — histoire grecque, accompagnée de la version latine, des variantes de 13 manuscrits de la bibliothèque impériale, d'observations histor., littér. et crit., des spécimen de ces manuscrits, de cartes géogr. et d'estampes. Par J. Bt. Gail. Par., Gail, 1807-8. 8°. 12 voll. (42 fr., on vellum paper 72 fr.)

8 vols. Greek and Latin text, and 4 vols. French translation and notes. There are also copies in 4°. (58 fr., on vellum paper 140 fr.) and 2 copies on vellum in 14 vols. 4°. The Greek and Latin text, (8 vols.)

and the French translation (4 vols. 14 fr., on vellum paper 24 fr.) may also be purchased separately.

22936 — de bello Pelop. libri VIII. gr. et lat. ad edit. Dukeri expressi. Acced. variæ lectt., nec non index rerum et verbor. Ox., Bliss, 1809. 8°. 3 voll. Also on large paper.

The 4th vol. contains the Latin translation. Only 12 copies were printed on large paper. A part of the impression (but without the 4th vol.) was also published with the title, *Berol., Reimer*, 1821. 8°. 3 voll. (15 d.)

22941 — de bello Pelop. libri VIII. 22961 TIBULLUS, Albius. Carminum libri IV. Without place or date (about 1472). 4°.

47 leaves with 24 lines, with signatures, catchwords and numbering of the leaves. Leaf 1^a begins with the line, ALBII TIBULLI POETÆ ILLUS. Tibullus ends in leaf 42^b with a prose notice respecting him in 7 lines. *Sapphus Epistola ad Phaonem ex Ovidio* follows in leaf 43^a, which ends in 47^b with the line, *Explicit: ex græco transtulit. Ovidius*. The types are the same as those with which the printer Florentius de Argentina, either living at Venice itself, or at least in the Venetian dominions, (scarcely at Brescia) printed *Jacobi Romani pro patria ad N. Tronum congratulatio*, (without place, 20 Mart. 1472. 4°.) The edition is of the greatest rarity, and the first separate edition of Tibullus. It has not yet been col-

lated. Lord Spencer now possesses Pinelli's copy, (bought for 10l.)

22962 — carminum libri IV. Without place or date. 4°.

36 leaves with 27 and 28 lines, without signatures, catchwords and numbering of the leaves. The first page has 26 lines. The abbreviation & frequently occurs at the end of words, for instance, ten&. The copy that was in count Melzi's collection, the only one known in modern times, is now in the possession of Mr. Standish in England.

22963 — carminum libri IV. Without place or date. 4°.

Leaf 1^a line 1 is, ALBII TIBULLI EQUIT. RO. POE. A full page contains 24 lines. Audiffredi in the *Catal. edit. Rom.* p. 440, thinks this edition is of the same impression as the *Propertius* of 1472 (see above, No. 18023,) but it is asserted in Dibdin's *Bibl. Spenc.* II, 287, that the types differ from those of *Propertius*, and the difference in the number of lines in a page (as the *Propertius* has 28 lines) certainly seems to declare against that supposition. At the same time it can only be decided by ocular inspection how far this edition deviates from the two preceding.

22964 — opus Tibulli albici, cum commentario Berardini Cyllenii Veronensis. Romæ, (G. Lauer), Jul. 11. 1475. 4°.

190 leaves with 26 lines in the text, and 25 in the commentary, without signatures, catchwords and numbering of the leaves. The text begins in leaf 1^a without farther superscription with the line *Iuicias alius fuluo sibi congerat auro*. It ends in leaf 41^b with a colophon of 6 lines. Leaf 42 is blank. The commentary begins in 43^a with a poem to Baptista Ursinus, and the 1st line is, BERARDINUS VERONENS. CLA. In leaf 44^a line 13 there follows POETÆ VITA. The commentary itself commences in leaf 49^a line 11, and ends in 187^b line 23 with the word *Finis*. In leaf 188^a is a second colophon in 6 lines, followed by a register which ends in leaf 189^a with the word *Clausam*. Next follows a blank leaf. The edition was superintended by G. Tibullus de Amidanis de Cremona, or at least at his expense. Vacant spaces are left in the commentary for the Greek passages. The edition is very scarce, and was sold at Pinelli's sale for 10l. 15s. The commentary of Cyllenius is not without merit, but it often contains different readings from those in the text.

22965 — Albij Tibulli Elegiographorum optimi Elegia de Amore et laudibus Messale (carminum libri

IV.) Without place or date (about 1500). 4°. Gothic letter.

52 leaves with the signatures *δ-g*, (the first 8 leaves are without signatures) and 20 lines. In leaf 1^a is the above title in 2 lines. In leaf 1^b follows a notice respecting the life of Tibullus; which occupies 34 lines. The text begins in leaf 2^a with a superscription of 3 lines, the first of which is, *Albii Tibulli equi. Ro. Poete Cl. liber*. The text ends in 52^a with the *Tetrastichon de puella infamia*, which is followed by *Summa vite albii tibulli* (in prose) and an *Epitaphiū Tibulli*. The last or 20th line is, *Aut caneret forti regia bella pede*. Leaf 52^b is blank.

This edition has been so often confounded with the following, that an accurate description of the complete Dresden copy was necessary; from which it is evident that it is the same edition which Panzer specifies, I. 499, 274, only that the first 3 leaves (not merely the first leaf) are wanting in the Neustadt copy. It is there attributed to the Leipsic printer, Conr. Kacheloven, which I have not yet been able to investigate with sufficient accuracy. But it is certain that it belongs to no other Leipsic printer, and least of all to Jac. Thanner. Heyne, who first gave occasion to this mistake, made use of this edition, and not of Thanner's, and the Heidelberg copy made use of by Voss, the first 14 leaves of which are wanting, (consult *Tibull. ed. Huschke*, T. I. p. LXVI.) also belongs to this edition. There is also a copy of this edition in the electoral library at Cassel. As to the rest, the Seneca bound up with the Neustadt copy (*Panzer* IV. 193, 1140.) does not belong to this edition.

22966 — Albii Tibulli, elegiographorum optimi, elegia de amoribus et laudibus Messalæ (carminum libri IV.) Lips., Jac. Thanner, 1500. 4°.

This edition is distinguished from the preceding by the statement of the printer, place and year, and by the annexation of a poem of its superintendent Gregorius (Breitkopf) Conicensis. It is also said to contain different readings: a copy of it is in the Leipsic University library.

22967 — Tibullus cum commentario Achillis Statii Lusitani. Ven., in ædibus Manutianis, 1567. 8°.

272 pages and 8 leaves at the end, the last of which is blank.

22968 — quæ exstant, ad fidem vett. membranar. sedulo castigata. Accedunt notæ cum variar. lectt. libello et terni indices (studio Jani Brouk-

husii.) Amst., Wetstein, 1708. 4°. with plates. Also on large paper.

A large abundance of critical apparatus from MSS. and the older editions, but not always satisfactory. Scaliger's division of the poems is retained, but his text has been here and there corrected. The elucidations of the editor are principally grammatical.

22969 — Tibullus Corvinianus s. Albii Tibulli quæ supersunt. E cod. MS. Matthiæ Corvini R. Hung. recensuit Sm. Köleserius a Kereseer. Claudiopoli, 1727. 8°.

No editor of Tibullus seems hitherto to have made any use of this edition, which is very scarce in Germany.

22970 — Tibulli et Propertii opera, ex edit. Jani Broukhusii fideliter expressi. Glasg., Foulis, 1753. 8°.

22971 — carmina, libri tres, cum libro quarto Sulpiciæ et alior. Novis curis castigavit Ch. Glo. Heyne. Ed. III. auctior et emendatior. Lips., Feind, 1798. 8°. (2 d. 16 gr.)

There are copies on writing paper and on Dutch paper. At first, *Lips.*, *Lankish*, 1755. 8°. (the dedication copy on fine paper is at Dresden). Ed. II. *ib.*, *Junius*, 1777. 8°.

22972 — Alb. Tibullus u. Lygdamus, nach Handschr. berichtet von J. H. Voss. Heidelb., Mohr, 1811. 8°. (2 d. 16 gr.)

22974 — carmina, textu ad codd. MSS. et edit. recognito, insigniori lectionis varietate, notis indicibusque adjectis edidit E. C. Ch. Bach. Lips., Hahn, 1819. 8°. (1 d. 16 gr.)

22975 — carmina, ex rec. et cum animadvv. Imm. Gli. Huschkii. Ac-

cedit specimen editionis Venetæ a. 1472 æri incisum. Lips., G. Fleischner, 1819. 8°. 2 voll. (5 d.)

The facsimile of the Venetian edition of 1472 is such a failure, that it ought not to have been particularly mentioned in the title. The edition itself however has somewhat peculiar to it, and possesses a merit that has not yet been acknowledged with sufficient justice and impartiality.

A good edition of a work as distinguish-

ed for the real comprehensiveness of its varied historic literature as for its profoundness of inquiry even into the minutest detail. The first edition appeared, Modena, 1771–82. 4°. 13 vols., to which is to be added the additions of the above and original edition, which were printed separately for the purpose, ib. 1795. 4°. The edition with Mamachi's notes, Rom. 1782–85. 4°. 12 vols. is also greatly prized. Of the later reprints, Ven. 1795. 8°. 8 parts in 16 vols. *Fir. e Pisa, Molini*, 1805–13. 8°. 9 parts in 20 vols. The first edition of the Catalonian translation of this romance, and extremely scarce: the first 3 books only of which were done by Martorell, the work being interrupted by his death, and the 4th was done by Galba. In 2 columns. First is a list of chapters with the superscription, *A honor, laor, e gloria de la immensa e divina bondad de nostre Sengor Deu Jesu Christ* etc. Then follows Martorell's dedication to don Fer-

In leaf 1^a is the above title in 3 lines (without a woodcut underneath, as in the following edition). In leaf 1^b are 4 verses (*WOLan wol an ir herren vnd knecht*), and underneath a woodcut. Leaf 2^a contains 16 verses in 11 lines (*Alle menschen denken an mich*), and a woodcut. Then follows the real dance of Death onward from leaf 2^b, in 2 columns, the first of which contains Death's address, and the second Man's answer. Both of them constantly commence with a large initial, engraved on wood and ornamented, and are printed without any division into verses. The series of the persons invited to the dance is the following: Papst, Cardinal, Bischof, Official, Domherr, Pferner, Capellan, Abt, Arzt, Kaiser, König, Herzog, Juncker, Wapendreger, Wucherer, Bürger, Handwerksmann, Jüngling, junges Kind, Wirth, Spieler, Dieb, böser Mönch, guter Mönch, Bruder, Doctor, Bürgermeister, Rathsherr, Vorsprech, Schreiber, Nonne, Bürgerin, Junckfrau, Kaufman, and "*von allem staidt*." (This order is different in the following edition). The verses of Death to the pope begin in leaf 2^b, *Herr baibst dyssen dantz müst yr begynnen*, and the answers of the men *von allem staidt* (leaf 21^a) commences, *Ach leyder wie iungk wie alt wir syn*. Leaf 21^b is a large woodcut representing a churchyard. In leaf 22^a are 36 concluding verses in 43 lines, the last of which is, *Das yss komme vnseren selen tru frommen*. Leaf 22^b is blank.

This description is made according to the Wolfenbüttel copy of which Langer had also already treated in the *Allg. deutsche Bibl.* CVI. 279 sq. Consult also Dronke in the *Kunstblatt*, 1823, No. 87. p. 347 sq. Langer considered Strasburg to be the place of printing; to me however it appears from the types and the paper mark (a P with a cross on it), to have been printed at Cologne or in lower Saxony.

23007 — der doten dantz mit figuren. Clage vnd Antwort von allen staten der welt. Without place or date. fol.

22 leaves in 2 columns with signatures, and with 42 woodcuts. Leaf 1^a is the above title, and underneath a woodcut. Leaf 2^a contains 16 verses without any division (*Alle menschen denken an mich*),
VOL. IV.

and underneath the woodcut of the same title is repeated. Then follows the proper dance of Death onwards from leaf 2^b in 2 columns, the first of which contains Death's address, and the second Man's answer. The text is the same as in the preceding edition, but the series of the persons invited to the dance is here as follows: Papst, Cardinal, Bischof, Abt, Doctor, Official, Domherr, Pferner, Capellan, guter Mönch, böser Mönch, Bruder, Nonne, Arzt, Kaiser, König, Herzog, Graf, Ritter, Jungher, Wapendreger, Bürgermeister, Rathsherr, Bürger, Vorsprech, Schreiber, Wucherer, Räuber, Spieler, Dieb, Handwerksmann, Wirth, Jüngling, Kindlein, Bürgerin, Jungfrau, Kaufmann, and "*von allem staidt*." A moral of 18 lines in rhyme without any break or punctuation concludes it. Leaf 22^a is a large woodcut representing a churchyard, and 22^b is blank.

According to Panzer's supplement to the *Deutsch. Annal.* p. 10 (which Fiorillo has most incorrectly transcribed), the printing resembles that of Ant. Koburger at Nuremberg, and belongs to the commencement of the 15th century. M. von Nagler of Berlin possesses a copy of this edition.

23008 — Dodendantz (low Saxon). Lübeck, without the printer's name, 1496. 4°. with woodcuts.

34 leaves. Leaf 1^a is a crown engraved in wood; underneath it the word *Doden-dantz*, and underneath this, three death's heads placed beside one another. On the reverse, the piece written in rhyme and divided into 68 numbered sections commences thus, *AL dat gheboren wert küpt in de noet. Dat id moet lidē dē bitterē doet*. The proper dance of Death begins in leaf 3^a, *Here paves du bist de hogeste nu vp erdē Tred her du moest min gelyk werdē*. The persons follow in this order: Papst, Kaiser, Kaiserin, Cardinal, König, Bischof, Herzog, Abt, *de godes ridder*, Mönch, Ritter, Canonicus, Bürgermeister, Arzt, Junker, Clüsener, Bürger, Student, Kaufmann, Nonne, Amtmann, Werkmeister, Bauer, Beghine, *de houe ruler* (Hofreiter), Jungfrau, Amtknecht, Amme, and Kind. The number of woodcuts are 56 in all, each representation of death, of which there are 4 varieties, being included. The poem ends in leaf 34^a with the verses, *So wan de doet de sele schedet vā dem lyue Dat se dems io ewich mit gode blīve AMEN*. Underneath the colophon, *Anno dñi Mcccxcvi Lübeck*. In leaf 34^b are 4 shields and a death's head.—There is a detailed description of this edition in *Brun's Beitr.* III. 321. A copy of it is at Wolfenbüttel.

It was printed at that establishment at
6 H

Lübeck which has hitherto remained undiscovered, from which press I am also acquainted with, *De Saller to Dede*. 1493. 4°. *Sunte Birgitten openbaringe*, 1496. 4°. *Speygel der leyen*, 1496. 4°. *Reineke Vos*, 1498. 4°. *Leyen Tydeboek*, 1508. 8°. My conjecture above (No. 18834), that St. Arnd might have been the printer, I now recal.

- 23009 — Todtentantz. Augsp., Jobst Denecker Formschneyder, 1544. fol. with woodcuts.

This edition, likewise very scarce, contains 50 leaves in all. The first 6 leaves, with the signature *a*, contain the title and a dialogue or conversation between Man and Death. Then follows the dance of death itself in 44 leaves, with the signatures *A-G*, which contain 42 woodcuts of the size of the entire page, placed opposite the text, and a text in rhyme, which is different from Scheyt's. The woodcuts are excellent.

There is bound up in the Wolfenbüttel copy, *Passional, des gantzen Bittern Leiden und Sterben*. . . . *J. Christi*. Augsp., durch David de Necker Formschneyder, 1557. fol. 36 leaves in all, with a text in rhyme, and 34 representations, engraved on wood, which always occupy the entire left page, and are not without merit.

- 23010 — de Dodendanz, durch alle Stende u. Geschlechter der Minsken. Without place, 1558. 8°. with woodcuts.

The 53 woodcuts are uncommonly neatly done. The text in rhyme is a translation of that by Casp. Scheyt.

- 23011 — der Todtendantz, durch alle Stende vnnd Geschlecht der Menschen. Without place, 1573. 8°. with woodcuts.

This is the original text of Casp. Scheyt in high German, which had already appeared, without place, 1557 and 1560. 8°. The 53 woodcuts, which are added, are neatly done.

- 23012 — Todtentanz durch alle Stände der Menschen. Lpz., durch Dav. de Necker Formschneyder, 1572. 4°. with 40 woodcuts.

The text is that of the edition of 1544.

- 23013 — zween Todtentantz, davon der eine zu Bern, der andre aber zu Basel, mit teutschen Weisen, mit schönen u. zu beiden Todtentantzen dienstlichen Figuren, jetzt

- 23014 — Sterbenspiegel d. i. Vorstellung menschlicher Nichtigkeit durch alle Ständ u. Geschlechter, vermittelt 60 Kupferblätter. Angefangen durch Rdf. Meyern, zu End gebracht u. verlegt durch Cr. Meyern. Zür., Bodmer, 1650. 4°. with plates.

With a text in rhyme, different from that in all the preceding editions. There appeared a new impression of the same plates under the title, *Die menschliche Sterblichkeit*. Hamb. u. Lps., 1759. 4°. (consult *Neuestes aus der anmuth. Gelehrsamk.* X. 19 sq.)

- 23015 — der Todtentanz nach einem 320 Jahr alten Gemälde in der St. Marienkirche zu Lübeck, auf einer Reihe von 8 Kupfertafeln. Unter jeder Tafel stehen hochdeutsche Reime von Nathan. Schlott. Die ältern niedersächs. Reime sind wieder mit abgedruckt, so viele noch davon zu finden waren, wobey zugleich einige Erläut. über diesen Todtentanz u. ähnliche Vorstellungen überhaupt von L. Suhl. Lüb., Donatius, 1783. 4°. (12 gr., illuminated 1 d. 12 gr.)

4 leaves of text in 4°. and 8 plates in fol. The explanations are insignificant.

- 23016 — de Doodt vermaskeert met des weerelds ydelheid, afghedaen door Geerardt van Wolschaten, verciert met de constighe beelden van Hans Holbeen. Antw. 1654. 8°.

- 23017 — Knijha Erasma Rotodamskeho, w kterez gednomu kazdemu Krestianskemu Czloweku naucenij y napomenutij se dawa, yakby se k Smrti hotowiti mel. (The book of Erasmus Rot., in which instruction and admonition is given to every Christian, how he ought to prepare himself for death; translated into Bohemian.) Prag, Girijk Melantrych, 1563. 8°.

The dance of death to be found prefixed to this extremely scarce book, consisting of

53 representations engraved on wood with Bohemian verses in rhyme placed underneath, has not been mentioned by any author who has written on this subject. The representations are copies of those to be found in the editions which are furnished with Scheyt's text.

The first edition of the *Lettere* is, *Ven., Gioiito*, 1547. 4°. and the best of the earlier editions is, *ib., id.*, 1558. 8°. The edition, *Ven., Nicolini*, 1559. 8°. although cited by the academy della Crusca, is very incorrect.

Both parts belong together. The 1st contains 48 plates by H. David, printed in the text (without the medals); the 2nd contains 35 plates, most of which appear to be by J. F. Greuter.

23029 — Petrarcha redivivus, integram poetæ celeberr. vitam iconibus ære cælatis exhibens. Accessit Lauræ brevis historia. Patav., Pasquati, 1635. 4°. Ed. II. correctæ et aucta. ib., Frambotti, 1650. 4°. with plates.

In the *Catal. de Ginguéné*, p. 230, an edition, *Patav. 1701. 4°.* is also mentioned, which had been previously unknown. The portrait of Petrarch in profile without a crown, which is to be found in the edition of 1635, is incorrectly omitted in that of 1650. In some few copies of the edition of 1650 there is an appendix to be found, p. 271–286, with the superscription, *Syllabus operum, quibus fruitor orbis, ob solitaria Petrarchæ studia.* These pages are printed in a different character, and appear to have been added at Milan: see *Petrarcha di Marsand*, II. 435.

Whether this or the following edition of this work be the first, cannot be decided with certainty. 303 leaves in 2 columns with 53 lines, without signatures, catch-

words, and numbering of the leaves. Leaf 1^b begins with the line, *Fratris Ade de Montaldo genuensis augustiniani Sacre*. In leaf 302^b is the colophon in 5 lines, and a register ends the work in leaf 303^a.

23052 — — Ven., N. Jenson, 1471. fol.

296 leaves with 47 lines running all across the page, without signatures, catchwords, and numbering of the leaves. Leaf 1^a begins with the author's dedication to pope Nicholas V. and the work itself commences in leaf 2^a. In leaf 296^b is the colophon. From the circumstance of this edition containing the author's dedication to the pope, it may almost be concluded that it is the first and original edition. Two copies on vellum are known in the Royal library at Paris (one bought at M^cCarthy's sale for 920 fr.).

The numerous subsequent editions are not sought after.

A fine edition, but not greatly sought after, of which there is a copy in which the plates are struck off on vellum (600 fr. at a Paris sale in 1821). This edition is preferred to the preceding. The edition, *Lugd.* 1719. 4°. 3 vols. augmented with Jussieu's additions, contains impressions of the same plates.

The old plates have also once more served for the new edition with a French text, *Elémens de botanique*. *Nouv. édit. augm.* par Jussieu et N. Jolyclerc. Lyon, 1797. 8°. 6 vols. which is not esteemed.

arranged collection of the most profound
and varied investigations, stands at a price
both in and out of France proportionate to
its intrinsic value. The last parts are fre-
quently wanting in Germany. The German
translation, *Neues Lehrgebäude der Diplo-
matik, übs. mit Anmerk. von J. C. Ade-
lung* (and from part 4 by Ant. Rudolph).
Erf. 1759-69. 4°. 9 vols. with plates (36 d.),
contains very indifferent re-engravings of
the original masterly plates, and has the
inconvenience of deviating entirely from
the internal arrangement of the original,
and therefore is very troublesome to use
for citations which refer to that edition.—

23063 TRANSACTIONS, philoso-
phical. Lond. 1665-1827. 4°.—
General index from Vol. 1-70. by
P. H. Maty. Lond. 1787. 4°. Con-
tinuation to the alphabetical index
from Vol. 71-110. Lond. 1821. 4°.

Complete copies of this extremely im-
portant collection are very difficult to be
met with, as the earlier volumes have be-
come particularly scarce. Bohte of London
offered in 1822 a copy in 105 vols., reach-
ing up to the year 1812, for 90l. The entire
number of vols. depends on the way of
reckoning. Brunet reckons 109 parts in

114 vols. up to 1819 (without the index).
According to this reckoning there ought to
be 124 vols. in all up to 1827, including
the above mentioned 2 vols. of index. And
yet the quite complete Dresden copy only
contains 107 vols.

All the vols. up to 1750 are divided
into numbers from 1 to 497. From 1751
this manner of dividing them was aban-
doned. The years, 1665-1762 are usu-
ally contained in 52 vols. because up to
that period often two years and sometimes
three are bound up in one vol.: but since
1763 one vol. has regularly appeared an-
nually. As no vol. appeared in the years
1679-82, and 1688-90, these gaps have
been filled up with the 7 numbers published
by Rb. Hooke, under the title of *Philosophical
collection*. Parts 41, 44, 48-52 and 68 are
each in 2 divisions.

23079 TREITZSAURWEIN, Marx. Der weiss (weisse) Künig. eine Erzählung von den Thaten Kais. Maximilian I. Wien, Kurzboeck, 1775. fol. (10 d.)

A series of 237 excellent woodcuts executed at the command of Maximilian I. from designs of Hans Burgmaier, by the same Hans Burgmaier, Hans Springinklee, and Hans Schaufelein, but only published in 1775. There are however some extremely scarce and costly old impressions of these woodcuts without text, which are not only stronger and finer, but also contain 13 pieces, the plates of which no longer exist, and consequently they are wanting in the edition of 1775. (Two copies of them, in the Imperial library at Vienna and in the Royal library at Dresden.) Edwards, the bookseller of London bought the remainder of the impression of 1775 and prefixed, instead of the German text,

a short French explanation under the title, *Weiss Kunig. Tableau des principaux évènements de la vie et du règne de l'emp. Maximilien I. Vienne et Londr.* 1799. fol. — Consult *Bartsch Peintre graveur*, VII. 224 sq. *Fiorillo Artist. Schr.* II. 346. *Bouterwek Gesch. d. Poesie*, IX. 512.

23080 — le triomphe de l'empereur Maximilien I. en une suite de 135 planches gravées en bois d'après les dessins de Hans Burgmair, accompagnées de l'ancienne description dictée par l'empereur à son secrétaire Marc Treitzsaurwein. Vienne, Schmidt, et Londr., Edwards, 1796. oblong fol.

This unfinished but admirably executed work was done between 1516 and 1519. According to the original miniatures prepared for it, which are now in the Imperial library at Vienna, it was to have contained more than 200 plates. Of this work also there are some more ancient impressions; one of 90 leaves is in the Imperial library at Vienna, and another of 87 leaves (under the title, *Chars de triomphe*) was sold at Mariette's sale for 720 livr. and at Vallière's for 1000 livr. Consult *Heineken Neue Nachrr.* I. 193 sq. *Bartsch Peintre graveur*, VII. 231 sq. There are 2 copies of the edition of 1796 on vellum (one sold for 105 guineas at a London sale in 1804).

(61 d. 8 gr.). Also on writing paper.

A well executed work, but seldom to be met with complete. There is also an impression of 1768 of the first vol.

23084 — plantæ rariores, quas maximam partem ipse in horto domestico coluit, secundum notas suas examinavit et explicavit. Decas I-III. Nrb. 1763-84. fol. with illuminated plates (15 d.)

Bd. Ch. Vogel superintended the 2nd and 3rd decades. All the 3 received a new title, *Altorfii*, 1795.

23085 — plantæ selectæ, quarum imagines pinxit G. Dion. Ehret, collegit notisque illustravit Cp. Jac. Trew. Decas I-IX. Nrb. 1750-73. fol. with 100 illuminated plates (24 d.). Supplementum. Lips., Göschen, 1790. fol. (6 d. 8 gr.)

The illumination is uncommonly faithful and vivid, at least in the old copies. The modern copies are far inferior in this respect.—See also BLACKWELL.

23088 TRIONFI. Tutti i trionfi, carri, mascheate (*sic*) o canti carnascialeschi andati per Firenze dal tēpo del Magnifico Lorenzo vecchio de Medici. Fir., (*Lr. Torrentino*), 1559. 8°.

10 leaves of preliminary matter, 465 numbered pages, and 3 leaves, *tavola*. By a typographical error the pagination from 304 to 329 is skipped over, and the pages 390 and 391 are incorrectly numbered 400 and 401.

A collection of carnival songs, very scarce and sought after, superintended by Grazzini il Lasca, of which complete copies in particular are of the utmost rarity (gl. 5s. Roscoe, 426 fr. M'Carthy), inasmuch as the *Canti dell' Ottonajo*, or p. 298 to 396, were taken out of the copies shortly after the printing was finished. A separate edition of these *Canti* was prepared, Fir. 1560. 8°. enlarged with 4 *cansoni* (see above OTTONAJO) in order to complete the imperfect copies, which however is equally unfaithful and incorrect.—Collectors also add the following small and scarce piece, *Le dieci mascherate delle Buffole mandate in Firenze il giorno di carnovale l'anno 1556.* Fir., Giunti, 1559. 8°. 56 pages.

23089 — tutti i trionfi, carri, mascheate o canti carnascialeschi andati per Firenze dal tempo del magnifico Lr. dei Medici fino all' anno 1559. In questa seconda edizione corretti, con diversi MSS. collazionati, delle loro varie lezioni arricchiti, notabilmente accresciuti, e co' ritratti di ciascun poeta adornati. Cosmopoli, per Neri del Boccia (*Lucca, Benedini*), 1750. large 8°. 2 vols. with portraits.

This edition, superintended by Rinaldo Bracci, is enlarged and corrected from MSS. and furnished with notes. Ant. Mar. Biscioni's work in opposition, *Parere sopra la seconda ediz. de' canti carnascialeschi.* Fir. 1750. 8°. was replied to with the utmost violence by Bracci, in the extremely scarce *Primi due dialoghi di Decio Laberio. Culcutidonta (Lugano)*, 1750. 8°.

Of this 2nd edition there is a new impression under the same date, which was prepared about 1752, and may be distinguished from the older impression, by the older one having a list of errata at the end, which is wanting in the new, and also that in the first the signature *Oo* is of 8 leaves, followed by 2 leaves with the signature *Pp*, on the last of which are the *Errata*, whereas in the new impression the signature *Oo* contains 10 leaves, and instead of the *Errata* there is a blank leaf. Other differences of the two impressions are, p. 244. l. 26. 1st impression, *piace*, 2nd impression, *pare*: p. 305. l. 14. 1st impression, *fen*, 2nd impression, *ben*: p. 553. l. 15. 1st impression, *sonno*, 2nd impression, *sano*: p. 571. l. 9. 1st impression, *far tempo*, 2nd impression, *far buon tempo*, and so on. (The older impression is at Dresden.)

Large paper copies in 4°, which are sometimes to be met with, appear to belong only to the latter impression. It is more correct, but it contains bad impressions of plates which are not fine in themselves. Concerning the collection in general, see *Bousterweck Gesch. d. Poesie*, I. 250.

23097 — la Italia liberata da Gotthi. T. I. (lib. 1-9.) Roma, Val. e. L. Dorico, 1547. T. II. (lib. 10-18.) Ven., Janiculo, 1548. T. III. (lib. 19-27.) ib., id., 1548. 8°. 3 voll.

The original edition and tolerably scarce, 2 copies of which on vellum are known; one in the British Museum (formerly consul Smith's), the other (only part 1 and 3) in the Royal library at Paris (previously 72 fr. M'Carthy). There are copies in which some of the bolder passages against the pope and the Roman court are softened down in canoels, for instance, T. II. p. 127, where 3 verses are re-modelled, and p. 128, where 2 words are altered. But the most important alteration is in p. 131 of the same part, where several verses, from *anoor vi vol io dir quel che mi disse, to dei mal guidati popoli di Christo*, are altogether omitted.

23098 — l' Italia liberata da' Goti, riveduta e corretta per l' abbate Antonini. Par., Cavalier, 1729. 8°. 3 voll.

There are several copies of this edition also on vellum (Lamy 200 fr., M'Carthy 81 fr.). Also, *Londra (Livoornio)*, 1779. 12°. 3 voll. *Orléans, Couret*, 1787. 8°. 2 voll.

23099 — i simillimi, comedia. Ven., Janiculo, 1548. 8°.

Also, without place or date (*Parma, Amoretii*, 1799). 8°.

23100 — la Sofonisba, tragedia. Roma, L. Vicentino, 1524. 4°. Vic., Janiculo, 1529. 4°. Ven. 1560. 8°.

Also in the *Parnasso Ital.* XVII. 25 sq. and in the *Teatro Ital.* T. I. In French by Mellin de S. Gelais. *Par., Danfrie*, 1559. 8°. In this play the chorus of the ancients is introduced.

It is well known that Trissino sought to give a new form to Italian orthography by an intermixture of Greek characters, and this attempt gives to the original editions of most of his writings, in which he executed this whim, a certain historical interest. He also prepared with the same

orthography an edition of *Dante de la volgare eloquentia*. Vic., Janiculo, 1529. fol. But his poetical merit is very limited.

23101 TRISTAN. 1. *Spanish*. La historia de Tristan. Valladolid, 1501. fol. Gothic letter with woodcuts.

The first Spanish edition, extremely scarce.

23102 — libro del efforçado cavallero Don Tristan de Leonis y de sus grâdes hechos en armas. Sevilla, 1528. fol. Gothic letter with woodcuts.

Sold at Meermann's sale for 99 fl. 95 st.

23103 — coronica del cavalliero Don Tristan de Leonis, y del rey Don Tristan de Leonis el joven. Sevilla, Dm. de Robertis, 1534. fol. Gothic letter.

23104 — 2. *Italian*. Le opere magnanime dei due Tristani, cavalieri della tavola ritonda. Ven., Mch. Tramezzino, 1555. 8°. 2 voll.

The 1st vol. has 12 leaves of preliminary matter and 264 numbered leaves, the 2nd (which has no separate title), 337 numbered leaves, and 6 unnumbered with the *tavola*. Brunet mentions an edition, *Ven., Tramezzino*, 1552-5. 8°. 2 voll.—Concerning a MS. in Italian prose of the history of Lancelot and Tristan, prepared in 1447; see *Bandini Codd. Lat.* V. 208.

23105 — 3. *French*. Histoire du très-vailant, noble et excellent chevalier Tristan, fils du roi Méliadus de Leonnois (rédigée par Luce seigneur du château de Gast.) Rouen, J. le Bourgeois, le dernier jour de Septembre, 1489. fol. Gothic letter, 2 parts in 1 vol. in 2 columns.

The first printed edition of this prose edition and extremely scarce. The first part begins, without a title, with signature *a i*, and ends with signature *&*, which only consists of 2 leaves. Then follow two leaves more with a table and with the signature *A*. The 2nd part has the signatures *aa ii* to *tt i*, and after the colophon follow two pages with a table.

23106 — Tristan chevalier de la table ronde, nouvellement imprimé. Par., Ant. Vérard, without date. fol. Gothic letter. 2 parts in 1 vol.

Not less scarce than the preceding edi-

tion, and very well printed. The 1st vol. contains 4 leaves of preliminary matter and 180 numbered leaves (the last of which is numbered *clxxxii*); the 2nd has 144 numbered leaves. (32l. 6d. Roxburghe, 21l. 10s. 6. Marlborough.)

- 23107 — Tristan chlr (chevalier) de la table ronde nouvellement Imprime. Par., Ant. Vêrard, without date (about 1496). fol. Gothic letter. 2 parts in 1 vol.

Without signatures, catchwords, and pagination. This edition differs from the preceding. Part I. contains 2 leaves of preliminary matter, *Clxxx* numbered leaves and 1 unnumbered leaf of text, and has 2 columns of 46 lines in each page. Part II. contains 2 unnumbered leaves, the table, and *Cxliij* numbered leaves of text, and has 2 columns of 43 lines in each page. Consequently there appear to have been two different editions by Vêrard of the 1st part only. Three copies of the edition here described are known on vellum with miniatures, one in Mr. Hibbert's possession at Clapham near London (previously 193 livr. Gaignat, 400 livr. Vallière, 755 fr. M^cCarthy), the 2nd in the Royal library at Copenhagen (previously Harley and Thott), and the 3rd (only part I.) in the Royal library at Paris.

- 23108 — Tristan cheualier de la table ronde. Par., Mich. le Noir, 20 Mai 1514. fol. Gothic letter, 2 parts in 1 vol.

4 leaves of preliminary matter, 154 and 126 numbered leaves in 2 columns of 44 lines in a full page, and with the signatures *A-AA* and *a-s*. (Wolfenbüttel.)

- 23109 — Tristan cheualier de la table Ronde. Par., Mich. le Noir, 26 Mai 1520. fol. Gothic letter, 2 parts in 1 vol.

4 leaves of preliminary matter, 154 and 126 numbered leaves in 2 columns of 44 lines, and with the signatures *A-AA* and *a-s*. Page for page and line for line, a faithful reprint of the preceding edition, but yet really a new impression. (Wolfenbüttel.)

- 23110 — les grandes prouesses du très vaillant noble et excellent chevalier Tristan filz du noble roy Meliadus de Leonnoy. Par., (*Denis Janot*), 1533. fol. Gothic letter, 2 parts in 1 vol.

Although by far less fine than Vêrard's edition, yet still sought after, and at the same time the last edition which contains

the romance in its older form. Part I. 4 leaves of preliminary matter and 154 numbered leaves of text, part II. 124 numbered leaves of text.

- 23111 — le premier livre du nouveau Tristan, prince de Leonnois, chevalier de la table ronde. Fait françoys par J. Maugin dit Langevin. Par., veuve de Maur. de la Porte, 1554. fol.

6 leaves, 358 pages, and 1 unnumbered leaf. A rhetorical bombastic modernisation of the romance, and yet sold at the duke of Marlborough's sale for 4l. 4s.

- 23112 — — Par., Gabr. Buon, 1567. fol.

Only a new title to the preceding edition.

- 23113 — le livre du nouveau Tristan prince de Leonnoys, trad. en franç. par J. Maugin. Lyon, Ben. Rigaud, 1577. 16°. 2 voll.

- 23114 — histoire de Tristan prince de Leonnoys, faite françoise per J. Maugin. Par., Bonfons, 1586. 4°. with woodcuts.

- 23115 — histoire de Tristan de Léonois, par le comte de Tressan. Par., Didot, 1781. 18°.

There is a copy on vellum.

- 23116 — histoire de Tristan de Léonois et de la reine Iseulte, et de Huon de Bordeaux, extraites par le comte de Tressan. Par., Déterville, an 7 (1799). 18°. 3 vols. with plates (12 fr., on large vellum paper 32 fr.)

The oldest MSS. of this Tristan in French prose state that it is a translation made from the Latin in the latter half of the 12th century, by Luces du Gau (or du Gast). It is this translation, although modernised, which forms the basis of the printed editions. Concerning it, consult *Raynouard Choix des poésies des troubadours*, II. 312 sq. *Vallière Catal.* II. 614. *Vanpraet Premier catal. des livr. impr. sur vélin*, IV. 258. *Senebier Cat. des MSS. de la bibl. de Genève*, 453. As yet no MS. is known of Chrestien de Troyes's work in French rhyme, which he dedicated to count Philip of Flanders, who was dead in 1191.

- 23117 — 4. German. Hye hebt sich an die hystory herren Tristrants vnd der schenen ysalden, welliche histori gar kurtzweilig zu lesen ist.

Augsp., Hans Schönsperger, 1498. fol. Gothic letter with woodcuts.

50 leaves with the signatures A-G, in 2 columns. (M. von Nagler at Berlin.) This is an extremely scarce first edition of a translation made from the previously existing old French prose.

23118 — die History von Tristrant vnd der schönen Isalden von Irlande. Strb. 1510. 4°. with woodcuts.

23119 — Herr Tristrant, ein wunderbare Historie von Herr Tristrant vnd der schönen Isalden. Wormbs, Gr. Hofman, without date. 4°. with woodcuts.

This edition is at Wolfenbüttel. Several of the woodcuts are dated 1549, consequently this edition is sometimes set down in 1549 and sometimes in 1550. — Also in the *Buch der Liebe*. Ff. 1587. fol. leaf 78^b-107^b, and a distinct edition, Erf., Jac. Singer, 1619. 8°. with woodcuts.

23120 — Herr Tristant d. i. eine Wunder- u. höchstbelustbare Geschichte von Herrn Tristrant u. der schönen Isalden. Nrb. 1664. 8°. with woodcuts.

The last time, in *Hagen's und Büsching's Buch der Liebe*. Berl. 1819. 8°. p. 1-142. (Printed from the text of the edition in the *Buch der Liebe* of 1587.)

23121 — Tristran von Meister Gottfried von Strasburg, mit der Fortsetzung des Meisters Ulrich von Turheim, herausg. von E. von Grote. Berl., Reimer, 1821. 4°. (5 d. 12 gr.)

The first edition, when the printing of it was almost finished, was entirely destroyed by fire in April 1822 at the ducal printing establishment at Oels. In this edition is to be found Gottfried's edition of Tristan with Ulrich von Turheim's and Heinrich von Freyberg's continuation, together with the other foreign traditions concerning Tristan. With respect to the German Tristan, consult *Hagen's Grundriss*, p. 123 sq. 533 sq.

23123 TRISTAN, J. Commentaires

histor., contenant l'hist. générale des empereurs, impératrices, césars et tyrans de l'empire Romain, illustrée, enrichie et augmentée par les inscriptions et énigmes de 13 à 1400 médailles et autres monumens de l'antiquité. Par., Moreau, 1644 (new title, *ib.*, Huré et Léonard, 1657). fol. 3 vols. with plates.

23124 TRITHEMIUS, J. Opera historica. Ex bibl. Marq. Freheri. Ff., typis Wecheliani, 1601. fol. 2 parts in 1 vol.

It contains also besides his historical works, his *Epistola famul.* (previously by themselves, *Haganoa, Brubach*, 1536. 4°.)

23125 — annalium Hirsaugiensium tomus II. Typis monast. S. Galli, Schlegel, 1690. fol. 2 voll.

Only the first part of this chronicle is to be found in the preceding collection, and that too according to the first edition. Here it is printed complete and according to Trithemius's new revision. This work is not often to be met with, but it is not so scarce, as some years ago it was in England thought to be.

23126 — polygraphiæ libri VI., cum clave seu enucleatorio. (*Oppenheimii*), J. Haselberg de Aia, 1518. fol. with woodcuts.

The first edition and very scarce of this often printed book. (For instance, Ff. 1550. 4°. and under a new title, *Steganographia*. Darmst. 1621. 4°.) In French by Gbr. de Collange, Par. 1561 or 1625. 4°. with woodcuts. The pretended translation by Dm. de Hottinga, Emden, 1620. 4°. is only a new title to this translation. It is well known that this introduction to a secret method of writing was for upwards of a century entirely misconceived on account of its concealment under magical formulae, until it received a complete elucidation in the following work, *J. Trithemii Steganographia vindicata, reserata et illustrata a Wfg. E. Heidel.* Mog. 1676. 4°. Nrb. 1721. 4°. Consult *Für alt. TRIUMPH, see TREITZSAURWEIN.

23127 TRIUMPHE (*le*) des neuf preux, auquel sont contenus tous les faits et prouesses quilz ont acheuez durant leurs vies, avec l'ystoire de Bertrand de Guesclin.

Abbeville, Pt. Gerard, le penultième jour de May 1487. fol. Gothic letter.

The first edition, extremely scarce. It begins with 12 leaves of preliminary matter (title and table), the text contains the signatures *A-LL*, of 8 leaves each, except the signatures *I, N, S, HH*, and *LL*, which have 6 leaves, and signature *Z* which has 10. The signatures *R* and *S* are both twice inserted, one under the other. At the beginning of the text is a woodcut representing the 9 worthies.

23128 — le triumphe des neuf preux, auquel sont contenus tous les faits et prouesses quilz ont acheuez durant leurs vies, avec l'ystoire de Bertrand de Guesclin. Par., Mch. le Noir, 3 Dec. 1507. fol. Gothic letter, with woodcuts.

Likewise scarce and sought after (101. 106. Roxburgha, 61. 66. Marlborough). First 8 leaves of preliminary matter, then follows the text, with the signatures *Ai-Küij*, without numbering of the leaves. At the end is the printer Lenoir's symbol on a single leaf.

23129 — chronica llamada el triumpho de los nueve mas preciados varones de la fama, traducida en castellano por Ant. Rodriguez Portugal. Barcelona, Bths. Simon, 1586. fol.

TRIUMPHUS, see AUGUSTINUS.

23130 TRIUMPHUS imp. Caroli V. Norimb., excud. J. Guldenmund, 1537. fol.

In the Ducal library at Wolfenbüttel is a copy on vellum, which consists of nine sheets, glued together. This costly work of woodcuts has no title, consequently I have made the above myself. On the outside there is written in an old hand, *Triumphwagen Kaiser Caroli V.* Over the figures is a short text printed in Latin.

TROGUS Pompeius, see JUSTINUS.

TROJANO, see LIBRO.

23131 TROILO e Chryseide. A codex on vellum of this Italian poem of the 14th century (now in the library of the gymnasium at Altona) is described in (J. Pt. Kohl) Briefwechsel der Gelehrten auf d. J. 1750. p. 538 sq. 749 sq. Other Italian editions are by LEONICO

(see above) and BOCCACCIO (in the *Filostrato*). — Concerning L. de Beaveau's unprinted French edition, see *Mélanges tirés d'une gr. bibl.* V. 217 sq. Vallière's catal. II. 508 sq. Yet it is probably only a translation of the poem by Boccaccio. — Gf. Chaucer's *Troilus* and *Cresside*. Westm. Caxton, without date, fol. Gothic letter. — The source however of all these poems appears to be Magistri Alberti Troilus, a Latin elegiac poem of the 13th century, concerning which consult my *Ueberlieff.* B. I. st. 1. p. 188.

TROMBA, see REGNAULT de Montauban.

23133 TROST. Der Selen trost. Augsp., Ant. Sorg, 1478. fol.

Also, *ib.*, *id.*, 1483. fol. This work contains an explanation of the ten commandments in question and answer between scholar and master and in examples and histories. It is different from the following work, composed in a similar form, *Buch der sehen gepot.* Ven., Ratdolt, 1483. fol. Strb., Grüninger, 1516. fol. There are 2 MSS. of the *Selenrost* in low Saxon at Wolfenbüttel (Cod. Helmst. 418 and 255). This work exists also in Dutch: *Der Selen trost.* Haarlem, without the printer's name, 9 Aug. 1484. small fol. Zwoll, Pt. van Os, 1491. fol.

23135 TRYPHIODORI Ilii expug-natio (gr.), a Feder. Jamotio versibus latinis reddita et annotationibus quibusdam illustrata. Lutet., Mch. Vascosanus, 1557. 8°.

This first separate edition is tolerably scarce. *Tryphiodorus* first appeared with *Quintus Calaber.* Ven., Ald. (1505), 8°. with a corrected text in *H. Stephani Poet. gr.* 1566, also in *Moh. Neandri opus aureum* 1577.

de Ilii excidio, cum duplici interpretatione et notis, auctore Nicod. Frischlino. Acc. castigatt. Lr. Rhodomanni. Ff. a. M., J. Wechel, 1588. 4°.

An esteemed edition, but incorrectly printed.—The edition by H. Rump, *Hamb., Lange*, 1617. 8° is insignificant.

23137 — Ilii excidium, cum metrica Nicod. Frischlini versione et selectis virorum doctor. notis. Lacunas aliquot e cod. MS. explevit et suas annotatt. adjecit Jac. Merrick. Ox., th. Sheld., (1741). 8°.

23138 — excidium Trojæ, gr. et lat. Acc. interpretatio ital. Ant. Mar. Salvini. Rec. et annotatt. adjecit Ang. Mar. Bandini. Flor. 1765. 8°.

A worthless edition, of which there are copies on large paper.

23139 — la presa di Troja, poema trad. in versi ital. da Ang. Teodoro Villa. Col testo greco di rincontro. Modena, società tip., 1774. 8°.

Completely insignificant in a philological point of view.

23140 — la caduta di Troja, in versi italiani, col testo greco. Parma, Bodoni, 1796. 4°.

There are copies on satin, and some on large vellum paper in folio with the date of 1797.

Previously, *Lond.* 1791. 8°. Northmore's own notes are insignificant, and his alterations unhappy. The 1st edition is without a translation; to this 2nd, Bandini's is added with some alterations.

23142 — Ilii excidium (gr.) Curav. Gf. H. Schäfer. Lps., Tauchnitz, 1808. fol. On vellum paper (8 d. 12 gr.).

"Liber perrarus; nam vix XL. exemplaria in lucem prodierunt." Professor Schäfer's own remark.

It reaches to the year 1470. According to J. von Müller "he has described almost all periods of the history of Switzerland with so much knowledge, such faithful and unwearied industry and dignity of style, as to have surpassed all ancient and modern historians of this country."

23148 — Hauptschlüssel zu zerschiedenen Alterthumen, herausg. von J. Jac. Gallati. Costanz, 1758. fol. with woodcuts.

This not unimportant work is very scarce in Germany.

- 23150 TUCHER, Hans. Wallfahrt u. Reise in das gelobte Land. Augsp., Hans Schönsperger, 1482. fol.

The first edition of one of the oldest German books of travels. 75 leaves without signatures, catchwords, and numbering of the leaves. Leaf 1 is blank. The work begins in leaf 2^a, *Nach Christi vnserer lieben herrn gepurt* etc. Leaf 75^a is the colophon. There are two impressions of these travels of the same date by Schönsperger. The earlier and more incorrect one is most easily distinguished from the later one, which is corrected after the following Nuremberg edition, by the circumstance that in the very first lines Tucher is simply called *Burger zu Nüremberg*, whereas in the subsequent and more correct impression, which is properly the 3rd edition, being corrected after the following, he is styled, *Burger vñ die zeit einer des kleinern Rates d' stat Nüremberg*.

- 23151 — — Nrb., without the printer's name (*Cr. Zeninger*). 1482. 4°.

79 leaves, with the signatures A-K. Properly the 2nd edition, corrected as it seems with Tucher's co-operation, and consequently to be considered as an original. The following are only repetitions: *Nrb.* without the printer's name (*Zeninger*). 1483. 4°. 79 leaves, with the signatures A-K. *Strb.*, *Knoblochzer*, 1484. fol. *Augsp.*, *Sorg*, 1486. fol. *Ff. a M.* 1561. 4°.—Concerning this work consult *Händler. The second shorter catalogue is the sale-list of those books which still remained at his death.

An indispensable, though not a critical work, in which the original documents in par-

ticular are printed with great negligence, and without distinguishing between the genuine and the false. In T. VI. the pagination skips from 586 to 591, although nothing is left out. There are copies on large paper. — Previously, *Rom.* 1644-62. fol. 9 vols. Brunet also mentions a recent edition, enlarged by the abbaté del Riccio, *Flor.* 1763 sq.

MSS. collatis emendatius recudi curavit Th. Mareshallus, cujus etiam observatt. in utramque versionem subnectuntur. Acc. glossarium gothicum, cui præ-

mittitur alphabetum gothicum, runicum etc. opera ejusd. Fr. Junii. Dordr., typ. et sumt. Junianis, 1665. 4°. 2 parts in 1 vol.

Amst., ap. Janssonio-Waesbergios, 1684. 4°. is only a new title. There are copies on large paper. The first edition of Ulphilas.

23201 — evangelia ab Ulfila ex græco gothice translata, nunc cum parallelis versionibus, Sueo-gothica, Norræna s. Islandica, et vulgata latina edita (cura et stud. G. Stiernhielmii). Stockh., Wankif, 1671. Glossarium Ulphila-gothicum, linguis affinibus per Fr. Junium, nunc etiam Sueo-gothica auctum et illustratum per G. Stiernhielm. ib., id., 1670. 4°. 2 parts in 1 vol.

The court-preacher D. Lütkeke assured me with his own mouth that there is a reprint of this edition of the same date, which differs only in being printed on worse paper, and in a line here and there being set down differently. Both impressions are very scarce even in Sweden.

23202 — sacrar. evangelior. versio gothica ex cod. argenteo emendata atque suppleta, cum interpret. lat. et annotationibus Eriici Benzeli. Edidit, obs. suas adjecit et grammaticam gothicam præmisit Ed. Lye. Ox., typogr. Clarend. 1750. large 4°.

J. Ihre and Erich Sotberg also took part in this edition.

23203 — Ulphilæ versionem gothicam nonnullorum capitum epistolæ Pauli ad Romanos e litura codicis MS. rescripti, qui in Guelpherbyti bibliotheca adservatur, una cum variis variæ literaturæ monumentis hucusque ineditis, eruit, commentatus est datque foras Fr. Ant. Knittel. Brunovici, orphanotropheum (1762). 4°. with plates.

This exceedingly meritorious first edition, and accurate without a fault, as I can assert from my own collation of it with the codex, of a fragment hitherto unknown, is out of print, and is becoming scarcer every day. The palæographic copper-plates, which are quite indispensable, are wanting in many copies, because as the greatest part of the impression through want of sale was converted into waste

paper, the necessary copper-plates were neglected to be added to the copies that were preserved. The plates were sold at the same time as old copper, so that it became impossible to remedy this mistake.

23265 — *historia dei due nobilissimi et valorosi fratelli Valentino et Orsone, figliuoli del magno imperatore de Constantinopoli, et nepoti del re Pipino, nella quale si contengono molti et varii soggetti d'arme et d'amore, tradotta nuovamente di lingua francese in italiana.* Ven., Vinc. 23269 — — Lpz., N. Nerlich, 1607. 8°. with woodcuts.

Dramatized from this prose translation in J. Ayres's *Opus Theatricum*, leaves 261-323. Concerning another prose edition and a poetical one, see *Hagen's Grundriss*, p. 163, 538.

23270 — *the hystorie of the two valyante brethren Valentine et Orson.* Lond., W. Coplande, without date (before 1568). 4°. Gothic letter with woodcuts.

The translation is by Watson. But as a translation of the *Ship of fools* by the same was printed by Wynkyn de Worde, it is probable that his translation had also been already printed earlier than this, although no earlier edition is known. In the year 1586 Th. Purfoot obtained permission to print *The old book of Valentine and Orson.*

23271 — Valentine and Orson, the two sonnes of the Emperor of Greece. Lond. 1637. 4°. Gothic letter with woodcuts.—Lond., Ibbitson, 1649. 4°. —ib. 1688. 4°. —ib. 1694. 4°.

All are mere repetitions of Watson's translation. Concerning this translation see especially *Douce's Illustrations of Shakespeare*, II. 240, and *Brydges's Bibliographer*, I. 469 sq.

A Spanish dramatic work is to be found in the 1st vol. of Lope de Vega's *Comedias*.

23274 VALERA, Diego de. La cronica de España abreviada. (Sevilla), Alonso del Puerto, 1482. small fol. Gothic letter.

As yet the best edition. Sirmond's edition first appeared by itself, *Par., Nivellius*, 1612. 8°. Then enlarged in *Sirmondi Opp. T. I. Par.* 1696. fol. p. 604-702. Also with *Petrus Chrysologus. Ven.* 1742. fol. p. 213-291.

23277 VALERIUS Flaccus. Argonauticon libri VIII. Bonon., Ugo Rugerius et Dm. Bertochus, 7 Madii 1474. fol.

The first edition and very scarce. 81 leaves with 35 lines, without signatures, catchwords and numbering of the leaves. Leaf 12 line 1 is, C. VALERII FLACCI SETINI BALBI ARGO. This edition, which has not been made use of by any editor of the entire poem since Maserius, is certainly very incorrectly printed, but contains some excellent readings.

23278 — Argonauticon libri VIII. Flor., apud S. Jac. de Ripoli, without date (1481). 4°.

This 2nd edition equals the preceding in rarity, and appears not to have been yet fully made use of. 102 leaves with 30 lines and with the signatures a-n. Leaf 12 line 1 is, C. VALERII FLACCI SETINI BALBI AR. That it was finished in November 1481 is evident from the original notice in *Fossi Bibl. Magliab. T. III. pref.* p. xviii.

23279 — Argonautica diligenter accurateque emendata et suo nitore reddita. Bonon., Bd. Hectoreus, 11 April 1498. fol.

First made use of by Harles.

23280 — Argonautica diligenter emendata et restituta. Ven., Cp. de Pensis, 9 Jul. 1501. 4°.

A copy on vellum in the Hunterian Museum at Glasgow.

23281 — Valerius Flaccus. Flor., Ph. Junta, 1503. 8°.

99 leaves and 1 blank leaf. A very scarce edition, and, as it appears, not yet made use of.

23282 — Argonauticon. Par., Jod. Badius Ascensius et J. Parvus, nonis Januar. 1512. 4°.

After the colophon there follows 1 leaf with *correctiones*. Superintended by Gervasius Amoenus, but probably only a repetition of the text of the preceding. This edition is erroneously set down in *Panson*, II. 339, in the year 1500.

23283 — Valerius Flaccus. Flor., Ph. Junta, m. Febr. 1517. 8°.

4 leaves of preliminary matter, 95 numbered leaves and 1 leaf with the lily. Superintended by Bm. Fontius, but with a very arbitrary and unsubstantiated formation of the text.

23284 — Argonauticon libri VIII. diligentissima accuratone Æg. Maserii recogniti et scholiis illustrati. Par., Ascensius, non. Aug. 1517. fol.

10 leaves of preliminary matter, 91 numbered leaves and 1 unnumbered leaf. A copy on vellum in the Royal library at Paris.

23285 — Argonauticon libri VIII. cum Æg. Maserii commentariis. Par., Ascensius, 14 cal. Febr. 1519. fol. with woodcuts.

8 leaves of preliminary matter and 114 numbered leaves. Of no particular critical or exegetical importance. A copy on vellum, 80 livr. Selle, 384 livr. Gaignat.

23286 — Commentarii Pio Bononiensi auctore. Cum codicis poetæ emendatione ex antiquo exemplari Dacico, additis libris tribus, qui desiderabantur, et Orpheo Latino. Bonon., Hi. Platonius, cal. Majis, 1519. fol.

A new and valuable recension from good MSS. but so incorrectly printed as to be useless.

23287 — Argonautica. J. Bt. Pii carmen ex quarto Argonauticon Apollonii. Orphei Argonautica in-nominato interprete. Ven., Aldus et And. Asulanus, m. Majo, 1523. 8°.

146 numbered and 2 unnumbered leaves. A too bold alteration of the text by some unknown person, in other respects not unlearned. The translation of Orpheus was by Leodisius Cribellus.

23288 — Argonautica, cum annotatt. Lr. Balbi. Compluti, Mch. de Eguia, 1524. 4°.

Neither critically nor exegetically important.

23289 — Argonauticon libri VIII. a Ph. Engentino emendati et ad vetustissima exemplaria recogniti. Arg., J. Knobloch, m. Jul. 1525. 8°.

115 numbered leaves and 1 unnumbered leaf. This edition has nothing of its own,

being but a mere reprint of that by Pius, whose corrections are here in part received into the text. The following are mere reprints of this edition; *Par.*, *Coffineus*, 1532. 8°. and *Lugd.*, *Gryphius*, 1548. 12°.

23290 — Argonauticon libri VIII. a L. Carrione emendati, et cum ejusd. scholiis. Antw., Cp. Plantinus, 1565. 8°.

A new recension, perhaps too bold, with the aid of an excellent MS. but about which Burmann expresses himself too bitterly.

23291 — Argonauticon libri VIII. Locis innumerabilibus antea a L. Carrione ex vetustiss. exempl. emendati, nunc vero ita ab eodem perpurgati, ut jam primum editi videri possint. Seorsim excusæ ejusd. Carrionis castigationes. Antw., Plantinus, 1566. 12°.

A revision of the preceding edition, and indispensable with it. The *Castigati.* are added with a separate title.

23292 — Argonauticon libri VIII. a L. Carrione ex vetustiss. exempl. emendati. Cum notis ejusd. Carrionis, And. Schotti et Lr. Balbi. Nunc primum editis. Col. Allobr., le Preux, 1617. 8°.

Probably superintended by And. Schott, and without anything peculiar of its own. The notes of Balbus were already in the edition of 1524. *Historia Argonautarum seu ad velus aureum expeditio et de navigationis origine. Cum varior. eruditior. notis. Par.*, *Osmont*, 1698. 8°. is only a new title to this edition.

23293 — Argonauticon libri VIII. Lamp. Alardus perpetuo commentario illustravit, Carrionis errores detexit, et ad Apollonii Rhodii aliorumque Argonautica contulit. Lips., Grosius, 1630. 8°. with 1 portrait.

682 pages of text and commentary, 76 pages *Bulæ Schediasmata*, and 229 pages *Weitsii Collectanea*, besides the preliminary matter and the index, with the signatures *a-m*, at the end. Equally insignificant both critically and exegetically.

23294 — Argonautica. N. Heinsius, recensuit e codd. vetustis. Amst., Wetstenius, 1680. 12°.

A new recension, yet without the notes belonging thereto.

23295 — Argonautica. N. Heinsius

recensuit et animadvv. adjecit, edente Pt. Burmanno. Traj. Bat., de Water, 1702. 12°.

Heinsius's notes are here added for the first time.

23296 — Argonauticon libri VIII. Ex rec. N. Heinsii et Pt. Burmanni. Patav., Cominus, 1720. 8°.

Superintended by J. Ant. Volpi. Very correct and furnished with a good index.

23297 — Argonauticon libri VIII. cum notis integris et selectis varior. Curante Pt. Burmanno, qui et suas adnotatt. adjecit. Leidæ, Luchtmans, 1724. 4°. Also on large paper.

A new recension from 3 MSS. and ancient editions, with the most complete selection of what appeared to be useful in the previous exegetical apparatus. A rich treasure of the most interesting literary notices is contained in the preface, which moreover is written in the bitterest tone. Maittaire justified himself against the rude attacks to be found therein in his *Annal. Typogr. Tom. V. P. II. p. 307*.

23298 — Argonauticon libri VIII. Cum notis Pt. Burmanni integris, et selectis varior. Recensuit suasque adnotatt. adjecit Thph. Cp. Harles. Altenb., Richter, 1781. 8°. (3 d. 12 gr., on Dutch paper 4 d. 12 gr.)

This edition is annexed in France and England to the series that appeared *cum notis variorum*. It is rather incorrectly printed.

23299 — Argonauticon libri VIII. ad optt. editt. collati. Bip. 1786. 8°. (12 gr.)

23300 — Argon. libri VIII. Ad optimor. exempl. fidem recensiti atque proœmio, argumentis et indice rerum instructi a J. Agst. Wagnero. Gött., Dieterich, 1805. 8°. Ejusd. commentarius. ib., id., 1805. 8°. (2 d., on writing paper 2 d. 22 gr., on vellum paper 4 d. 6 gr.)

23301 — Argon. liber VIII. notis crit. instruxit, 16 versibus auxit et diss. de versibus Val. Fl. falso suspectis adjecit Jonath. A. Weichert. Mis., Gödsche, 1817. 8°. (18 gr.)

23302 — l' Argonautica, volgarizzata da M. Ant. Pindemonti. Verona,

1776. 8°. Argonautique ou la conquête de la toison d'or, poème trad. en franç. par Adf. Dureau de Lamalle. Par., Michaud, 1811. 8°. 3 voll. (18 fr.) Argonautik, metrisch übs. nebst erläut. Anmerk. u. beigefügtem Texte von Wunderlich. Erf., Rudolphi, 1805. 8°. (18 gr.) — Jonath. A. Weichert ep. crit. de Val. Fl. argonaut. Lips., Vogel, 1812. 8°. (12 gr.) Ejusd. ep. ad Sturzius (de loco Val. Fl. I. 15.) Grimæ, 1824. 4°.

Weichert's annotations to books 1-4, in *Beckii Act. seminar. philol. Lps. II. 326-374*.

23303 VALERIUS Maximus. Factorum et dictorum memorabilium libri IX. Without place or date (*Arg. J. Mentelin*, about 1470). fol. Gothic letter.

159 leaves with 34 lines, without signatures, catchwords and numbering of the leaves. Leaf 1^a line 1 is, *Ualerij Maximi factorū et dictorum memorabilium*. Leaf 159^b, the last or 15th line is, *menter imminens iusto impendi supplicio coegit*. The first edition and very scarce, printed from a good and very old MS. and first made use of by Kapp. Freytag in the *Analecta*, p. 1017 sq. describes a copy, in which a pretended ancient hand had added in writing, a colophon with the date *Arg. 18 cal. Juli, 1470*. This colophon however is so evidently and literally an imitation of the colophon to be found in the following edition of Schöffer, that if it be not a subsequent fraud, at least it proves nothing. It is more certain that this edition appeared even before 1470.

23304 — — Mog., Pt. Schöffer, 18 cal. Jul. 1471. fol.

The second edition. 198 leaves with 30 lines, without signatures, catchwords and numbering of the leaves. Leaf 1^a line 1 is, *Ualerij Maximi Romane urbis iurisperiti-simi! in librum*. The first 2 lines are printed in red. After the 9th book follows a pretended fragment of the 10th book, and then 7 leaves of index. Leaf 198^a is the colophon printed in red. Seven copies on vellum are known; (1500 livr. Vallière, 1070 fr. M'Carthy, 60l. Sykes.)

23305 — — (Ven.), Vindelinus (*de Spira*), 1471. fol.

122 leaves with 41 lines, without signatures, catchwords and numbering of the leaves. Leaf 1^b begins with a list of the chapters; the text commences in leaf 3^a

with the line, *Valerii Maximi liber primus*. Leaf 122^a is the colophon. The edition belongs to the less fine productions of the press of Vindelinius, but is printed immediately from a MS.

23306 — — without place (*Brixia*, *Th. Ferrandus*) or date. fol.

148 leaves with 35 lines, without signatures, catchwords, and numbering of the leaves. One of the rarest editions of Valerius, and printed with the same types as the Propertius and Lucretius which appeared from that press. Leaf 1^a line 1 is, *Valerii Maximi liber primus*. It ends in leaf 148^a with the words, *Et Sic Est Finis*, and then follows a list of chapters. Lord Spencer's copy is the only one as yet known, and it appears to be defective at the end.

23307 — — Ven., J. de Colonia ac J. Manthen, 1474. 4°.

With the signatures *a-s*, and 34 lines. Leaf 1^b begins with a list of chapters, and the text commences in leaf 3^a.

23308 — — Par., (*Pt. Cæsaris et J. Stol*), 1475. fol.

One of the rarer editions of Valerius.

23309 — — Mediol., Ant. Zarotus, 7 cal. Nov. 1475. fol.

Superintended by Bonus Accursius. At the end are 22 leaves of index.

23310 — — Bonon., ad petitionem Sigism. de Libris, 24 Dec. 1476. fol.

129 leaves, without signatures, catchwords, and numbering of the leaves. The colophon is in leaf 128^b, and the last leaf contains the *register* on the *folio recto*. Gi. P. Zaffone was probably the printer, and not Ugo de Rugeris.

23311 — — Ven., cal. Jul. 1478. fol.

With the signatures *a-t*. First 3 leaves of preliminary matter (the preface of Accursius and a list of chapters). It appears to be merely a reprint of the Milan edition of 1475.

23312 — — Mediol., Ln. Pachel et U. Scinzenzeler, 16 cal. Aug. 1480. fol.

With the signatures *a-u*. First 2 leaves with a list of chapters.

23313 — opus Valerii Maximi cum nova ac præclara Oliverii Arzignanensis interpretatione. Ven., Badius de Benaliis, 9 Nov. 1488. fol.

3 leaves of preliminary matter, 236

leaves, and 1 leaf with the *register*. Reprinted, Ven., 16 Jul. 1494. fol. *ib.* 26 Mart. 1496. fol. *ib.*, *Albertinus Veroellensis*, 5 Jul. 1500. fol. and often.

23314 — de factis et dictis memorabilibus. Liptzk, Mr. Herbipolensis, 10 cal. Nov. 1501. fol.

The first edition in which the 24 examples from Lib. I. cap. 1. ext. 5. to Lib. I. cap. 4. ext. 1, which are wanting in the earlier editions, are to be found; Aldus erroneously thought himself the first that published them.

23315 — dictorum et factorum memorabilium libri IX. Ven., Aldus, m. Oct. 1502. 8°.

216 unnumbered leaves. In almost all the copies the layer *A* consists of 12 leaves, although in the *register* it is stated to have only 8. The reason was that it was reprinted in order to add the above mentioned *Viginti quatuor exempla nuper inventa* (in 4 pages), a second title and a preface of Aldus to Cuspinianus. This preface is dated, 1 Apr. 1503, and it has happened in consequence that sometimes an Aldine of 1503 is quoted, when in fact there is no such edition.

23316 — dictorum et factorum memorabilium libri IX. Without place (*Lugd.*) or date. 8°.

A Lyons reprint of a copy of the preceding edition, before the first layer was printed afresh, and consequently without the 24 *exempla*.

23317 — dictorum et factorum memorabilium libri IX, a Ph. Beroldo castigati. Without place (*Lugd.*) or date. 8°.

A Lyons reprint of the same first Aldine, but with the 24 *exempla*. Lord Spencer has a copy on vellum.

23318 — dictorum et factorum memorabilium libri IX. *Lugd.*, die ult. Julii 1508. 8°.

A 3rd Lyons reprint of the Aldine of 1502. A 4th appeared, *Lugd.* 1512. 8°.

23319 — Valerius Maximus. Ven., Aldus et Andr. socer, m. Oct. 1514. 8°.

216 numbered leaves. Merely a repetition of the Aldine of 1502.

23320 — Valerius Maximus. Plutarchi Chæronei parallela. Flor., Ph. Junta, m. Jul. 1517. 8°.

4 leaves of preliminary matter, and 228 numbered leaves. Superintended by Ant. Francinus.

23321 — Valerius Maximus. Exempla quatuor et viginti nuper inventa ante caput de omnibus. Plutarchi Chæronei parallela. Flor., her. Ph. Juntæ, 27 Nov. 1526. 8°.

23322 — Valerius Maximus. Addito indice perbrevis. Par., Sim. Colinaeus, 1531. 8°.

Also, *ib.*, *id.*, 1543. 8°.

23323 — Valerius Maximus nuper editus. Index copiosiss. rerum omnium et personar., de quibus in his libris agitur. Ven., her. Aldi et Ambr. soceri, m. Mart. 1534. 8°.

16 leaves of preliminary matter (the 16th blank), 209 numbered, and 2 unnumbered leaves (errata, colophon, and anchor). Superintended by Paulus Manutius. Two copies on large paper, and two on vellum are known.

23324 — dictorum factorumque memorabilium exempla. Lut., Rb. Stephanus, 1544. 8°.

23325 — dictorum factorumque memorabilium libri IX., a Sb. Corrado emendati et illustrati. Ven., Vinc. Valgrisius, 1545. 8°.

Also, Ven., Hf. Sootus, 1553. 8°.

23326 — moralium exemplorum libri IX., summa diligentia castigati, ac Olivii Arzignanensis Jodocique Badii Ascensii commentariis enarrati. Quibus addita sunt XXIV. exempla, nuper Aldi Manutii industria inventa, ejusdem Ascensii commentariis enarrata. Cum duplici indice. Insunt præterea Theophili lucubratt. Ven., (Bonellus), 1558. fol.

The most complete collection of the older commentators. Reprinted, Ven. 1575. fol.

23327 — dictorum factorumque memorabilium libri IX., repurgati per St. Pighium. Accedunt ejusd. annotatt. Antw., Cp. Plantinus, 1567. 8°.

A new recension, but too bold and violent.

23328 — dictorum factorumque memorabilium libri IX., infinitis mendis ex veterum exemplarium fide repurgati atque in meliorem or-

dinem restituti per St. Pighium. Acc. ejusd. annotatt. Item hac altera recognitione fragmentum de prænominibus antiquum incerti auctoris. Antw., Cp. Plantinus, 1574. 8°.

A revision of the preceding edition. Repeated with the addition of notes by Just. Lipsius, Antw. 1585. 8°. LB. 1594. 8°. and often.

23329 — dictorum factorumque memorabilium libri IX. Olim a St. Pighio emendati, nunc vero post Lipsii et Mitallerii aliorumque spicilegia ad vetustissimum Pt. Danielis exemplar collati, adjectis etiam animadversionibus a Cp. Colero. Hanov., typis Wechel., 1614. 8°.

Not without exegetical merit. The edition, Ff. 1627. 8°. is enlarged with new notes by Colerus, and with those of Corradus:

23330 — dictorum factorumque memorabilium libri IX., cum selectis varior. observationibus, ex rec. Ant. Thysii. LB., Hack, 1670. 8°.

Differing only in the title from the edition, *ib.* 1660. 8°. and sought after for the *variorum* series. Previously, LB. 1651 or 55. 8°.

23331 — Valerius Maximus cum notis J. Vorstii. Berol., Gohl, 1672. 8°.

A new and valuable recension from 2 MSS., the Aldine text forming the basis. It is also of merit for its elucidation.

23332 — exemplorum memorabilium libri IX. Interpretatione et notis illustravit Pt. Jos. Cantel, ad usum Delphini. Par., Thiboust, 1679. 4°.

23333 — libri IX. factorum dictorumque memorabilium, cum notis integris, nec non selectis observationibus varior. Ad plurimor. MSS. fidem opus recensuit et notas adjecit Abr. Torrenius. LB., Luchtmans, 1726. 4°. Also on large paper.

Vorst's text forms the basis, but it is corrected from MSS. and old editions. The various readings are collected together with the greatest accuracy, and the selection of the annotations is very circumspect.

23334 — factorum dictorumque memorabilium libri IX., cum varietate lectionis notisque perpetuis et indicibus copiosis editi a J. Kappio. Lips., Kummer, 1782. 8°. (3 d. 12 gr.)

23335 — dictorum factorumque memorabilium libri IX. ad opt. edit. collati. Acc. Julii Obsequentis quæ supersunt ex libro de prodigiis, cum supplementis Cr. Lycosthenis. Arg., ex typ. soc. Bip., 1806. 8°. 2 voll. (2 d.)

Previously, *Bip.* 1783. 8°.

23336 — el libro, que Valerio Maximo Romano compuso, que fue transferido del latin en lengua francesa por Simon de Hedin, e despues del language frances lo traslado en el romance de nuestra hyspania Ugo de Urries. Zaragoza, P. Hurus, 1495. fol. Gothic letter.

Like its French original, more a free modification than a translation. It was prepared at Bruges in Flanders in 1467. The following editions are modernised in style: *Sevilla, J. Varela, 28 Oct. 1514. fol. Alcala, Mig. de Eguia, 1 Jun. 1529. fol.* The following is a new translation: *Valerio Massimo traduc. en castellano por Diego Lopez. Madr. 1615. 8°. Consult also Diego Lopez Comento sobre los nueve libros de Valerio Max. Sevilla, 1632. 4°.*

23337 — Valerio Massimo vulgare. Ven., Albertino da Lissona, 6 Nov. 1504. fol.

The following are repetitions of this translation by some unknown person: *Ven., Agst. da Taje, 1509. fol. ib., Gr. da Gregorii, 1526, 8°. ib., Bindone, 1537. 8°.*

23338 — Valerio Massimo de i detti e fatti memorabili, trad. di latino in toscano da G. Dati. Roma, Ant. Blado, 1539. 8°.

Also, *Ven., Tramessino, 1547. 8°. Ven. 1551. 8°. Ven., Guerra, 1564. 8°. Ven., Vidali, 1573. 8°. Ven., Zaltieri, 1586. 8°. Ven., Spineda, 1605. 8°.*

23339 — Valerio Massimo vulgarizzato da Mch. Battaglia. Treviso, Trento, 1821. 8°. 2 voll.

23340 — Valerius Maximus, transláté de latin en français, par Simon de Hedin et N. de Gonesse. With-

out place or date (about 1476). fol. 2 vols. Gothic letter.

The first edition of this translation, and extremely scarce. In 2 columns with 44 lines, without signatures, catchwords, and numbering of the leaves. The 1st vol. begins with a table of 18 leaves, the 2nd with one of 14.

This work is more an imitation than a translation. It was begun at the command of king Charles V. by Simon de Hedin in 1364, and finished after his death by Gonesse in 1401 or 1405. Consult *Mélanges tirés d'une grande bibl. V. 357. Vallière's Catal. III. 384.* There are many MSS. of it. A very fine one in 2 vols. together in folio (which in the first quarter of the last century was repeatedly offered for sale in Germany) is now in the library of the town-council of Leipsic, another was sold at Selle's first sale (Leipsic, 1737) for 42 dollars.

23341 — Lyon, Mathieu Husz, 1485. large fol. Gothic letter, 2 vols. with woodcuts.

In 2 columns, and with signatures. A reprint of the preceding edition.

23342 — — Lyon, Mathieu Husz, 1489. fol. Gothic letter.

Only sought after by collectors of Aldines, as the work is one of the finest specimens of Aldine printing, but of very insignificant interest in itself. There are no large paper copies.

The best edition of the Italian original. One of the richest, most instructive, and most accurate catalogues existing, and quite indispensable, not only to the bibliographer, but also to the scholar. The duke de Vallière (his librarian was the well known abbé Rive, his adviser the well informed bibliographer Mercier de S. Léger) had conceived the notion of a universal library, and collected not only with respect to scientific works, but also from a feeling of bibliomania. Whilst he was ever on the watch to procure at an uncalculated expense, MSS., *Incunabula*, large paper copies, and rarities of all kinds, and had particular regard to distinguished copies, he at the same time sought to obtain what was best and most interesting in all scientific departments, and collected with a particular love for the department of poetry, the drama, and romances, in which he really possessed a royal treasure. He procured entire the libraries of Guyon de Sardièrre, Bonnemét (1772 for 18,000 livr.), Jackson, and Urfé (only the MSS. and books on vellum from this last); at Gaignat's sale alone he purchased the principal treasures for from 80,600 livr. to 90,000 livr., and his expenditure at Askew's sale amounted to from 12,000 to 15,000 livr. Thus originated this library, equally distinguished for splendour, selection, and appropriate completeness, which at his death comprised 32,205 works, not reckoning volumes.

He had formed a separate catalogue of the most costly articles, and of the greatest rarities the list of which is contained in

the first 3 vols. of the Catalogue. It consisted of 5668 works, and produced at the sale the sum of 464,677 livr. 8 sous. The chief purchasers were the Imperial library at Vienna, and count Reviczky. The catalogue of this cabinet was made by Debure, but the description of the MSS. was by Vanpraet, the then royal librarian. The latter is masterly, and an authority for the history of the older French literature, which cannot be sufficiently regarded. Debure also has employed commendable industry in the description of the most particular rarities among the printed books, for instance the *Incunabula*, and an excellent index increases the value of this first division of the catalogue. Debure has frequently however not given the title itself with the accuracy and completeness which a bibliographer would desire.

The other division of the library consisted of that proper scientific portion which usually occurs (although even in it rarities of a higher order are to be met with), and contained 26,537 works. The catalogue of this part has therefore a more scientific interest than the first division, and is at the same time executed with much greater and almost superfluous bibliographical accuracy, but is unfortunately very inconveniently arranged, and is without an index. This catalogue maintains a particular value on account of the works which it contains having remained together; for this second part of the library was bought entire by the marquis de Paulmy (see *MÉLANGES*, above), and was again purchased in 1785, with the rest of his entire library, by the present king of France (then count d'Artois), and now forms the most considerable part of what is called the *Bibl. de l'Arsenal* at Paris, but which during the republic was styled the *Bibl. du Panthéon*.

There are copies of all the 9 vols. of this catalogue on large paper, but only 12 copies on large paper d'Annonay.

In Ségur's *Mémoires*, I. 147. Vallière is moreover depicted as a mere courtier and his authorship of the *Bibliothèque du théâtre franc.* (see *BIBLIOTHÈQUE*, above, No. 2395) is doubted.

23367 VALLISNIERI, Ant. Opere fisico-mediche. Ven., Coleti, 1733. fol. 3 vols. with plates.

This collection of his entire works was not so much superintended by his son Antonio as by Saverio Quadrio. There are copies on large paper.

23368 VALMEEKI. The Ramayana of ValmEEKI in the original Sungskrit, with a prose translation and explanatory notes by W. Carey

and Joshua Marshman. Vol. I. Serampore, 1806. 4°. (5 guineas).

Of this work, designed to be in 9 vols., only 3 had appeared up to 1810. This 1st vol. was reprinted, Lond. 1808. 8°.

VALPERGA, see DIDYMUS Taurin.

23369 VALTURIUS, Rb. De re militari libri XII. (Veronæ), Johannes ex Verona, 1472. fol. with woodcuts.

The first and scarce edition of a work both interesting for the history of the art of war in the middle ages and affording by the representations of its plates an instructive insight into it. It is at the same time remarkable as being the first Veronese typographical production, and costly on account of the excellence of the 82 woodcuts contained in it, which were probably done after designs by Matteo Pasti, and are the first occurring in a dated Italian typographical production. 259 leaves in all (not reckoning the blank leaves), with 37 lines in a full page, without signatures, catchwords, and numbering of the leaves. The first 4 leaves contain a list of chapters, and leaf 5^a line 1 is, REDO EQUIDEM NEC SUM. Two copies of this edition on vellum are known of (one of them 29l. 18s. 4d. at Sykes's sale).

Concerning the work itself, see Beckmann *Litt. der Reisebeschrr.* I. 252 sq. Denis Garell. *Bibl.* p. 99. Hoyer's *Gesch. der Kriegskunst* B. I. *Zusätze*, p. 7 sq. Concerning MSS. of it, see Bandini *Cat. codd. lat.* II. 373 sq. Muccioli *Catal. bibl. Malatest.* II. 138. A third MS., very fine, and made for king Matthias Corvinus of Hungary, is in the Royal library at Dresden.

23370 — Veronæ (Boninus de Boninis), 13 Febr. 1483. fol. with woodcuts.

This second edition, superintended by P. Ramusio, has different woodcuts from the preceding. 250 leaves, with 27 lines in a full page, with signatures. There is a copy on vellum. New woodcuts are again to be found in the edition, *Par., Ch. Wechel*, 1532 or 34. fol.

23371 — opera de facti e precepti militari, traducta in vulgar (da P. Ramusio.) Verona, Bonin di Boninis, 17 Febr. 1483. fol. with woodcuts.

With 37 lines, and signatures, and with the same woodcuts as in the preceding edition of 1483. Dibdin (*Tour*, III. 514.)

states that he saw in the Imperial library at Vienna an edition of this translation, without place or date. fol., which he ascribes to the Neapolitan printer, Sixtus Riessinger. As yet at least no single bibliographer is acquainted with it.

23372 — le douze livres de Rb. Valturin touchant la discipline militaire, translatez de langue lat. en franç. par L. Meigret. Par., Perrier, 1555. fol. with woodcuts.

VANEGAS, see SAAVEDRA.

23376 VANIER, Jac. Prædium rusticum. Tolosæ, Robertus, 1730. 12°. with plates.

This edition, superintended by the author himself, is one of the best. The fine edition, Par. 1746. 12°. with plates, is extremely incorrect. Par., Barbou, 1774. small 8°. *ib.*, *id.*, 1786. 12°. are also sought after. Translated into French prose by Ant. le Camus, in the *Journal économique*, 1755 and 1756. In French verse by L. Et. Berland (d'Halouvry). Par. 1756. 12°. 2 vols. In German by Bonav. Andres, Würzb. 1788. 8°. 2 vols. (2 d.) Concerning a Hungarian translation, see SZABO, above, No. 22120.

23379 VANPRAET, Jos. (*anon.*) Catalogue des livres imprimés sur vélin de la bibliothèque du Roi. Par., Debure, 1822-28. 8°. 6 parts in 5 vols. (18 d. 12 gr.)—Catalogue des livres imprimés sur vélin, qui se trouvent dans des bibliothèques tant publiques que particulières. *ib.*, *id.*, 1824-28. 8°. 4 voll. (14 d. 21 gr.)

These two works, which belong together, and of which a copy on vellum was struck off without an error, unite bibliographical accuracy, varied and substantial information, and convenient and agreeable form to such a degree, that they are not only quite indispensable to the librarian and bibliographer, but are also a real pattern for successful and profitable occupation with literary treasures of the same kind, which by many a literary stoic have been considered merely as a despicable luxury.

23380 VARANO, Alfonso. Opere poetiche. Parma, stamp. reale, 1789. 12°. 3 voll.

The edition, Ven., Paless, 1795. 8°. 4 vols. is more complete.—*Opere scelte. Mil.* 1818. 8°.

23381 VARCHI, Bd. L' Ercolano, dialogo, nel quale si ragiona delle lingue ed in particolare della toscana e della fiorentina, colla correzione ad esso fatta da L. Castelvetro, e colla Varchina di Girol. Muzio. Padova, Comino, 1744. 8°. 2 voll. Also on large paper and on blue paper.

The best and most complete edition, superintended by Ant. F. Seghezzi. Previously, Fir., Giunti, 1570. 4°. Enlarged, Ven., Giunti, 1570 (new title 1580). 4°. and edited by Bottari, Fir., Tartini, 1730. 4°. This last edition is greatly prized and sought after. The last time, Mil. 1804. 8°. 2 vols.

23382 — sonetti. Fir., Torrentino, 1555-57. 8°. 2 voll.

Both parts are seldom found together. The 2nd has the year 1554 in the title of many copies owing to a misprint. In this collection the *Sonetti spirituali. Fir., Giunti*, 1573. 4°. are not to be found.

23383 — lezioni dette nell' accademia Fiorentina. Fir., Fil. Giunti, 1590. 4°.

The 30 *lezioni*, to be found herein, are very carelessly and incorrectly printed.

23384 — la suocera, commedia (in prosa.) Fir., Sermartelli, 1569. 8°.

23385 — storia fiorentina, nelle quale si contengono l' ultime rivoluzioni della repubbl. fiorentina, e lo stabilimento de' Medici. Colonia, Pt. Martello (*Augsb.*, P. Kühz), 1721. fol.

Fr. Settimani superintended this first edition, of which there are mutilated copies. A complete copy (to which 3 plates belong, viz. a title-plate, the author's portrait, and a genealogical tree of the Medici family) is thus recognised; that in p. 639 and 640 the account of the crime of Pt. L. Farnese against the bishop of Fano is not omitted, that then all the pages of sheet *LIII* contain 51 lines instead of 50, and that a small printer's mark is to be found at the end of p. 640. In the mutilated copies the history ends in p. 639 with a large printer's mark underneath. Some originally mutilated copies have been completed by a later reprint of this last leaf; but this reprint may easily be recognised by the difference of type, and from the circumstance of there being no printer's mark in p. 640. A contemporaneous notice in *J. Gli. Krausii nov. literar.*, not unworthy of credit, states that the duke of Parma bought 400 copies of the impression to destroy the recollection of that crime.

The edition, *Leida*, Pt. *van der Aa*, without date (1723). fol. (also appended to the *Thesaur. antiq. et hist. ital.* T. 8. P. 2.) contains indeed that account complete, but it is very incorrectly printed. The newest edition is, *Mil.* 1803. 8°. 5 vols. Translated into French by Requier, *Par.* 1765. 12°. 3 vols.—*And. Majer Della lingua commune d' Italia e della storia fior. di Bd. Varchi.* Ven. 1822. 8°. Several of Varchi's writings previously unprinted are in, *Opuscoli scientifici e letterarij* (Fir. 1807 sq. 8°.) T. 1, 2, 4, 5, 8, 11 and 12.

23387 VARRO, M. Terentius. De lingua latina libri VI. Without place or date (*Romæ*, G. Lauer, about 1471). large 4°.

Probably the first edition, superintended by Pomp. Lætus, and printed with the same types as Lauer's *Eutropius* and *Curtius* of 1471. 82 (not 81) leaves with 32 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a line 1 is, (P)OMPONIUS. PLATINAE. s. After this letter follows an alphabetical index, and the text of Varro begins in leaf 10^a. A colophon in 6 lines, *Finis ejus quod invenitur &c.* ends the work in leaf 82^a. It is one of the earliest productions of Lauer's press, and vacant spaces are left for the Greek passages. Lauer's *FESTUS* (No. 7496 above) properly belongs to this edition. Concerning Lauer's *Nonius*, see *NONIUS*, No. 14848.

23388 — — Without place or date (*Ven.*, about 1472). 4°.

A reprint of the preceding edition. 79 leaves with 32 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a line 1 is, (P)OMPONIUS PLATINAE SALVTEM. The alphabetical index of the preceding edition follows this letter; the text begins in leaf 10^a, and the colophon is likewise the same as in the preceding edition. The types are the same as in the *editio princeps* of *HORATIUS* (No. 10118, above).

23389 — — Without place or date (*Ven.*, J. de Colonia et J. Manthen, 24 Dec. 1474). 4°.

Likewise a reprint merely of the *editio princeps*. *Festus* belongs essentially to it (see *FESTUS*, No. 7497). Both works together have the signatures *a*, *a-k*, and *a-l*, and 29 lines. The letter of Lætus and the alphabetical index precede Varro. The text itself commences in leaf 11^a, and at the end is the same undated colophon as in both the preceding editions. *Festus* follows the Varro, with a dated colophon. Vacant spaces are left for the Greek passages.

23390 — — Without place or date (*Romæ*, G. Sachselt et Bm. Golsch, about 1474). fol.

57 leaves with 35 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a line 1 is, M. T. VARRO. DE. LINGVA. LATINA. The last line of leaf 56^b is, *Finis ejus quod invenitur Marci Varronis*. The Greek passages are wanting. The edition was superintended by Ang. Tiphernas, and the text of Lætus forms the basis, but corrected from a good MS.

and from conjecture. At the end there ought also to be a leaf with a letter of the editor and a *Vita Varronis*, which is wanting in the copies hitherto described, but is to be found in the copy in the Royal Library at Munich.

After this Varro has for a long time been only printed with other grammarians, see above, GRAMMATICI, No. 8780-83.

23391 — quæ supersunt ex libro, quem de lingua lat. ac verbor. origine conscripsit, fragmenta. Ejusd. de analogia libri III. quos nitori pristino restituendos curavit Mch. Bentinus. Par., Colinæus, 1529. 8°.

It appears to be only a reprint of the edition to be found with Perottus (*Ven., Ald.*, 1527. fol.)

23392 — de lingua lat. libri III. et totidem de analogia, cum castigatt. Mch. Bentini. Acc. M. Portii Catonis originum liber unus. Par., ap. collegium Sorbonæ, 1530. 8°.

23393 — pars librorum XXIV. de lingua lat. Ex bibl. Ant. Augustini. Romæ; ap. Vinc. Luchinum (*impr. Ant. Bladus*), 1557. 8°.

12 leaves of preliminary matter, 211 pages, and 72 unnumbered leaves, indices and colophon. Printed again in *Ant. Augustini Opp.* VII. 425-524. A new recension from MSS. and acute conjectures of the editor; it contains much that is good, but is more injured than improved by having Varro's peculiar ancient phraseology removed, and the ordinary forms substituted in its place. The edition is moreover scarce, and sought after, but is very incorrectly printed.

23394 — pars libror. XXIV. de lingua lat. M. Vertranius Maurus recensuit. Additis indicibus fidiissimis et amplissimis. Lugd., her. Seb. Gryphii, 1563. 8°.

330 pages and 47 leaves of index. In p. 173 is a separate title; *M. Vertranii Mauri libellus. De vita M. Varronis. Deque notis ad ejus libros de lingua latina*. The text of the preceding edition forms the basis, sometimes altered from conjecture. MSS. were not made use of, although the editor pretends that they were. But his notes are not without learning.

The next thing that was done for Varro was, *Jos. Scaligeri Conjectanea in M. T. Varronem de lingua lat. Par., Rb. Stephanus*, 1565. 8°. *Adr. Turnebi Commen-*

tarii et emendatt. in libros Varronis de lingua lat. Par., And. Wechel, 1566. 8°.

23395 — opera, quæ supersunt. In lib. de ling. lat. conjectanea Jos. Scaligeri, recognita et appendice aucta. In libros de re rust. notæ ejusd. Jos. Scal. non antea editæ. His adjuncti fuerunt Adr. Turnebi comment. in lib. de ling. lat., cum emendatt. Ant. Augustini. Item Pt. Vittorii castigatt. in libros de re rust. Exc. H. Stephanus, 1573. 8°.

2 leaves of preliminary matter, 160 pages, *Varro de ling. lat.*; 39 leaves, *index*; 151 pages, *Varro de re rust.*; 9 leaves, *index*; 276 pages, *Scaligeri conjectanea*; 12 leaves, *index*; 176 pages, *Turnebi et Augustini emendatt.*; 6 leaves, *index*; 98 pages, *Vittorii explicatt.*—The text is a careful and correct impression of the Augustinian edition. In this edition (in Scaliger's notes, p. 212.) the well-known verses, *Here, si querelis* etc., which Scaliger ascribed to an ancient poet Trabeus, are to be found. It is particularly sought after in France.

23396 — — (*Ap. H. Stephanum*) 1581. 8°.

A reprint of the preceding, with some corrections. To it and to the foregoing is to be added, *Ad M. T. Varronis assertiones analogiæ sermonis latini, appendix H. Stephani. Item Jul. Cæs. Scaligeri de eadem disputatio doctissima. Exc. H. Stephanus*, 1591. 8°.

23397 — opera quæ supersunt. In libros de lingua lat. conjectanea Jos. Scaligeri. In libros de re rust. notæ ejusd. Alia in eundem scriptorem Turnebi, Augustini et Vittorii. Ed. ultima recogn. et aucta. Par., Cl. Baaleu (other copies, *J. Gueffier*), 1585. 8°.

Merely a reprint of Stephens's edition, without even a new title.

23398 — fragmenta M. Terentii Varronis satyrar. Menippear., logistoricorum, περιπλου φιλοσοφίας, Pro methei, de philosophia. Edente et recensente Ausonio Popma. Ejusd. Ausonii in eadem conjectanea. Franek., Æg. Radæus, c19. 10. 1xc (1591). 8°.

2 leaves of preliminary matter and 241 pages. Might not the often cited edition, 6 K 3

ib., *id.*, 1589. 8°. probably only rest on an incorrect reading of the above date?

- 23399 — *operum, quæ exstant, nova editio. Edente et recensente Ausonio Popma. Ejusd. Ausonii in eadem notæ et conjectanea. (LB.).* Cp. Raphaelengius, 1601. 8°.

8 leaves of preliminary matter, 731 pages, and 1 leaf with the text of Augustinus, very incorrectly printed. In the notes of Popmas what is best is copied from others, his own contributions are insignificant.

- 23400 — *de lingua lat. ex rec. Casp. Scioppii. Ingolst. 1605. 8°.*

A new and excellent recension from MSS., but which appears to be owing more to Fulv. Ursinus than to Scioppius. Also, *ib.* 1602. 12°. Both editions are very scarce even in Germany.

Amst., Janssons, 1623. 8°. is only a new title. A reprint of Stephens's edition. It is sought after for the series of editions *cum notis variorum*.

- 23405 *VASARI, G. Le vite de' più eccellenti pittori, architetti e scultori italiani da Cimabue sino ai tempi nostri. Fir., Torrentino, 1550. 4°.* 3 parts in 2 vols.

The first edition, very scarce and fine, less complete indeed than the following, but possessing peculiar value from its containing an interesting work in its original form, and prior to its subsequent revision. It consequently bears a high price even in Italy.

- 23406 — *vite de' più eccellenti pittori, scultori e architettori, di nuovo dal medesimo riviste et ampliate, con i ritratti loro, e con l'aggiunta delle vite de' vivi e de' morti dall'anno 1550 insino al 1567. Fir., i Giunti, 1568. 4°.* 3 vols. with woodcuts.

The 1st and 2nd parts form the 1st vol., and the 3d part forms the other 2 vols. There is a large-paper copy at Florence. The second original edition and enlarged, and still more sought after by many collectors than any of the more recent editions. At the same time it is full of errors in the language, in the names, and in the dates. Some copies have some slight differences in the arrangement of the title. The editions, *Bol. 1647 or 1681. 4°.* 3 vols. are not prized.

23407 — vite de' più eccellenti pittori, scultori ed architetti, corrette da molti errori ed illustrate con note. Roma, Pagliarini, 1759-60. 4°. 3 vols. with plates.

There are also copies on large paper in fol. This edition is greatly prized on account of the very valuable notes by Gi. Bottari (who superintended the edition) and by Mariette, and the portraits are in part engraved in a masterly style by Bartolozzi.

23408 — — Edizione arricchita di note. Livorno, 1767-72. 7 vols. with plates.

The portraits are bad enough, and the new appended notes are of little importance. There are copies on large paper in 4°.

23433 VEGETIUS, Flavius. Epitoma de re militari. Without place or date (*Ultraj., Ketelaer et Leempt,* about 1473). fol. Gothic letter.

55 leaves with 31 lines, without signatures, catchwords, and numbering of the leaves. Probably the first edition, and extremely scarce. Leaf 1^a line 1 is, *Flavii vedati (sic) renati viri illustris. Epitoma de re.* The first 3 leaves contain an advertisement, and a table of contents. The work itself begins in leaf 4^a, and leaf 55^b is the colophon (in 2 lines). A copy of this edition is in M. Nagler's library at Berlin.

38 leaves in 2 columns, with 38 lines in a full page, without signatures, catchwords, and numbering of the leaves. Leaf 1^a col. 1 begins with a superscription of 5 lines, the 1st of which is, *Flavii vegetij renati viri illustris.* The last or 37th line of leaf 38^b. col. 2 is, *Doctrina monstraverat.* Underneath are the letters, *N. : . G.* which signify the name of the printer. According to Dibdin there ought to be, *N. : . E. A.*, but *E* is a misprint, and the *A* is not in the Wolfenbüttel copy at least.

23436 — Vegetii epitoma institutorum rei militaris. Romæ, Euchar. Silber, 4 cal. Febr. 1487. 4°. 58 leaves. Æliani de instituendis aciebus opus. ib., id., 15 cal. Altogether 140 leaves, without signatures, catchwords, and numbering of the leaves. All the 4 pieces belong together and form the first collected edition of the *Scriptores rei militaris*. Sulpicius Verulanus was the editor.—A new impression of the same, enlarged with Onosander's Latin translation, appeared, *ib., id.*, 1494. 4°.

23437 — epitoma rei militaris, libri numero IV. Piscie, Sigism. Rodt de Bitsche, 4 non. April. 1488. fol. Gothic letter.

4 leaves of preliminary matter and 279 pages. Budæus himself was the originator of this valuable edition. The neat woodcuts, which are appended, relate not so much to Vegetius as to Valturius. This edition is, page for page and line for line, faithfully repeated (yet really printed anew, but with the omission of the preliminary matter of the earlier edition), *Par., Ch. Wechel*, 1553. fol. with the same woodcuts (1 leaf, with the title, and 279 pages).—*Par., Ch. Wechel*, 1535. 8°. is likewise a faithful impression (with entirely the same title, but without woodcuts).

Vegetius is here corrected from 8 MSS. This edition is as valuable as it is indispensable, since its entire contents are not repeated in the subsequent editions.

23446 — Vegetii et Frontini de re militari opera. Ex rec. Pt. Scriverii. Acc. alia ejusd. argumenti veterum scripta. LB., Maire, 1633 or 44. 12°.

nati kurze red von der Ritterschafft zu dē grossmechtigosten kaiser Theodosio seiner biecher vierer (übs. von Ludw. Hohenwang von Tal Elchingen.) Without place or date (*Ulm, J. Zainer, about 1475*). small fol.

108 leaves, with 31 lines in a full page, without signatures, catchwords, and numbering of the leaves. The 1st leaf contains the translator's dedication to John count of Lupffen, landgrave of Stielingen, and lord of Hewen, and leaf 1^a line 1 is, *Dem wolgebornen herren Johansen Grauen.* A list of the chapters begins in leaf 2^a, which commences with the superscription, cited above, and ends in leaf 5^b. The translation of Vegetius begins in leaf 6^a, and the 1st line is, (V)Or allen seiten ist gewesen die gewonheit. The 2nd book begins in leaf 19^a, the 3d in 32^a, and the 4th in 59^a; and this ends in 75^a. In 75^b follows an explanation of the Latin words, which ends in 76^b. From leaf 77 onward, 32 leaves with woodcuts of the size of the entire page end the work. The last or 108th leaf is blank on the reverse. It is remarkable that throughout the entire book not the slightest trace of a paper-mark is to be discovered.

This extremely scarce translation is really made from the Latin, and so literally faithful, that in many places it cannot be understood without the Latin original. It is however very remarkable; in one respect with regard to language, because it is an original document of the Suabian dialect, as it was at that time commonly spoken (not as used in composition). Next, it may be observed in every line, that the translator, who probably was not much a man of the pen, speaks the language of the day. But this translation has also an historical value, as it proves to us how the German chivalry of that period felt the necessity of no longer depending on a trusty sword, but on systematically learning and carrying on the art of war. In the preface of the work there is no mention of a rude murder or devastation, but of the preservation of life and the pursuit of victory, of the protection and prosperity of the country, and of the arts and stratagems of war conducive to these objects, proving an alteration in German warfare which must necessarily have been introduced after the discovery of gunpowder, and which prepared the way for the subsequent complicated idea of a German public peace—facts not to be overlooked in any future history of German civilization. It is a pity that we know nothing more intimately respecting Hohen-

wang. He appears to have been a vassal of the count of Laufen (now in the territory of Württemberg), and had so much polite deference, that after he had translated the words *miles, tiro, and militis*, by knights and knight-errantry, he gives this explanation in the dedication; *Wa ir vident in diesen biecher Ritter oder ritterschafft soll ir verstan reitery vnd reitler. die allweg der Ritterschafft in dienst als irē herrē betwonend. vnd leib vnd hab mit in seigend.*

The similitude of the types to those of Günther and John Zainer would moreover make it doubtful whether this work was printed at Augsburg or Ulm, if the greater nearness of Elchingen, the translator's place of residence, did not seem to speak more in favour of Ulm. The translation itself, which scarcely appeared later than 1475, could hardly have been prepared from a printed edition, and was perhaps made from a MS., and Stewechius accordingly cites it among his critical sources. It almost appears that this MS. had been furnished with pictorial representations, as Hohenwang says in leaf 2^a, *Wann aber mangerlai gerist. bolwerck. vnd gebeu. in dē vierden buch begriffen ist. Vnd kain sach gäcz klarlich durch bedeutnuss der wort als durch saigen ains monsters begriffen beschriben vnd bedevt mag werden. darumb hab ich das funft buch gesezet mit figuren dar zu gehoerend vnd soliche vssweisen.* That these representations were taken from Valturius cannot be maintained with certainty, as this work had only shortly before appeared for the first time. It is more probable, on the contrary, that they were extracted from some older military work, unknown to us. They are, as to the rest, engraved with uncommon neatness and force, and even give to the work a peculiar value as a work of art.

23456 — Flauii. Uegetii. Renati vier bucher der Rytterschafft. zu dē allerdurchleuchtigesten grossmechtigestē furstē vnd hern hern Maximilian Romischē Keyser 11. geschribē. mit mächerleyen gerystē. bolwerckenn. vnd gebeuwen. zu krygszleufftē gehorick. mit yrenn mosternnn. vnd figuren daneben verzeychent. Erfurt, durch Hans Knappen, 1511. fol. with woodcuts.

90 leaves with the signatures A-P, in 2 columns. The end of the text with the colophon, is in leaf 75^b or signature M 5^b. The translation, the author of which is unknown, is new, although the previous translation has evidently been consulted in it. What is stated in the preface to the

3rd book, that the work was abbreviated at the command of the emperor Maximilian (*Panzer Suppl. zu den deutschen Annalen*, p. 121), is a mistake. The passage is a literal translation of the Latin original, *abbreviare jussisti*. The entire number of the excellent representations, engraved on wood, is 121, all of the size of the entire page; a very small portion of them however relate to Vegetius. A monogram, *P. V. M.* is only to be found in the first woodcut (leaf 2^b), which represents a warrior at full length. Of the pretended monograms, *M. S.* and *H. K.* (see Panzer and others) there is at least no trace in the Dresden copy.

There is also a later and separate impression of the woodcuts which have served for this edition, without any text or title, but in which they have been increased with several others far inferior. 98 leaves in folio in all, with the signatures *A-Q*, and the pagination 1-195. The number of representations is also 195. The signatures relating to the plates, which had already been used in the edition above described, are still to be found on them.

23457 — *Fl. Vegetii Renati vier Bücher der Ritterschafft, zu dem allerdurchleuchtigsten verzeychnet.* (As in the preceding title.) Mit einem zusatz, von Büchsengeschoss, Puluer, Fewrwerck, Auff ain newes gemeeret vnnd gebessert. Augsp., H. Stainer, 1529. fol. with woodcuts.

100 unnumbered leaves in 2 columns. A literal reprint of the preceding translation, with bad representations, re-engraved from the same. It was repeated, *ib.*, *id.*, 1534. fol. with increased woodcuts, and with the omission of the treatise concerning fire arms, but in other respects unaltered.—There is also a translation of Vegetius in *J. - 23470 VELLEJUS Paterculus, C. *Historiæ Romanæ duo volumina*, per Beat. Rhenanum ab interitu utcunque vindicata. Bas., J. Frobenius, m. Nov. 1520. fol.

The first edition, prepared from the only known MS. which was formerly in the monastery of Murbach in Alsacia, but has since disappeared without a trace of it remaining. At the end of the book there ought to be 6 leaves with the signature G, which contain a more accurate and extremely valuable new collation of the Murbach MS. by J. Alb. Bûrer, and with the printer's symbol. At Roscoe's sale this edition, which serves instead of the MS. was sold for 7l. There are copies of it, in which single leaves at least have been reprinted, see *Ruhnkenius*, II. 67 and 68. There is a more free recension of the text, partly after Bûrer's collation and partly from conjecture with *Justinus*. *Flor., Junta*, 1525. 8°.

- 23471 — Avenione, Ant. Bonhomme, 1532. fol.

This edition, the existence of which is

placed beyond doubt by the various readings quoted from it by Schegkianus, is now nowhere to be found, not even in the Royal library at Paris.

- 23472 — *historiæ Romanæ libri II. ab Aldo Manutio emendati et scholiis illustrati*. Ven., ex ædib. Manutianis, 1571. 8°.

143 pages and 36 leaves. A bold and thoughtless construction of the text.

- 23473 — *historiæ Romanæ libri II. cur. Jac. Schegkio. Ff. a. M., J. Wechel*, 1589. 12°.

A very scarce edition and at the same time the first which, in opposition to Manutius, reverted to the text of the *editio princeps*. Schegkianus at the same time made use of the edition which had appeared at Avignon.

- 23474 — *hist. Rom. libri II. cura Val. Acidalii. Additus ejusd. Vellejanar. lectionum liber*. Patav., P. Mejetius, 1590. 8°.

A new revision, in which the text of Schegkianus forms the basis. Just. Lipsius gave another new one, *LB.* 1591. 8°. and afresh, with his Tacitus, *Antw.* 1600. 4°. with which work his Velleius has since often appeared.

- 23475 — *Vellejus cum notis Ger. Vossii. LB., ex off. Elzevir.*, 1639. 12°.

Previously, *ib., id.*, 1653. 8°. Also, *ib.* 1668. 8°. Of some value only for the series of the older editions *cum notis variorum*.

- 23477 — *hist. Rom. libri II. Interpretatione et notis illustravit Rb. Riguez, in us. Delphini. Par., Leonard*, 1675. 4°.

- 23478 — *quæ supersunt. N. Heinsius recensuit et castigationum libellum addidit. Amst., ex off. Elzevir.*, 1678. 12°.

A clever construction of the text, but too bold, and framed too much according to the analogy of poetical language.

The pretended *Ed. II. auctior. Rot., Beman*, 1756. 8°. is only a new title. Previously, *LB., Luchtmans*, 1719. 8°. More exegetically than critically important. The editions, by J. F. Gruner, *Coburgi*, 1762. 8°, and (by Lallemand), *Par., Barbou*, 1777. 12°, are also not without value.

23482 — quæ supersunt ex historiæ Rom. voluminibus duobus, cum integris animadvv. doctor., curante D. Ruhnkenio. LB., Luchtmans, 1779. 8°. 2 voll. (4 d.)

39 leaves with the signatures a-e. This *moralité*, printed about 1540 and not hitherto mentioned in any history of the French theatre, is very scarce. It is written in favour of protestants against the Roman catholic church, and is probably one of the first French defences of the doctrines of protestantism. 23537 VESALIUS, And. De humani corporis fabrica libri VII. Bas., Oporinus, m. Jan. 1543. fol. with woodcuts.

The first edition of this work which forms an epoch in the history of anatomy. The dedication copy on vellum is to be found in the University library at Louvain. The woodcuts are excellent. Douglas and Boerhaave thought that the woodcuts of the 2nd edition, *Bas.*, Oporinus, m. Aug. 1555. fol. differed from those in the 1st edition and were inferior; but Möhsen in his *Verzeichn. einer Samml. von Bildnissen*, p. 81, proves that the 2nd edition is the best, inasmuch as not only are the woodcuts the same and equally fine, and the text augmented, but also because some smaller new representations are also added. The designs are said to have been prepared by Titian (? perhaps more correctly by J. Stephanus); Joh. von Calcar was the en-

graver on wood (not Cp. Coriolanus, which is even chronologically improbable). The edition, *Ven., Fr. Senensis*, 1568. fol. which is likewise fine, has woodcuts by Giov. Criegher (Krüger) of Pomerania. — In German, *Nrb.* 1551. fol. with woodcuts. *Zür.* 1575. fol. with woodcuts. *Augsb.* 1706. fol. with plates.

Vesalii epitome libror. de hum. corp. fabrica. *Bas., Oporinus*, 1543. fol. with 9 woodcuts, is far more scarce than the principal work, in which the 5 myological woodcuts, to be found in the epitome, are wanting. This epitome also appeared, *Antw., Plantinus*, 1579. 4°. with woodcuts.

- 23538 — opera omnia anatomica et chirurgica, cura Hm. Boerhaave et Bn. Sgfr. Albini. *LB., Vivie*, 1725. fol. 2 vols. with plates. Also on large paper.

A tous bons et vrayz crestiens soit ce petit liure presente.* In the 2nd col. of the same page the work itself commences; *Audiens sapiens sapientior erit questio prima. Ces parolles que iay proposees sont escriptes etc.*

In the Wolfenbüttel copy of this extremely scarce edition, which is noticed by no French bibliographer, the following piece belonging to it, and printed with the same types, is bound up with it, *La destruction de iherusalem: et comment pylate fina ses iours malleuseusement* (sic), without place or date (with the symbol of the printer Arnoullet), fol. It begins, *Après quarante ans que nostre saulueur ihūcris fut mys en l'arbre de la croiz.*

The following is probably the first edition of this work; *Vie de nostre benoist sauveur Jésus Christ.* Lyon, 1488. 4°. Gothic

The *Canon mathematicus*, Par. 1579. fol. is wanting in this fine and scarce edition (because this original edition is extremely faulty in the figures, on which account it is also said to have been suppressed by the author himself), and also the *Harmonicum caeleste*, which was to follow with other pieces.

23592 VILLANI, Gi. Storia (fino al 1348), nuovamente corretta e

alla sua vera lezione ridotta, col riscontro di testi antichi. Fir., Giunti, 1587. 4°.

The first edition under the title, *Croniche. Ven., Zanetti, 1537. fol.* contains only 10 books, and only goes as far as 1338. The 11th and 12th books appeared under the title, *La seconda parte della chronica universale. Fir., Torrentino (1554). 8°.* The 2nd edition, *Ven., Giunti, 1559. 4°.* contains all the 12 books corrected from MSS., and with notes by Remigio (Nannini) Fiorentino, but is very incorrect. The above 3d edition, which was superintended by Baccio Valori, is cited by the academy della Crusca, and is greatly sought after in Italy.

23593 — istoria di Matteo VILLANI. Che continua quelle di Giovanni suo fratello. Ven., Giunti, 1581. 4°.

Only the 1st part, or the 1st 4 books of this continuation appeared at first, *Fir., Torrentino, 1554. 8°.* Afterwards the first 8 books, and the 9th as far as the 86th chapter appeared, *Ven., Giunti, 1562. 4°.* The above 3d edition is only a reprint of the 2nd.

23594 — della historia di Matteo Villani li tre ultimi libri. Con un aggiunta di Fil. Villani sino al 1364. Fir., Giunti, 1577. 4°.

This 2nd continuation was reprinted, *ib., 1596. 4°.*—The 3 preceding numbers necessarily belong together, and form the original edition of Villani's chronicle, which is still the most sought after.

23595 — le storie (fiorentine) di Gi., Matt. e Fil. Villani, riscontrate e notabilmente corrette sopra tre manoscritti. Mil. 1729. fol. 2 voll.

This edition properly forms the 13th and 14th vols. of *Muratori Scriptt. rer. Ital.*, but was also published by itself with separate title-pages. It contains important augmentations and completions from MSS., but was nevertheless not carefully enough superintended. The Florentines at least maintain that it contains a corrupted text; see *Antologia, T. II. Fir. 1821. 8°.* p. 304.—The edition, *Mil. 1802-3. 8°.* 8 voll. is very negligently done.

Vols. 6-10 of this interesting work are also already printed, but durst not be sold in Madrid in 1825, because the author was a member of the Cortes, and a person of liberal opinions. 23600 — las eroticas y traduccion de Boecio. Madr., Sancha, 1774. 8°. 2 voll. Also, ib., id., 1797. 8°. 2 voll. (20 rees.)

23601 VILLEHARDOUIN, Gf. de. Histoire de l'empire de Constantinople sous les empereurs françois, revue et corrigée sur le MS. de la bibl. du roi et illustrée d'observations historiques et d'un glossaire par Charl. du Fresne. Par., impr. roy., 1657. fol.

This edition belongs to the *Corpus hist. Byz.* (see *BYZANTINA* above, No. 26), is very scarce on large paper, and was completely reprinted, Ven., Javarina, 1729. fol. Brial gave a new and careful edition of this work, (important not only on account of its accuracy, and the dependance that may be placed on it, but also as being one

of the oldest specimens of French prose,) in *Bouquet's Scriptt. rer. Gall.* T. 18. p. 431-491, after 3 MSS. in the Royal library at Paris, only one of which had hitherto been made use of. One of these MSS. contains a continuation, here printed for the first time, p. 491-514, which appears to have been written 100 years later than Villehardouin. The work is also reprinted in the new edition of the *Collection des mémoires relatifs à l'hist. de France*. The earlier editions were, Par. 1584. 4°, and Lyon, 1601. fol.

23604 VILLON, Fr. Le grand testament Villon et le petit, son codicille, le jargon et ses ballades. Par., without the printer's name, 1489. small 4°. Gothic letter, with woodcuts.

The first edition of his poems, and extremely scarce, which have often been printed at Paris under the same title, but without any date. The *Œuvres*. Par., Galot du Pré, 1532. 16°. are more complete, but faultily and badly arranged, and there are pieces admitted into this edition which were not written by Villon, for instance, *Les repues franches*. Clém. Marot prepared the first critical and correct edition, Par., Galot du Pré, 1533. 16°. and often. There are copies on vellum of the more recent edition, Par., Coustelier, 1723. 8°.

In this work, the earlier preceding editions of the *Periplus* of Nearchus and Arrian are combined. Also, *Lond.* 1809. 8°. 3 vols.

23612 VINCENTIUS Bellovacensis. *Speculum quadruplex, naturale, doctrinale, morale et historiale*. (Arg.). J. Mentelin, 1473–76. large fol. 7 voll.

A very scarce, and the only useful original, edition of this interesting and important encyclopedia of the middle ages, which however must be very cautiously used for critical purposes (see Beckmann's *Vorrath kleiner Anmerk.* II. 268). Consult concerning it, (*Weller*) *Altes aus allen Theilen der Geschichte*, St. 2. p. 226–234. *Eckhardt Nachr. von seinen Büchern der Bibl. zu Eisenach*, p. 31 sq. 42 sq. 64 sq. *Hager's Geograph. The copies still to be found in the original binding are usually in 7 vols. viz. the *Spec. doctrin.* in 1 vol. and the other three in 2 vols. each. But the *Spec. Historiale* is also sometimes to be met with in 4 vols. as it also was originally divided by the printer. Then the entire number of vols. extends to 9.

Speculum naturale, with 66 lines in 2 columns, without signatures, catchwords, and numbering of the leaves. Vol. I. (lib. 1–18) contains 318 leaves, the first 21 leaves of which contain the prologue and the list of chapters. Vol. II. (lib. 19–33) contains 327 leaves, the first 8 of which contain the list of chapters, and the last leaf thus ends on the reverse in the 1st column and 27th line, *rials. ppatescunt. Amen*. This part has no specification of printer or date.

Speculum doctrinale, with 67 lines in 2 columns, without signatures, catchwords, and numbering of the leaves. 400 leaves altogether, the first 15 of which contain the prologue and a list of chapters. Leaf 400a column 2, the last or 60th line is, *in quo et agnus abulet et elephas natet*. This part also has no mention of printer or date.—There is a second impression of it with the same types and likewise of 400 leaves, which can most easily be distinguished by the 60th or last line of leaf 400a col. 2 being *et altus in quo et agnus ambulet et elephas natet*.

Speculum morale, 474 leaves in all, with 62 lines in 2 columns, without signatures, catchwords, and numbering of the leaves, the first 3 leaves of which contain an index. The last or 14th line of leaf 473b col. 2 is, *secula benedictus deus*, followed in leaf 474 by a chapter *de virginitate*. The vol. ends without specification of printer and date.—But in other copies of the same edition a colophon is to be found in leaf 473b, which has this statement: *impressum in inclyta urbe Argentiniensium per J. Mentelin 1476 die m. Novembr. nona*.

Speculum historiale. There are also two impressions of this, one undated and one dated. The undated impression contains 67 lines in 2 columns, without signatures, catchwords, and numbering of the leaves; and the following is the collation of it: vol. I. (lib. 1–8) 155 leaves, the first 25 of

which contain an alphabetical index, the prologue, and a list of chapters: vol. II. (lib. 9-16) 176 leaves, the first 3 of which are a list of the chapters. Vol. III. (lib. 17-24) 175 leaves. Vol. IV. (lib. 25-32) 191 leaves. The colophon of each vol. is printed in small characters, and that of the 4th vol. is, *Speculum vincentij historie explicii*.

The dated impression of the *Spec. hist.* contains 62 lines in 2 columns, without signatures, catchwords, and numbering of the leaves. Vol. I. (lib. 1-8) 168 leaves, the first 2 of which contain an alphabetical index of the 1st book. Vol. II. (lib. 9-16) 204 leaves, the first 3 of which are a table of contents. Vol. III. (lib. 17-24) 201 leaves, the first 2 of which are likewise a table of contents. Vol. IV. (lib. 25-32) 213 leaves. J. Mentelin is mentioned in the colophons of each vol. which are printed in small capitals, and at the end of the 4th vol. is the following colophon: *Explicit speculum historiale fratris Vincencii ordinis predicatorum impressum per Johannem Mentellin anno domini millesimo quadringentesimo septuagesimo tercio (1473) quarta die Decembris*.

The dated impressions here cited have a peculiar historical value, because (with the exception of *Augustinus De doctrina christi*.) they are the only ones in which Mentelin is named and a date is added. In the mean time it ought to be more closely investigated whether the undated impressions have also on the whole proceeded from him. As to the rest, there is a copy of the *Speculum naturale* on vellum in the Royal library at Paris.

23613 — *speculum historiale*. Without place (*Aug. Vind., monaster. S. Udalrici et Afræ*). 1474. fol. 3 voll.

With 52 lines in 2 columns, without signatures, catchwords, and numbering of the leaves. Vol. I. (lib. 1-10) 336 leaves, vol. II. (lib. 11-21) 331 leaves, and vol. III. (lib. 22-32) 371 leaves. Of this very scarce edition there is a copy on vellum which the Public library of Augsburg sold in 1798 to the Russian count de Golowkin.

The most recent edition of the *Specula* collectively, *Duaci*, 1624. fol. 4 parts in 3 vols. has only the merit of being somewhat more easily procured. It is quite unfit for any profound critical or historical use.

23614 — *miroir historial* (trad. par J. de Vignay). Par., Vêrard, 1495-96. fol. Gothic letter, 5 vols. with woodcuts.

The first and very scarce edition of this translation (concerning it see *Mélanges*

tirés d'une gr. bibl. V. 265 etc.), two copies of which on vellum are known. Repeated, Par., N. Couteau, 1531. fol. Gothic letter. — The following is a Dutch translation: *Den Spiegel historiel. Antw., Claes de Graue*, 1515. fol. with woodcuts.

23615 — *liber de eruditione filiorum regalium*. Without place or date (*Rostoch., fratres domus viridis horti*, about 1476). fol. Gothic letter.

With 40 lines in 2 columns: printed with the types of the Rostock Lactantius of 1476. In German, *Hand- und Lehrbuch für königl. Prinzen und ihre Lehrer, von F. Cp. Schlotzer. Ff. a. M.*, 1819. 8°. 2 vols. (2 d.)

Vincentius is here only printed from the 2nd edition by St. Baluzius (*Par.* 1669. 8°), and the editor's own notes are insignificant. The impression in *Gallandi Bibl. PP.* X. 103-121, is at least made after the 3rd edition by Baluzius (*Par.* 1684. 8°) and is furnished with Baluzius's notes. — *Commenitorium. Ed. nova cum notis e St. Baluzio selectis. The first edition and fine, but made from a faulty MS. The plates, of which this edition contains the first impressions, are by R. Lochon. *Nap., Ricciardo*, 1773. fol. with plates (also on large paper), and *Bol.* 1786. fol. with plates, are esteemed reprints.

The translation is unfaithful, and the engravings are subsequent impressions from those plates which had been already made use of in the Italian edition of 1651. This translation was repeated, *Par.* 1716. 12°. with plates, *ib.* 1796. 8°. with plates, and with a commentary by P. M. Gault de St. Germain, *Par.* 1803. 8°. with 44 plates (9 fr.)

An esteemed Hungarian poet, whose odes are particularly celebrated.

23632 VIRGILIUS Maro, Publ. 1. *Opera*. Opera et catalecta. Romæ, Cr. Sweynheym et Arn. Panartz, without date (1469). small fol.

Probably the first edition of Virgil, and very scarce. It is undated, but could not have been printed after 1469, since the superintendent of it, the bishop Joh. Andreas de Aleria has remarked in the dedication prefixed to it, that Virgil was the first Latin poet which this printing establishment published. Now Lucan appeared from the same press in 1469. The critical value of this edition can only be trifling, as the editor does not appear to have been provided with particu-

larly good MSS. Only 6 copies of it are known.

197 leaves in all (reckoning the *Priapeia*), with 38 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a begins with the bishop of Aleria's dedication to Paul II. (E) *Loquētie splēdore: & rerū dignitate: locupletiorē*. In leaf 2^b there is a table of contents. The *Catalecta* begin in leaf 3^a, and the 1st line is, (L) *Veniſmus Octaviu gracili modulante Thalia*. They end in leaf 14 and between this and leaf 15 there is a blank leaf. The commencement of the Eclogues is in leaf 15^a, and the 1st line is, (T) *Illyre tu patule re-cubans*. The commencement of the Georgics is in leaf 26^a, and the 1st line is, (Q) *Vid faciat latus segetes*. The commencement of the *Æneid* is in leaf 55^b, which ends in leaf 188^a with the line, FINIS. *ÆNEIDOS*. Some small poems concerning Virgil follow in leaf 189^a, and the colophon in 8 verses, *Aspicis illustris lector* etc. is to be found in leaf 192. Then follow the *Priapeia* on 5 leaves. These 5 leaves appear to have been subsequently printed and appended afterwards, as they are only to be found in about half of the known copies.

23633 — opera. Without place or date (*Arg. Mentelin*, about 1469). fol. Gothic letter.

This edition is not inferior to the preceding in rarity, and is printed from another MS. The *Priapeia* and smaller poems are not included. 207 leaves with 32 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a line 1 is, *Publij Virgilij Maronis Liber Bucolicorum*. The Georgics begin in leaf 14^b, and *Æneid* in 50^a.

23634 — opera. (*Ven.*), Vindelinius de Spira, 1470. fol.

This edition also is very scarce and valuable. It is the first dated edition. 161 leaves with 41 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a begins with the line, (T) *ITYRE*. *TV PATVLÆ*. In leaf 161^b is a colophon in 8 verses, *Progenitus spira formis* etc. 8 copies on vellum are known (2308 livr. Paris de Meyzieu, 2270 livr. Goutard, 3300 livr. Philippe, 1925 fl. Crévénna, 1301 fr. Didot, 200 fl. Röver, 2000 fr. Larcher).

23635 — opera et catalecta. Romæ, Sweynheym et Pannartz, without date (1471). fol.

One of the rarest editions of Virgil, only 4 copies of which are known. It, as well as the *editio princeps*, was superintended by the bishop Andreas de Aleria, and the

earlier text is corrected from several MSS. It also contains the *Priapeia* complete for the first time. It has not hitherto been collated.

225 leaves in all. First come 18 leaves of preliminary matter (the 18th blank), which contain a letter of the editor, a life of Virgil and verses on him, a metrical specification of the contents of each book of the *Æneid* and the *Cules*. Next follow the Eclogues, Georgics, and *Æneid* on 174 leaves. Then come 4 leaves of different poems which end with the colophon, *Aspicis illustris lector* etc. The *Priapeia* on 10 leaves (the 10th blank), and the *Æna* on 19 leaves, end the work. The *Priapeia* and *Æna* do not appear to be met with in all the copies.

23636 — opera. (*Ven.*), Adam, 1471. fol.

This edition also, of which only 2 copies are known, is extremely scarce, but is probably only a reprint of that by Vindelinius in 1470, although it has somewhat peculiar to itself. 179 leaves with 39 lines, without signatures, catchwords, and numbering of the leaves. The Eclogues begin in leaf 1^a, and are followed by the Georgics in 11^b and by the *Æneid* in 41^b. From leaf 171^a Maphæus's 13th book of the *Æneid* is added, which appeared for the first time in this edition. The edition ends in leaf 179^a with a colophon of 10 verses, *Minciada quicong; cupit* etc. The printer Adam is not Adam Rot, who practised his art at Rome, but probably the Adam who also printed *Lactantius* in 1471, and who lived at Venice.

23637 — opera et catalecta. Without place (*Ven.*, Vindelinius de Spira), 1471. fol.

This very scarce edition appears to be a reprint of the preceding. The types are the same as those with which Vindelinius printed Martial and Catullus. 200 leaves (not 198), with 39 lines, without signatures, catchwords, and numbering of the leaves. Maphæus's 13th book, the smaller poems of Virgil, and the *Priapeia* follow the *Æneid*.

23638 — opera et catalecta. Ven., Bartholomæus de Cremona, 1472. fol.

232 leaves with 40 lines, without signatures, catchwords, and numbering of the leaves. The first 18 leaves contain a table of contents, Virgil's life, etc. The specification of the printer and date is in leaf 19^a. The Eclogues begin in leaf 20^a, the Georgics in 31^a, the *Catalecta* with the *Priapeia* in 187^b. The last or 35th line of

232^a, *Datur tibi puella quam petis datur*. This fine and scarce edition is only a reprint of another. A copy on vellum is known (2440 fr. M'Carthy).

23639 — opera. Without place, Ln. Achates, 1472. fol.

Whether this, in other respects very scarce edition, has really any thing peculiar may well be a question. It was probably printed at St. Urso or at Vicenza, but scarcely at Venice (see PETRARCA, No. 16363), and contains only the genuine works of Virgil.

23640 — opera et catalecta. Without place (*Ven.*), 1472. fol.

This likewise very scarce and fine edition, which is printed with the types of the Ansonius of 1472, is deserving of a closer investigation of its contents, which probably have somewhat peculiar. It begins in leaf 1^b with an advertisement, which is undersigned with the letters *B. H.* These letters have always been applied to the printer, and Dibdin would rather explain them as having been subsequently imprinted. But why should they not refer to the author of that advertisement?—It contains 219 leaves with 40 lines, without signatures, catchwords, and numbering of the leaves. First come 12 leaves of preliminary matter. The eclogues begin in leaf 13^a.—The undated edition described by Panzer, IX. 339, No. 1277^b, appears only to be a copy of the above-mentioned edition, wanting the first leaf.

23641 — opera et catalecta. Mediol., Ant. Zarotus, cal. Dec. 1472. large 4°.

178 leaves with 40 lines, without signatures, catchwords, and numbering of the leaves. The *Priapeia* on 9 leaves end the work. There is a copy on vellum of this hitherto unknown edition in the Corsini library at Rome.

23642 — opera. Fivizani, Jac., Bt. et Alexander de Fivizano, 1472. fol.

A very scarce edition, which only contains Virgil's larger works together with Maphæus's 13th book. 170 leaves with 41 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a line 1 is (T)ITYRE TV PATVLÆ. The book ends in leaf 170^b with a colophon of 5 verses, *Sculpeunt docti manibus etc.*

23643 — opera et catalecta. Without place or date. fol.

An old edition, printed in fine Roman characters. 233 leaves with 41 lines and signatures. Leaf 1^a line 1 is, P. VIR-

GILII MARONIS BVCOLICA, and the vol. ends in leaf 233^a with the word FINIS.

23644 — opera et catalecta. Without place, Ln. Achates, 1473. fol.

A scarce edition. 196 leaves, the last 20 of which contain the *Catalecta*. The vol. begins, P. MARONIS VIRGILII BVCOLICORVM LIBER INCIPIT, and at the end is the colophon, *Finis. M. CCCC. LXXIII.*

23645 — opera. Brixia, presbytero Petro villa jubente, 21 Apr. 1473. fol.

One of the rarest editions of Virgil, of which lord Spencer's copy is the only one known. Dibdin in the *Bibl. Speno.* II. 472, does not consider Th. Ferrandus to have been the printer, but Gerardus de Lisa, because this latter person printed *Mercurius Trismegistus* at Treviso in 1471 with the same types. This proof however is not sufficiently convincing. The edition contains only the larger works of Virgil, and its text does not appear to be very correct. 173 leaves with 38 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a line 1 is, (T)ityre tu patule recubans. The *Georgica* begin in leaf 12^a, and the *Æneid* in 42^a. Leaf 173^b is the colophon.

23646 — opera et catalecta. Romæ. Udalr. Gallus et Sim. de Luca, 4 Nov. 1473. fol.

This 3rd Roman edition of Virgil is not only very scarce, but also (in Audifredi's judgment) critically important, inasmuch as the *lacuna* of the two earlier editions are here filled up. 170 leaves altogether with 35 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a and b is a table of contents; leaves 2-7, *Vita Virgilii* (6 leaves); 8-21, miscellaneous poems concerning Virgil (14 leaves); 22-66, *Eclogues* and *Georgica* (45 leaves); 67-118, *Æneid* (52 leaves); 119-169, the 13th book of Maphæus, the *Catalecta* and *Priapeia*, together with the colophon (51 leaves). Leaf 170^a is a register.

23647 — opera et catalecta. Mediol., Ph. de Lavagnia, 14 Jun. 1474. fol.

Superintended by Boninus Mombritius. The *Ciris*, which is to be found in the preceding edition, does not occur here.

23648 — opera et catalecta. Mutinæ, J. Vurster, 23 Jan. 1475. fol.

One of the scarcest editions of Virgil, and the first dated typographical production of Modena. 221 leaves with 35 lines, with-

out signatures, catchwords, and numbering of the leaves. Leaf 1^a line 1 is, *P. Virgilii Maronis Bucolicum Liber*. The Georgics follow in leaf 13^a, the Æneid in 46^a, Maphæus's 13th book in 190^a, the *Catalecta* (likewise without the *Ciris*) and *Priapeia* in 199^b. In leaf 221^a is the colophon.

23649 — opera et catalecta. Ven., N. Jenson, 1475. fol.

A fine edition. 270 leaves with 34 lines, without signatures, catchwords, and numbering of the leaves. First come 20 leaves, the life of Virgil, and poems concerning him. The Eclogues begin in leaf 21^a (the 1st line is, *P. VIRGILII MARONIS BVCOLICA*), the Georgics in 33^a, the Æneid in 67^a, which ends in 216^a. The 54 remaining leaves contain the 13th book of Maphæus, the *Catalecta* (with the *Ciris*), and *Priapeia*. A copy on vellum in the library at Darmstadt.

23650 — opera et catalecta. Mediol., Ant. Zarotus, 8 cal. sextilibus 1475. fol.

123 leaves with 41 lines, without signatures, catchwords, and numbering of the leaves. Leaf 1^a line 1 is, *P. Virgilii Maronis Parthenia Mantuani Bucolicum*. The colophon is on the reverse of the last leaf.

23651 — opera, cum commentariis Mauri Servii Honorati. Ven., Jac. Rubeus, m. Januar. 1475. large fol.

278 leaves. The first edition, in which the commentary of Servius is appended to the text of Virgil. It begins with a life of Virgil, superscribed, *Maronis vita*. The last leaf contains the colophon on the *folio recto*, and a *tabula librorum* on the reverse.

23652 — opera et catalecta. Lovanii, J. de Westphalia, 1475-76. small fol. 2 vols. half Gothic letter.

This edition also is among the rarest of Virgil, and may be deserving of especial regard, as it is more probable that the Louvain printer in his literary seclusion became possessed of MSS. than earlier impressions. The first vol. comprising the Eclogues, Georgics, and some smaller pretended works of Virgil, contains 65 leaves with 26 lines, without signatures, catchwords, and pagination, and is dated, 29 Nov. 1475, at the end. Various readings in 2 columns fill the reverse of the last leaf. The 2nd vol. containing the Æneid, consists of 186 (not 196) leaves, and is dated, 8 April, 1476. It also contains a specification of various readings at the end. In the colophons of both vols. which

are sometimes to be met with by themselves, is a portrait of the printer engraved on wood. Complete copies of this edition are to be found in the Royal library at Paris, and in the University library at Kiel.

23653 — opera et catalecta. Mediol., Ant. Zarotus, 13 cal. Oct. 1476. fol.

23654 — opera et catalecta. Vincetiæ, J. de Vienna, 1476. fol.

23655 — opera. Mediol., Ln. Pachel et U. Scinzenzeler, 3 id. Maji, 1478. fol. Gothic letter.

23656 — opera. Par., Udalr. Gering, m. Sept. 1478. small fol.

A well printed and very scarce edition, with the signatures *a-s* and *A-G*, and with 28 lines. Its scarceness however is greater than its value. First are 6 leaves of preliminary matter, the 1st of which is printed only on the reverse, and contains a letter of Ph. Beroaldus to J. Francus. P. Maillet (Malleolus) superintended this edition.

23657 — opera et catalecta. Parmæ, And. Portilia, 4 id. Maji, 1479. fol.

208 leaves, with the signatures *a-s*.

23658 — opera, cum commentariis Servii. (*Vincetiæ*), Ln. de Basilea, 1479. fol.

23659 — opera et catalecta. Regii, Alb. de Mazalibus, 10 cal. Apr. 1482. fol.

182 leaves, with the signatures *a-s*.

23660 — opera et catalecta, cum commentariis Servii. Ven., Renaldus de Novimagio, 27 Sept. 1482. fol.

23661 — opera et catalecta, cum commentariis Servii. Brix., Jac. Britannicus, 22 Aug. 1485. fol.

Also, Ven., Ant. Bartholomæi, m. Oct. 1486. fol. Ven., And. de Paltasovichis, cal. Sept. 1488. fol. and often.

23662 — opera et catalecta, cum commentariis Servii, Donati, Cp. Landini et Domitii Calderini. Ven., G. Arrivabenus, 5 cal. Quintil. 1489. fol.

Also, Nrb., Koberger, 1492. fol.

23663 — Vergilius cum quinque commentis (Servii, Donati, Landini, Calderini et Ant. Mancinelli).

Ven., Ph. Pincius, 28 Dec. 1491. fol.

Also, Ven., Junta, 1500. fol. Ven., with-out the printer's name, 1501. fol. Mediol., Scinsenseler, 1501. fol. and often.

23664 — Vergilius. Ven., Aldus, m. Apr. 1501. 8°.

228 unnumbered leaves. This extremely scarce edition is the first typographical production in the Italics, which this press afterwards continually used, and the first of its subsequently numerous small editions of the classics. It was found so convenient by the people of that day, that it was soon bought up and exhausted, and hence its very great rarity. Copies in good condition sell very dear. It has no peculiar critical value, but is rather a repetition of some one earlier text or other. 6 copies on vellum are known (251 livr. Paris de Meyzieu, 260 fr. Gouttard, 741. 118. Paris).

There are 2 undated Lyons reprints of this edition, which may be distinguished from the genuine Aldine both by the type and by their not having the Aldine colophon. The two reprints may moreover be thus distinguished from each other; that in one in the first page of the text *Stulus* is printed instead of *Stultus*, in the other this word is correct. The earlier of these two reprints at least is uncommonly faulty, but both are not inferior to the original edition in scarceness, and are at a tolerable price. There is a copy of one of them on vellum.

23665 — opera (et carmina minora) cum quinque commentariis (Servii, Donati, Landini, Mancinelli et Calderini) expolitissimisque figuris atque imaginibus per Sebast. Brant superadditis. Arg., J. Grieninger, 5 cal. Sept. 1502. fol. with woodcuts.

Probably only a reprint of an earlier Venetian edition, and it is mentioned here only on account of the strange woodcuts, which make this edition a companion to the Horace and Terence of the same printer.

23666 — opera (et catalecta). Mediol., Alex. Minutianus, id. Octobr. 1504. 4°.

This edition is scarce, as are all the typographical productions of this learned printer. Whether it really has any thing of its own, as its advertisement seems to give us to understand, is still to be investigated.

23667 — Vergilius. Ven. (Aldus), m. Dec. 1505. 8°.

304 numbered leaves. This edition, which

also contains the *Catalecta* and *Priapeia*, is at least as scarce as that of 1501, and is dear. It is however, according to Heyne, only a less correct impression of the text of the earlier Aldine. 3 copies on vellum are known.

23668 — Vergilius. Flor., Ph. de Giunta, 6. cal. Dec. 1510. 8°.

304 numbered leaves. This very scarce edition is to all appearance only an impression of the 2nd Aldine, and contains, like that, the *Catalecta* and *Priapeia*.

23669 — Vergilius. In hoc volume continentur opera Vergiliana inferior scripta. Bucolica. Georgica. Æneidos libri XII. una cum Maphæi Veggii libro XIII. Ejusdem Vergilii opuscula: videlicet culex etc. Without place or date (*Lugd.* about 1511). 8°.

This very scarce edition, the leaves of which are unnumbered, is a Lyons reprint of the Aldine of 1505 and of the Juntine of 1510. The figures 159 in the title cannot therefore mean the year 1509 as Panzer supposes.

23670 — Virgilius. Ven., Aldus et Andr. socer, m. Oct. 1514. 8°.

A new and valuable recension by And. Nagerius. There are two different impressions of equal rarity under this date. The first, really belonging to the year 1514, contains 220 numbered leaves, 1 leaf with register and colophon, 2 leaves of errata, and 1 leaf with the anchor. It is however full of such a quantity of errors of all sorts, as to be useless, and only a few of them have been specified and corrected in the 2 appended leaves of errata. A fine copy however of this first impression has been sold in France for 226 and even 266 fr.

The 2nd impression contains 220 numbered leaves, 1 leaf with register and colophon, 2 blank leaves (instead of the leaves of errata in the 1st impression), and 1 leaf with the anchor. This 2nd impression could not have appeared before 1519, because the anchor in the last leaf represents the dolphin entwined around it with an open mouth (in the 1st impression the mouth is shut), and this form of the symbol of the Manutian printers only occurs in the years 1519-24: see *Renouard Annales des Aldes*, ed. II. T. III. p. 98. It is indeed probable, that the peculiar superintendence of Nagerius relates only to this 2nd impression, and that in the 1st only the list of errata at the most proceeded from him. It is consequently only this 2nd impression which is of real value, and to

which the encomiums of N. Heinsius in the edition of 1676 relate. Two copies of it on large paper are known. There is also a copy on vellum, but it is not known to which of the two impressions it belongs.

- 23671 — Virgilius. Flor., her. Ph. Juntæ, 9 cal. Aug. 1520. 8°.

Likewise a scarce edition, and superintended by Ant. Francinus. 8 leaves of preliminary matter, 236 leaves (Virgil), and 78 leaves (*Catalecta* and *Priapeia*). Sometimes either these last 78 leaves are entirely wanting, or at least the *Priapeia* (leaves 64–78). The *Catalecta* and *Priapeia* were also published at the same time with a separate title: *P. Virgilii Maronis carmina minora et Maphæi Vegii liber XIII. Æneidos. Flor., her. Ph. Juntæ, 1510. 8°.* 80 leaves, one of which is blank, and one is for the lily.

- 23672 — Virgiliana poemata nuperime impressa atque ad amussim castigata. Lugd., Gu. Huyon, 15 Jun. 1521. 8°.

206 numbered leaves. This scarce edition seems to be a reprint of the Aldine of 1514.

- 23673 — Virgilius. Par., Sim. Colinaeus, 1526. 8°.

The Aldine text. Good copies are sought after.

- 23674 — Virgilius. Ven., Aldus et And. socer, m. Junio, 1527. 8°.

220 numbered leaves and 4 unnumbered (colophon, anchor, and 2 blank leaves). The text is that of the Aldine of 1514.

- 23675 — opera. M. Servii Honorati in eadem commentarii ex antiquis exemplaribus integritati restituti. Castigationes et varietates Virgilianæ lectionis per J. Pierium Valerianum. Par., Rb. Stephanus, 17 cal. Aug. 1532. fol.

The text is that of the first Aldine or Juntine, and Servius only is here corrected from MSS.

- 23676 — opera omnia (et catalecta.) Par., Rb. Stephanus, 1533. 8°.

The Aldine text forms the basis, with some alterations.

- 23677 — bucolica, georgica, Æneis, cum Servii Probique commentariis ac omnibus lectionum variationibus in antiquis codicibus repertis. Ven., Pt. de Nicolinis de Sabio, m. Sept. 1534. 8°.

This scarce edition, superintended by Alex. Velutello, follows the Juntine text.

VOL. IV.

The appended various readings are only taken from the *Castigationes* of Pierius Valerianus.

- 23678 — bucolica, georgica et Æneis, nunc demum N. Erythræi opera in pristinum lectionem restituta, et ad rationem ejus indicis digesta. Additis ejusd. Erythræi scholiis. Ven., J. Ant. Sabius, 1539. 8°. Index Erythræi. ib., id., 1538. 8°. 2 voll.

The notes of Erythræus are of no value, but his index is a work of merit.—Repeated, Ven., Laurentinus, 1566. 8°.

- 23679 — bucolica, georgica et Æneis (curis Hub. Sussanæi emendata.) Par., Mch. Fezandat (other copies *Oudinus Parvus*), 1541. 4°.

This edition is sought after in France, as it is said to be fine and very correct. It appears to have nothing peculiar to itself.

- 23680 — Virgilius. Ven., apud Aldi filios, m. Jan. 1541. 8°.

2 leaves of preliminary matter, 219 numbered leaves, and 3 unnumbered (colophon, one blank leaf, and anchor). Merely a reprint of the earlier Aldine. Two copies on large paper are known, one of which is in the Royal library at Dresden. Ven., ap. Aldi filios, 1545. 8°. is again only a reprint, of which there are also copies on large paper (one of them 5l. 6s. Pinelli).

- 23681 — opera, post omnes omnium editiones nunc demum revisa et emaculatiores reddita. Ælii Ant. Nebrissensis in eadem ecphrases admodum familiares. Apud inclytam Granatam (without the printer's name), 1546. 4°.

- 23682 — opera, quæ quidem extant, omnia, cum veris commentariis Donati et Servii, a G. Fabricio emendatis. Adjecto etiam ab eodem rerum et verborum indice. Quibus accesserunt etiam Probi, Pomponii Sabini, Ph. Beroaldi, J. Hartungii, Jod. Willichii, G. Fabricii, Bonfinis, Adr. Barlandi et alior. annotatt. Bas., in offic. Henricpetrina, 1575. fol.

Previously, Bas., H. Petri, 1551 or 1561. fol. Also, ib., id., 1586. fol. According to Heyne it is only a new revision of the text without the use of MSS., although it may still be a matter of investigation whether Fabricius did not make use of a Werther MS. (now in the Royal

6 M

library at Dreden). But at any rate he has paid great attention to the correction of Donatus and Servius.

- 23683 — Virgilius. Corrigente P. Manutio. Ven., P. Manutius, 1555. 8°.

The text is here and there corrected from conjecture.

- 23684 — P. Virgilius Maro, P. Manutii adnotationibus, in libri margine adscriptis, illustratus. Ven., P. Manutius, 1558. 8°.

243 leaves, and 1 leaf with the anchor. A tolerably scarce and well printed edition, which contains the text of the preceding, with short notes chiefly taken from Servius. Repeated, *ib.*, *id.*, 1560, 63, and 67. 8°.

- 23685 — P. Virgilii Maronis universum poema, cum Servii et Badii Ascensii interpretatione, Probi et J. Vivis in eclogas allegoriis, Jodocique super georgica commentariis. Quibus accesserunt L. Coelii Rhodigini, J. Scoppe, Jac. Constantii, Fr. Campani, Jac. Crucii nec non alterius docti hominis lucubratt. et annotatt. in loca difficiliora. Ven., Bonellus, 1562. fol. with woodcuts.

This neat edition recommends itself by its rich exegetical apparatus. Previously, *ib.*, *id.*, 1558. fol.

- 23686 — opera. Thdr. Pulmanni studio correctæ et brevissimis annotationibus illustrata. Index amplissimus ad calcem additus. Antw., Cp. Plantinus, 1564. 12°.

A new and valuable recension from MSS. and the older editions. It is a neat edition, and copies in good condition are greatly sought after.

- 23687 — P. Virgilius Maro, et in eum commentationes et paralipomena Germani Valentis Guellii. Ejusd. Virgilii appendix, cum Jos. Scaligeri commentariis et castigationibus. Antw., Cp. Plantinus, 1575. fol.

The commentary is not without merit, but nothing fresh has been done for the text. The *Præpota* are omitted.

- 23688 — poemata, novis scholiis illustrata, quæ H. Stephanus partim domi nata, partim e viror. doctissi-

mor. libris excerpta dedit. Ejusd. H. Stephani schediasma de delectu in diversis apud Virgilium lectionibus adhibendo. Without place, H. Steph., or date (1577). 8°.

Also, without place, *id.*, 1583. 8°. and without place, P. Stephanus, 1599. 8°. The edition of 1583 is the best and most complete. Stephens's scholia are chiefly taken from Servius, but his *Schediasma* contains much good matter.

- 23689 — bucolica, georgica et Æneis. N. Erythræi opera in pristinam lectionem restituta et ad rationem ejus indicis digesta, additis ejusdem Erythræi scholiis, cum præf. F. Sylburgii. Frf., her. And. Wechelii, 1583. 8°.

This edition recommends itself by its correctness.

- 23690 — opera ex vetustissimo eoque accuratissimo bibliothecæ Palat. manuscripto exemplari nitore pristino restituta, cum indice Erythræi. Addita Fulgentii Planciadis Virgiliana continentia cum aliis nonnullis ad hujus poetæ intelligentiam necessariis. E bibliopolo Commeliniano, 1599. 8°.

Previously, *In offic. Sanctandreaana*, 1589. 8°. Repeated, (*Heidelb.*), *Commelin*, 1603. 8°.

- 23691 — symbolarum libri XVII. Quibus P. Virgilii Mar. bucolica, georgica, Æneis, ex probatissimis auctoribus declarantur, comparantur, illustrantur. Per Jac. Pontanum (*cum textu Virgilii*). Aug. Vind., ad insigne pinus, 1599. fol.

Often unnecessarily prolix, but not without exegetical merit. Repeated, *Lugd., Pilleholte*, 1604. fol.

- 23692 — bucolicorum eclogæ XI. Georgicorum libri IV. Æneidos libri XII. Et in ea Mauri Servii Honorati commentarii, ex antiquiss. exemplaribus longe meliores et auctiores. Ex biblioth. Pt. Danielis Accessit Fabii Planciadis Fulgentii liber de continentia Virgiliana, auctior. e MSS. codd. Item Junii Philargyrii commentariolus in bucolica et georgica Virgilii. Cum certissimo ac copiosissimo indice.

Par., Nivellius, 1600. fol. Also on large paper.

A valuable critical edition of Servius from good and ancient MSS. The later impressions of the text of Servius here given (for instance, *Col.* 1610. 4°. *Genev.*, *Chouet*, 1636. 4°.) are negligent and faulty. Philargyrius is here printed for the first time.

- 23693 — bucolica, georgica et Æneis, argumentis, explicationibus et notis illustrata a J. L. de la Cerda. Lugd., Cardon, T. I. 1619. T. II. 1612. T. III. 1617. fol. 3 voll.

A good edition of this commentary, very carefully executed, but disregarding criticism. The original edition, *Madri.* 1608–17. fol. 3 vols. is very scarce. The following edition is the easiest to be met with, *Col.* T. I. 1647. T. II. et III. 1642. fol. 3 voll.

- 23694 — opera omnia: Bucolica, Georgica, Æneis, Ciris et Culex, cum commentario F. Taubmanni. Curante et edente Ch. Taubmanno. Additi sunt indices. (*Witteb.*), Z. Schürer, 1618. 4°.

A copy on large writing paper in the Royal library at Dresden. That this commentary has little of its own is excused by the fact of the author's having left it behind him unfinished. The text is Stephens's.

- 23695 — opera. Accessit animadversionum liber, cum indice locupletissimo. LB., Abr. Elzevier, 1622. 12°.

Not fine, but scarce, and sought after by collectors of Elzevirs.

- 23696 — opera, ad Jac. Pontani castigationes excusa. Sedani, J. Janonius, 1625. 32°.

Correct, and greatly sought after in France on account of the smallness of its type. There are also copies with a new title of 1628.

- 23697 — opera, nunc emendatiora (ex rec. Dan. Heinsii.) LB., ex offic. Elzevir., 1636. 12°.

20 leaves of preliminary matter (with the title-plate), 411 pages, and 22 leaves of index. In p. 92 there is a map. Incorrect, but one of the neatest Elzevir typographical productions, good copies are greatly after by collectors (4 inch. 8 to 9½ lines high), and are sold at from 72 to 120 fr.

There is a more correct but less fine re-

print under the same date, which may be thus distinguished; the passage *Ego vero frequentes* etc. in p. 1. and the passage, *Si mihi suspectum* etc. in p. 92. are printed in black, whereas in the genuine edition they appear in red. In this reprint also the errors of the first 91 pages of the genuine edition, which are pointed out in the preface of Didot's stereotyped Virgil (*Par.* an 6. 18°.), are all corrected except three.

- 23698 — opera. Par., e typogr. regia, 1641. fol.

Tolerably fine, but not sought after.

- 23699 — P. Virgilii Maronis, cum veterum omnium commentariis et selectis recentiorum notis, nova editio (curante Corn. Schrevelio.) (*LB.*), Abr. Commelinus, 1646. 4°.

A neat and convenient edition, in which N. Heinsius's various readings in Virgil and Salmasius's corrections of Servius have been made use of. But Schrevelius's selection of annotations is very unsatisfactory.

- 23700 — opera per J. Ogilvium edita et sculpturis æneis adornata. Lond., Roycroft, 1658. large fol.

Sought after on account of the plates by Hollar, Faithorne, Lombart, and others; there are 104 in all, including the title-plate, the portrait, and a map. This edition, of which there are copies on strong paper (356 fr. M'Carthy), contains better impressions of the plates than the later edition, *Lond.* 1663. fol. But the first impressions are to be found in Ogilvy's English translation of Virgil, *Lond.* 1654. fol.

- 23701 — opera omnia. Cum notis selectissimis varior. et indice locupletissimorum ac verborum. Opera ac studio Corn. Schrevelii. LB., Hack, 1661 or 66. 8°.

The notes are without selection, and carelessly scraped together.

- 23702 — opera. N. Heinsius recensuit. Amst., ex offic. Elzevir., 1676. 12°.

24 leaves of preliminary matter (with the title-plate), 387 pages of text, and 29 pages of index. A new recension from almost 30 MSS. but the printing and paper are not so fine as in the Elzevir edition of 1636. There are copies on large paper, 6 inch. 3–4 lines high, which are scarce (5l. 15s. Pinelli), and also some copies on very large and strong paper 8–9 inch. high, and 3 inch. 9–10 lines broad, (365 fr. M'Carthy, 21l. 10s. Stanley 1803.)

23703 — opera, cum notis integris Servii, Philargyrii, nec non J. Pierii var. lect. et selectissimis plerisque commentariis Donati, Probi, Nannii etc. Quibus acced. observatt. Jac. Emmenessii et index Erythræi. LB. et Amst., Hack, 1680. 8°. 3 vols. with plates.

This finely printed edition is sought after for the series *Cum notis variorum*, although it has no particular essential merit. It was finished after the death of Emmeness by Pancr. Masvicius. There are copies bound up in 6 vols.

23704 — opera. Interpretatione et notis illustravit C. Ruæus, ad usum Delphini. Ed. II. Par., Benard, 1682. 4°.

Ruæus is amongst the better interpreters of Virgil, and his edition is one of the best of the series in *Usus Delphini*. The above edition is preferred to the earlier one, *Par.* 1675. 4°, because it contains Heinsius's text. Subsequent reprints are, *Amst.* 1690. 4°. *Par.* 1722 or 26. 4°. *Hag. Com.* 1723. 8°. *Lond.* 1686. and often, the last time 1817. 8°. (11s.) *Bassano*, 1804 or 1818. 4°. 2 voll.

23705 — bucolica, georgica et Æneis, ad optimor. exemplarium fidem recensita (cura H. Laughton). Cbr., typis acad., 1701. large 4°.

A neater and more correct impression, without containing any thing peculiar to itself.

23706 — opera Lond., Tonson et Watts, 1715. 12°.

Superintended by Mch. Maittaire, who has appended the various readings of the edition by Achates of 1472, and of that by Lavagnia of 1474. There are copies on large paper.

23707 — opera, cum integris commentariis Servii, Philargyrii, Pierii. Accedunt Scaligeri et Lindenbrogii notæ ad culicem, cirim, catalecta. Ad cod. MS. regium Parisiensem recensuit Pancratius Masvicius. Cum indicibus. Leovardiæ, Halma, 1717. 4°. 2 vols. with plates.

Other MSS. have been made use of besides the Paris MS., and the edition is by no means so worthless as Burmann would represent it to be. It also recommends itself by its external appearance, and is still greatly sought after. The copies on large paper, sometimes bound in 3 vols. are very fine. The reprint, *Ven., Paschalius*, 1736.

4°. 2 vols. (also on large paper), although neat, is less prized.

23708 — opera, e membranis compluribus iisque antiquissimis recensuit N. Heinsius (cura Vulpiorum fratrum.) Patav., Cominus, 1738. 8°.

A correct edition, of which there are copies on blue paper.

23709 — P. Virgii Maronis codex antiquissimus a Rufio Turcio Aproniano V. C. distinctus et emendatus, qui nunc Florentiæ in bibl. Mediceo-Laurent. adservatur, typis descriptus. Flor., typis Mannianis, 1741. 4°.

2 leaves of preliminary matter, XXXV and 459 pages. One of the most important and most meritorious efforts for the text of the poet, which we owe to the industry of Pt. Fr. Foggini, but which Heyne has by no means used with due accuracy. Heyne does not appear to have known at all Bandini's latest and excellent description of the MS. (*Codd. lat.* II. 281-299). About 10 copies on vellum are known (220 fr. McCarthy, 120 Dutch fl. Meermann), and several copies on large paper. It is a pity that a 2nd explanatory vol., which was promised, never appeared.

23710 — antiquissimi Virgiliani codicis fragmenta et picturæ ex bibliotheca Vaticana, ad priscas imaginum formas a Pt. Sancte Bartholi incisæ. Romæ, 1741. fol.

XXII and 225 pages, with 55 plates. A fit companion to the preceding work. Sante-Bartoli only engraved the pictures of the extremely ancient Vatican Codex in 1677, and a few impressions were then taken in quarto, which are of the greatest rarity, and are much sought after by collectors on account of their greater strength of expression. The impressions consist of 55 plates without title or text. (A copy at Dresden.) The new impression of these plates, *Rom.* 1725. fol. likewise without text, is less sought after. At length Gi. Gaetano Bottari in 1741 caused the text also of the MS. to be printed along with them, and this is the above-mentioned work. In the preface 3 engravings from another Vatican MS. and 3 facsimiles of other MSS. are added afresh. A new edition, *Roma*, 1782. 4°. is less prized. There are some vellum copies known of a 4°. impression of the 55 plates alone (sl. 5s. Edwards, 60 fr. McCarthy).

23711 — bucolica, georgica et Æneis.

Ex rec. Alex. Cuningami, cujus emendationes subjiciuntur. Edinb., Hamilton et Balfour, 1743. 12°.

In this neat edition the text pretends to be altered from some MSS. (rather from various readings of Maavicius's edition) and the older editions, often too hastily. Scarce on large paper.

23712 — opera. Lond., Brindley, 1744. 18°.

23713 — opera, cura et studio St. And. Philippe. Par., Coustelier, 1745. 12°. 3 vols. with plates.

Also, Par., Barbou, 1754. 12°. 3 voll. This neat edition gives a text chiefly after Foggini's impression of the Florence MS. There are copies on Dutch paper.

23714 — opera (edente J. Hawkey.) Dublinii, e typographia academiciæ, 1745. 8°.

A neat edition, and very scarce on large paper.

23715 — opera, cum integris et emendationibus commentariis Servii, Philargyrii, Pierii. Accedunt Fulvii Ursini, G. Fabricii, Fr. Nansii, J. Musonii, Tanaq. Fabri et alior., ac præcipue N. Heinsii notæ nunc primum editæ, quibus et suas animadv. et variantes in Servium lectt. addidit Pt. Burmannus. Post cujus obitum interruptam editionis curam suscepit et adornavit Pt. Burmannus junior. Amst., Wetstein, 1746. 4°. 4 voll. Also on large paper.

A rich and valuable critical and exegetical apparatus, in which fresh MSS. have been made use of. The smaller poems however remain without any fresh materials.

23716 — bucolica, georgica et Æneis, illustrata, ornata et accuratissime impressa. Lond., Knapton et Sandby, 1750. large 8°. 2 vols. with vignettes.

A neat and correct edition, in which the Florence and Vatican MSS. have been made use of. There are copies on large paper.

23717 — opera, tabulis æneis incidit J. Pine. Lond. 1755 or 74. large 8°.

Only the Bucolics and the Georgics have appeared.

23718 — opera, ad optimor. exemplarium fidem recensita. Edinb., Hamilton et Balfour, 1755. 8°. 2 voll. Also on large paper.

A neat edition, formerly considered to be quite faultless, but 11 misprints are pointed out in the preface to Didot's stereotyped Virgil (Par. an 6. 18°.).

23719 — opera, ordine perpetuo, interpretationibus gallicis, annotationibus et dictionariis illustrata, ab Ant. Bourgeois. Senlis et Par., 1755. 8°. 2 voll.

The 1st vol. contains the Eclogues, and the 2nd only the 1st book of the Georgica: no more has appeared.

23720 — bucolica, georgica et Æneis. Birminghamiæ, J. Baskerville, 1757. large 4°.

The finest typographical production of the Baskerville series, but now surpassed by superior typographical efforts, and no longer so much sought after as formerly. There are copies of this genuine edition with two cancels, which may most quickly be distinguished by observing whether p. 143 is numbered correctly, or wrongly 341. The text is that of the Cambridge edition of 1701.

In the year 1771 Baskerville himself prepared a reprint with the same date of 1757, at the order of some London booksellers, which is by far less fine and correct. It may most easily be distinguished by the column-title of p. 342 being *Æneidos liber decimus*, instead of *liber decimus*. *Æneidos*, as it is in the genuine edition. The 457th verse of the 2nd book of the Æneid in p. 144 (*ad soceros et avo* etc.) has also been entirely omitted in the reprint by an oversight.

23721 — opera ex antiquis monumentis illustrata, cura, studio et sumptibus H. Justice, armigeri, Rufforthii toparchæ. (Hage Com., 1757–65). large 8°. 4 voll.

The entire text is engraved with vignettes and plates by Marcus Pitteri. The 5th vol. contains an explanation of the plates by Cp. Saxe, and was added by W. Justice, the son of the person who undertook this edition. The work however is not so much prized as Pine's Horace. There are copies on large paper in 4°. which however are very scarce, because Catharine, empress of Russia, to whom the work was dedicated, caused them to be bought up.

A new impression of the worn plates was struck off at Brussels about 20 or 30 years ago, but only 80 copies are stated

to have been taken (all on vellum paper). This re-impression is still to be met with in the market, but is of very inferior value. It may most easily be recognised by the address in the title, *Prostant venales apud J. L. de Boubers Bruselæ*. Of this sort is the copy which M. Weigel offered for sale at Leipzig for 24 dollars. At Brussels these copies are to be had for about 48 fr.

23722 — opera ex rec. Pt. Burmanni. Glasgæ, Foulis, 1758. 8°.

A neat edition, and one of the rarer ones of Foulis's series. Also, *ib.* 1784. 12°.

23723 — bucolica, georgica et Æneis ex codice Mediceo-Laurentiano descripta, ab Ant. Ambrogi italico versu reddita, adnotationibus atque variantibus lectionibus et antiquissimis codicibus Vaticanis picturis pluribusque aliis veterum monumentis ære incisus et clar. virorum dissertationibus illustrata. Romæ, Monaldini, 1763-65. large fol. 3 vols. with plates.

An unnecessary waste of show. The editor was deficient in critical tact and knowledge, his notes are scarcely of use for school-boys, the explanations from other sources are for the most part of no great importance, and the plates are accumulated without need. Ambrogi's own Italian translation in *versi sciolti* appeared also by itself, *Rom.* 1770. 8°. 4 vols.

23724 — bucolica, georgica et Æneis. Birminghamiæ, Baskerville, 1766. 8°.

A neat edition, although not quite correct, on paper of particular beauty. The copies are often mildewed.

23725 — opera. Par., Barbou, 1767. 12°. 2 vols. with plates by Cochin.

There are also copies of this neat edition on fine paper. In the reprint, *ib.*, *id.*, 1790. 12°. 2 vols. the text is printed from Heyne's recension.

23726 — bucolica, georgica et Æneis. Ex edit. Pt. Burmanni. Glasgæ, And. Foulis, 1778. fol. 2 voll.

A fine and correct impression of merely the text. There are copies on large paper.

23727 — opera. Accedit M. Manilii astronômicon. Biponti, 1783. 8°. 2 vols.

Repeated, *Arg.* 1808. 8°. 2 voll. (2 d. 16 gr.)

23728 — bucolica, georgica et Æneis.

Ad optimor. codicum fidem recensuit Rch. Fr. Ph. Brunk. *Arg.* 1785. large 8°. On vellum paper.

A copy on very large vellum paper is known.

23729 — bucolica, georgica et Æneis. *Arg.*, typis Dannbach, 1789. large 4°. On vellum paper (12 d.).

This edition was also superintended by Brunk. It is a fine without being a splendid edition. There are 3 copies on vellum (one sold at a London sale in 1804 for 35l. 12s.).

23730 — bucolica, georgica et Æneis. Editio omni prorsus typographico mendo, typographi saltem judicio, expurgata. Par., Pt. Didot, 1791. fol.

Very correct, but not fine enough for a show edition. There were 100 copies printed on small paper, 4 on large paper, and 5 on vellum (835 fr. M'Carthy).

23731 — opera, varietate lectionis et perpetua adnotatione illustrata a Ch. Glo. Heyne. Ed. III. auctior et emendatior. Lond., Payne, 1793. 8°. 4 vols. with 75 vignettes (4 l. 4s.).

Also on large paper in 8°, and on very large paper in 4°. (21l. divided into 8 vols.) A very fine reprint of Heyne's edition of 1788. R. Porson superintended the correcting of the press, but although about 4000l. are said to have been expended on this edition, yet even more misprints (about 600) have crept in than were already in the Leipzig impression. Porson has only added short annotations in 9 places, which are printed also in Wolf's *Literar. Analect.* I. 482 sq.—“Valgo ignoratur, in hac ed. nonnulla de Heyniani aliter legi quam in Lipsiensibus, maxime quæ disputantur contra J. H. Vossium.” (Note of professor Schäfer.)

23732 — opera. Parmæ, in ædibus Palatinis (Bodoni), 1793. fol. 2 voll. (400 paoli.)

A really splendid edition of Heyne's text of 1788, but so incorrect that Didot in the preface to his stereotyped Virgil (*Par. an* 6. 18°.) was able to point out 37 typographical errors in it, which Bodoni immediately prepared to remove by cancels (see *Renouard Catal. de la bibl. d'un amateur*, II. 247). 200 copies were struck off on ordinary paper, 25 on fine paper, 25 on vellum paper, and 3 on vellum. The original price of this, as of all the other productions of Bodoni's press, has greatly

fallen since the publication, and is still decreasing.

According to Didot, the edition, *ib.*, *id.*, 1795. 8°. 2 vols. (also on large paper), is still more incorrect.

- 23733 — opera. Emendabat et notulis illustrabat Gilb. Wakefield. Lond., typis Bensley, 1796. 8°. 2 voll. (12s., on large paper 1l. 11s. 6d.)

A bold, and sometimes rash, but very acute revision of the text. The printing is fine, but not quite correct, as Didot has pointed out.

- 23734 — bucolica, georgica et Æneis. Par., Pt. Didot, anno 6 (1798). fol. with 23 plates.

As much distinguished for its great correctness as for real typographical splendour and for the beauty of its plates, engraved from designs by Gérard and Girodet. Only 250 copies were struck off, 100 of which were with plates *avant la lettre* (the ordinary copies cost 600 fr., these latter 900 fr.). The only copy on vellum with the original designs is now in England.

- 23735 — bucolica, georgica et Æneis. Editio stereotypa. Par., Pt. et Firm. Didot, an 6 (1798). 18°. (75 cent.)

Also on fine paper (1 fr. 25 c.), on vellum paper (3 fr.), on large vellum paper (4 fr. 50 c.), and 2 copies on vellum. The first of Didot's stereotyped productions, very correct, and decidedly the finest; the copies of the first impression (that is, with moveable types) on large vellum paper in 12° are particularly sought after, because they are much finer than the rest. This first impression is recognised by the misprint *ne* (instead of *nec*) *te noster amor* in p. 178. v. 1. There are 2 copies on vellum.

- 23736 — opera. Ad lectiones probatores diligenter emendata et interpunctione nova sæpius illustrata. Cura J. Hunter. Andreaepoli, 1799. 12°. 2 voll

A correct and fine impression of Heyne's text. Hunter's own critical observations are contained in the short preface, and are valuable, consult *Edinburgh Review*, III. 60.

- 23737 — opera. Lond., Dulau, typis Bensley, 1800. large 8°. 2 vols. with 15 plates.

The text of Didot's edition, from whence also the plates are copied. The paper and

printing are extremely elegant, and copies on large paper are scarce and extremely dear.

- 23738 — P. Virgilius Maro varietate lectionis et perpetua adnotatione illustratus a Ch. Glo. Heyne. Ed. III. novis curis emendata et aucta. Lips., Fritsch, (1798-) 1800. large 8°. 5 vols. with 204 vignettes (on writing paper 24 d., on vellum paper 36 d.).

Also without plates, *ib.* 1803. 8°. 4 vols. (8 d.) A masterpiece in an exegetical point of view, but less satisfactory as regards the critical part. The great incompleteness and faultiness of the literary notices in the 5th vol. concerning the MSS. and editions of Virgil are so much the more apparent, the more dogmatical Heyne shews himself in this most deficient part of his work. The copies on vellum paper are very scarce, and sell dear in France and England.

Heyne's first edition appeared, *Lips.* 1767-75, and the 2nd *ib.* 1788, 80. 8°. 4 vols. He also prepared a smaller edition, *ib.* 1779, 80. 8°. 2 vols. and *Ed. IV. curant. E. C. F. Wunderlich et F. E. Ruhkopf. Lips.* 1815, 16. 8°. 2 vols. The last unaltered repetition is, *Lips., Hahn*, 1822. 8°. 2 vols. (3 d.)

- 23739 — opera, cura J. Hunter. Cupri Fifanorum, excudebat Tullis, 1810. 8°. 2 voll. On vellum paper.

Ox., Bliss, 1812. 32°. 2 vols. is also a very neat edition with Heyne's text. There are 6 copies on vellum of the edition, *Lond., Pickering*, 1821. 32°.

- 23740 — P. Virgilius Maro, qualem omni parte illustratum tertio publicavit Ch. Glo. Heyne. Cui Servium pariter integrum et variorum notas cum suis subjunxit N. Eliogius Lemaire. Par., Lemaire, 1819-22. 8°. 8 voll.

The index in the 8th vol. is entirely new, and a *Flora Virgiliana* by A. L. A. Fée is added. These in truth are the most important apparatus of this edition. Each vol. costs 12 fr. On vellum paper 24 fr.

- 23741 — P. Virgilius Maro. Recensuit et emendavit F. G. Pottier. Par., Malepeyre, 1823. 8°. 2 voll.

Without any notes. At the end of the 2nd vol. is merely a list of the various readings from the oldest Florence MS., 3 Vatican, and 15 Paris MSS.

23742 — opera. Ad fidem IX. codd. MSS. nondum adhibitorum collata cum optimis edit., aucta lectionum varietate perpetuaque adnotatione edita a Jo. H. Jaeck. Vinariæ, 1826. 8°. (1 d., on writing paper 1 d. 8 gr.)

23743 — 2. *Bucolica*. Bucolicum carmen. Without place or date (*Col.*, U. Zell, about 1467). 4°. Gothic letter.

17 leaves with 25 lines, without signatures, catchwords, or numbering of the leaves. Leaf 1^a line 1 is, *Publij Virgilij Maronis bucolici*.

23744 — *bucolica*. Without place or date (*Arg.*, *Eggstein*?). fol. half Gothic letter.

16 leaves with 27 lines. The last line of leaf 16 is, *Explicunt Bucolica Virgilii*.

23745 — *bucolica*. Without place or date (before 1475). 4°. Gothic letter.

22 leaves with 20 lines, without signatures, catchwords, and numbering of the leaves. Probably printed immediately from a MS., which however must have been in extraordinary disorder, as single passages of different eclogues are thrown together in the strangest manner. The 10th eclogue is superscribed, *Poeta de Galli insano amore Egloga decima & ultima*. The colophon, *Finuntur Bucolica Virgilii Maronis*, is in leaf 22^b, and underneath is a register.

23746 — *bucolica et georgica*. Without place or date (*Par.*, *Gering*, *Crantz et Friburger*, before 1478). fol.

49 leaves with 32 lines, without signatures, catchwords, and numbering of the leaves. Leaf 49^a ends with the line, *Finis foelix GeorgicoR Virgilii*. Although the *Georgica* in the collected edition of Virgil's works, which proceeded from the same press in 1478 end in the same manner, yet notwithstanding the present separate edition is different from that.

23747 — *bucolica*. Brixiae, Th. Ferandus, without date (about 1493). 4°. Gothic letter.

16 leaves with 26 lines, and the signatures *a* and *b*.

23748 — *bucolicum carmen nuperime excusum et diligentissime emendatum* (et carmen de litera Y.) Brix., Damian. et Jac. Phi-

lippus fratres, without date. 4°. Gothic letter.

12 leaves with 38 lines, and the signature A.

23749 — *bucolicorum eclogæ decem*. The *Bucolics* of Virgil, with an English translation and notes, by J. Martyn. Lond., Reily, 1749. large 4°. with 4 illuminated plates.

23750 — 3. *Georgica*. *Georgicorum libri IV*. The *Georgics* of Virgil, with an English translation and notes, by J. Martyn. Lond. 1741. large 4°. with 13 illuminated plates.

These two editions belong together. 7 MSS. were made use of in the *Georgica*, but its most distinguished apparatus consists in its excellent botanical elucidation. The *Bucolics* were reprinted from this edition, Lond. 1749 and 50. 8°. with plates. There also appeared a separate fine edition of them, *ib.*, Bensley, 1813. 8°. with 37 illuminated plates (also on large paper).

23751 — *georgicon libri IV*. Illustrabat, explicabat et emendabat Gilb. Wakefield. Cbr., typis acad., 1788. 8°. (38. 6d.)

23752 — 4. *Æneis*. *Æneis*, cum Lamb. Hortensii enarrationibus in libros *Æneidos* omnes. Bas., J. Oporinus et H. Petri, 1559. fol.

Also *ib.*, H. Petri, 1577. fol.

23753 — 5. *Catalecta*. *Moretum et Alani carmen rhythmicum, probas virgines et non mulieres ad matrimonium esse ducendas*. Without place or date (*Coll.*, U. Zell, 1466-71). 4°. Gothic letter.

6 leaves with 24 lines, without signatures, catchwords and numbering of the leaves.

23754 — *moretum, vir bonus, de rosa, de vino et Venere*. Daventr., Paffraet, without date (about 1500.) 4°.

23755 — F. Taubmanni *commentariolus postumus in moretum incerti auctoris*. Edente Ch. Taubmanno. (Witt.) ap. Zach. Schuerum, 1626. 4°.

This edition, consisting of 12 leaves, is of the greatest rarity.

23756 — *moretum, quod Virgilio adscribitur, cum versione vernacula*

et animadvv. paucis, interprete F. Ghelf Klopfer. Zwicav. 1806. 4°. 16 pages.

23757 — culex, cum libro commentario F. Taubmanni. Witt., Helwig, 1609. 8°.

Reprinted without alteration in Taubmann's edition of Virgil's works in 1618.

23758 — (culex), le moucheron, trad. en vers franç. par le comte de Valori, avec le texte latin donné par le cardinal Bembo et son dialogue à Herc. Strozzi, suivi des imitations poétiques, accompagnées de commentaires et de notes. Par. 1817, 18°.

23759 — Ceiris. In eam commentariolus Csp. Barthii. Amberg., Schönfeld, 1608. 8°.

23769 — la nobile opera già in verso componuda per Vergilio, et di puoi de verso in lingua volgare reducta per lo literatissimo greco Athanagio. Vicenza, Hm. Levilapide, 12 Martio 1476. 4°. with the signatures a-u.

The first and extremely scarce edition of a work which is not properly a translation, but rather a free prose modification of the *Æneid*. According to the prologue and colophon of the printed edition it was done by a certain *Greco*, Athanagio, for Constantius, son of the emperor Constantine. But in the Florence MS. (*Bandini Bibl. Leopold. II. 19*) it is stated that a *Fratesc* *Nastagio dell'ordine de' frati minori* is the author, and that what was omitted by him was added by a certain *Andreas, Lancense filius, Florentinus*. In either case Athanagio or Nastagio appear to be only feigned names, and the composition of the work seems to belong to the 14th century. Paitoni's account in the *Biblioteca degli autori antichi volgarizza. IV. 158-162*, although carefully done is unsatisfactory, but that given by Dibdin in the *Bibl. Spenc. VII. 125* is quite shallow.

This work was reprinted, Ven. without the printer's name, 1478. 4°. *Bol., Ugo de Rugeris, 23 Aug. 1481. 4°.* and under the title, *Virgilio volgare qual narro le aspre battaglie et li fatti di Enea nuovamente historiato. Ven., N. Zoppino, 1528. 8°.*

23770 — Eneide, trad. in rima volgare (terze rime) da Tom. Cambiatore. Ven., Vitali, 1532. 8°. Eneide trad. in terza rima per Gi. P. Vasio. Ven., Vitali, 1539 (at the end 1538). 8°. L'Eneida in toscano da (Aldobrando) Cerretani. Fir., Torrentino, 1560. 4°.

23771 — l'Eneide di Virgilio, del Commendatore Annib. Caro. Ven., Bn. Giunti, 1581. 4°.

The first edition and scarce, superintended after the translator's death by his nephew Lepido Caro. Ven. Bn. Giunti, 1592. 4°. is more correct, and *Trevise, Deuchino, 1604* (at the end 1603). 4°. is rather pretty. Caro's *Rime* and his comedy *Degli straccioni* are added in the edition, *Verona, Berio, 1728*.

4°. which is likewise prized. The edition, superintended by G. Conti, *Par. Quillau*, 1760. 8°. 2 vols. with plates, (also on Dutch paper) is sought after on account of its beauty and correctness.

23772 — l'Eneide, trad. in versi ital. da Annib. Caro. Roma, de' Romanis, 1818. large fol. 2 vols. with plates on vellum paper.

A splendid edition, printed at the cost of the duchess of Devonshire, and for which the first artists in Rome furnished designs and plates. Only a few copies have come into the market, and cost 12 zechins.

23773 — l'Eneide ridotta in ottava rima da Hercole Udine. Ven., Ciotti, 1597 or 1607. 4°. Eneide (transportata in ottava rima) da Bm. Beverini. Lucca, Paci, 1680. 12°. Roma, Bernabò, 1700. 4°. Bondi, inventata ed incisa all'acqua forte da Bm. Pinelli. Roma, 1811. oblong fol. with 50 plates. L'Eneide trad. in versi da Vitt. Alfieri. Lond. (Pisa), 1804. 8°. 2 voll. L'Eneide e le bucoliche, trad. in versi da Gius. Solari. Genova, 1810. 8°. 2 voll. L'Eneide, versione di G. U. Paganì Cesa, col testo a fronte. Ven., Andreola, 1820-22. 8°. 4 voll. L'Eneide di Virgilio dipinta in Scandiano da N. Abbati. In disegni incisi da Ant. Gajani, ed illustrati con una memoria di Gi. Bt. Venturi. Modena, Vincenzi, 1821. large fol. with plates. It appeared in 4 Nos. L'Eneide e la georgica, volgarizzate in verso sciolto italiano da Mch. Leoni. Pisa, Nistri, 1821. 8°. 2 voll. Il libro I. e II. dell'Eneida ridotti in ottava rima da Gi. And. dell'Anguillara, ora diligentemente ristampati. Parma, Paganino, 1821. large 8°.

The first book of this last-mentioned translation by Anguillara was well known and often printed, (at first, *Padova*, 1564. 4°.) but of the 2nd book (*Roma, Bolani*, 1566. 12°.) two copies only have been for the

first time recently discovered. The above new edition is correct and fine, and provided with copious notes by Mch. Colombo. The translation, *L'Eneide e le egloghe in versi sciolti italiani. Abasso dell'avvocato A. Trolli. Pavia Capelli*, 1824-26. 12°. 2 vols. is a complete failure. Concerning the more ancient unprinted Italian translations see *Antologia*, T. 23822 VITEZ, Michaly. Poetai munkai, kiadtka Marton Joseph. (Poetical works, edited by Joseph of Marton.) Vienna, Pichler, 1813. 12°. 4 voll.

One of the best Hungarian poets.

23823 VITRUVIUS Pollio, M. Lucii Vitruvii Pollionis de architectura libri X. (ex rec. J. Sulpicii Verulani.) S. Jul. Frontini viri consularis de aquis quæ in urbem influunt libellus mirabilis (ex rec. Pomponii Laeti et J. Sulpicii). Without place or date (*Roma, G. Herolt*, about 1486). fol.

The first edition, with 34 lines, without signatures, catchwords, and numbering of the leaves. The Vitruvius contains 4 leaves of preliminary matter (*Epistola Sulpicii ad lectorem*, index etc.), and 94 leaves of text, and terminates with a leaf which contains the errata and register. The Frontinus, which also has a register at the end, contains only 16 leaves. Vacant spaces are left for the longer Greek passages, but single Greek words are printed in Latin characters. The text of Vitruvius appears to be a faithful impression of a MS.

23824 — de architectura libri X. Frontinus de aquæductibus. Politiani Panepistemon. Ejusdem Læmia. Flor. (without the printer's name), 1496. fol.

86 leaves in all with the signatures *a-L*, *aa*, *bb*, and again *aa*, *bb*. A reprint of the preceding edition with few deviations. The edition with *Cleonidas, Ven.* 1497. fol. (see above, No. 4816) is likewise merely a reprint of this.

23825 — M. Vitruvius per Jocundum

solito castigatio factus cum figuris et tabula, ut jam legi et intelligi possit. Ven., J. de Tridino, 22 Mai 1511. fol. with woodcuts.

4 leaves of preliminary matter, 110 numbered leaves, and 9 leaves, index and colophon. A new recension from MSS. in which nevertheless much is often arbitrarily altered on architectural grounds alone and at variance with the opinions of the author. The Greek passages are here complete for the first time, and this edition is also the first with figures. Jucundus Veronensis was the editor.

23826 — Vitruvius iterum et Frontinus a Jocundo revisi repurgatique quantum ex collatione licuit. Flor., Ph. de Giunta, m. Oct. 1513. 8°.

4 leaves of preliminary matter, 187 and 34 numbered leaves and 24 unnumbered. 6 copies on vellum are known. A new revision of the text of the preceding edition.

23827 — M. Vitruvii de architectura libri X. nuper maxima diligentia castigati atque excusi, additis Julii Frontini de aqueductibus libris propter materię affinitatem. Flor., her. Ph. Juntę, 6 cal. Nov. 1522. 8°. with woodcuts.

192 and 24 numbered leaves and 18 leaves of index. In this edition the misprints only of the preceding edition are corrected. The woodcuts are the same as in that.

23828 — de architectura libri X., summa diligentia recogniti atque recusati. Additis Jul. Frontini de aqueductibus libris, propter materię affinitatem. Without place or date (*Lugd., Huyon*), 1523. 8°. with woodcuts.

This edition, sometimes erroneously taken for a Juntine, is merely a reprint of the Juntine of 1522.

23829 — de architectura libri X., nunc primum in Germania excusi atque hinc inde schematicis exornati. Adjecimus etiam S. Jul. Frontini de aqueductibus urbis Romę libellum. Item ex libro Nic. Cusani de staticis experimentis fragmentum. Cum indice copiosissimo. Arg., in off. Knoblochiana, 1543. 4°. with woodcuts.

Merely a repetition of the text of Ju-

cundus. In the edition, *ib.*, Knobloch, 1550. 4°. Philander's annotations are added.

23830 — de architectura libri X., omnibus omnium editionibus longe emendatiores, collatis veteribus exemplis. Access. Gu. Philandri annotatt. castigatiores et locupletiores. Adjecta est epitome in omnes G. Agricolę de mensuris et ponderibus libros, eodem autore. Cum indice locupletiss. Lugd., J. Tornęsius, 1552. large 4°. with woodcuts.

The text of Jucundus forms the basis, which Gu. Philander, who superintended the edition, has sometimes altered from conjecture and MSS. His notes, which first appeared by themselves, *Romę, Dosena*, 1544. 8°. (*Ven., Stella*, 1557. 8°. is only a new title to this edition) and, *Par.* 1545. 8°. are valuable, particularly in an exegetical point of view. *Lugd.* (other copies, *Genevę*), 1586. 4°. is merely a reprint.

23831 — de architectura libri X. cum commentariis Dn. Barbari, multis ædificiorum, horologiorum et machinar. descriptionibus, et figuris, una cum indicibus copiosis, auctis et illustratis. Ven., Fr. Senensis, 1567. fol. with woodcuts.

Philander's text forms the basis, sometimes altered by Barbarus.

23832 — de architectura libri X. Cum notis, castigatt. et observatt. Gu. Philandri integris, Dn. Barbari excerptis, et Cl. Salmasii passim insertis. Pręmittuntur elementa architecturę collecta ab H. Wottono. Accedunt lexicon Vitruvianum Bernardini Baldi, et ejusd. scamilli impares Vitruviani. De pictura libri III. Leonis Bt. de Albertis. De sculptura excerpta ex dialogo Pomp. Gaurici. L. Demonstios comm. de sculptura et pictura. Cum variis indd. Omnia in unum collecta, digesta et illustrata a J. de Laet. Amst., L. Elzevir, 1649. fol. with woodcuts.

An edition very negligently and carelessly superintended, in which the text is frequently deteriorated, and the annotations of the earlier interpreters are often absurdly mutilated. Various readings from 2 MSS. are appended. The edition how-

however is finely printed, and is still sought after on that account.—Galiani's edition of 1758, see below in No. 23838. It contains a text corrected from 2 Vatican MSS. and excellent explanations of the subject matter.

23833 — de architectura libri X. Ope codicis Guelferbytani, editionis principis ceterorumque subsidior. recensuit, et glossario, in quo vocabula artis propria explicantur, illustravit A. Rode. Berol., Mylius, 1800. 4°. 2 voll. (3 d. 16 gr., on vellum paper 7 d. 8 gr.) 20 plates were published for this edition, ib. 1801. fol. (5 d., on vellum paper 6 d.)

23834 — de architectura libri X. Ex fide libror. scriptor. recensuit, emendavit, suisque et viror. doctor. annotationibus illustravit J. Glo. Schneider. Lips., Göschen, 1807–8. 8°. 3 voll. (7 d. 12 gr., on writing paper in 4°. 13 d. 12 gr.)

23835 — de architectura libri X., ad optt. edit. collati. Arg., 1808. 8°. (1 d. 16 gr.)

23836 — architectura. Textu ex recensione codicum emendato cum exercitationibus notisque novissimis J. Poleni et commentariis variorum, additis nunc primum studiis Simonis Stratico. Utini, MatiuZZi, 1825–29. large 4°. with plates and woodcuts. Also on vellum paper.

As yet Vol. I. P. 1. 2. Vol. II. P. 1. 2. Vol. III. P. 1. 2. have appeared.

23837 — de arquitectura, traduc. de latin en castellano por Mig. de Urrea. Alcala de Henares, 1587. fol. Los diez libros de arquitectura, traduc. del latin y commentados por Jos. Ortiz y Sanz. Madr., imprenta real, 1787. large fol. with plates (172 rs.)

The translation by Ortiz is made from the Italian of Galiani. Notwithstanding the use of 4 Vatican and 2 Escorial MSS. it is insufficient in the criticism of the text, although particularly good in the explanation of the subject matter.

23838 — de architectura libri dece traducti de latino in vulgare (da Cesare Cesariano). Como, Gotardo

The best edition and greatly sought after.

In many copies there is to be found in p. 342 a large plate by Seb. le Clerc, representing the large machine by which the two large stone blocks of the pediment of the Louvre colonnade were raised up. This greatly valued plate increases the price of the copy in which it is found nearly one quarter. The first edition, *Par.* 1673. fol. contains indeed the first impressions of the plates, but it is less complete and not sought after.

An important and rather scarce work. Each vol. contains 130 words from 200 languages, which however are printed in Russian characters. In many copies the important preface by Pallas is wanting.

A revision of this work was prepared by Thdr. Jankiewitsch de Miriewo by order of the empress Catharine. All the words of the first edition were here cited in alphabetical order, and were augmented with the words of the African and American languages, which could not be given so early as the 1st edition. This 2nd edition appeared, *Petrop.* 1790, 91. 4°. 4 voll. As however it did not obtain the approbation of the empress, the entire impression (according to Eichhorn) of 1000

copies was not published at all. This revision is consequently an uncommon rarity. Consult *F. von Adelung Katharinen der Grossen Verdienste um die vergleichende Sprachkunde. Petersb.* 1826. 4°. (3 d.)

23854 VOCABULARIUM latino-teutonicum, vulgo dictum: *Ex quo*. In Altavilla, H. Bechtermuntze, 1467. 4°. Gothic letter.

The appellation of *Ex quo* given to this work, which is epitomised from the *Janua Catholicon*, arises from the circumstance of its commencing with the words, *Ex quo vocabularii varii autentici* etc. This first and extremely scarce edition, of which the only copy yet known is in the Royal library at Paris, contains 164 leaves (165 according to Fischer) with 35 lines. It is printed with the types of the *Catholicon* of 1460, and is historically remarkable on account of its affording proof what became of Gutenberg's types.

23855 — — Eltvil, N. Bechtermuntze, 1469. 4°. Gothic letter.

165 leaves (according to Dibdin, 162 according to Brunet) with 35 lines. The 2nd edition, not less scarce and printed with the same types as the first. The 3rd and 4th editions, *Eltvil*, 1472. 4°. and *Mog.* 1477. 4°. are printed with different types.

23856 (VOCABULISTA.) Solemnissimo vohabulista (Italian and German). Bol., Dm. de Lapi, m. Apr. 1479. 4°.

56 leaves (the first blank) in 2 columns with the signatures a-f. This very scarce nomenclature contains the Bolognese dialect with a German translation by its side. An entirely similar Italian and German nomenclature had already appeared, (*Ven.*) *Adam von Rodueth*, 12 Aug. 1477. 4°. concerning which consult (J. Pt. Kohl's) *Briefwechsel der Gelehrten auf das J. 1750*. p. 345 sq. and Dibdin's *Ædes Althorp.* 11. 294. See also *Neuestes aus der anmuth. Gelehrsamkeit*, II. 671.

Previously, *Hmb.* 1732, 38, 47, or 53. 8°. That this book, not without merit at its earliest appearance (since the edition of 1753 is said to have received an entirely different form), now only possesses an historical interest and is only of value as shewing the inclinations of the Dutch and German collectors of the first third of the preceding century, but has throughout no essential bibliographical value, ought at last to be more generally acknowledged in Germany, than unfortunately is the case. Freytag's works have pointed out to German bibliography a far higher and more independent position, and anyone must now be totally unacquainted with the more considerable improvements effected in the science since that period both by Germans and by foreigners, particularly the French, who would defend Vogt's catalogue in the way that it has been done by the insipid reviewer of this dictionary in the *Leips. Lit. Zeit.*

The entirely superfluous new edition of this book is valued according to its merit by Langer of Wolfenbüttel in the *Neue allg. deutsch. Bibl.* XII. p. 540—543. And what can be said of an editor, who (not to mention other things) could insert in p. 820, *Editio hæc gratis in instructissimis bibliothecis quaritur!*

- 23863 VOLTA, Alessandro. Collezione di tutte le sue opere. Fir. 1816. 8°. 5 vols. with plates (50 paoli, on vellum paper 75 paoli).

- 23864 VOLTAIRE, Fr. Mar. Arouet de. Œuvres. Genève, 1768. 4°. 30 vols. with plates. Correspondance. Par. 1796. 4°. 15 voll.

This edition, although formerly prized, is now, together with the more modern one, no longer held in estimation, as it is incomplete and inconvenient, and the last 15 vols. are very negligently printed and on bad paper. Only the first 30 vols. are commonly met with.

- 23865 — œuvres (avec des avertissements et des notes par Condorcet.) Without type (*Kehl*), société littéraire et typographique, 1784—89. 8°. 70 voll.

This edition, arranged by Lettelier, is the finest and the most complete of the older editions, but is very incorrectly printed, and is neither well arranged nor superintended with sufficient critical care. Beaumarchais, who undertook it, bought, as is well known, Baskerville's printing establishment for the purpose, had even paper pre-

pared for it, and expended on this single undertaking about 3 millions of francs. Together with this 8° edition he at the same time prepared another in 92 vols. 12°, and had both the editions struck off on 5 different sorts of paper, on inferior paper, on ordinary (with the mark †), on large paper (with the mark * by the side of the signatures), on fine large paper, and on large vellum paper.

To this edition belongs a *Table analytique et raisonnée des matières*, par Chantreau. Par., an 9 (1801). 8°. 2 vols. and there may also be joined to it, *Supplément au recueil des lettres de Voltaire* (par Auger.) Par. 1808. 8°. or 2 vols. 12°.

There are also two series of plates, both from designs by Moreau, which are sometimes appended to this edition. The first series, which is greatly sought after, and appeared contemporaneously with this edition, consists of 108 leaves, about 25 copies of which have the plates *avant la lettre*. In these last, if they be genuine, the names of the engravers should only be given in exceedingly slight traces with the cold needle, and not completely engraved by the letter engraver. The second series appeared at Renouard's in Paris about 1802: it contains 146 leaves (185 fr., and with an addition of 21 small portraits 200 fr.), and is likewise very neat. Of this series a tolerable number of impressions *avant la lettre* appear to exist.

23866 — œuvres. Basle (other copies *Gotha*), 1784–89. 8°. 71 voll.

A reprint of the preceding edition, yet with some augmentations. Reprinted also, according to Beaumarchais, *Lyon, Delamollière*, 1791–92. 12°. 100 vols. Basle (other copies *Deux-ponts* or *Hambourg*), 1791. 12°. 100 vols.

23867 — œuvres. Nouv. édit., avec des notes et des observations critiques par Palissot. Par., Stoupe, 1792–1802. 8°. 55 voll.

Palissot removed from this edition with happy tact and fine feeling much that was unworthy of Voltaire, and reduced his correspondence to what was really interesting. At the same time he added excellent annotations and well written introductions. But those who were rigorous for the completeness of Voltaire were not content with this selection, and the far too indifferent printing injured the sale of edition.

23868 — œuvres complètes. Par., Desoer, 1817–19. 8°. 13 vols. with the table (156 fr., on vellum paper 312 fr.).

An édition compacte, so called, and con-

sequently not fine; it is however convenient, better arranged than the earlier editions, and contains some augmentations. The table is by Alex. Goujon.

23869 — œuvres complètes. Par., Deterville et Lefevre, 1817–20. 8°. 42 vols. with the table (217 fr., on vellum paper 434 fr.).

As complete as the preceding and finer than it, but not very correct. Superintended by Miger, by whom also the table was drawn up.

23870 — œuvres (publiées par Adrien Beuchot et L. Duhois.) Par., Peronneau, 1817–20. 12°. 56 voll. (200 fr., on vellum paper 400 fr.)

Neither fine nor even quite correct; but better arranged than the earlier editions, and superintended with real critical care. The text is frequently and almost always happily corrected; and Beuchot's advertisements and annotations are instructive in a high degree.

23871 — œuvres. Par., Renouard, 1819–23. 8°. 66 vols. with 113 vignettes after Moreau, and 47 portraits (450 fr., on large vellum paper 720 fr., with plates *avant la lettre* 850 fr.).

As yet the finest, the most complete, and the most correct edition.

The invaluable copy of the first Dresden edition, mentioned in my *Ueberlieferungen*, T. I. p. 97, which Voltaire had furnished with cancels and MS. corrections in his own handwriting for the purpose of a new impression, has been again discovered. I hope shortly to be in a condition to impart more particular information respecting it.

23872 — la Henriade suivie de quelques autres poèmes. (*Kehl*), société littér. et typographique, 1789. large 4°. on vellum paper.

Of this edition, not greatly sought after in France, there is a copy on vellum.

23873 — — Par., Didot, 1790. large 4°. on vellum paper.

Only 250 copies were struck off. A copy on vellum sold for 200 fr. at Galitzin's sale in 1785.

23874 — — Par., Didot, 1819. large fol. on vellum paper (175 fr.).

Only 125 numbered copies were struck off.

23875 — — Par., Didot, 1819. large 4°. with 2 plates.

This splendid edition was printed with the same types as Souza Botelho's edition of Camoens's *Luísíada*.

23876 — la pucelle, poëme, suivi des contes et satires. (*Kehl*), société litt. et typogr. 1789. large 4°. on vellum paper.

Only sought after in France when Moreau's plates are added. There are copies on vellum. There are copies of the edition (*ib.*), 1789, small 8°. 2 vols. on vellum paper, with 18 neat, but far too free plates, which were engraved in England.

23877 — la pucelle d'Orléans, poëme en 21 chants. Par., Didot, 1797. large 4°. 2 vols. on vellum paper, with plates.

There are copies on large paper in folio, and one copy on vellum in folio with coloured plates.

23878 — la pucelle. Par., Crapelet, an 8 (1800). large 8°. 2 vols. with plates by Monsiau. Also on vellum paper.

A fine edition of this interesting work, and scarce on account of its having been printed at the author's private press, which at the same time has the merit of possessing the first impressions of the fine portraits. These are less fine in the 2nd edition, *ib. 1765.* 4°. 4 vols. The *Catalogue of engravers*, mentioned in No. 23922, should be added to both these editions.

WALTHERUS, see GALTERUS.

23930 WALTHER, J. Ldf. Lexicon diplomaticum, abbreviationes syllabarum et vocum in diplomatibus et codicibus a seculo VIII. ad XVI. usque occurrentes exponens, junctis alphabetis et scripturæ specimenibus integris. Studio J. Ldf. Waltheri. Cum præf. J. D. Kœleri. Gottingæ, ap. J. Pt. et J. W. Schmidios, 1745-47. fol. 3 parts in 1 vol.

This uncommonly careful and laborious work has only the fault of mixing up together the characters used in original documents and in books, and thereby only ranking as an ordinary, although indispensable book of reference, whereas by a more strict separation of these characters it would have obtained a direct scientific importance. There are 3 different sorts of copies.

1. With the above title and date. Here vol. I. has 3 printed leaves of preface and 55 leaves of plates, besides the above engraved title. Vol. II. with the printed half-title, *J. L. Waltheri lex. dipl. Pars II.* has 58 leaves of plates and 19 printed leaves of index. Vol. III. has an engraved title agreeing with the above; only here, after *Waltheri*, there is added, *cum præf. J. H. Jungii. Gott., ap. J. W. Schmidium*, 1747. fol. Then follow 8 printed leaves of preface, and 28 leaves of plates.

2. With the engraved title, *Lexicon diplomat. . . . Waltheri. Cum præf. J. H. Jungii. Gott., ap. J. W. Schmidium*, 1752. After this title follow 8 leaves of printed preface, and 28 leaves of plates; next a printed half-title, *J. L. Waltheri lexici dipl. Pars II.* then 113 leaves of plates (numbered over the columns 1-459, and on the lower side of each page 1-CCXXV) and 19 printed leaves of index.—

J. D. Koehler's preface is entirely wanting in these copies, and they have no separate title for a 3rd part, which is not necessary, as the 28 leaves of plates that accompany it are placed immediately at the commencement of the work, and the lexicon then follows without interruption.

3. With a new title, *Ulma, Gaun*, 1756. because this bookseller bought the plates of the former publisher, had only 200 impressions taken, according to his own assertion, and caused the preface and index to be printed anew.

It follows therefore that Nos. 1 and 2 contain the first impressions, which must necessarily possess the greatest value for palæographers, and that the copies of No. 2 differ in nothing from those of No. 1, except in the absence of the unimportant preface of Koehler's; whereas, on the other hand, they possess the advantage of being more conveniently arranged. The edition of No. 3, on the contrary, contains later and worse impressions of the plates.

As the copies of No. 3 bear a price of 20 dollars (see *Weigel's Appar.*, No. 7748), it is evident that the original impressions of Nos. 1 and 2 may at least claim the price of 25. Lastly, the copies of all 3 editions are daily becoming scarcer in Germany.

WALTON, see BIBLIA polyglotta.

23931 WANKULI. Logath Wankuli s. dictionarium arabico-turcicum. Cpl. 1141 (1728). fol. 2 voll.

This is Gieuhari's Arabic lexicon with a Turkish explanation by Mohammed, son of Mustapha Al-Wani (that is, of Wan in Armenia). The first typographical production of the printing establishment erected at Constantinople under Achmet III. The impression consisted of 1000 copies at 35 piastres each. The 1st vol. contains 12 unnumbered leaves of preliminary matter and 666 pages: the 2nd, 755 pages and 5 leaves of errata.

A 2nd edition, Cpl. 1758. fol. 2 vols. is said to be less correct (see *Schnurreri Bibl. arab.* p. 72). A 3rd edition, *Soutari*, 1217-18 (1802-3). fol. 2 vols.

The plan of at the same time affording a biographical and bibliographical dictionary of authors and literature, and a general scientific *repertorium* in alphabetical order, was too adventurous for him to succeed in. The work, immense industry as it displays, is nevertheless so faulty, so little to be depended upon, and so incomplete, that it ought only to be made use of with the greatest caution. This was also so soon acknowledged in Great Britain, that its price was very considerably reduced scarcely two years after its first appearance, and will most probably fall still lower.

But since Benailey of London has published a new impression, it has greatly fallen in price. Consult *British librarian*, p. 86. *Beloe Anecdotes of literature*, l. 234.

The very scarce original edition, as a pretended earlier edition, *Leips.* 1480. 8°. (which would also be at the same time the first Leipsic typographical production with a date) probably does not exist. At Wolfenbüttel there is a more recent edition, (*J. Widman's*) *Behennde vnnnd hübsche Rechnūg auff allen Kauffmannschafften.* Augsp., H. Stayner, 1526. 8°. with woodcuts, which represent the object given as an example in each reckoning.

23991 WIGALLOIS der Ritter mit dem Rade, getihtet von Wirnt von Gravenberch, herausg. von G. F. Benecke. Berl., Reimer, 1819. 8°. (3 d. 8 gr.)

The first impression of this poem of the 13th century, concerning which see *Hagen's Grundriss*, p. 135 sq.

23992 — *Wigoleys vom rade vom grafcuperg.*—At the end, *Gedruckt vnd seliglichen vollendet in der Keyserlichen stat Augspurg vō hansen schönspurger als man zalt vō d' gepurt Cristi Tausent vierhundert vnd lxxxiii. jare am freytag nach sent Felicen tag.* In fol. with woodcuts.

This extremely scarce typographical pro-

duction contains probably the prose form of the above poem, prepared in 1472. Heineken, in his MS. *Catalogue des livres ornés de figures de bois* (in the Dresden library), remarks in p. 500, *L'exemplaire que j'ai devant moi, n'a point de commencement.*

23993 — Ein gar schöne liepliche vnd kurtzweilige History von dem Edelen herren Wigoleis vom Rade. Ein Ritter von der Tafelronde. Mit seinen schönen hystorien vnd figuren. 23997 — Historie om Ridder Vingo-leis med Guldbiulet. Kbhvn. 1656. 8°.

23998 WILDE, Jac. de. *Selecta numismata antiqua, ex museo Jac. de Wilde*. Amst. 1692. 4°. with plates.

23999 — *signa antiqua e museo Jac. de Wilde, veterum poetarum carminibus illustrata, et per Mariam filiam æri inscripta*. Amst. 1700. 4°. with plates.

Herewith ought also to be found, *Sacrificium Priapi cum epigrammate Gronovii*, which is often wanting.

24000 — *gemmae antiquæ selectæ sive 50 tabulæ diis deabusque gentilium ornatæ, conjecturis veterumque poetarum carminibus illustratæ*. Amst. 1703. 4°. with plates.

These works are of little value, because the representations are so little to be depended upon, as even to be altogether useless. This is particularly the case with

the last work on gems, where in each table of plates the figures of the deities, which are noticed therein, are the principal thing attended to, and the gems themselves are made merely a secondary object. The drawing is also quite unsatisfactory.

M. von Klenze has undertaken to prove in the *Tübing. Kunstblatt*, 1824. No. 36. p. 143 sq., that this work is so incorrect, and so little to be depended upon, as to be useless.

monumens antiques, avec un texte tiré des anciens auteurs. Par., l'auteur, 1798-1802. large fol. 2 vols. with 180 plates.

Of this work, which appeared in 30 Nos. at 9 fr. each, there are copies on very large paper, which were intended to complete the series of Piranesi's works (see this article), but they have no text.

24008 — monumens français inédits, avec l'explication. Par. 1806 sq. fol. with plates.

It was to have contained 46 Nos. (at 12 fr. each), which would form 3 vols. The work however proceeds very slowly, and the last No., that I know of, is the 2nd of the text, which appeared in 1827.

24009 WILLERAM. Wilrammi in cantica Solomonis (*sic*) mystica explanatio, per Menradum Moltherum in lucem restituta. Hagenoæ, Gu. Seltz, 7 Sept. 1528. 8°.

The first edition of this Latin work, and very scarce. 8 leaves of preliminary matter, 87 numbered leaves, and 1 leaf with the printer's symbol.

24010 — in canticum canticor. paraphrasis gemina: prior rhythmis latinis, altera veteri lingua francica. Addita explicatio lingua belgica et notæ, quibus veterum vocum francicarum ratio redditur. Edente P. Merula. LB., Cp. Raphelengius, 1598. 8°.

24011 — Fr. Junii observatt. in Willeramii francicam paraphrasin canticor. Amst., typis et sumtibus authoris, 1655. 8°.

24012 — Vhralte verdolmetschung dess Hohen lieds Salomonis. Aus Abt Walrams berühmter Teutschen Auslegung, die Er vor 550 Jahren darüber gestellt hatt, abgedruckt. Von Gotthard Vögelin. Worms, J. Mayerhoffer, 1631. 8°. 36 leaves.

An extremely scarce edition, which does not contain the Latin text. It is very important, because it was made from an Ebersperg original MS. There is a copy in which the following pieces are also bound up (probably as completions), *In Willeramii expositionem super canticum canticor. nota, varia lectt., supplementa Marg. Freheri.* ib. 1631. 8°. 14 leaves.

Heimonis Expositio super cant. canticor. ib. 1631. 8°. 4 leaves of preliminary matter, and 79 leaves or 158 pages. *In Otfriedi Evangelior. librum emendationum Marg. Freheri editio postuma.* ib. 1631. 8°. 8 leaves of preliminary matter, and 26 pages or 13 leaves.

The best edition as yet is that (with the earlier and modern notes) in *Schilleri Antiqq. Teuton.* T. I. Some new various readings are in *Fd. Weckherlin's Beitr. zur Geschichte alldentscher Sprache u. Dichtkunst.* Stuttg. 1811. 8°.

24013 WILLUGHBEJUS, Fr. Ornithologia libri III. Recognovit, digessit, supplevit J. Rajus. Lond., Martyn, 1676. fol. with 77 plates. Also on large paper.

The English translation by J. Ray, Lond. 1678. fol. with 78 plates, is considerably enlarged.

24014 — de historia piscium libri IV. Totum opus recognovit, coaptavit, supplevit, librum I. et II. integros adjecit J. Rajus. Ox., th. Sheld., 1686. fol. with 178 and 10 plates. Also on large paper.

There ought to be an appendix of 30 pages at the end.

24015 WILMET, J. Lexicon lingue arabicæ in Coranum, Hariarium et vitam Timuri. Roterod. 1784. 4°.

This work, executed with great industry and accuracy, often goes too far in its efforts to assign to every radical word its primary signification.

24016 WILSON, Alex. American ornithology. Philadelphia, 1809-14. fol. 9 vols. with plates (36 guineas).

A splendid work, and at the same time, of great scientific value.

24017 WILSON, Arthur. The inconstant lady, a play, now first publish. from the original MS. in the Bodlejan library, with his life and notes. Oxf. 1814. 4°.

Only 120 copies were printed.

24018 WILSON, Horace Hayman. A dictionary Sanscrit and English: translated, amended and enlarged from an original compilation prepared by learned natives for the

college of Fort William. Calcutta, printed by Ph. Pereira, at the Hindostanee press, 1819. 4°.

24019 WINCKELMANN, J. Jo. Werke, herausg. von C. L. Fernow, H. Mayer u. J. Schulze. Dresd., Walther, 1808–20. 8°. 8 vols. with plates (23 d. 8 gr.).

There are also copies on writing paper. Copies on vellum paper have already become very scarce. The present possessor of the stock in trade has had new impressions of the excellently preserved plates struck off on vellum paper, which are so much the more valuable as the earlier impressions were made on very inferior paper. Every possessor of one of the older copies ought therefore to make haste to procure these new and much finer impressions, which have been also published in a separate oblong fol. part.

The indisputable industry of the editor does not compensate for the dishonesty with which the more recent edition, *Winckelmann's Sämmtliche Werke. Einzige, vollständige Ausgabe, von Jos. Eiseleins Donauwörthingen*, 1825–29. 12°. 12 vols. with a (badly) lithographed atlas of 40 leaves in fol. was undertaken. Its being "the only complete edition" is little more than a mere pretence.

24020 — Geschichte der Kunst des Alterthums. Dresd., Walther, 1764. 4°. 2 vols. with plates. Anmerkungen über die Geschichte der Kunst des Alterthums. ib., id., 1767. 4°.

The fine original edition of this immortal work. The 2nd edition, *Wien*, 1776. 4°. 2 vols. with plates, was superintended (by (F. Just. Riedel) with inconsiderate, and in part ignorant caprice, and MS. additions of Winckelmann were made use of. In French by Mch. Hüber, *Leips.* 1781. 4°. 3 vols. with plates. *Par.*, Jansen, an XI. (1802). 4°. 3 vols. with plates. In Italian (by C. Amoretti), with annotations by C. Fes, *Rom.* 1783–84. 4°. 3 vols.

24021 — description des pierres gravées du feu baron de Stosch. Flor., Bonducci, 1760. 4°.

There are copies on large paper. To some copies there are also added representations of the *pierres gravées* of the cabinet (about 12 leaves), which were only given away as presents; see *Winckelmann's Briefe an Muzel-Stosch*, B. I. p. 162.

24022 — monumenti antichi inediti spiegati ed illustrati. Roma, Paggiarini, 1767. fol. 2 vols. with 67 plates, or 208 representations.

In Italy the following work by St. Raffaele is added as a 3d vol.; *Ricerche sopra un' Apolline della villa Albani. Roma*, 1772. fol. with plates. *Saggio di osservazioni sopra due bassirilievi della villa Albani. ib.* 1773. fol. with plates. *Dissertazione sopra un singolare combattimento. ib.* 1779. fol. with plates.—In German by F. Lp. Brunner, *Berl.* 1791–92. fol. 2 vols. with 208 plates (22 d.). In French by Ant. Fantin Desobords, *Par.* 1808. 4°. 3 vols. with 208 plates (180 fr., on vellum paper 216 fr.).

24023 — Briefe an seine Freunde, herausg. von C. W. Dassdorf. Dresd., Walther, 1777. 8°. 2 voll. Briefe an Herrn H*** (Heyne). Leipz., Schneider, 1776. 8°. Briefe an seine Freunde in der Schweiz (herausg. von Lh. Usteri). Zür., Orell, 1778. 8°. (J. Csp. Füßli) Geschichte von W's Briefen an seine Freunde in der Schweiz. Zür., Füßli, 1778. 8°. Briefe an einen seiner vertrautesten Freunde (Muzel-Stosch). Berl., Nicolai, 1781. 8°. 2 voll. Briefe an einen seiner Freunde in Liefeland (F. Rdf. v. Berg, herausg. von J. F. Voigt). Coburg, Ahl, 1784. 8°.

A dishonest collection of Winckelmann's letters appeared at Berlin in 1824–25 in 3 vols. Its notes evince ignorance and haste, and it is by no means complete.

(Dm. de Rossetti) *Sepolcro di Winckelmann in Trieste. Ven., Alvispoli*, 1823. large 4°. with plates (of which there are also copies on very large paper in large folio), is a classical work for the bibliography that relates to Winckelmann.

24025 WITSEN, N. Noord- en Oost-Tartarye, ofte bondig ontwerp van eenigen dier landen en volken. Amst., Halma, 1705. fol. 2 vols. with plates and maps.

The best and extremely scarce edition of
603

this work, which is still very important for the knowledge of northern and eastern middle Asia. The earlier edition, *Amst.* 1692. fol. was suppressed by the author himself, because it did not satisfy him; and scarcely was the 2nd edition ended, when he withdrew it with equal strictness, probably for the same reason, from the eye of the public. Single copies that have been met with have in consequence sold as high as 80 dollars, yet in the most recent instance, Meermann's copy only sold for 16 fl. 25 cent. After the author's death, his heirs first brought forth the copies now to be met with in the market, and these appeared with the date, *Amst.* 1784. fol., but they do not contain all the engravings of the earlier edition, because some of the plates were no longer to be found. The new edition, *Amst.*, *Schalekamp*, 1805. fol. 2 vols. with 92 plates and maps (11 fl.), is enlarged with an introduction by P. Boddaert, and a map of the entire Russian empire, in which all discoveries are noticed up to 1784. Consult *G. F. Müller's Samml. russ. Geschichten*, I. 196. *J. One of the oldest printed German collections of riddles, of which Panzer, in the *Suppl. der deutsch. Annal.* p. 25, only knew an edition, *ib.*, without date. 4°. of 22 leaves. This collection is in part extremely interesting.—See also RÄTHSEL and RETERBÜCHLEIN.

Among the oldest French riddles are those which are appended to the *Mots dorez du grant et saige Caton. Par.*, without the printer's name or date. 16°. Gothic letter. They are in verse and prose, but evince the infancy of the enigmatic art.

A *Collectanea* heretofore greatly sought after. The index is sometimes wanting. The edition, *Ff. a. M.*, *Grossius*, 1671. fol. 2 voll., is less prized.

24030 WOLF, J. Cp. Anecdota græca sacra et profana, ex codd. manu exaratis nunc prim. in lucem edita, versione lat. donata et notis illustrata. Hamb., Felginer, 1722–24. 8°. 4 voll.

- 24035 WOOD, Ant. *Historia et antiquitates universitatis Oxoniensis. Ox., th. Sheld, 1674-75. fol. 2 voll.*

A Latin translation, done by others at the suggestion of bp. Fell, of a work which the author had originally written in English. Wood in his preface expresses himself dissatisfied with this translation. The English original first appeared long after under the title, *History and antiquities of the colleges and halls, by Gulch. Oxf. 1786-90. 4°. 2 vols. History and antiquities of the univ. of Oxford. ib. 1792. 4°. 2 vols.*

- 24036 — *Athenæ Oxonienses. The history of all the writers and bishops who have had their education in the university of Oxford from the year 1500. To which is added Fasti Oxonienses or the annals of the said university. First written by Ant. Wood and now very considerably augmented in text and notes by Ph. Bliss. Lond., Lackington, 1813-1819 large 4°. 4 vols. (15l. 15s.)*

This new edition forms an indispensable authority for the history of British literature and authors. There are 25 copies of it on large paper in fol. The earlier editions, *Lond. 1691-2, or ib. 1721. fol. 2 vols.* are now of little value. There are also copies of the edition of 1721 on large paper.

précieuses antiques, pour la plupart dans la possession de la noblesse de ce royaume, gravés dans le goût de Rembrandt. Lond., Dryden Leach, 1768. small fol. 2 voll.

This splendid work contains 180 plates, and besides them, a portrait before the 1st vol., a Medusa before the 2nd, and at the end the combat of Hercules with the lion. There are also copies with an English text, (*Select collection of drawings from curious antique gems.*) There is a copy of this last sort with the plates on satin (50l. Edwards, 1796.)

Although this edition bears the date of 1768, it nevertheless appeared after 1780, and it was ante-dated, only that it might be published as the original edition, which really appeared in that year, and contains finer impressions but no text.

The royal librarian J. Gramm had this collection first printed at Copenhagen in 1728. But scarcely was the printing finished, (with the exception of the preface and index) when the large fire that happened there in the same year destroyed almost half the sheets that were printed. Scarcely 8 copies remained complete, 2 of which brought as much as 20 dollars at Gramm's sale. The entire impression of the sheets that were preserved from the flames, were purchased at the same sale by some members of the Royal academy, and they caused the sheets that had been burnt to be printed afresh. Thus the present

edition originated, which however has again become a rarity. Consult *Hamburger Vermischte Bibl.* T. I. p. 23 not. *Neuestes aus der anmuth. Gelehrsamk.* I. 642 sq.

251 leaves, without signatures, catchwords and numbering of the leaves, with 38 lines. This first and extremely scarce edition has no title, but leaf 1^b begins with a notice of the translations contained in this work; *Item in der ersten translation dies buches von Euriolo.* The dedication to Jergen von Absperg, which is dated, Stuttgart, 5 Apr. 1478, commences leaf 3^b. Leaf 7 is blank, and the translations themselves begin in leaf 8a. The types are entirely the same as those with which Fyner printed in 1477 the *Stern des Meschia*, (see NIGER above). The best part is the various readings from a Paris and a Vatican MS. In other respects the editor has had Gesner's faulty edition printed over again, and has distri-

buted Fabricius's corrected text amongst the various readings.

24061 — de alimento ex aquatilibus, (gr.) cum lat. interpretat. J. Bt. Rasarii, scholiis Cr. Gesneri et notis integris J. G. F. Franzii. Acced. novæ variæ lectt. ex codd. MSS. depromptæ, et animadvv. 2 leaves of preliminary matter (title, preface and privilegium,) 189 unnumbered leaves of Greek text (leaf 144 or 88 is blank) and 1 leaf with the lily. The first edition, superintended by Euphrosinus Boninus, but incomplete, incorrect and with lacunæ. *Agasilas, Apol. Socr.* and *De vectigalibus* are wanting in this edition.

24064 — omnia quæ extant (gr.) Ven., Aldus et And. Asulanus, m. Aprili, 1525. fol.

4 leaves of preliminary matter, 87 numbered leaves, 2 blank leaves, 116 unnumbered leaves, and 1 leaf with the anchor. Leaves 84 and 85 are by a misprint num-

bered 85 and 86, so that it might at first be supposed that leaf 84 was wanting. This edition, superintended by Fr. Asula, contains indeed several pieces, never before printed (yet the *Apol. Soor.* is wanting), most of the *lacunae* of the preceding edition are filled up, and also contains on the whole a better text: but it is notwithstanding very unsatisfactory, and is rather incorrectly printed.

- 24065 — omnia quæ extant (gr.). Flor., her. Ph. Juntæ, 1 Dec. 1527. fol. 212 leaves.

A repetition of the first Juntine, yet with the addition from the Aldine of those pieces that were wanting.

- 24066 — opera omnia in tres partes distincta (gr. cum præf. Ph. Melanthonis.) Halæ Suevor., without the printer's name (*Pt. Bruback*), 1540. 8°. 3 parts in 1 vol.

8 unnumbered leaves of preliminary matter and 983 numbered leaves. An incorrect reprint of the Juntine.

- 24067 — opera, quæ quidem extant, omnia, tam græca quam latina, hominum doctissimorum diligentia partim jam olim, partim nunc primum latinitate donata, ac multo accuratius quam antea recognita. Bas., N. Brylinger, 1545. fol.

13 leaves of preliminary matter, (title, preface and index,) and 678 pages: with a preface by Albanus Torinus. Merely a reprint of the preceding or of the Juntine.

- 24068 — opera, quæ quidem græce extant, omnia, duobus tomis distincta, ac nunc primum a Seb. Castalione a mendis repurgata et accuratissime recognita. Acced. græcorum gestar. index. Bas., Isingrinus, without date (about 1553.) 8°. 2 voll.

8 leaves of preliminary matter, 651 and 859 numbered leaves and 22 leaves of index. As Melanthon's preface of 1540 has been here reprinted, this edition has been commonly but erroneously set down in this year: since in 1540 Castellio was only 25 years old, and not yet at Basle, where he first came in 1544. And as besides this the printer announces in his coarse preface that he had suffered the edition delivered to him by Castellio to remain some time before he determined to print it at his repeated entreaties, the edition can consequently be scarcely set down earlier than about 1553, in which year,

and from the same printing establishment also appeared an edition of the Latin translation of Xenophon in 8°. done by Castellio. This latter work, which is tolerably scarce, consequently belongs essentially to the above edition.

The Juntine text forms the basis, which Castellio has corrected in numerous places, either from conjecture or from MSS. He appears however to have neglected the Aldine.

- 24069 — omnia quæ extant opera, multorum veterum exemplarium ope a multis sordibus purgata. In Xenophontem annotatt. H. Stephani. Excud. H. Stephanus, 1561. fol.

8 leaves of preliminary matter, and 587 pages of Greek text, 42 pages and 1 leaf of annotations. A new recension from MSS., conjecture, and the collation of other Greek authors; the Aldine text forms the basis. The edition is fine and sought after, and copies on large paper are very scarce; (140 fr. le Seigneur, 4l. 4s. Bridges.) A copy on vellum is in the Elizabeth library at Breslau. The Latin translation which is sometimes to be found in the copies, does not belong to this edition, but to Stephens's 2nd edition of 1581.

- 24070 — opera, quæ quidem græce extant, omnia: eademque eruditissimorum virorum labore in lat. linguam conversa: ac nunc primum de integro recognita et in lucem edita. Access. J. Brodæi in omnia ejus opera græco-latina annotatt. Bas., her. N. Brylingeri, 1568. fol.

8 leaves of preliminary matter, 678 pages and 1 leaf (*de Xenophonto ex Suida.*) But the notes of Brodæus are not to be found therein, at least not in the Dresden copy. These notes had previously appeared by themselves under the title, *In omnia Xen. opera tam gr. quam lat. annotatt.* Bas., N. Brylinger, 1559. fol. 1 leaf, title and 50 pages.

This edition is only a new title to the earlier edition, *Bas., N. Brylinger, 1555. fol.* Both are reprints of Castellio's text and of the Latin translations executed by him, and the readings of the Basle edition of 1545 have only remained in some few places by mistake.

- 24071 — omnia, quæ exstant, opera (gr. lat.), J. Lewenklajo interprete: cum annotatt. ejusd. et indice copioso. Bas., Th. Guarinus, 1569. fol.

6 leaves of preliminary matter, 790 pages

of text, and 22 unnumbered leaves of annotations and index. It contains Stephens's text, sometimes altered from conjecture. The peculiar merit of this edition consists in Lewenklaus's new Latin translation. *Bas.*, Guarinus, 1572. fol. and *Bas.*, Zetsner, 1595. fol. are only new titles to this edition. In all the 3 sorts of copies p. 497 is wrongly numbered as 597.

24072 — quæ exstant opera (gr. lat.) Annotationes H. Stephani, multum locupletatæ. Ed. II. Excud. H. Stephanus, 1581. fol.

6 leaves of preliminary matter, 584 pages of Greek text, 76 pages of annotations, 8 leaves and 428 pages of Latin translation and 9 leaves of index. A new execution of his earlier recension, and greatly sought after, although not quite so finely printed as the edition of 1561. There are copies on large paper. The Latin translation is sometimes wanting.

24073 — quæ exstant opera, in duos tomos divisa: græce multo quam ante castigatius edita, adjecta etiam ad marginem scripturæ discrepantia: latine tertia nunc cura ita elucubrata, ut nova pene toga prodeant: nova insuper adpendice illustrata: opera J. Leunclavii. Additus index rer. et verbor. Ff., her. And. Wechel, 1594. fol. 2 parts in 1 vol.

6 leaves of preliminary matter, 1158 pages, 13 leaves, index, and 1 leaf with the printer's symbol. Before p. 649 is a title page to the 2nd part, likewise of the year 1594. This edition deviates little in the text from that of 1569, but the Latin translation is worked up anew, and far more carefully. As Leunclavius died during the printing, F. Sylburgius added the preface.

24074 — quæ exstant opera opera J. Leunclavii (as in the preceding title.) Access. Æmilii Porti notæ et index græcus verborum phrasiumque. Additus index rer. et verbor. Ff., her. And. Wechel, 1596. fol.

6 leaves of preliminary matter, 1213 pages, text and annotations, 28 leaves, index, and 1 leaf with the printer's symbol. Merely a new title to the preceding, to which only the notes of Portus, from p. 1160 to 1213, and also an *index Græcus* with the signatures CCcc to GGgg, have been added. Portus's notes had previously appeared by themselves (*Morgii*), J. le Preus, 1586. 4°.

24075 — quæ exstant opera etc. (as in

No. 24073.) Lutet. Par., typis regis, 1625. fol.

A literal reprint of the preceding edition, finer but less correct. Copies on large paper are scarce and sought after.

24076 — opera, quæ exstant, omnia, gr. et lat. (cura Ed. Wells), una cum chronologia Xenophontea H. Dodwelli et quatuor tabulis geographicis. Ox., th. Sheld, 1703. 8°. 5 voll.

Although this edition is neither fine nor correct, nor of essential value, (Wells altered the text arbitrarily, and mostly without grounds) yet is it greatly sought after by collectors, and bears a tolerable price. It is formed by separate vols. that appeared in different years, being put together and furnished with a general title of 1703. Vol. I. contains *Cyri maj. institutio* (1703). Vol. II. *Cyri min. expeditio* (1696). Vol. III. *Hist. hellenica* and *Dodwelli chronol. Xenoph.* (1700). Vol. IV. P. 1. *Socr. memorabilia et apol.* (1694). P. 2. *Econom.* (1693). Vol. V. P. 1. *De Agésilao* etc. (1691). P. 2. *De re equestri* etc. (1693). There ought also to be found at the end of this 5th vol. 14 leaves, *Testimonia de Xenoph.* 2 leaves, *Imperatorum Persicorum series*, 45 pages, *Index* and 1 leaf of advertisements of books for sale. It should also be observed whether there is an engraving before each title, and a bust of Xenophon before the 1st vol., and care must be taken that the 4 maps be not wanting.

Complete large paper copies of this edition are of the greatest rarity, and the first 2 vols. especially are most difficult to meet with on large paper. As yet only 3 quite complete copies on large paper are known in England: in the Radcliffe library at Oxford, in lord Spencer's, and in the possession of some unknown person. (This last copy was sold at a London sale in 1824 for 158l. 11s. as it had vol. V. P. 1. only on small paper.) Sir Mark Masterman Sykes's copy, which had the 2nd vol. on small paper, went for 26l. 5s., and M'Carthy's, which wanted the last 40 leaves of the 5th vol. for 1520 fr.

24077 — græcor. res gestæ et Agesilaus, gr. lat., ex rec. Ed. Wells. Glasg., Rb. et And. Foulis, 1762. small 8°. 4 voll. De *Cyri expeditione*, gr. lat., ex ed. Th. Hutchinsoni. ib., iid., 1764. small 8°. 4 voll. De *Cyri institutione*, gr. lat., ex ed. Th. Hutchinsoni. ib., iid., 1767. small 8°. 4 voll.

A neat impression. The Foulises also printed separately, *De Agesilao*, ib. 1748. small 8°. *Hieron.* ib. 1745. small 8°—*Glaug.* 1812. small 8°. 10 voll. (4l. 10s.) contains a neat impression of the text of all the works after Zeune's and Schneider's recension.

24078 — opera, gr. lat., ex rec. Ed. Wells. Acced. dissertatt. quædam et notæ viror. doctor. cura C. A. Thieme, cum præf. J. A. Ernesti. Lips., Gleditsch, 1763–64. 8°. 4 voll. with maps and plates (8 d., on writing paper 10 d.)

A very correct repetition of Wells's edition with good corrections of the text and the addition of three treatises by Hutchinson.

A new title, *Lips.* 1801, was added to it, as after a long delay appeared the index belonging thereto, *F. Gu. Sturz Lexicon Xenophonæum.* Lips., Gleditsch, 1801–4. 8°. 4 voll. (13 d. 8 gr., on writing paper 17 d. 8 gr.)

24079 — quæ exstant (gr.). Ex libr. scriptor. fide et viror. doctor. conjecturis denuo rec. et interpretatus est J. Glo. Schneider. Lips., Hahn, 1815. 8°. 6 voll. (10 d. 12 gr.)

This edition consists of the following vols., which had previously appeared separately, now collected together under one general title: Vol. I. *Cyropædia*, 1815. (2 d. 12 gr.) Vol. II. *Anabasis*, 1806. (1 d. 16 gr.) Vol. III. *Hist. Græca*, 1821. (1 d. 20 gr.) Vol. IV. *Memorab. Socor.* 1801. (1 d.) Vol. V. *Æconom., sympos., Hiero et Agesil.* 1805. (1 d.) Vol. VI. *Opuscula Politica, equestris et venatica cum Æliani libello de venatione* 1815. (2 d. 12 gr.) — Reprinted, *Ox.* 1810–17. 8°. 6 voll. (3l. 4s., on large paper 6l. 4s.)

24080 — œuvres complètes, traduites en françois et accompagnées du texte grec, de la version latine et de notes critiques, par J. Bt. Gail. Par., an 5 (1797)–1816. large 4°. 7 parts in 11 voll. with plates and maps, (180 fr., on vellum paper 350 fr.)

There are 2 copies on vellum. The editor has at least afforded a rich apparatus for criticism, and essentially contributed to the explanation of the subject-matter. The atlas of 54 maps is of the greatest importance, and done by the first masters. The collation of the work, which is somewhat confused, see in *Vanpraet Catal. second des livres impr. sur vél.* III. 27, and in *Gail.*

gel. Ans. 1810. p. 714, and 1818. p. 113. A later title with the date of 1814 has also been printed for the 1st vol. In addition there subsequently appeared, *Recherches histor., géogr., philol. et critiques.* Par. 1822. 4°. 2 voll. (50 fr., on vellum paper 100 fr.)

24085 — *de Cyri institutione libri VIII.* (gr.) Etonæ, excusum in collegio regali, 1613. 4°.

The pagination, 225–228, is skipped over in this edition by mistake.

24086 — *de Cyri institutione libri VIII.* Græca recognovit, cum codice MS. Oxon. et omnibus fere libris editis contulit, emendavit, versionem lat. reformavit, observationibus suis, tabula geographica, binisque dissertationibus suis præmissis auxit et illustravit, notas Stephani, Leunclavii, Porti et Mureti, variantium lectionum delectum indicesque adjunxit Th. Hutchinson. Ox., th. Sheld., 1727. 4°.

A new recension from a MS. and the earlier editions with Leunclavius's translation corrected, and with explanatory notes. Hutchinson has not however used his critical materials carefully enough, and has often intermixed what is irrelevant in the notes. The edition is however finely printed, and greatly sought after. There are copies of this work, and of the *Anabasis* by the same editor, on large paper, and on very large paper in folio; this latter sort are extremely scarce, and are sold at a very high price; (both vols. 42l. Devonshire, 52l. Grafton, 2550 fr. M^cCarthy.)

24087 — *De Cyri institutione libri*

VIII. Græca recognovit etc. Th. Hutchinson. Lond. 1730, 35, 38, 47, 56, 65, 73 or 82. 8°. Glasg. 1812 or 14. 8°. (158.)

A repetition of the preceding edition with the notes abridged, and with the omission of the two treatises, and of the index of the oriental words.

Zeune vindicated himself against the very unfavourable notice of his edition in the *Allg. deutsch. Bibl.* B. 47. St. 1. p. 243 sq. at great length, and adducing many new philological remarks in the *Berichten der Buchhandlung der Gelehrten*, 1782. St. 1. p. 32 sq.

24089 — *Cyropædia*, e rec. Hutchinsoni, cum selectis ejusd. notis. Access. index græcitat. Editio auctior (curante Sm. F. Nathan. Morus.) Lips., Schwickert, 1784. 8°. (20 gr.) Also on writing paper.

24091 — *Cyropædia*. In usum scholar. recognovit, animadversionibus et indicibus instruxit Gu. Lange. Hal., orphanotroph. 1822. 8°. (2 d.)

24092 — de *Cyri expeditione libri VII.* Græca recognovit, cum codd. MSS. et omnibus fere libris editis contulit, plurimis in locis emendavit, versionem lat. reformavit, observationibus suis, tabula geographica et dissertatione auxit et illustravit, notas Stephani, Leunclavii, Æm. Porti et Mureti recensitas et castigatas, variantium lectionum delectum indicesque necessarios adjunxit Th. Hutchinson. Ox., th. Sheldon., 1735. 4°. — De Agesilao rege oratio. Græca recognovit, cum cod. MS. Harleiano et omnibus fere libris editis contulit etc. (as in the preceding title) Th. Hutchinson. ib., th. Sheld., 1735. 4°.

The above opinion, respecting Hutchinson's edition of the *Cyropædia*, applies also to this work. See also the same notice as to the copies on large paper and on very large paper.

24093 — de *Cyri expeditione libri VII.* (gr. lat.), ex rec. et cum notis Th. Hutchinsoni et alior. Ox., typ. Clarend., 1745. 8°.

The dissertation and various readings of the preceding edition are here omitted. Dn. Dumaresq was the author of the preface and index geogr. of this scarce edition. Reprinted, (*Curante Sm. F. Nathan Moro*) Lips 1775. 8°. The edition, Ox. 1785. 8°. is enlarged with a map; and the editions, Ox. typ. Clarend. 1805 or 1809. 8°. (also on large paper) Glasg. 1813 or 1817. 8°. are enlarged with the various readings and index of Zeune's edition.

24099 — (*historia græca*). Xenophontis omissa, quæ et græca gesta appellantur. G. Gemisti, qui et Pletho dicitur, ex Diodori et Plutarchi historiis de iis, quæ post pugnam ad Mantineam gesta sunt, per capita tractatio. Herodiani historiarum libri VIII. Enarrationum antiquarum et perbreves in totum Thucydidem (omnia gr.) Ven., Aldus, m. Oct. 1503. fol.

156 unnumbered leaves. The scarce

editio princeps of the *Historia Græca*. After the Aldine edition of the whole of Xenophon had appeared in 1525, as copies of the above work were still on hand, the *Hist. Only the first 2 books with Bessarion's Latin translation are to be found in this edition. It is said to contain some good readings of its own. The edition, *Par., Mt. Joensis*, 1559. 4°. contains the text of the preceding edition in the first 2 books, and the Juntine text (as it appears) in the 2 others.

24103 — *ἀπομνημονεύματα* seu Socratis memorabilia curante Pt. Victorio (gr.) Flor., ap. Juntas, 1551. 8°.

24108 — memorabilium Socratis dictorum. atque factor. libri IV. (gr.) Recens. Ch. Gf. Schütz. Ed. II. Hal., Gebauer, 1793. 8°. Ed. III. *ib.*, id., 1822. 8°. (12 gr.)

Schneider's edition of 1801 forms the basis of the Xenophon, Lange's edition (1825) and Bessarion's translation being also made use of. The *Gorgias* is according to Heindorf's text, but the new critical apparatus is not made use of.

24111 — Oratio de Agesilao rege, Hiero, Lacedæmonior. respública, Atheniensium resp. et rationes reddituum (gr. lat.) Recens. Bolton Simpson (cum notis et indice). Ox., typ. Clarend., 1754. 8°. Also on large paper.

Without place or date (*Ven.*, about 1490). fol.

97 leaves with 43 lines, and the signatures *A-E* and *a-m*. In leaf 97^a is to be found the colophon, which is often erroneously applied to the printing of this edition: *Huius autem Cyri pædia idem Fr. Philelfus . . . extremam imposuit manum Mediolani ad XI. cal. Octobr. 1467*. The book ends in leaf 97^b with an epigram by Calliphilus Bernardinus Robiatinus.—Ph. Beronaldus caused the same translations to be printed afresh, *Bonom.*, Ed. Hector, 1502. fol. They also appeared, without place or date (*Lugd.* about 1505). 8°.

The Latin translation of the *Anabasis* made by Lampus Biragus about 1462 (*Fr. Philelfi Epp. Lib. XVIII. ep. 10 and 11*), appears to have been lost.

24129 — opera quæ quidem extant omnia, doctissimor. hominum diligentia in lat. linguam conversa. *Lugd.*, Seb. Gryphius, 1551. 12°. 2 voll.

- 24130 — de Cyri pædia libri VIII. per Fr. Philelfum latine versi. Romæ, Arn. de Villa, 10 Mart. 1474. 4°.

The first edition of this translation. 145 leaves with 32 lines, and with catchwords, but without signatures and numbering of the leaves. It begins with a superscription in small capitals in 4 lines, the first of which is, FRANCISCI PHILELPHI PRÆFATIO IN XE. An epigram of Bernardinus Robiatus in 10 verses ends the work in leaf 145^a, the last line of which epigram is, *Qui cupitis populis reges dominariæ æque*. In most copies the colophon, which mentions the place of printing, the printer and the date, is omitted. Dibdin, who in his *Edes Althorp*. II. 297, seeks for the printer in Padua or Parma, has forgotten to look for the work in Audiffredi, Fossi, and even Brunet. The printer Arnaldus de Villa, of whose typographical productions this is the only one known, is otherwise completely unknown. As Audiffredi has not expressly noted that his types differ from those of Arn. Pannartz, one might almost conjecture that the work proceeded from his press, and that both printers are one and the same; since we find in *Fr. Philelfi Epp.* (Ven. 1502. fol.) lib. XXXII. ep. 16. fol. 225^a, that J. Andreas episc. Aleriensis wished to have had this translation printed so early as 1470, and it is well known that this bishop was the literary agent of Pannartz and Schweinheim's press.

24163 XENOPHON Ephesius. Ephesiæcorum libri V. de amoribus Anthiæ et Abrocomæ. Nunc primum prodeunt e vetusto cod. bibliothecæ monachor. Cassinensium Florentiæ, cum lat. interpretatione Ant. Cocchii. Lond., Bowyer, 1726. 8°. Also in 4°.

The first edition, but very faulty. The copies in 4° are more frequently to be met with than those in 8°.

24164 — ephesiæcorum libri V. gr. Acced. versio lat. Ant. Cocchii, italica Ant. Mar. Salvini, et gallica D. J(ourdan). Lucæ, Bonsignori, 1781. 4°.

A fine edition, but merely an unaltered impression of the preceding bad text, nay even still more faulty.

24165 — τα κατά Ἀνθίαν καὶ Ἀβροκομῆν, νυν πρῶτον ἑλληνιστὶ μετὰ τῆς ἰταλικῆς μεταφράσεως τοῦ σοφωτάτου Ant. Salvini τυπωθέντα. Ἐν Βιεννῇ τῆς Αὐστρίας, 1793. 8°.

The priest Polyzois Kontou was the editor. He merely caused the text of the preceding edition to be printed, without taking the trouble to collate the first London edition, and has quite disfigured it by his most arbitrary and ignorant alterations.

24166 — de Anthia et Habrocome ephesiæcorum libri V. gr. et lat. Recensuit, supplevit, emendavit, latine vertit, adnotationibus alior. et suis illustravit, indicibus instruxit Aloys Emeric. baro Locella. Vindob. (other copies, Lips.). Blumauer, 1796. 4°. (3 d. 8 gr.)

A new recension from a repeated collation of the Florence MS. in portions and from conjecture, with a new Latin translation and copious notes of the editor's own and others.—Mitscherlich's edition with Longus has nothing of its own.

24167 — de Anthia et Habrocome ephesiæcorum libri V. gr. et lat. Recensuit, adnotationibus alior. et suis illustravit Pt. Hofman Peerlkamp. Harlemi, vidua Adr. Loosjes, 1818. 4°. (9 d.) Also on large paper.

As yet the best edition.—Pt. Hofman Peerlkamp Or. de Xenophonis Ephesiæ. Harl. 1806. 8°.

24168 — degli amori di Abrocome e d'Anthia libri V. tradotti dal greco da Ant. Mar. Salvini. Londra (Firenze), Pickard, 1723. small 8°. Ed. II. corretta ed accresciuta. Lond. (Firenze), Pickard, 1757. 12°.

This translation is made from the Greek MS. and appeared before the first Greek edition. The 2nd edition, which contains also two *Cioalate* and one *Cansanetta*, is the best. These additions are wanting in all the subsequent editions of this translation, Fir. 1792. 16°. (as the 1st vol. of the *Romansieri Greci*), *Crisopoli* (Parma), *Bodoni*, 1794. 8°. and, *Par.*, *Renouard*, 1800. 12°. This last is so carefully done by Visconti after the modern corrected Greek text, that it has become an entire new work.

24169 — les éphésiaques ou les amours d'Anthie et d'Abrocomas, trad. en franç. Par., Bauche, 1736 (new title, *Haye*, 1737). 12°. — Les amours d'Abrocome et d'Anthia, histoire éphésienne, trad. par M. J** (J. Bt. Jourdan), avec des notes. Without place (*Par.*), 1748. small 8°. with plates.

The first translation is faithfully made from the original; the other is rather a free work, but with great taste. The

latter also appeared, *Par. an* 5 (1797) 18°. as the 7th part of the *Bibl. des Romans Grecs*.

- 24170 — Anthia u. Abrokomas, aus dem Griech. (von Gf. A. Bürger). Leipz. 1775. 8°. (7 gr.) Etwas von Ephesus, oder Geschichte eines jungen Ehepaars, übs. durch H(äuslein). Anspach, 1777. 8°. (16 gr.)

24184 — the complaint and the consolation, or night thoughts. Lond., Noble, 1797. fol. with plates.

There are also copies with illuminated plates. This unfinished edition, which is no longer to be met with in the market, and is extremely scarce, contains only the first 4 books. The text is in the middle of the page, and in the margin around it are etchings by that eccentric genius W. Blake, from his own designs, which, although very unequal, are yet often of superior merit, but express the unfortunate idea of wishing to interpret Young literally.

24238 ZEILLER, Mt. Topographiæ. Beschreibung u. Abbildung der vornehmsten Oerter. Ff. a. M., Merian, 1642-72. fol. with plates and maps. Usually in 9 or 10 vols.

This work still deserves a place of honour in a German library, and had the German collector combined with his love for books more generally than unfortunately is the case, that feeling for one's own town, and especially for one's own home, which alone excuses many extravagancies of British bibliomaniacs, and even places them in a respectable point of view (*Renouard Catal.* I. 355), this work would have stood at a high price amongst us. If the English possessed so particular a copperplate work of that period relative to the separate counties of their country, what pains would they not take to possess it, to procure distinguished copies, and to complete it from similar contemporaneous works. In Germany the work is sold for little more than the price of waste paper.

The Frenchman Brunet freely informs us, *Qu'il a peu de valeur aujourd'hui*, and one cannot blame a foreigner for such an opinion. Moreover, it is certainly not the text which forms the value of the work, as it consists of ordinary compilation: but the enterprising Merian has acquired so much the greater merit by his plates. These, such at least as are in the volumes that relate to Germany, are made from designs, taken at the very place and spot, and possesses a fidelity of representation which in some degree may be recognized by any one even at the present day. Such is the case, for instance, with the views in the Saxon and Brunswick districts, which nevertheless were at some distance from the artist's own abode. They are besides done for the most part with uncommon care and neatness, and several of them might even make pretensions to a high value as works of art.

The following are the separate topographies of which the work consists:

1. *Austria, Styria, Carinthia, Carniola, Tyrolis*. 1649, with an appendix of 1656. Also with two appendices, 1677.
2. *Bohemia, Moravia, Silesia*, 1650.
3. *Bavaria*, 1644. Appendix, 1656.
4. *Franconia*, (1648.)
5. *Suevia*, 1643. Appendix, 1654.
6. *Palatinatus Rheni*, 1645.
7. *Hassia*. Without date (1646?) Also, 1655.
8. *Archiepisc. Moguntinensis, Trevirensis, Coloniensis*, 1646.
9. *Westphalia*. Without date.
10. *Saxonia inferior*, 1653.
11. *Ducatus Brunsvic. et Luneburg*, 1654.
12. *Saxonia superior, Thuringia, Misnia, Lusatia*, 1650.
13. *Electoratus Brandenburg., Pomerania, Prussia, Livonia*. Without date (1652?)
14. *Circulus Burgund.* 1654. Also 1659.
15. *Alsatia*, 1644 or 1663. Appendix, 1654.
16. *Gallia*. Pars 1-13. 1655-61. (Also in Dutch, *Amst.* 1660. fol. 4 vols.)
17. *Helvetia, Rhatia, Valenia*, 1642. Also 1654.
18. General index, 1672.

According to the index, more does not properly belong to this work. *Italia*, however, which appeared subsequently in 1688, may also be added, as it is got up entirely on the same plan. But the following do not belong to it; *Germania nov-antiqua* 1664, *J. L. Gottfried's Archontologia cosmica*, 1649, and *J. Pt. Lotichii Theatri Europæo-germ. facies* 1646, which Brunet however includes.

A new impression of the 1st vol. appeared in 1786.—*J. F. Kleuker's Anhang zur Zend-Avesta. Riga, Hartknoch, 1781-83. 4°. 5 parts in 2 vols. (6 d. 12 gr.)*

ZORZI, see FR. GEORGIUS.

24268 ZOSIMUS. *Historia nova*, ex rec. F. Sylburgii, cum lat. interpretatione J. Leunclavii et notis varior., accurante Cp. Cellario. Cizæ, Bielcke, 1699. 8°. Ed. II. Jenæ, Bielcke, 1713. 8°.

The first separate edition; it recommends itself by a partial correction of the text, by a division into chapters, and by a good selection of the earlier notes. The first 2 books had previously appeared with H. Stephens's *Herodian* of 1581, and all 6 books in Sylburgius's *Scriptt. Hist. Rom.* T. III. p. 623.

24269 — *historiæ novæ libri sex* (gr. lat.), notis illustrati. Ox., th. Sheld., 1679. 8°.

Th. Spark (according to others Th. Smith) superintended this edition. It has no division into chapters, the selection of the earlier notes is negligently made, and the editor's own notes, which are chiefly apologetical, are superficial and careless. Nothing has been done to the text, and in the first 2 books Stephens's text and not Sylburgius's has been repeated.

24270 — *historiæ*, gr. et lat. Recensuit, notis criticis et commentario historico illustravit J. F. Reitemeier. Ad calcem subjectæ sunt animadversiones nonnullæ Ch. Glo. Heynii. Lips., Weidmann, 1784. 8°. (1 d. 20 gr., on writing paper 2 d. 16 gr.)

Cp. J. Gf. Haymanni Progr. continens notas quasdam ad Reitemeieranam Zosimi editionem. Fridericostad. (Dresd.) 1786. 4°.

24271 — *Geschichte*, aus dem Griech. übs. u. mit Anmerk. begleitet von D. Cp. Seybold u. C. Ch. Heyler. Ff. a. M., Hermann, 1802-4. 8°. 2 voll. (1 d. 16 gr.)—The new history, newly Englished. Lond., Hindmarsh, 1684. 8°.

Cousin's French translation, see under XIPHILINUS, No. 24179.

24272 ZOSIMUS Panopolitanus. *De zythorum confectione fragmentum*,

nunc primum gr. ac lat. editum. Acc. historia zythorum seu cerevisiarum, quarum apud veteres mentio fit. Scripsit Ch. Gf. Gruner. Solisbaci, Seidel, 1814. 8°. (12 gr.)

24273 ZUCCARI. *Illustri fatti Farnesiani coloriti nel real palazzo di Caprarola dai fratelli Taddeo Fred. e Ottav. Zuccari, disegnati ed incisi in rame da G. Gasp. de Prenner. Roma, 1748. small fol.*

This vol. contains 42 leaves, including the title, a portrait, and 4 plans and views of gardens.

24274 ZUCCARO, Fed. *Idea de' pittori, scultori ed architetti. Torino, Serolio, 1607. 4°.*

A work very scarce even in Italy, and greatly prized.

Table générale analytique et raisonnée par Quétant. Par. 1788. large fol. 4 vols. altogether, with plates.*

This work is greatly sought after on account of its 278 plates, although not all the views to be found herein are said to be faithful. It is sometimes bound up in

ZUR

3 or 5 vols. There are copies with plates *avant la lettre*, with the exception of the first 3 numbers or first 36 plates, of which such impressions were neglected to be taken. Of these 36 plates only a few copies were made *avant la lettre* for the engravers, and copies in which all the plates are *avant la lettre* are consequently of the greatest rarity.

The first 36 numbers only, or the first 217 plates, with 2 parts containing text, are also often to be met with by themselves, but they are of little value, as the supplement and *table*, which must be bought to add to them, cost almost as much as the entire work.

The edition in 13 vols. 4°. with the same plates is little sought after.

LIST OF THE JUNTINE TYPOGRAPHICAL PRODUCTIONS.

Ang. Mar. Bandini Juntarum typographiae annales T. I. II. *Lucæ*, 1791. large 8°. forms the groundwork, of which Dibdin in the *Decameron*, T. II. p. 257-280, has given an abridgment, enlarged with a few new notices. Both conclude with the year 1550. I have sought to complete the list from Renouard's Catalogue, Panzer's Annals, some other sources to be relied on, and from my own inspection, but I have not ventured to continue it farther down. It ought also to be observed that care should be taken not to consider as Juntine, certain undated editions of classic authors at the commencement of the 16th century, merely because they have a lily. They are on the contrary quite foreign from this press, and belong rather to Lyons; see Renouard's Catal. IV. 28.

1. THE FLORENCE PRESS.

Philip Giunta was the founder † 1517. From 1518 heredes Ph. Juntas appear, and sometimes Bernardo Giunta alone, who is mentioned exclusively from 1531 and died in 1551. After him his sons carried on the business. For brevity I mark the productions of Philip Giunta with *Ph.*, those of his heirs with *Her.*, those of Bernardo with *Ba.*, and those of Benedict (from 1537) with *Bd.*

Without date.

II. VENICE PRESS.

Lucas Anton. Giunta, its founder, at first only had books printed at other presses at his own expense, but afterwards set up a press of his own, and died between 1537 and

1538. After his death his heirs appeared. For brevity, in those books which were printed at his cost, I have only mentioned the names of the actual printer. His own typographical productions I have marked with *L. A.*, and those of his heirs with *Her.*

*List of the Elzevir impressions of Greek and Latin Classics
and of Ecclesiastical Fathers, in Duodecimo and
smaller sizes.*

ALTHOUGH the Elzevir typographical productions, unsurpassed in their tasteful *ensemble* even to the present day, were already to be found in the *Bibliotheca Hohendorfiana* (*à la Haye*, 1720. 8°. P. III. p. 225-228) as a formal collection, yet they do not appear to have been afterwards regarded as a whole by skilful collectors. It is only most recently, after the desire for collecting, if not almost entirely exhausted, yet at least had arrived at satiety, that attention has again been directed to the productions of these presses, which in France especially has reached its highest point, amounting in some articles even to British Bibliomania, and taking pleasure in more and more raising pretensions to a complete Elzevir collection. The German collector will hardly ever participate in this excessive enthusiasm, however high in other respects he may class the performances of those printers. For it cannot for a moment be denied, that their establishments certainly produced, from a mercantile calculation of present profit, far too much of what is destitute of all value for us at the present day: and ocular inspection also evinces, that many of their productions are in a striking degree deficient in that completeness, for which the majority of them are distinguished. There is also another additional circumstance. It is absolutely certain that many of the Elzevir productions were printed without the mention of their names, and even under the title of a fictitious firm; but we are not justified on that account in receiving into a collection of their typographical productions all those works in which the Elzevir types and printers' marks are to be discovered, as the majority of French collectors have done. It has not been considered in this point, that the Elzevirs probably traded with their types, and that other Dutch printers, as well as they, could obtain their paper from the manufactory of Angoulême. In this way the Elzevir collection would be erroneously overloaded with productions which expressly proceeded from the firms of Vogel, Hercules, Heger, Jansson, Vandyck, and Lopez de Haro. With still greater certainty may those productions with Egmont's name, and those with the symbol of the sphere, for the most part belonging to Blaeu's and Jansson's establishments, be denied to the Elzevirs; and it is quite certain that they had nothing to do with those which appeared under the firms of Abr. Wolfgang, Frick, and Foppens. The German collector is consequently uncertain, how much he should properly admit into the Elzevir collection, and has therefore the right to form it according to his own pleasure, as its limitation is still undetermined. I here exercise this right in confining it to those productions specified in the superscription, without meaning to deny thereby that there may not be much in the other really Elzevir productions, deserving of the attention of a collector in a high de-

gree. Only I could not venture to devise a rule for such farther selection here, because much would depend on an inspection of the individual articles themselves, and especially because the German collectors, at least as yet, have not in general so eagerly regarded the productions of these presses, as has been the case in France. One man will prefer the unacknowledged *Pastissier François* (*Amst.* 1655. 12°.), which is the rarest of the Elzevir books, to all their other productions; others will especially strive to get possession of the earliest editions of *Charon de la sagesse*, the *Colloquia Erasmi* of 1636, the *Œuvres de Regnier*, &c.; others again will introduce into their plan of collection the more important productions that were printed in a larger size (*Goli* and *Scapula lexica*, *Vitruvius*, and the *Corpus juris civilis*, in folio; *Cicero*, *Homerus*, and the *Auctores antiquæ musicæ*, in 4°. &c.): and each is right in his own way. The Elzevir republics however (see the article *RESPUBLICÆ* above) form an appropriate part of the collection, and not without importance in a literary point of view, which in an inconceivable manner have been almost neglected to be taken into account by the French collectors.

Concerning the Elzevirs and their productions, see J. F. Adry's *Notice sur les imprimeurs de la famille des Elzevier* (*Par.* 1806. 8°.), Berard's unsatisfactory *Essai bibliographique sur les éditions des Elzeviers* (*Par.* 1822. 8°. wherewith should be compared my notice of this book in the *Götting. gelehrte. Anzeig.* (1823, No. 128. p. 1273 sq.), and the excellent and solid *Théorie des éditions Elzevieriennes* in the *Mélanges tirés d'une petite bibliothèque par Charl. Nodier* (*Par.* 1829. 8°. p. 1-32). The last essay is the best bibliographical one that has yet been written upon this subject.

The notices that have hitherto been discovered respecting this meritorious family of printers are the following:

1. *Lewis* the elder, of Leyden, was only a bookseller, and at the same time served the office of university beadle, and occurs from 1592 (*Eutropius*) to 1617.
2. *Matthew*, his son, born 1565, married 1591, appears as a printer only in 1618 in company with Bonaventura, and probably soon withdrew from the business, as he died at Leyden on the 6th of December, 1640.
3. *Ægidius*, Lewis's second son, appeared as a bookseller at the Hague in 1599.
4. *Isaac*, Matthew's son, married 1616, printed at Leyden from 1617, and died there in 1628.
5. *Abraham*, Matthew's son, born 1592, married 1621, printed at Leyden from 1622, at first alone, from 1626 with his brother Bonaventura, with whom from that period he appears as the university printer, and died at Leyden on the 14th of August, 1652.
6. *Bonaventura*, Matthew's son, is first mentioned in 1608 (*Scaligeri Epp. ed. Lugd. Bat.* p. 692); he occurs in 1618 in company with his father, and from 1626 with his brother Abraham, and died a few weeks after the latter in 1652 at Leyden.
7. *James*, Matthew's son, married 1620, appeared from 1626 to 1629 at the Hague, but apparently only as a bookseller.
8. *John*, Abraham's son, born 1622, married 1647, in company with his brother Daniel as university printer from 1652 to 1654, continued

to print as such alone from 1655, and died on the 8th of June, 1661. He had at the same time a warehouse at the Hague. After his death his widow Eva van Alphen and his heirs continued the establishment until 1674.

9. *Peter*, printed at Utrecht from 1668 till 1672.
10. *Lewis* the younger, Isaac's son, married 1639, erected an establishment at Amsterdam in 1640, which he conducted alone until 1655, in which year he entered into partnership with his cousin Daniel. Lewis died about 1662.
11. *Daniel*, Bonaventura's son, born 1617, printed with his brother John from 1652 to 1654 at Leyden, then with his cousin Lewis from 1655 to 1662 at Amsterdam, carried on this establishment alone from 1662, appears in 1680 in partnership with Abraham Wolfgang (consult Fr. Deleboe's *Sylvii opera medica*. Amst. 1680. 4°.), but died however on the 13th of September in the same year. His widow, Anna Baerning, continued the business to 1681. Adrian Moetjens of the Hague obtained Daniel's stock on sale, and probably also his printing-office, and he appears to have been actively employed from 1682 to 1700. The reputation of the Elzevir press perished at Daniel's death; for
12. *Abraham* (probably Daniel's son), who occurs as university printer at Leyden from 1689 to 1710, reminds us by no production of his descent from ancestors so skilful in the typographical art.

*Works of German Polite Literature printed in Holland
during the seventeenth century.*

In this small collection little is to be found distinguished for intrinsic value, and, indeed, Opitz, Quevedo, Weckherlin, Weidner, and Zingref, are the only persons who would make any pretensions to literary distinction; but these typographical productions at least recommend themselves to the collector by their neatness and rarity, as well as by their uniformity of size, and on account of a certain interest which they possess with respect to the history of German literature. I myself have doubts of the completeness of the following list, nor would I answer for all the editions herein named, for which reason I have particularly marked those at Dresden and Wolfenbüttel. This attempt, if found worthy of the active regard of German collectors, might probably in the

course of time be gradually extended to all the other German books that were printed in Holland during the 17th century.

POSTSCRIPT.

THE particulars of those other kinds of collections, which have been occasionally regarded, are already given under the articles, BARBOU, BASKERVILLE, BRINDLEY, and DELPHINUS. It may perhaps appear strange not to find many other collections here, which have hitherto been quoted in bibliographical manuals. But it is now high time to discard at once whatever neither answers to the present advanced state of our literature, nor even to the wants of the collector.

This principle finds its first application in the collection of editions *cum notis variorum*, both in octavo and in quarto, which was formerly so eagerly attended to. In the first third of the preceding century, in which Holland and England had acquired an almost exclusive right to the publication of editions of classic authors, combining in the highest degree a complete critical and exegetical apparatus with typographical beauty and equality of size, it might perhaps be possible to include the most satisfactory efforts of that period in favour of classic literature within limits extending only to quarto and octavo volumes. Twenty years afterwards, this was no longer the case. Duker's Thucydides, Alberti's Hesychius, Wesseling's Herodotus, Reimar's Dio Cassius, and other editions, which supplanted the efforts that had been hitherto made, appeared in a larger size, and the idea of a quarto or octavo collection must then have really been given up. But when the German philologists, entering the lists, were active for the same objects in quite a different manner, and with a success, at which even foreign countries could not withhold their astonishment, (proud England itself acknowledged this success at least by disgraceful reprints!) then this collection, *cum notis variorum*, sunk back, as such, into an insignificance, from which the intrinsic value of some articles of that series, which is acknowledged even at the present day, could not raise it up. The French collectors, who, it must be confessed to their honour, were the first to estimate, according to their merit, the value of the German philological efforts, extended the earlier collections to wider limits, and placed the German editions in the room of those which had been supplanted by more modern exertions. By this means, however (especially as the Germans by no means confined themselves to what are called *Standard-editions*), the collection received an arbitrariness and a typographical dissimilarity, which no longer allows the notion to be entertained of a combination under one generally admitted and acknowledged principle. This col-

lection, however, is still to be met with in France on paper, but not in the book-cases of collectors. In Germany it was never thought of in earnest, and is consequently omitted in this work, as we hope, with undoubted justice.

Still less can passing over the series of the Bipont editions excite any surprise. There can now hardly be a difference of opinion, that only some few productions of that press are deserving of a place in the cabinet of a scrutinizing collector, and that the majority of them can make no pretensions to such a reception either in a critical or typographical point of view. The new reprint of Horace of 1828 has again placed this beyond doubt.

With regard to the so called *Anas*, for a list of which the author has been repeatedly solicited, as they are an object of estimation only to a few individuals, and deficient in scientific importance, they by no means belong to a *general* bibliographical dictionary.

Instead of what has been passed over, many other things, hitherto either not regarded at all, or at least not separately classed, might probably deserve notice here. But the termination of the work could no longer be delayed for the completion of inquiries already commenced on that head. They will consequently be reserved for some other occasion.
